PARLIAMENTARY DEBATES

(HANSARD)

SIXTH SERIES—VOLUME 435 (Part 2)

HOUSE OF COMMONS

OFFICIAL REPORT

FIRST SESSION OF THE FIFTY-FOURTH PARLIAMENT
OF THE UNITED KINGDOM OF GREAT BRITAIN
AND NORTHERN IRELAND
FIFTY-FOURTH YEAR OF THE REIGN OF
HER MAJESTY QUEEN ELIZABETH II

SESSION 2005–06

COMPRISING PERIOD
13 June—30 June 2005

PUBLISHED BY AUTHORITY OF THE HOUSE OF COMMONS
LONDON—THE STATIONERY OFFICE LIMITED

£105
(Two parts not sold separately)

HER MAJESTY'S GOVERNMENT

MEMBERS OF THE CABINET

(FORMED BY THE RT. HON. TONY BLAIR, MP, MAY 2005)

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Tony Blair, MP
DEPUTY PRIME MINISTER AND FIRST SECRETARY OF STATE—The Rt. Hon. John Prescott, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Gordon Brown, MP
SECRETARY OF STATE FOR FOREIGN AND COMMONWEALTH AFFAIRS—The Rt. Hon. Jack Straw, MP
SECRETARY OF STATE FOR WORK AND PENSIONS—The Rt. Hon. David Blunkett, MP
SECRETARY OF STATE FOR ENVIRONMENT, FOOD AND RURAL AFFAIRS—The Rt. Hon. Margaret Beckett, MP
SECRETARY OF STATE FOR TRANSPORT AND SECRETARY OF STATE FOR SCOTLAND—The Rt. Hon. Alistair Darling, MP
SECRETARY OF STATE FOR DEFENCE—The Rt. Hon. John Reid, MP
LEADER OF THE HOUSE OF COMMONS AND LORD PRIVY SEAL—The Rt. Hon. Geoffrey Hoon, MP
SECRETARY OF STATE FOR HEALTH—The Rt. Hon. Patricia Hewitt, MP
SECRETARY OF STATE FOR CULTURE, MEDIA AND SPORT—The Rt. Hon. Tessa Jowell, MP
PARLIAMENTARY SECRETARY TO THE TREASURY—The Rt. Hon. Hilary Armstrong, MP
SECRETARY OF STATE FOR THE HOME DEPARTMENT—The Rt. Hon. Charles Clarke, MP
SECRETARY OF STATE FOR NORTHERN IRELAND AND SECRETARY OF STATE FOR WALES—The Rt. Hon. Peter Hain, MP
MINISTER WITHOUT PORTFOLIO—The Rt. Hon. Ian McCartney, MP
LEADER OF THE HOUSE OF LORDS AND PRESIDENT OF THE COUNCIL—The Rt. Hon. The Baroness Amos
SECRETARY OF STATE FOR CONSTITUTIONAL AFFAIRS AND LORD CHANCELLOR—The Rt. Hon. The Lord Falconer of Thoroton, QC
SECRETARY OF STATE FOR INTERNATIONAL DEVELOPMENT—The Rt. Hon. Hilary Benn, MP
SECRETARY OF STATE FOR TRADE AND INDUSTRY—The Rt. Hon. Alan Johnson, MP
SECRETARY OF STATE FOR EDUCATION AND SKILLS—The Rt. Hon. Ruth Kelly, MP
MINISTER OF COMMUNITIES AND LOCAL GOVERNMENT—The Rt. Hon. David Miliband, MP
CHANCELLOR OF THE DUCHY OF LANCASTER— The Rt. Hon. John Hutton, MP
CHIEF SECRETARY TO THE TREASURY—The Rt. Hon. Des Browne, MP

DEPARTMENTS OF STATE AND MINISTERS

Office of the Deputy Prime Minister—
DEPUTY PRIME MINISTER AND FIRST SECRETARY OF STATE—The Rt. Hon. John Prescott, MP
MINISTERS OF STATE—
Minister of Communities and Local Government—The Rt. Hon. David Miliband, MP
Minister for Local Government—Phil Woolas, Esq, MP
Minister for Housing and Planning— Yvette Cooper, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Jim Fitzpatrick, MP
Baroness Andrews, OBE

Cabinet Office—
CHANCELLOR OF THE DUCHY OF LANCASTER—The Rt. Hon. John Hutton, MP
MINISTER WITHOUT PORTFOLIO—The Rt. Hon. Ian McCartney, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
Jim Murphy, Esq, MP

Constitutional Affairs—
SECRETARY OF STATE —The Rt. Hon. The Lord Falconer of Thoroton, QC
MINISTER OF STATE—
The Rt. Hon. Harriet Harman, QC, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Baroness Ashton of Upholland
Bridget Prentice, MP

Culture, Media and Sport—
SECRETARY OF STATE FOR CULTURE, MEDIA AND SPORT AND MINISTER FOR WOMEN—The Rt. Hon. Tessa Jowell, MP
MINISTER OF STATE—
Minister for Sport and Tourism—The Rt. Hon. Richard Caborn, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
David Lammy, Esq, MP
James Purnell, MP

Defence—
SECRETARY OF STATE—The Rt. Hon. John Reid, MP
MINISTER OF STATE—
The Rt. Hon. Adam Ingram, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Don Touhig, Esq, MP
The Lord Drayson

Education and Skills—
SECRETARY OF STATE—The Rt. Hon. Ruth Kelly, MP
MINISTERS OF STATE—
Minister for Schools—The Rt. Hon. Jacqui Smith, MP
Minister for Higher Education and Lifelong Learning—Bill Rammell, MP
Minister for Children and Families—The Rt. Hon. Beverley Hughes, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Maria Eagle, MP
Phil Hope, MP
The Lord Adonis

Environment, Food and Rural Affairs—
SECRETARY OF STATE—The Rt. Hon. Margaret Beckett, MP
MINISTER OF STATE—
Minister for Climate Change and the Environment—Elliot Morley, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Ben Bradshaw, Esq, MP
The Lord Bach
Jim Knight, MP

Foreign and Commonwealth Affairs—
SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP
MINISTERS OF STATE—
Minister for the Middle East—Dr. Kim Howells, MP
Minister for Europe—The Rt. Hon. Douglas Alexander, MP
Minister for Trade—Ian Pearson, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
The Lord Triesman

Health—
SECRETARY OF STATE—The Rt. Hon. Patricia Hewitt, MP
MINISTERS OF STATE—
Rosie Winterton, MP
The Rt. Hon. Jane Kennedy, MP
The Lord Warner
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Caroline Flint, MP
Liam Byrne, Esq, MP

Home Office—
SECRETARY OF STATE—The Rt. Hon. Charles Clarke, MP
MINISTERS OF STATE—
Minister for Policing, Security and Community Safety—The Rt. Hon. Hazel Blears, MP
Minister for Criminal Justice and Offender Management—The Rt. Hon. Baroness Scotland of Asthal, QC
Minister for Immigration, Citizenship and Nationality—Tony McNulty, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Paul Goggins, MP
Fiona Mactaggart, MP
Andy Burnham, MP

International Development—
SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—Gareth Thomas, Esq, MP

Law Officers' Department—
ATTORNEY-GENERAL—The Rt. Hon. Lord Goldsmith, QC
SOLICITOR-GENERAL—Mike O'Brien, QC, MP
ADVOCATE-GENERAL FOR SCOTLAND—The Baroness Clark, QC

Leader of the House of Commons—
LEADER OF THE HOUSE OF COMMONS AND LORD PRIVY SEAL—The Rt. Hon. Geoffrey Hoon, MP
DEPUTY LEADER OF THE HOUSE OF COMMONS—Nigel Griffiths, MP

Northern Ireland Office—
SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP
MINISTERS OF STATE—
The Rt. Hon. Lord Rooker
David Hanson, Esq, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
Angela E. Smith, MP
Shaun Woodward, Esq, MP

Paymaster General's Office—
PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP

Privy Council Office—
LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS—The Rt. Hon. The Baroness Amos

Scotland Office—
SECRETARY OF STATE—The Rt. Hon. Alistair Darling, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE
David Cairns, MP

Trade and Industry—
SECRETARY OF STATE —The Rt. Hon. Alan Johnson, MP
MINISTERS OF STATE—
Minister for Industry and the Regions—The Rt. Hon. Alun Michael, MP
Minister for Energy—Malcolm Wicks, MP
Minister for Trade—Ian Pearson, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Sainsbury of Turville (Minister for Science and Innovation)
Gerry Sutcliffe, Esq, MP (Minister for Employment Relations, Consumers and Fair Markets)
Barry Gardiner, MP (Minister for Competitiveness)
Meg Munn, MP (Minister for Women and Equality)

Transport—
SECRETARY OF STATE—The Rt. Hon. Alistair Darling, MP
MINISTER OF STATE—
Dr. Stephen Ladyman, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Derek Twigg, MP
Karen Buck, MP

Treasury—
PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Tony Blair, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Gordon Brown, MP
CHIEF SECRETARY—The Rt. Hon. Des Browne, MP
PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP
FINANCIAL SECRETARY—John Healey, MP
ECONOMIC SECRETARY—Ivan Lewis, Esq, MP
PARLIAMENTARY SECRETARY—The Rt. Hon. Hilary Armstrong, MP
LORDS COMMISSIONERS—
Joan Ryan, MP
Gillian Merron, MP
Veron Coaker, Esq, MP
Tom Watson, Esq, MP
David Watts, Esq, MP
ASSISTANT WHIPS—
Frank Roy, Esq, MP
Ian Cawsey, Esq, MP
Alan Campbell, Esq, MP
Claire Ward, MP
Parmjit Dhanda, MP
Tony Cunningham, Esq, MP
Kevin Brennan, Esq, MP.

Wales Office—
SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
Nick Ainger, MP

Work and Pensions—

SECRETARY OF STATE—The Rt. Hon. David Blunkett, MP

MINISTERS OF STATE—

Minister for Work—The Rt. Hon. Margaret Hodge, MP

Minister for Pensions—Stephen Timms, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—

The Lord Hunt of Kingsheath, OBE

Anne McGuire, MP

James Plaskitt, Esq, MP

Her Majesty's Household—

LORD CHAMBERLAIN—The Rt. Hon. The Lord Luce, GCVO, DL

LORD STEWARD—The Duke of Abercorn, KG

MASTER OF THE HORSE—The Lord Vestey

TREASURER—The Rt. Hon. Bob Ainsworth, MP

COMPTROLLER—The Rt. Hon. Thomas McAvoy, MP

VICE-CHAMBERLAIN—John Heppell, Esq, MP

CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMEN-AT-ARMS—The Rt. Hon. The Lord Grocott

CAPTAIN OF THE QUEEN'S BODYGUARD OF THE YEOMAN OF THE GUARD—The Lord Davies of Oldham

LORDS IN WAITING—The Lord Bassam of Brighton, The Lord Evans of Temple Guiting CBE, The Lord McKenzie

BARONESSES IN WAITING—The Baroness Farrington of Ribbleton, The Baroness Crawley, The Baroness Royall of Blaisdon

---

SECOND CHURCH ESTATES COMMISSIONER, REPRESENTING CHURCH COMMISSIONERS— Sir Stuart Bell, MP

HOUSE OF COMMONS

THE SPEAKER—The Rt. Hon. Michael J. Martin, MP

CHAIRMAN OF WAYS AND MEANS—The Rt. Hon. Sir Alan Haselhurst, MP

FIRST DEPUTY CHAIRMAN OF WAYS AND MEANS—Mrs. Sylvia Heal, MP

SECOND DEPUTY CHAIRMAN OF WAYS AND MEANS—Sir Michael Lord, MP

CHAIRMEN'S PANEL—
David Amess, Esq, MP, Janet Anderson, MP, Miss Anne Begg, MP, Joe Benton, Esq, MP, John Bercow, MP, Sir John Butterfill, MP, Martin Caton, Esq, MP, Christopher Chope, Esq, MP, Derek Conway, MP, Frank Cook, MP, John Cummings, Esq, MP, The Rt. Hon. Eric Forth, MP, Roger Gale, Esq, MP, Mike Hancock, Esq, MP, Jimmy Hood, Esq, MP, Eric Illsley, Esq, MP, David Marshall, Esq, MP, Edward O'Hara, Esq, MP, Bill Olner, Esq, MP, David Taylor, Esq, MP, The Rt. Hon. Ann Widdecombe MP, David Wilshire, Esq, MP, Ann Winterton, MP, Sir Nicholas Winterton, MP

HOUSE OF COMMONS COMMISSION—
The Rt. Hon. The Speaker (Chairman), The Rt. Hon. Geoffrey Hoon, MP, Chris Grayling, MP, Sir Stuart Bell, MP, Sir Patrick Cormack, FSA

SECRETARY OF THE COMMISSION—David Natzler

ASSISTANT SECRETARY —Tom Goldsmith

ADMINISTRATION ESTIMATE AUDIT COMMITTEE—

SECRETARY OF THE AUDIT COMMITTEE—Dr. Mark Egan

BOARD OF MANAGEMENT—
Roger Sands, (Chief Executive), George Cubie, CB (Clerk of Committees, Department of the Clerk of the House), Peter Grant Peterkin, CB, OBE (Serjeant at Arms), John Pullinger (Librarian), Andrew Walker (Director of Finance and Administration), Lorraine Sutherland (Editor of the Official Report), Sue Harrison (Director of Catering Services)

SECRETARY OF THE BOARD OF MANAGEMENT—Robert Twigger

SPEAKER'S SECRETARY—Peter F. Barratt (Acting)

SPEAKER'S COUNSEL—John Vaux

SPEAKER'S CHAPLAIN—Rev. Canon Robert Wright

MEDICAL ADVISER TO THE SPEAKER—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

PARLIAMENTARY COMMISSIONER FOR STANDARDS—Sir Philip Mawer

PARLIAMENTARY SECURITY CO-ORDINATOR—Peter Mason

13 June 2005

Written Ministerial Statements

Monday 13 June 2005

TREASURY

Finance Bill

The Economic Secretary to the Treasury (Mr. Ivan Lewis): Clause 17 of the Finance Bill entitled, "authorised unit trusts and open-ended investment companies", contains powers to make regulations relating to the taxation of authorised investment funds. In order to inform discussion in Committee of the measures contained in clauses 17 to 19 of the Bill, I am arranging for a description of what these regulations will cover to be placed in the Library of the House.

DEFENCE

Gulf Veterans' Illnesses

The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig): It has been a key principle of the Government's approach to dealing with the concerns of 1990–91 Gulf veterans that the Ministry of Defence will fund appropriate research into Gulf veterans' illnesses issues. In 2003, at MOD's request, the Medical Research Council (MRC) undertook a review of research into Gulf veterans' illnesses and provided recommendations about where future studies should focus. One recommendation was that MOD should pursue research to replicate preliminary US neuro-imaging studies in the UK. The MRC subsequently hosted meetings of experts in order to consider what research might be carried out in the UK. Among the conclusions reached by the expert group was that a major study now underway in the US is likely to be definitive, and that there is no need to replicate the preliminary work in the UK. The group were also unable to identify a specific way in which neuro-imaging studies could provide clear benefit to UK veterans. On 8 June 2005 the MRC advised that based on current evidence they do not recommend that this area of work be taken forward. Taking that advice into account, MOD has decided that it will not now proceed with neuro-imaging studies, although it would not close off the possibility of looking again at this once ongoing US studies have reported. The MOD continues to work with the MRC to take forward other recommendations of the MRC's 2003 review particularly in the area aimed at improving the long term health of veterans with persistent symptoms.

HEALTH

Employment, Social Policy, Health and Consumer Affairs Council

The Minister of State, Department of Health (Ms Rosie Winterton): The Employment, Social Policy, Health and Consumer Affairs Council met on 2–3 June. I represented the United Kingdom. Items on the agenda relating to health were covered on 3 June. Items for discussion were: European Commission proposals for a regulation of the European Parliament and of the Council on medicinal products for paediatric use; and the proposal for a regulation of the European Parliament and of the Council on nutrition and health claims made on foods; the proposal for a regulation of the European Parliament and of the Council on the addition of vitamins, minerals and other substances to food; the proposal for a decision of the European Parliament and of the Council establishing a programme of community action in health and consumer protection; obesity, nutrition and physical activity; combatting HIV/AIDS; and community mental health action.

On the paediatric medicines regulation, the UK supported the European Commission on the length of the supplementary protection certificate extension. The Commission was content with the proposal to incorporate a review mechanism specifically aimed at studying the reward mechanism. The UK spoke in favour of public access to the paediatric clinical trials database. This issue will need to be discussed further by the Council.

All member states voted in favour of a political agreement to the proposed regulation on nutrition and health claims made on food. The UK secured an amendment that safeguarded the development of "signpost" labelling for nutrients. The UK also made statements for the minutes concerning its disagreement on the choice of legal base and the need to ensure that opportunities were taken to reduce authorisation burdens in the next stages of the negotiation.

There was a qualified majority in favour of a political agreement to the proposed regulation on the addition of vitamins, minerals and other substances to foods.

The Council had its first discussion of the Commission's proposed health and consumer protection programme for 2007–13. The Council's exchange of views was structured around presidency questions focused on the health objectives of the proposal. The UK gave its support for the general direction of the new programme but stressed that it would be important to ensure that the programme respected the scope of the treaty.

Ministers unanimously adopted three sets of council conclusions on obesity, nutrition and physical activity, HIV/AIDS and mental health.

Ministers took note of presidency information on: the proposal to amend the council regulation on fees payable to the European Medicines Agency; the international health regulations; the framework convention on tobacco control; the proposal on additives other than colourings and sweeteners to food; and conferences held during the Luxembourg presidency.

Member states also took note of information from the Commission on: the follow-up to the G10 pharmaceuticals process; pandemic preparedness planning; the European Centre for Disease Prevention and Control; environment and health; the high level group on health care and medical services; and follow-up to the tobacco products directive.

On the follow-up to the tobacco products directive, the UK undertook to take forward any work from the Commission and the World Health Organisation that emerged on this issue during the UK presidency of the European Union.

Ministers also discussed the health response to the tsunami in South Asia.

INTERNATIONAL DEVELOPMENT

Sudan (African Union Mission)

The Secretary of State for International Development (Hilary Benn): The African Union mission in Darfur is doing an important job in trying to provide security for the people of Darfur who have suffered too long from this terrible conflict.

Where the AU troops are deployed, there has been a significant improvement in the security situation. But the impact of 3,000 troops is inevitably limited, which is why we fully support their decision to expand the force to more than 7,700. At the same time, we recognise the essentially political nature of the crisis in Darfur and will be supporting fully the Abuja peace talks process.

The UK has played a leading role in assisting the AU mission and I am announcing today that the UK will increase our contribution to the expansion of the mission to £19 million, from the £6.6 million contribution we announced at the AU donors' conference in Addis Ababa on 26 May. This brings our total contribution to AMIS since its inception to almost £32 million.

We will use this money to purchase up to 500 additional vehicles and further rapid deployment equipment. As part of NATO's efforts to assist AMIS expansion, the UK is also ready—subject to AU requirements and other donors' contributions—to support the airlift, co-ordinated by NATO, of up to three battalions into Darfur. The Defence Secretary has also agreed to provide a mobile air movements team of up to 15 people if required. The UK is also keen to provide the AU with technical expertise, and will be talking to the AU secretariat and others about this.

We are also keen to support the civilian police part of the mission. We will support the EU's efforts to offer the AU a package of support, including training for the AU police and technical experts and advisers. We will also build accommodation for AU civilian police in camps for internally displaced people and villages, so that they can be deployed where they are needed most.

The Foreign Secretary and I also wish to announce the appointment of Mr. Alan Goulty as the UK special representative for Darfur. He will support the African Union-led work to achieve a durable political settlement of the Darfur conflict, keeping in regular contact with all the main parties.

Mr. Goulty has an unparalleled knowledge of Sudan, deriving from his previous appointments as British ambassador to Khartoum, director for the middle east and north Africa in the FCO, and, from 2002 to 2004, as the United Kingdom's special representative for Sudan, where he played a key role in the successful negotiations of the comprehensive peace agreement, which ended the 21 year civil war in Sudan. He will perform his new role in addition to his current responsibilities as British ambassador to Tunis.

This appointment marks the UK's continuing commitment to achieving lasting peace throughout Sudan, including in Darfur. This cannot happen without a political settlement in Darfur.

NORTHERN IRELAND

Ilex Urban Regeneration Company Limited

The Minister of State, Northern Ireland Office (Mr. David Hanson): Along with Jeff Rooker, Minister of State for the Office of the First Minister and Deputy First Minister, I have deposited copies of the annual report and financial statements of Ilex URC Ltd. for the year ended 31 March 2004 incorporating the auditor's report in the Libraries of both Houses.

Public Prosecution Service

The Secretary of State for Northern Ireland (Mr. Peter Hain): Together with my noble Friend the Attorney-General I am pleased to announce today the launch of the Public Prosecution Service for Northern Ireland.

This new service was one of the main recommendations of the Criminal Justice Review, which was published in March 2000. The review itself stemmed from the Belfast agreement. The recommendations of the review were implemented by the Justice (Northern Ireland) Acts 2002 and 2004.

The Public Prosecution Service will take responsibility for all prosecutions arising from a police investigation. It will provide an enhanced service for victims and witnesses, and encourage greater provision of prosecutorial and pre-charge advice to police. All charges will be reviewed by a public prosecutor before first appearance at court to ensure the case is properly brought. Prosecutions in the magistrates, youth and county courts will be carried out by public prosecutors. The new service will make use of the range of diversionary opportunities including informed warning, caution and youth conferencing as well as a range of restorative justice measures.

The number of cases dealt with by the service will increase from approximately 10,000 cases per year to more than 70,000 cases because it will take over all prosecutions originally conducted by the police. This increased demand will be met by a considerable increase in the number of lawyers, support and administrative staff. The current workforce of 150 staff and 40 lawyers will increase to 550 staff with 165 lawyers. The new service will grow to become one of the larger employers in Northern Ireland and the largest employer of lawyers and legal staff.New staff will be subject to an intensive six month training programme. It is a programme that ensures prosecution staff are not only knowledgeable in the law, but in the standards of fairness and of human rights that form the basis of any fair prosecuting authority. The training programme has already won a regional award in a National Training Awards UK competition.

The new Public Prosecution Service will operate an enhanced case management system. When the Causeway project goes on line on 21 June 2005, it will enable the service to receive files electronically. These, and other changes, will promote efficiency and help reduce the causes of delay.

The new Prosecution Service will also follow the recommendation of the Criminal Justice Review and be a regional service. It will have a devolved structure with regional prosecutors and five regional offices based in Ballymena, Lisburn, Londonderry, Newry and Omagh. This will not only allow for greater involvement with the community at a local level but will also create jobs in the regions.

The Director of Public Prosecutions for Northern Ireland is publishing a code of practice, which includes a code of ethics. These detailed documents will provide for the first time in Northern Ireland a detailed explanation of the factors and considerations taken into account in deciding on a prosecution and will set out the standards by which the prosecution will carry out its task. The code is the result of two periods of public consultation.

A copy of the code will be placed in the Library of the House.

TRANSPORT

Merseytram

The Secretary of State for Transport (Mr. Alistair Darling): I have considered very carefully all the information that Merseytravel has provided for Merseytram Line 1.

I provisionally approved a Government contribution of £170 million, in cash terms, towards the cost of Merseytram Line 1. That commitment remains if the scheme can be delivered at that cost. However, it has become increasingly clear that there is a problem with the cost of the scheme. The public sector cost has increased by 40 per cent. since I gave provisional approval, and that is for a smaller scheme.

In December 2002 the scheme was given provisional approval at a public sector cost of £225 million, in cash terms, with a capped DfT contribution of £170 million.

In November 2004 Merseytravel advised the Department that the public sector cost was £325 million. The Department's contribution was then presented as £204 million. That was for a reduction in scope, compared with the scheme we approved. If the northern loop was still included, that would have added around £25 million to the costs, bringing the cost increase for the original scheme to over 50 per cent.

In February 2005 Merseytravel submitted a claim for £4.2 million towards the preparatory costs incurred. This was in addition to the £204 million contribution it was seeking from the Department.

In February 2005 it also became clear that Merseytravel would seek additional funding from the Department if its proposal for a finance lease did not proceed as proposed. This assumed the Department would pay all its contribution upfront and allowed Merseytravel, in effect, to take advantage of the leasing company's tax allowances, providing Merseytravel with an extra £30 million but at a cost to the Government and taxpayer. The Department advised Merseytravel that this was an unusual arrangement for the public sector, which would need careful consideration within Government. I have concluded that I cannot approve it.

The Department told Merseytravel in March 2005 that under the new approach to approvals a final decision on whether to fully approve the scheme would not be made until the prices and risk allocation were firm, based on negotiated terms. Merseytravel advised the Department in May 2005 that, following negotiations with the preferred bidder, the total public sector cost was £315 million. But with the proposed local contribution of £77 million, the Government's contribution would be £238 million.

Last summer Merseytravel was confident of delivering the scheme for the agreed Government contribution of £170 million. Since last November, when Merseytravel put forward a revised public sector cost of £325 million, the Department has kept closely involved with the way the costs have developed. Merseytravel has managed to bring the costs down at the margin, reducing the total funding requirement by £10 million. However Government's contribution remains at some £238 million—40 per cent. more than the original capped figure of £170 million.

I appreciate that Merseytravel has made every effort to keep costs under control. However, it is clear that costs remain significantly higher than those that I approved, and that this scheme is an expensive way of delivering these transport benefits for Merseyside. Whilst I support tram schemes, I cannot do so at any cost. In the light of all the information I have therefore concluded that I cannot approve the proposal for Line 1.

I recognise that transport investment is needed in Merseyside to tackle the current problems and to support the future growth of the city. We have committed over £200 million to transport improvements in Merseyside over the last five years, and I intend to continue to support good value schemes in the area.

The £170 million that I committed to Merseytram Line 1 remains available if the scheme can be delivered at that cost. If it cannot, a great deal can still be done for Merseyside through other transport improvements; the Department would welcome a discussion with Merseytravel to develop a good value package of improvements, especially for improved public transport for the areas that would have been served by the tram. The funding will be there for the right proposals.

Written Ministerial Statements

Tuesday 14 June 2005

DEFENCE

Defence Vetting Agency

The Minister of State, Ministry of Defence (Mr. Adam Ingram): Key targets have now been set for the acting chief executive of the DVA for the financial year 2005–06. Building upon the progress made since it formed in 1997, these incremental targets will help the agency to become more responsive to its customers by processing security clearances more quickly, without any loss of quality.

KEY TARGET 1: Externally validate quality to:

achieve at least a 98 per cent. success rating with cases independently selected at random.

achieve no serious errors that should have been identified at the time of vetting.

KEY TARGET 2: To complete the vetting review backlog programme by:

reducing the developed vetting review backlog to zero by 31 March 2006.

completing a further 33 per cent. of the security check review backlog programme.

KEY TARGET 3: To improve the completion time of routine cases to:

75 per cent. of basic checks in six calendar days.

75 per cent. of enhanced basic checks in 10 calendar days.

75 per cent. of security check transfers in 12 calendar days.

62 per cent. of counter terrorist checks in 30 calendar days.

65 per cent. of security checks in 30 calendar days.

83 per cent. of developed vetting in 100 calendar days.

KEY TARGET 4: To improve the completion time of priority cases to:

75 per cent. of basic checks and enhanced basic checks in three calendar days.

85 per cent. of counter terrorist checks and security checks in 10 calendar days.

70 per cent. of developed vetting in 30 calendar days.

Note: Volume of priority cases to be no more than 10 per cent. of total requests per month.

KEY TARGET 5: To achieve average completion times of:

six calendar days for basic checks.

10 calendar days for enhanced basic checks.

30 calendar days for counter terrorist checks.

12 calendar days for security check transfers.

30 calendar days for security checks.

70 calendar days for developed vetting.

Note: The above timeliness targets represent net performance that excludes delays outside of DVA control.

KEY TARGET 6: To reduce the unit cost of output by 2 per cent.

Copies of the DVA corporate plan will be placed in the Libraries of both Houses.

C Vehicle Capability

The Minister of State, Ministry of Defence (Mr. Adam Ingram): I am pleased to announce that the Amey Lex consortium has been awarded a contract to provide the armed forces with a new generation of heavy plant equipment, logistic support and construction machines, collectively known as C vehicles, under a private finance initiative deal. The contract is valued at over £600 million for the 15-year period.

The C vehicles will be used for earthmoving, digging, dozing, lifting and for transporting combat supplies around the battlefield. The great utility of this equipment has been seen on recent operations, building and maintaining the infrastructure for our troops.

Sourcing the equipment through a PFI deal will provide a more rapid fleet turnover, especially in the early years of the contract, which will allow changes in technology and fleet management processes to be introduced quickly, reducing the maintenance and supply burden thereby benefiting front-line troops.

The best elements of commercial practice will be used to support maintenance and repair, providing the opportunity to reduce spares holdings and to adopt a strategic pooling approach to the provision of the capability.

FOREIGN AND COMMONWEALTH AFFAIRS

Zimbabwe

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): The most recent events in Zimbabwe are of grave concern. Zimbabweans are deprived of their democratic and human rights, facing the consequences of chronic economic misrule, and grappling with severe food shortages. Over the last three weeks the Mugabe regime has launched a brutal crackdown on some of the most vulnerable Zimbabweans, including inhabitants of urban shanty settlements and informal traders.

Over 30,000 have been arrested, with over 40,000 households (approximately 200,000 people) affected with their homes and businesses callously destroyed. People suffering from AIDS are amongst the worst affected. Many chronically ill people have been driven from their homes. HIV prevention and home-based care programmes have been severely disrupted. We are also very concerned about the welfare of children. Infants have been forced to sleep outside in the middle of winter. There are also reports of children being detained in prison and separated from their parents. The crackdown continues to spread across the country to many urban and some rural areas. Armed police have swiftly crushed any resistance with teargas. This action has received widespread international condemnation. The UN's special representative on the right to adequate housing called this a new form of apartheid.

In response, we have joined our EU partners in demanding that the Government of Zimbabwe end this crackdown, in a statement on 7 June. Our ambassador in Harare has raised our strong concerns, directly to the Government of Zimbabwe, in meetings with the vice president and the Minister of State for National Security. My noble Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Lord Triesman of Tottenham) summoned the Zimbabwean charge d'affaires on 13 June to protest at the continuing human rights abuses under the ongoing crackdown. We remain in close contact with our EU partners, with whom I raised Zimbabwe at the 13 June General Affairs and External Relations Council. We also continue to work with other international partners to maximise the pressure on Zimbabwe to end this brutality and are discussing these and other human rights abuses in Zimbabwe, with neighbouring African states and regional African bodies.

DFID are already responding to this man-made disaster, providing US$ 400,000 so far towards humanitarian assistance to the most vulnerable mainly through the UN and International Organisation for Migration. A further contribution is imminent. To date, over 5,000 families have been reached with food, blankets, soap and other forms of assistance. Where appropriate transport and emergency water and sanitation has been provided.

Since 2002 the European Union has imposed targeted sanctions on Zimbabwe; an arms embargo on the country and a travel ban and asset freeze on President Mugabe and leading regime figures. The EU's common position is kept under regular review. Together with our EU partners we have recently reassessed the situation in Zimbabwe following the March parliamentary elections. We agreed yesterday in the light of that assessment to extend the list of those regime figures caught by the travel ban and asset freeze, from 95 to 120 names. The new list includes all the senior members of the new Government and politburo, and senior figures involved in manipulating the election.

This decision emphasises the EU's continued concerns about the lack of democracy and respect for human rights and the rule of law that exists in Zimbabwe, and the failure of Mugabe and his regime to respond to international calls for reform.

Her Majesty's Government will continue to work with the European Union and our other international partners to restore democratic governance, human rights and the rule of law to Zimbabwe.

HOME DEPARTMENT

Accommodation Centres

The Minister for Immigration, Citizenship and Nationality (Mr. Tony McNulty): After detailed consideration, I am announcing today that we will not proceed with the construction of an accommodation centre for asylum seekers at the former MOD site outside Bicester in Oxfordshire. Neither will we proceed with accommodation centres at any other potential site. We are, however, considering the merits of establishing a new, purpose-built, secure removal centre at the Bicester site, as part of an ongoing review and expansion of the removals estate.

The total cost of the Bicester project to date, since its inception in 2001, has been £18 million, including the costs of purchasing the land and the on-site preparatory works. Of this, it is estimated that approximately £8 million represents work which will be of direct benefit to the establishment of the proposed new removal centre and will therefore not need to be repeated should that centre proceed.

Since the project to establish accommodation centres began in 2001, the situation on asylum has changed very significantly. First, the rate of asylum applications has fallen sharply. The monthly rate, which was almost 6,000 at the end of 2001, and peaked at over 8,000 in 2002, has fallen to a little over 2,000 in recent months.

Secondly, significant progress has been made in the efficient handling of applications, such that initial decisions are now taken within two months on over 80 per cent. of new applications.

Thirdly, the five-year strategy for immigration and asylum published in February, "Controlling our borders: making migration work for Britain", will introduce more fast-tracking of asylum claims, closer control of the entire process, and the development of an underpinning new asylum model. Central to this approach will be the use of removal centres.

I will make a further statement on the future of the Bicester site later in the year, once more detailed work on the proposed removal centre has been completed.

PRIME MINISTER

Independent Honours Committee

The Prime Minister (Mr. Tony Blair): An important milestone has been reached in the programme of reform of the honours system.

After an open selection process, which followed the requirements of the code of practice of the Commissioner for Public Appointments, the following have agreed to serve as chairs of the specialist committees which advise the Secretary of the Cabinet on candidates for honours:

Arts and Media: Lord Rothschild, OM, GBE (chairman of J Rothschild group of companies, first chairman of the Heritage Lottery Fund and deputy chairman of BSkyB).

Community, Voluntary and Local Services: Lord Newton of Braintree, OBE (former Secretary of State for Social Security and current chair Council on Tribunals and chair Help the Hospices).

Economy: Sir John Collins (chairman Dixons Group plc).

Education: Dame Alexandra Burslem, DBE (vice-chancellor of Manchester Metropolitan university).

Health: Dame Carol Black, DBE (president, Royal College of Physicians and Professor of Rheumatology at the Royal Free and University College medical school London).

Science and Technology: Lord May of Oxford, OM, AC (president of the Royal Society).

Sport: Lord MacLaurin of Knebworth (chairman of Vodafone Group plc former chairman of the England and Wales Cricket Board UK Sport Council and Tesco plc).

State: Sir David Cooksey (chair of Advent Venture Partners and director of the Bank of England 1994–2005 chairman of the Audit Commission 1986–1995).

The next stage is the selection of the independent members of the committees from people who responded to the advertisements in the press, the Public Appointments Unit and elsewhere. The chairs of the new committees will take a leading role.

Further announcements will be made when the new committees have been formed.

TRADE AND INDUSTRY

Energy

The Minister for Energy (Malcolm Wicks): We are today announcing two significant developments in Government energy policy. The first is the publication of a carbon abatement technology strategy for fossil fuel use. The second is our response to the proposals made in the independent report we have received from consultants on a strategic framework for a future hydrogen economy. We are committing some £40 million of capital grants to stimulate the development of these technologies and of fuel cells. Around £25 million is expected to be allocated for demonstration of carbon abatement technologies with £15 million going to hydrogen and fuel cells.

Reaching the UK's target of cutting carbon emissions by 60 per cent. by 2050 requires action now that will enable us to use coal and gas more cleanly. We must of course maintain the very significant momentum already built towards renewables and energy efficiency; but in parallel, cleaning up our use of fossil fuels, developing the vast potential of hydrogen and fuel cells, and keeping UK industry on the front foot are vital long term objectives.

Fossil fuels will continue to be a dominant source of power for decades to come, with about 75 per cent. of UK electricity still likely to be coming from these sources by 2020. The carbon abatement technologies strategy has been designed to promote a twin track approach towards more efficient plant producing lower emissions, together with carbon capture and storage which would enable the remaining carbon to be captured before it escapes to atmosphere and stored in geological formations. At the same time, with major expansion of coal fired power generation expected in China and India, we want to put the UK at the forefront of what could be valuable export opportunities.

Fossil fuels, particularly natural gas, will be the principal source for the first generation of hydrogen production. The UK hydrogen energy strategic framework report provides an objective analysis of the benefits to the UK of moving towards a hydrogen future. It shows that hydrogen could provide competitive low carbon energy for transport from a range of secure energy sources. Though the technical and economic challenges are significant hydrogen has great long term potential and the UK needs to put itself on the path to reap the benefits. Fuel cells also have significant potential in non-transport applications, for example natural gas fuel cells have the prospect of becoming viable for stationary power generation over the next few years.

We are today also announcing our intention to establish a hydrogen co-ordination unit which will help to bring together existing and future activity on hydrogen within an overall strategy. It will help to ensure that the UK's participation in international initiatives such as the international partnership for the hydrogen economy is fully effective and benefits both the UK and our international partners.

Across all the technologies there are very major EU and wider international interest and activity offering significant opportunities for British businesses. One of the aims of the hydrogen and CAT strategies is to position the UK to capitalise on this.

WORK AND PENSIONS

Benefit Fraud Inspectorate

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the benefit fraud inspectorate (BFI) has today announced its phase 12 programme of work. It is important that local authorities deliver housing benefits services that meet customer needs and protect public money. There is still too wide a gap between those authorities delivering an effective, secure service and those that are not.

The BFI programme covers six authorities that were taking significantly longer to process new benefit claims than the average of 42 days in the quarter ended December 2004. The authorities are Rhondda Cynon Taff county borough council, Rugby borough council, the royal borough of Windsor and Maidenhead, Havant borough council, Highland council and Cardiff council.

BFI will also be undertaking seven inspections of authorities that have a low level of prosecutions and sanctions. These inspections will focus on the adequacy of counter-fraud and verification arrangements in Cannock Chase district council, Waverley borough council, borough of Poole, West Devon borough council, Weymouth and Portland borough council, Mendip district council and Clackmannanshire council.

A full inspection of Ceredigion county council will be undertaken as this authority's benefits service was found to be at risk following assessment as part of the Wales programme for improvement.

I am pleased to announce that planned inspections of Malvern Hills district council and Mansfield district council will not go ahead because both councils have shown significant improvements in their performance.

BFI is an independent unit within the Department for Work and Pensions that inspects and reports directly to the Secretary of State for Work and Pensions on the effectiveness and security of benefits administration in local authorities and the Department.

Written Ministerial Statements

Wednesday 15 June 2005

CABINET OFFICE

Civil Service (Fast Stream Recruitment)

The Chancellor of the Duchy of Lancaster (Mr. John Hutton): The 2004 Fast Stream Recruitment report was published online at http://www.cabinetoffice.gov.uk today. It covers the 2004 schemes covering the period April 2003 to November 2004, and reports the results of the fast stream competitions completed during that period, together with the developments that have taken place.

The standard of entry to the fast stream recruitment scheme has remained consistently high and the report shows that the civil service has continued to have increasing success in filling its vacancies.

Women applied in slightly reduced numbers during the 2004 scheme however, in terms of their progress through the selection process female applicants were more successful than their male counterparts in the general fast stream and economist schemes.

The proportion of candidates from ethnic minority groups dropped from the previous year, down by 2.4 per cent. We have increased our marketing and outreach activities to this audience, the selection process has been updated and there is early indication of improved figures.

The percentage of candidates declaring a disability rose again this year from 2.4 per cent. in 2003 to 3.2 per cent. in 2004. Those recommended for appointment rose from 3.5 per cent. in 2003 to 7.3 per cent. in 2004.

DEFENCE

Armoured Vehicle Training Service

The Minister of State, Ministry of Defence (Mr. Adam Ingram): I am announcing that the Ministry of Defence has decided to seek an alternative to the current private finance initiative (PFI) solution for the armoured vehicle training services (AVTS).

A detailed assessment of the Landmark Training Ltd consortium's bid has concluded that the PFI deal did not offer an acceptable value for money solution to meet the capability that the MOD required.

I realise that this will be disappointing for the bidders. However, robust decisions need to be taken and we will only proceed with such a long-term commitment of public money where we are confident of a successful, value for money outcome for our armed forces and the taxpayer.

Improvements to our armoured vehicles training will continue. This change in direction will allow us to examine other procurement options. We plan to take advantage of emerging technology and best practice as it develops in the commercial training areas, which could include public-private partnership forming part of the overall future solution. In the meantime, the quantity and quality of existing armoured vehicles training will be maintained to support the professional performance of our armoured fighting vehicle crews as exemplified in Iraq.

Although not continuing with this PFI, the MOD will continue to use PFI where it can be shown to deliver better value for money as exemplified by the recent PFI deal with the Amey Lec consortium to provide C vehicles for the armed forces.

HOME DEPARTMENT

British Citizenship

The Minister for Immigration, Citizenship and Nationality (Mr. Tony McNulty): The Government believe strongly that the acquisition of British citizenship should be recognised and celebrated as a crucial stage in integration into British life. To that end it has introduced citizenship ceremonies and has taken powers to specify the knowledge of language and life in the United Kingdom which new citizens should possess. I am pleased to be able to announce the next stages in the implementation of those changes. While the arrangements announced today relate primarily to those seeking citizenship through the medium of English, special arrangements will be made to allow people wishing to apply through the medium of Welsh or Scottish Gaelic to do so. A separate statement on the implementation of similar tests for those seeking permanent settlement in the UK, announced in principle on 7 February in "Controlling our Borders", the five-year strategy for asylum and immigration, will be made in due course.

The Nationality, Immigration and Asylum Act 2002 amended the British Nationality Act 1981 to require those seeking naturalisation as British citizens to demonstrate sufficient knowledge of life in the UK as well as knowledge of English. The way in which these provisions should be implemented was considered by an independent group under the chairmanship of Professor Sir Bernard Crick. The group published its final report "The New and the Old" in September 2003; and in a written ministerial statement on 2 February 2004, Baroness Scotland of Asthal, on behalf of the Government, accepted the majority of their recommendations. An advisory board on naturalisation and integration has now been set up to monitor and advise on their implementation.

Regulations came into force on 28 July last year specifying that all those applying for naturalisation must demonstrate knowledge of English to the standard of English for speakers of other languages (ESOL) entry 3. We are now looking forward to the next stages of the process, which will be the commencement of the requirement that intending new citizens should demonstrate knowledge of life in the UK and the introduction of regulations which will set out how such knowledge is to be demonstrated. The regulations will come into force on a date to be announced later this year and from then new applicants will have to demonstrate both knowledge of language and of life in the UK. Applications received before the requirement is introduced will not be affected by this change.

It is envisaged that there will be two principal methods by which intending citizens based in the UK can demonstrate their knowledge of language and of life in the UK. First, applicants who are at or above ESOL entry 3 standard of English will be able to undertake a specially developed short test of knowledge of life in the UK. Subject to contract, these tests will be prepared and administered by Ufi Ltd. and will be available to be taken on computer at many of their existing learning centres throughout the UK. There will be different versions of the test, including variations appropriate to the devolved Administrations. The tests will be based on the information contained in the handbook "Life in the United Kingdom: A Journey to Citizenship", prepared by members of the independent group chaired by Sir Bernard Crick, which was published on 15 December and is available from The Stationery Office.

To make the whole process more convenient and cheaper to applicants, the Government have decided that successful completion of this test will remove the need for applicants to provide separate evidence of language ability, as it will be set at a level that requires language skills at or above ESOL entry 3 level. In the light of this decision, the Government have decided not to add elected representatives or any other group to the list of people designated under existing legislation as able to certify that applicants for naturalisation are fluent in English.

The second method is for those potential new citizens assessed as below ESOL entry 3. They will be able to meet the new requirements by successfully completing new "ESOL-with-citizenship" classes—language courses involving learning materials which incorporate information about life in the UK. These materials have been designed for delivery in the context of the new DfES "ESOL-Skills for Life" suite of language qualifications or equivalents in other jurisdictions; they have been developed by the National Institute of Adult Continuing Education (NIACE) in conjunction with the London Language and Literacy Unit and are faithful to the concepts outlined in "The New and the Old". They are intended to enable a student to gain sufficient knowledge of the UK at the same time as developing their knowledge of the English language.

Again the Government intend to make this as convenient as possible by providing that a person who successfully completes one of these programmes (which, in accordance with normal practice, will be pitched at the appropriate level for their learning needs) will not have to take separate tests in English or knowledge of life in the UK.

The Secretary of State retains discretion to grant citizenship to applicants who cannot satisfy the above conditions because of age or infirmity but who meet all the other requirements for naturalisation as a British citizen.

The new ESOL-with-citizenship classes are already being piloted in 18 Learning and Skills Council areas, including at adult, community, further education and sixth-form colleges. The courses have now been validated, and the Home Office and Department for Education and Skills will continue to work together to make them widely available.

As was emphasised in "The New and the Old", the availability of good quality English language teaching is crucial to the success of the new arrangements. ESOL provision to meet adult language needs has increased significantly over the last three years, in cost, volume or provision and in terms of the range of groups able to access it. The Department for Education and Skills is working with the Learning and Skills Council at national, regional and local levels to improve the planning, delivery and quality of ESOL provision with the aim of targeting it more effectively so that priority needs can better be met.

Prison Service (Sustainable Development)

The Parliamentary Under-Secretary of State for the Home Department (Andy Burnham): I will today place in the Library of the House copies of HM Prison Service's third annual sustainable development report, covering public sector prisons in the period April 2004 to March 2005.

The report sets out the progress being made by the service in addressing its sustainable development commitments. Significant achievements include introducing a biodiversity action plan for the whole of the public sector prison estate; establishing waste management units at individual prisons; reducing the service's carbon dioxide emissions by 7 per cent; and introducing an environment manual to improve prisons' environmental performance. In addition, the report addresses the service's impacts in respect of reducing re-offending and improving prisoners' prospects on release.

The report also details the service's future aims, particularly for meeting the targets set under the Government's framework for sustainable development on the Government estate and the initiatives planned to continue its successes.

NORTHERN IRELAND

River Agency

The Parliamentary Under-Secretary of State for Northern Ireland (Angela E. Smith): My hon. Friend the Minister of State for Northern Ireland has made the following ministerial statement:

"Rivers Agency is an Executive agency of the Department of Agriculture and Rural Development for Northern Ireland. It acts on behalf of the Department as the statutory drainage and flood defence authority for Northern Ireland.

The following key targets have been set for the agency for the 2005–06 business year:

	Key Targets
Urban Flood Defences:	To construct or refurbish 286 metres of urban flood defences.
Drainage Infrastructure:	To accommodate increased storm run-off from 79 hectares of development land. To replace/refurbish 646 metres of dangerous culverts.
Maintenance Watercourses:	To complete identified maintenance works on 1,167 of the 1,617 designated open watercourses included in the notice of annual maintenance as part of a six-year scheduled maintenance programme.

	Key Targets
Replies to written enquiries:	To issue substantive replies to 80 per cent. of written enquiries within 15 working days of receipt.
Schedule 6 applications:	To respond to 98 per cent. of schedule 6 applications within three months."

WORK AND PENSIONS

Benefit Fraud Inspectorate (Debt Management)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the benefit fraud inspectorate (BFI) inspection report on debt management—handling of complaints and comments was published today and copies have been placed in the Library.

The Department for Work and Pensions administers a wide range of benefits, paying out some £110 billion in 2003–04. As a result of customer or official error, from taking out loans from the Department or from fraud, people can find themselves in debt to the Department. The Department has an obligation to protect public funds and debt management is responsible for the recovery of these debts. In 2004–05 it recovered £190 million.

BFI looked at debt management's recovery procedures and in particular at how they handled complaints and comments from customers. A lack of corporate processes, limited procedures and little guidance for staff led to inconsistencies in approach and to some examples of poor customer service.

In response to the BFI findings debt management has redesigned its business process and is currently implementing a new IT system which promises significantly to improve its efficiency in the recovery of debts and handling of customer complaints.

My right hon. Friend the Secretary of State is now considering the report and the action plan produced by debt management in response to BFI's report.

Written Ministerial Statements

Thursday 16 June 2005

CABINET OFFICE

Departmental Report (2005)

The Chancellor of the Duchy of Lancaster (Mr. John Hutton): I have today, with my right hon. Friend, the Chief Secretary to the Treasury, laid before Parliament the "Cabinet Office Departmental Report 2005" (Cm 6543).

The departmental report describes the work of the Cabinet Office and includes a performance report for each of our public service agreement targets. The report contains information on how the Department is structured to deliver our objectives, outlines the priorities ahead and also includes a set of tables showing past outturn and future expenditure plans.

Copies are available in the Vote Office and in the Library.

CONSTITUTIONAL AFFAIRS

Review of Statutory Prohibitions on Disclosure

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): My noble Friend the Parliamentary Under-Secretary of State has made the following written ministerial statement in the other place.

"Today I have deposited copies of the report on the "Review of Statutory Prohibitions on Disclosure" in the Libraries of both Houses.

The review stems from the order-making power in section 75 of the Freedom of Information Act 2000 to remove or relax statutory prohibitions on disclosure. The report gives details of all the provisions examined during the course of the review and sets out the Government's intention in relation to each of them. Of the 183 provisions which were reviewed and found to be within the scope of the power, 13 have already been amended using that power, and a further 59 will be repealed, amended or time-limited.

The Government will continue to assess the scope for further amendments or repeals to the remaining prohibitions on disclosure. Beginning in 2005, the Government will prepare and bring forward a series of orders under section 75 of the Freedom of Information Act 2000, giving effect to the commitments made in this report".

DEFENCE

Defence Estates (Corporate Plan)

The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig): I have set out the following key targets for 2005–06 for Defence Estates, as laid out in the agency's corporate plan 2005–2010:

KEY TARGET 1

To improve the defence estate in a sustainable manner to improve its fitness for purpose and condition by:

Delivering 2,500 single living accommodation grade 1 bed spaces under project SLAM, reporting on the provision of 5,300 bed spaces under parallel projects and delivering 600 upgraded service families accommodation properties by 31 March 2006.

Developing integrated estate management plans, in conjunction with customers, as a baseline for measuring improvements to target condition of assets.

Ensuring that 75 per cent. of MOD sites of special scientific interest in the UK meet the criteria for satisfactory condition by 31 March 2006.

Achieving 80 per cent. of a basket of sustainable development in Government targets against a 2004–05 baseline by 31 March 2006.

KEY TARGET 2

To provide an estate of the right size through the consolidation of assets by:

Providing an estate of the right size, through the implementation of estate rationalisation plan projects.

Achieving accrued estate disposal receipts of £250 million by 31 March 2006.

KEY TARGET 3

To improve customer satisfaction and service delivery by:

Achieving 90 per cent. of customer supplier agreement targets by 31 March 2006.

Developing a new and robust customer satisfaction survey for occupants of service families accommodation.

KEY TARGET 4

Achieve key milestones for implementation of key MOD change initiatives by:

Awarding the regional prime contract (central) by September 2005 and regional prime contract (east) by October 2005.

Awarding the housing prime contract by August 2005.

Implementing the changes in estate working practices in Northern Ireland and the other residual areas required as a result of the Alexander study.

Implementing the UK elements of the defence training estate rationalisation study by 31 March 2006.

KEY TARGET 5

Deliver value for money efficiencies by:

Demonstrating 3 per cent. through-life value for money output efficiencies in prime contracts, against the 2004–05 baseline, by 31 March 2006.

Deliver output efficiencies against project SLAM of £5.04 million by 31 March 2006.

Deliver output efficiencies against project Aquatrine to the value of £11.04 million by 31 March 2006.

Deliver savings from the introduction of housing prime and the restructuring of defence housing of £9.1 million by 31 March 2006.

Reduce the management margin of vacant housing to 10 per cent. by November 2005.

I have placed a copy of the new Defence Estates corporate plan in the Library of the House.

RAF Command Headquarters

The Minister of State, Ministry of Defence (Mr. Adam Ingram): In the 2004 Defence White Paper, "Delivering Security in a Changing World", we referred to plans to collocate strike and personnel and training command headquarters. This is part of a programme to create a modern, effective and efficient headquarters structure for the Royal Air Force.

A study has been conducted into the potential for increasing efficiency and effectiveness of the two headquarters (currently based at RAF High Wycombe and RAF Innsworth) by rationalising and collocating them on a single site. This work was undertaken against the background of the reduction in size of the RAF from approximately 49,000 to 41,000 by 2008 announced on 21 July 2004, *Official Report*, column 348.

A number of sites were evaluated, including RAF High Wycombe and RAF Innsworth, to determine their relative operational and financial benefits. The study concluded that RAF High Wycombe offers the best value for money and is operationally more effective. I have therefore decided that, subject to trades union consultation, High Wycombe should be the site of the collocated RAF headquarters.

The study also showed that, as a result of collocation, the headquarters will require some 1,000 fewer posts (500 service, 500 civilian) than the two current organisations. These reductions will contribute to the previously announced wider MOD manpower drawdown. Some 1,350 headquarters posts (600 service and 750 civilian) will be lost from RAF Innsworth. Personnel numbers at RAF High Wycombe will increase from some 2,050 posts now (1,540 service and 510 civilian) to around 2,150 (1,400 service and 750 civilian) by 2008. A number of posts currently based at High Wycombe will move to other RAF units.

The target date for standing up the collocated headquarters is October 2006. However, in view of its role in managing the overall draw down in RAF numbers, the personnel management agency will not relocate to High Wycombe until April 2008.

Part of the RAF Innsworth site is occupied by elements of the armed forces personnel administration agency (AFPAA) currently employing some 540 staff, including contractors. I expect the agency's presence at Innsworth to continue until mid 2008, during which time internal rationalisation unconnected with this announcement will have reduced the number of posts concerned to around 260 (including 170 MOD civilians and 70 contractor staff). The future location of this part of AFPAA is being examined. Unless another defence use is found for the Innsworth site, it will be disposed of once AFPAA relocates.

The 200 support staff posts (110 service, 90 civilian) on the site will reduce in line with the overall drawdown.

I recognise that this announcement will cause disappointment in the Innsworth area. However, I have to make the best decision for defence as a whole. We are doing everything possible to mitigate the impact on the staff concerned. Our current plans envisage that the civilian reductions, most of which will take place in the Gloucester area, will be achieved through a combination of natural wastage and voluntary early release. If we are obliged to resort to compulsory redundancies, we will endeavour to keep them to a minimum. Staff and the trades unions are being kept fully informed of developments through meetings, briefings and a formal consultation exercise.

DEPUTY PRIME MINISTER

Tripartite Committee on Local Government Pension Scheme

The Minister for Local Government (Mr. Phil Woolas): In a statement issued on 18 March, the Deputy Prime Minister announced that he was establishing a tripartite committee with key stakeholders, to discuss the future of the local government pension scheme. The first meeting of the tripartite committee, chaired by the Deputy Prime Minister, subsequently met on 24 May and was attended by representatives of the local authority employers and the trade unions.

The Committee will focus on the development and modernisation of the scheme and will consider the measures which need to be put in place to ensure the scheme's affordability and sustainability.

The Government believe that local authority employees should have a stable, strong pension scheme in which they can have confidence. It is important, however, that the balance is right between, on one hand, the cost of the scheme to the taxpayer, and, on the other hand, the value of the benefits which the scheme offers to current and future pensioners.

Further meetings of the Committee are now being arranged to ensure the implementation of essential decisions about the scheme's long-term future.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Departmental Annual Report (2005)

The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett): My 2005 departmental report, which contains information on progress against the Department's objectives, the challenges ahead and summary expenditure plans for 2004-05 to 2007-08, has been published today. Copies will be placed in the Libraries of both Houses.

Climate Change Programme

The Minister for Climate Change and the Environment (Mr. Elliot Morley): The Secretary of State for Environment, Food and Rural Affairs announced the terms of reference for the review of the UK climate change programme (CCP) on 15 September 2004. These stated that the Government would aim to publish a revised programme in the first half of 2005.

I have today announced, through a press notice, that Ministers have agreed to postpone the publication of the revised programme to allow more time for the completion of the appraisal of new policy options. The programme will now be published before the end of the year. This will enable us to produce a programme to put us back on track to achieving the domestic goal of reducing carbon dioxide emissions by 20 per cent. by 2010 and ensure that we can achieve real progress by 2020 towards the long-term goal to reduce carbon dioxide emissions by some 60 per cent. by about 2050.

In addition, I am pleased to say that the extended timetable will allow us to take full account of the outcome of a number of other pieces of ongoing work including the energy efficiency innovation review—important as energy efficiency, both in the domestic and business sectors, may be expected to contribute significantly to future emission reductions. It will also give us more time to take forward the commitments in the 2005 Budget, including how we might support the development of carbon capture and storage, and the commitment in the manifesto to explore the scope for the further use of economic instruments and other measures to promote lower vehicle emissions.

The revised timetable will also fit more closely with the timetable for developing phase II of the EU emissions trading scheme. It will enable us to take into greater consideration the level of the cap for the second phase of the EU ETS which is occurring in parallel to the CCP review.

HEALTH

Food Standards Agency's Departmental Report (Spring 2005)

The Parliamentary Under-Secretary of State for Health (Caroline Flint): The Food Standards Agency's departmental report spring 2005, Cm 6525 was laid before Parliament today.

Copies will be placed in the Library.

HOME DEPARTMENT

Control Order Powers (11 March 2005–11 June 2005)

The Secretary of State for the Home Department (Mr. Charles Clarke): Section 14(1) of the Prevention of Terrorism Act 2005 (the 2005 Act) requires me to report to Parliament as soon as reasonably practicable after the end of every relevant three-month period on my exercise of the control order powers during that period.

The 2005 Act came into force on 11 March 2005. During the first three months of the operation of the Act, I made 11 non-derogating control orders. Ten control orders were made on 11 March 2005 under section 3(1)(b) and (c) of the 2005 Act in respect of individuals who were at that time certified under section 21(1) of the Anti-Terrorism, Crime and Security Act 2001 (the 2001 Act). A further order was made with the permission of the court under section 3(1)(a) of the 2005 Act on 26 April 2005—again in respect of an individual who was formerly certified under section 21(1) of the 2001 Act.

I have modified these orders to authorise a change of address in three instances; to give effect to the court's ruling following an appeal—see below; to give access to further family members in one case; and to clarify the wording of certain obligations in the control orders on two further occasions.

A right of appeal exists in section 10 of the 2005 Act against a decision by the Secretary of State not to modify an obligation contained in a control order. One of those subject to a control order has exercised his right of appeal under this section and has had his appeal upheld. His order has since been varied to substitute different obligations on him.

Section 14(2) of the 2005 Act requires the Secretary of State to appoint a person to review the operation of that Act. Lord Carlile of Berriew QC was appointed as the independent reviewer of the 2005 Act on 11 March 2005.

NORTHERN IRELAND

Annual Report 2004–05

The Minister of State, Northern Ireland Office (Mr. David Hanson): I have placed copies of the Criminal Justice System Northern Ireland's annual report for 2004–05 in the Libraries of both Houses, on behalf of the criminal justice ministerial trilateral.

This year the report has adopted a thematic approach, detailing progress against six themes: working in partnership; reaching out to the community; responsiveness; reducing delay; confidence in the criminal justice system; and promoting diversity.

The report demonstrates how each agency contributes to and supports its partner organisations in the achievement of cross-cutting objectives. Key areas of success include the development of the new causeway information sharing system, progress on the development of the new public prosecution service, the establishment of 26 community safety partnerships, the joint NIPS and PBNI resettlement strategy, and the appointment of lay magistrates.

The report demonstrates that all of us, from ministerial level through to frontline staff, are committed to ensuring that the criminal justice system serves the community effectively, in partnership and with integrity.

Human Rights Commission

The Secretary of State for Northern Ireland (Mr. Peter Hain): I am pleased to announce today the appointment of Professor Monica McWilliams as the new Chief Commissioner of the NIHRC. I am also appointing seven new Commissioners—Jonathan Bell, Thomas Duncan, Professor Colin Harvey, Alan Henry, Ann Hope, Eamonn O'Neill and Geraldine Rice.

These new appointments will join the existing two Commissioners, Lady Christine Eames and Kevin McLoughlin, who were reappointed last autumn to serve until December 2007. The appointments follow an open recruitment process based on merit. The new Chief Commissioner and seven new Commissioners will take up their posts in the early autumn.

The Northern Ireland Human Rights Commission is a key part of the architecture of human rights protections in Northern Ireland, and an important feature of the Belfast Agreement. The Government have consistently been clear that it is in all our interests to have a strong, independent and self-confident Commission which draws support from all parts of the community.

I am confident that these new appointments will ensure that the Commission will make a significant contribution to the advancement and protection of human rights in Northern Ireland in the coming months and years. I look forward to working with the new Commission.

Written Ministerial Statements

Monday 20 June 2005

CONSTITUTIONAL AFFAIRS

Legal Aid Asylum Appeals

The Parliamentary Under-Secretary of State for Constitutional Affairs (Bridget Prentice): The Secretary of State for Constitutional Affairs, Lord Falconer of Thoroton, has made the following written ministerial statement in the other place today:

"On Friday, 17 June I published the Government's response to the Constitutional Affairs Select Committee report on Legal Aid Asylum Appeals. Copies have been placed in the Libraries of both Houses. It is also available on the Department for Constitutional Affairs website".

Special Immigrant Appeal Commission

The Parliamentary Under-Secretary of State for Constitutional Affairs (Bridget Prentice): The Secretary of State for Constitutional Affairs, Lord Falconer of Thoroton, has made the following written ministerial statement in the other place today:

"On Friday 17 June the Government published their response to the Constitutional Affairs Select Committee's report on the operation of the Special Immigration Appeals Commission (SIAC) and the use of special advocates. Copies have been placed in the Libraries of both Houses. The response is also available on the Department for Constitutional Affairs website."

HEALTH

Health Improvement and Protection Bill (Smoking)

The Parliamentary Under-Secretary of State for Health (Caroline Flint): The Queen's Speech announced that legislation to restrict smoking in enclosed public places will be introduced as part of the Health Improvement and Protection Bill during this parliamentary session.

A consultation paper is to be published today on the smoke-free elements of the Health Improvement and Protection Bill.

This will begin a public consultation, which will run until 5 September.

This is an England and Wales Bill, but the provisions described in detail in the consultation document apply to England only. In relation to Wales, it is proposed that the Welsh Assembly should be enabled under the terms of the Bill to make provision for smoke-free public places in accordance with the policy that they may determine in relation to this issue.

Copies of the consultation paper have been placed in the Library.

HOME DEPARTMENT

Departmental Report and Corporate Plan

The Secretary of State for the Home Department (Mr. Charles Clarke): We have today published the Home Office's 2005 annual report, its 2005–06 corporate plan and its departmental investment strategy. Copies are available in the House Library and on the Home Office website. The first two of these describe how the Home Office builds a safe, just and tolerant society as reflected in our strategic objectives and key targets. These set out how, in turn, delivery depends on the Department's three key pillars of responsibility, dealing with, policing security, community safety and active communities; ensuring that our new National Offender Management Service is implemented and that we work effectively with our partners across the criminal justice system (CJS); and establishing a clearly robust and fair approach to immigration, citizenship and nationality.

The report is primarily focused on 2004–05, setting out our performance against key targets and describing how our activities contributed towards them. The plan is focused on the present financial year, explaining how we will deliver better public services and how the Department is organising itself to deliver these.

We are also placing on our website www.homeoffice.gov.uk the Department's investment strategy. This sets out at greater length the critical role that capital investment plays in improving our key public services.

Charity Commission

The Parliamentary Under-Secretary of State for the Home Department (Paul Goggins): I am today announcing that the Charity Commission will be publishing its departmental report for 2005 on 20 June. Copies of that report will be available in the Library.

TRADE AND INDUSTRY

Empirical Economics of Standards

The Parliamentary Under-Secretary of State for Trade and Industry (Barry Gardiner): I am pleased to announce that the benefits of standards to UK business, innovation and the wider economy can be quantified for the first time. A programme of studies commissioned by the National Standardisation Strategic Framework (NSSF), have brought together the analysis of findings fro the University of Surrey, Nottingham University Business School and the Fraunhofer Institute for Systems and Innovation Research in Germany. The principal findings of the report show that:

Formal standards contribute £2.5 billion to the growth of the UK economy annually as a means of spreading knowledge and technology;

Through this role, since 1948 the benefit of formal standards to UK GDP exceeds £75 billion;

Standards enable 13 per cent. of the growth in labour productivity; and

Standards are emphasised as an enabler of innovation.

The report can be found on:

http://www.dti.gov.uk/iese/The_Empirical_Economics_of_Standards.pdf and hard copies will be made available in the parliamentary Library.

The National Standardisation Strategic Framework (NSSF) was developed by the Department of Trade and Industry (DTI), the British Standards Institution (BSI) and the Confederation of British Industry (CBI) to provide a platform for increasing the awareness use and understanding of standards and standardisation in the UK.

This research quantifies the impact of standards on the success of UK business of all types.

As the national standards body for the UK, the British Standards Institution plays an important role in enabling innovation and technology transfer within national and international markets. This creation of synergies is found to accelerate the speed to market of products and services which allows businesses to keep ahead of the game in an ever-changing marketplace.

For many years business opinion has tended to divide regarding the genuine impact of standards. While many firms have embraced standards as a valuable tool for strategic management, others argue that their presence has acted as a halt on business freedom and competitiveness.

For that reason I commend to Parliament this research and urge UK industry to make business standards a boardroom issue in order to provide tangible assurances of progress across all aspects of commerce.

TRANSPORT

Departmental Report

The Secretary of State for Transport (Mr. Alistair Darling): I have today published my Department's annual report for 2005. Copies have been laid before Parliament and placed in the Library of both Houses.

The report sets out the Department's activities and achievements over the last year. It also describes the Department's future expenditure plans for the period of the spending review 2004.

WORK AND PENSIONS

Departmental Report

The Secretary of State for Work and Pensions (Mr. David Blunkett): I am today able to announce the publication of the Department for Work and Pensions departmental report (Cm 6539). The report provides details of the Department's performance in 2004–05 against its public service agreement targets and sets out the Department's expenditure plans for 2005–06 to 2007–08. The report has been placed in the Library.

Written Ministerial Statements

Tuesday 21 June 2005

DEFENCE

Trafalgar 200

The Minister of State, Ministry of Defence (Mr. Adam Ingram): The Royal Navy will commemorate the 200th anniversary of the battle of Trafalgar and the death of Admiral Lord Nelson with a special programme of events in Portsmouth and the Solent between 28 June and 3 July, and then in London and Portsmouth over the anniversary weekend 21–23 October. A wreath will be laid off Cape Trafalgar on 21 October, the actual anniversary, and there will be commemorations in Gibraltar in late October.

The Royal Navy's Trafalgar 200 programme forms part of the Trafalgar festival which is at the heart of the SeaBritain 2005 initiative sponsored by the Department of Culture, Media and Sport. SeaBritain 2005 aims to raise the profile of the United Kingdom's maritime interests. The Trafalgar 200 programme of events will also strengthen the Royal Navy's maritime partnerships, help develop interoperability and build on multinational maritime cooperation. The Trafalgar 200 programme provides a major vehicle for the Ministry of Defence to promote public awareness and support for defence in 2005.

The Trafalgar 200 programme starts with an international fleet review in the Solent on 28 June 2005 in the presence of HM the Queen, members of the royal family, Ministers and Heads of foreign navies. Some 160 vessels, comprising Royal Navy, foreign warships and auxiliaries, merchant ships and tall ships, will take part in the review, which will conclude with a flypast of 50 aircraft. In total, 36 navies are expected to send ships, with 57 heads of navies in attendance. There will be a Son et Lumiére on the evening of 28 June 2005 in the approaches to Portsmouth harbour which will illustrate an early 19th century sea battle. While not a full re-enactment of Trafalgar, the show includes aspects of the battle, notably Admiral Lord Nelson's death at the height of the action; it will involve some of the world's finest tall ships. On the 29 June an international drumhead ceremony will be held on Southsea common in the presence of HRH the Duke of York, accompanied by HRH Prince Michael of Kent. The ceremony will honour maritime veterans of all nations and commemorate those who have given their lives in conflict and service in the Armed Forces. Finally, and international festival of the Sea will be held from 30 June to 3 July 2005 in HM naval base Portsmouth. In addition to a significant number of the warships and tall ships taking part in the fleet review, a substantial number of smaller vessels will join the festival which will be open to ticket-paying members of the public. The festival will showcase Britain's armed forces with displays by members of all three services.

The programme of events in the autumn will commence with wreaths being laid off Cape Trafalgar and at Nelson's tomb in the crypt of St Paul's Cathedral on 21 October 2005, the 200 anniversary of the battle of Trafalgar and the death of Admiral Lord Nelson. As is customary, a service will also be held onboard HMS Victory in Portsmouth. A special VIP dinner will be held in HMS Victory on the evening 21 October 2005. On the morning of 23 October the sea cadets will conduct their annual parade in Trafalgar square and in the afternoon a national service of commemoration for all those who fought at Trafalgar will be held in St. Paul's Cathedral, in the presence of senior members of the royal family. In the evening we plan to hold a public celebration of Britain's maritime heritage ("past, present and future") in the special setting of Trafalgar square.

Although not formally part of the Trafalgar 200 programme in the United Kingdom, events are also planned to take place in Gibraltar during the weekend of 28 to 30 October to commemorate the close historic links between Gibraltar and Admiral Lord Nelson's victory. In addition to a service of remembrance at the Trafalgar cemetery, there will be a Nelson exhibition, beating retreat and a Royal Navy ceremonial guard mount at the Governor's residence. The Royal Navy has also been invited to exercise their freedom of the city privileges.

Lying at the heart of SeaBritain 2005, the Trafalgar 200 programme represents an exciting and high profile series of events, funded through a combination of public funding and commercial sponsorship and revenue, commemorating our greatest naval hero and a major milestone in maritime history. The last fleet review by Her Majesty the Queen was held to mark the Silver Jubilee in 1977. There have been international festivals of the sea in Portsmouth in 1998 and 2001.

Armed Forces (Redundancy)

The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig): Current redundancy compensation terms for members of the regular armed forces have remained largely unchanged since the early 1970s and do not reflect changes to re-employment prospects or in wider Government policy for this area. Nor do they take account of the changes in benefit structure made under the new armed forces pension scheme. They have therefore been reviewed, working closely with the single services and I now wish to announce the outcome of that review.

The new terms are designed to compensate fairly those whose careers are prematurely shortened as a result of redundancy, and are to be used as part of any planned restructuring of the armed forces as announced by the Secretary of State for Defence from time to time. The Ministry of Defence has two schemes which provide normal early-leavers' benefits for the regular armed forces—one relating to the 1975 pension scheme and one to reflect the changes made to the value of mid-career benefits with the introduction of the new 2005 scheme. Despite the differences between these two schemes, the redundancy packages for each scheme will be broadly comparable.

The new terms will continue to be made up of a one-off tax-free lump sum which, for those serving until or beyond mid-career, will be supplemented with an immediate pension paid under the armed forces pension scheme 1975 (AFPS 75) or income paid under the 2005 early departure scheme. The size of the lump sum and of the annual pension or income stream will, as now, vary according to length of service and pay. The 2005 terms will apply to all new entrants from 6 April 2005, but from 6 April 2006 for those who were in service on 5 April 2005 and who decide to transfer to the new pension scheme. The existing terms, as set out in AFPS 75, will remain unchanged until 31 March 2008 when the current drawdown in service manpower announced in July 2004 by the then Secretary of State is due to complete. They will then be replaced by new terms which, in particular, will defer the point at which the current very early immediate pension is paid. This can currently be paid from age 30 but in future only a lump sum will be paid at this very early age. To ease the transition, the replacement terms for AFPS 75 will be phased in over a five-year period from 1 April 2008 to 31 March 2013, after which the final terms will apply.

The new arrangements will provide the armed forces with cost-effective arrangements for managing any major drawdown in the level of service manpower and are expected to meet fully the manning needs of the armed forces. Although less valuable in a number of respects than the existing terms, they remain generous by wider standards, as befits the special demands of a career in the armed forces; they reflect changes in wider Government policy for public service schemes; and they are fair with respect to the relationship between level of compensation and length of service. Additional general information on the new arrangements is available on both the MOD's intranet and internet sites, while detail about the new terms will be made public when work on drafting the new rules has been completed.

I am today placing copies of the defence instructions and notices (DIN) on the new redundancy terms in the Library of the House. It is also being placed on the Ministry of Defence website at: www.mod.uk/issues/pensions/.

Omagh Battalion

The Minister of State, Ministry of Defence (Mr. Adam Ingram): As part of our normal process of keeping force levels under review, the General Officer Commanding (GOC) Northern Ireland, in consultation with the Chief Constable of the PSNI, has concluded that once the 1st Battalion King's Own Scottish Borders come to the end of their tour as the Omagh resident battalion in August 2006, there is no requirement for them to be replaced.

This change is based on the GOC's and Chief Constable's assessment of the security situation, and reflects the increasing success of the PSNI in dealing with the threat from terrorism without routine military support. The Army remains committed to providing the support that the PSNI require to counter the threat from terrorism and to prevent potential public disorder. Consequently, we will continue to keep force levels in Northern Ireland under regular review.

HEALTH

Annual Report

The Secretary of State for Health (Ms Patricia Hewitt): The Department's annual report for 2005, Cm 6524, was laid before Parliament today.

Copies have been placed in the Library.

NORTHERN IRELAND

Child Protection

The Secretary of State for Northern Ireland (Mr. Peter Hain): In March 2004, the Commissioner for Children and Young People in Northern Ireland was asked by the then Secretary of State, my right hon. friend Paul Murphy MP, to conduct a review of current systems for carrying out checks on individuals working with children in Northern Ireland. I have received the review report, which will be published by the Commissioner today. Copies of the report will be placed in the libraries of the House.

The review was chaired by Ruth Lavery, a Barrister at Law, and was commenced following publication of the Bichard Inquiry report into the tragic events at Soham, which resulted in the deaths of Jessica Chapman and Holly Wells. Taking into account the findings of Sir Michael Bichard, the aim of the review was to identify deficiencies in the present system and opportunities for reform, with a view to providing greater protections to children in Northern Ireland.

It gives me great pleasure to welcome this report, which supports and endorses the huge amount of work being taken forward across Government, both in Northern Ireland and in partnership throughout the United Kingdom. There have been a number of significant developments in Northern Ireland within the last number of months, including the commencement of legislation, the Protection of Children and Vulnerable Adults Order in April 2005, which aims to strengthen safeguards for children and vulnerable adults. In addition, implementation of the Police Act later this year will create a statutory system of disclosing information, relevant to employment decision-making. The report makes 37 recommendations. Of the 36 that are targeted at government, 30 (more than 80 per cent.) have already been acted on, are being acted on, or are actively being considered. The remaining six will require either clarification or further consideration.

The Commissioner has also identified five important areas for action that he believes should guide and underpin the current reforms. In the main, they relate to establishing mechanisms or methods of ensuring that policy and legislation are translated effectively in practice. I am extremely grateful to the Commissioner for bringing forward this important work. I would like to pay tribute both to him and especially Ruth Lavery for her report. I can assure the House that these crucial issues will be taken fully into account as the Government deliver stronger safeguards to protect children.

I have agreed with the Commissioner that I will provide him with a written report on progress by government on all recommendations within three

months. I have also agreed that he will review implementation of the actions after 12 months. On a final point, it is my intention to appoint a Minister for Children from my ministerial team. The designated Minister will have responsibility for all issues affecting children in Northern Ireland, including child protection. I will ask the Minister for Children to keep me fully informed of progress on all of the vetting review recommendations.

ATTORNEY GENERAL

Jury Trials (Fraud)

The Solicitor-General (Mr. Mike O'Brien): My right hon. Friend the Attorney General has made the following written ministerial statement:

"The Government have decided that after the summer recess it will seek affirmative resolutions from both Houses of Parliament in order to implement section 43 of the Criminal Justice Act 2003. Section 43 made provision for serious and complex fraud trials to be conducted by a judge sitting without a jury. The provision can operate only where the judge is satisfied that the length or complexity of the trial is likely to make it so burdensome upon the jury that the interests of justice so require, and the Lord Chief Justice gives his approval.

This decision has been taken in the light of discussions at a seminar held in January of this year, following a commitment to further consultation that was given by the Government when the 2003 Act was passed, at which Opposition spokesmen, the judiciary, prosecuting authorities and the legal profession were amongst those represented. I am placing a record of the seminar proceedings in the Library of the House.

A protocol for dealing with lengthy trials, which was issued by the Lord Chief Justice on 22 March 2005, emphasises the need for robust and well-informed case management to enable the court to focus on the real issues, and it is hoped that this approach will contribute towards reducing the length of trials. The Government consider, however, that better case management will not of itself be sufficient to confine the duration of the most complex serious fraud trials within reasonable bounds, or prevent such trials from imposing an intolerable burden upon the jury.

The Government therefore propose to take the action necessary to obtain parliamentary approval for the implementation of section 43, with a view to bringing it into force in January 2006."

Written Ministerial Statements

Wednesday 22 June 2005

DEFENCE

Naval Recruiting and Training Agency

The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig): Subsequent to a proposal by the agency's owner, the Second Sea Lord and Commander-in-Chief Naval Home Command, I have today set the 2005–06 key targets for the Naval Recruiting and Training Agency (NRTA) as follows:

To deliver RN personnel to the trained strength (or to other training organisations), to the required quality standard, within 5 per cent. variance from the tasked requirement.

To deliver RM recruits to within 9 per cent. variance from the tasked requirement.

To maintain success rates of 95 per cent. in career training (including targeted employment modules) and 97 per cent. in examined pre-joining training.

To increase the trained strength of the Royal Naval Reserve to 2010.

To reduce the cost of the NRTA HQ overhead to 96 per cent. of the 2003–04 baseline figure.

To achieve net benefits of £15.9 million in FY 2005–06 from the partnering arrangement with Flagship Training Ltd.

To improve to 102 the index of performance in phase 2 and phase 3 training delivered to Army and Royal Air Force personnel in the Defence College of Electro-Mechanical Engineering.

DEPUTY PRIME MINISTER

Local Area Agreements

The Minister for Local Government (Mr. Phil Woolas): I am today announcing the rollout of local area agreements (LAAs) to all local areas in England. LAAs are three-year agreements that set out the priorities for a local area agreed between central Government, represented by the Government office, and a local area, represented by the local authority and local strategic partnership (LSP) and other key partners at local level. LAAs represent a new approach to improve co-ordination and partnership working between central Government and local authorities and their partners, working through the LSP.

LAAs were piloted with 21 areas last year. Some 66 areas have been selected to negotiate their LAA this year. These agreements will come into effect in April 2006. These areas are listed in a table entitled "Local area agreements—areas participating in summer 2005". Of these, 13 will be able to operate a single LAA pot. These areas are listed in a table entitled "Single pot local area agreement". Single pot LAAs will have freedom to spend any funding on the achievement of any of the outcomes that have been agreed as part of the LAA. All remaining areas will be eligible to agree LAAs during 2006–07 with an April 2007 start date.

Both tables "Local area agreements—areas participating in summer 2005" and "Single pot local area agreement" are available in the Libraries of both Houses and on the ODPM website: www.odpm.gov.uk.

INTERNATIONAL DEVELOPMENT

Bangladesh (Rural Electrification)

The Parliamentary Under-Secretary of State for International Development (Mr. Gareth Thomas): On 7 June 2005, I approved a grant of £50 million for rural electrification in Bangladesh which will help to connect over one million households and businesses to electricity supplies in underserved areas of the country.

At present, only 25 per cent. of the rural population of Bangladesh has electricity and frequently the poor are left out. We will support a micro credit programme that will ensure that poorer people can afford the costs of connection and take up new income generating activities. The benefits of rural electricity include new jobs, better schools and health services and an improved quality of life.

The Rural Electrification Board, which will undertake the construction work, has an excellent reputation for efficiency and effectiveness. Local electricity cooperatives manage the service at the district level. The DFID programme will help improve their performance by funding training for directors and members.

Indonesia and Sri Lanka (Post-Tsunami Reconstruction)

The Parliamentary Under-Secretary of State for International Development (Mr. Gareth Thomas): Last week I visited Indonesia (Jakarta and Banda Aceh) and Sri Lanka (Colombo, Ampara in the east and Galle in the south) to track progress in post-tsunami reconstruction; assess our and the wider UK NGO response; and investigate the impact on peace processes.

Indonesia

Immediate humanitarian relief has been generally effective. The UK's contribution has helped to save lives by preventing disease, providing water and sanitation and temporary shelter. The UN, NGOs and military are widely considered to have done a good job in the first few weeks as the enormity of the disaster became clear. But the problems caused by sheer scale of the disaster, numbers of dead, the lack of NGO or UN staff on the ground in Banda Aceh before the tsunami due to the conflict and the logistical difficulties cannot be overstated.

The Government have reorganised so the transition from relief to reconstruction is led by the Aceh reconstruction agency (BRR). I discussed the scale of the reconstruction challenge with Mr. Pak Kuntoro Mangkusubroto (head of the BRR) and how donors can assist BRR's efforts to improve supplies, housing and infrastructure rebuilding amongst other areas, as well as measures to prevent corruption. The UK has provided approximately £7 million in support of BRR so far, and I announced a further £30 million to be made available from within the £65 million for reconstruction that we set aside in February.

After a break following the tsunami, the conflict has worsened with almost daily reports of fighting between GAM (the Free Aceh Movement) and Government forces. The tsunami has, however, helped to kick-start new negotiations facilitated by the Finnish Government. There are encouraging signs of progress. Through our presidency of the EU we will continue to support this process.

Sri Lanka

Much has been achieved by the relief effort so far that benefited from a huge and more immediate influx of NGO and international support: 30,000 transitional homes constructed so far; of 182 schools damaged, contracts have been signed to rebuild 176; 95 per cent. of children affected by the tsunami are now back at school; and roads, railways and electricity supplies (where they existed) have been restored. The major area lagging now we are in the recovery phase is livelihoods, which is being addressed now, with funds to rebuild and recapitalise the fishing industry (the main livelihood of those affected) and micro-credit becoming available, although coordination issues remain.

Broadly speaking the transition to reconstruction has begun in fuller force than in Indonesia. Industry is expected to have recovered by the end of the year. Reconstruction needs as identified by the international financial institutions are fully financed by donors, (expected cost $2 billion: pledges from donors and NGOs exceeding $3 billion). I have specifically requested assurances from Government that debt relief resources (including £41 million from the UK Government) and sufficient counterpart funding on the Government side be channelled through the budget and spent on tsunami-related reconstruction activities.

A major constraint to faster progress is the lack of land for permanently resettling tsunami displaced persons. There is a Government proposal to forbid any rebuilding within a designated "buffer zone" stretching 100–200 metres from the sea. I raised concerns over the robustness of the rationale for this with the Government of Sri Lanka, given the large number of family homes, schools and clinics within the zone, affecting more than 70,000 people. I received reassurances that the buffer zone will be implemented in a flexible way depending on local circumstances, and improved consultation mechanisms are being put in place.

Inevitably assistance is reaching some communities more quickly than others, but the context of the conflict makes this hugely significant. In the north and east areas contested by the LTTE, much assistance is through NGOs and the UN and progress has been slower than in some parts of the south due in part to relatively little private sector funds and poor infrastructure. Perceptions that assistance is being inequitably delivered continue. For this reason, the joint mechanism (GoSL/LTTE/Muslim) that should facilitate bilateral donor funding to the north-east is hugely significant as providing the first framework for a long time within which dialogue between the parties could take place. Further work to finalise the agreement and to put it to a parliamentary debate is expected this month. If it can be established then the UK Government stand ready to provide support as needed.

Disaster reduction

The area remains disaster-prone. We have allocated £7.5 million for disaster risk reduction measures. This will support community level work to raise awareness of danger signals from early warning systems and ensure they know how to respond to best protect themselves and their families.

Written Ministerial Statements

Thursday 23 June 2005

CONSTITUTIONAL AFFAIRS

Freedom of Information Act

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): My noble Friend the Parliamentary Under-Secretary of State has made the following written ministerial statement.

"Today I have deposited copies of The Freedom of Information Act 2000—Statistics on Implementation in Central Government January to March 2005 in the Libraries of both Houses".

This is the first quarterly bulletin produced by DCA monitoring of the performance of central Government and associated bodies under the Freedom of Information Act 2000.

Public Guardianship Office

The Parliamentary Under-Secretary of State for Constitutional Affairs (Bridget Prentice): My noble Friend the Parliamentary Under-Secretary of State has made the following written ministerial statement.

"The following list sets out the key performance targets that have been set for the Public Guardianship Office for 2005–06.

KPI 1: To increase the satisfaction of its customers in the delivery of its services as measured by customer surveys throughout the year.

Targets:

To achieve an overall satisfaction rating of 75 per cent.

To reduce dissatisfaction amongst each of the PGO's different customer groups by 10 per cent.

KPI 2: To increase the proportion of effective visits by the Lord Chancellor's visitors.

Targets:

New clients

To visit all new clients within six months of the order appointing the receiver being sent and to initiate any necessary action arising from the visit within one calendar month.

To visit 10 per cent. of clients within 12–18 months of a short order direction.

Existing clients

To undertake visits to existing clients as follows:

10 per cent. of clients within 18 months of a case transfer direction;

annually where the chief executive of the PGO is the receiver;

a repeat visit later three years where the receiver is still in place;

a repeat visit when necessary based on recommendations made by a Lord Chancellor's visitor; and

other visits as directed by the Court of Protection or requested by the PGO.

In total, the PGO anticipates that these criteria will result in approximately 9,500 visits.

Effective visits

To achieve 80 per cent. effective visits over the year. An effective visit is one where:

the visit is carried out within six months of the request being made; and

recommended action is initiated within one calendar month of the visit.

To increase the sample of telephone interviews with receivers or persons present at the visit from 10 per cent. to 20 per cent. by July 2005.

KPI 3: To maintain an effective system to collect and review accounts, and use this process to review the case management regime to ensure that it is meeting the needs of each customer and client.

Targets:

To collect 60 per cent. of accounts, in all cases where an account is properly due, within two calendar months of the accounting end date; 85 per cent. within four calendar months of the accounting end date; and 95 per cent. within six calendar months of the accounting end date.

To complete the review of, or to have requested further information for, 100 per cent. of accounts within 20 working days of receipt.

To complete the review of 75 per cent. of furthered on accounts (i.e. those where further information is needed) within 30 working days of the request for additional information.

No case will have two accounts outstanding unless the Court of Protection has directed otherwise.

KPI 4: To deliver an improved service to clients.

Targets:

Correspondence

To respond to:

60 per cent. of correspondence within five working days of receipt;

80 per cent. of correspondence within 10 working days of receipt; and

98 per cent of correspondence within 15 working days of receipt.

Release of funds

To work with receivers to ensure they have access to funds to support the client for a year at a time. Where requests for release of funds are made over and above this, PGO will give directions to the Court Funds Office (CFO), or dispatch directions to the receiver within five working days in 80 per cent. of cases and within 10 working days in 95 per cent. of cases; or explain why it cannot release funds.

Applications for Receivership

Providing it has all the appropriate forms and information required in support of an application, PGO will list a case for hearing and notify the applicant within 10 working days in 95 per cent. of cases.

The hearing date will be within 35 working days of the date the hearing was listed in 95 per cent. of cases.

After the hearing, PGO will notify applicants of the outcome of the hearing and request any further information the Court requires within five working days in 95 per cent. of cases.

PGO will issue orders within 10 working days in 95 per cent. of cases where all information and documents have been received.

Closing cases

Where a client dies and PGO has a complete application for final directions, PGO will prepare and dispatch directions to transfer assets to personal representatives within 15 working days in 80 per cent. of cases, within 20 working days in 98 per cent. of cases.

Enduring Powers of Attorney

PGO will register and return 98 per cent. of correctly lodged EPAs, where there are no objections, within five working days of the end of the statutory waiting period.

Accuracy of Orders

PGO will ensure that the level of orders returned with errors is less than 3 per cent.

Case Transfer to Short Order Regime

In 85 per cent. of cases identified for consideration for a short order regime, the case will be referred to the Court of Protection within 15 working days for a decision to be made. Where the court directs a transfer, initiating action will be effected within 10 days of the decision in 95 per cent. of cases.

KPI 5: To demonstrate improvements in efficiency in value for money terms by meeting a unit cost target for undertaking each case in each of the three business streams as follows:

Targets:

Enduring Powers of Attorney—£114 per case;

Appointing and Supervising Receivers—£540 per case; and

Receivership of Last Resort—£8,000 per case."

DEFENCE

Sexual Harassment (Armed Forces)

The Secretary of State for Defence (John Reid): The Chief of the Defence Staff and I have today signed an agreement with the Equal Opportunities Commission (EOC) setting out measures to prevent and deal with sexual harassment in the armed forces.

We have been in discussion with the Equal Opportunities Commission for several months about this issue. The agreement is a result of these very positive discussions and commits us to review our policies and procedures in a rigorous time-frame

Our policies already make clear that harassment and bullying of any kind will not be tolerated. Nevertheless, we accept that cases of sexual harassment do occur in the armed forces and that more needs to be done to address this issue. Accordingly, we look forward to working with the Commission to achieve the outcomes and targets set out in the agreement.

A copy of the agreement will be deposited in the Library of the House and it will be published on the Department's internet site.

Call-Out of Reservists for Iraq

The Minister of State, Ministry of Defence (Mr. Adam Ingram): In line with our policy of employing reservists as an integral component of the armed forces, we shall shortly begin mobilising approximately 600 of them to replace existing reservists serving in support of our operations in Iraq (Op TELIC).

Reservists currently deployed in Iraq carry out a range of activities including medical support, force protection duties and providing individual reinforcements to units. We anticipate that most of these tasks will continue. The callout will, however, involve fewer Reservists than our previous callout for Op TELIC announced in December 2004 (which involved 900 Reservists), due to a reduced number of individual reinforcements to regular units, and the replacement of the reserve field hospital with a regular one.

We plan to issue the callout notices for Reservists in phases and aim to give individuals 28 days notice of call-up (other than for those who may volunteer to be mobilised at shorter notice). As is customary, to ensure that we successfully mobilise the required number, we will need to issue a greater number of callout notices than the actual requirement. So, while this announcement calls for the mobilisation of about 600 reservists, it is by no means certain that all 600 will be deployed in Iraq.

Mobilisation will be followed by a period of individual, pre-deployment and collective training, integration into receiving units, and then a short period of pre-deployment leave. Deployment to theatre will begin in mid-October. The majority of those called out can expect a deployed tour of six months and a total period of mobilisation, including post-tour leave, of about 10 months, though for a few it may be slightly longer.

I would emphasise that this callout is part of our routine management of UK forces deployed on Op TELIC. We continue to consider, with our partners in the multinational force, the levels and dispositions of forces required in Iraq in the months ahead, to build the capability and capacity of the Iraqi Security Forces and support the transitional Government of Iraq through the process leading to the creation of a new constitution and full democratic elections in December 2005.

The next roulement of regular UK forces in Iraq is due to take place during October and November this year. We will make a further announcement covering this roulement once the details have been finalised.

Defence Procurement Agency

The Minister of State, Ministry of Defence (Mr. Adam Ingram): Five key targets have been set for the chief executive of the Defence Procurement Agency for the financial year 2005–06.

The first three key targets apply to all projects over £20 million which have passed their main gate approval but not yet achieved in service date (ISD). The fourth key target reflects the importance that the Department attaches to delivery of assets to the front-line. Key target 5 comprises three measures based on the utilisation of assets.

The Key Targets are:

Key Target 1: Key requirements compliance

Predicted achievement of customers' core requirements[1] for projects: 97 per cent.

[1]Around 10 core requirements per project are agreed between the DPA and MoD headquarters, defining the essential characteristics of the equipment/capability.

Key Target 2: Average in-year In Service Date slippage

Average in-year slippage of In Service Dates not to exceed 1.0 month.

Key Target 3: Average in-year cost growth

Average in-year cost variation not to exceed 0.6 per cent.

Key Target 4: Asset Deliveries

Achievement of planned in-year asset deliveries 90 per cent.

Key Target 5: Achievement of Planned Efficiency Measures

(i) Asset turnover in months	83
(ii) Assets delivered per £ of Operating Costs	£13.2
(iii) Assets produced per £ of Operating Costs	£23.16

Defence Aviation Repair Agency

The Minister of State, Ministry of Defence (Mr. Adam Ingram): Key targets have been set for the chief executive of the Defence Aviation Repair Agency for the financial year 2005–06. The targets are as follows:

Key Target 1. Quality

To achieve less than 15 attributable major Customer Concerns annually, on average during the period covering the financial years 2004–05 to 2006–07.

Key Target 2. Business Performance and Efficiency

To achieve an annual Return on Capital Employed of at least 3.5 per cent.

Key Target 3. Business Sustainability

To achieve a closing Order Book of at least £180 million at the end of financial year 2005–06, which includes at least £80 million to be deliverable in the following year.

Key Target 4. Efficiency

To improve overall efficiency by at least 8 per cent.

DEPUTY PRIME MINISTER

Decent Homes

The Minister for Housing and Planning (Yvette Cooper): I am today announcing 61 schemes, involving 34 local authorities, that will ensure social rented homes meet minimum standards of decency, and boost provision of new social rented homes. These schemes should deliver over £3 billion of investment, of which around £1.8 billion will be levered in from the private sector. They will tackle over 125,000 non-decent homes, and create around 1,400 new social rented homes.

These new schemes will set up housing transfers, Arms Length Management Organisations or PFI projects.

Eleven schemes have been awarded places on the transfer programme. These schemes are in Aylesbury Vale, Chorley, Derwentside, Sefton, Selby, South Gloucestershire, Taunton Deane, Waveney, and Waverley, with partial transfers in Islington and Sheffield.

A further 33 schemes have had places on the transfer programme held open whilst the level of gap funding is agreed. These schemes are in Brent (South Kilburn), Cannock Chase, Hackney (Woodberry Down), Islington (Packington), Lambeth (Ashmole Estate and Bolney Meadow Estate), Lewisham (Excalibur TMO and Bankfoot and Bellingham), Liverpool, North Lincolnshire, Pendle, Rossendale, and Tower Hamlets (21 schemes).

Ten schemes have been awarded places on the Arms Length Management Organisation (ALMO) programme. These schemes are in Doncaster, Gloucester, Hackney, Lambeth, Newham, Southend, South Tyneside, Stockport, Wear Valley, and Sheffield, where an existing ALMO will be extended. Schemes in Hackney, Southend and Wear Valley have yet to have their allocations finalised.

Together, the seven ALMOs with confirmed allocations will increase investment in council housing by £342 million in 2006–07 to 2007–08.

Seven schemes have been awarded places on the Housing PFI programme. Three of these—in Manchester, Oldham, and Lewisham—will focus on refurbishing or replacing non-decent homes. Four of the PFI schemes—in Guildford, Weymouth and Portland, Woking, and Medway—will focus on delivering new social rented units. We are making around £500 million in PFI credits available for these schemes.

These schemes mark our continuing commitment to ensuring that all social sector tenants have the decent homes that they deserve, and places the decent homes strategy firmly at the heart of the sustainable communities agenda.

Home Loss Payments

The Minister for Housing and Planning (Yvette Cooper): Following the annual review, the Deputy Prime Minister will today lay regulations to update the home loss payment thresholds in section 30 of the Land Compensation Act 1973 (as amended). Home loss payments are paid at a rate of 10 per cent. of the market value to owner-occupiers who are displaced from their homes as a result of compulsory purchase or certain housing orders. These are subject to maximum and minimum payments. Tenants receive a flat rate equal to the minimum payment to owner-occupiers.

With effect from 1 September 2005, the maximum payment to owner-occupiers displaced from their home will be increased from £34,000 to £38,000 and the minimum payment will be increased from £3,400 to £3,800. The flat-rate will be increased from £3,400 to £3,800.

The period of two months between laying the regulations and commencement will give acquiring authorities reasonable notice to revise their budgets for compensation. This is similar to the notice period given in previous years for revisions to the home loss payments thresholds.

HOME DEPARTMENT

Police Information Technology Organisation

The Minister for Policing, Security and Community Safety (Hazel Blears): The Police Information Technology Organisation (PITO) is a non-departmental public body established as a body corporate under the Police Act of 1997. In January 2004, I commissioned an independent, end-to end review of PITO and its business

processes, including its role in the provision of information technology and communications services to the police service.

I am pleased to announce today the publication of the review's report. The review has provided a critical analysis of the most appropriate structure and organisation to provide information and communications technology to the police, through PITO and from other sources.

The review recommends that PITO should transfer its non-IT responsibilities and transform itself—either as a separate organisation or as a component of the National Policing Improvement Agency—to become a Police National ICT Group, with responsibility and accountability for ICT to the 43 forces in England and Wales. It recommends that this function should be owned by and professionally managed by the police service, with funding flowing from the police authorities, through the establishment of regional collaborations or combined police delivery groups.

The provision of high quality information and communications technology to the police and the criminal justice system is vital, not only to manage efficiency throughout the system, but also to deliver better equipped front line policing. The Government welcome the review's analysis of the issues we should address but I do not intend to implement its recommendations wholesale. I intend that those PITO responsibilities that support the core functions of the National Policing Improvement Agency, that were outlined in the White Paper on Police Reform, "Building Communities, Beating Crime" in November last year will be rationalised and will transfer to the agency, along with a wide range of functions currently discharged by other national bodies. The considerable value of this report will be its significant contribution to the planning now under way for the new agency.

Sentencing Guidelines Council

The Secretary of State for the Home Department (Mr. Charles Clarke): The Sentencing Guidelines Council has today published its first annual report, jointly with the Sentencing Advisory Panel, giving details of the excellent work it has achieved since its creation in March 2004 and outlining its work plans for the next 12 months. Copies of the annual report have been placed in the Library of the House.

Sectors-Based Scheme Review

The Minister for Immigration, Citizenship and Nationality (Mr. Tony McNulty): I am today announcing the findings of the review of the Sectors-Based Scheme (SBS). The scheme, which currently has the status of a pilot, was introduced on 1 May 2003 and provided for the issuance of work permits for low skilled vacancies in the hospitality and the food-processing sectors. The scheme is quota based. The current quotas for 2004-05 are 6,000 permits for food processing and 9,000 permits for hospitality. The main aims of the scheme were to alleviate the recruitment difficulties in the relevant sectors by providing employers with a means of recruiting workers from outside the European Economic Area (EEA).

Following the decision to grant free movement of work to nationals of the new accession states and in light of the number of accession state nationals undertaking low-skilled work, we have undertaken a review of the SBS to establish whether there exists an ongoing need for it. In addition, the review has also assessed evidence of any immigration abuse in connection with the scheme. The aims of the review are in line with the Government's five-year immigration and asylum strategy, published on 7 February 2005. This contained a commitment to phase out the current low-skilled schemes in light of the additional labour now available from the new EU accession states and after consultation with the sectors.

The findings of the review of the SBS are based upon an extensive consultation with the sectors, which has included an employer questionnaire, as well as meetings with employers, sector representative bodies, trade unions and available management information. The review has looked at each sector separately and the main findings are:

Food Processing:

We have found that the SBS has operated satisfactorily in this sector and that there is a continuing need for the scheme. Employers have been able to use the scheme to meet labour shortages in those areas, particularly Northern Ireland, where tight labour markets and the unattractiveness of the work in question have resulted in a difficulty in recruiting resident labour. There is little evidence of abuse of the scheme in this sector. It does appear that workers admitted under the scheme to work in this sector have returned overseas after one year, with a view to participating again in the scheme, as was originally envisaged.

While employers in this sector have indicated a willingness to recruit workers from Accession states they have pointed to a difficulty in retaining workers who are free to engage in other, more attractive employment. The consistent message from employers in this sector has been that if the SBS were discontinued, they would face acute difficulties in recruiting the workforce they require without significantly increasing their costs. The likely consequence of their doing so would be that they would face closure. As such the current pilot scheme will be extended for a further 12 months before undergoing a further evaluation. Based upon current usage the annual quota for 2005-06 will be set at least 3,500 permits, but we will consult further with employers to establish the precise figure.

Hospitality sector:

By contrast, the findings of the review do not point to a compelling case for continuing to operate such a scheme for the hospitality sector. The review points to evidence of abuse of the scheme and a high level of employment of Accession nationals in this sector.

There is evidence of abuse of the scheme in relation to this sector. This includes numbers of entry clearance refusals on the basis of submission of fraudulent documentation or where, on examination, it is apparent that the individual does not meet the age criteria of the scheme. There is also evidence that third party representatives have submitted applications for SBS permits in respect of fictitious jobs or without the knowledge of the employer specified on the application form. There is, therefore, a concern that the scheme in this sector is being used as a means of facilitating illegal entry.

In addition, many participants in this scheme have been unable to satisfy immigration criteria designed to test their credibility as temporary entrants. It is a criterion of the scheme that entry clearance may be refused to the holder of an SBS permit if the entry clearance officer is not satisfied that the holder will return overseas upon the expiry of his permit. Many SBS participants in the hospitality sector presenting themselves to the visa issuing authorities have been unable to satisfy this test and hence many of the workers the employers have sought to recruit under the hospitality quota have not been admitted.

It is also apparent that the hospitality sector in general has been able to draw upon nationals of Accession states to meet labour shortages following expansion of the EU. The latest published figures for the worker registration scheme show that between 1 May 2004 and 31 March 2005, 42,070 Accession nationals registered to undertake employment in the hospitality sector. This represents 25.5 per cent. of the total number of registered workers and is to be contrasted with 8,665 permits issued under the SBS scheme. Retention of these workers appears to be less of an issue in this sector due to its preferred employment practices and the seasonal variance in demand of labour.

In view of the above, the consequences of discontinuing the scheme in relation to the hospitality sector in general do not appear to be acute as employers do appear to be drawing upon alternative sources of labour, such as nationals of the new accession states. Any adverse consequences on discontinuing the scheme for this part of the sector are outweighed by the risk of continuing abuse of the scheme.

Accordingly, the SBS hospitality quota will be terminated. This does not mean that employers in this sector will immediately cease to have the benefit of non-EEA workers with the specific skills that they require. As a transitional measure, we will continue to issue SBS permits under the existing quota for the hospitality sector until 31 July or until the current quota is exhausted, whichever is sooner. In addition, many of those admitted as the holder of a SBS permit issued under the current quota have permission to remain for several more months and may remain in employment here until they are due to leave. I should also emphasise that where employers in the hospitality sector require skilled workers from overseas, they may continue to apply for permits under the main work permit scheme.

Magic Mushrooms

The Parliamentary Under-Secretary of State for the Home Department (Paul Goggins): Section 21 of the Drugs Act 2005 will come into force on 18 July 2005. Section 21 has amended the Misuse of Drugs Act 1971 so that any fungi containing psilocin or an ester of psilocin—commonly known as magic mushrooms—are controlled drugs. Psilocin is already a class A drug—fresh magic mushrooms will be class A too.

Magic mushrooms are a powerful hallucinogen and can cause real harm, especially to vulnerable people and those with mental health problems. The law has not been clear with regard to the status of fresh magic mushrooms and some have tried to exploit this apparent loophole. In the last two years there has been a sudden increase in the amount of magic mushrooms imported into the UK—HM Revenue and Customs estimate the imports for 2004 to be between 8–16,000 kilograms. The Government have acted to close the loophole by making clear that it will not allow the open sale of fresh magic mushrooms. It is now an offence to import, export, produce, supply, possess or possess with intent to supply magic mushrooms whatever form they are in, whether prepared or fresh. This is a clarification of the law not a reclassification. These measures received cross party support during the passage of the Drugs Bill through Parliament.

The Advisory Council on the Misuse of Drugs agreed that the law on magic mushrooms would benefit from clarification. Professor Sir Michael Rawlins, Chair of the Council, wrote to me on 2 June stating that "Council members accepted entirely that there should not be easy access to hallucinogenic mushrooms" and "this was a sensible move to clarify the law".

During the Commons Committee stage of the Drugs Bill, the Government undertook to bring in regulations dealing with exceptions from the offence of possession in certain circumstances. The Misuse of Drugs (Amendment) (No. 2) Regulations 2005 are being laid before Parliament today and are due to come into force on 18 July 2005. The regulations amend the Misuse of Drugs Regulations 2001 to provide exceptions from the offence of possession of magic mushrooms. For example, a person will not be committing an offence of possession of magic mushrooms if the mushrooms are growing naturally and uncultivated on their premises.

Also to be laid at the same time is the Misuse of Drugs (Designation) (Amendment) Order 2005. The Order is due to come into force on 18 July 2005 and confirms legally that magic mushrooms, like psilocin, are designated as having no recognised medicinal use.

Known suppliers and importers of magic mushrooms will be notified formally of the legal change as a precursor to commencement of the provisions on 18 July.

Copies of the Regulations and the Order will be placed in the Library. Other sections of the Drugs Act 2005 will come into force later in the year.

NORTHERN IRELAND

Police Service of Northern Ireland

The Secretary of State for Northern Ireland (Mr. Peter Hain): I have received the annual report for 2004–05 of the Chief Constable of the Police Service of Northern Ireland which is being presented to Parliament today as a Command Paper.

Copies of the report are available form the Vote Office and Library of the House.

Written Ministerial Statement

Monday 27 June 2005

NORTHERN IRELAND

Probation Board

The Secretary of State for Northern Ireland (Mr. Peter Hain): I have today published the Probation Board for Northern Ireland combined corporate plan 2005–08 and business plan 2005–06. The corporate plan sets out the long-term strategic goals for the board over the next three years and the business plan sets out the board's key objectives and performance targets for the coming year.

Copies have been placed in the Libraries of both Houses.

Written Ministerial Statements

Tuesday 28 June 2005

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Fishing Industry (Strategy Unit Report)

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw): I am pleased to announce the publication today of *Securing the Benefits*, the joint UK response to the March 2004 *Net Benefits* report from the Prime Minister's strategy unit on the future of the fishing industry in the UK. The latter report was commissioned by the Prime Minister after the state of cod stocks led to the introduction in 2003 of limitations on the time fishing vessels could spend at sea, and in turn to significant decommissioning of UK boats.

Securing the Benefits sets out how the fisheries' administrations in the UK intend to implement the strategy unit's recommendations for the creation of a profitable future for the fishing industry in a thriving marine environment. We have developed this response in close partnership with the fishing industry and other interested groups, and will maintain that partnership as we deliver the actions we have mapped out.

The strategy unit firmly recommended that we should declare a clear aim for the fisheries policy, and *Securing the Benefits* does this. Our over-arching aim is:

> "A fishing sector that is sustainable and profitable and supports strong local communities, managed effectively as an integral part of coherent policies for the marine environment."

Securing the Benefits then declares a number of key measures which the administrations are committed to taking forward together at EU, national and regional level, including:

> on the common fisheries policy, seeking simpler rules and stronger focus on regional management, and helping members of regional advisory councils to maximise their contribution to the councils' work;
>
> making more use of fishermen's information in the assessment of fish stocks;
>
> developing on a regional basis a shared understanding with the fishing industry of what is needed to enable the different parts of the fleet to be profitable, considering where relevant the need for further selective decommissioning;
>
> improving arrangements for quota management in the UK, for example to provide greater clarity about the ownership of quota. This should help businesses plan for the future;
>
> using grants to help the fishing industry apply to the Marine Stewardship Council or other organisations for certification that particular fisheries are sustainable.

Securing the Benefits also notes some measures which the individual UK fisheries' administrations will be taking on their own account. The key measures being adopted by Defra in respect of England include:

> establishing a Marine Fisheries Agency in October 2005. One early task for the agency will be to pilot the regional fisheries manager concept recommended in *Net Benefits*;
>
> developing provisions in the planned Marine Bill to integrate fisheries into wider marine management, and considering as part of this the potential for a marine agency;
>
> continuing the Fisheries Science Partnership, so as to increase co-operation and mutual respect between fishermen and scientists, and the benefits that flow from that.

Defra will also be publishing its own paper in a few weeks to set out in more detail its plans for taking forward the measures set out in *Securing the Benefits* as well as other fisheries issues.

The measures we are announcing will build the economic, social and environmental aims of sustainable development into our approach to fishing. *Securing the Benefits* sets out a balanced and responsible approach to taking forward the strategy unit's recommendations, and I look forward to working with all concerned to implement it.

Copies of the response have been placed in the Libraries of the House.

FOREIGN AND COMMONWEALTH AFFAIRS

FCO Response to the Tsunami in the Indian Ocean

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): Following the tsunami in the Indian Ocean on 26 December 2004, the Foreign and Commonwealth Office (FCO) launched its largest ever operation to provide consular assistance to British nationals. The FCO provided an immediate and targeted response, with excellent commitment from staff, but given the sheer scale of the incident—triggered by the second largest earthquake on record—and the number of countries affected, FCO resources were stretched. In a relatively small number of cases, British nationals did not receive the level of service that we would normally have wished to provide.

During February and March 2005, the FCO carried out an internal review of our consular response. The emerging findings of this review were published as part of the FCO's memorandum to the Foreign and Commonwealth Affairs Committee on 9 March 2005. The Committee made copies of the memorandum available to all Members of Parliament. In the debate following my statement to the House of Commons on 22 March concerning the tsunami, I undertook to make the final conclusions of the internal review known to the House.

The conclusions of the internal review are set out in the form of a short summary of findings and a list of urgent and other recommendations copies of which I have today arranged to be placed in the Library of the House.

The recommendations are both for the consular directorate in London and for our posts overseas. The purpose of the internal review was to examine the FCO's overall response to the tsunami and identify those areas where better structures, equipment or preparation would have helped us to react more effectively. The review focused on the immediate response to the tsunami and dealt with the work of the FCO only and not of other Government Departments. The National Audit Office is currently examining the overall governmental response to the tsunami crisis, including the role of the FCO, in their review of consular services, due to be published by the end of the year.

Written Ministerial Statements

Wednesday 29 June 2005

TREASURY

Financial Services Authority

The Economic Secretary to the Treasury (Mr. Ivan Lewis): The annual report 2004–05 of the Financial Services Authority has today been laid before Parliament. Copies are available in the Libraries of both Houses.

The report forms a key part of the accountability mechanism for the Financial Services Authority under the Financial Services and Markets Act 2000 (FSMA), and assesses the performance of the Financial Services Authority over the past 12 months against its statutory objectives.

CONSTITUTIONAL AFFAIRS

The National Archives

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): The following key performance indicators have been set for the national archives.

KPI 1: Efficiency

KPI 1 A: To ensure that the unit cost of selecting and preserving the public records per metre does not rise above £97.

KPI 1 B: To ensure that the unit cost per information transaction with customers onsite and online does not exceed £4.04.

KPI 2: Quality of service

C: To achieve the public service standard targets for the national archives as follows:

(i) To make newly opened records and their catalogues available to users in accordance with specified time targets.

(ii) To answer 98.5 per cent. of written correspondence which is not a freedom of information, data protection or environmental information regulations enquiry, within 10 working days.

(iii) To deliver 90 per cent. of records requested by users for consultation in the reading rooms within 30 minutes on weekdays and 45 minutes on Saturdays.

(iv) To supply 98.5 per cent. of record copying orders in accordance with the specified targets and standards.

(v) To answer 85 per cent. of telephone calls within 20 seconds.

D: To carry out three onsite satisfaction surveys and to achieve assessments of good or excellent from 90 per cent. of those expressing a view.

KPI 3: Electronic service delivery

KPI 3: To develop direct digital access to popular records so that 165,000 digital record images are delivered to customers.

KPI 4: Social inclusion

KPI 4: To raise an awareness of TNA's holdings among under-represented groups in our user profile by means of a rigorous social inclusion programme, the chief targets of which are:

(i) To begin the implementation of the Moving Here project, "Routes to the Future", which will capture and record the experiences of first and second generation settlers in England.

(ii) To implement the Government and people: the interaction of the state with the citizen operational selection policy in all relevant records selection work in departments.

KPI 5: Raising the public profile of the national archives

KPI 5: To raise the profile of the national archives with the general public by achieving the following targets:

(i) To implement year one actions in our new three-year marketing strategy, by launching a national promotional campaign to raise awareness of the national archives and its services; ensuring the specification of the new search engine is consistent with user needs; increasing digitisation of visual material and making substantial additions to our network of licensed internet associate services.

(ii) To grow the website user base by a 15 per cent. increase in numbers of users visiting the website more than once, taken from respondents replying to at least two surveys on TNA's web services.

KPI 6: Records management

KPI 6: To continue to support the development of effective records management across Government by achieving the following targets:

(i) To monitor and influence the effectiveness of records management in central Government through the introduction of an integrated compliance regime with particular reference to the code of practice introduced under section 46 of the Freedom of Information Act 2000.

(ii) To develop, in collaboration with other Government Departments, a statement of requirements towards the survival of digital records.

More information on these and other key targets is published in the national archives' corporate and business plans.

Judicial Appointments and Conduct Ombudsman

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): My right hon. Friend the Secretary of State, Department for Constitutional Affairs, Lord Falconer of Thoroton, has made the following statement in the other place today.

"I am pleased to announce the start of the recruitment campaign to identify the inaugural judicial appointments and conduct ombudsman. The ombudsman will investigate judicial appointment complaints (including magistrate appointment complaints) and the handling of judicial conduct complaints.

The creation of the office of the judicial appointments and conduct ombudsman follows the passing of the Constitutional Reform Act 2005 earlier this year".

DEPUTY PRIME MINISTER

Local Government (Beacon Scheme)

The Minister for Local Government (Mr. Phil Woolas): Today we have placed on the ODPM website a copy of the application brochure for round seven of the beacon scheme. Paper copies will be placed in the Libraries of both Houses and will be sent in early July to all authorities eligible. We are publishing an electronic copy in advance to give authorities as early as possible, information that will inform decisions to apply. A copy of the brochure can be found at: www.odpm.gov.uk/beaconcouncils.

The beacon scheme continues to be a popular, successful method of celebrating and promoting best practice in local government. In the first six rounds of the scheme, 275 beacon awards have been made in 59 service themes. These beacons have then disseminated their excellence to other authorities through learning events and open days co-ordinated by the Improvement and development agency. Round Six Beacons continue to disseminate their work now.

We are inviting all authorities (other than those rated "poor" under the CPA who are not eligible to apply) that believe they have achieved excellence in one or more of this year's beacon themes to apply for beacon status. We particulary encourage district and smaller best value authorities to apply so that their excellence can be recognised and shared with others. Round seven themes for which we are now inviting applications are:

Culture and Sport for Hard to Reach Groups

Delivery of Quality Services through Procurement

Early Intervention (Children at Risk)

Improving Housing Services by Involving Tenants

Improving Rural Services: Empowering Communities

Positive Youth Engagement (in the Community and Democratic Process)

Road Safety

Transforming the Delivery of Services Through Partnerships

Valuing People

Waste and Recycling

Applications are invited by 5 September 2005. Beacon authorities will be announced in early 2006.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Woodland

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jim Knight): I am pleased to advise that we have today have today published a policy statement for England's native and ancient woodland. This has been prepared jointly by DEFRA and the Forestry Commission England.

This policy represents a significant change in emphasis for forestry activities in England by placing native and ancient woodland at the heart of forestry policy. The policy sets out a vision where "ancient woodland, veteran trees and other native woodland is adequately protected, sustainably managed in a wider landscape context, and is providing a wide range of social, environmental and economic benefits to society".

Taken together, native and ancient woodland makes up around half of England's total woodland area. They contain numerous protected and priority species, provide excellent educational and recreational opportunities and are a source of quality renewable resources in the form of hardwood timber and other products.

The policy will make a significant contribution to several Government targets and policies, in particular the Government's biodiversity strategy for England, and will also help fulfil international commitments and statutory obligations. The Forestry Commission will work in close alignment with natural England partners to ensure effective and coherent delivery of the policy, including a simplified system of support for landowners.

Copies of the policy statement will be placed in the Libraries of both Houses.

The policy statement can also be viewed on the Forestry Commission's website at: www.forestry.gov.uk.

FOREIGN AND COMMONWEALTH AFFAIRS

UK Security Advisory Team (Caribbean)

The Minister for the Middle East (Dr. Kim Howells): The official launch of the United Kingdom Security Advisory Team (UKSAT) took place in Antigua on 9 June 2005, with addresses from the hon. Baldwin Spencer, Prime Minister of Antigua and Barbuda, and John White, British High Commissioner for the Eastern Caribbean. Sir James Carlisle, Governor General of Antigua and Barbuda, and other senior representatives from the region were also present.

The UKSAT project supports delivery of FCO's strategic priority 2: protection of the UK from illegal immigration, drug trafficking and other international crime, and strategic priority 8: security and good governance of the UK's Overseas Territories. The FCO is providing £1.5 million of funding for the project in 2005–06. The Eastern Caribbean is a key transit point for cocaine from Latin America destined for the UK; through UKSAT, we are seeking further to develop our law enforcement cooperation and effectiveness in the region.

UKSAT will work in partnership with the Regional Security System (RSS) and the UK Caribbean Overseas Territories (COTs) to enhance law enforcement capacity in the RSS countries and the COTs. This will be achieved through training, advice and mentoring to strengthen actions against drug trafficking and other organised criminal groups operating in the Caribbean.

The team will evolve over the next three years to consist of 14 personnel based in RSS countries: eight UK staff will include officers from HM Revenue and Customs and Royal Navy and six recruited regionally. UKSAT will work closely with the RSS security screening programme to tackle corrupt practices and integrity issues in regional law enforcement

organisations. In addition, UKSAT programmes will be delivered elsewhere in the region, notably Jamaica and Trinidad.

As part of UKSAT, the Maritime Training Unit in Antigua will, in conjunction with the RSS Training Unit, continue to provide training and advice in support of maritime law enforcement activities in the region.

This practical training commitment reflects the close cooperation which exists at all levels between Her Majesty's Government and Governments of the Caribbean nations and a shared commitment to tackle the problems of security and organised crime in the region, which affects both the Caribbean nations themselves and the UK. It is also of particular benefit to the CQTs in helping them to meet their maritime law enforcement needs and in providing them with a sound basis to generate sustainable and effective operational capabilities.

HOME DEPARTMENT

Immigration and Nationality Directorate

The Minister for Immigration, Citizenship and Nationality (Mr. Tony McNulty): I am pleased to announce the publication of the independent Complaints Audit Committee (CAC) annual report for the year 2004–05. Copies are available in the Library of the House and the Immigration and Nationality Directorate (IND) website.

This is the CAC's 11th report. Their role is to monitor the effectiveness of IND's procedures for investigating complaints about the conduct and efficiency of staff in IND. Their findings are extremely valuable to the organisation.

The annual report highlights a number of areas where IND could improve its customer service, supported by a number of recommendations. IND will use these recommendations to help inform their wider change and reform strategy, one of the key elements being to make IND a more customer focused organisation.

Antisocial Behaviour Orders

The Minister for Policing, Security and Community Safety (Hazel Blears): I am announcing today statistics relating to anti-social behaviour orders (ASBOs).

An ASBO is a civil order which protects the community from behaviour that has caused or is likely to cause harassment, alarm or distress to one or more persons not of the same household as the perpetrator.

ASBOs were introduced under the Crime and Disorder Act 1998 and have been available since April 1999.

ASBOs can be issued to anyone aged 10 years or over. They impose restrictions on the behaviour of individuals who have behaved in an anti-social way and protect communities from often longstanding and highly intimidating activity.

Breach of an ASBO is a criminal offence and can lead to custody. The maximum penalty for breach of an ASBO is five years imprisonment or a fine of up to £5,000 for an adult offender.

The Home Office is notified by all courts of ASBOs issued.

Data on the number of ASBOs issued is updated quarterly. New figures for the period up to December 2004 are now available. These figures show that for the period between April 1999 and December 2004 the number of ASBOs issued (as reported to the Home Office) was 4,649. The number of ASBOs issued in the quarter October to December 2004 is 17 per cent. of the total number of ASBOs issued over all quarters and indicates that ASBO numbers for the latest quarter are double those of the same quarter last year (October to December 2003—364 ASBOs).

Of those ASBOs issued, 52 per cent. were to adults and 44 per cent. to juveniles (4 per cent. of ASBOs are age unknown).

Some 55 per cent. were orders on application, 45 per cent. were orders on conviction.

I intend to make a similar statement to the House every quarter to provide an update on ASBOs statistics.

I have placed in the Libraries of both Houses a briefing note containing information about ASBOs and the ASBOs statistics issued today.

NORTHERN IRELAND

Inland Fisheries

The Minister of State, Northern Ireland Office (Mr. David Hanson): Copies of the inland fisheries annual report of the Department of Culture, Arts and Leisure for 2003 have been placed in the Libraries of both Houses.

The document provides details of the Department's activities to conserve, protect and develop salmon and inland fisheries under the provisions of the Fisheries Act (Northern Ireland) 1966, as amended and includes statistical information and income and expenditure details for the 2003–04 financial year.

TRADE AND INDUSTRY

Fiddler's Ferry Power Station

The Minister for Energy (Malcolm Wicks): I have today given consent under section 36 of the Electricity Act 1989 to Scottish and Southern Energy's application to construct and operate flue gas desulphurisation plant at its Fiddler's Ferry coal-fired power station near Warrington. Planning permission has also been given subject to the inclusion of 52 conditions agreed with Warrington borough council.

Coal and other fossil fuels remain vital ingredients in our energy mix, but we need to reduce the impact that burning them has on the environment. Fitting flue gas desulphurisation plant at Fiddler's Ferry is a welcome step forward and will help reduce the damaging effects of acid rain.

Inward Investment

The Secretary of State for Trade and Industry (Alan Johnson): With my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs, I am

pleased to inform the House that UK Trade and Investment announced today, at its launch of the UK Inward Investment 2004–05 report, that there were 1,066 direct investments in the UK by foreign owned companies between 1 April 2004 and 31 March 2005. This is an increase of 31 per cent. on the year. Among business sectors, the largest number of projects were in IT, followed by software, pharma and biotech. Total jobs figures were up 26 per cent. to 75,043 of which 39,592 were new jobs (up 55 per cent. on the previous year) and 35,451 safeguarded jobs (up 5 per cent. on 2002–03)

This performance reflects the confidence which companies around the world continue to show in the business climate in the UK. The number of new projects has increased by 49 per cent. from 339 in 2003–04 to 506 in 2004–05, while mergers/acquisitions and joint ventures were up 41 per cent from 187 in 2003–04 to 264 in 2004–05. Expansions by existing investors were up 3 per cent., from 285 in 2003–04 to 296 in 2004–05.

The competition is fierce. But we will not allow our position as market leader in Europe to make us complacent. UKTI will further strengthen and sharpen its operations in priority markets and the Government will continue to ensure that the UK provides economic growth and stability and an innovative climate to attract investment.

I am arranging for a copy of the UK Inward Investment 2004–05 report to be placed in the Libraries of both Houses.

WORK AND PENSIONS

Benefit Fraud Inspectorate (Rossendale Borough Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Rossendale borough council was published today and copies have been placed in the Library.

In 2003–04, Rossendale borough council administered some £10 million in housing benefits, about 55 per cent. of its gross revenue expenditure. The council was not at standard in any of the seven functional areas of performance standards. However, since August 2003 it had made and sustained improvements in a number of areas. It had processed claims faster, improved the standard of verification of claims, prosecuted fraudsters and publicised its counter-fraud efforts.

However, there were significant weaknesses in strategic management, project management and planning arrangements, management of counter-fraud operations, and the recovery of overpayments.

Inspectors found errors in recording the time taken to process new claims that caused performance to be understated. Claims were in fact being processed in 46 days on average between April and December 2004 compared with the council's previously reported performance of 55 days. Performance had improved to the extent that for the month of December 2004 claims were processed within an average of 36 days.

Internal auditors and the Audit Commission had previously identified some of the weaknesses described in the BFI report. However, the council had not implemented their recommendations and audit findings were not reported to members and senior officers.

My right hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to the BFI's findings.

Benefit Fraud Inspectorate (South Cambridgeshire District Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on South Cambridgeshire district council was published today and copies have been placed in the Library.

In 2002–03, South Cambridgeshire district council administered some £15.5 million in housing benefits, about 21 per cent. of its gross revenue expenditure. BFI assessed the council against the performance standards for counter-fraud and the internal and external audit elements of strategic management and found that the council was not at standard. Strategically there were some areas of good practice, including a clear corporate vision, but this was not fully reflected in operational plans, policies or local targets.

The council gave a high priority to combating benefit fraud. The fraud team was well trained and experienced and had been successful in securing several high profile prosecutions.

However, the report notes serious concerns over some of the council's working practices, including weaknesses in management checking and failure to use management information. Authorised officers' powers were used routinely to obtain information from third parties, but no monitoring of these activities was undertaken to ensure compliance with legislation, and several breaches of these powers were identified.

There were also breaches of the Police and Criminal Evidence Act 1984 in several of the interviews under caution that BFI examined. Other evidence indicated that the council was not fully complying with the Criminal Procedure and Investigations Act 1996, the Regulation of Investigatory Powers Act 2000 and the Data Protection Act 1998.

My right hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to the BFI's findings.

Benefit Fraud Inspectorate (Hart District Council)

The Parliamentary Under-Secretary of State for Work and Pensions (James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Hart district council was published today and copies have been placed in the Library.

In 2003–04 Hart district council administered some £7.8 million in housing benefits, about 34 per cent. of its gross revenue expenditure. The BFI's follow-up inspection found that the council was not at standard in any of the seven functional areas of performance standards and was providing a poor level of service overall.

The council had failed to fully implement over 80 per cent. of the recommendations made following the first BFI inspection in 2000. This failure led to weak performance in key areas including customer services and overpayments in particular.

The council's service to its customers was poor, due mainly to a limited telephone service, an out of date housing benefits claim form and confusing and inaccurate decision letters. While the council was reporting that it was processing new claims for housing benefits in 23 days, against the standard of 36 days, some claims were being decided with insufficient evidence.

A lack of management checks and insufficient overpayments training meant that the council unnecessarily created overpayments. It also incorrectly claimed subsidy for overpayments caused by local authority error and only recovered 14 per cent. of overpayments in 2003–04.

This inspection found a number of improvements in the council's counter-fraud work, including correctly applying sanctions in line with the council's policies.

My right hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to the BFI's findings

Benefit Fraud Inspectorate (Mid-Suffolk District Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on mid-Suffolk district council was published today and copies have been placed in the Library.

In 2003–04, mid-Suffolk district council administered some £6.6 million in housing benefits, about 29 per cent. of its gross revenue expenditure. In the final quarter of 2003–04 the council was taking 96 days on average to process new claims for housing benefits against the standard of 36 days. This placed it in the bottom 15 per cent. of local authorities for reported performance.

BFI found that during 2003–04 the council had introduced a new benefits IT system, recruited benefits managers and addressed other resourcing issues in the benefits service. Reported claims processing performance dipped in the period following the introduction of the new benefits IT system. However, a recovery plan was agreed and the backlog of work was managed impressively and cleared between April and October 2004.

This was reflected in a dramatic improvement in the speed of processing new claims, to 29 days by October 2004. Verification of claims was also being undertaken to a high standard. The council acknowledged that the improved performance was achieved at the expense of management assurance and indicated that it intended to implement improvements in assurance as a priority. Mid-Suffolk district council also needs to develop procedural guidance and structure its approach to training staff.

My right hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to the BFI's findings.

Benefit Fraud Inspectorate (Gosport Borough Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Gosport borough council was published today and copies have been placed in the Library.

In 2003–04 Gosport borough council administered some £15.1 million in housing benefits, about 34 per cent. of its gross revenue expenditure.

Gosport borough council had made significant improvements in the time taken to process new claims and was now taking an average of 25 days although to some extent this improvement had been achieved at the expense of quality.

Weaknesses in management checking and poor reporting of performance failed to provide Members or senior officers with adequate assurance about true levels of performance. This was compounded by a failure to monitor the implementation of audit recommendations.

Poor publicity and failure to assess the needs of working customers and ethnic minority groups limited access to the service. The requirements of race relations legislation had not been fully met. Failure to record all customer complaints was a particular concern.

The council's classification of overpayments was incorrect in some instances and this calls into question the accuracy and validity of the 2004–05 subsidy claim.

An effective counter-fraud team used an intelligence-led system that maximised the time, training and expertise of its investigators and led to an increase in the volume of sanctions administered. However, BFI were concerned by the limited adherence to guidance in the council's own prosecution policy when a sanction was administered.

My right hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to the BFI's findings.

Written Ministerial Statements

Thursday 30 June 2005

CONSTITUTIONAL AFFAIRS

Broadcasting Courts

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): My right hon. and noble Friend, the Secretary of State and Lord Chancellor, Lord Falconer of Thoroton, has made the following written ministerial statement in the other place today, 30 June 2005:

> "My Department is publishing a summary of the responses to my consultation on broadcasting court proceedings today, 30th June 2005. Copies of the summary have been placed in the Libraries of both Houses."

EDUCATION AND SKILLS

Information Sharing Databases (Children's Services)

The Minister for Children and Families (Beverley Hughes): I have today placed copies of the Government's response to consultation on recording practitioner details for potentially sensitive services and recording concern about a child or young person in the Libraries of both Houses.

Section 12 of the Children Act 2004 provides for the establishment of information sharing databases (or indexes). The then Parliamentary Under-Secretary of State for Education and Skills, Baroness Ashton of Upholland, announced at Lords report stage of the Children Bill in July 2004 that the Government would hold a public consultation on three issues related to the operation of the information sharing indexes under section 12 of the Children Act 2004:

> recording practitioner details for potentially sensitive services on the index;
>
> access by authorised users to practitioner details once recorded; and
>
> recording the fact of a concern on the index.

The consultation ran from 27 October 2004 to 19 January 2005.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Sustainable Development Indicators

The Minister for Climate Change and the Environment (Mr. Elliot Morley): Following the Prime Minister's launch of the UK Government sustainable development strategy "Securing the Future" in March this year, we have today published baseline assessments of the indicators with which we will monitor progress. These are contained in the statistical publication "Sustainable Development Indicators in your Pocket 2005".

This handy, accessible booklet presents 68 indicators through which we can monitor our success in delivering against key priorities within the strategy: Sustainable consumption and production, climate change and energy. Natural resource protection and environmental enhancement, and sustainable communities. Twenty of the indicators are shared with the devolved administrations within our shared framework for sustainable development "One future—different paths".

The UK is already a leader in measuring and communicating its progress to deliver sustainable development. This new set of indicators and new booklet builds further on this. It is hoped that we will reach a wide audience and through the booklet help to promote sustainable development.

Copies of the booklet will be placed in the Libraries of both Houses.

HEALTH

Ambulance Services

The Parliamentary Under-Secretary of State for Health (Mr. Liam Byrne): My noble Friend the Minister of State, Lord Warner, has made the following written ministerial statement.

The report of the strategic review of ambulance services, led by Peter Bradley CBE, national ambulance adviser, is published today. The Department of Health supports the review's conclusions and will now take forward a programme of work to support the national health service in implementing the main recommendations. The Department will consult further on the implementation of some of the recommendations.

Copies of the review have been placed in the Library.

NORTHERN IRELAND

Construction Industry Training Board

The Parliamentary Under-Secretary of State for Northern Ireland (Angela E. Smith): I am pleased to announce the publication of the Construction Industry Training Board annual report and accounts for the 2003–04 financial year. This document is now available in the Library.

TRADE AND INDUSTRY

Coal Health Compensation Scheme

The Minister for Energy (Malcolm Wicks): The House will be aware of allegations that have been made in *The Times* in the last few days about potential fraud in the handling of coal health compensation claims. I wish to make a statement.

These schemes are a major priority for the Government. To date over £2.6 billion has already been paid to former miners, their widows and families. Over 700,000 claims are being processed in what is a major delivery exercise.

It is also important to understand that the Department is acting in respect of the schemes under the jurisdiction of the High Court. This is because the schemes are the result of group litigation and delivery is overseen by judges who are still in charge of the cases.

The matters which the police are currently investigating arise from discussions which my Department had with the Law Society which in turn led to the discovery of information which the Law Society referred to the South Yorkshire police. A full criminal investigation is now underway and we are in close touch with the Police.

No charges have, however, yet been made.

The House will understand that in the circumstances I am unable to comment on the nature of the police investigations. I do, however, wish to make it very clear that there is nothing in the matters which are being investigated to suggest that there is any fraud against claimants. Nor is it a matter of the UDM having a preferential agreement; they do not. The investigation is focused solely on issues related to the costs of handling claims and not the payment of compensation to claimants.

I have decided, however, to take a number of immediate steps:

my Department has today written to the UDM seeking a complete list of claims which have been submitted through the UDM. That will enable us to ensure that any potential fraud is capped.

we have invited the UDM to set out what immediate actions they intend to take in respect of the individuals subject to investigation.

I have asked the chief constable of South Yorkshire police to press ahead with the investigation with all speed and assured him of the Department's full co-operation.

we have contacted the judges involved in the schemes to keep them fully informed of what we are doing.

we have written to the Law Society asking for an urgent report on the issues they have been considering on double charging by solicitors, although recognising that double charging is not the subject of the fraud investigations.

I must stress that I regard these as preliminary steps. I am fully prepared to take further actions as necessary. For example I have certainly not ruled out the option of suspending the operation of the UDM contract while the police inquiries continue. I have therefore asked officials and our claim handlers to assess what impact such action might have on the schedule for the payment of claims.

I would ask the House, however, to note two points:

first, nothing I do now should inhibit or compromise the need for the police to carry out the inquiries;

secondly, I am very anxious to avoid taking any steps which could compromise the prompt payment of claims to applicants. The schemes are highly complex and it is not easy to make changes in the administrative arrangements without risking the introduction of delays—and we have to recognise that a number of those whose applications are being processed are both elderly and not in the best of health.

I will keep the House informed of developments.

TRANSPORT

Manchester Metrolink

The Parliamentary Under-Secretary of State for Transport (Derek Twigg): I have today given conditional approval to a scheme to refurbish Manchester Metrolink.

The scheme put forward by Greater Manchester passenger transport executive includes the renewal of existing tracks on the Bury to Altringham line and the purchase of eight new vehicles to reduce overcrowding on the Metrolink system.

The scheme will bring noticeable improvements in the quality of journeys for existing users of Manchester's Metrolink and offer an attractive alternative to those currently driving into the centre of Manchester.

Conditional approval demonstrates our support for the improvements. Providing costs and other details remain unchanged, we would expect to grant full approval in due course.

I am committing Government funding of up to £58 million towards the costs of the scheme, subject to full approval subsequently being granted. This funding is part of the £520 million which the Government have already pledged for the areas served by the Metrolink phase III proposals.

My officials will work closely with Greater Manchester passenger transport executive over the next few months to finalise details of the scheme.

Written Answers to Questions

Monday 13 June 2005

SOLICITOR-GENERAL

Revenue and Customs Prosecutions Office

Harry Cohen: To ask the Solicitor-General what discussions the Government's law officers have had with representatives of Customs and Excise about the merits of revised legal and evidential arrangements in complex and expensive fraud cases involving tax; and if he will make a statement. [1851]

The Solicitor-General: The new Revenue and Customs Prosecutions Office (RCPO) was created on 18 April 2005. RCPO is accountable to the Attorney-General and responsible for the prosecution of HM Revenue and Customs cases in England and Wales. The director of RCPO, David Green QC, meets regularly with the Law Officers to discuss the work of the new department. These discussions cover matters of policy and strategy arising from new developments in the law, and also the progress of the department's most serious cases, including complex VAT frauds.

Correspondence

Lynne Featherstone: To ask the Solicitor-General when he will answer the letter from Mr. H. R. Johnson of 18 March 2005, a constituent of the hon. Member for Hornsey and Wood Green; and if he will make a statement. [4613]

The Solicitor-General: I am told my office has no record of receiving a letter dated 18 March 2005 from Mr. H. R. Johnson. However, I will consider a response if the hon. Member sends me a copy of the letter.

INTERNATIONAL DEVELOPMENT

Africa

Andrew Rosindell: To ask the Secretary of State for International Development what steps the Government are taking to encourage African Governments to tackle corruption. [2944]

Hilary Benn: Corruption is a symptom of poor governance. DFID supports a range of governance reforms to tackle corruption, for example through programmes to improve public financial management and judicial and parliamentary oversight. DFID has also provided technical and financial support to dedicated anti-corruption commissions in Uganda, Sierra Leone, Malawi and Zambia. We are also working with our G8 partners to tackle corruption, for example through the G8 transparency initiative, which focuses particularly on budget and procurement reform. Nigeria is a pilot country.

Mr. Clappison: To ask the Secretary of State for International Development how much aid was donated by the United Kingdom to each African country per head of population in the last financial year; and what ranking the Government apply to the relative poverty of African countries. [2739]

Hilary Benn: The UK reports to the Organisation for Economic Co-Operation (OECD) Development Assistance Committee (DAC) on overall UK development assistance by calendar rather than financial year. The following table sets out the amount of UK overseas development assistance to each African country for the calendar year 2003. These are the most recent figures available[1]. The table is ranked by the amount of UK overseas development assistance received per head of population.

The Department for International Development's 16 target countries in Africa are highlighted in the table. DFID includes a measure of relative poverty in the financial model which informs the allocation of development assistance to these sixteen countries—specifically gross national income (GNI) per capita, progress towards the millennium development goals and economic vulnerability.

DAC Online and WDI Online

Antiretroviral Drugs

Mr. Andrew Smith: To ask the Secretary of State for International Development if he will make a statement on progress in making available generic antiretroviral drugs at reasonable prices for the treatment of AIDS in poor countries. [3512]

Mr. Thomas: In December 2004, the World Health Organisation (WHO) reported that 700,000 people living in developing countries were receiving antiretroviral treatment for HIV compared to 400,000 in June 2004. Reductions in the prices of antiretroviral combination therapy have been a key element in this increase. Competition from generic versions of HIV drugs has been important in reducing drug prices, along with action by pharmaceutical companies to reduce prices for proprietary medicines. The UK supports the rights, consistent with international agreements on trade and intellectual property, of developing countries to make informed decisions on the purchase and use of generic HIV drugs to meet their treatment needs.

The WHO will release an updated report on access to HIV treatment in developing countries at the end of June, when progress in reaching the target of three million people on treatment by the end of 2005 can be assessed, including the role of generic drugs.

Botswana

Andrew Rosindell: To ask the Secretary of State for International Development what foreign aid has been given by the UK to Botswana since 1997. [2273]

Hilary Benn: UK foreign aid to Botswana between 1997 and 2003 was worth £28.3 million, either channelled through bilateral aid or multilateral institutions such as the European Union, United Nations and the World Bank. DFID's programmes focused on capacity building and policy development in areas such as animal production and range management, support to civil society and HIV/AIDS. UK aid to Botswana has declined over time owing to DFID's commitment to give 90 per cent. of its bilateral aid to low income countries, with only 10 per cent. going to middle income countries like Botswana. The table gives a breakdown of annual figures up to 2003–04, the last year for which figures are available.

£ million

Period	Bilateral aid	Multilateral contributions	Total
1997–98	4.0	5.9	9.9
1998–99	3.1	3.0	6.1
1999–2000	3.0	1.6	4.6
2000–01	2.4	0.9	3.3
2001–02	2.0	0.2	2.2
2002–03	1.4	0.1	1.5
2003–04	0.7	Not available[1]	0.7

[1] The 2003 multilateral share figures are currently being calculated and will be available at the beginning of July 2005.

Andrew Rosindell: To ask the Secretary of State for International Development what assistance the Government are providing to help tackle HIV/AIDS in Botswana. [2945]

Hilary Benn: UK Government assistance for HIV/AIDS prevention and control in Botswana has been provided through a grant of £7.6 million to the Southern African Development Community. The grant is for the period 2001 to 2006 and is for assistance in Botswana, Namibia, Swaziland and Lesotho.

Given the existing heavy emphasis by the Government of Botswana and international donors upon treatment, DFID has concentrated its support upon prevention. DFID has been working to improve the diagnosis and treatment of sexually transmitted diseases, encourage programmes aimed at changing behaviour, increase access to male and female condoms, and to strengthen the capacity of the Ministry of Health and groups that represent HIV positive people.

Resources from the total have been allocated to Botswana specifically as follows

Area of support project	Organisations supported	Total Budget (£)
National AIDS programme strengthening and support to people living with HIV/AIDS	Ministry of Health; Botswana Network of People living with AIDS	320,000
STD management	Ministry of Health; Private practitioners	230,000
Behaviour change communication	Ministry of Health; National AIDS Council; Botswana National Youth Council; Media	294,000
Social marketing of condoms	Population Services International	830,000
Total		1,674,000

Counter-terrorism

Andrew George: To ask the Secretary of State for International Development what *(a)* proportion and *(b)* amount of his Department's resource budget was spent on counter-terrorism measures in (i) Africa, (ii) Afghanistan, (iii) Pakistan, (iv) the Philippines, (v) the remaining South and East Asia and Pacific countries and (vi) all other countries in each year since 2001–02. [3643]

Hilary Benn: DFID resources are not spent on direct counter-terrorism measures. Under the International Development Act (2002), development assistance must be used for the purpose of furthering sustainable development in countries outside of the UK or improving the welfare of the population of such countries.

However, DFID's work on poverty reduction indirectly benefits global security. Terrorist leaders can exploit the issue of poverty as a means of mobilising popular support and legitimising their actions. Many of the structural factors that increase the risk of terrorism also matter for development: unmet political and economic aspirations, lack of jobs for skilled labour, weak states and poor governance. DFID support to poverty reduction, good governance, social inclusion and education in many poor countries helps to reduce the risk of terrorism.

DFID has no bilateral programme in the Philippines.

Darfur

Glenda Jackson: To ask the Secretary of State for International Development what additional support the UK will offer the African Union to ensure safe delivery of humanitarian aid in Darfur. [2395]

Hilary Benn: I refer my hon. Friend to the ministerial statement I issued earlier today. The UK has significantly increased its support to the African Union Mission in Sudan (AMIS), with commitments now totalling almost £32 million. This will help enable AMIS to fulfill its mandate to: ensure people in Darfur live in more peaceful and secure conditions; monitor and report on alleged violations of the ceasefire; and contribute to a secure environment for the delivery of humanitarian relief.

Iraq

Sarah Teather: To ask the Secretary of State for International Development what percentages of households in Iraq have access to *(a)* clean water and *(b)* electricity. [2539]

Hilary Benn: The most recent reliable source of data on living standards in Iraq is the "Iraq living Conditions Survey 2004" conducted by the Iraqi Central Office for Statistics and Information Technology in April and May 2004. The following information is drawn from this survey which can be found at http://www.iq.undp.org/ILCS/overview.htm.

Access to clean water in Iraq varies significantly between urban and rural areas. In urban areas, 66 per cent. of households have reliable, safe drinking water; 33 per cent. have access to safe water but the supply is unreliable; and 1 per cent. of urban households are receiving unsafe drinking water. In rural areas, 43 per cent. of Iraqi households have reliable access to safe drinking water, 22 per cent. have access to safe drinking water but the supply is unreliable, and 34 per cent. have access only to unsafe drinking water.

Almost all Iraqi households are connected to an electricity network, with little variance between urban and rural areas. However, only 15 per cent. of households report their electricity supply to be reliable: 85 per cent. of households experienced low voltage supply or a supply of less than 12 hours per day. 31 per cent. of households use a private generator to improve their access to electricity.

DFID has committed over £70 million to infrastructure programmes in southern Iraq which are helping to improve water and electricity supplies for more than 5 million people. DFID is providing advisers to work with the Ministry of Electricity in Baghdad on developing a national energy strategy. Water and electricity projects are also being financed by other donors, including the USA, Japan, the United Nations and the World Bank, as well as from Iraq's own budget.

Ivory Coast

Andrew Rosindell: To ask the Secretary of State for International Development in what ways the Government are working with the Government of the Ivory Coast to tackle its debt. [2947]

Hilary Benn: The UK has cancelled 100 per cent. of aid loans to the Côte D'Ivoire under Retrospective Terms Adjustment (RTA). To date, this amounts to £2,562,000. Côte D'Ivoire's outstanding balance of aid loans owed to the UK amounts to £862,000, which will be cancelled (under RTA) as they fall due.

The UK actively supports the progress of eligible countries through the Heavily Indebted Poor Countries (HIPC) initiative, for example by supporting development of their debt management capacity under the HIPC Capacity Building Project. Since 1997–98, the UK has written off approximately £16.2 million of Côte D'Ivoire's debt under Paris Club agreements. Côte D'Ivoire's outstanding balance to the Export Credit Guarantee Department (ECGD) currently stands at £18.9 million. Once the Côte D'Ivoire reaches Decision Point, it will begin to receive interim relief on this debt, and would receive 100 per cent. relief from UK at Completion Point.

Côte D'Ivoire's outstanding balance to the Commonwealth Development Corporation currently stands at just under £13,000,000. This would be suspended once Côte D'Ivoire reaches Decision Point, and cancelled at Completion Point.

Due to the civil conflict in Côte D'Ivoire the country is currently off-track on the International Monetary Fund's (IMF) Poverty Reduction and Growth Facility (PRGF) programme, which has meant that progress towards meeting the HIPC Decision Point conditions has been delayed.

The United Kingdom is working closely with the international community in support of a durable political settlement in the Côte d'Ivoire. During 2004–05, DFID also provided £1.55 million in humanitarian

assistance through international agencies and non-governmental organisations working there. DFID is continuing to monitor the humanitarian situation and is planning to provide £2 million in humanitarian assistance in 2005–06.

Malawi

Dr. Gibson: To ask the Secretary of State for International Development what steps he has taken to reduce Malawi's dependency on the tobacco crop. [3759]

Hilary Benn: I refer my hon. Friend to the responses I gave to the hon. Member for Moray (Angus Robertson) on 21 February 2005, *Official Report*, column 388W.

Nigeria

Andrew Rosindell: To ask the Secretary of State for International Development what representations the Government have made to the Nigerian Government on corruption; and if he will make a statement. [2939]

Hilary Benn: The need for serious action against corruption has been a central feature of the UK's discussion with the Nigerian Government.

President Obasanjo has personally spearheaded a campaign to tackle corruption and is showing resolve in tackling the problems, but he faces significant challenges. There are strong vested interests working against him. We have commended him for his action and in particular for the establishment of the Economic and Financial Crimes Commission, which was responsible for the recent arrest of the Inspector General of Police, and for the investigations leading to the dismissal of the Senate President and Education Minister. Nigeria is also implementing the extractive industries transparency initiative.

Andrew Rosindell: To ask the Secretary of State for International Development what steps the Government are taking to assist in raising living standards in Nigeria. [2943]

Hilary Benn: Nigeria is the biggest country in Africa in terms of population, and one of the poorest. It is also the least aided in terms of development assistance per capita. It has appalling human development indicators, reflecting decades of mismanagement and corruption by military dictatorships. The administration of President Obasanjo is now making progress and has developed a good poverty reduction strategy, the National Economic Empowerment and Development Strategy (NEEDS). The UK has doubled the size of our programme from £35 million in 2003–04 to £70 million this year. We plan to increase it further to £100 million, reflecting the progress being made by the federal Government in starting to tackle poverty and in tackling corruption. The UK has also been supporting the case at for debt relief for Nigeria.

Overseas Aid

Andrew George: To ask the Secretary of State for International Development what assessment he has made of the *(a)* transparency and *(b)* accountability of his Department's aid programme to the developed countries. [3645]

Hilary Benn: DFID's programme is aimed at helping developing countries achieve the Millennium Development Goals. Both DFID and our partner governments must be accountable for the way we use UK public resources to pursue this aim. We must be fully transparent about the way resources are spent; and we must be accountable for results both to the UK Parliament and public, and to the governments and citizens of our partner countries.

To ensure transparency of its policies and plans, DFID publishes details of its work in our Annual Departmental Report, and in a wide range of other documents openly available on our website www.dfid.gov.uk.

To ensure our accountability for delivering results, DFID has a clear public service agreement (PSA), which assesses the contribution made by DFID to achieving the Millennium Development Goals. DFID reports twice a year on progress against the PSA.

To ensure transparency and accountability in the way our resources are spent in partner countries, DFID applies robust programme and financial management, and audit systems, for resources we administer directly. Where DFID provides resources for partner Governments or non-government agencies to use through their own systems, we conduct thorough risk assessments of the robustness of these systems, and work with partners to strengthen these systems where necessary. All DFID projects and programmes are subject to audit—either by partner Government audit systems, or through independent audit. DFID's overall expenditure is subject to audit by the UK National Audit Office.

Sierra Leone

Andrew Rosindell: To ask the Secretary of State for International Development what steps the Government are taking to encourage development in Sierra Leone. [2941]

Hilary Benn: The UK Government's commitment of support to Sierra Leone is set out in a 10 year agreement, signed in November 2002. The key areas of our programme are security sector reform, governance reform including public administration reform, decentralisation, public financial management, diamond sector reform, anti-corruption measures, private sector development and budgetary support. DFID has committed £120 million to the first three years of the agreement.

A particular feature of the agreement is the inclusion of performance benchmarks agreed between the UK Government and the Government of Sierra Leone (GoSL), which commit the GoSL to reforms in exchange for our support. Quarterly reviews of progress against the performance benchmarks are held with Sierra Leone authorities.

The UK is the largest bilateral donor to Sierra Leone. DFID works closely with other donors as members of the Development Partners Committee, which regularly brings together the Government of Sierra Leone and donors to discuss progress on development issues.

Sub-Saharan Africa

Andrew Rosindell: To ask the Secretary of State for International Development what assistance the Government are providing to alleviate debt in sub-Saharan African countries. [2946]

Hilary Benn: The UK Government are committed to the goal of 100 per cent. debt relief for poor countries in Sub-Saharan Africa. We continue to press for the rapid and full implementation of the heavily indebted poor countries (HIPC) initiative. This initiative is delivering real benefits to some of the world's poorest countries. To date, over $70 billion in debt relief is being provided to 27 countries, including 23 in Sub-Saharan Africa, reducing their debts by around two-thirds on average, and freeing up resources for spending on poverty reduction.

The UK goes beyond the HIPC Initiative and writes off 100 per cent. of bilateral debts for HIPC countries and holds in trust any debt service payments received from HIPC countries that have not yet qualified for debt relief, to be returned for spending on poverty reduction once they qualify. In addition, the UK has pledged a further $479 million to finance the multilateral institutions' participation in HIPC (HIPC Trust Fund and International Monetary Fund (IMF).

Despite the successes of the HIPC initiative, the UK believes that we must go further still. At present, many donors have joined the UK in providing 100 per cent. bilateral relief, but multilateral institutions currently provide relief at around half this level. The UK has therefore launched a major new initiative for relief of 100 per cent. multilateral debt. We have committed to pay our share (10 per cent.) of debt service payments owed to the most concessional lending arms of the World Bank and African Development Bank on behalf of eligible countries, and are lobbying other countries to join us in providing full relief. Canada (paying 4 per cent.) and the Netherlands (2.6 per cent.) have already announced that they will participate. We are also urging the IMF to consider options for financing its share of 100 per cent. relief.

We are extending this multilateral debt relief to all countries that have formally completed the HIPC process and all other IDA-only (i.e. eligible to borrow only from the most concessional lending arm World Bank) low-income countries with suitably strong public expenditure management systems to ensure that the savings are directed towards poverty reduction. 14 Sub-Saharan African countries are currently eligible to benefit from this initiative and will receive multilateral debt relief from the UK of over £340 million through to 2015. More countries will become eligible for assistance as they meet the public financial management eligibility criteria.

In addition, the UK also actively supports the progress of eligible countries through the HIPC initiative, for example building their debt management capacity with technical assistance under the HIPC capacity building project as well as in-country support for the necessary reforms and poverty reduction planning processes that are essential for achievement of HIPC completion point.

Non-HIPC countries that are having difficulties servicing their bilateral debts are able to approach the Paris Club for relief. The Paris Club—an informal group of official creditors—assesses countries' debt levels and provides appropriate treatment by postponing, and in some cases reducing, debt service obligations. The UK is currently committed to working through the Paris Club to help find a fair and sustainable solution to Nigeria's debt problems.

Trade Relations

Andrew George: To ask the Secretary of State for International Development what opportunities his Department offers African, Caribbean and Pacific countries to choose between the EU Economic Partnership Agreement model and their own voluntary agreements in respect of trade relations. [3644]

Mr. Thomas: The Cotonou partnership agreement, signed in June 2000 between the European Union and the African Caribbean and Pacific countries (ACP), foresees the negotiation of a series of World Trade Organisation (WTO) compatible trading arrangements between the parties—Economic Partnership Agreements (EPAs). The Cotonou agreement also states that alternatives should be provided to ACP countries that do not want to join these EPAs with the EU. In any alternative, the ACP countries should receive no worse market access to the EU than their existing situation. The ACP have requested a review of alternatives to take place in 2006, rather than 2004 as anticipated in Cotonou. Since it is the EU that will have to present the alternative options, DFID will work with other UK Government Departments and the European Commission to ensure that alternatives are presented for any countries that do not want to be part of the EPAs.

The primary alternative to EPAs is a reformed generalised system of preferences (GSP), a non-contractual trade arrangement which the EU already offers to all developing countries, not just the ACP. DFID has supported research on the reforms which would be needed to make the GSP a viable alternative to EPAs. This research has been made public to inform negotiators' positions in both the ACP and the EU.

Another alternative for any ACP country not wishing to sign an EPA, would be to enter into a bilateral free trade agreement with the EU. Although the individual ACP country would have greater scope to tailor the provisions of the agreement to its specific needs, a single country could be in a much weaker negotiating position with the EU than with a regional grouping, as in the case of EPAs.

Zimbabwe

Andrew Rosindell: To ask the Secretary of State for International Development what steps the Government are taking to assist in tackling HIV/AIDS in Zimbabwe; and if he will make a statement. [2942]

Hilary Benn: DFID is giving priority to tackling HIV/AIDS in Zimbabwe. The country is one of the worst affected in the world, with over 3,000 AIDS-related deaths per week; 25 per cent. of the adult population infected; life expectancy now well below 40 years; and

over a million orphans. There is not enough money for the fight against AIDS in Zimbabwe with relatively little international assistance.

DFID is one of the main donors supporting AIDS prevention programmes in Zimbabwe, such as supplying condoms and support for voluntary counselling and testing centres. DFID also supports large-scale home-based care programmes for households affected by AIDS, implemented through NGOs. Through UN and NGO partners, we are developing plans to expand anti-retroviral treatment and support for orphans and vulnerable children. Annual spending on this programme has averaged about £8 million over the past few years. We intend to double this in the near future.

DEFENCE

Afghanistan

Mr. Wallace: To ask the Secretary of State for Defence in how many security incidents members of UK armed forces have been involved in Afghanistan since December 2004. [2694]

Mr. Ingram: United Kingdom armed forces personnel regularly conduct patrols, which contribute to the security situation in Kabul and Northern Afghanistan. They have not been the subject of any insurgency action since December 2004.

Mr. Wallace: To ask the Secretary of State for Defence what contingency measures his Department has in place to support UK armed forces personnel based in Afghanistan, in the event of a deterioration in the security situation there. [2696]

Mr. Ingram: The United Kingdom currently has forces serving in both the International Security Assistance Force and in the US led coalition. We are confident that each organisation has capabilities that meet the current security requirements. NATO, the coalition and the United Kingdom constantly monitor the security situation and plan accordingly. All have capabilities available to operate in Afghanistan should any change in the security situation warrant a change to the level and nature of the international forces serving there.

Apache Helicopters

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) what assessment his Department has made of the suitability of the Apache attack helicopter to carry out the *(a)* search and rescue and *(b)* other roles of the Lynx helicopter; [2325]

(2) what roles the Apache helicopter fleet will perform in addition to its anti-tank and ground attack roles; [2326]

(3) what steps he is taking to maintain the Royal Navy's search and rescue capability when Lynx helicopters are replaced by Apaches. [2327]

Mr. Ingram: A 24 hour military and civil Search and Rescue (SAR) service around the UK is presently provided by RAF, Royal Navy and Maritime and Coastguard Agency helicopters to assist people in distress. Although the Lynx can be used for SAR if required, it is not designed for that role. This role is undertaken by the larger Sea King which is due to remain in service after the withdrawal of the current Lynx.

Limits on the range, endurance and cabin size of any small helicopter prevent them being the ideal platform for SAR. In the military operational environment however, any passenger carrying helicopter such as the Lynx, Merlin or Chinook can be used to rescue personnel if required. The Apache is not a passenger helicopter and therefore there are no plans to use it for either the civilian SAR or military rescue requirements.

Currently the main roles of the Army Lynx are attack, reconnaissance, control of firepower and movement of personnel and equipment. The primary role for the Apache is as an attack platform (anti-tank and ground attack). In addition, if required, it can also carry out the control of firepower (artillery and close air support) and Intelligence, Surveillance, Target Acquisition and Reconnaissance (ISTAR) tasks that are currently undertaken by the Army Lynx.

Armed Forces (Recruitment)

Mr. Jim Cunningham: To ask the Secretary of State for Defence if he will make a statement on recruitment rates to the armed forces. [2785]

Mr. Touhig: I refer my hon. Friend to the answer I gave on 7 June 2005, *Official Report*, column 463W, to the hon. Member for Ludlow (Mr. Dunne).

Andrew Rosindell: To ask the Secretary of State for Defence what steps the Government are taking to encourage young people to join the armed forces. [2961]

Mr. Touhig: All three services undertake numerous and varied initiatives, both at national and local level, aimed at increasing the level of recruitment to the armed forces. Included among the many current initiatives are:

The use of multi-media advertising campaigns.

Services' recruiting teams' attendance at schools, careers fairs and graduate recruitment seminars, road shows, exhibitions, youth clubs and organisations.

Work experience placements within service establishments.

Personal development courses and look at life courses for young people who express an interest in the armed forces.

Taster day visits to HM ships and service establishments.

A dedicated careers website for each of the services.

An Army 'on-line' recruiting office.

Specialist diversity recruiting and action teams aimed at promoting armed forces careers among the United Kingdom's ethnic minority and faith communities.

A partnership with the 'Jobcentre Plus' making use of its network of local outlets.

British Infantry (Response Capability)

Mr. Amess: To ask the Secretary of State for Defence what assessment he has made of the ability of the British infantry to respond to additional urgent deployments. [3701]

Mr. Ingram: The Infantry is structured to ensure that we have forces of appropriately high readiness in place to meet urgent contingent operations.

Consultants

Mr. Austin Mitchell: To ask the Secretary of State for Defence how many consultants were employed by his Department in each of the last three years; and what their names were. [1334]

Mr. Touhig: Specific data on the number and names of consultants employed is not held within the Ministry of Defence. However, I can advise that summaries of MOD expenditure on External Assistance, of which consultancy is a part, are available in the Libraries of both Houses for the years 1995–96 to 2003–04.

DC10/TriStar Fleets

Mr. Clifton-Brown: To ask the Secretary of State for Defence when he expects the Royal Air Force DC10 and TriStar fleets to be phased out-of-service. [2639]

Mr. Ingram: I assume that the hon. Member is referring to the VC 10; the RAF does not have any DC10 aircraft in its inventory. On current plans the VC 10 and TriStar fleets will reach their out of service dates towards the middle of the next decade.

Departmental Estate

Mr. Hancock: To ask the Secretary of State for Defence if he will list those sites in England and Wales within his responsibility which have been identified as surplus to requirements; what plans have been identified as to their possible future use; what consultative process will be followed in each case; and if he will make a statement. [2059]

Mr. Touhig: Details of Ministry of Defence properties and land currently listed for disposal are available in the Library of the House. It should be noted however that the need to retain such properties and land is constantly under review. Consequently the sites in disposal change frequently. The list is generally updated quarterly.

Whenever it is decided that the Ministry of Defence has no further need for any particular site, it is our policy to consult widely, with English Partnerships, local authorities and all other interested parties, before deciding as to their possible future uses. These are, of course, often specific to individual sites and can relate to their size, location or the nature of any facilities present.

First World War Veterans

Tim Farron: To ask the Secretary of State for Defence what representations his Department has received from the facility at Hayes relating to the award of medals to servicemen and women from the First World War; and what plans his Department has for the future storage of the index cards stored there. [3410]

Mr. Touhig: The Ministry of Defence has received no representation from the former TNT archive at Hayes about the award of medals to servicemen and women from the First World War.

The index cards to the First World War Army medal rolls are already preserved in a microfilmed format and available to researchers at The National Archives (in Class WO 372) and through the National Archives website online. The microfilming process captured the information held on the front of the cards, all but a very small percentage of the backs of the cards being blank.

The Ministry of Defence has no further administrative use for the cards and, with The National Archives, has actively sought to identify a suitable institution prepared to accept the original cards, understanding the value attached to such records by many people. The Imperial War Museum has accepted the women's cards and the remainder of the collection has been transferred into the custody of the Western Front Association.

Freedom of Information

Mr. Hancock: To ask the Secretary of State for Defence how many requests his Department received under the Freedom of Information Act 2000 up to 30 April; in how many cases no substantive information has been provided; and what the average time taken to respond to such requests is. [2351]

Mr. Touhig: Up to 30 April the Ministry of Defence had logged 2,237 requests under the Freedom of Information Act. MOD reports its performance quarterly to the Department for Constitutional Affairs and an assessment of the outcomes for the first three months of 2005 has been completed. DCA will be publishing robust statistics on FOI requests and outcomes for the first three months of operation of FOI at the end of this month and every subsequent quarter.

Outcomes for April, including timeliness and numbers of requests refused, have not yet been collected and verified. MOD does not collect data for the purpose of calculating the average time taken to respond. The emphasis is rather on determining whether the Department has responded within the statutory requirements of the FOI Act.

Gurkhas

Danny Alexander: To ask the Secretary of State for Defence when he expects a decision to be made on whether to allow full rights of accompanied service to the wives of Gurkha soldiers. [2827]

Mr. Touhig: I refer the hon. Member to the Statement made by my right hon. Friend the Secretary of State for Defence on 11 January 2005, *Official Report*, column 10WS. We expect to make an announcement about Gurkha Married Accompanied Service this summer.

Medical Staff

Mike Penning: To ask the Secretary of State for Defence whether his Department has used *(a)* agency nurses and other medical specialists and *(b)* Frontier Medical staff in (i) Iraq and (ii) any other country where UK armed forces are deployed to augment UK military units. [3793]

Mr. Touhig: The Ministry of Defence has used a small number of agency nurses and other medical specialists, including from Frontier Medical, to fill specific operational posts in Iraq and Bosnia when there has been a temporary shortfall, or to reduce the frequency of deployment of some specialist capabilities.

NATO

Harry Cohen: To ask the Secretary of State for Defence what work NATO is undertaking in connection with capability where there is no host nation support; and if he will make a statement. [3109]

Mr. Ingram: NATO is continuing to pursue improvements to the availability of Combat Support and Combat Service Support through the Prague Capabilities Commitment and the force planning process. In particular, NATO's Logistics Force Planning Advisory Committee is working towards better clarification of the logistics capabilities made available by allies, and encouraging the creation of better balanced force structures. This will further enhance the deployability and sustainability of NATO forces for expeditionary operations, thereby reducing its reliance on host nation support.

The NATO Response Force—which is due to achieve Full Operational Capability by October 2006—will provide a rapidly deployable, stand alone force capable of sustaining itself using embedded logistic capabilities for up to one month without host nations support, or for longer if re-supplied.

Mr. Soames: To ask the Secretary of State for Defence if he will define the roles of the NATO Response Force. [2649]

Mr. Ingram *[holding answer 9 June 2005]:* The primary role of the NATO Response Force is to provide a rapid response in the initial phase of a crisis. On achieving Full Operational Capability by October 2006, NATO expects it to be capable of deploying as a stand alone force for crisis response across a range of potential scenarios (peacekeeping or embargo operations, for example); as an initial entry force to facilitate the arrival of follow-on forces; and as a force package that demonstrates the resolve of member nations.

Natural Disasters (Military Assistance)

Mr. Hancock: To ask the Secretary of State for Defence what recent discussions he has had with *(a)* the Secretary of State for International Development and *(b)* others, about improving the effectiveness of MOD assets in assisting with natural disasters around the world in the light of the experience gained from the recent tsunami; and if he will make a statement. [2060]

Mr. Ingram: During the Government response to the tsunami, DFID and Ministry of Defence officials worked extremely closely and productively on the disaster relief effort, the United Kingdom armed forces providing a range of niche capabilities, including airlift, which achieved much in the affected area. Our guiding principle for this operation and for any such future response is that the armed forces will task the most appropriate assets to meet the requirement, as defined by DFID.

As is routine after any operation, the MOD has conducted a review in order to identify what improvements we could make in any such future operation. DFID has been fully involved in this process. In addition, MOD is fully engaged in the Government's efforts to support reform of the UN and EU humanitarian co-ordination mechanisms.

Naval Auxiliary Ships

Angus Robertson: To ask the Secretary of State for Defence whether naval auxiliary ships are required to go through the EU tendering process for construction and fitting out. [2872]

Mr. Ingram *[holding answer 9 June 2005]:* Where auxiliary vessels are regarded as "warlike" MOD takes the view that such vessels are exempt from the EU procurement directives on competition.

Private Finance Projects

Mr. Philip Hammond: To ask the Secretary of State for Defence if he will list the private finance initiative and public private partnership projects his Department is undertaking; and what the status of each is. [2370]

Mr. Ingram: Using the HM Treasury definitions of private finance initiative and public private partnerships, the PFI and PPP projects in which the Ministry of Defence is currently engaged, and their operational status are as follows:

Project name	*Status of project*
Storage Facilities	Operational
TAFMIS (IT)	Operational
Defence Helicopter Flying School (DHFS)	Operational
Hazardous Stores Information System (HSIS)	Operational
Electronic Messaging System (Armymail)	Operational
Defence Fixed Telecommunications Service (DFTS)	Operational
Medium Support Helicopter Aircrew Training Facility (MSHATF)	Operational
Hawk Simulator	Operational
Tidworth Water and Sewerage	Operational
RAF Lossiemouth Family Quarters	Operational
Joint Services Command and Staff College	Operational
RAF Lyneham Sewerage	Operational
Yeovilton Family Quarters	Operational
Attack Helicopters Training	Operational
Apache Simulator Training RAF Mail	Operational
RAF Fylingdales (Power)	Operational
Light Aircraft Flying Training (LAFT) (Bulldog)	Operational
RAF Cosford and Shawbury Family Quarters	Operational
NRTA Fire Fighting Training Units	Operational
Defence Intelligence System (DIS)/Information System (Touchstone)	Operational
Tornado GR4 Simulator	Operational
Central Scotland Family Quarters (HQ)	Operational
Army Foundation College (AFC)	Operational
Main Building Refurbishment	Operational
Tri Service Materials Handling Service	Operational
Naval Communications	Operational
Defence Electronic Commerce Service (DECS)	Operational
RAF Sentry/E3D Aircrew	Operational
Lynx Aircrew Training	Operational
Defence Animal Centre (DAC)	Operational
Tri Service White Fleet	Operational
Commercial Satellite Communication Service—INMARSAT	Operational
Wattisham Married Quarters	Operational
Defence Housing Executive-Information Systems (DOMIS)	Operational
ASTUTE Class Training Service (ACTS)	Not yet operational
Bristol, Bath and Portsmouth Family Married Quarters	Operational
Heavy Equipment Transporters (HET)	Operational
Marine support to Range and Aircrew Services	Operational
Material Handling Equipment (MHE)—(Follow on)	Operational
Strategic Sealift (Ro-Ro Ferries)	Operational
Field Electrical Power Supplies (FEPS)	Operational

Project name	Status of project
MOD-wide Water and Waste Water Project (Aquâtrine)—Package A	Operational
Colchester	Not yet operational
Skynet5	Not yet operational
Hayes PFI Project-Records Storage and Management	Operational
Defence Sixth Form College (DSFC)	Operational
Devonport Support Services ARMADA	Not yet operational
MOD-wide Water and Wastewater (Project Aquatrine)—Package B	Not yet operational
MOD-wide Water and Wastewater (Project Aquatrine)—Package C	Not yet operational

RAF Brize Norton

Mr. Clifton-Brown: To ask the Secretary of State for Defence which new aircraft will be based at RAF Brize Norton; and what their in-service dates will be. [2641]

Mr. Ingram: The A400M, the UK's solution for the Future Transport Aircraft (FTA) requirement, is currently planned to enter service at RAF Brize Norton in 2011.

The Future Strategic Tanker Aircraft (FSTA) contract currently under negotiation with AirTanker Ltd. is based on the firm assumption that the FSTA aircraft are both operated from, and maintained at, RAF Brize Norton. The project is currently in its Assessment Phase and is expected to be introduced into service around the end of the decade.

Mr. Clifton-Brown: To ask the Secretary of State for Defence when the C130K aircraft based at RAF Lyneham are due to be redeployed to RAF Brize Norton. [2637]

Mr. Ingram: I informed the House on 4 July 2003, *Official Report*, column 38WS, that the C130K fleet will remain at RAF Lyneham until the aircraft goes out of service by 2012. I also indicated that the Hercules C130J aircraft will relocate from RAF Lyneham to RAF Brize Norton by 2012.

Regimental Uniforms

Ann Winterton: To ask the Secretary of State for Defence whether the new *(a)* Mercia, *(b)* Yorkshire, *(c)* Scottish and *(d)* Welsh regiments will each have one mess dress. [3255]

Mr. Touhig: A committee of representatives made up from the respective antecedent regiments has been formed to consider regimental dress and accoutrements requirements of the proposed Mercian Regiment, Yorkshire Regiment, Royal Regiment of Scotland and the Royal Welsh Regiment. It is expected that the committee's decisions will be taken during the second half of 2005. Executive approval from the Army Dress Committee will be required before any announcement is finalised.

RFA Grey Rover

Mr. Hancock: To ask the Secretary of State for Defence what the decommissioning date for RFA Grey Rover is. [2976]

Mr. Ingram: The planned decommissioning date is 2006.

Scotia Graphics

Mr. Steen: To ask the Secretary of State for Defence what representations he has received about Scotia Graphics of Coventry regarding the company's performance in delivering photographs to the families of soldiers who have been on passing-out parades; and if he will make a statement. [1893]

Mr. Touhig: The Ministry of Defence is aware of complaints against Scotia Graphics from families of soldiers who have passed out of the Infantry Training Centre Catterick and is sympathetic towards any family whose mementos of a proud occasion may have been lost. Although the Infantry Training Centre Catterick invited Scotia Graphics to offer their services to families attending the pass-out parade, direct responsibility for any failure by Scotia Graphics to deliver services is ultimately a matter between the company and its customers.

No further invitations will be made to Scotia Graphics.

Territorial Army

Mr. Wallace: To ask the Secretary of State for Defence what plans he has for the Territorial Army centres in the north-west of England. [2709]

Mr. Touhig: The Territorial Army is currently being rebalanced to align with the changes to the Regular Army under the Future Army Structures work. We do not anticipate that this will result in significant change to the existing Territorial Army Estate, including in north-west England.

Trafalgar Class Vessels

Mr. Hancock: To ask the Secretary of State for Defence which vessels in the Trafalgar Class have been subject to unscheduled operating restrictions in the last 12 months; what the causes were; and if he will make a statement. [2977]

Mr. Ingram: Operating restrictions have been applied to two Trafalgar Class submarines in the past 12 months. Since September 2004, restrictions applied to the operation of HMS Torbay and HMS Tireless which prevented them from operating at sea, and they have remained in HMNB Devonport. As responsible nuclear submarine operators, the MOD keeps submarine and nuclear safety under continual review. This process identified a theoretical safety concern that potentially weakened the submarine safety justification for these vessels. It was decided that further work should be conducted to restore full confidence in the safety justification before these two submarines returned to normal operation. At no stage did this issue take the form of a fault or defect within these submarines and the decision to limit their operation was in line with the MOD's requirement to maintain the highest safety

standards. The relevant further work on HMS Torbay's safety justification is nearing completion and work to support HMS Tireless' safety justification will be carried out as part of the previously programmed maintenance and upgrade period which she has just entered.

TRANSPORT

Aircraft Insurance Costs

Mr. Letwin: To ask the Secretary of State for Transport what assessment he has made of the effects of Government regulations on insurance costs for classic aircraft; and if he will make a statement. [3125]

Ms Buck: Regulation (EC) No 785/2004 of the European Parliament and of the Council on insurance requirements for air carriers and aircraft operators, which entered into force on 1 May 2005, established minimum levels of passenger and third party insurance for almost all aircraft operating within Community airspace. Privately owned and operated classic aircraft are subject to these requirements which, in some cases, have led to an increase in premium because the amount of third party cover needed is greater than was in place on a voluntary basis before the Regulation came into force. The Government are concerned that this increase might prevent some historic aircraft from participating in commemorative events and has made representations to the European Commission to see if the Regulation can be amended to reduce the scope of the cover required without prejudice to people and property on the ground.

Airlines

Andrew Rosindell: To ask the Secretary of State for Transport if he will list airlines which have been banned from travelling inside UK airspace. [2950]

Ms Buck: Any airline from outside the EU, Iceland, Norway or Switzerland which wishes to pick up or put down passengers or cargo in the UK requires a permit from the Secretary of State for Transport.

Currently the Secretary of State is refusing or would refuse to issue permits to aircraft operated by the airlines listed below because of evidence that they are not receiving adequate regulatory oversight from their national aviation authorities:

any airline from Equatorial Guinea

any airline from Liberia

any airline from Tajikistan

any airline from Sierra Leone

any airline from Democratic Republic of the Congo

Air Mauritanie (Mauritania)

any airline from Swaziland.

In addition, the Secretary of State has suspended the permit of Phuket Airlines (Thailand) because of operational safety concerns.

Airports

Andrew Rosindell: To ask the Secretary of State for Transport what the Government's plans are for airport expansion. [2951]

Ms Buck: The Future of Air Transport White Paper, published in December 2003, set out a 30-year strategic framework for the development of airport capacity in the United Kingdom.

It is now for airport owners and operators to bring forward any proposals for specific airport development in the normal way.

Aviation Consultation (South-West)

Steve Webb: To ask the Secretary of State for Transport how many and which consultees responded to the Civil Aviation Authority's consultation on the west end airspace development incorporating route changes over Wales and South West England. [3031]

Ms Buck: This is a matter for the Civil Aviation Authority and I have asked the Chairman to write to the hon. Member.

Bus Shelters

Sarah Teather: To ask the Secretary of State for Transport how much was spent on replacing, removing or fixing damaged bus shelters in each English region, in each year since 1997. [2413]

Ms Buck: The information requested is not collected centrally.

Car Clubs

Sarah Teather: To ask the Secretary of State for Transport what steps his Department has taken to promote the use of car clubs in London. [2506]

Ms Buck: The Department for Transport has taken a number of initiatives to promote car clubs, both inside and outside London.

In July 2004, we published "Smarter Choices—Changing the Way We Travel". This sets out the findings from a major research project on the impact of a range of measures aimed at reducing traffic levels through encouraging people to choose different modes of travel from single occupancy car use. The report contains a chapter on the potential effectiveness of car clubs.

This was followed up in December 2004 with "Making Smarter Choices Work". It summarised the main report findings to help local authorities include measures such as car clubs in their local transport strategies. This was published in parallel with the revised Local Transport Plan guidance which included specific advice for local authorities on car clubs.

We have also published a new, research-based, best practice guide "Making Car Sharing and Car Clubs Work" to encourage and help practitioners establish effective car clubs.

Tom Brake: To ask the Secretary of State for Transport (1) what research his Department has undertaken into the impact on the number of car journeys of car clubs; [1671]

(2) what research his Department has undertaken into the *(a)* trends in and *(b)* development of formal car-sharing through online systems; [1672]

(3) what research his Department has conducted into car-sharing schemes; if he will place copies of research findings in the Library; and what plans his Department has to provide guidance for local transport plans relating to car-sharing schemes. [1674]

Ms Buck: In July 2004, the Department for Transport published "Smarter Choices—Changing the Way We Travel". This sets out the findings from a major research project into the impact of a range of measures aimed at reducing traffic levels through encouraging people to choose different modes of travel from single-occupancy car use. The report contains individual chapters on the potential effectiveness of car sharing and car clubs. Copies of the research are being placed in the Library. Building on the evidence presented in the report, we included specific wording and advice on car sharing and car clubs in the revised Local Transport Plan guidance which we published last December.

We have also published a new, research-based, best practice guide "Making Car Sharing and Car Clubs Work" to encourage and help practitioners establish effective car share schemes and car clubs.

Child Car Safety Seats

Keith Vaz: To ask the Secretary of State for Transport (1) what representations he has received regarding the safety standards for car safety seats for children; [3429]

(2) if he will take steps in the EU to tighten minimum safety standards for car safety seats for children. [3430]

Dr. Ladyman: There has been some recent media interest regarding the safety standards for car safety seats for children. This followed the publication by *Which* Magazine of a report criticising the performance of certain child restraint systems.

The Government are already looking at ways of raising the minimum safety standards for car safety seats for children by developing more rigorous seat testing involving side impact.

The UK has been heavily involved in the development of two test protocols specifically aimed at improving the performance of child seats during side impact. We expect the first of these protocols to be included in a wide ranging review of the European standards that is expected around March 2006. The second is a more demanding side impact protocol that is intended to rank performance for consumer information purposes and is also expected early next year.

Free Bus Travel

Mr. Willis: To ask the Secretary of State for Transport what his estimate is of the cost to local authorities of the introduction of free-fare schemes for people aged over 60 years and people who are disabled for local journeys by bus; and whether the cost to local authorities will be fully reimbursed by his Department. [3795]

Ms Buck: The Government will provide an extra £350 million in 2006–07 which will be sufficient to fund the cost to local authorities.

Lime Street Station

Mrs. Ellman: To ask the Secretary of State for Transport what discussions he has held concerning plans for major internal refurbishment of Lime Street station. [3516]

Derek Twigg: Network Rail advises that development of a scheme to enhance the interior of Liverpool Lime Street Station is underway. The current package of works includes the improvement of interchange facilities through the relocation of the taxi pick up point to the Skelhorne street side of the station together with the reconfiguration of the vehicular access and short stay car parking area. This work, costing £1.5 million to be funded by Merseytravel PTE, links into Liverpool's city centre movement strategy which will see a number of alterations to the highway network around the station. It will also free up space at the Lord Nelson street side of the station, allowing the development of improved passenger/retail facilities. This scheme is planned to be ready for Liverpool's tenure as European capital of culture in 2008.

I understand that Merseytravel and its partners have proposals to further enhance Lime street station as a true gateway to the city by relocating the ticket office and travel centre into Lime street chambers and resurfacing the concourse and platforms.

Lorries

Tom Brake: To ask the Secretary of State for Transport what consideration his Department has given to issuing permits to operate lorries of 25.5 metres in length. [2379]

Dr. Ladyman: My Department has received two applications to trial vehicle trailer combinations that are longer than those currently permitted (18.75m). We are considering the issues surrounding their use in particular their manoeuvrability and the likely effect on other road users, especially those who are more vulnerable. We are also considering the logistical benefits that these vehicles may give the haulage industry, and the impact on road and rail freight movements.

M6

Dr. Pugh: To ask the Secretary of State for Transport how many vehicles on average use the M6 between Stoke and Knutsford on each weekday in the last period for which figures are available. [2763]

Dr. Ladyman: The average number of vehicles using the M6 between junctions 15 and 19, on each weekday between 2002 and 2004, are provided in the table.

Average 24 hour traffic volume

Location	Direction	2002 Mon	Tues	Wed	Thur	Fri	2003 Mon	Tues	Wed	Thur	Fri
Junction 15 to 16	N/B	53,455	54,104	55,406	59,597	62,837	51,566	54,423	55,966	58,413	62,263

Minicabs

Sarah Teather: To ask the Secretary of State for Transport what estimate he has made of the number of unlicensed minicabs operating in each English region. [2410]

Ms Buck: The law throughout England and Wales requires that all mini-cabs (formally termed private hire vehicles) and their drivers and operators must be licensed. Local licensing authorities and the police are responsible for enforcement. The Department has made no assessment of the extent of illegal operation.

Mini-motorbikes

Mr. Jenkins: To ask the Secretary of State for Transport what steps he is taking to discourage illegal use of mini-motorbikes on *(a)* public roads and *(b)* public spaces; and if he will make a statement. [3323]

Dr. Ladyman: Powered vehicles (whether internal combustion or electric) are motor vehicles within the meaning of the Road Traffic Act 1988 as amended. Any powered vehicle used on the public highway must comply with all aspects of road traffic law, including construction requirements, registration, road tax, insurance etc. The rider/driver should hold an appropriate licence and, where required, wear a suitable helmet.

Enforcement is a matter for individual Chief Officers of Police. Powers under the Police Reform Act 2002 allow a constable in uniform, after giving a warning, to stop and seize a motor vehicle if he/she has grounds for believing that it is being used in a careless and inconsiderate manner, or being driven illegally off-road, or being used (or is likely to be used) in an antisocial manner causing harassment, alarm or distress.

The Department has been advised that the packaging on powered toys such as miniature motorbikes generally includes a warning that the item is not for highway use. However it may be that, once such packaging is discarded, this is overlooked or ignored. We are therefore currently considering whether advice reminding purchasers and others of this issue might usefully be disseminated.

Parking income

Tom Brake: To ask the Secretary of State for Transport how much *(a)* income was derived from and *(b)* expenditure was incurred by each local authority on parking in financial years (i) 2003–04 and (ii) 2004–05, broken down by (A) charges and (B) penalties. [2298]

Ms Buck: Total income and expenditure on parking by local authorities in England in 2003–04 is shown in the following table. Separate statistics on income derived by local authorities from parking charges and parking penalties are not collected centrally. I have arranged for a table giving a breakdown by authority to be placed in the Libraries of the House.

2003–04	£000
Total income	1,094,464
Total expenditure	655,339
Net current expenditure	-439,125

Information on local authority parking income and expenditure for the financial year 2004–05 will be available in spring 2006.

Railways

Tom Brake: To ask the Secretary of State for Transport what measures have been taken since 19 October 2004 to prevent people riding on the outside of trains. [2381]

Derek Twigg: The rail industry is continually working together to make young people aware of the dangers of trespass on the railway. National and local campaigns are run regularly, particularly leading up to and during the summer holidays. The design of modern rolling stock also makes surfing more difficult than it once was.

Tom Brake: To ask the Secretary of State for Transport how many incidents of people riding on the outside of moving trains were reported to the British Transport police in 2004. [2382]

Derek Twigg: The British Transport police recorded 201 incidents of people riding on the outside of moving trains on Britain's rail network in 2004.

Dr. Pugh: To ask the Secretary of State for Transport what estimate he has made of the maximum number of people that could be carried each weekday on an unbroken direct rail route between *(a)* London and Manchester and *(b)* London and Liverpool; and how many he estimates could be carried in standard class in each case. [2757]

Derek Twigg: Current services make intermediate stops. The weekday timetable from 13 June 2005 provides (both directions): 65 services between London and Manchester (excluding those via Birmingham), offering 28,730 seats (of which 19,240 are in Standard class), and 30 services between London and Liverpool, offering 13,260 seats (of which 8,880 are in Standard class).

From 13 June the morning business train departing Liverpool at 0708 will call only at Runcorn and will have a journey time of 2 hours 12 minutes compared with the equivalent at present of 2 hours 20 minutes.

Hugh Robertson: To ask the Secretary of State for Transport whether home owners who suffer *(a)* noise pollution and *(b)* vibration damage following the introduction of the high speed line on the North Kent Coast line in 2009 will be eligible for compensation. [3035]

Derek Twigg: The new rolling stock that will be introduced in Kent from 2009 will operate at speeds of up to 140 mph on the channel tunnel rail link and at slower speeds on the existing network, including the North Kent Coast.

Householders who are affected by noise from new or altered railway lines are entitled to noise compensation and amelioration measures on the same basis as householders who live next to new roads. However, there is no provision for compensation or abatement measures when use of a railway line intensifies or changes. Successive Governments have taken the view that those who choose to live adjacent to roads or railways do so in the knowledge that the volume or composition of the traffic may change, and that the householder must therefore bear that risk.

Road Safety

Paul Flynn: To ask the Secretary of State for Transport what assessment he has made of the effect on road safety of unauthorised advertisements displayed on *(a)* motorway bridges and *(b)* adjacent fields. [3067]

Dr. Ladyman: Studies have been carried out which attempt to relate the presence of roadside advertisements and other potential distractions to road accidents. However, it is difficult to derive a direct causal relationship because accidents are relatively infrequent, and often are the result of many factors. The Highways Agency does not allow advertising to be placed on its motorway bridges. The placing of roadside advertising alongside the motorway but sited on private land is a matter for the local planning authorities. If consulted, the Highways Agency assesses the impact and likely safety consequences for each case on its merits and reports its findings to the local planning authority.

Tim Farron: To ask the Secretary of State for Transport what research his Department has *(a)* commissioned and *(b)* evaluated on the safety of the junction at Greenodd on the A590 in Cumbria; and if he will take steps to ensure (i) a lower speed limit and (ii) a roundabout are introduced at the junction. [3409]

Dr. Ladyman: Safety at the A590 Greenodd Junction is continually assessed, and the Highways Agency has made a number of improvements to the geometry of the junction in recent years with a view to improving safety. Further improvements to the junction are currently under consideration, and the Agency has agreed to review the case for a roundabout. There are no plans to reduce the current 70mph speed limit.

Road Traffic Accidents

Mr. Jenkins: To ask the Secretary of State for Transport how many *(a)* fatal and *(b)* non-fatal traffic accidents there have been in Tamworth in each year since 1997. [3329]

Dr. Ladyman: The information requested is shown in the Table.

Fatal and non-fatal accidents, Tamworth: 1997 to 2003

Accidents

	Fatal	Non-Fatal	All
1997	2	253	255
1998	0	230	230
1999	0	224	224
2000	3	223	226
2001	2	235	237
2002	0	236	236
2003	1	259	260

David Davis: To ask the Secretary of State for Transport how many people *(a)* were seriously injured and *(b)* died in road traffic accidents in the East Riding of Yorkshire in each of the past five years. [3586]

Dr. Ladyman: The information requested is shown in the Table.

Killed and seriously injured casualties East Riding of Yorkshire: 1997–2003

	Casualties	
	Killed	Serious
1997	2	19
1998	0	15
1999	0	15
2000	3	10
2001	2	11
2002	0	21
2003	1	10

Road Traffic Volumes

Tom Brake: To ask the Secretary of State for Transport what estimate he has made of the percentage change in road traffic volumes over 2005 figures by *(a)* 2010, *(b)* 2015 and *(c)* 2020. [2296]

Dr. Ladyman: Projections of road traffic, using 2000 traffic levels as a base, were published in July 2004 in the White Paper "The Future of Transport".

School Transport

Mr. Salmond: To ask the Secretary of State for Transport if he will initiate a review of legislation governing the use of vehicles for school transport contracts which do not have safety belts fitted. [2870]

Dr. Ladyman: I refer the hon. Member to my reply to the hon. Member for Lagan Valley (Mr. Donaldson) on 24 May 2005, *Official Report*, column 539. Furthermore, schools or local authorities entering into contracts for the supply of school transport with bus operators can specify within their contracts that they will only accept proposals based on vehicles fitted with seat belts.

Speed Cameras

Mr. Amess: To ask the Secretary of State for Transport how many speed cameras there are in Southend, West; and how much money was raised in fines for each of them in each of the last three years. [2138]

Dr. Ladyman: The Department only holds the requested information at Safety Camera Partnership level and I refer the Hon Member to the answer given him today (UIN 398). Detailed information is available from partnerships, unless relating to police operational matters.

Mr. Amess: To ask the Secretary of State for Transport how much was raised in fines revenue from speed cameras in *(a)* England and *(b)* Essex in each of the last five years. [398]

Dr. Ladyman: This information is only available for 1999–2003 and is set out in the following tables that have been provided by the Home Office. These contain fine revenue from all speed cameras, therefore including enforcement outside of the National Safety Camera Programme. The increase in the number of penalties issued reflects in part the wider coverage of cameras with the national rollout of the Safety Camera Programme. The programme began with a pilot which included six police force areas in England in 2000. National rollout commenced in 2001. The number of police force areas taking part in the programme had increased to 24 in April 2002 and to 36 by the end of 2003.

Table A: Fixed penalty and court proceedings data for speeding offences detected by cameras[1] in England, 1999–2003

	Fixed penalties		Court proceedings		
Offence and year	Number of tickets[2]	Estimated revenue (£)[3]	Number of fines	Total amount of fine (£)	Average fine[4]
1999	395,900	15,836,000	24,800	2,811,000	113
2000	556,000	24,395,000	25,700	2,830,000	110
2001	791,200	47,474,000	31,500	3,546,000	113
2002	1,012,000	60,720,000	31,800	3,333,000	105
2003	1,600,000	96,012,000	50,400	5,337,000	106

[1] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[2] Paid ie no further action.
[3] Estimate based on £40 fixed penalty charge to October 2000. From November 2000 the penalty was raised to £60.
[4] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.

Table B: Fixed penalty and court proceedings data for speeding offences detected by cameras[1] in the Essex police force area, 1999–2003

	Fixed penalties		Court proceedings		
Offence and year	Number of tickets[2]	Estimated revenue (£)[3]	Number of fines	Total amount of fine (£)	Average fine[4]
1999	19,800	791,400	2,100	357,400	169
2000	46,300	2,007,000	2,800	317,800	115
2001	81,900	4,911,000	6,500	651,200	101
2002	98,100	5,886,000	12,200	1,022,000	84
2003	64,500	3,872,000	7,400	687,700	93

[1] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[2] Paid ie no further action.
[3] Estimate based on £40 fixed penalty charge to October 2000. From November 2000 the penalty was raised to £60.
[4] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.

Mr. Jenkin: To ask the Secretary of State for Transport how many speed cameras are in use in each county in England. [2687]

Dr. Ladyman *[holding answer 9 June 2005]*: The Department only holds the requested information at Safety Camera Partnership level. However, I refer the hon. Member to my answer of 9 June 2005, *Official Report*, columns 617–19W. Further detailed information is available from partnerships.

David Davis: To ask the Secretary of State for Transport what plans there are to increase the number of speed cameras in the Humberside area. [3585]

Dr. Ladyman: In its operational case for 2005–06, the Humberside Safety Camera Partnership submitted for approval one new mobile safety camera site. The operational case is currently being assessed by the Department.

David Davis: To ask the Secretary of State for Transport what analysis his Department undertakes of the effectiveness of *(a)* speed cameras and *(b)* other speed reduction devices. [3592]

Dr. Ladyman: The Department periodically evaluates a range of road safety measures.

The effectiveness of the national safety camera programme is independently reviewed regularly and the reports are available in the Library and on the Department's web site. The review of the first three years' operation of the programme, published on 15 June 2004, concluded that safety cameras had reduced the number of people killed or seriously injured at camera sites by 40 per cent. A fourth year report, reflecting the rollout of the programme to thirty-five safety camera partnerships, is in preparation.

Evaluations have been published on a number of other individual speed reduction methods over recent years, including traffic calming measures and vehicle activated signs. These evaluations have helped to develop guidance and best practice which is set out in traffic advisory leaflets and other publications. The published evaluations are listed in Traffic Advisory Leaflet 2/05 Traffic Calming Bibliography, available in the Library and on the Department's web site.

Thameslink

Mr. Dismore: To ask the Secretary of State for Transport pursuant to the answer of 25 May 2005, *Official Report*, column 131W, on Thameslink, whether *(a)* fast and *(b)* semi-fast trains stopped at (i) Mill Hill and (ii) Hendon under the Thameslink timetable in operation before the summer 2005 timetable; whether (A) fast and (B) semi-fast trains will stop under the new summer 2005 timetable at (1) Mill Hill and (2) Hendon; what the reasons for the changes to the timetable are; what assessment he has made of the effect of the new timetable on commuters from Mill Hill and Hendon; and if he will make a statement. [2719]

Derek Twigg: In the timetable that operated between 23 May 2004 and 11 December 2004, there were 68 services from Mill Hill Broadway to Kings Cross Thameslink. Two of these took 13 minutes, two took 15 minutes, one took 16 minutes, one took 17 minutes and the rest took between 19 and 23 minutes. There were 62 services from Hendon taking between 15 and 20 minutes.

In the new timetable from 12 June there will be 66 services from Mill Hill Broadway to Kings Cross Thameslink taking between 18 and 22 minutes and there will be 66 services from Hendon taking between 15 and 19 minutes.

The timing of services is for train operating companies to determine, having regard to their contractual requirements, in conjunction with Network Rail which allocates the necessary "train paths". Thameslink are making a number of service alterations from 12 June aimed at improving performance.

ELECTORAL COMMISSION COMMITTEE

Postal Voting

26. **Mr. Andrew Turner:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what consideration the Electoral Commission has given to the prevention of abuse of the postal vote. [2987]

Peter Viggers: The Electoral Commission has considered the postal voting process in several reviews since 2001, most recently in the report Securing the vote, which was published last month. This recommended a number of changes, including a system of individual registration; further security checks; new offences and additional resources. One of the intentions behind the proposed changes is a reduction in the scope for abuse of postal votes.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agricultural Waste Regulations

Hugh Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many responses she has received to the consultation on Agricultural Waste Regulations; how many were from growers; and what the results of the consultation were; [3036]

(2) when she will report on the consultation into Agricultural Waste Regulations. [3037]

Mr. Bradshaw: The consultation paper on the draft Agricultural Waste Regulations was sent to a wide range of trade associations and other organisations (the main consultation). A summary consultation, with a pull-out questionnaire, was also sent to 162,000 farmers and growers in England and Wales (the summary consultation). We have received 103 responses to the main consultation and 2,485 responses to the summary consultation. It is not feasible separately to identify the number of responses received from growers.

The consultation exercise is being carried out in compliance with the Cabinet Office's "Code of Practice on Consultation" which is available at: http://www.cabinetoffice.gov.uk/regulation/consultation/index.asp. We are currently considering the responses to the consultation, a significant number of which were

received after the closing date. The next step will be the publication of a summary of those responses and our analysis of them. We are not yet in a position to confirm the date of publication.

Air Sports

Mr. Grogan: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on permitted activities on land for which Single Farm Payments are made; and if she will take steps to classify paragliding and hang-gliding as permitted activities. [2693]

Jim Knight: The Department has issued guidance on the Single Payment Scheme (SPS) and non-agricultural use of land which balances the need for diversification opportunities with the necessity to abide by EU rules on eligibility of land under the Scheme. The guidance is built around the degree to which non-agricultural use impedes or is inconsistent with normal farming activities. It specifies that paragliding and hang-gliding events may take place on up to 28 days during the 10-month period that farmers must declare, for SPS payment purposes, that they have the required amount of eligible land at their disposal. In addition, such events may take place at any time during the remaining two months of the year. There is no restriction on individual paragliders and hang-gliders, though payment to the farmer will depend on observance of set cross-compliance conditions, which apply for the whole calendar year.

Animal Slaughter

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons are for the rule that any animal must be slaughtered within 48 hours of sale; if she will *(a)* extend this period by a further 24 hours over weekends and *(b)* include reference to lairage; and if she will make a statement. [2876]

Mr. Bradshaw: The 48 hour rule states that animals should be slaughtered within 48 hours of arrival at the slaughterhouse and not within 48 hours of sale. This rule was introduced on the basis of veterinary advice following the foot and mouth disease outbreak in 2001. It strikes a proportionate balance between the need to prevent potential disease spread and the ability of slaughterhouse operators to run their businesses efficiently. The veterinary risk remains unchanged, and therefore there are no proposals to amend the rule.

The rules applicable to a lairage depend upon whether it is within or outside the slaughterhouse as licensed by the Meat Hygiene Service. If within then the lairage is considered as if part of the slaughterhouse. If not then the lairage is considered as if it were any other piece of agricultural land, in which case the rules for moving livestock applicable to such land apply.

Animal Welfare

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will ensure that there are robust targets for farm animal welfare in the England Rural Development Programme from 2007. [2675]

Jim Knight: Negotiations on the draft Rural Development Regulation are expected to reach a conclusion at the Agriculture Council on 20–22 June. We expect that an animal welfare measure will—as now—be among the options available to member states; although not as part of a combined agri-environment and animal welfare measure. The England Rural Development Programme has not made use of the option to make payments to farms in return for a voluntary commitment to apply higher standards of animal welfare. Decisions on whether to do so in future will be taken as part of the process of designing a successor Rural Development Programme, and will be taken in the light of responses to a consultation this autumn, and bearing in mind the importance of ensuring that legal animal welfare requirements are fully adhered to.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the new guidelines on the welfare of animals recently agreed by the Office International des Epizooties. [3641]

Mr. Bradshaw: The Government welcome these new guidelines, on which there has been extensive consultation. The Government prefer the slaughter of animals for human consumption as close as possible to their point of production. However, it recognises that in many parts of the world it is necessary to transport animals long distances for slaughter, further fattening and breeding.

These standards have been welcomed by the industry, veterinarians and many welfare organisations and if properly implemented would greatly reduce the risk worldwide to the welfare of animals during their transport, or in the process of slaughter or killing. The guidelines will be kept under review by the OIE in light of new information and experience of their use.

Biofuels Directive

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance she has issued to farmers in relation to ensuring the United Kingdom meets its biofuels targets under the EU Biofuels Directive. [2794]

Mr. Morley: Defra is committed to supporting the production of transport biofuels. They have potential for UK agriculture as they can be produced from mainstream crops and we are keen to develop such new market opportunities for farmers. We are working with the National Farmers Union, the Country Land and Business Association, biofuel trade associations, individual farmers and companies to develop markets and promote uptake. The potential of biofuel crops are promoted at farmer's seminars and conferences. In 2004, Defra and the British Association for Biofuels and Oils produced a booklet "The facts on biodiesel and bioethanol". Copies were distributed in a farming magazine and at seminars. The Single Payment Scheme brochures and Defra's website give guidance on claiming the Single Payment and the Energy Aid Payment for biofuel crops.

Bovine Tuberculosis

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Independent Scientific Group on its conclusion that there was nothing to learn from the Republic of Ireland's study on bovine tuberculosis. [1669]

Mr. Bradshaw: The Independent Scientific Group on Cattle TB (ISG) did not conclude that there was nothing to be learned from the Republic of Ireland's four-area badger study. The ISG recognised that the Republic of Ireland study added to the available evidence, but identified limitations in the applicability of the study to the situation in Great Britain.

The Government's Strategic Framework for the sustainable control of bovine tuberculosis sets out a process for decision-making on badger culling, based on analysis of practicality, cost-effectiveness and sustainability. The Government are working on modelling (including cost-benefit analysis) badger-culling options using existing and emerging data, and this will include data from the Irish Four Area Trial.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will introduce more rigorous pre-movement tuberculosis testing of cattle; and if she will make a statement. [2659]

Mr. Bradshaw *[holding answer 9 June 2005]:* The Department is considering a proposal for pre-movement testing in Great Britain, developed by one of the TB interest groups. The report of the group, which was chaired by a farmer, is available on the Defra website. http://www.defra.gov.uk/animalh/tb/pdf/pre-movementtest.pdf. We are considering the groups' recommendation.

The policy will require agreement from the Scottish Executive and Welsh Assembly. We aim to consult later this year on the detailed proposal. A proposal is also being developed for post-movement testing in Scotland (led by the Scottish Executive).

BSE

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the incidence of cases of BSE in cows born after the imposition of the reinforced feed ban. [3640]

Mr. Bradshaw: The UK's reinforced feed ban, effective from 1 August 1996, has resulted in a step change decrease in BSE in cattle born from this date. There have been 121 cases born after July 1996 in the UK. More than 183,000 cases have been confirmed in the UK to date and over 99 per cent. were born before August 1996.

No cases have yet been found in animals born in the year between August 2000 and July 2001. Three cases have recently been confirmed in cattle born in September 2001, October 2001 and May 2002. All were from the same farm and investigations into a possible cause continue.

Professor William Hill is currently carrying out an independent assessment of the possible causes of BSE cases born after July 1996 at the request of Defra.

Cattle Diseases

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the new system of table valuations for *(a)* bovine TB, *(b)* enzootic bovine leukosis, *(c)* BSE and *(d)* brucellosis. [2566]

Mr. Bradshaw: Defra remains committed to introducing a new cattle compensation system, based on table valuations, and aims to put the new system in place during 2005.

The Department is looking closely at concerns raised during the consultation, especially in relation to the scope of categories for commercial and pedigree animals. Ultimately we want a system that is fair to both farmers and taxpayers.

Once we have more concrete details, Defra will arrange further meetings with stakeholders to discuss how it intends to proceed.

Chewing Gum

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated cost of removing chewing gum from streets was in *(a)* England, *(b)* each English region and *(c)* each local authority in each year since 1997. [2411]

Mr. Bradshaw: Figures are available for the total cost of street cleansing at national and regional level. However, these figures are not broken down to include more detailed aspects such as chewing gum removal.

A recent survey by ENCAMS—the environmental charity which runs the Keep Britain Tidy Campaign—received 66 responses from local authorities on gum removal. The spending by these authorities on removing gum ranged from £0 to £200,000, with the average per authority at £12,792.

Clean Neighbourhoods and Environment Act

Dr. Whitehead: To ask the Secretary of State for Environment, Food and Rural Affairs when she intends to lay an order before Parliament implementing section 2 of the Clean Neighbourhoods and Environment Act 2005. [3882]

Mr. Bradshaw: The Nuisance Parking Offences under part 2 of the Clean Neighbourhoods and Environment Act came into force on the 7 June. We hope to implement the abandoned vehicle measures in the autumn. The Fixed Penalty Notices relating to local environmental offences, including nuisance parking and abandoned vehicles, are due to be implemented by April 2006.

Committee on Radioactive Waste Management

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs which of the representatives on the Committee on Radioactive Waste

Management have direct scientific or engineering experience of the nuclear industry; and if she will make a statement. [2657]

Mr. Morley *[holding answer 9 June 2005]:* Details for the members of CoRWM, together with a declaration of their interests, can be found on the CoRWM website, www.corwm.org.uk

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how many options on the disposal of nuclear waste are being considered by the Committee on Radioactive Waste Management. [2658]

Mr. Morley: The Committee on Radioactive Waste Management (CoRWM) launched the second phase of its Public and Stakeholder Engagement consultation programme on 4 April 2005. One of the items covered by this consultation is its proposed shortlist of options for the long-term management of the UK's higher level radioactive waste. Of the 15 options originally evaluated, CoRWM has proposed that four be carried forward to further assessment:

Deep geological disposal

Phased deep geological disposal

Near-surface disposal of short-lived waste

Long-term interim storage.

This shortlist will be finalised in light of CoRWM's consultation. Further details can be found at www.corwm.org.uk

Consultants

Mr. Austin Mitchell: To ask the Secretary of State for Environment, Food and Rural Affairs how many consultants were employed by her Department in each of the last three years; and what their names were. [1333]

Jim Knight: The Department has engaged consultants from the companies shown as follows in each of the last three financial years:

Consultancy supplier

	Financial year		
	2002–03	*2003–05*	*2004–05*

EU Legislation

Mr. Davidson: To ask the Secretary of State for Environment, Food and Rural Affairs what EU legislation was implemented by *(a)* the Groundwater Regulations 1998, *(b)* the Water Supply (Water Quality) Regulations 2000, *(c)* the Biocidal Products Regulations 2001, *(d)* the Processed Animal Proteins (England) Regulations 2001, *(e)* the Electricity and Gas (Energy Efficiency Obligations) Order 2001, *(f)* the Animal By-Products Regulations 2003 and *(g)* the Water Environment (Water Framework Directive) (England and Wales) Regulations 2003. [1708]

Mr. Morley: The information is as follows:

(a) The Groundwater Regulations 1998 completed the implementation of the Groundwater Directive (80/68/EEC).

(b) The Water Supply (Water Quality) Regulations 2000 implemented Directive 98/83/EC on the quality of water intended for human consumption.

(c) The Biocidal Products Regulations 2001 implemented Directive 98/8/EC concerning the placing of biocidal products on the market.

(d) The Processed Animal Proteins (England) Regulations 2001 implemented Council Decision 2000/766/EC concerning certain protection measures with regard to transmissible spongiform encephalopathies and the feeding of animal protein and Council Decision 2001/9/EC (as amended by Commission Decision 2001/165/EC) concerning control measures required for the implementation of Council Decision 2000/766/EC.

(e) The Electricity and Gas (Energy Efficiency Obligations) Order 2001 does not implement EU legislation.

(f) The Animal By-Products Regulations 2003 implemented Council Regulation 1774/2002/EC (as amended by Commission Regulation 808/2003/EC) laying down health rules concerning animal by-products not intended for human consumption.

(g) The Water Environment (Water Framework Directive) (England and Wales) Regulations 2003 implemented the Water Framework Directive (2000/60/EC).

Fly-posting

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of streets in each local authority had visible fly-posters in each year since 1997. [2429]

Mr. Bradshaw: Figures on the visibility of fly-posters on streets for each local authority are not available from 1997. However, the annual Local Environmental Quality Survey of England, conducted by ENCAMS on behalf of Defra, provides statistics on the extent of fly-posting on a regional basis since 2001–02. This is a measure of the percentage of sites (covering streets and highways, public open spaces and waterside areas) that have significant levels of fly-posting present, so as to be clearly visible to the public. The statistics for all areas combined show that the percentage of transects with unsatisfactory levels of fly-posting has fallen from 2 per cent. to 1 per cent. nationally.

As of April 2005, a new best value performance indicator BV199c has been introduced to measure levels of fly-posting based on the LEQSE methodology. Statistics for each local authority will therefore be available from next year.

Percentage of site transects that have significant levels of fly-posting present from LEQSE 2001–02, 2002–03 and 2003–04

	Year 1 (2001–02)	*Year 2 (2002–03)*	*Year 3 (2003–04)*
London	4	5	4
South-East	3	1	1
South-West	2	0	1
West Midlands	1	1	0
East Midlands	1	1	0
East of England	1	1	1
Yorkshire and The Humber	1	1	1
North-West	2	1	0
North-East	1	0	0
All areas	2	1	1

Fly-tipping

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the cost of removing fly-tipped rubbish was in each year since 1997; [2424]

(2) how many fly-tipping incidents have been recorded in each English region in each year since 1997. [2425]

Mr. Bradshaw: Before this year no national data have been collected on incidents of illegal waste disposal or fly-tipping.

Defra has worked with the Environment Agency and the Local Government Association to develop Flycapture, a national fly-tipping database, which has been active since April 2004. Initial returns from English local authorities for the six month period between June to November 2004 reported that £24 million was spent on clearing fly-tipping.

Initial returns for the same six month period reported the following numbers of incidents dealt with by local authorities:

Region	*Number of incidents reported (6 months June to November 2004)*
East Midlands	20,411
East of England	35,453
Greater London	134,276
North East	40,505
North West	34,266
South East	34,743
South West	13,081
West Midlands	26,703
Yorkshire and Humberside	102,445

Game Management

Mr. Soames: To ask the Secretary of State for Environment, Food and Rural Affairs what her assessment is of the role played by game management in management of uplands. [2652]

Jim Knight: Game management has played a significant role in creating and maintaining some of the typical habitats of the uplands, especially in northern England. The major influence has been management for driven grouse shooting, which has taken place for the past 150 years. The areas of such habitat are extensive and of national or international importance for their vegetation and breeding birds. It is noteworthy that some 75 per cent. of our heather moorland are classified as areas of national and international importance for wildlife both plants and animals. However, large areas of the English uplands managed for game (red grouse) designated as SSSI/SAC/SPA, are in unfavourable condition due to past poor management practices such as overgrazing, intensive burning and drainage.

IT Contracts

Mr. Godsiff: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* projected cost at the time of tender and *(b)* actual cost at the time of completion was for each IT contract commissioned by her Department and its predecessors in the last five years. [2579]

Jim Knight: The information the hon. Member requests is not held centrally by the Department and cannot therefore be readily retrieved without incurring disproportionate cost.

Litter/Abatement Orders

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what estimates she has made of the amount of litter dropped in the street in each year since 1997; and what percentage of this is made up of *(a)* food and *(b)* food wrapping. [2415]

Mr. Bradshaw: Figures are available through Defra's Municipal Waste Management Survey for the amount of non household municipal waste collected by local authorities. However, this is not broken down further to record the amount—or type—collected through street cleansing.

However, the Local Environmental Quality Survey of England for 2003–04 shows that of the areas surveyed, seven out of 10 items of litter most frequently dropped by pedestrians or people in vehicles are 'Food-on-the-Go' materials (comprising confectionery litter, soft drinks related litter, snack packaging, fast food packaging and paper tissues).

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to review the system of litter abatement orders. [2640]

Mr. Bradshaw: The system of litter abatement orders was reviewed in Defra's "Living Places—Powers, Rights, Responsibilities" consultation published in October 2002. Responses to the consultation indicated that most local authorities are able to negotiate a solution before a litter abatement order is lodged. The principle behind the procedure is sound, but the use and application of litter abatement orders needs to be communicated to residents more effectively.

The environmental charity, ENCAMS, sponsored by Defra, already provides information for the public on litter abatement orders. Defra is building on this further in its roll-out programme for the Clean Neighbourhoods and Environment Act 2005, which will include guidance on litter covering both existing and new legislation.

Livestock

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the Meat and Livestock Commission was chosen to be the body responsible for collecting data from markets for the purpose of the introduction of the new table valuations system. [2568]

Mr. Bradshaw: The Meat and Livestock Commission (MLC) have been contracted by Defra, for some time, to provide sales data for store cattle and this contract was due to end on 31 March 2005. However, for business continuity reasons, a decision was taken to extend the agreement for a further year. To support the proposed new table valuation system, Defra, in extending the existing contract, also took the opportunity to require the MLC to expand the range of sales data collected, and significantly increase the number of data sources.

A new contract for this work will be tendered to suitable companies later this year.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how many owners who lost stock due to disease breakdown have been overpaid due to overvaluation of that stock in each of the last five years. [2567]

Mr. Bradshaw: It is not possible to give a precise figure for the number of cattle owners that have received excessive compensation as a result of a TB breakdown. However, the evidence for overcompensation is extensive and includes: a National Audit Office (Wales) study, which concluded both that compensation payments in South Wales were between 50 and 100 per cent. higher than comparable 'free market' values and also that there was a significant overcompensation problem in South West England, and two Defra internal audit studies which also concluded that over-compensation was a significant problem in England.

Furthermore, a separate report by the University of Reading concluded that a significant number of beef farms, and some dairy farms, showed a net financial benefit associated with their TB breakdown. This suggested that some farmers were being over-compensated by significant amounts, including consequential losses, which are illegal under the compensation scheme.

Low-frequency Noise

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs if she will revise the advice given to local authorities on handling complaints relating to low-frequency noise to assist them in detecting the source of low-frequency noise. [2721]

Mr. Bradshaw: The Department published University of Salford guidance for local authorities on its website on 24 May which provides a methodology for assessing complaints of low frequency noise. This guidance, produced on behalf of Defra, is supported by reports on the development of the methodology and its field trials by local authorities. The guidance gives advice to local authorities on how to assess complaints of low frequency noise, from taking into account the personal circumstances of a case to using the methodology for detecting and measuring a low frequency noise which would otherwise be difficult to assess. This will help local authorities to decide whether action should be taken under section 80 of the Environmental Protection Act 1990.

Motor Sports

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on use of agricultural land for motor sports. [1328]

Jim Knight: I refer the hon. Member to the answer given on 25 May 2005, *Official Report*, column 104W.

Mr. Hague: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what consultations were held before the decision to include motorbike trials in section C of the Guidance on Single Payment Scheme and Non-Agricultural Use; [477]

(2) what the principal reasons were for classifying motorbike trials under section C of the Guidance on Single Payment Scheme and Non-Agricultural Use; [485]

(3) what representations she has received concerning the banning of motorbike trials on agricultural land under the Single Farm Payment Scheme. [486]

Jim Knight: The Department's guidance on the Single Payment Scheme (SPS) and non-agricultural use of land balances the need for diversification opportunities with the necessity to abide by EU rules on eligibility of land under the scheme. It is built around the degree to which non-agricultural use impedes or is inconsistent with normal farming activities and was originally drawn up following discussions with representatives of the agricultural industry. Following representations from motor sports interests the guidance has recently been updated with motor sports moving to section B from section C.

Nappies

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy

is on the promotion of reusable nappies in the light of the life cycle assessment on disposable and reusable nappies; and if she will make a statement. [3131]

Mr. Bradshaw: Our policy has not changed. It is for parents to choose the type of nappy they use. The Government will continue funding, through the Waste and Resources Action Programme, a programme on re-usable nappies in order to help parents make an informed choice and the UK to achieve its landfill directive targets.

Recycling

Dr. Pugh: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether it is possible for the precepts paid by local authorities to waste disposal authorities to be calculated on the number of Band D properties only, without reference to councils' success in achieving recycling targets; [2756]

(2) how many waste disposal authorities calculate the precept imposed on local councils without reference to the amount of recycling done by any given council; [2759]

(3) if she will implement changes to the method whereby waste disposal authorities calculate local authorities' precepts to encourage recycling; [2760]

(4) what assessment she has made of the effects of the practice of Merseyside waste disposal authority of levying precepts on local councils irrespective of the amount of recycling done by those authorities. [3822]

Mr. Bradshaw: The amount levied by the joint waste disposal authorities upon the 35 constituent councils and the manner in which it is apportioned are matters for the authorities' members, who are appointed by the constituent councils. Where unanimous agreement on an alternative cannot be reached the levy is apportioned according to a default, currently based on the number of Band D council tax properties within each authority.

Of the six joint waste disposal authorities I understand that two currently use the default levy basis, although both are discussing proposals for a tonnage-based levy, and the rest have agreed alternatives which encourage a reduction in the amount of waste delivered for disposal.

No specific assessment has been made of the use of the default levy by Merseyside waste disposal authority. However, the Government recognise that the current default levy basis does not encourage authorities to reduce, reuse or recycle waste and we have committed to changing the default to encourage more sustainable waste management. My officials will be consulting the joint waste disposal authorities and their constituent councils on proposals for change shortly.

Dr. Pugh: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether she plans to change the system whereby councils' targets to increase recycling are based on a percentage increase on their previous volumes; [2758]

(2) what plans she has to change the basis on which targets for recycling by councils are set. [3823]

Mr. Bradshaw: In response to Recommendation Nine of the Strategy Unit Report 'Waste not, Want not', the Government are currently undertaking a review of recycling and composting targets in the light of performance against 2003–04 targets. The review is considering the efficacy of the existing suite of targets, and the value in setting future targets. It will take into account the fact that there are already a number of policy levers designed to drive the management of waste up the hierarchy. The outcome of the review will feed into the wider review of Waste Strategy 2000 which is also taking place in 2005, consistently with that Strategy's monitoring arrangements. The targets review will inform decisions by Ministers—as soon as possible—on any adjustment to existing targets and on any new sustainable waste targets to be set at national or local level aimed at driving up performance. Both reviews will take full account of stakeholders' and the public's views.

Rights of Way/Footpaths

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of *(a)* rights of way and *(b)* footpaths are (i) easy to use and (ii) in a good state of repair. [2428]

Jim Knight: The Best Value Performance Indicator figures for 2003–04 published by the Audit Commission show that an average of 69 per cent. of rights of way in England are easy to use. To qualify as easy to use the right of way should be in a good state of repair. The Best Value survey figures are for all types of rights of way and are not broken down to provide information on footpaths alone.

Sewerage

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the sewer capacity in *(a)* Stroud, *(b)* Gloucestershire and *(c)* England. [2677]

Mr. Morley: The Office of Water Services (Ofwat) does not collect information on sewer capacity. It is the responsibility of water and sewerage companies to ensure their sewers have sufficient capacity. Ofwat set price limits in December 2004 which will allow the companies to maintain and invest in their assets.

In its final determinations Ofwat took account of the need for the companies to take action to safeguard homes against the risk of sewer flooding. This is set out in table 40 of Ofwat's 'Future water and sewerage charges 2005–10:Final determinations' which is in the Library of the House. Ofwat also allowed financing for companies to invest in upgrading their sewerage assets to meet rising demands particularly in relation to housing growth. This is set out in table 31 of the same document.

Single Payment Scheme

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on *(a)* the eligibility of short rotation coppice under the single payment scheme and *(b)* the implications for biomass production therefrom. [1500]

Jim Knight: Land on which short rotation coppice is grown in 2005 or later years is eligible for the purpose of the single payment scheme if it meets one of the following criteria:

the land is set-aside under the non-food crop regime; or

energy crop aid is also claimed on the crop; or

the short rotation coppice was planted between 30 April 2004 and 10 March 2005.

We are exploring the position further in respect of those growers who do not meet the qualifying criteria. The single payment scheme provides a clear option for diversification into biomass production to supply the markets which are now coming forward.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will establish an independent tribunal system to consider claims by farmers concerning alleged mishandling of single payment scheme applications by the Rural Payments Agency. [1509]

Jim Knight: Farmers have had access to an independent appeal procedure since 1 April 2002 which has enabled them to challenge decisions made by the Rural Payments Agency (RPA) on their subsidy scheme claims.

The single payment scheme Appeal Procedure was introduced in 2004 and is currently dealing with appeals from farmers relating to the introduction of the scheme. It will continue to be available to farmers who wish to challenge decisions made by RPA that will affect the amount of single payment that they will receive.

The independent appeal procedure is not a tribunal system but gives a farmer the opportunity to present their case to an independent panel made up of members who have been appointed in accordance with the Code of Practice on Public Appointments.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason it has been decided that farmers who do not submit applications under the single payment scheme by 10 June 2005 should lose all entitlements until 2012. [1510]

Jim Knight: 10 June 2005 was the final date provided for in the European regulations for the establishment of entitlements under the single payment scheme. Where establishment of entitlements took place after 16 May 2005 a reduction of 4 per cent. per working day will be applied to payments made in respect of those entitlements claimed in 2005.

Waste Management

David Davis: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of household waste in *(a)* the East Riding of Yorkshire and *(b)* England was (i) recycled and (ii) composted in the last year for which figures are available; and what action her Department is taking to increase that percentage. [3600]

Mr. Bradshaw: Audited data show that the East Riding of Yorkshire Council achieved 14 per cent. for the recycling and composting of household waste against a target of 18 per cent. for 2003–04.

The figure for England shows that householders are now recycling and composting 17.7 per cent. of their household waste against a national target of 17 per cent. for 2003–04.

Defra, and Government more widely, recognise the challenge local authorities in England face meeting their statutory performance standards in recycling and composting and the increase in costs as waste is diverted away from landfill. Accordingly, we are providing increased levels of support and funding to drive the management of household waste up the waste hierarchy.

Local authorities' main source of funding for waste management is the Environmental, Protective and Cultural Services (EPCS) block of the Revenue Support Grant distributed by central Government each year, supplemented by council tax. In last year's Spending Review (SR2004) the Government announced an increase in EPCS Formula Spending Share block of £888 million by 2007–08 over 2004–05.

Funding is also being provided from a variety of other sources to help authorities meet and exceed their targets. The Waste Performance and Efficiency Grant (WPEG) is providing unringfenced funding to local authorities worth £45 million in 2005–06 and £105 million and £110 million in the two following years. The grant is intended to underpin core funding, helping to put in place new and more efficient ways to reduce waste and increase recycling and diversion from landfill. Through the private finance initiative (PFI), credits worth £355 million have been made available in the three years to 2005–06 as an extra source of funding, with a further £535 million available in 2006–07 and 2007–08.

Alongside the additional funding, we are providing increased support to local authorities through a number of organisations who can offer both advice and funding. The Waste Implementation Programme (WIP) has devoted over £150 million over the three years to 2005–06 to strategic measures helping authorities to divert waste from landfill. It includes a Local Authority Support Unit aimed specifically at assisting local authorities to reach their targets and manage waste in a more sustainable fashion. The unit is providing help, where appropriate, in the form of best practice guidance, practical support and consultancy advice, including public awareness and education programmes.

On a national basis, the Waste and Resources Action Programme (WRAP) is a not-for-profit company supported by funding from Defra, the Department for Trade and Industry and the devolved Administrations of Scotland, Wales and Northern Ireland. It is working to promote sustainable waste management by creating stable and efficient markets for recycled materials and products. It also runs the Recycling and Organics Technical Advisory Team which is available to all local authorities in England to provide support and advice on the separate collection of dry recyclables and organic wastes.

We are also engaging with the poorest performing local authorities, which has included meetings with the Minister of State for some of them, to ensure they receive the right support. If authorities continue to demonstrate no commitment to improvement the

Secretary of State will use—as a last resort—the formal intervention powers under section 15 of the Local Government Act 1999.

Water Pollution

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to define microbial public health standards for *(a)* water courses and *(b)* discharges into them. [2678]

Mr. Morley: The Surface Water Abstraction Directive specifies microbiological standards for waters that are abstracted for potable water supply. The quality of the abstracted water determines the level of treatment of raw water required for potable consumption.

The Bathing Waters Directive specifies mandatory and guideline standards for identified bathing waters. In the UK most are tidal waters not watercourses. The few inland bathing waters are all lakes or ponds. The Bathing Waters Directive is currently under review.

There are no microbial water quality standards that are generally applicable to all water courses or discharges. The microbiological quality of inland watercourses is highly variable, due to land runoff from livestock agriculture and from urban drainage after rainfall, as well as from continuous discharges of treated effluent from sewage works.

In England and Wales the Environment Agency is responsible for approving and regulating discharges to watercourses. Where a discharge to inland (or tidal) waters could impact upon the microbiological quality of a Bathing Water, (or a Shellfish Water, for which there are shellfish flesh standards) the Environment Agency's policies and procedures are intended to ensure that permitted discharges do not put compliance with the standards at risk.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions *(a)* she and *(b)* the Environment Agency have had with Local Agenda 21 groups about pollution of water courses. [2679]

Mr. Morley: Following the Earth Summit in 1992 and the Agenda 21 declaration, many local communities in the UK set up voluntary groups which worked on sustainable development activity. In many local authority areas, Agenda 21 strategies have been subsumed into statutory community strategies and some Agenda 21 groups disbanded.

There is no official list or register of these groups since they change as do the communities who set them up. There are no official communication channels with these groups and Defra has not received any requests for discussion about environmental water quality.

At the national level, Defra encourages stakeholder participation in water quality issues through stakeholder groups and consultations, for example the Water Framework Directive stakeholder group that considers issues relating to implementation of the Water Framework Directive in England and water policy generally. Its membership covers a wide range of interests, including the environment, the water industry, agriculture, the countryside, and industry.

At the local level, the Environment Agency has worked for many years with Local Agenda 21 groups and the partnerships they have often developed into, for example Local Strategic Partnerships, on a number of environmental issues and objectives, including the pollution of watercourses.

The Environment Agency is currently involved with 284 Local Strategic Partnerships (LSPs) and the development and implementation of their Community Strategies.

TREASURY

Banks (Windfall Tax)

Mr. Walker: To ask the Chancellor of the Exchequer whether he plans to levy a windfall tax on the domestic banking sector; and if he will make a statement. [3201]

Mr. Ivan Lewis: Tax policy is reviewed as part of the annual Budget process. There are no current plans to introduce a windfall tax on banks.

Climate Change Levy

Paul Flynn: To ask the Chancellor of the Exchequer what has been the total yield of the climate change levy in each year since its introduction; what its expected yield is in the 2005–06 financial year; by how much the income of the National Insurance Fund has been reduced in each year since the introduction of the climate change levy by the off-setting cuts in employers' contributions; and whether he plans to arrange for future proceeds of the levy to be transferred to the National Insurance Fund to pay for increases in pensions and other benefits. [2359]

John Healey: The climate change levy was introduced in 2001 with offsetting tax cuts for business, which included a 0.3 per cent. cut in employers' national insurance contributions. The information requested is given in the following table.

Climate change levy (CCL) revenues and value of 0.3 per cent. cut in employers' national insurance contributions (NICs)

£ million

	CCL revenues[1]	*Value of 0.3 per cent. cut in employers' NICs*[2]
2001–02	771	1,035
2002–03	826	1,125
2003–04	816	1,185
2004–05	[3]753	1,215
2005–06	[4]800	1,275

[1] On accruals basis. Based on CCL declarations on trader returns.
[2] *Source:* Based on HMT Tax Ready Reckoner.
[3] Provisional
[4] Expected

The Government are committed to enabling pensioners to share in the country's rising prosperity. Reforms to pensioner tax and benefits since 1997 have meant that pensioners on average are £29 per week better off and the poorest third of pensioners are £39 per week better off than they would have been under the 1997 system.

Clostridium Difficile

Mr. Lidington: To ask the Chancellor of the Exchequer what estimate he has made of the number of deaths in each year since 2000 that were attributable to *Clostridium difficile*; and if he will make a statement. [3764]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. David Lidington, dated 13 June 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what estimate has been made of the number of deaths in each year since 2000 that were attributable to *Clostridium difficile*. (3764)

In the Tenth Revision of the International Classification of Diseases (ICD-10), deaths involving enterocolitis due to *Clostridium difficile* can all be identified from the code A04.7. Enterocolitis is the commonest illness caused by *C. difficile* infection. For causes other than enterocolitis that are also known to be associated with *C. difficile*, it is not possible to identify from ICD codes alone the number of deaths where *C. difficile* actually contributed to the death. For this reason, the only routinely available mortality statistics on *C. difficile* are those where it was associated with enterocolitis.

The table below gives total mentions of *C. difficile* enterocolitis and the number where it was also the underlying cause of death for 2001 onwards. Comparable figures are not currently available before 2001, because no specific code exists in the Ninth Revision of the ICD.

The Office for National Statistics is working with the Health Protection Agency on a special study to identify the total number of deaths where *C. difficile* was mentioned on the death certificate.

Number of deaths where enterocolitis due to Clostridium difficile was mentioned on the death certificate and the number of these mentions where it was also the underlying cause of death,[1] England and Wales, 2001–03[2]

	Total mentions	*Underlying cause*
2001	1,199	674
2002	1,417	751
2003	1,748	934

[1] Selected using the code A04.7 from the International Classification of Diseases, Tenth Revision (ICD-10)
[2] Figures are for deaths occurring in the years 2001 to 2003.

Office for National Statistics

EC Budget

Kate Hoey: To ask the Chancellor of the Exchequer when he plans to publish the European Community Finances Statement on the EC budget for 2005. [3402]

Mr. Ivan Lewis: The annual "European Community Finances" White Paper ("Statement on the 2005 EC Budget and measures to counter fraud and financial mismanagement") will be published on 23 June.

Finance Bodies (Orphan Assets)

Mr. Walker: To ask the Chancellor of the Exchequer (1) what the estimated value is of the orphan assets of banks, building societies and insurance companies in the UK; and if he will make a statement; [3198]

(2) if he has plans to confiscate the orphan assets of the financial services sector; and if he will make a statement. [3202]

Mr. Ivan Lewis: The Government announced in Budget 2005 that they continue to believe that it is right in principle that more should be done to reunite assets with their owners. Where assets and their owners cannot be reunited, the Government believe that the assets should be reinvested in society, as long as the original owners' entitlements to reclaim are preserved. As the Budget noted, the Government are engaged in constructive discussions with the banking industry to take this forward.

Looking ahead, the Government expect to agree with industry a common definition of an unclaimed asset, and for the industry to search their records and to set out the full value of their assets so defined, by the time of the 2005 pre-Budget report. The Government also expect the industry to explore what more could be done to reunite owners and assets, including the possibility of a National Register, and to set out how they will achieve this by the time of the 2005 pre-Budget report.

First-time Buyers (Northern Ireland)

Lady Hermon: To ask the Chancellor of the Exchequer whether his recently-announced shared-ownership scheme to help first time buyers who have been priced out of the housing market will extend to Northern Ireland. [2201]

Mr. Hanson: I have been asked to reply.

The recently announced proposals are designed to address particular problems in England and will not apply in Northern Ireland. A shared ownership scheme—the Co-ownership scheme—already operates in Northern Ireland. The scheme assists first time buyers on marginal incomes to become home owners. The Department for Social Development has secured additional funding over the next three years for the scheme to provide almost £39 million over the period. This will help support around 2,400 applicants over the period.

G8 Summit

John Battle: To ask the Chancellor of the Exchequer what steps he has taken in the preparation for the G8 Summit to extend debt cancellation to *(a)* Peru and *(b)* other highly indebted countries with large numbers living in absolute poverty which are not on the Highly Indebted Poor Countries list; and if he will make a statement. [3344]

Mr. Ivan Lewis: The debt of heavily indebted poor countries is addressed under the Heavily Indebted Poor Countries' Initiative (HIPC). The UK continues to be absolutely committed to the rapid and full implementation of the HIPC Initiative to ensure that it delivers maximum debt relief for the world's poorest countries.

The appropriate process for official bilateral creditors to tackle the debt problems of non-HIPC countries facing external debt problems is through the Paris Club's Evian Approach.

Peru has rescheduled its external debt to Paris Club eight times since 1968. The last rescheduling was in 1996. Peru has not requested any further debt relief from

Paris Club creditors since then. If Peru were to do so, and its request was accepted, the UK would deliver its share of any debt relief agreed in the Paris Club.

Income Statistics (London)

Sarah Teather: To ask the Chancellor of the Exchequer what the average annual income was per person in each London borough in each year since 1997. [2493]

John Healey: Information on average annual income in each London borough for the years 1999–2000 to 2002–03 can be found in "Total income by borough and district or unitary authority (Table 3.14)" at: http://www.hmrc.gov.uk/stats/income_distribution/menu-by-year.htm#314

Similar information for 1997–98 and 1998–99 is not available.

International Finance Facility

Mr. Drew: To ask the Chancellor of the Exchequer what discussions he has had with the incoming President of the World Bank on the international finance facility. [3062]

Mr. Ivan Lewis: The IFF now has the support of almost 80 countries, including all the European members of the G7. The IFF has been discussed widely with the World Bank, including at the recent G8 Finance Ministers' Summit. The World Bank and IMF have noted that the IFF is technically feasible and the most advanced proposal to frontload aid and the 2005 World Bank Development Committee Communiqué noted that:

"... the analysis of technical feasibility of the IFF has created the conditions for the necessary political decisions on participation. We encourage interested donors to proceed with these proposals."

Late Tax Payment

Mr. Redwood: To ask the Chancellor of the Exchequer what the Government's policy is on *(a)* refunds, *(b)* compensation and *(c)* cancellation of interest payments for late payment of tax when the tax authorities find they have been in error in the amount levied. [3746]

Mr. Ivan Lewis: The policy concerning financial redress in cases of error or delay by the former Inland Revenue is set out in their published Code of Practice 1 (COP1). The policy of the former HM Customs and Excise can be found in Notice 1000. Both leaflets can be viewed on the HM Revenue and Customs website. They will be replaced shortly with a new leaflet setting out the policy for the whole of HM Revenue and Customs.

Personal Wealth

Mr. Sanders: To ask the Chancellor of the Exchequer what estimate he has made of the level of personal wealth per head of population in each *(a)* region and *(b)* nation of the United Kingdom. [2837]

John Healey: The information requested falls with the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Adrian Sanders, dated 13 June 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about the current level of personal wealth per head of population in the regions and countries of the United Kingdom. (2837)

The Office for National Statistics (ONS) compile total net worth for the household sector only for the United Kingdom as a whole and not for individual regions or countries. The latest estimates are for 2003, published as part of the 2004 edition of the UK National Accounts—The Blue Book. Estimates for 2004 will be published on 22 July 2005.

Table A:

	United Kingdom household sector net worth 2003
Total household net worth (£ billion)	5,477.8
Household net worth per head of population (£)	91,480

The total net worth is the sum of total non-financial assets and financial assets at the end of the reference period.

The household sector covers households, sole trader enterprises and non-profit institutions serving households (NPISHs), such as charities.

ONS do compile estimates of regional household income, the key series being gross disposable household income (GDHI). That is the amount of money that households have available for consumption expenditure or saving. The latest estimates are for 2003 and are consistent with the 2004 edition of the UK National Accounts. These are shown in table B.

Table B: Gross disposable household income for 2003

Geography	*Total GDHI (£ million)*	*GDHI per head of population (£)*
United Kingdom[1]	750,946	12,610
North East	27,393	10,787
North West	78,652	11,559
Yorkshire and the Humber	57,415	11,462
East Midlands	49,377	11,612
West Midlands	61,455	11,552
East of England	74,762	13,685
London	112,551	15,235
South East	115,267	14,265
South West	63,511	12,704
Wales	32,720	11,137
Scotland	59,439	11,753
Northern Ireland	18,403	10,809

[1] Excludes GDHI from the "extra regio" category which covers the contribution to GDHI from UK embassy staff and forces personnel stationed overseas

Premium Bonds

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer on how many occasions since 1995 the odds have been lengthened for winning on a premium bond holding; and if he will make a statement. [3172]

Mr. Ivan Lewis: The odds on winning a prize on a premium bond holding have lengthened on 18 occasions since 1995, primarily as a result of a fall in interest rates during that period, which affects the overall size of the prize rate fund. The odds have also shortened six times since 1995.

CULTURE, MEDIA AND SPORT

Licensing Act

10. **Mr. Robathan:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the likelihood of all licensed premises having applied for a new licence by 6 August. [3000]

James Purnell: There can be no guarantee that every business which needs to apply for grandfather rights under the Licensing Act 2003 will do so by 6 August. But I am monitoring the position closely with local authorities and the hospitality industry, and my Department is doing all that it reasonably can to ensure that all relevant businesses are aware of the deadline. I am confident that this will result in a high proportion of applications being made on time.

11. **Mr. Rob Wilson:** To ask the Secretary of State for Culture, Media and Sport what recent representations she has received from amateur sports and community clubs regarding the Licensing Act 2003. [3001]

James Purnell: My right hon. Friend the Secretary of State has received many representations on this subject. The Government have actively supported Community Amateur Sports Clubs through Lottery funding and tax benefits over recent years, and is taking full account of their concerns in implementing the Act. My officials are working closely with sport's representative bodies, and last met the Central Council for Physical Recreation on 5 April 2005.

20. **Mr. Heath:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the application of the Licensing Act 2003 to carnivals. [3010]

James Purnell: The Act affects street carnivals only to the extent that any licensable activities, such as the provision of regulated entertainment or sale of alcohol, takes place. Where no licensable activities, as defined in the Act, are involved no licence is required. Given that carnivals are not mentioned within the Act, and the varied nature of each individual carnival, it is not possible to give a definitive, single answer as to whether carnivals are licensable or not. The Licensing Act devolves determination of these matters to the licensing authorities.

Mr. Dunne: To ask the Secretary of State for Culture, Media and Sport what recent representations she has received from the Local Government Association regarding the implementation of the Licensing Act 2003. [2788]

James Purnell: Representations have regularly been made by the Local Government Association at meetings of an advisory group, held by my officials, of which the Association is a member. The Advisory Group most recently met on 16 February, 15 March, 19 April and 16 May. I also chair a High Level Group to ensure the smooth running of the implementation of the 2003 Act on which the Association is also represented. That group met on 22 March, 4 May and 23 May 2005. My Department continues to work closely with the Association, and other local authority representatives, on the implementation of the 2003 Act.

Mr. Dunne: To ask the Secretary of State for Culture, Media and Sport how many applications have been made in *(a)* South Shropshire and *(b)* Bridgnorth district council areas for the new licences introduced by the Licensing Act 2003; what estimate she has made of the number of applications in each council area which remain to be made; and if she will make a statement. [2795]

James Purnell: Information on the number of applications for converting existing licences into premises licences and club premises certificates received to date by licensing authorities under the Licensing Act 2003 is not kept by my Department. Licensing authorities, which are in the main local authorities, are responsible for administering and enforcing the new regime, which will come into effect in November. Information on local licence application levels should be available from the respective district or borough council.

Music (Government Support)

12. **Kelvin Hopkins:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on Government support for music. [3002]

Mr. Lammy: The Government are committed to supporting music in all its forms. We are achieving this through increased investment—funding to music through Arts Council England has more than doubled since 1997 to over £100 million this year.

The Music Manifesto, launched in 2004, is bringing the music sector together to support our aims for music education.

We have set up the Creative Industries Intellectual Property Forum to look at IP issues affecting the creative sector including music.

And, through the Live Music Forum, we are working to ensure that opportunities for the promotion of live music are realised to the full.

London Olympic Bid

13. **John Barrett:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on progress with the London bid to host the 2012 Olympic Games. [3003]

Tessa Jowell: London's bid is in great shape. The publication of the International Olympic Committee's evaluation report last Monday reflects that. We are in a very strong position and we will be doing everything we can over the coming weeks to secure the greatest prize in sport.

14. **Angela Watkinson:** To ask the Secretary of State for Culture, Media and Sport what the planned sources of funding for the London Olympic Games are; and if she will make a statement. [3004]

Tessa Jowell: The costs of staging and operating the Games would be met by income from ticket sales, sponsorship and licensing and by a contribution from the International Olympic Committee.

To meet the infrastructure and capital costs of preparing for the Games, the Government and the Mayor of London have agreed a public sector funding package of up to £2.375 billion.

16. **Lyn Brown:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the requirement for further infrastructure development to achieve a successful Olympic games in London in 2012. [3006]

Tessa Jowell: The candidature file submitted to the IOC in November 2004 included assessments of both the sporting infrastructure and of the services and utilities requirements within the Olympic park.

Slave Trade Abolition (Anniversary Celebration)

15. **Mr. Khan:** To ask the Secretary of State for Culture, Media and Sport what plans she has to commemorate the 200th anniversary in 2007 of the abolition of the slave trade in the British Empire. [3005]

Mr. Lammy: We are considering with Home Office colleagues how best to mark the occasion but a great deal of work is already in hand. My Department will meet the £250,000 per year running costs of the new Slavery Gallery in Liverpool, due to open in 2007. Many of our museums and galleries and heritage sites are planning to mark the anniversary with special exhibitions and educational programmes.

Sport (Equality of Access)

17. **Ms Angela C. Smith:** To ask the Secretary of State for Culture, Media and Sport what progress is being made on ensuring equality of access in sport. [3007]

Mr. Caborn: The Government are committed to promoting equality of access in sport for all, and are implementing a range of measures to help achieve this.

We have a PSA target to increase participation within priority groups of the general population, by 3 per cent. by 2008. At present, existing data on the levels of participation in the population are variable. However, we will measure progress on our target via a DCMS participation survey from autumn 2005.

In schools, our joint target with the DfES is to enhance the take-up of sporting opportunities by 5 to 16-year-olds so that the percentage of schoolchildren in England who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum increases from 25 per cent. in 2002 to 75 per cent. by 2006, and 85 per cent. by 2008, and to at least 75 per cent. in each School Sport Partnership by 2006.

The Equality Standard for Sport, launched last year, is a framework to guide sports and community organisations towards achieving equality. Its aim is to widen access and increase the participation and involvement in sport and physical activity from under-represented individuals, groups, and communities.

Broadcasting Regulations

18. **Mr. Andrew Turner:** To ask the Secretary of State for Culture, Media and Sport what recent discussions she has had with Ofcom on the regulation of standards of decency in broadcasting. [3008]

James Purnell: Decisions on broadcast programme standards are a matter for Ofcom to determine independently of Government, according to the provisions of the Broadcasting and Communications Acts.

The Secretary of State was briefed by Ofcom about their proposals for the regulation of standards in broadcast content prior to publication of the new programme code.

Sporting Events (Policing Charges)

19. **Mr. Boswell:** To ask the Secretary of State for Culture, Media and Sport what recent representations she has received from sporting bodies about charges for policing major events; and what steps she is taking in conjunction with other Government Departments to ensure that such costs are, as far as practicable, *(a)* affordable and *(b)* in line with charges for other sporting and public events. [3009]

Mr. Caborn: I have recently received representations from Wigan Athletic A.F.C and the organisers of the Unity Cup about police charges for sporting events.

My Department continues to work closely with the Home Office about police charging for sporting events to ensure that as far as practical, such costs are fair and reasonable.

Active Spaces Scheme

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what the costs have been of the development and operation of the Active Spaces scheme; and how many people have used it to date. [3605]

Mr. Caborn: Active Places is a free to use, on-line database of sports facilities in England.

The cost of Active Places will be £5.2 million over three years. These costs cover the initial development, updating of the data and hosting of the system. Active Places is joint funded by The Big Lottery Fund and Sport England.

The Active Places website had 106,576 visits in the period from its launch in July 2004 to April 2005. The Active Places database can be found on www.activeplaces.com

Analogue Transmissions

Mr. Gordon Prentice: To ask the Secretary of State for Culture, Media and Sport when she expects analogue transmissions to be switched off. [2783]

James Purnell: As we said in our manifesto, we will achieve digital switchover between 2008 and 2012 ensuring universal access to high-quality, free-to-view and subscription digital TV. This will happen region by region, and we will make sure that the interests of elderly people and other vulnerable groups are protected.

Arts Promotion

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what steps the Government is taking to promote *(a)* theatre and *(b)* classical music. [2960]

Mr. Lammy: Government funding for the arts is channelled through Arts Council England (ACE), which operates at arm's length from the Government.

Arts Council England currently provide regular funding for 248 theatre companies in England, including producing and touring companies and presenting theatres. ACE have also published the National Policy for Theatre in England which provides a strategic framework and identifies priorities for both ACE and the sector.

Arts Council England currently provide regular funding of over £24 million for 68 classical music organisations. As well as increasing support for opera and symphony orchestras since 1998–99, ACE have increased support to chamber orchestras by almost 50 per cent. since 2003–04.

Departmental Union Representation

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport how many trade union learning representatives there are in her Department. [3318]

Mr. Caborn: There are currently no trade union learning representatives in the Department for Culture, Media and Sport.

Faith Awareness Training

Mr. Paul Goodman: To ask the Secretary of State for Culture, Media and Sport how many civil servants in the Department received faith awareness training in 2004. [3809]

Mr. Caborn: All DCMS staff receive mandatory equal opportunities training which covers religion and belief. We have also issued detailed guidance to all staff.

Faith Communities

Mr. Paul Goodman: To ask the Secretary of State for Culture, Media and Sport what recent consultations have been carried out by her Department with representatives of faith communities; and if she will make a statement. [3228]

Mr. Caborn: One of the four Strategic Priorities of the Department for Culture Media and Sport (DCMS) is to

> "increase and broaden the impact of culture and sport, to enrich individual lives, strengthen communities and improve the places where people live, now and for future generations".

Implicit in this is a commitment to ensure that all of our sectors, be it arts, sport, heritage, museums, libraries and archives reflect and are accessible by the wide range of communities in the UK including people of all faiths and none. Also one of the 10 commitments in our Five-Year Plan published this year is that we will consult the public on an unprecedented scale ensuring that we are open and accountable.

Faith communities have been an explicit key part of recent public consultations including the Lottery, BBC Royal Charter review, the Ecclesiastical Exemption Review and the Olympics.

DCMS Ministers and officials met with representatives of faith communities on a number of occasions in 2003–05 to discuss their views about the Gambling Bill.

DCMS also worked closely with the faith community in developing policies for the Communications Act, notably in relation to allowing religious groups to hold broadcasting licences.

The Central Religious Advisory Committee has been established to advise the BBC and Ofcom on religious broadcasting policy and comment on programmes once broadcast. Ofcom have also recently conducted research among people of different faiths about their perceptions of broadcast media.

12 of the 132 responses to our recent Culture at the Heart of Regeneration consultation were from faith based organisations.

Bodies such as the British Library have also been careful to consult faith representatives in the appropriate display of objects from those faiths.

Gambling Act

Anne Milton: To ask the Secretary of State for Culture, Media and Sport what plans she has for secondary legislation under the Gambling Act 2005. [3372]

Mr. Caborn: We plan to bring forward subordinate legislation over the next two years with a view to bringing the Act fully into force in September 2007.

Anne Milton: To ask the Secretary of State for Culture, Media and Sport from what date local authorities will be able to make a resolution not to issue licences for casinos under the Gambling Act 2005. [3373]

Mr. Caborn: This date has yet to be determined. But any resolution will only apply to casino premises licences issued under the Act. The target date for such licences having effect is September 2007.

Anne Milton: To ask the Secretary of State for Culture, Media and Sport what the role of the South East Regional Assembly is with regards to the Gambling Act 2005. [3374]

Mr. Caborn: The Act provides for the Secretary of State to designate areas in which local authorities may issue premises licences for new-style regional, large or small casinos. The Secretary of State will designate areas in the first phase on the basis of advice from an independent advisory panel. In respect of possible locations in the South East the panel will have the opportunity to consider the views of the Assembly.

Anne Milton: To ask the Secretary of State for Culture, Media and Sport by what criteria casino licences will be allocated under the Gambling Act 2005. [3375]

Mr. Caborn: Casino operating and premises licences will be awarded by the Gambling Commission and licensing authorities on the basis of the principles set out in sections 70 and 153 of the 2005 Act respectively. Where there are more premises licence applications which meet the criteria than available licences, the authority will make its decision on the basis of which of the competing applications would in its opinion be likely to result in the greatest benefits to its area.

Anne Milton: To ask the Secretary of State for Culture, Media and Sport whether her Department plans to produce guidance for local authorities on their powers under the Gambling Act 2005 to pass a resolution not to issue a casino licence. [3376]

Mr. Caborn: We shall be discussing the need for guidance with the local authority associations.

Laptop Computers

Lynne Featherstone: To ask the Secretary of State for Culture, Media and Sport how many laptop computers have been used by *(a)* Ministers, *(b)* special advisers and *(c)* officials in her Department in each year since 1995; how many have been (i) lost and (ii) stolen in that period; what the cost was of the use of laptops in that period; and if she will make a statement. [4129]

Mr. Caborn: The information is as follows.

(a) No laptops have ever been issued to Ministers by my Department.

(b) Special advisers have used two laptops in the last two years. Prior to that no departmental laptops were used by special advisers.

(c) Due to the turnover of staff and equipment, we do not hold records of laptop loans back to 1995. Our records show that DCMS currently has 109 laptops. Since 1998, the number of laptops lost by staff or stolen from staff is:

(i) Five lost

(ii) Two stolen.

No laptops have been stolen by staff.

Records of cost of use of equipment could not be collated without disproportionate cost.

Licensing (London)

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many *(a)* pubs and *(b)* night clubs have had their licences removed in each London borough in each year since 1997. [2472]

James Purnell: Data on licence revocations is collected every three years. This is collated by Court or Petty Session Division, rather than by borough or other local authority area. The data also relates to public houses only.

The total numbers of licences revoked in England and Wales, and in Greater London, were as follows for the years in which data has been collected since 1997 (all figures refer to the year ended 30 June):

	1998	*2001*	*2004*
England and Wales	165	99	186
Of which:			
Greater London	Not available	5	8

The figures for Greater London are analysed as follows:

2001 (by Court):

East Central (1 revocation: Highbury Corner)

South Westminster (1: Horseferry Road)

West London (1: West London)

Outer London (2: one each in *Barnet and Havering*)

2004 (by Petty Session Division):

North and South Westminster (2)

Barking (1)

Hackney and Tower Hamlets (2)

Haringey (1)

Harrow (1)

Wandsworth (1)

Lottery (London)

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many National Lottery grants were given in each London borough in the last five years; and what the total value was. [2474]

Mr. Caborn: The figures are shown in the following tables.

	Barking and Dagenham	*Barnet*	*Bexley*	*Brent*	*Bromley*	*Camden*

The 'location' of the project is based on the postcode given by the applicant, which is not necessarily where the benefit of the award will be felt. For example no single London borough would describe where a theatre tour took place.

Museum Security

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with *(a)* the Victoria and Albert Museum and *(b)* other national museums on security in the last 12 months; and if she will make a statement. [3046]

Mr. Lammy: The V&A has discussed the need to bring forward planned investment in security. We have facilitated this and work is now under way. We have also provided some additional funding to support interim measures.

We advised sponsored museums in a letter of 5 November 2004 to undertake an urgent review of their existing security arrangements to establish whether any changes were needed. Subsequent attempts at theft from the British Museum and the Science Museum were foiled.

Following discussions with the Wallace Collection we allocated additional funds in February 2005 to enhance security at the museum.

Pigeon Racing

Peter Law: To ask the Secretary of State for Culture, Media and Sport if she will press for pigeon racing to be recognised as a sport. [4036]

Mr. Caborn: Decisions on whether particular activities and pastimes should be recognised as sports for official and funding purposes are made by unanimous agreement between the home country sports councils. As such it would be inappropriate for Government to intervene.

In the first instance, I would recommend a submission to the relevant sports council, outlining the case for pigeon racing. The sports council will be able to provide information on the criteria for recognition of an activity as a sport.

Race Relations (Amendment) Act

Keith Vaz: To ask the Secretary of State for Culture, Media and Sport how many and what percentage of staff in her Department have received training on the general and specific duties of the Race Relations (Amendment) Act 2000, broken down by *(a)* ethnicity and *(b)* grade. [3547]

Mr. Caborn: The Department for Culture, Media and Sport delivers mandatory diversity training to all staff as part of the induction process which includes a session on the Race Relations (Amendment) Act 2000. The total number of staff in post is 520 and the breakdown by *(a)* ethnicity and *(b)* grade is as follows.

Percentage

Grade	Ethnic minority[1]
SCS	4
Grade A	4
Grade B	9
Grade C	16
Grade D	30

[1] Ethnic minority staff as a percentage of staff who have declared their ethnicity rather than a percentage of total staff in post.

Keith Vaz: To ask the Secretary of State for Culture, Media and Sport what arrangements are in place to ensure that bodies within the responsibility of her Department comply with the requirements of the Race Relations (Amendment) Act 2000. [3548]

Mr. Caborn: The Department for Culture, Media and Sport strives to put diversity and inclusion at the heart of its work. In 2002 we published the DCMS Race Equality Scheme setting out how we would meet both our general and specific duties under the Race Relations

Act. At that time we also made our non-departmental bodies and other sponsored bodies aware of their responsibilities under the Act. The Race Equality Scheme is to be reviewed this year, and that review will include consideration of future monitoring procedures.

Racism in Football

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what steps the Government is taking to tackle racism in football. [2959]

Mr. Caborn: The Government believes that there is no place for racism in football or in wider society.

The Government fully supports the initiatives undertaken by football, including the campaign Kick it Out and the charity Show Racism the Red Card, to help eradicate racism from the sport.

Through the Football Foundation, the Government (with its funding partners the FA and FA Premier League) provides £155,000 to the Kick it Out campaign, and £161,000 to Show Racism the Red Card.

Sport Across Staffordshire

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport how much public money has been given to Sport Across Staffordshire in the last five years. [3335]

Mr. Caborn: The information you requested is provided in the following table:

Sport across Staffordshire funding

£

Award programme	*Lottery*	*Exchequer*	*Total*	*Year commitment made*				
				2000–01	*2001–02*	*2002–03*	*2003–04*	*2004–05*

Sports Cabinet

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport on what dates the Sports Cabinet has met in the last two years; and who attended each meeting. [3646]

Mr. Caborn: Since June 2003 the Sports Cabinet has met on 23 October 2003 and 20 April 2004. Ministerial attendance at both the October and April meetings was: right hon. Tessa Jowell MP, right hon. Richard Caborn MP, Alun Pugh AM, Minister for Culture, Welsh Language and Sport (Welsh Assembly); Frank McAveety MSP, Minister for Tourism, Culture and Sport (Scottish Executive); Angela Smith MP, (Northern Ireland). In addition, the following chairs of the Sports Councils also attended both meetings: Sue Campbell, UK Sport, Patrick Carter, Sport England, Professor Eric Saunders, Sports Council for Northern Ireland, Alistair Dempster, SportScotland. Anne Ellis, acting chair, Sports Council for Wales, attended the October meeting while Philip Carling, chair, Sports Council for Wales, attended the April meeting. In addition the following officials attended the October meeting to provide support to their respective Minister: Alec McGivan, Paul Heron, Debbie Lye, Colin Gibson, Margaret Evans, Arthur Emyr, John Gilmour, Karen Mitchell and Jack Palmer. Those officials who attended the April meeting were: Paul Bolt, Paul Heron, Stephen Hodgson, Colin Gibson, Margaret Evans, Arthur Emyr, John Gilmour, Dr. Aideen McGinley and Jack Palmer.

Swimming Pools (Parental Supervision)

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what progress is being made in resolving issues surrounding parental supervision of children in swimming pools. [3607]

Mr. Caborn: The Department for Culture, Media and Sport met with key partners on 5 April to discuss the issues around supervision of children in swimming pools and will be announcing shortly the series of measures that were agreed at the meeting to resolve the problem.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what steps the Government have taken to review the Institute of Sport and Recreation Management guidelines on parental supervision of children in swimming pools. [3647]

Mr. Caborn: The Institute of Sport and Recreation Management (ISRM) is an independent organisation and the Government have no authority to review the guidance it provides for its members.

However, the Department for Culture, Media and Sport met with key partners, including the ISRM, on 5 April to discuss the issues around supervision of children. The scope for inappropriate application of ISRM's guidance was among the issues discussed. The Department will be announcing shortly the series of measures that were agreed at the meeting to resolve the problem.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether the Government have taken steps to instigate research into the requirement for parental supervision of children in swimming baths. [3648]

Mr. Caborn: Following the meeting of 5 April with key experts, the Government will set out shortly the steps being taken to further research the issue of parental supervision in swimming pools.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what the outcome was of the meeting on 5 April between her Department, the Health and Safety Executive and the Right to Swim Campaign. [3660]

Mr. Caborn: The Department for Culture, Media and Sport will circulate a note of the meeting to attendees shortly alongside announcing the measures agreed at the meeting to deal with the issue of child admission policies for swimming pools.

Television Licences (Northern Ireland)

Mr. Gregory Campbell: To ask the Secretary of State for Culture, Media and Sport how many successful prosecutions there have been of people for operating a television without a valid television licence in each Northern Ireland parliamentary constituency in each of the last five years. [2807]

James Purnell: The information requested is not available.

Wembley

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the construction of Wembley Stadium. [2452]

Mr. Caborn: We have been assured that Wembley Stadium will be completed in time to host the FA cup final in May 2006, as originally planned.

This is an extremely complex project that will ensure that Wembley remains one of the world's great sporting venues and a fitting stadium for football in the 21st century.

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport on what date officials from her Department last met the Football Association to discuss Wembley Stadium. [2453]

Mr. Caborn: DCMS officials attended the scheduled meeting of the Wembley National Stadium Primary Stakeholders Group on 17 May 2005. A representative of the Football Association was present at that meeting.

TRADE AND INDUSTRY

Agents

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what *(a)* services and *(b)* advice UK Trade and Investment gives to companies with regard to the use of agents. [2556]

Ian Pearson: As part of UK Trade and Investment's overarching business support role, companies are advised on the most effective ways of employing agents. This advice is given on a case-by-case basis and may include training programmes, mentoring by UKTI's international trade advisers, trade seminars or referral to trade associations and chambers of commerce.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what *(a)* security checks, *(b)* vetting procedures and *(c)* other precautions are taken by UK Trade and Investment before an agent is included on the list of agents it provides to British companies. [2343]

Ian Pearson: UK Trade and Investment (UKTI) do not hold a central list of agents or any other potential business partners. Bespoke lists of agents and other potential business partners can be provided direct to UKTI customers at their request. UKTI customers are then expected to undertake their own due diligence. UKTI provide support and advice on how to trade internationally but do not make commercial judgments for a company. Specific advice on agent's validity or appropriateness is ultimately a commercial judgment for the company.

Arms Sales (Indonesia)

Mr. Drew: To ask the Secretary of State for Trade and Industry if he will ask the National Audit Office to conduct an investigation into the Export Credits Guarantee Department's decision to underwrite the Alvis armoured vehicle and Hawk deals with Indonesia, with particular reference to the role of agents. [1668]

Ian Pearson: On 25 February 2005 the National Audit Office (NAO) met with the Export Credits Guarantee Department (ECGD) to discuss the decision to underwrite the Alvis armoured vehicle and Hawk deals with Indonesia and to review certain papers supporting the decision.

On 3 May, having satisfied itself that ECGD had complied with the assessment procedures in force at the time the applications for export cover referred to above were being considered, the NAO wrote to ECGD to confirm that it did not intend to make any further inquiries at this time.

Bankruptcies

Sarah Teather: To ask the Secretary of State for Trade and Industry how many *(a)* personal and *(b)* company bankruptcies there were in each London borough in each of the last three years for which figures are available; what assessment the Department has made of recent changes in the numbers; and if he will make a statement. [2468]

Mr. Sutcliffe: The following table records the numbers of individual bankruptcy orders and company compulsory liquidations in the London region classified according to official receivers' offices from 2002 to 2004.

Figures are not separately available for each London borough.

Numbers of compulsory insolvencies recorded in the London official receivers offices, 2002—04[1]

Annual totals	*Bankruptcy orders*	*Company compulsory liquidations*
2002	1,457	1,147
2003	1,933	864
2004	4,246	1,114

[1] The 2004 London figure includes Public Interest Unit (PIU) and Carousel, which together amount to 15 bankruptcies and 120 company compulsory liquidations

David Davis: To ask the Secretary of State for Trade and Industry how many *(a)* individuals and *(b)* companies were declared bankrupt in each of the past five years in (i) the East Riding of Yorkshire and (ii) England. [3589]

Mr. Sutcliffe: Compulsory insolvency figures are only available on the basis of the official receivers' office dealing with the cases, therefore it is not possible to separate those pertaining to the East Riding of Yorkshire or England exactly. (i) The first table gives annual figures for the number of individual bankruptcies and company compulsory liquidations dealt with by the official receivers' office in Hull, which covers the county courts of Beverley, Great Grimsby, Grimsby, Hull, Kingston-upon-Hull, Malton, Scarborough, Scunthorpe, Whitby and York. The Hull office covers the majority of the East Riding of Yorkshire but also includes a number of county courts from neighbouring counties/unitary authorities. A small part of the East Riding of Yorkshire (the county court of Goole) is administered by the official receivers' office at Sheffield.

Compulsory insolvencies registered at the official receivers' office in Hull, 2000–04

	Individual bankruptcies	*Company compulsory liquidations*
2000	796	91
2001	907	86
2002	926	96
2003	906	96
2004	1,129	72

(ii) The table gives the totals for individual bankruptcies and company compulsory liquidations for official receivers' offices located in England for the past five years. This may not provide an accurate record of the numbers of bankrupt individuals actually resident in England or insolvent companies registered in England, because the boundaries of the official receivers' offices differ from those for standard geographies.

Compulsory insolvencies registered at the official receivers' office in England, 2000–04

	Individual bankruptcies	*Company compulsory liquidations*
2000	20,522	4,734
2001	22,526	4,508
2002	23,274	6,046
2003	26,967	5,065
2004	34,628	4,444

Centrica plc

Mr. Streeter: To ask the Secretary of State for Trade and Industry what discussions he has had with Centrica plc about the provision of an energy park at Langage, Plymouth, pursuant to the terms of the licence granted by his Department. [3030]

Malcolm Wicks: None.

Coal Health Claims

John Mann: To ask the Secretary of State for Trade and Industry which Minister signed the coal health agreements in 1999 with *(a)* Vendside and *(b)* the Union of Democratic Mineworkers. [2405]

Malcolm Wicks *[holding answer 8 June 2005]:* The then Minister for Energy and Industry, the right hon. Member for Leeds, West approved the signing, by coal health claims officials, of the Chronic Obstructive Pulmonary Disease and Vibration White Finger handling agreements.

John Mann: To ask the Secretary of State for Trade and Industry how many meetings have taken place between his Department and Clare Walker of Vendside since 1998. [2518]

Malcolm Wicks *[holding answer 8 June 2005]:* Officials from the Department's Coal Liabilities Unit meet with the UDM to discuss operational issues on approximately a monthly basis. Other ad hoc meetings have taken place when necessary.

John Mann: To ask the Secretary of State for Trade and Industry what investigations have been instigated by his Department into *(a)* Walker and Co (Claims Management) Ltd. and *(b)* Indiclaim Ltd. concerning charging for coalminers compensation. [2520]

Malcolm Wicks *[holding answer 8 June 2005]:* The Department has not instigated any investigations into either Walker and Co (Claims Management) Ltd. or Indiclaim Ltd.

John Mann: To ask the Secretary of State for Trade and Industry which 20 solicitors received the highest number of deceased miners' claims in *(a)* 2001, *(b)* 2002, *(c)* 2003 and *(d)* 2004. [2665]

Malcolm Wicks: The solicitors who received the most claims in relation to deceased miners are as set out in the following tables:

Chronic obstructive pulmonary disease 2001

Number	*Solicitors*[1]	*Claims registered*[2]

[1] Top twenty solicitors are in descending order and based on the number of claims received in the year.
[2] Claims registered reflects the total number of deceased claims registered, i.e. does not include claims that were registered live but have died since.

John Mann: To ask the Secretary of State for Trade and Industry how many deceased miners' claims were submitted by Vendside in *(a)* 2003 and *(b)* 2004. [2667]

Malcolm Wicks: The number of claims submitted by Vendside is as follows:

Total deceased claims registered	*COPD*	*VWF*	*Total*
2003	59	113	172
2004	46	0	46
Total	105	113	218

Notes:
1. Claims registered reflects the total of deceased claims registered, i.e. does not include claims that were registered live but have died since.
2. Claim receipts are those claims that are fully registered, i.e. exclude pool of claims accepted with minimum data, awaiting further information to permit cross-referencing and duplicate checks prior to full registration.

John Mann: To ask the Secretary of State for Trade and Industry how many deceased miners' claims were submitted by *(a)* Beresfords, *(b)* Wake Smith, *(c)* AMS Law and *(d)* Moss solicitors in 2004. [2668]

Malcolm Wicks: Deceased miners claims submitted in 2004 were as follows:

Solicitor	*COPD*[1]	*VWF*[1]
AMS Law	816	5
Beresfords Solicitors	6,940	1
Moss Solicitors	125	0
Wake Smith	87	0
Total	7,968	6

[1] Claims registered reflects the total of deceased claims registered, i.e. does not include claims that were registered live but have died since.

John Mann: To ask the Secretary of State for Trade and Industry what requests he has made to Wake Smith solicitors to repay monies to his Department following payments by Wake Smith solicitors to Indiclaim Ltd in connection with the miners' industrial disease compensation scheme. [2669]

Malcolm Wicks: No such requests have been made.

John Mann: To ask the Secretary of State for Trade and Industry how many solicitors' firms have claimed back money from his Department while paying fees to *(a)* Walker and Co. Claims Management Ltd. and *(b)* Indiclaim Ltd. in connection with the miners' industrial disease compensation scheme. [2670]

Malcolm Wicks: The Department's claims handlers are not informed which solicitors' firms make payments to Walker and Co. Claims Management Ltd. and Indiclaim Ltd.

John Mann: To ask the Secretary of State for Trade and Industry how many deceased miners' claims were submitted from *(a)* Bassetlaw constituency, *(b)* Mansfield constituency, *(c)* Nottinghamshire, *(d)* East Midlands and *(e)* Yorkshire in (i) 2003 and (ii) 2004. [2671]

Malcolm Wicks: The numbers requested are as follows:

	2003		*2004*	
Solicitor	*COPD*	*VWF*	*COPD*	*VWF*
Bassetlaw constituency	629	28	635	1
Mansfield constituency	586	35	645	0
Nottinghamshire, Derbyshire and Leicestershire	306	154	493	0
Yorkshire	17,011	340	21,625	6
Total	18,532	557	23,398	7

Notes:
1. Claims registered reflect the total of deceased claims registered, i.e. does not include claims that were registered live but have died since.
2. Statistics for Bassetlaw and Mansfield are based on claimant postcode for the relative constituency. Statistics for Nottinghamshire, Derbyshire and Leicestershire and Yorkshire are based on deceased claims registered in that area by solicitor postcode.

John Mann: To ask the Secretary of State for Trade and Industry how many claims for dispersement payments have been refused to Richmonds solicitors. [2672]

Malcolm Wicks: The Department's claims handlers do not record this information.

John Mann: To ask the Secretary of State for Trade and Industry when his Department gave authority for the claims handling agreement with the Union of Democratic Mineworkers to be run by Vendside Ltd. [2707]

Malcolm Wicks: The Department has always understood that Vendside are the Union for Democratic Mineworkers' claims handling agents and are therefore entitled to handle claims on its behalf.

John Mann: To ask the Secretary of State for Trade and Industry what discussions took place with the Treasury on the VAT implications of his Department's agreement with Vendside Ltd. [2729]

Malcolm Wicks: No such discussions have taken place.

John Mann: To ask the Secretary of State for Trade and Industry whether his Department has referred the matters connected with the Union of Democratic Mineworkers and Vendside Ltd. which it is investigating to the National Audit Office. [2730]

Malcolm Wicks: The Department has made no such referral.

John Mann: To ask the Secretary of State for Trade and Industry what audit his Department has *(a)* carried out and *(b)* commissioned into (i) whether there has been abuse of deceased coalminers' claims for industrial disease and (ii) what potential exists for such abuse. [2731]

Malcolm Wicks: Procedures are in place to detect and prosecute fraudulent claims. In schemes of this nature, there is always the possibility that an individual will seek to obtain a payment to which he is not entitled.

John Mann: To ask the Secretary of State for Trade and Industry which 20 solicitors have received the highest average payments per claim for work done in connection with deceased miners' claims. [2732]

Malcolm Wicks: The solicitors with the highest average fees for deceased miners' claims are as follows:

Number	*Solicitor*	*Deceased settlements*[1]	*Total solicitors costs paid (£)*	*Average solicitors costs paid (£)*
1	Frank Allen Pennington Solicitors	1	1,720	1,720
2	Branton Bridge	1	1,397	1,397
3	Ben Hoare Bell and Co Solicitors	1	859	859
4	Banner Jones Middleton	1	737	737
5	Thompson and Co Solicitors	4	1,606	402
6	Raleys Solicitors	57	19,522	342
7	Mortons Solicitors	8	2,302	288
8	Simpson Millar Solicitors	3	766	255
9	Graysons	33	7,921	240
10	Latham and Co Solicitors	5	1,175	235
11	Pannone and Partners	18	4,100	228
12	Thompsons	148	20,990	42
13	Watson Burton	22	3,071	140
14	O H Parsons	24	2,629	110
15	Keeble Hawson Moorhouse	10	999	100
16	Browell Smith and Co	93	6,872	74
17	Hopkins	19	1,105	58
18	AMS Law	60	3,165	53
19	Atteys	37	1,941	52
20	Ingrams Solicitors	15	588	39

[1] Deceased settlements reflect total settlements on claims registered as deceased, i.e. does not include claims that were registered live but have died since. Total settlements are reported, encompassing claims settled by payment and denial/withdrawal.

Note:

No costs are payable to solicitors where the claim is settled by denial or withdrawal.

John Mann: To ask the Secretary of State for Trade and Industry how many employees of AON Irisc had previously worked for the National Coal Board on the date of the signing of the DTI/Irisc contract for coal health claims. [2733]

Malcolm Wicks: At this time, Irisc employed approximately 120 staff of which about 78 had worked for the British Coal Corporation.

John Mann: To ask the Secretary of State for Trade and Industry for what reasons his Department signed coal health agreements with both Vendside and the Union of Democratic Mineworkers. [2735]

Malcolm Wicks: Following the judgments against British Coal in both the Vibration White Finger and respiratory disease litigations, the High Court ordered the DTI to set up schemes, in agreement with miners' solicitors, to assess compensation for both types of claim. Claims had by then been registered through the Claimants Solicitors Group (the CSG), some of which were sponsored by the main mining unions, the NUM and NACODS. The UDM had also registered a large number of claims directly on behalf of their members, through their dedicated claims handling company, Vendside Limited. The CSG and the UDM were unable to work together or enter into single arrangements for historical reasons. The legal advice received by the Department was that it was appropriate to enter into separate claims handling arrangements with the CSG and the UDM, provided that the compensation delivered to the claimant under both schemes was the same.

Vendside Limited were, at the time of entering into the claims handling arrangements, the vehicle through which the UDM presented claims on behalf of their members. Vendside Limited entered into the Vibration White Finger claims, handling arrangement for and on behalf of the UDM. The legal advice received at the time was that Vendside Limited had authority to enter into arrangement for and on behalf of the UDM.

Complex Regional Pain Syndrome

Mr. Lansley: To ask the Secretary of State for Trade and Industry what funding the Medical Research Council has made available in each year since 1997 for research into complex regional pain syndrome. [230]

Alan Johnson: The MRC has not directly funded any research into complex regional pain syndrome in the period since 1997. However, in 2002-03, the Council spent £1.4 million on research into pain and pain management, which may lead to further understanding of the mechanisms involved.

Government do not prescribe to individual research councils what research they fund. Research excellence and importance to health are the primary considerations in MRC's funding decisions. Research proposals received by MRC undergo full peer review and assessment by one of the MRC's research boards.

Crude Oil

John Hemming: To ask the Secretary of State for Trade and Industry what percentage change in crude oil production from the UK occurred between January and March 2004 and January and March 2005; and what assessment the Department has made as to whether were this trend to continue throughout 2005, the UK would produce more or less oil than it consumed. [3731]

Malcolm Wicks: Provisional data for 2005 suggest that crude oil production fell by 12 per cent. between the first quarter of 2004 and the first quarter of 2005. A more detailed analysis is due to be published on 30 June in the June edition of Energy Trends, which will be available in the Libraries of the House.

Since peaking in 1999, indigenous oil production has been gradually declining as UKCS reserves deplete. New fields are expected to start production from the latter half of 2005 and consequently the decline in UK crude production is projected to plateau before

reverting back to its gradual decline from 2008. The UK is still anticipated to become a net importer of crude oil and petroleum products by around 2010.

Discrimination Law Review

Vera Baird: To ask the Secretary of State for Trade and Industry what the terms of reference are for the Discrimination Law Review; who is on the reference group for the review; when the review will start; who will lead the review; and what consultation the review will hold with *(a)* hon. Members, *(b)* the public and *(c)* relevant pressure groups. [3756]

Meg Munn: Today the terms of reference for the Discrimination Law Review and the terms of reference and list of the members of the Reference Group have been laid in the Libraries of the House.

We are currently recruiting a team to commence work on the review, which will be led by the Women and Equality Unit in the Department of Trade and Industry. The Women and Equality Unit will be working closely with the other key equality Departments, for example, DWP, Home Office and DCA.

We will consult as appropriate with relevant bodies and stakeholders on the very wide range of interests concerned throughout the review.

Energy White Paper

Norman Baker: To ask the Secretary of State for Trade and Industry what timescale he is applying to the review of the Energy White Paper, with particular reference to nuclear fission. [1501]

Malcolm Wicks: The Government remain committed to the framework for energy policy set out in the Energy White Paper in 2003. However, we keep progress towards our energy policy goals under review. One example is the Climate Change Programme Review, which is already showing that we will need to do more to reach our domestic goal for carbon reductions and we will be considering the options for correcting this shortfall.

The Energy White Paper set out our policy in relation to nuclear fission. It did not make proposals for building new nuclear power stations but did not rule out the possibility that at some point in the future new nuclear build might be necessary if we are to meet our carbon targets.

Paddy Tipping: To ask the Secretary of State for Trade and Industry when he expects to publish the annual review of the Energy White Paper. [1604]

Malcolm Wicks *[holding answer 7 June 2005]*: The Government expect to publish their second annual report on implementation of the Energy White Paper in the summer.

Exhibitions and Seminars Abroad Scheme

Mr. Salmond: To ask the Secretary of State for Trade and Industry what discussions he has had with *(a)* clothing manufacturers, *(b)* clothing exporters, *(c)* the Scottish Executive and *(d)* Scottish Enterprise regarding UK small and medium enterprises participating in exhibitions and missions in export markets under the Support for Exhibitions and Seminars Abroad Scheme; and if he will make a statement. [1181]

Ian Pearson: UK Trade and Investment has had discussions on the future of exhibition support with representatives of the clothing and many other sectors and with Scottish Development International. Their views are being taken into account in work on the revision of the scheme.

Export Control Organisation

Lynne Jones: To ask the Secretary of State for Trade and Industry when he expects to make an announcement on the future of the Export Control Organisation. [2333]

Malcolm Wicks: The matter is still under consideration. An announcement will be made as soon as practicable.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what *(a)* information and *(b)* training the Export Control Organisation has provided for UK defence exporters concerning bribery and corruption. [2344]

Malcolm Wicks: None. Awareness activities on this subject are carried out by other branches of Government.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry whether companies applying for a licence to the Export Control Organisation are required to provide details of agent's commission that will be paid on the contract for which a licence is sought. [2555]

Malcolm Wicks: No. DTI requires information relating only to the potential export.

Export Credits Guarantee Department

Mr. Arbuthnot: To ask the Secretary of State for Trade and Industry when the Export Credits Guarantee Department Pilot Trading Fund was launched; what reviews of the Pilot Fund will be undertaken; and if he will make a statement. [2655]

Ian Pearson *[holding answer 9 June 2005]*: The Export Credits Guarantee Department's (ECGD's) Pilot Trading Fund was launched on 4 April 2005.

The Secretary of State will consider the suitability of trading fund status as a means of financing ECGD's operations, taking into account a review of the experience gained operating as a pilot trading fund, including ECGD's performance against statutory requirements, and the results of a formal public consultation.

If a decision is taken for ECGD to move to a statutory trading fund, a Trading Fund Order will be laid before the House in 2007.

Mr. Arbuthnot: To ask the Secretary of State for Trade and Industry how many submissions have been provided to the consultation on Export Credits Guarantee Department anti-bribery and corruption procedures since December 2004; and if he will make a statement. [2656]

Ian Pearson *[holding answer 9 June 2005]:* One written and two oral (to be followed by written) representations have thus far been received. The consultation closes on 18 June 2005.

Mr. Arbuthnot: To ask the Secretary of State for Trade and Industry how much in costs he estimates will be paid to the plaintiffs, the Corner House, in respect of his Department's settlement of the case relating to consultation on Export Credit's Guarantee Department forms. [2811]

Ian Pearson *[holding answer 9 June 2005]:* ECGD has not at the present time reached agreement with the Corner House as to the amounts claimed.

Fuel Poverty (Yorkshire)

David Davis: To ask the Secretary of State for Trade and Industry how many *(a)* children and *(b)* elderly people were living in fuel poor households in the East Riding of Yorkshire in each of the past five years. [3588]

Alun Michael: Fuel poverty statistics are only available at Government office region level. Latest available figures are sourced from the 2001 English House Condition Survey and show that in 2001, 238,000 households in Yorkshire (11 per cent. of all households in Yorkshire) were in fuel poverty. This statistic cannot be broken down further.

In England as a whole in 2001, 210,000 households with children were in fuel poverty (3 per cent. of all households with children), while 904,000 households with someone over 60 were in fuel poverty (15 per cent. of all households with someone over 60).

Statistics giving information for 2003 will be published in the Third Annual Progress Report on the Fuel Poverty Strategy. This information is not available for any other of the past five years.

Inward Investment

Kate Hoey: To ask the Secretary of State for Trade and Industry what proportion of inward investment within the EU has been received by *(a)* the UK, *(b)* France and *(c)* Germany in each of the last five years. [1644]

Ian Pearson: The latest figures available for the proportion of inward investment within the EU that has been received by *(a)* the UK, *(b)* France and *(c)* Germany is shown in the tables.

Foreign direct investment inward stock by host economy

US$ millions

	1999	*2000*	*2001*	*2002*	*2003*
European Union Total	1,806,817	2,257,701	2,441,449	2,899,795	3,335,454
France	244,667	259,775	295,311	386,540	433,521
Germany	299,705	470,933	424,304	531,738	544,604
United Kingdom	385,146	438,631	506,686	568,260	672,015

Percentage share of EU total

	1999	*2000*	*2001*	*2002*	*2003*
European Union Total	100.0	100.0	100.0	100.0	100.0
France	13.5	11.5	12.1	13.3	13.0
Germany	16.6	20.9	17.4	18.3	16.3
United Kingdom	21.3	19.4	20.8	19.6	20.1

Note:
Data includes EU intra investment sourced from UNCTAD world investment report 2004.

Manufacturing

Mr. Amess: To ask the Secretary of State for Trade and Industry if he will make a statement on manufacturing output. [1855]

Alun Michael: Manufacturing output increased by 0.9 per cent. between March and April but declined by 1.4 per cent. on the three-month moving average and by 0.7 per cent. in the three months to April compared with the same period last year. It is important to recognise that manufacturing output data can be volatile, and prone to large revisions over time. Almost all the major independent forecasters are forecasting that output will grow in 2005 for the third successive year.

Manufacturing remains vital to the UK economy, and the Government want a successful manufacturing sector producing high value-added products. We are committed to providing the right support through the manufacturing strategy, which sets out an action plan to develop the sector and help more and more companies make the transition to high value manufacturing.

National Power Provision

David Davis: To ask the Secretary of State for Trade and Industry whether he has received from Yorkshire Electricity Distribution Limited the information concerning power cuts in the East Riding of Yorkshire referred to in his answer of 30 January 2004, *Official Report*, columns 589–90W. [3236]

Malcolm Wicks: Yorkshire Electricity Distribution Limited have advised the following numbers of power failures in the areas indicated in each of the five years ending 2003.

Area	1999	2000	2001	2002	2003
Howden	15	13	11	18	10
Analby/Kirkella/Willerby	42	43	34	19	17
South Cave/North Cave	13	18	18	12	21
Cottingham	34	29	16	16	22
Eastrington	3	9	6	10	19
Brough	25	19	12	4	2
North Ferriby/Swanland	10	7	12	8	6
Holme on Spalding Moor	11	8	16	15	7

Natural Gas

Mr. Hancock: To ask the Secretary of State for Trade and Industry what his policy is for protecting natural gas supplies being imported into the UK from the *(a)* former Soviet Union and *(b)* Middle East up to 2020. [2978]

Malcolm Wicks: As set out in the White Paper "Our Energy Future—creating a low carbon economy" published in February 2003, the Government believes that allowing the free operation of a competitive UK market, within an appropriate regulatory framework, is the most efficient way to ensure security of gas supply. Commercial operators have every incentive to ensure diverse sources of gas, supply routes and entry points so as to reduce the risks arising from supply interruption from any one source. The current UK gas market arrangements are already delivering a number of competing gas import projects, potentially delivering gas from such diverse sources as Norway, Belgium, the Netherlands, Russia, Algeria, Qatar, and other Liquefied Natural Gas exporters.

We also engage with key producers, both bilaterally and multilaterally, including those in the middle east and the former Soviet Union. For example, the EU-Russia Energy Dialogue encompasses discussion across all energy sectors. We believe that action with Russia to improve energy efficiency in both extraction and use of energy could have a major impact on the amount of oil and gas available for export. This would benefit the EU's security of supply but would also have a very positive effect on the Russian economy and environment. During our EU presidency we aim to re-invigorate the EU-Russia Energy Dialogue to promote investment energy efficiency, network development and energy trade.

An important part of our engagement with energy producing and transit countries is through the multilateral Energy Charter Treaty (ECT), which promotes the rule of law in energy trade, investment and transit between its contracting parties and thereby improves security of energy supply. ECT signatories comprise all of Europe, all the former Soviet Union and others. Since 1999 members have been negotiating a Protocol intended to supplement existing ECT provisions on energy transit by offering negotiated access to pipelines and grids. However, differences between the EU and Russia on key outstanding issues have prevented the Transit Protocol from being concluded. As part of our EU presidency union, the UK will work closely with all relevant parties to try to conclude the Transit Protocol negotiations, although success remains dependent on the EU and Russia being able to resolve their differences.

Mr. Hancock: To ask the Secretary of State for Trade and Industry what percentage of the UK's energy needs are met by natural gas; and what the forecast is for *(a)* 2010 and *(b)* 2020. [2979]

Malcolm Wicks: Forty one per cent of the UK's energy needs in 2004 were met by natural gas. According to the latest energy projections, the corresponding figures for 2010 and 2020 are 41 per cent. and 46 per cent. respectively.

Energy projections are available at the following websites: http://www.dti.gov.uk/energy/sepn/uep2004.pdf which provides detailed estimates to 2010 and http://www.dti.gov.uk/energy/sepn/uep_addendum.pdf which provides an overview of projections to 2020.

Mr. Hancock: To ask the Secretary of State for Trade and Industry from where he expects natural gas used in the UK to be sourced in *(a)* 2010 and *(b)* 2020; and in what quantities. [2980]

Malcolm Wicks: As set out in the White Paper "Our Energy Future—creating a low carbon economy" published in February 2003, the Government believe that allowing the free operation of a competitive UK market, within an appropriate regulatory framework, is the most efficient way to ensure security of gas supply. Commercial operators have every incentive to ensure diverse sources of gas, supply routes and entry points so as to reduce the risks arising from supply interruption from any one source. The current UK gas market arrangements are already delivering a number of competing gas import projects, potentially delivering gas from such diverse sources as Norway, Belgium, the Netherlands, Russia, Algeria, Qatar, and other Liquefied Natural Gas exporters.

The latest Joint Energy Security of Supply report, published in November 2004, gives DTI's forecast of UK gas demand for 2004–13. Forecast demand in 2010 and 2013 is 94 billion cubic metres (bcm) and 98 bcm respectively (net of producers' own use). There are existing import facilities into the UK from Norway and via the UK-Belguim Interconnector, and the report notes that perhaps 40 per cent. of UK demand might be met by imports in 2010 and 80 per cent. in 2020. It also records the capacities of the publicly announced proposed new import facilities for the UK. These are expected to be in place before 2010.

Project	Estimated annual capacity in bcm
Langeled South Pipeline (Lange Gas field development in Norway)	25
Statfjord Late Life	5
Compressors at Zeebrugge in Belgium to increase import capacity into the UK	15
Interconnector from Balgzand (Netherlands) to Bacton	17
Isle of Grain liquefied natural gas (LNG) import facility	14
Milford Haven LNG import facility (1)	6
Milford Haven LNG import facility (2)	10

This report can be found at http://www.dti.gov.uk/energy/jess/jessreport5.pdf.

Where the gas actually flows from will be a reflection of commercial decisions.

Nuclear Industry

Lynne Jones: To ask the Secretary of State for Trade and Industry what estimate he has made of the future costs of ensuring the secure status of *(a)* nuclear installations to the end of their decommissioning and *(b)* nuclear materials until they are no longer useable in a malevolent fashion; and what measures have been put in place to ensure such future security. [2082]

Malcolm Wicks: Security measures are the responsibility of those licensed to run nuclear installations. The licensees bear the cost of these security measures. For those sites for which the Nuclear Decommissioning Agency is responsible, these costs are included in the lifecycle baselines prepared by each site. These are updated annually and summaries posted on the NDA website. The 2005 summaries will appear on the website in November. Security is regulated under the Nuclear Installations Security Regulations 2003 (NISR2003), implemented by the Office for Civil Nuclear Security; the Security Regulator. NISR2003 will cease to apply, and cease to be appropriately enforced, only when an installation no longer requires to be licensed. In practical terms this means that strict security compliance will be required for the lifetime of each nuclear installation. As to what measures are in place, it is not Government policy to discuss the details of security measures at nuclear installations, as this information could potentially be of use to terrorists.

Norman Baker: To ask the Secretary of State for Trade and Industry (1) whether it is his policy that all existing nuclear sites should be fully cleaned up to a standard allowing unrestricted use when they cease to be used for operational purposes; [1486]

(2) whether it is his policy that the clean-up of nuclear sites should always follow the Best Practicable Environmental Option. [1487]

Malcolm Wicks: The Department published a statement of the UK Government and devolved Administration's policy on the decommissioning of all nuclear facilities in September 2004. The document: "The Decommissioning of the UK Nuclear Industry's Facilities" is available on the Department's website (dti.gov.uk). The statement covers all aspects of decommissioning operations and strategies and the need to consider the applicability of the Best Practicable Environmental Option to sites as part of the decommissioning process.

Private finance projects

Mr. Philip Hammond: To ask the Secretary of State for Trade and Industry if he will list the Private Finance Initiative and Public Private Partnership projects his Department is undertaking; and what the status of each is. [2374]

Alan Johnson: The Department has two PFI/PPP contracts. They are *(a)* the provision of IT services within the Department (ELGAR) running until 2013/2014 and *(b)* Constructionline which provides information on approved contractors within the construction industry. There are no further planned PFI/PPP projects.

Royal Mail Services

David Davis: To ask the Secretary of State for Trade and Industry what percentage of first class letters posted in the East Riding of Yorkshire met Royal Mail's online delivery target in the last year for which figures are available. [3590]

Barry Gardiner: This is an operational matter for Royal Mail. The chief executive has been asked to reply direct to the hon. Member.

Mr. Weir: To ask the Secretary of State for Trade and Industry what discussions he has had with Royal Mail on the future of the universal service obligation following Postcomm's recommendations on the future cost of first class post. [3090]

Barry Gardiner: DTI Ministers and officials meet with representatives from Royal Mail on a regular basis to discuss a wide range of issues, including regulatory issues.

Maintenance of the universal postal service is the primary statutory duty of Postcomm.

Strategic Petroleum and Oil Reserves

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what estimate he has made of the number of days of strategic reserves of *(a)* petroleum and *(b)* oil held; how this estimate was calculated; and if he will make a statement. [2660]

Malcolm Wicks: The Department of Trade and Industry collects monthly oil stocks directly from the UK oil industry. At the end of March 2005 the UK held oil stocks equivalent to 84 days of the previous year's consumption. Of this 84 days, 45 days were held in the form of crude oil and feedstocks, and 39 days in the form of finished products.

The Department publishes levels of oil stocks quarterly in its publication Energy Trends. These are available in the Libraries of the House and the next edition with the March data will be published on 30 June 2005.

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what meetings were held in his Department during the period Parliament was dissolved concerning the security of supply of road fuels and strategic reserves; and if he will publish the minutes of those meetings. [2661]

Malcolm Wicks: DTI officials often meet to discuss the supply of road fuels and strategic reserves as part of prudent contingency planning. No formal meetings at which minutes were taken were held in the Department during the period in question.

Thorp Plant

Norman Baker: To ask the Secretary of State for Trade and Industry if he will make a statement on the circumstances which led to the recent leak of radioactive material from a pipe at the Thorp plant. [3276]

Malcolm Wicks: I refer the hon. Member to the answer given to the hon. Member for North Essex (Mr. Jenkin), on 9 June 2005, *Official Report*, column 646–47W.

UK Presidency (EU)

Kate Hoey: To ask the Secretary of State for Trade and Industry what communication activities are planned in relation to the policy areas covered by his Department during the UK Presidency of the EU; and what budget has been allocated for these activities. [1647]

Alan Johnson: The Department of Trade and Industry's work on communications during the UK Presidency is as a part of a centrally run exercise by the Foreign and Commonwealth Office. No separate Departmental budget has therefore been allocated for these activities.

Wind Farms

Mr. Soames: To ask the Secretary of State for Trade and Industry what subsidies the Government make available for wind farms; and according to what criteria they are given. [2651]

Malcolm Wicks *[holding answer 9 June 2005]*: The Government's main instrument for supporting the establishment of wind farms is the renewables obligation. The obligation is a market based support mechanism that requires licensed electricity suppliers to provide a specified and growing proportion of their electricity from renewable sources eligible under the obligation. Wind farms are one of the technologies supported under the obligation. This provides an assured market for renewable electricity and ensures that it attracts a premium.

To date, the Government have committed £117 million in grant support towards the capital installation of early offshore wind farm development. No direct grant support is provided for onshore wind farm development except for some small household or community installations under the clear skies scheme.

The criteria for determining eligibility for the last round of capital grants for offshore wind projects can be found at: http://www.dti.gov.uk/renewables/business_pdfs/guidancenotes.pdf.

PRIME MINISTER

Cabinet Committee on UK-US Relations

Norman Baker: To ask the Prime Minister for what reason the Cabinet Committee on UK-US relations has been abolished; what representations he received on this matter from the US authorities; and which other committees are now undertaking the work previously dealt with under the auspices of the committee. [3280]

The Prime Minister: I refer the hon. Member to the Written Ministerial Statement on Ministerial Committees of the Cabinet I made on 24 May 2005, *Official Report*, column 12WS.

The Defence and Overseas Policy Cabinet Committee will discuss UK-US relations as appropriate. I have received no representations on this matter from the US authorities.

Prime Ministerial Visits

Mr. Carmichael: To ask the Prime Minister when a serving British Prime Minister last visited *(a)* Orkney and *(b)* Shetland. [3034]

The Prime Minister: Regrettably, I have been unable to visit the Orkney and Shetlands islands. My office does not hold information on visits made by previous Prime Ministers.

WORK AND PENSIONS

Employment Rate

Mr. Laws: To ask the Secretary of State for Work and Pensions (1) if he will make a statement on the employment rate in the United Kingdom; and what steps he is taking to increase it; [815]

(2) on what basis his Department set a target employment rate of 80 per cent. for the UK; by what date he expects this target to be reached; and if he will make a statement. [816]

Margaret Hodge: The current employment rate of 74.9 per cent. is the highest in the G7 major industrialised countries and the fourth highest in the EU (behind Netherlands, Denmark and Sweden).

Our long-term aim, as set out in DWP's five-year strategy, is to achieve an employment rate equivalent of 80 per cent. of the working age population. The realisation of this aim will require continued macroeconomic stability and further radical welfare reform to build on the success that has already been achieved through the new deal, Jobcentre Plus and the Pathways to Work pilots.

We decided on the long-term aim of an employment rate equivalent to 80 per cent. by considering historical and international trends in key labour market variables. Then we made a judgment, based on the success so far of our economic and labour market policies. Our judgment reflects our ambition for continuing economic growth and prosperity for the country and opportunity and inclusion for individual citizens.

Motability Scheme

Miss Kirkbride: To ask the Secretary of State for Work and Pensions how many and what type of cars were bought by the Government's Motability scheme in each year since 2000. [735]

Mrs. McGuire: The operation of the Motability scheme, which is an independent not-for-profit charity, is a matter for the board of governors of Motability and not the Government.

Motability customers are free to choose the type of car they have from the scheme. The number and types of cars selected by Motability customers in each year from 2000 and 2004 are shown in the following table.

Manufacturer	*2000*	*2001*	*2002*	*2003*	*2004*
Aixam	—	—	33	66	29
Audi	17	9	—	3	3
BMW	5	—	—	6	9
Chevrolet	3,673	67	2	916	1,674
Chrysler	—	3	38	64	202
Citroen	4,164	15,982	11,829	9,689	15,360
Daihatsu	479	36	107	98	36
Fiat	3,354	2,371	2,002	2,475	3,161
Ford	30,470	30,527	29,174	33,668	38,715
Honda	3,150	402	329	446	1,386
Hyundai	1,222	772	323	366	861
Kia	506	33	71	271	874
Land Rover	1,155	588	319	322	662
Mazda	1,348	66	128	160	1,425
Mercedes	133	981	2,002	4,222	1,608
Mitsubishi	601	14	50	106	89
Nissan	4,983	6,644	10,106	6,046	12,341
Other	757	917	1,454	1,923	1,692
Peugeot	14,257	13,034	13,159	13,514	8,067
Proton	33	28	85	100	—
Renault	16,052	17,216	16,248	12,651	22,838
Rover	4,874	2,979	2,202	2,054	2,606
Saab	5	4	12	6	1
Seat	240	6	6	37	17
Skoda	698	87	48	77	56
Smart	31	74	197	424	36
Suzuki	893	123	175	508	316

Volkswagen	5,020	7,862	5,238	4,950	8,052
Volvo	5	12	33	37	32
Total	142,453	139,313	139,725	139,174	171,638

Pension Age

Mr. Donaldson: To ask the Secretary of State for Work and Pensions what plans he has to extend the retirement age for the basic state pension to 70 years for persons employed in certain professions; and if he will make a statement. [3862]

Mr. Timms: We have no such plans.

Turner and Newall

Mr. Donohoe: To ask the Secretary of State for Work and Pensions what steps the Government are taking to help those people who paid into the Turner and Newall pension fund; whether the Government are considering setting up a compensation scheme; and if he will make a statement. [3649]

Mr. Timms: The Government have established the Pension Protection Fund (PPF) to protect members of defined benefit schemes by paying compensation if their employer becomes insolvent and the pension scheme is under funded. The PPF became operational on 6 April this year and, after this date, when a sponsoring employer of an eligible pension scheme has an insolvency event the PPF will step in and ensure that members receive a meaningful level of income in retirement.

For eligible schemes not already in wind up before 6 April, but where the employer was in insolvency proceedings prior to this date, entry to the PPF may be possible where a further insolvency event occurs after 6 April 2005. This would require a new qualifying insolvency event to take place (for example an order for the winding-up of a company being made by the court).

Members of the Turner and Newall pension fund may well benefit from the Pension Protection Fund in due course, if the eligibility criteria were met.

NORTHERN IRELAND

A and E Staff

Lady Hermon: To ask the Secretary of State for Northern Ireland how many days sick leave were taken by staff in each accident and emergency department in Northern Ireland in each of the last three years for which figures are available. [3489]

Mr. Woodward: The information requested is set out in the following table.

Trust	Sick days 2002-03	2003-04	2004-05
Altnagelvin HSS Trust	305	403	991
Belfast City Hospital HSS Trust	1,502.2	1,943.1	1,307.0
Causeway HSS Trust	1,006.8	1,316.4	919.7
Craigavon Area Hospital HSS Trust	873.4	968.6	1,189.8
Minor injuries unit, South Tyrone Hospital	126.5	298.7	436.2
Down Lisburn HSS Trust comprising			
(1) Lagan Valley Hospital	242	160	218
(2) Downe Hospital	242	188	218
Mater HSS Trust	Figures not available at present Due to change in monitoring system, not possible to capture the information at this time.	371	562.6
Royal Group of Hospitals HSS Trust		807.4	514.1
Sperrin Lakeland HSS Trust comprising			
(1) Erne Hospital	188.8	97.9	343
(2) Tyrone County Hospital	353.1	128.5	96
Ulster Community and Hospitals HSS Trust	724.40	837.70	1,115.10
United Hospitals HSS Trust comprising			
(1) Antrim Area Hospital	1,141	767	680
(2) Mid Ulster Hospital	338	341	173
(3) Whiteabbey Hospital	55	61	195

Information was not available from Newry and Mourne HSS Trust.

The Department keeps absenteeism under careful review. Targets have been set for Trusts to reduce their levels of sick absence.

Belfast Education and Library Board

Sammy Wilson: To ask the Secretary of State for Northern Ireland whether his Department has completed its investigation into allegations of fraud in building maintenance in the Belfast Education and Library Board; and if he will make a statement. [2782]

Angela E. Smith: The Department has not yet completed the investigation into allegations of fraud in building maintenance within the Belfast Education and Library Board. As this is a current investigation it would not be appropriate to comment further at this stage.

Clostridium Difficile

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many cases of clostridium difficile were reported to his Department under the voluntary reporting scheme in each year between 2000 and 2003; and if he will make a statement. [3799]

Mr. Woodward: From 2000 to 2003, under the voluntary reporting scheme the annual total number of laboratory reports of clostridium difficile toxin (all specimen types) collated by the Communicable Disease Surveillance Centre (Northern Ireland) was:

	Number of clostridium difficile toxin
2000	718
2001	662
2002	924
2003	1,015

Since 1 January 2005, the Department of Health, Social Services and Public Safety has made reporting of clostridium difficile mandatory.

Education Maintenance Allowance

Lady Hermon: To ask the Secretary of State for Northern Ireland what plans he has to extend the education maintenance allowance scheme to Northern Ireland. [3507]

Angela E. Smith: The education maintenance allowance scheme was introduced in Northern Ireland in September 2004, to eligible 16-year-olds, in line with the rest of the United Kingdom.

Information Leaks

Lady Hermon: To ask the Secretary of State for Northern Ireland what progress has been made in identifying the source of the leak within the Police Service of Northern Ireland or the Police Ombudsman's office to the Press Association in December 2004 in relation to the case communicated to him on 31 January. [3513]

Mr. Woodward: I refer the hon. Lady to the letter from my hon. Friend the Member for Dudley, South (Mr. Pearson) of 23 February 2005 in reply to her correspondence of 31 January 2005 on this matter.

Liver Transplants

Lady Hermon: To ask the Secretary of State for Northern Ireland how many people were waiting for a liver transplant in Northern Ireland on the latest date for which figures are available. [3472]

Mr. Woodward: At 3 November 2004, there were nine patients in Northern Ireland awaiting a liver transplant.

NHS Dentistry

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many dentists based in Northern Ireland commenced practice within the NHS during 2004. [2801]

Mr. Woodward: At December 2004 there were 67 dentists that were registered for providing General Dental Services in Northern Ireland who were not registered a year earlier. This figure will include dentists who have qualified during that year; dentists who have returned to work after a career break and other dentists who have began practicing here.

Northern Ireland Tourist Board

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the total Northern Ireland Tourist Board investment in each Northern Ireland parliamentary constituency was in each of the last five years. [2340]

Angela E. Smith: The information requested is set out at table A. In addition to this, table B details a number of payments issued by the Northern Ireland Tourist Board (NITB) to various groups throughout the last five years. This data is not available on a parliamentary constituency basis as the initiatives funded were across all constituencies in Northern Ireland.

Financial assistance was provided to accommodation projects by the NITB until March 2002; however since April 2002 this assistance has been administered through Invest NI.

Table A: Financial assistance paid to all tourism projects by constituency

£

Constituency	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*Total*

31 March 2005	1,655,102.57
Total	7,776,524.43

Killyleagh High School

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will assess the merits of demolishing the former High School in Killyleagh; and if he will make a statement. [2349]

Angela E. Smith: The South Eastern Education and Library Board has decided to demolish the structure and as is usual in such cases has applied for planning permission for a variety of uses for the site. Tenders have already been sought for the demolition and they are due with the Board by 17 June. Once a decision on planning permission has been obtained, the building will be demolished.

Osteoporosis

Lady Hermon: To ask the Secretary of State for Northern Ireland what steps he is taking to raise awareness of osteoporosis in Northern Ireland; and how much funding has been directed towards its treatment in the last five years for which figures are available. [3491]

Mr. Woodward: The Department of Health, Social Services and Public Safety is raising awareness of osteoporosis through a range of strategies and action plans designed to encourage regular exercise, a balanced diet, smoking prevention/cessation and a responsible approach to alcohol consumption.

In addition to lifestyle changes, there are a number of interventions, including medicines, used to prevent and treat osteoporosis. The choice of intervention is a matter for clinical judgment, having taken account of the evidence of effectiveness, clinical circumstances and the views expressed by the individual patient. The total cost of these interventions, including fracture treatment, is not available. However, data is available on the costs associated with medicines dispensed by community pharmacists for both the prevention and treatment of osteoporosis. The position for the years 2000 to 2004 is set out in the following table.

£000

	Ingredient cost
2000	1,571
2001	2,183
2002	3,189
2003	4,526
2004	5,838
Total	17,307

Out-of-school Clubs

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the effect of the withdrawal of EU funding for out-of-school clubs in vulnerable and chronically deprived areas of Northern Ireland on working parents; and if he will make a statement. [2592]

Angela E. Smith: The PEACE II Programme was originally intended to end in 2004. All projects were assisted on a time limited basis and as such no European funding has been withdrawn. We are pleased that an extension to PEACE II has been secured and that its wider work can continue. Further funding is now available to play care clubs and will be administered jointly by the Training for Women Network and Playboard. However, as the resources available annually are approximately half previous levels, there are inevitably limits on the number of activities that can be assisted.

The Department of Education has not provided support for out of school hours learning (OOSHL) from EU funding but in recent years did promote the New Opportunity Fund's (NOF) Out Of School Hours Learning (OOSL) programme to schools locally until the programme ended last year.

Overhead Power Lines

Lady Hermon: To ask the Secretary of State for Northern Ireland what evidence he has assessed of the possible risk of developing leukaemia to children living close to overhead power lines. [3619]

Mr. Woodward: The Department of Health's Radiation Protection Research Programme has funded Dr. Gerald Draper of Oxford University's Childhood Cancer Research Group to investigate the incidence of childhood cancer near power lines. The results of the first phase of this study were published in the British Medical Journal on Friday 3 June. The Health Protection Agency posted a considered response to the publication on its website, www.hpa.org.uk.

The research so far shows a statistical link between electronic fields (EMFs) and increased cases of childhood leukaemia. At this stage, research has not proved that power lines cause leukaemia in children. The Stakeholder Advisory Group on EMFs, which was set up to consider the need for precautionary measures in relation to EMFs, will address and take into account the findings of Dr. Draper's research so far.

Police Service (Text Messaging)

Lady Hermon: To ask the Secretary of State for Northern Ireland how many people he estimates will

register for the Police Service of Northern Ireland text messaging service enabling people with hearing or speech problems to contact the emergency services using mobile phones. [3519]

Mr. Woodward: The Police Service of Northern Ireland has informed me that the scheme is still in the very early stages of development. It is too early to know how many people will register for the service but it is hoped that as many people as possible will do so.

Prescriptions

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many prescriptions were issued in Northern Ireland in each of the last five years; and what proportion of those did not require payment by the recipient. [2800]

Mr. Woodward: The information requested is not collected in the form requested.

The total number of prescription items dispensed, and the number for which the full prescription charge was paid, in each of the last five calendar years is given in the following table. Based upon sample analyses, it is estimated that a further 5 per cent. of prescription items are partly paid for by pre-payment certificates (PPCs), which allow the patient to obtain as many prescription items as necessary during the four or 12-month validity of the certificate for a set fee. Consequently, about 89 per cent. of health service prescription items are dispensed free of charge to patients. Estimated figures for the latter two categories are calculated as follows:

	Total items	*Charge paid*	*Estimated 5 per cent. PPCs*	*Estimated 89 per cent. free*
2000	23,663,632	1,409,347	1,183,182	21,071,104
2001	24,551,125	1,472,666	1,227,556	21,850,903
2002	25,419,957	1,545,007	1,270,998	22,603,952
2003	26,399,016	1,553,759	1,319,951	23,525,306
2004	27,318,349	1,581,093	1,365,917	24,371,339

Prison Service

Lady Hermon: To ask the Secretary of State for Northern Ireland what steps he is taking to increase representation of the *(a)* Roman Catholic and *(b)* ethnic minority communities within the Northern Ireland Prison Service. [3517]

Mr. Woodward: Over recent years the Northern Ireland Prison Service has reduced staffing levels after the closure of Belfast and Maze prisons. There have been no major recruitment campaigns to affect the composition of the service.

The Northern Ireland Prison Service did however recruit Night Custody Officers last year. The Service specifically encouraged Roman Catholics and women to apply in the job advertisements which read as follows:

"The Northern Ireland Prison Service is committed to equality of opportunity in employment. All applications for employment will be considered strictly on the basis of merit.

The Service welcomes applications from all suitably qualified applicants irrespective of religious belief, gender, race, political opinion, age, marital status, sexual orientation or whether or not they have dependants. As Roman Catholics and women are currently known to be under-represented in the Northern Ireland Prison Service, applications from the Roman Catholic section of the community and from women would be particularly welcome".

The Northern Ireland Prison Service has also put in place an outreach programme aimed at young people from the under-represented communities, including ethnic minorities, with the aim of encouraging applications for future vacancies.

Seat Belts

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland whether he plans to implement a policy of installing seat belts on all buses used to transport children to and from schools in Northern Ireland. [2808]

Angela E. Smith: The Department of the Environment is currently considering in detail the implications of implementing such a policy in its assessment of the four key recommendations of the Northern Ireland Assembly's home to school transport public inquiry. It is expected that the findings of this work, which is being carried in partnership with the Department for Regional Development and the Department of Education, will be published for consultation later this year.

Education and Library Boards have been working towards the goal of providing seat belts on all their vehicles—at current rates this will take at least six years. To date, seat belts have been fitted on 63 per cent. of their vehicles.

Tunes Plateau

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what stage has been reached in the consultation process over the proposed siting of the offshore wind farm at Tunes Plateau, Northern Ireland. [2809]

Angela E. Smith: The project remains at feasibility stage. The statutory consultation process has not yet commenced as the developers have not submitted the evaluation of environmental impacts necessary to support an application for a marine construction licence, or consent to build as required under Article 39 of the Electricity (Northern Ireland) Order 1992.

HEALTH

Anti-TNFa

Tim Farron: To ask the Secretary of State for Health what plans she has to ensure that the guidance from the National Institute for Clinical Excellence instructing health care trusts to provide anti-TNFa intervention to those patients with rheumatoid arthritis who qualify is followed by trusts. [3406]

Mr. Byrne: It is the responsibility of individual strategic health authorities to ensure local compliance

with clinical guidelines issued by the National Institute for Health and Clinical Excellence.

Arthritis

Mr. Drew: To ask the Secretary of State for Health if she will make a statement on availability of drugs to treat arthritis. [3059]

Mr. Byrne: There is a wide range of over-the-counter and prescription drugs available to help relieve pain and discomfort and reduce the future damage associated with the 200 different forms of arthritis.

Asthma

Sarah Teather: To ask the Secretary of State for Health how many *(a)* adults and *(b)* children have been recorded as suffering from asthma in (i) Brent East and (ii) each London borough in each year since 1997. [2514]

Jane Kennedy: This data is not available in the format requested.

However, information on the numbers of adults and children recorded as suffering from asthma in London is recorded by London local authority of residence. This data is shown in the table for the years 1997–98 to 2003–04.

Primary diagnosis asthma (ICD-10 codes J45-J46)—finished admission episodes. London local authority of residence—national health service hospitals, England 1997–98 to 2003–04

Barnet Hospital

Mr. Dismore: To ask the Secretary of State for Health what the performance against reference cost is for treatments at Barnet hospital. [3268]

Jane Kennedy: The overall reference cost index score for Barnet and Chase Farm National Health Service Trust, as reported in the reference costs 2004 collection for the financial year 2003–04, is 102.

This is after adjusting for the market forces factor and is the headline index. This effectively means that, overall, Barnet and Chase Farm NHS Trust was operating at levels approximately two per cent. higher than the national average costs for this financial period.

Cancer

Steve Webb: To ask the Secretary of State for Health (1) if she will make a statement on the implications of changes in the structure and funding of the National Institute for Clinical Excellence for the availability of new treatments for cancer patients; [2155]

(2) what the budget is for *(a)* (i) the National Institute for Clinical Excellence and (ii) the Health Protection Agency in 2004–05 and *(b)* the National Institute for Health and Clinical Excellence in 2005–06. [2156]

Jane Kennedy *[holding answer 8 June 2005]:* The internal structure of the National Institute for Health and Clinical Excellence (NICE) is a matter for NICE.

The National Institute for Clinical Excellence received an initial resource limit from the Department and the Welsh Assembly Government in 2004–05 of £19.3 million. The budget for the Health Protection Agency in 2004–05 was £136.7 million and the initial budget for the Health Development Agency (HDA) in 2004–05 was £12.9 million. The HDA merged with the National Institute for Clinical Excellence to form the National Institute for Health and Clinical Excellence from 1 April 2005. NICE'S initial funding for 2005–06 is £30.2 million. Figures include capital charges.

Central Middlesex Hospital

Sarah Teather: To ask the Secretary of State for Health how many patients were waiting to see a consultant at Central Middlesex hospital on *(a)* 1 May 1997, *(b)* 7 June 2001 and *(c)* the latest date for which figures are available. [2537]

Jane Kennedy: The information is not available in the format requested.

Table 1 shows the total number of patients waiting for inpatient admission to Central Middlesex and Northwick Park hospitals as at 31 March 1997. On 1 April 1999 these two hospitals merged to become North West London Hospitals NHS Trust. Therefore, since 1 April 1999, data has been collected at trust level.

Table 1: Number waiting for in-patient admission

	Central Middlesex hospital	*Northwick Park hospital*	*North West London Hospitals NHS Trust*	*Total*
31 March 1997	3,089	6,216	not applicable	9,305
31 May 2001	not applicable	not applicable	7,280	7,280
30 April 2005	not applicable	not applicable	7,637	17,637

Table 2 shows the number of patients waiting over 13 weeks for out-patient treatment.

Table 2. Number waiting over 13 weeks for out-patient treatment

	Central Middlesex hospital	*Northwick Park hospital*	*North West London Hospitals NHS Trust*	*Total*
31 March 1997	863	1,026	not applicable	1,889
31 May 2001	not applicable	not applicable	1779	1,779
30 April 2005	not applicable	not applicable	775	775

Clostridium Difficile

Mr. Lidington: To ask the Secretary of State for Health what the incidence of *Clostridium difficile* reported by each hospital trust has been in each month since the start of the mandatory reporting scheme. [3765]

Jane Kennedy: Data from the mandatory surveillance system for *Clostridium difficile* associated diarrhoea are not available yet and will be published this summer.

Mr. Lidington: To ask the Secretary of State for Health what guidance she has issued to hospital trusts on the *(a)* prevention and *(b)* eradication of *Clostridium difficile*. [3766]

Jane Kennedy: "*Clostridium difficile*: infection prevention and management" was issued to national health service hospital trusts in 1994 and includes advice on antibiotic policies arid isolating patients. Copies of the report are available in the Library.

Information on outbreak control is also included in the National *Clostridium difficile* standards group report to the Department, produced in 2003, available on the Health Protections Agency website at

www.hpa.org.uk/infections/topics_az/clostridium_difficile/FINALCdiffreport.pdf.

Copies have been placed in the Library.

Mr. Lidington: To ask the Secretary of State for Health how many cases of *Clostridium difficile* were reported to her Department under the voluntary reporting scheme in each year between 2000 and 2003; and if she will make a statement. [3798]

Jane Kennedy: Reports made under the Health Protection Agency's (HPA) voluntary reporting scheme are shown in the table. Further details are given in the report, Voluntary reporting of *Clostridium difficile*, England, Wales, and Northern Ireland: 2004, in Communicable Disease Report Weekly, volume 15, number 20, published in May 2005 on the HPA website at www.hpa.org.uk/cdr/pages/hcai.htm#clost.

Voluntary reports to HPA of Clostridium difficile infections diagnosed from faecal specimens for England, Wales and Northern Ireland

	Number of reports
2000[1]	[2]20,556
2001	[2]22,008
2002	[2]28,986
2003	[2]35,537

[1] Number of reports for England and Wales only.
[2] Provisional data.
Source:
HPA.

This article shows that it is hard to establish the true trend in infection rates, as reporting has increased over recent years. In order to find out the scale of the problem of *Clostridium difficile* associated diarrhoea, it was added to the mandatory surveillance system for healthcare associated infection in 2004. The first results will be published later this year.

GP Services (Hornsey and Wood Green)

Lynne Featherstone: To ask the Secretary of State for Health what her latest estimate is of the general practitioner to patient ratio in Hornsey and Wood Green; and if she will make a statement. [2888]

Jane Kennedy: There is no statutory general practitioner to patient ratio. Any individual is free to approach a GP practice near to where he/she is living and apply to join the practice's list of national health service patients.

The Department does not collect information on GP to patient ratios. However, the table shows the number of GPs per 100,000 patients in the Haringey Teaching Primary Care Trust (PCT) area.

General medical practitioners (excluding retainers and registrars)[1] per 100,000 patients for Haringey teaching PCT
As at 30 September 2004

Numbers (headcount)

	Haringey teaching PCT 5C9
General medical practitioners (excluding retainers and registrars)	148
Patients	284,093
General medical practitioners per 100,000 patients	52.1

[1] General medical practitioners (excluding retainers and registrars) includes contracted GPs, general medical service (GMS) others and personal medical service (PMS) others. Prior to September 2004, this group included GMS unrestricted principals, PMS contracted GPs, PMS salaried GPs, restricted principals, assistants, salaried doctors (Para 52 SFA), PMS other, flexible career scheme GPs and GP returners.

Source:
NHS health and social care information centre GMS and PMS statistics.

Dentistry

Mr. Laurence Robertson: To ask the Secretary of State for Health what inspections are made on the quality of NHS dental care; and if she will make a statement. [681]

Ms Rosie Winterton: The Dental Practice Board (DPB) for England and Wales is responsible for establishing the probity of payment claims for dentists working in the national health service general dental services and making payments to them for the work they have done. The DPB continually monitors dentists' prescribing patterns and activity and the quality of treatment provided through the dental reference service (DRS). The DRS of the DPB monitors the quality of dentists' work from a randomly selected sample of payment claims using questionnaires to patients, clinical record checks and treatment examinations. The form that patients sign at the dentist includes an agreement to attend an examination if requested. Adverse reports arising from the 55,000 random references are investigated and can be referred to the primary care trust for disciplinary action.

Health Care Associated Infections

Mr. Burstow: To ask the Secretary of State for Health what progress the Office for National Statistics has made in undertaking a qualitative study on the proportion of deaths which may be associated with healthcare associated infections; and what the timetable is for this work to be completed and published. [1563]

Jane Kennedy: This study consists of two main parts that are being taken forward separately. The Health Protection Agency and the Office for National Statistics are currently progressing the confidential study of healthcare associated infections (HCAI) related deaths. A separate quantitative analysis on the proportion of deaths which may be associated with HCAIs will start later in the year.

Hospital Cleanliness

Daniel Kawczynski: To ask the Secretary of State for Health what steps she has taken to improve the level of cleanliness on hospital wards. [3145]

Jane Kennedy: Since 2005, the Department has had a comprehensive and multi-faceted programme of work covering a wide range of issues, including:

Setting standards

Increased investment

Involving ward sisters and charge nurses

Inspecting hospitals

Awareness campaigns

Issuing guidance

In 2000, we introduced an annual programme of patient environment action team inspections. Then, around one third of hospitals were poor or unacceptable. Today, 98 per cent. of national health service trusts are rated as acceptable or better.

Illegal Meat

Andrew Rosindell: To ask the Secretary of State for Health what steps the Government are taking to tackle the sale of illegal meat unfit for human consumption in restaurants. [2952]

Caroline Flint: I refer the hon. Member to the reply I gave on 7 June 2005, *Official Report*, column 530W.

Infection Surveillance Data

Mr. Lansley: To ask the Secretary of State for Health when she expects to publish data collected under the mandatory surveillance system for *(a)* Clostridium-associated diarrhoea, *(b)* glycopeptide resistant enterococci and *(c)* orthopaedic surgical site infection; and whether she will be publishing this data for intervals of six months. [2277]

Jane Kennedy: Data from the mandatory surveillance system for *Clostridium difficile* associated diarrhoea and glycopeptide resistant enterococci will be available this

summer and information for orthopaedic surgical site infections will be published in the autumn. This data is likely to be published annually.

Intensive/Critical Care Beds

Ann Winterton: To ask the Secretary of State for Health (1) how many *(a)* intensive and *(b)* critical care beds are available per 100,000 population in England; and what evidence she has evaluated on numbers of such beds available in (i) Germany, (ii) France and (iii) the USA; [1347]

(2) what the cost of high dependency care was in each of the last three years in England; and what evidence she has evaluated on the level of such costs in *(a)* Germany, *(b)* France and *(c)* the USA. [1348]

Mr. Byrne: As of 13 January 2005, there were 6.4 adult critical care beds and 3.6 intensive care beds per 100,000 adult population in England. The Department does not have any comparable figures for Germany, France or the United States of America. National health service expenditure on intensive care and high dependency care beds is not separately identified from the annual financial returns of NHS providers, but the Government invested an additional £300 million in adult critical care services between 2000 and 2002, which is now incorporated in primary care trust baseline budgets.

Macular Degeneration

Mr. Drew: To ask the Secretary of State for Health how many patients were treated with photodynamic treatment for wet macular degeneration in *(a)* Gloucestershire and *(b)* England in the latest year for which figures are available. [2563]

Ms Rosie Winterton: In 2003–04, there were 3,418 finished admission episodes where the primary diagnosis was "degeneration of macular and posterior pole" and an operation was carried out in the national health service. For trusts in Gloucestershire, there were 37 finished admission episodes where the primary diagnosis was "degeneration of macular and posterior pole" and an operation was carried out in the NHS. The Department does not hold information on the use of photodynamic therapy in these treatments.

MRSA

Lady Hermon: To ask the Secretary of State for Health how many people have contracted the Panton-Valentine Leukocidin superbug in each of the last five years; and how many went on to make a full recovery. [2258]

Jane Kennedy: Panton-Valentine Leukocidin (PVL) producing "Staphylococcus aureus" is a rare infection; which is commonly associated with skin and soft tissue infections. The information requested is not available as not all "Staphylococcus aureus" isolates are tested for the presence of PVL.

Lady Hermon: To ask the Secretary of State for Health what steps she has taken to raise awareness of cases of the Panton-Valentine Leukocidin superbug among *(a)* the public and *(b)* doctors and other healthcare professionals. [2259]

Jane Kennedy: The Health Protection Agency has already published a number of articles for healthcare professionals to raise awareness of these infections and the Chief Medical Officer will be providing further guidance to raise awareness and promote good practice.

There are no plans for a specific public awareness campaign on Panton Valentine Leukocidin producing "Staphylococcus aureus".

Lynne Featherstone: To ask the Secretary of State for Health if she will make a statement on the incidence of MRSA in NHS hospitals. [2878]

Jane Kennedy: The mandatory surveillance system for health care associated infection started in April 2001 with the collection of meticillin-resistant Staphylococcus aureus (MRSA) blood stream infections data.

The latest data, for April to September 2004, shows a six per cent. drop on the corresponding period in 2003. More details can be found on the Department's website at www.dh.gov.uk/PublicationsAndStatistics/Publications/PublicationsStatistics/PublicationsStatisticsArticle/fs/en?CONTENT_ID=4085951&chk=HBt2QD.

NHS Continuing Care

Mr. Burstow: To ask the Secretary of State for Health (1) whether she expects the national framework on continuing care to contain national eligibility criteria for fully-funded NHS continuing care; [2928]

(2) when she expects to publish the response to the Health Committee report published in April on NHS continuing care; [2929]

(3) when she expects to publish the national framework on continuing care; [2930]

(4) how many cases related to retrospective continuing care assessments have been taken up by the Ombudsman at appeal; and how many of these were upheld. [2936]

Mr. Byrne: The Department is currently working closely with selected stakeholders to produce a national framework for the assessment of continuing care, due for publication in early 2006. This should result in national eligibility criteria and suitable assessment methodologies for access to national health service continuing care. I have received a number of representations about the development of a national framework, all of which will be taken into account in its development. In accordance with Cabinet Office guidelines, we will consult on the official guidance and any legislation required later this year. I expect to make a formal response to the Health Committee report on NHS continuing care before the summer recess.

Details of the review's progress were presented to the House in a written statement by my hon. Friend the Member for South Thanet (Dr. Ladyman) on 16 September 2004 *Official Report*, columns 175–77WS, of the 11,655 requests for investigations received by 31 March 2004, 86.1 per cent. had been investigated, with 1,796 being found eligible for recompense. No later data is available. The Department does not collect data about the number of people who subsequently took cases to the Health Ombudsman.

NHS Staff (London)

Sarah Teather: To ask the Secretary of State for Health how many *(a)* clinical and *(b)* non-clinical NHS staff were employed in (i) Brent and (ii) each London primary care trust in each year since 1997. [2496]

Jane Kennedy: The number of clinical and non-clinical national health service staff employed in each constituency and primary care trust is not collected centrally. However, data collected by strategic health authority for the years 1997 to 2004 is available and has been placed in the Library.

Sarah Teather: To ask the Secretary of State for Health how many NHS dental nurses there were in *(a)* Brent and *(b)* each London primary care trust in each year since 1997. [2497]

Ms Rosie Winterton: Most national health service dentistry is provided by self-employed dentists, who employ their own dental nurses. As a result, information is not held centrally on numbers of dental nurses working in dental practices providing general dental services under the NHS.

No Secrets Guidance

Mr. Burstow: To ask the Secretary of State for Health if she will list local authorities in England which have established *(a)* adult protection policies and *(b)* adult protection committees following publication of the No Secrets guidance. [2910]

Mr. Byrne: Information on which local authorities in England have established adult protection committees will be available from the Commission for Social Care Inspection later this year.

Obesity

Sarah Teather: To ask the Secretary of State for Health how many children were diagnosed as obese in each London borough in each of the last five years. [2487]

Jane Kennedy: Figures for the numbers of children diagnosed as obese in each London borough are not collected centrally. However, figures on the prevalence of obesity are available by Government office region from the Health Survey for England. This data is available in table 5 on the Department's website at www.dh.gov.uk/assetRoot/04/10/94/11/04109411.pdf.

Parliamentary Questions

David T.C. Davies: To ask the Secretary of State for Health when she expects to reply to the question tabled by the hon. Member for Monmouth for answer on 25 May, ref 1150. [3658]

Caroline Flint: A reply was sent to the hon. Member on Tuesday 7 June, *Official Report*, column 524W.

Pharmacies

Mr. Lansley: To ask the Secretary of State for Health what proportion of prescriptions in the United Kingdom are filled with a parallel traded product. [2287]

Jane Kennedy: The Department does not hold information on the proportion of prescriptions filled with a parallel imported medicine.

Sarah Teather: To ask the Secretary of State for Health how many pharmacies operated 24 hour services in each year since 1997 in *(a)* Brent East, *(b)* Brent and *(c)* each London primary care trust. [2529]

Jane Kennedy: Information on pharmacies operating 24 hour services is not collected centrally.

Sarah Teather: To ask the Secretary of State for Health how many pharmacies there were in each year since 1997 in *(a)* Brent East, *(b)* Brent and *(c)* each London primary care trust. [2530]

Jane Kennedy: Information on the number of community pharmacies by constituency is not collected centrally. However, information prior to 2002 is available by health authority (HA) and from 2002 by primary care trust (PCT). This data is shown in the tables.

Brent, East, Brent, North and Brent, South are currently served by Brent Teaching PCT, and were previously within Brent and Harrow HA. The remaining London PCTs sat in the following HAs.

Ealing, Hammersmith and Hounslow
Hillingdon
Kensington, Chelsea and Westminster
Barnet
Enfield and Haringey
Camden and Islington
Barking and Havering
East London and City
Redbridge and Waltham Forest
Bexley and Greenwich
Bromley
Lambeth, Southwark and Lewisham
Croydon
Kingston and Richmond
Merton, Sutton and Wandsworth

Table 1 shows the number of community pharmacies by HA prior to 2002. Table 2 shows the number of community pharmacies by PCT from 2002 onwards.

Table 1—By HA 1997 to 2002

	Number of community pharmacies				
HA	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*
Brent and Harrow	136	134	131	130	129
Ealing, Hammersmith and Hounslow	168	165	166	163	161
Hillingdon	63	62	62	62	62
Kensington, Chelsea and Westminster	152	152	150	148	148
Barnet	79	79	79	79	n/a
Enfield and Haringey	117	117	116	116	194
Camden and Islington	112	112	111	111	111
Barking and Havering	83	81	80	79	79

Table 1—By HA 1997 to 2002

HA	Number of community pharmacies 1997–98	1998–99	1999–2000	2000–01	2001–02
East London and City	169	169	169	167	166
Redbridge and Waltham Forest	109	109	109	108	108
Bexley and Greenwich	94	94	94	94	[2]151
Bromley	57	57	57	57	n/a
Lambeth, Southwark and Lewisham	178	176	176	174	174
Croydon	71	69	69	68	68
Kingston and Richmond	76	76	76	75	75
Merton, Sutton and Wandsworth	149	147	145	145	143

[1] Barnet merged with Enfield and Haringey HA to become a single HA
[2] Bromley merged with Bexley and Greenwich HA to become a single HA.

Table 2—By PCT 2002 to 2004

Primary care trust	Number of community pharmacies 2002–03	2003–04
Brent Teaching	71	71
Ealing	69	70
Hammersmith and Fulham	41	40
Harrow	57	57
Hillingdon	62	62
Hounslow	50	50
Kensington and Chelsea	41	41
Westminster	106	105
Barnet	78	79
Camden	63	63
Islington	47	47
Enfield	59	59
Haringey	57	56
Barking and Dagenham	36	35
City and Hackney	65	65
Chingford, Wanstead and Woodford	23	[1]n/a
Havering	43	43
Newham	60	60
Redbridge	39	50
Tower Hamlets	43	44
Walthamstow, Leyton and Leytonstone	46	[2]n/a
Waltham Forest	n/a	58
Bexley	47	46
Bromley	57	57
Greenwich	47	48
Lambeth	59	58
Lewisham	52	52
Southwark	63	63
Croydon	68	68
Kingston	29	29
Richmond and Twickenham	45	45
Sutton and Merton	77	77
Wandsworth	65	67

[1] Chingford, Wanstead and Woodford PCT no longer exists.
[2] Walthamstow, Leyton and Leytonstone PCT no longer exists.

Rheumatoid Arthritis

Lynne Featherstone: To ask the Secretary of State for Health if she will list the health *(a)* authorities and *(b)* trusts in England providing funding for anti-TNF therapy for people with rheumatoid arthritis; and if she will make a statement. [3072]

Mr. Byrne: The Department does not collect information on funding provided by strategic health authorities or primary care trusts for specific treatments.

Health bodies are obliged to fund, from general allocations, anti-TNF (tumour necrosis factor) treatment for those with severe rheumatoid arthritis who meet the clinical guidelines set by the National Institute for Health and Clinical Excellence.

Zoledronate

Mr. Lansley: To ask the Secretary of State for Health if she will make a statement on the availability of Zoledronate in the NHS to treat secondary bone cancer; and if she has plans to direct the National Institute for Health and Clinical Excellence to conduct an appraisal of the treatments available for the management of secondary bone cancer. [3447]

Ms Rosie Winterton: The number of prescriptions of Zoledronate (zoledronic acid) prescribed in the community in England since 2001 is shown in the table.

	Prescriptions
2001	6
2002	35
2003	232
2004	314

Information on the hospital prescribing of this drug is not collected centrally.

Zoledronic acid belongs to the class of drug known as bisphosphonates and is licensed in the United Kingdom for the prevention of skeletal related events in patients with advanced malignancies involving bone and for the treatment of tumour-induced hypercalcaemia.

There are no plans to ask NICE to conduct an appraisal of bisphosphonates more generally.

CABINET OFFICE

E-Government (East Yorkshire)

David Davis: To ask the Chancellor of the Duchy of Lancaster what the uptake of e-delivery of Government services has been in East Yorkshire. [3587]

Mr. Jim Murphy: The Office for National Statistics (ONS) measures uptake of government services online on a quarterly basis for Adults (16+) across Great Britain. The last survey, in February 2005 showed that 57 per cent. Of internet users, representing 33 per cent. of the adult population accessed Government websites in the 12 months prior to the survey. 29 per cent. of the population accessed sites for informational purposes and 7 per cent. for downloading forms.

Recently available National Statistics data formed by adding the last two surveys together to increase the sample size for regional analysis, shows 46 per cent. of

internet users in Yorkshire and the Number have visited Government websites compared to the UK average of 54 per cent.

Freedom of Information

Norman Baker: To ask the Chancellor of the Duchy of Lancaster on what date the first meeting of the sub-Committee on Freedom of Information will take place. [3279]

Mr. Hutton: Although the Government publishes the title, membership and terms of reference of Cabinet Committees, it has been the practice of successive Governments not to disclose details of their proceedings, including the dates when they meet.

Government Correspondence

Mr. Allen: To ask the Chancellor of the Duchy of Lancaster (1) if he will take steps to improve the *(a)* speed and *(b)* relevance of replies by Government Departments to letters and inquiries from (i) hon. Members and (ii) the public; [2861]

(2) if he will take steps to introduce new performance indicators and a table of rankings for the performance of *(a)* Government Departments and *(b)* Ministers in responding to correspondence from hon. Members and the public; [2862]

(3) if he will institute a system of beacon status and special measures to encourage improvements in ministerial and departmental performance in responding to correspondence from hon. Members and the public. [2863]

Mr. Hutton: The Cabinet Office will shortly be publishing updated guidance for Departments on the handling of correspondence from hon. Members and Peers. Copies of the guidance will be placed in the Library. The performance of individual Departments on the handling of correspondence from hon. Members and Peers is published on an annual basis. For information relating to their performance for 2004, I refer my hon. Friend to the statement made by my right hon. Friend the then Minister of the Cabinet Office (Mr. Miliband) on 6 April 2005, *Official Report*, columns 137–40WS.

Individual Government Departments are responsible for setting of response targets on the handling of correspondence from members of the public.

Departments are continuing to work together and share 'best practice' in the handling of all correspondence.

Ministerial Cars

Norman Baker: To ask the Chancellor of the Duchy of Lancaster which Ministers since 1 May 1997 have opted not to take-up the use of a ministerial car. [3278]

Mr. Jim Murphy: The responsibility for the provision of ministerial cars and drivers has been delegated under the terms of the Framework Document to the Government Car Despatch Agency. I have asked its Chief Executive Mr. Roy Burke to write to the hon. Member. Copies of his letter will be placed in the Library.

Parliamentary Questions

Norman Baker: To ask the Chancellor of the Duchy of Lancaster whether it is his policy that written parliamentary questions require a response in terms of content no less full than that which would be given in answer to a request made under the Freedom of Information Act 2000. [1484]

Mr. Hutton: Guidance to Departments on answering parliamentary questions is set out in "Guidance to Officials on Drafting Answers to Parliamentary Questions". This guidance was revised and re-issued in February 2005 to take account of the Freedom of Information Act. Copies are also available in the Library.

Perpetual Annuity Payments

Mr. Mudie: To ask the Chancellor of the Duchy of Lancaster if he will list *(a)* annuities and *(b)* pensions which are being paid from public funds to the descendants of individuals who through public service were granted exceptional perpetual annuity or pension payments, broken down by amount. [3053]

Mr. Hutton: The Cabinet Office does not make payments of this nature.

Private Finance Projects

Mr. Philip Hammond: To ask the Chancellor of the Duchy of Lancaster if he will list the private finance initiative and public private partnership projects his Department is undertaking; and what the status of each is. [2360]

Mr. Hutton: The Cabinet Office has one private finance initiative project—the Sunningdale Park Property which became operational in 2002.

Information relating to other public private partnership projects is not held centrally and cannot be provided without incurring disproportionate costs.

Websites

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster (1) how many centrally funded websites have a gov.uk suffix; [3114]

(2) what estimate he has made of the number of people employed within the civil service who manage Government websites with a gov.uk suffix. [3115]

Mr. Jim Murphy: The Cabinet Office does not hold figures on the number of websites in the .gov.uk domain. Figures are held on the number of .gov.uk domain names that have been registered for use. As of 1 April 2005 there were 3,419 approved gov.uk domain names. Covering all levels of central, local and devolved Government within the UK.

A domain name does not necessarily mean a website, a proportion of domain names will be used as redirects to another website.

The Cabinet Office does not hold figures on the number of people employed within the civil service who manage .gov.uk websites.

Websites are funded by the sponsoring organisation.

DEPUTY PRIME MINISTER

Design for Manufacture Sites

Sarah Teather: To ask the Deputy Prime Minister what planning restrictions apply to the sites so far named as Design for Manufacture sites. [2457]

Yvette Cooper: Ten sites have been selected for the Design for Manufacture competition. The sites are:

Site 6, Oxley Park, Milton Keynes

Former TA Centre, Oxford Road, Aylesbury

Site D2, Upton, Northampton

Area 2, Allerton Bywater, near Leeds

Former Renny Lodge Hospital, London Road, Newport Pagnell

Former Park Prewett Hospital, Kingsclere Road, Basingstoke

Leybourne Grange, Maidstone

Rowan Lodge School, Merton, London

School Road, Hastings

Former Greenhithe TA Centre, Horn's Cross, Dartford

All the sites are subject to normal planning requirements, and benefit from advanced design specifications. The winners of the competition appointed to become development partners will be expected to abide by local planning requirements, follow design codes and briefs and provide the usual supporting on-site infrastructure.

Seven of the 10 sites already have outline planning consent, and five sites have design codes and/or development briefs in place. Details of the planning context relating to each individual site can be found on the English Partnerships website http://www.englishpartnerships.co.uk/designformanufacture

Electoral Administration

Mr. Gordon Prentice: To ask the Deputy Prime Minister what estimate he has made of the number of local government staff employed primarily in electoral administration *(a)* in 1997 and *(b)* on the latest date for which figures are available; and if he will make a statement. [2744]

Ms Harman: I have been asked to reply.

The Government does not hold figures for the number of local government staff employed primarily in electoral administration.

Fire Service

John McDonnell: To ask the Deputy Prime Minister how many road accidents involving the rescue of a person or persons were carried out by the fire service in each of the last 10 years for which figures are available. [2064]

Jim Fitzpatrick: The number of road traffic incidents which involved the rescue of a person or persons by the Fire and Rescue Service in England is set out as follows.

	Number of incidents
1994–95	8,556
1995–96	6,918
1996–97	7,555
1997–98	7,697
1998–99	8,352
1999–2000	8,489
2000–01	9,079
2001–02	9,641
2002–03	9,772
2003–04	9,673

Source:
ODPM annual returns

John McDonnell: To ask the Deputy Prime Minister how many people were rescued or led to safety at chemical or fuel spills or leaks or suspected chemical or fuel spills or leaks by the Fire Service in each of the last 10 years for which figures are available. [2065]

Jim Fitzpatrick: Information is not collected centrally on incidents where people are rescued or led to safety from spills or leaks.

Sarah Teather: To ask the Deputy Prime Minister how many attacks on firefighters were recorded in each fire authority in each year since 1997. [2446]

Jim Fitzpatrick: Attacks on firefighters have only been recorded since 1 April 2004. In 2004–05 a total of 633 attacks were recorded. For the months of April and May 2005, 64 attacks have been recorded. The following tables set out details of these attacks by fire authority.

2004–05

	Number
Buckinghamshire	1
Cheshire	23
Cleveland	54
Cumbria	2
Dorset	1
Greater Manchester	188
Hampshire	6
Isle of Wight	1

Royal Berkshire	2
South Wales	3
South Yorkshire	6
Staffordshire	1
West Midlands	9
Total	64

Sarah Teather: To ask the Deputy Prime Minister how many deliberate *(a)* property and *(b)* vehicle fires were recorded in each year since 1997. [2449]

Jim Fitzpatrick: The number of deliberate fires attended by Fire and Rescue services in England is as follows:

	(a) Property fires (buildings)	*(b) Vehicle fires (road vehicles)*
1997–98	26,045	36,045
1998–99	23,858	42,631
1999–2000	25,990	54,499
2000–01	24,965	59,057
2001–02	28,164	68,634
2002–03[1]	25,492	67,296
2003–04[2]	26,481	58,645

[1] Includes estimates for 15 strike days.
[2] Provisional figures
Note:
Figures derived from a grossed up 20 per cent. sample of fires attended.

Fire and Rescue service FDR1 returns to the Office of the Deputy Prime Minister.

Sarah Teather: To ask the Deputy Prime Minister what progress has been made on the Firelink scheme; how much the scheme has cost; what resources have been allocated to it; and if he will make a statement. [2439]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) is in the final stage of discussions with the proposers following receipt of best and final offers. Our aim is to secure a radio system that meets the needs of the FRS and provides value for money for the taxpayer. The imperative is to run a fair and open competition under EU procurement procedures. Some £9 million has been spent on work to replace high risk items of brigades current radio systems to ensure that they continue to be operationally effective until they can be replaced by Firelink. Cost information relating to the main procurement is commercially sensitive. The multi-disciplinary project team comprises ODPM staff, secondees from the fire and rescue services and technical consultants.

Hazardous Waste Treatment Plants

Bill Wiggin: To ask the Deputy Prime Minister what planning applications have been made in *(a)* 2002, *(b)* 2003, *(c)* 2004 and *(d)* 2005 to date for hazardous waste treatment plants; and what the capacity and location of each plant is. [3451]

Yvette Cooper: The information requested is not held centrally and could be provided only at disproportionate cost.

Housing

Sarah Teather: To ask the Deputy Prime Minister how many and what percentage of children with *(a)* a disability and *(b)* a serious medical condition that requires adapted housing live in accommodation that is not fit for purpose in each English region. [2434]

Yvette Cooper: The information requested is not held centrally and could be provided only at disproportionate cost.

Sarah Teather: To ask the Deputy Prime Minister how many local authority-owned properties in each London borough do not meet the Government's decent homes standard; and what the estimated cost is of bringing them up to that standard. [2523]

Yvette Cooper: The number of local authority-owned properties that do not meet the Government's decent homes standard, along with the estimated cost of bringing them up to that standard, are shown in the following table, for each London borough. The data are as reported to the Office of the Deputy Prime Minister in the 2004 HIP Business Plan Statistical Appendices.

Authority	*Number of LA owned non decent dwellings at 1 April 2004*	*Cost to make all dwellings decent at 1 April 2004 (£000)*
Barking and Dagenham	11,091	129,000
Barnet	6,047	16,329
Brent	4,313	81,425
Camden	23,324	301,321
City of London	1,015	2,455
Croydon	3,325	24,251
Ealing	5,598	86,384
Enfield	3,710	12,289
Greenwich	17,693	122,993
Hackney	18,488	320,000
Hammersmith and Fulham	3,548	26,804
Haringey	9,741	45,366
Harrow	2,685	8,962
Havering	2,391	4,939
Hillingdon	3,405	34,047
Hounslow	5,258	34,110
Islington	16,829	192,272
Kensington and Chelsea	3036	42,968
Kingston upon Thames	1,423	[1]
Lambeth	12,747	41,237
Lewisham	16,259	137,854
Merton	1,852	6,350
Newham	9,812	142,901
Redbridge	1,307	3,121
Southwark	20,070	405,579
Sutton	3,506	27,921
Tower Hamlets	18,218	197,307
Waltham Forest	9,226	168,620
Wandsworth	795	6,259
Westminster	4,272	80,675

[1] Indicates missing data

Anne Main: To ask the Deputy Prime Minister whether his Department has made an assessment of the impact of levying VAT on the refurbishment and enlargement of older homes but not on new build homes on *(a)* the character of (i) St Albans and (ii) market towns with a significant stock of older homes, *(b)* the number of houses built before 1930 that are demolished and *(c)* the implementation of regionally imposed planning targets; and if he will make a statement. [1391]

Yvette Cooper: The Office of the Deputy Prime Minister has not made these assessments.

Sarah Teather: To ask the Deputy Prime Minister how many homes have *(a)* no and *(b)* partial central heating in each English region; and what percentage this is of the dwelling stock. [2436]

Yvette Cooper: The available information, for homes with no central or programmable heating within each region in 2001, is published at Table 11, page 30 of the English House Condition Survey 2001: Regional Report (ODPM, 2003).

Lynne Featherstone: To ask the Deputy Prime Minister (1) how much funding for housing the London borough of Haringey council has received in each financial year since the Housing Grants, Construction and Regeneration Act 1996 came into force; and if he will make a statement; [3974]

(2) how many applicants for funding under the Housing Grants, Construction and Regeneration Act 1996 within the London borough of Haringey have been *(a)* successful, *(b)* refused and *(c)* put on a waiting list; and if he will make a statement. [3975]

Yvette Cooper: Government funding in support of the London borough of Haringey's housing capital investment programme since 1996 has been (in £1,000s) as follows:

	Supported borrowing	*Major repairs allowance (introduced in 2001–02)*	*Disabled facilities grant*	*Private sector renewal grant*	*Total*
1997–98	12,215	—	311	1,402	13,928
1998–99	14,341	—	396	1,150	15,887
1999–2000	14,109	—	435	1,265	15,809
2000–01	27,652	—	547	0	28,199
2001–02	18,697	13,403	567	0	32,667
2002–03	20,127	13,447	526	158	34,258
2003–04	15,925	13,799	556	286	30,566
2004–05	12,253	12,643	475	17	25,388
2005–06	12,753	12,272	484	0	25,509

From 2000–01 Government support for private sector housing renewal grants was no longer ring fenced and was included in the total for supported borrowing, except for residual payments relating to committed expenditure in renewal areas.

The Government do not collect centrally the number of applications for renewal grants or information on waiting lists. The number and the total value of renewal grants under the 1996 Act completed in Haringey in each year since 1997 are as follows:

Private sector housing renewal assistance given in Haringey (including DFGs)

	Total number of grants completed	*Total local authority expenditure on grants (£000)*
1997–98	387	2,956
1998–99	432	2,585
1999–2000	421	2,847
2000–01	333	4,178
2001–02	586	5,906
2002–03	521	3,727
2003–04	717	7,527

Sarah Teather: To ask the Deputy Prime Minister how many people are on waiting lists to be rehoused in each London borough. [2525]

Yvette Cooper: I refer the hon. Member to the answer given to my hon. Friend the Member for Islington, North (Jeremy Corbyn) on 7 June 2005, *Official Report*, columns 492–93W.

Listed Buildings

Mr. Gordon Prentice: To ask the Deputy Prime Minister how many grade *(a)* one and *(b)* two listed buildings in England have been (i) demolished, (ii) lost by fire and (iii) otherwise lost since 1997. [3400]

Mr. Lammy: I have been asked to reply.

The information requested is not available in the format specified. English Heritage who maintain the statutory list however confirmed that 683 buildings have been removed from the statutory list since 31 December 1996.

Local Authority Housing Stock

Mr. Austin Mitchell: To ask the Deputy Prime Minister when he expects to implement his plans to allow councils to resume building of council housing. [1750]

Yvette Cooper *[holding answer 6 June 2005]:* Local authorities have been given the financial freedom to build new social housing through the Private Finance Initiative. Increasingly local authorities are taking up this option.

Local Government

Mr. Allen: To ask the Deputy Prime Minister what assessment he has made of the progress made by local authorities in producing written constitutions; and if he will make a statement. [2825]

Mr. Woolas: By the end of December 2002 all principal local authorities had adopted and implemented their constitutions, under the Local Government Act 2000. The Act requires each local authority to keep its constitution up to date and to make copies available for inspection by members of the public.

Local Government Finance

Mrs. Spelman: To ask the Deputy Prime Minister if he will list the *(a)* housing, *(b)* regeneration and *(c)* social exclusion scheme funding streams that will be in operation in 2005–06. [1115]

Yvette Cooper: The following lists set out the funding streams from the Office of the Deputy Prime Minister currently in operation in 2005–06:

Housing:

Arms Length Management Organisations
Best Value Intervention in Housing
Disabled Facilities Grants
Gypsy Site Grant
Homelessness
Housing Action Trusts

Housing Bill Implementation (Home Buying and Selling, Landlord Licensing and Safety Ratings, Tenants Deposit Scheme)

Housing Defects Grants/Loan Charges

Housing Management Grants

Housing Mobility Service

Housing Revenue Account Subsidy

Large Scale Voluntary Transfers—gap funding and repayment of overhanging debt

Leasehold Enfranchisement Advisory Service

Choice-based Letting Schemes

Local Authority Social Housing Grant—Transitional Compensation

Private Housing Renewal

Private Landlords in Low Demand Areas

Programme efficiencies in social housing

Residential Property Tribunal Service

Safer Communities Supported Housing Fund

Single Housing Capital Pot (includes Housing Corporation Approved Development Programme and Local Authority Supported Capital Expenditure for Housing)

Supporting People

The National Approved Letting Scheme

Regeneration:

Coalfields funding (Enterprise Fund and Regeneration Trust)

Commission for Architecture and the Built Environment

Design Awards

English Partnerships (including Commission for the New Towns)

European Regional Development Fund

Groundwork and National Urban Forestry Unit

Housing Market Renewal Fund

Interreg (European funding stream)

Lea Valley Regional Park

Liveability Fund

Living Spaces

Mersey Basin

New Deal for Communities

New Ventures Fund

Neighbourhood Renewal Fund

Other Growth Areas

Regional Development Agencies (including London Development Agency)

Single Regeneration Budget

Special Grants Programme

Thames Gateway

Green Flags

Liveability Performance

Academy for Sustainable Communities (formerly Urban Design Skills)

The Government also funds the work of the Social Exclusion Unit. The Unit does not administer funding streams directly but does work with Government Departments and other stakeholders to ensure that a wide range of Government funding programmes contribute to the reduction of social exclusion.

The Office of the Deputy Prime Minister also funds research on housing, regeneration and social exclusion.

Local Strategic Partnerships

Dr. Pugh: To ask the Deputy Prime Minister what executive powers local strategic partnerships have. [2644]

Mr. Woolas: Local strategic partnerships (LSPs) are non-statutory, non-executive bodies which bring together public, private, voluntary and community interests to work together more effectively. They have no executive powers and rely on the goodwill of their partners to operate.

Dr. Pugh: To ask the Deputy Prime Minister what the composition of each local strategic partnership is. [2646]

Mr. Woolas: The Department does not hold information on the composition of each local strategic partnerships (LSPs). LSPs are non-statutory bodies intended to provide a forum for a range of local organisations and interests, with the specific membership of individual LSPs dependent on local circumstances. However, research shows that almost all LSPs have high representation from across the local public, private, voluntary and community sectors.

London Housing Board

Jeremy Corbyn: To ask the Deputy Prime Minister if he will place in the Library the minutes of his meetings with the London Housing Board in *(a)* December 2003 and *(b)* January 2004 concerning its recommendations on investment allocations in 2004 to 2006. [3937]

Yvette Cooper: There were no meetings between the Office of the Deputy Prime Minister's Ministers and the London Housing Board in December 2003 or January 2004. Minutes and papers for London Housing Board meetings are available on the Government Office for London website (www.gos.gov.uk/gol).

Jeremy Corbyn: To ask the Deputy Prime Minister if he will require the London Housing Board to dedicate sufficient resources to ensure that it delivers the London Plan target of 70 per cent. of new affordable housing being social rented homes. [3938]

Yvette Cooper: Decisions on the allocation of resources for housing investment in England are taken by Ministers in the light of national and regional housing objectives. Regional Housing Boards provide recommendations on the split of funding for their region between different activities and the distribution across the region. These recommendations need to take account of national housing targets and regional priorities and any targets set out in Regional Housing and Spatial Strategies.

Housing Boards are currently submitting recommendations on allocation of resources for 2006–07 and 2007–08. Decisions on these, including the balance of funding for social rented and other affordable housing in London, will be taken later this year.

Mobile Phone Masts

Mr. Davey: To ask the Deputy Prime Minister what plans he has to review national planning policy guidance on mobile telephone telecommunications masts; and if he will make a statement. [2740]

Yvette Cooper: Current planning guidance for all electronic communication developments is set out in Planning Policy Guidance Note 8 (revised) (PPG8). The Office of the Deputy Prime Minister has also issued a Code of Best Practice on Mobile Phone Network Development. In September last year we commissioned the University of Reading and Arup to undertake an independent study to assess the impact that the code has had since its introduction. The report will be published in due course. This forms part of a review the Government are undertaking of all the planning arrangements surrounding telecommunication masts.

Mr. Davey: To ask the Deputy Prime Minister what representations he has received since 2001 against the current planning law on mobile phone telecommunications masts; and if he will make a statement. [2747]

Yvette Cooper: The Office of the Deputy Prime Minister receives many representations on matters relating to the telecommunications industry. The information about such representations is not readily available in the breakdown requested and could be only provided at disproportionate cost.

Mortgage Possession Orders

Sarah Teather: To ask the Deputy Prime Minister how many mortgage possession orders were made in each year since 1992; and if he will make a statement. [2451]

Yvette Cooper: Data on mortgage possession proceedings for England and Wales are collected by the Department of Constitutional Affairs from HM Courts Service and published on the Office of the Deputy Prime Minister's website at: http://www.odpm.gov.uk/stellent/groups/odpm_housing/documents/page/odpm_house_604098.xls.

The figures record how many possession proceedings have been issued, but do not indicate how many properties were actually taken into possession, since many orders will not be enforced. That information is not separately recorded.

Negative Subsidy

Mr. Jenkins: To ask the Deputy Prime Minister how much was taken in negative subsidy from *(a)* all housing associations and *(b)* housing associations in Tamworth in each of the last two years. [3337]

Yvette Cooper: Housing associations are not part of the housing revenue account subsidy system.

Parking Meters

Sarah Teather: To ask the Deputy Prime Minister how many parking meters there were in each London borough per 1,000 population in the last year for which figures are available. [2455]

Ms Buck: I have been asked to reply.

Since 3 July 2000, the Mayor has had overall responsibility for traffic management in London. However, responsibility for parking enforcement in London generally rests with the relevant local authority. It is a matter for individual local authorities to decide on the nature and scope of parking controls, including the number of parking meter and pay and display parking spaces, and to balance the needs of residents, emergency services, local business and those who work and travel in the area.

While we do not hold any up to date figures, the Association of London Government has provided the following information:

Borough	*Number of parking meter spaces*	*Number of pay and display spaces*[1]
Barking and Dagenham	0	44
Barnet	36	79
Bexley	294	136
Brent	0	600
Bromley	28	6,103
Camden	1,127	2,591
Corporation of London	0	889
Croydon	0	643
Ealing	0	600
Enfield	0	600
Greenwich	352	0
Hackney	—	562
Hammersmith and Fulham	0	0
Haringey	—	676
Harrow	—	628
Havering	200	0
Hillingdon	44	380
Hounslow	137	148
Islington	0	4,829
Royal Borough of Kensington and Chelsea	0	6,000
Royal Borough of Kingston-upon-Thames	32	598
Lambeth	372	2,700
Lewisham	374	n/a
Merton	47	415
Newham	0	344
Redbridge	393	391
Richmond-upon-Thames	335	255
Southwark	1,000	—
Sutton	0	907
Tower Hamlets	0	1,188
Waltham Forest	0	200
Wandsworth	0	4,026
Westminster City Council	4,568	3,000

[1] Number includes only local authority-owned pay & display space. Privately-owned off-street pay and display spaces are not included.

Mid-year population estimates (thousands, 1993–03) are shown in the following table.

thousand

Borough	*1999*	*2000*	*2001*	*2002*	*2003*

Playing Fields

Sarah Teather: To ask the Deputy Prime Minister how many applications for planning permission on school playing fields were approved in each English region in each quarter since 1997. [2412]

Yvette Cooper: The information requested is not held centrally and could be provided only at disproportionate cost.

Private Finance Initiative

Mr. Philip Hammond: To ask the Deputy Prime Minister if he will list the Private Finance Initiative and Public Private Partnership projects his Department is undertaking; and what the status of each is. [2373]

Mr. Woolas: The Office of the Deputy Prime Minister is currently undertaking the following Private Finance Initiative (PFI) and Public Private Partnerships (PPP) projects.

Signed and Operational PFI/PPP projects

Authority/Body	
QE II Conference Centre	Catering PFI Project
NE Derbyshire district council	Holmwood Social Housing PFI Project
Derby city council	Social Housing PFI
LB Islington	Street Properties I
Manchester city council	A6 Plymouth Grove Housing PFI
Selby	Selby, Sherburn and Tadcaster Housing PFI
LB Hammersmith and Fulham	Future Services for Older People, Housing PFI
LB Reading	North Whitley Housing PFI
Warrington borough council	Anson and Blenheim Close, Social Housing PFI
Avon, Somerset and Gloucestershire Fire Authorities	Fire Training Facility PFI
North Yorkshire Fire and Rescue Service	Fire Training Facility and Fire Station PFI
London Fire and Emergency Planning Authority	Fire Vehicles and Equipment PFI
Lancashire Fire and Rescue Service	Divisional HQ and two fire stations PFI
Cornwall County Council—Fire Service	Fire Stations
Greater Manchester County Fire Service	Stretford Divisional Headquarters and Fire Station
South Wales Fire Authority	PFI Training Centre for South Wales Fire and Rescue Service
Tyne and Wear Fire and Civil Defence Authority	New HQ and community fire stations
Bolton	Community Learning Resource Centre (joint with DfES and DCMS)
Bournemouth	Library (joint with DCMS)
Brighton	Library (joint with DCMS)
Brighton	Schools PFI Project (joint with DfES)
Cambridgeshire	Community ICT Network
Cheshire	Ellesmere Port Schools/Community Facilities (joint with DfES)
Copeland	Office Regeneration
Croydon	Customer Focus
Hackney	Technology and Learning Centre
Liverpool	Speke Learning Centre (joint with DfES)
North Wiltshire	Property Rationalisation
Norwich	Norwich Connect
Redcar and Cleveland	Office Accommodation
Sheffield	Office Accommodation
Sunderland	City Learning Centre (joint with DfES and DCMS)
Tower Hamlets	Mulberry Schools and Community Sports Facilities (joint with DfES)
Trafford	Sale New Civic Centre Office Accommodation
Essex	Clacton JSC (joint with DfES)
Sefton	Crosby Leisure Centre
Uttlesford	Three New Sports and Leisure Centres
Kent CC	Strategic IT
L.B. Harrow	Revenues Benefits
Derby city council	Revenues Benefits
Signed but not Operational PFI/PPP Projects	
Leeds city council	Swarcliffe Housing PFI
London borough of Newham	Canning Town Housing PFI
Stoke-on-Trent	Bentilee District Centre
Oldham	Library and Lifelong Learning Centre (joint with DCMS)
L.B. Barking and Dagenham	Joint Service Centre (joint with DfES)

Property Searches

Sarah Teather: To ask the Deputy Prime Minister what the average time taken to conduct a standard search on a property was in each English region in each year since 1997. [2419]

Yvette Cooper: The Office of the Deputy Prime Minister does not collect data on average time taken for a standard search.

The information requested is not held centrally and could be provided only at disproportionate cost.

Public Sector Land

Sarah Teather: To ask the Deputy Prime Minister whether any *(a)* vacant and *(b)* surplus public sector-owned site being reviewed by English Partnerships is (i) in and (ii) in close proximity to a (A) conservation area and (B) site of special scientific interest. [2407]

Yvette Cooper: English Partnerships' review of the sites on the register of surplus public sector land will help to confirm whether any are in or close to conservation areas and sites of special scientific interest. The principle source of information for English Partnerships' review will be the local plans covering the areas in which the sites are located.

Sarah Teather: To ask the Deputy Prime Minister if he will publish the survey of surplus brownfield public sector-owned land undertaken by English Partnerships. [2460]

Yvette Cooper: English Partnerships is undertaking a review of sites on the register of surplus public sector land they maintain on behalf of Government. As at March 2005 there were 713 sites on the register. Sites are continually being added to the Register as they are identified as surplus by landowners in central government and removed once they receive expressions of interests after a site has been marketed. A list of the sites, as at March 2005, can be found on the English Partnerships website at: http://www.englishpartnerships.co.uk/images/16EE954C904340DDAB44702EF5D2ADE6.pdf English Partnerships will publish a quarterly update of sites on the Register.

Race Relations (Amendment) Act 2000

Keith Vaz: To ask the Deputy Prime Minister what arrangements are in place to ensure that bodies within the responsibility of his Office comply with the requirements of the Race Relations (Amendment) Act 2000. [3528]

Jim Fitzpatrick: It is the responsibility of each public authority (which include Government Departments, local authorities, executive agencies and non-departmental public bodies) to ensure that it is acting in compliance with its duties on race relations.

We published the draft 2005–08 race equality scheme for the Office of the Deputy Prime Minister (ODPM) on 31 May 2005 for consultation. The draft scheme covers all policies and functions across the ODPM and its three executive agencies, as well as the employment practices of the nine regional Government offices and their delivery of ODPM's policies. The draft scheme identifies clear aims and outcomes for each work area, which will be reviewed and updated every twelve months. The actions set out are vital in assisting us to develop and deliver policies and operations effective in a multi-ethnic society.

Our consultation closes at the end of August; the draft scheme will then be revised as necessary and republished in mid-October.

Recycling

Sarah Teather: To ask the Deputy Prime Minister how much was spent by each London borough on recycling services in the last year for which figures are available. [2475]

Yvette Cooper: The information requested is not held centrally and could only be provided at disproportionate cost.

Regeneration Expenditure

Sarah Teather: To ask the Deputy Prime Minister how much, and what percentage, of money allocated for regeneration has been spent on *(a)* lawyers and *(b)* consultants in each year since 1997. [2416]

Jim Fitzpatrick: The Office of the Deputy Prime Minister was formed in May 2002. The Office holds no information prior to 2002. Departmental records taken from the SAP reporting system show expenditure attributed to consultancy and its percentage of the total spend on regeneration. There is no recorded expenditure for legal fees. Details of available spend information are as follows:

	2002	*2003*	*2004*
Total expenditure (£)	3,188,140,060	4,016,727,454	3,852,655,244
Consultancy (£)	37,079	854,376	1,432,912
Consultancy (percentage)	0.001163	0.02127	0.03719
Legal (£)	0	0	16,000
Legal (percentage)	0	0	0.000415

Rent Arrears

Sarah Teather: To ask the Deputy Prime Minister how much was owed to *(a)* local authorities and *(b)* housing associations in rent arrears on the last date for which figures are available. [2418]

Yvette Cooper: In English local authorities, current tenants' cumulative arrears of rent at the end of 2003–04, excluding arrears of council tax, water rates and heating and service charges, was £277 million. The corresponding amount for former tenants was £205 million, giving a total of £482 million.

At the end of 2003–04, English housing associations were owed by current and former tenants £385 million in cumulative rent arrears.

Right to Buy

Tim Farron: To ask the Deputy Prime Minister whether his Department plans to amend the cap on the discounts tenants in council housing wanting to purchase their own property are eligible to receive. [4034]

Yvette Cooper: There are no current plans to amend the cap on discounts for tenants in council housing wanting to purchase 100 per cent. of the home they live in. However, the Office of the Deputy Prime Minister is consulting on a series of options for tenants wishing to purchase a share of their home under Social Homebuy.

Second Homes

Sarah Teather: To ask the Deputy Prime Minister how many second homes there were in each local authority area, and what proportion this was of the local housing stock, in each year since 1997. [2431]

Yvette Cooper: The available information has been made available in the Library of the House.

Tim Farron: To ask the Deputy Prime Minister if he will make it his policy to make changes to planning law to ensure that an application for change of category of use of a residential dwelling must be made before a property can be purchased for the purpose of using it as a second home. [3407]

Yvette Cooper: In its manifesto, the Government made a commitment to set up a housing commission to explore mechanisms that would increase access to affordable housing for people who live and work in rural areas. The Office of the Deputy Prime Minister and the Department for Environment, Food and Rural Affairs are currently scoping the terms of reference for the commission and an announcement will be made shortly. It is anticipated that the commission will consider whether there is any case for government intervention, through planning control or otherwise, on second homes.

Tim Farron: To ask the Deputy Prime Minister what assessment his Department has made of the impact on *(a)* affordability and *(b)* availability of homes for local people of high levels of second home ownership. [3408]

Yvette Cooper: The Office of the Deputy Prime Minister recognises the concerns that are felt, particularly in rural communities, about the impact of second home ownership on the affordability and availability of homes for local people. We have accordingly taken a number of steps to alleviate housing pressures in areas with high levels of second home ownership. In particular, we have reduced the council tax discount for second homes, and have made changes to planning policy to enable local authorities to allocate sites solely for affordable housing for local people in perpetuity, alongside a continuing rural exception approach.

Sickness Absence

Sarah Teather: To ask the Deputy Prime Minister what the average number of days' sickness absence taken by staff in *(a)* all local authorities and *(b)* each local authority was in each year since 1997. [2450]

Mr. Woolas: The Office of the Deputy Prime Minister does not hold information on local authority sickness absence prior to the introduction of Best Value Performance Indicators (BVPIs) from April 2000. Since then, local authorities have reported their performance against BV12 "Working days lost due to sickness absence". The average number of days' sickness absence as reported against BV12 in all authorities and each county and district authority each year since 2000–01 has been made available in the Library of the House.

These data from 2001–02 are also available on the Best Value Performance Indicator website at www.bvpi.gov.uk.

Social Housing

Mr. Jim Cunningham: To ask the Deputy Prime Minister how many people were on the housing need list in Coventry, South on the latest date for which figures are available; how many new lettings there were in the constituency in 2004–05; and how many new dwellings are expected to become available for new tenancies within the constituency in 2005–06. [2784]

Yvette Cooper: Information is not collected at constituency level, only at local authority level. Summary information for Coventry city council is tabled, which shows

the number of households on the housing waiting lists at 1 April 2004;

the number of Registered Social Landlords (RSLs) lettings made to new tenants during 2004–05; and

the number of new RSL dwellings planned for rent covering two years, 2004–05 and 2005–06.

Coventry city council transferred all council housing owned by them to Registered Social Landlords (RSLs) in 2000–01. The council now maintains a common waiting list with RSLs in their district. However, information is not held centrally where a RSL maintains a separate waiting list to the local authority.

The number of new RSL dwellings planned for rent has been provided covering two years as the Housing Corporation now plan the building of new RSL dwellings using a two-year allocation process.

Housing waiting list numbers, new RSL lettings made and new RSL dwellings planned for rent in 2004–05 and 2005–06

	Coventry city council
Households on the housing waiting list at 1 April 2004	9,650
Number of RSL lettings to new tenants during 2004–05	2,847
Number of new RSL dwellings planned for rent in 2004–05 and 2005–06 [1]	164

[1] Figure represents allocations for rent schemes, both new build and acquisition and refurbishment over the two years 2004–06 at time of the Housing Corporation's submission to Ministers for approval of their Approved Development Programme (ADP).

Source:
ODPM's Housing Strategy Statistical Appendix return, Housing Corporation's CORE return and the Housing Corporation's ADP records.

Mr. Streeter: To ask the Deputy Prime Minister how many social houses to rent were provided in *(a)* Devon and *(b)* Plymouth in 2004. [3040]

Yvette Cooper: The number of new affordable homes provided for rent through the Housing Corporation's Approved Development Programme and Transitional Local Authority Social Housing Grant for 2004–05 in Devon CC (excluding Plymouth and Torbay), Plymouth and Torbay are shown as follows.

	Number
Devon CC	299
Plymouth	125
Torbay	43

Note:
These figures include new build dwellings, acquisitions and refurbishments.
Source:
Housing Corporation

Daniel Kawczynski: To ask the Deputy Prime Minister how much Shrewsbury and Atcham borough council received from the Local Authority Social Housing Grant in the year before it was abolished. [2559]

Yvette Cooper: Local Authority Social Housing Grant (LASHG) was abolished from 1 April 2003. Shrewsbury and Atcham borough council received £1.85 million of LASHG funding in 2002–03.

Daniel Kawczynski: To ask the Deputy Prime Minister what the reasons were for the abolition of the local authority social housing grant. [2561]

Yvette Cooper: Local authority social housing grant (LASHG) was an unfair funding mechanism that did not allocate funds to areas of greatest need, consistently underspent nationally, and gave unfair advantage to debt free local authorities. It was abolished on 1 April 2003. Under new arrangements, resources for housing are targeted to areas of greatest need, in line with the measures set out in "Sustainable communities: building for the future".

South East England Regional Assembly

Anne Milton: To ask the Deputy Prime Minister what the role is of the South East England regional assembly in respect of waste and incineration policy. [3369]

Yvette Cooper: Initially the South East England regional assembly is responsible for drafting the regional waste strategy, which forms part of the regional spatial strategy for the south east. Once the draft strategy has been tested and finalised by Government, the assembly becomes responsible for implementing and monitoring the strategy. Government expects to consult on further changes of the regional waste strategy this summer.

Streetcare Inspectors

Sarah Teather: To ask the Deputy Prime Minister how many streetcare inspectors were employed by each London borough per 1,000 population in the last period for which figures are available. [2464]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not hold this information.

Streetlights

Sarah Teather: To ask the Deputy Prime Minister how many local authority-maintained streetlights there were in each London borough per 1,000 population in the last period for which figures are available. [2469]

Jim Fitzpatrick: The Office of the Deputy Prime Minister is currently processing up-to-date data on the number of streetlighting columns in England. This data will be available shortly.

Traffic Wardens

Sarah Teather: To ask the Deputy Prime Minister how many traffic wardens were employed by each London borough per 1,000 population in the last year for which figures are available. [2454]

Jim Fitzpatrick: Since 3 July 2000, the Mayor has had overall responsibility for traffic management in London. Traffic wardens are employed by Transport for London to enforce parking on the Priority (Red) Route Network (TfL Roads).

However, responsibility for parking enforcement in London, generally rests with the relevant local authority. London boroughs employ parking attendants to enforce parking controls on all the roads for which they are the highway authority.

The Association of London Government has provided the following information:

Borough	Number of parking attendants
Barking and Dagenham	14
Barnet	37
Bexley	25
Brent	65
Bromley	29
Camden	248
Corporation of London	59
Croydon	81
Ealing	70
Enfield	46
Greenwich	20
Hackney	72
Hammersmith and Fulham	85
Haringey	40
Harrow	22
Havering	15
Hillingdon	45
Hounslow	40
Islington	158
Royal Borough of Kensington and Chelsea	151
Royal Borough of Kingston-upon-Thames	30
Lambeth	131
Lewisham	20
Merton	25
Newham	50
Redbridge	40
Richmond-upon-Thames	43
Southwark	59
Sutton	22
Tower Hamlets	38
Waltham Forest	45
Wandsworth	86
Westminster city council	388

Mid-year population estimates (thousands, 1993–2003) are shown in the following table.

Thousand

Borough	1999	2000	2001	2002	2003
Barking and Dagenham	162.4	163.9	165.7	165.9	165.9

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Afghanistan on the threat to women from rape, abduction, sexual violence and forced marriage; and if he will make a statement. [2572]

Dr. Howells: The UK and other EU member states regularly raise human rights issues with the Afghan Government, including the rights of women and girls.

Women's rights in Afghanistan are protected by the new constitution, ratified in January 2004. The constitution contains specific articles on women's equality and rights of political participation. The constitution also requires the Government to uphold their obligations under international law. Rape and forced marriage are both prohibited by Afghanistan's obligations under the Covenant on Civil and Political Rights and the Convention on the Elimination of Discrimination Against Women, both of which Afghanistan has ratified. As we have stated in the past, it is important that these rights now be implemented in practice.

In 2004–05 the Foreign and Commonwealth Office is providing £240,000 over two years to the Bar Council to train Afghan legal practitioners in human rights and women's rights advocacy.

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs how many members of staff in his Department are deployed in Afghanistan. [3695]

Dr. Howells: The Foreign and Commonwealth Office currently has 24 staff serving in Afghanistan. They are complemented by a number of officers seconded from other Departments. The total number of UK staff in Afghanistan changes on a regular basis.

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs what the projected levels of deployment for his Department's personnel to Afghanistan is by the *(a)* end of 2005, *(b)* middle of 2006 and *(c)* end of 2006. [3697]

Dr. Howells: Foreign and Commonwealth Office (FCO) staffing levels are kept under constant review. Current plans for future FCO staffing in Afghanistan do not envisage any significant change to the number currently deployed.

Charter of Fundamental Rights

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list those cases in which the Charter of Fundamental Rights has been cited as a source of law or guidance for the European Court of Justice in *(a)* the Advocate-General's opinions and *(b)* the judges' decisions; and if he will make a statement. [2804]

Mr. Douglas Alexander: The fundamental rights set out in the European Convention on Human Rights and the common constitutional traditions of the member states have for many years been cited in the case law of the European Court of Justice and the Court of First Instance: in parties' submissions to the Court, in opinions of the Advocates General and in the judgments of the Courts. Though not legally binding, the Charter of Fundamental Rights of the Union is a recent and high profile political statement of the rights, freedoms and principles applicable in the EU and as such have since its adoption in 2000 been referred to frequently by litigants, and by the Advocates General and the CFI.

A search of the Court's website provides a list of officially reported cases which contain references to the Charter at some point in the opinion or judgment. These references however appear in the summaries of the parties' arguments as well as in the paragraphs setting out the reasoning of the judges and Advocates General. A detailed analysis of the extent to which the judges or the Advocates General relied on the charter in reaching their conclusions on the merits of the case could only be provided at disproportionate cost. The list can be found at:

http://curia.eu.int/jurisp/cgi-bin/form.pl?lang=en&Submit=Submit&docj=docj&docop=docop&numaff=&datefs=&datefe=&nomusuel=&domaine=&mots=%22charter+of+fundamental+rights%22&resmax=

China

Mr. Pope: To ask the Secretary of State for Foreign and Commonwealth Affairs how many of the UK's objectives in the UK-China Human Rights Dialogue have been achieved in the last 12 months. [3083]

Ian Pearson: The objectives of the UK China Human Rights Dialogue are long term and ambitious. The 2005 issue of the Foreign and Commonwealth Office Annual Human Rights report will, when published this summer, provide an update on the mixed progress there has been towards fulfilling these objectives.

We continue to encourage China to take steps to improve their record on human rights. The latest round of dialogue took place on 6 June 2005.

Colombia

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Colombian authorities regarding death threats to the Colombian Inter-Ecclesiastical Commission for Justice and Peace. [3396]

Mr. Douglas Alexander: On behalf of the European Union, the Dutch ambassador in Bogota (in his capacity as local EU presidency) recently raised with the Colombian Government the EU's concerns over these specific threats to Justice and Peace, a non-governmental organisation that seeks to defend human rights. The presidency sought assurances that measures would be taken to protect the people concerned. The British embassy also hosted a meeting between Justice and Peace and the diplomatic corps shortly after the threats became public to demonstrate support for Justice and Peace. We regularly raise specific human rights cases, either unilaterally or as part of the EU, with the Colombian authorities. We also urge the Colombian Government to implement the recommendations arising from successive annual reports from the Colombia office of the United Nations High Commissioner for Human Rights, and have offered our assistance to achieve this.

Defence Systems and Equipment International Exhibition

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs which Ministers from his Department will attend the Defence Systems and Equipment International exhibition in September. [3939]

Dr. Howells: Foreign and Commonwealth Office Ministers currently have no plans to attend the Defence Systems and Equipment International exhibition in September.

British Detainees (Torture Allegations)

Mr. Maples: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) how many times in each of the last five years his Department has requested an impartial investigation by the relevant national authorities into allegations of the torture or ill-treatment of British citizens detained abroad; [4153]

(2) how many times in each of the last five years the Department has raised concerns about the torture or ill-treatment of British citizens detained abroad with the relevant national authorities; [4154]

(3) how many times in each of the last five years the Department has received representations regarding the torture or ill-treatment of British citizens detained abroad. [4155]

Dr. Howells: Information about action taken in relation to allegations of mistreatment of British nationals in detention overseas is kept on individual case files. We do not keep central records which would enable me to provide exact figures. It would incur disproportionate cost to undertake the research necessary to provide the information requested. However, we do take such allegations very seriously and our policy on raising these cases with the relevant authorities is actively pursued, taking into consideration the particular circumstances of each case.

EU Constitution

Mr. Davidson: To ask the Secretary of State for Foreign and Commonwealth Affairs how much of the budget for informing the public about the EU, including the treaty establishing a constitution for Europe, has been spent, broken down by category of activity. [1179]

Mr. Douglas Alexander: No final decisions have yet been made on communications activities on the EU constitutional treaty for financial year 2005–06. The separate budget for communicating the UK presidency of the EU to the British public will be spent during the presidency itself.

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his oral statement of 6 June 2005, *Official Report*, columns 991–1005, on the EU Constitutional Treaty, on what grounds the Government believe that the new vote weighting system for the Council of the European Union proposed in the Constitution for Europe is in the UK's interests; and if he will make a statement. [2803]

Mr. Douglas Alexander: The Constitutional Treaty includes a simplified system of qualified majority voting where a minimum number of member states representing a minimum percentage of the EU's population are required to pass legislation. As set out in the September 2004 White Paper on the EU Constitutional Treaty[1] (Cm 6309), the Government are happy with the new mechanism which provides a reasonable balance between passing and blocking legislation. The Foreign and Commonwealth Office's Commentary on the Treaty (Cm 6459) provides a detailed analysis in the changes in voting rules which would be introduced by the EU Constitutional Treaty.

EU Fraud

Mr. Gordon Prentice: To ask the Secretary of State for Foreign and Commonwealth Affairs what the incidence of fraud in each EU programme has been in each of the last five years; what steps are being taken to guard against such fraud; and if he will make a statement. [2762]

Mr. Douglas Alexander: The Government do not hold such information. The most useful information on this subject is available from the European Anti-Fraud Office (OLAF). Member states are required to report cases of irregularities, including possible fraud, to OLAF. The Commission publishes the resulting figures in its annual "Fight Against Fraud" report. These figures include cases of suspected fraud, but OLAF has not until now published separate figures for fraud. The figures for irregularities for 2003 and the previous four years can be found in the annex to the latest report (COM (2004) 573 final, 30 August 2004), available at: http://europa.eu.int/comm/anti_fraud/reports/commission/2003/en.pdf

We expect the report covering 2004 to be published later this year—probably in August—and we understand that this will include an analysis of the extent of fraud.

The Government takes all instances of fraud or suspected fraud very seriously, and continually presses the Commission and other member states to take

effective anti-fraud measures to protect the EU budgets, in line with their treaty obligations. Although the Commission has overall responsibility for EU budget implementation, over 80 per cent. of the budget is managed by member states. They, and not the EC institutions, are responsible for any irregularities or fraud occurring in the part of the budget that they administer.

The European Commission has carried out reforms during the past few years which are intended to reduce and prevent fraud. The current financial regulation, which governs all transactions entered into by the European institutions, defines accountability, ensures stringent audit requirements and a modernised accounting system, and requires all spending to be subject to objective-setting and evaluation. The new EC staff regulation of May 2004 introduced measures to protect whistleblowers. The Commission evaluated the effectiveness of the European Anti-Fraud Office (OLAF) thoroughly in 2003 and the European Court of Auditors' report on OLAF, which will further review OLAF's performance and achievements, will be published shortly.

Hamas

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations the Department made to Hamas at the recent meeting held between his officials and Hamas members on *(a)* ceasing and *(b)* ceasing support for violent attacks on Israel; what representations were made to Hamas members themselves; and if he will make a statement; [3116]

(2) on what dates he expects meetings between his officials and Hamas members to take place; in what circumstances such meetings would be held; who he expects will attend from *(a)* his Department and *(b)* Hamas; what issues he expects to be on the agenda; and if he will make a statement; [3117]

(3) what representations his Department received from Israel on a meeting between his officials and Hamas members; what discussions with Israel the Department held *(a)* before and *(b)* after the meeting with Hamas; and if he will make a statement; [3118]

(4) on what dates his officials met members of Hamas; which officials were present; which Hamas members were present; what issues were discussed; what decisions were taken; what the outcome of the meetings were; and if he will make a statement; [3119]

(5) what his policy is on official meetings of UK Government representatives with Hamas. [3120]

Dr. Howells: On 7 March a member of staff from the Consulate-General in Jerusalem met the recently-appointed Mayor of Deir al-Balah. On 2 June a member of staff from the Consulate-General in Jerusalem, accompanied by a colleague from the British Embassy, met the Acting Mayor of Qalqilya. In both meetings British officials made clear the Government's demand that Hamas renounce violence and recognise Israel's right to exist. They also discussed the municipality services and budget and the political, economic and humanitarian situation with both Mayors. No decisions were taken at either of these meetings, nor were there specific "outcomes".

No further meetings with elected members of Hamas are planned. The UK Government will have no contacts with the leadership of Hamas until they have dropped their commitment to the destruction of the state of Israel, and renounced the use of violence.

Officials have had several exchanges with their Israeli counterparts. My right hon. Friend the Foreign Secretary discussed these contacts with the Israeli Foreign Minister, Silvan Shalom and Israeli Deputy Prime Minister Ehud Olmert on 7 June.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what discussions he has had with officials in his Department concerning meetings between his officials and members of Hamas; and if he will make a statement; [3288]

(2) what discussions he has had with *(a)* Israel and *(b)* the Palestinian Authority concerning meetings between his officials and members of Hamas; and if he will make a statement; [3289]

(3) when, and on how many occasions, since the death of Yasser Arafat, officials from his Department have met members of Hamas. [3290]

Dr. Howells: My right hon. Friend the Foreign Secretary's decision in February—to authorise working-level contacts in the normal course of business with Hamas elected representatives not directly implicated in violence—drew on advice from officials, including representatives in the region.

Officials have had several exchanges with their Israeli counterparts. The Foreign Secretary discussed these contacts with the Israeli Foreign Minister, Silvan Shalom and Israeli Deputy Prime Minister Ehud Olmert on 7 June and Abu Mazen on 8 June.

British officials have knowingly met members of Hamas on two occasions since the death of President Arafat. I refer the hon. Member to the reply I gave to my hon. Friend the Member for Hendon (Mr. Dismore) (UINs 3116 to 3120) for details of those meetings, *Official Report*, 13 June 2005, col. 135W.

The deputy consul-general in Jerusalem was placed next to a senior Hamas official at President Abbas' inauguration in January. They exchanged courtesies but had no substantive conversation.

Iraq

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what position UK representatives are taking in discussions at the United Nations on the extension of the mandate for troops in Iraq; and if he will make a statement. [2933]

Dr. Howells: There are currently no discussions taking place in the UN on the extension of the mandate for troops in Iraq. On 31 May 2005 the UN Security Council reviewed resolution 1546 which authorises the presence of the multinational force in Iraq, and agreed upon the continuation of the mandate "until the completion of the political process", in accordance with the resolution and at the request of the Iraqi

Government. The UK believes that the presence of the multinational force in Iraq should continue to be at the request of the Iraqi government.

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs which Ministers were given copies of Foreign Office briefings on the legality of military action in Iraq prior to the commencement of hostilities. [3086]

Dr. Howells: The Government received advice from the Attorney-General on the legality issue. As the Government's chief legal adviser, his advice is final and authoritative within Government. All Ministers were well aware of my right hon. and noble Friend the Attorney-General's decision with respect to the legality of the military action, before the commencement of hostilities.

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs what action was taken in response to representations made on 12 March 2004 by Theo von Boven, UN special rapporteur on torture, in relation to four men reportedly held incommunicado in detention by the Badr organisation in Basra. [3085]

Dr. Howells: Mr. Boven's letter was addressed to the US Government, marked for the attention of Paul Bremer. We are pursuing with the US what action was taken.

Kuril Islands

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of Japan's attempts to regain the Kuril Islands. [3273]

Ian Pearson: We consider the matter to be primarily a bilateral issue between Russia and Japan. We hope the dispute over the islands can be resolved to the satisfaction of both parties.

Kalahari Game Reserve

Mr. Lancaster: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is towards the San claim to its ancestral land in the Central Kalahari Game Reserve. [3602]

Ian Pearson: We are aware of the ancestral links, which the San (Basarwa) have to the land in the Central Kalahari Game Reserve (CKGR) and its significance to their traditional nomadic lifestyle. We have some reservations about the way in which the removal of the Basarwa from the CKGR has been handled and have raised these with the Government of Botswana. Through our high commission in Gaborone, we continue to encourage the Government of Botswana to participate in constructive dialogue with the San and the negotiating team that represents their interests.

Landmines

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what contribution the UK is making to *(a)* the NATO Trust Fund project for the destruction of anti-personnel landmines in Serbia and Montenegro and *(b)* the International Trust Fund for Demining and Mine Victims Assistance for its work in Balkan countries in this financial year; what further UK funding is proposed; in what countries work is planned; and if he will make a statement. [2920]

Mr. Douglas Alexander: In this financial year (2005–06) the UK has not made a contribution to the NATO South East Europe Initiative Trust Fund project for the destruction of anti-personnel landmines in Serbia and Montenegro. However, the Department for International Development is presently considering a UK contribution of £1 million to the International Trust Fund (ITF) for the current financial year. This will be used largely to fund mine action in Albania, Azerbaijan and Bosnia, but includes a sum, of approximately £350,000, which the ITF may use in any of the countries eligible for receiving funds through the Trust Fund.

Luis Posada

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the US authorities concerning the case of Luis Posada, wanted for extradition in connection with alleged terrorism. [2685]

Ian Pearson: The question of extradition of Luis Posada is a matter for the authorities in the US and for any country which may request his extradition.

Pakistan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has made to the Government of Pakistan concerning the murder of Pastor Shamoun Babar and Daniel Emanuel in April; [1058]

(2) if he will urge the Pakistani Government to take steps to increase protection for religious minorities in Pakistan; [1059]

(3) what representations he has made to the Government of Pakistan concerning the attack on the Apostolic Church, Khahamba near Lahore, on 27 March; [1060]

(4) what reports he has received concerning the effect on the Christian community in Pakistan of the recent attacks by Islamic extremists on Christian worshippers and buildings. [1363]

Dr. Howells: We regularly raise our human rights concerns with the Government of Pakistan, including over the experiences of religious minorities. We judge that collective action through the EU is the most effective way of voicing our concerns and we carry out regular EU démarches, as well as bilateral lobbying. The next EU démarche is likely again to encourage the Government of Pakistan to take steps to address the persecution of minorities.

Although we are aware of these deplorable incidents, we have not made specific representations to the Government of Pakistan concerning the killing of Pastor Shamoun Babar and Daniel Emmanuel, nor on the attack on the Apostolic Church in Khahamba. We have not so far received any reports concerning the effect recent attacks on Christian worshippers and buildings have had on Pakistan's Christian community.

People Trafficking

Mr. Donaldson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking in partnership with his EU colleagues to control the trafficking of human beings into the UK. [3860]

Dr. Howells: The UK is committed to doing all it can to combat human trafficking, which is a crime that involves many source and transit countries.

Human trafficking will continue to form a key element in our Justice and Home Affairs agenda, particularly during our Presidency of the EU. We are working closely with our EU partners to ensure that The Hague Programme commitment for the Commission and Council to draw up an action plan on trafficking is met in 2005. In 2004 we launched an European Community-funded twinning project with the Netherlands to strengthen the capacity of the Czech Republic to combat trafficking into, within and out of the country. The 2002 EU Framework Decision on Combating Trafficking in Human Beings committed EU member states to establish criminal offences for trafficking.

Samir Kassir

Mr. Clappison: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications of the assassination of Samir Kassir in the Lebanon; what his policy is on the extension of the UN inquiry into the death of Rafic Hariri to the case of Mr. Kassir; what assistance the United Kingdom is giving to the inquiry; and if he will make a statement. [2738]

Dr. Howells: This Government condemns the assassination of Samir Kassir and the injuries caused to a passer by. We also condemn the six bombs that have exploded in and around Beirut since mid-March killing four people and injuring over 50. These terrorist attacks are cowardly and cynical attempts to de-stabilise Lebanon. The Lebanese people have repeatedly demonstrated their support for genuine and peaceful democracy. The UK is committed to helping the people of Lebanon achieve this and welcomes the on-going elections.

The UK strongly supports the work of the Independent International Independent Investigation Commission. The UK co-sponsored United Nations Security Council Resolution 1595 mandating the Investigation Commission and has nominated a British police officer as a member of the Investigation Commission. The UK judges that it is important for the Commission to remain focused on the murder of Rafic Hariri, rather than spreading its resources more thinly. We look forward to an impartial and effective investigation by the Lebanese police and security forces of the death of Samir Kassir.

Sudan

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will press for the United Nations to categorise the situation in Darfur as genocide; and if he will make a statement. [2383]

Ian Pearson: The UK strongly pressed for the International Commission of Inquiry (ICI) report into the situation in Darfur. The ICI found that serious violations of human rights had taken place in Darfur. and that, while there was no evidence to suggest that the Government of Sudan had pursued a policy of genocide, a "competent court" would have to decide if certain individuals had done so. To this end, we sponsored UN Security Council Resolution 1593, referring the situation in Darfur to the International Criminal Court—the first such referral by the Security Council. We continue to make clear to the Government of Sudan and the rebels that those responsible must answer for the crimes committed there.

We understand that following further investigation of the evidence by the ICC, the Prosecutor has decided that there is sufficient scope within his jurisdiction to mount a formal investigation. He has reached this decision independently, and we will await the outcome of the investigation.

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will call for an emergency meeting of the United Nations Security Council to discuss the situation in Darfur. [2387]

Ian Pearson: There are currently no plans to hold an emergency UN Security Council meeting on Darfur. The UN Security Council follows the situation in Sudan very closely, and continues to receive monthly reports from the Secretary-General on Darfur. Most recently the Security Council discussed Darfur on 2 June 2005 when the UN Secretary-General briefed the Council on his visit to Sudan, including Darfur, between 27–29 May 2005. The Security Council also discussed the African Union (AU) mission following the 26 May 2005 donors' conference in Addis Ababa, which the Secretary-General co-chaired. The Security Council remains fully engaged on Darfur, and is monitoring the implementation of the recent resolutions on Sudan closely.

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last raised the issue of Darfur with the US Secretary of State. [2397]

Ian Pearson: My right hon. Friend the Foreign Secretary and the US Secretary of State Condoleeza Rice last discussed Darfur, and in particular the referral of Darfur to the International Criminal Court, in late March, prior to the adoption of UN Security Council Resolution 1593.

Both at ministerial and official level we are in regular contact with the US, and other international partners, on the issue of Darfur, and Sudan as a whole, and are closely co-ordinating our response to the crises.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the government of Sudan about the continuing violence in the Kalua Camp, Nyala, Darfur. [2569]

Ian Pearson: Following an outbreak of violent clashes between police and Internally Displaced Persons (IDPs) in Kalma IDP camp on 20 May, our ambassador in Khartoum visited the camp on 22 May, and raised the incident with the Government of Sudan, UN agencies and non-governmental organisations.

We remain greatly concerned about the continuing high tensions in the camp. The African Union (AU) are patrolling the camp in an effort to restore confidence between the IDPs and the Government of Sudan police. They are also seized of the need to provide a more permanent presence. We are discussing this with the AU, and are working to support them in expanding their mission in Darfur to over 7,000 personnel, including over 1,500 Civilian Police officers.

We regularly press the Government of Sudan on the need for it to provide security for its citizens, respect the human rights of the IDPs in the camps, and ensure the effective delivery of humanitarian assistance. We will continue to do so.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the continuing violence in Eastern Sudan. [2571]

Ian Pearson: We remain greatly concerned about the continuing high tensions in eastern Sudan, and thoroughly condemn the recent kidnapping of Government of Sudan officials by rebel movements. We have made clear to the Eastern Front that they should release the hostages immediately.

We are pressing all sides to show restraint and negotiate a political settlement, within the framework of the Comprehensive Peace Agreement (CPA). We understand that the Government of Sudan are currently in talks with the Northern Democratic Alliance, with a view to bringing them into the political process. To this end, the UK is also looking to fund informal consultations between the Government of Sudan and the Eastern Front.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Sudan concerning the arrests of representatives of Médecins Sans Frontiers in Khartoum. [2595]

Ian Pearson: The UK national Director of Médecins Sans Frontiers-Holland (MSF-H) and their Nyala co-ordinator were arrested on 30 May in Sudan and charged with spreading false information, causing social unrest, and spying. This followed MSF-H's publication in March of a report on rape in Darfur. The MSF-H representatives are currently released on bail.

Our embassy had first raised our concerns about hostile media reporting on MSF-H with the Government of Sudan on 29 May. Following the arrests, our Chargé d'affaires met the Government of Sudan on 30 May and 6 June, and maintained regular contact with MSF-H, the Government of Sudan and international partners in between. We also joined the EU and US in making representations to the Government on 1 June. A senior Foreign Office official also raised our concerns with the Sudanese ambassador in London on 1 June. We have continued to make clear to the Government of Sudan that such harassment of NGOs is wholly unacceptable and must stop. We will remain in close contact with MSF-H and international partners on this case.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on his Department's policy towards negotiations in the UN on the introduction of sanctions in connection with the situation in Darfur. [2597]

Ian Pearson: The Government welcomes the recent negotiations in New York that resulted in the Security Council agreeing Security Council resolution 1591 (2005). This strengthened the arms embargo against Sudan and introduced a targeted assets freeze and travel ban against individuals who impede the peace process, constitute a threat to stability in the Darfur region, commit violations of international humanitarian law or human rights law or other atrocities, violate the arms embargo or are responsible for offensive military overflights in and over the Darfur region.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made regarding reports of rape and sexual violence against women in Darfur. [2598]

Ian Pearson: We deplore the ongoing use of rape and sexual violence in Darfur. Such attacks are abhorrent and totally unacceptable. We have made, and continue to make clear to the Government of Sudan that more must be done to provide security for the citizens of Darfur, and that perpetrators of such crimes must be brought to justice. Tackling rape and gender based violence has been a key point at the regular sub-Joint Implementation Mechanism meetings between the international community and the Government of Sudan, which is chaired by the UN. At the most recent meeting on 29 May, the international community pressed the Government of Sudan on the need to ensure that those completing medical reports of rape were not themselves considered to be carrying out criminal acts, such as falsifying information or not following 'due process' in obtaining a police report first, and on better judicial processing of rape cases.

The UK has contributed over £66 million towards the Darfur crisis since September 2003, including £500,000 towards the International Rescue Committee's Darfur programme, and £2.1 million towards Médecins Sans Frontières' health programme. These both contain components to tackle such gender-based violence. We are also providing more than £20 million towards the African Union (AU) mission to improve security in Darfur. The AU is increasingly co-ordinating its patrols to provide protection for women when they leave Internally Displaced Persons (IDP) camps. Where this is happening the number of reported rapes have decreased significantly, and we are encouraging the AU to increase this practice.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with member states of the African Union regarding the treatment of Médecins Sans Frontières officials in Darfur. [2625]

Ian Pearson: We have not held wider discussions with AU member states, except for Sudan which is directly responsible for this appalling behaviour. Following the arrests, our chargé d'affaires met the Government of Sudan on 30 May and 6 June, and maintained regular contact with MSF-H, the Government of Sudan and

international partners in between. We joined the EU and US in making representations to the Government on 1 June. A senior Foreign Office official raised our concerns with the Sudanese ambassador in London on 1 June. We have consistently made clear that such mistreatment is wholly unacceptable and that harassment of NGOs must stop. We continue to engage in dialogue with the African Union on the operating conditions for all humanitarian organisations in Sudan.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the government of Sudan regarding the arrest of Médecins Sans Frontières officials in Darfur. [2626]

Ian Pearson: I refer the hon. Member to the reply I gave today to my hon. Friend the Member for Stroud (Mr. Drew), (UIN 2595), *Official Report*, 13 June 2005, col. 141W.

Uganda

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the capacity of Uganda to host the 2007 meeting of the Commonwealth Heads of Government; and if he will make a statement. [2754]

Ian Pearson: The Commonwealth Secretariat, not the United Kingdom, will assess whether Uganda has the capacity to host the 2007 Commonwealth Heads of Government Meeting.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs whether entry visas were issued to opposition politicians to attend the London debate on constitutional amendment in Uganda. [2755]

Dr. Howells: I regret that I cannot provide this information as it is not our practice to disclose details of individual entry clearance cases in a public forum.

Uzbekistan

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent discussions he has had with the government of Uzbekistan regarding the handling of protests in Eastern Andijan on 13 May 2005; [2628]

(2) what recent discussions he has had with the government of Uzbekistan regarding respecting human rights. [2629]

Mr. Douglas Alexander: I am extremely disturbed by the reports of Uzbek troops firing on demonstrators in Andizhan (Andijan). When my right hon. Friend the Foreign Secretary first heard these reports he urged the Uzbek authorities to allow an independent, international investigation.

We have asked our Ambassador to Tashkent, Mr. David Moran, to convey these messages to senior figures in the Uzbek Government. We also asked Mr. Moran to urge the authorities for unrestricted access to Andizhan for the international community, including organisations like the UN High Commission for Refugees and the International Committee of the Red Cross (ICRC). The UK's proactive stance was instrumental in the authorities' decision to organise a visit to the region on 18 May 2005 by diplomats, members of international organisations and the world's media. Although highly orchestrated by the Uzbek authorities, this visit was an important first step towards securing the necessary transparency into the events of 13–14 May 2005 in Andizhan (Andijan).

Mr. Moran is also working to ensure that the root causes of discontent are addressed through urgent economic and political reform, as he made clear to Deputy Foreign Minister Nematov on 15 May 2005.

In the aftermath of Andizhan (Andijan), we are concerned by reports of the arrest and harassment of eyewitnesses, independent journalists and human rights activists. Mr. Moran conveyed this point in a meeting between EU ambassadors and Foreign Minister Ganiev on 1 June 2005. On 25 May 2005 our embassy delivered a note to the Uzbek authorities, registering our concern at the arrest of Saidjahon Zainabuddinov, the head of the 'appeal' human rights NGO.

We will continue to insist, with our partners in the UN, EU, OSCE and NATO, that the Uzbek Government accept an independent investigation. We shall continue to urge the Uzbek Government to respect their wider international commitments to democracy, the rule of law and human rights.

Western Sahara

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Saharawi people and their representatives following the mass demonstrations of students in El Ayoun. [2593]

Dr. Howells: We are aware of reports of demonstrations in the Western Sahara and continue to monitor the situation. UK officials hold regular discussions with the parties to the Western Sahara dispute. These focus on ensuring that the UN process leads to a fair and lasting solution to this dispute that provides the people of the Western Sahara with an opportunity to exercise their right to self-determination.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Moroccan authorities concerning media access to El Ayoun to cover the recent demonstrations of Saharawi students there. [2594]

Dr. Howells: We are aware of recent reports alleging that some journalists were denied access to Laayoune (El Ayoun) during the recent Saharawi demonstrations and will continue to monitor the situation. There are currently no plans to discuss media access to Laayoune (El Ayoun) with the Moroccan Government.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Arab Maghreb Union to urge them to discuss the Western Sahara issue. [3124]

Dr. Howells: The Arab Maghreb Union recently postponed the summit planned for May 2005. We have no plans to raise the Western Sahara dispute with the Arab Maghreb Union.

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Moroccan authorities regarding their recent activities in Western Sahara and reports of major human rights abuses. [3397]

Dr. Howells: We are aware of reports of recent clashes between pro-Saharawi demonstrators and the Moroccan authorities in Western Sahara and continue to monitor the situation. We currently have no plans to discuss the situation with the Moroccan Government.

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the recent activities of the Moroccan authorities in Western Sahara and whether there have been human rights abuses; what his policy is on how the UN should respond; what assessment he has made of whether the role of the UN's mission to Western Sahara should change; what steps he has taken in response to the activities of the Moroccan authorities; and if he will make a statement. [3398]

Dr. Howells: We are aware of reports of recent clashes between pro-Saharawi demonstrators and the Moroccan authorities in Western Sahara and continue to monitor the situation. The Government believe UN efforts to find a solution to the dispute should be maintained and will continue to seek a just, lasting and mutually acceptable solution to the Western Sahara dispute that provides the people of the Western Sahara with an opportunity to exercise their right to self-determination.

Zimbabwe

Mr. Andrew Turner: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Zimbabwean Government about the bulldozing of squatter camps. [3763]

Ian Pearson: The British ambassador in Harare protested about the brutal crackdown with Vice President Joyce Mujuru and, separately, Didymus Mutasa, Minister of State for National Security, on 2 and 3 June respectively.

The European Union also issued a statement on 8 June condemning the actions of the authorities and calling on the government of Zimbabwe to cease the callous and arbitrary destruction of property and livelihoods of ordinary Zimbabweans. Once again Mugabe has demonstrated a total lack of respect for the human rights of individuals and for the security and prosperity of the country. The displacement has created a serious internal refugee problem compounding the existing humanitarian crisis.

Department for International Development funds are being used in provision of immediate assistance to affected households who do not have the capacity to absorb the shock themselves (particularly children and the chronically ill).

Mr. Robathan: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what changes have been made to the list of persons banned from travel to the EU from Zimbabwe since the recent elections and changes in the composition of the Government in that country; and if he will make a statement; [3767]

(2) if he will make a statement on EU sanctions against Zimbabwe following the recent election in that country. [3768]

Ian Pearson: We believe that the European Union's current policy towards Zimbabwe, including sanctions against the Mugabe regime, is justified by that regime's failure to address EU concerns, including the abuse of democracy, human rights and the rule of law. The flawed elections and the current brutal crackdown on thousands of ordinary Zimbabweans underline the need to maintain pressure on the Government of Zimbabwe.

We are currently working with our partners to increase the number of those targeted by the EU travel ban and assets freeze list.

HOME DEPARTMENT

Antisocial Behaviour

Mr. Hoban: To ask the Secretary of State for the Home Department if he will publish the research conducted for his Department in 2002 by Stephen Scott on anti social behaviour. [2215]

Hazel Blears: Data and results from the parenting programme run by Dr Stephen Scott as part of the On Track programme in Southwark have been fed into a series of regional and national On Track evaluation reports which have been published by the Home Office. There were no intentions or plans to publish individual reports from the On Track evaluation.

Mr. Crabb: To ask the Secretary of State for the Home Department how many anti social behaviour orders were issued in Pembrokeshire in each year between 1998 and 2004. [2587]

Hazel Blears: The available information is given in the table.

Number of ASBOs issued at all courts, as reported to the Home Office

	Number
1 April 1999 to 31 May 2000[1]	—
1 January 2004 to 31 December 2000	—
2001	—
2002	—
2003	1
1 January 2004 to 30 September 2004	6
Total	7

[1] Between 1 April 1999 to 31 May 2000 data were collected on aggregate

Acceptable Behaviour Contracts

John Battle: To ask the Secretary of State for the Home Department how many acceptable behaviour contracts have been made with Leeds residents since October 2003. [1717]

Hazel Blears: The number of acceptable behaviour contracts (ABCs) made is not known as this information is not collected centrally.

A recent survey carried out by the Home Office and sent to all crime and disorder reduction partnerships estimated that 5,383 ABCs were made between October 2003 and September 2004.

Asylum and Immigration

Tony Baldry: To ask the Secretary of State for the Home Department when he expects to appoint the independent monitor of accommodation centres for asylum seekers. [664]

Mr. McNulty: We intend to appoint the monitor in advance of the opening of the first centre, to enable him or her to give consideration to the working methods and processes in the centres, but not so far in advance that there is nothing for him or her to do.

Tony Baldry: To ask the Secretary of State for the Home Department what criteria will be used in deciding which migrants applying for refugee status have that status determined at the proposed accommodation centre for asylum seekers at Bicester. [667]

Mr. McNulty: Only destitute asylum seekers who would otherwise be supported in dispersal accommodation will be supported in the accommodation centre; more detailed criteria will be established nearer to, but in advance of, the opening date, and will reflect the mix of the asylum intake at that time.

Mr. Malins: To ask the Secretary of State for the Home Department how many of his Department's employees were engaged *(a)* part-time and *(b)* full-time on asylum removals in each of the last five years. [2842]

Mr. McNulty: The number of employees engaged on the removal of failed asylum seekers is not disaggregated from the overall number of employees within the Immigration and Nationality Directorate (IND) and therefore not readily available. Any attempt to calculate the number of employees involved in the removal of failed asylum seekers in each of the last five years would need to take into account a large number of factors and this could be done only at disproportionate cost. However the average number of employees in the UK Immigration Service alone during each of the past four years is as follows.

	Number
2001–02	4,725
2002–03	5,742
2003–04	6,768
2004–05	7,239

There are no figures available for 2000–01.

Mr. Malins: To ask the Secretary of State for the Home Department what percentage of initial asylum decisions were successfully appealed by the applicant in each of the last five years. [2841]

Mr. McNulty: Information on the percentage of successful appeals on refusals of grants of asylum is not available. This could be obtained only at disproportionate cost by examination of individual case records.

Information on estimates of final asylum decisions is published annually. The next publication covering 2004 will be available in August 2005 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Malins: To ask the Secretary of State for the Home Department what the average time between initial decisions in asylum applications and the hearing of an appeal was in the last period for which figures are available. [2845]

Mr. McNulty: Information on the average time between initial decisions in asylum applications and the hearing of an appeal is not available. This could be obtained only at disproportionate cost by examination of individual case
records.

The Home Office and the Department for Constitutional Affairs (DCA) set a jointly owned public service agreement target for 2003–04 that 60 per cent. of substantive asylum applications (excluding withdrawals and third country cases) received from one April 2003 should have a decision, up to and including final appeal at the Immigration Appeal Tribunal, within six months.

The Home Office and DCA exceeded this target with 64 per cent. of substantive applications received in the period April 2003 to March 2004 having had a final decision, up to and including appeals at the Immigration Appeal Tribunal, within six months.

Information on asylum applications, initial decisions and appeals are published quarterly. The next publication covering the second quarter of 2005 will be available in August 2005 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

Mr. Malins: To ask the Secretary of State for the Home Department what percentage of asylum applications received an initial decision within *(a)* one month, *(b)* two months and *(c)* three months of application in the last period for which figures are available. [2847]

Mr. McNulty: 21 per cent. of applications (excluding withdrawals and third country cases) received in October to December 2004 had initial decisions reached and served within one month (1), 77 per cent. within two months (1) and 83 per cent. within three months (1).

Information on the timeliness of asylum cases is published in the quarterly asylum statistics on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

Mr. Malins: To ask the Secretary of State for the Home Department if he will take steps to increase the rate of removal of failed asylum seekers; and if he will make a statement. [2848]

Mr. McNulty: In February 2005 the Government announced a five-year strategy aimed at increasing the rate of removals of those who have no basis of stay in the United Kingdom. To do this we will:

expand detention capability and the fast-tracking of asylum claims;

manage asylum seekers more closely through various means including the use of electronic monitoring;

place immigration at the heart of our relationship with asylum source countries to secure more returns;

root out abuse of our legal system with a clampdown on unscrupulous advisers;

grant refugees temporary leave initially, while monitoring and reviewing the situation in their home countries;

encourage more voluntary returns.

Mr. Malins: To ask the Secretary of State for the Home Department how many asylum applicants have had their asylum application refused but have not been removed because of successful Human Rights Act 1998 applications in the last 12 months for which figures are available. [2970]

Mr. McNulty: The requested information is not available. This could be obtained only at disproportionate cost by examination of individual case records.

Mr. Malins: To ask the Secretary of State for the Home Department what methods are used by his Department to assess the age of young asylum seekers. [2972]

Mr. McNulty: The Immigration and Nationality Directorate (IND) assesses the age of young asylum seekers using available credible documentary evidence. Failing this IND will assess age based on the claimant's appearance and demeanour, as well as other factors relevant such as medical evidence. IND will usually accept a full Social Service Department age assessments as proof of age.

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps the Government are taking to stop illegal immigration into the UK. [2935]

Mr. McNulty: We have already made significant improvements to border controls by expanding our juxtaposed controls, deploying new detection technology and increasing our airline liaison network overseas. This has had a significant impact both on deterring illegal immigration and reducing asylum intake.

We are also taking new measures to further improve border controls, including a further expansion of the airline liaison network, a more comprehensive intelligence debriefing system, and new mobile search teams. All visa applicants will be fingerprinted by 2008, and pre-boarding checks of all persons entering and leaving the UK will be introduced by 2010.

Gregory Barker: To ask the Secretary of State for the Home Department how many applications were received for indefinite leave to remain in the UK in each year from 1997. [514]

Mr. McNulty: Data on applications for indefinite leave to remain is only available from March 2002. The total number of applications per financial year since April 2002 is as follows:

April to March	*ILR applications*
2002–03	106,880
2003–04	111,640
2004–05	92,100

This data has been rounded to the nearest 10.

Biometric Passports

Lynne Jones: To ask the Secretary of State for the Home Department what estimate he has made of the cost of recording, matching and storing face, fingerprint and iris biometric information for biometric passports; and what methodology he used in making this estimate. [1783]

Mr. McNulty: The UK Passport service is planning to commence the introduction of the new design passport with a single facial biometric in this financial year in line with international standards. The average unit costs for first generation biometric passports with a facial biometric chip were published in the UK Passport Service Corporate and Business Plans 2005–2010. The average unit cost per passport in 2006–07 is estimated to be £67.93. The Regulatory Impact Assessment published along side the Identity Cards Bill on 25 May 2005 contains the latest cost estimates for the next generation of biometric passports and ID Cards, incorporating iris and fingerprints as well as the facial biometric. The current best estimate for the total average annual running costs for issuing second generation biometric passports and ID Cards to UK nationals from 2008, is estimated at £584 million. Around 70 per cent. of these costs would be incurred in issuing second generation biometric passports alone. The costs were calculated in accordance with Government accounting guidelines and Office of Government Commerce best practice.

Cambridgeshire Constabulary

David Howarth: To ask the Secretary of State for the Home Department what plans he has to merge the Cambridgeshire Constabulary with another force; and if he will make a statement. [2777]

Hazel Blears *[holding answer 9 June 2005]*: At the Association of Chief Police Officers' conference on 19 May, my right hon. Friend the Home Secretary made it clear that he did not believe that the current structure of 43 forces was the most efficient and effective arrangement for organising policing in England and Wales. He also made clear that he had no blueprint for force amalgamations, but that the initiative for such amalgamations should ideally be driven locally. To inform the way forward, my right hon. Friend has commissioned Her Majesty's Inspectorate of Constabulary to examine the issue of force structures. As well as looking at the case for structural changes, Her Majesty's Inspectorate of Constabulary will also be examining the case for greater collaboration and co-operation between forces.

David Howarth: To ask the Secretary of State for the Home Department whether the Government has completed legally-binding agreements for the supply of goods and services in respect of *(a)* identity cards and *(b)* the National Identity Register. [2779]

Mr. McNulty *[holding answer 9 June 2005]*: The Government has not completed any legally binding agreements for the supply of goods and services in respect of either the Identity Cards themselves or the National Identity Register. Clause 42 of the Identity Cards Bill authorises the expenses of the Secretary of State in connection with the carrying out of his functions under this Act, to be paid out of money provided by Parliament. Consequently the Secretary of State cannot enter into such legally binding agreements until the Bill has completed the parliamentary process and has received Royal Assent.

Children (School Hours Arrests)

Mr. Hoban: To ask the Secretary of State for the Home Department (1) how many excluded children were arrested during school hours in each of the last five years; [2216]

(2) how many children subject to antisocial behaviour orders had been permanently excluded from school. [2217]

Hazel Blears: The information requested is not available centrally. Information on arrests collected centrally is based on persons arrested for "notifiable" offences by age, sex and ethnicity and does not identify the circumstances of individuals arrested.

Information on antisocial behaviour orders (ASBOs) collected and collated by the Home Office for statistical purposes identifies the age and sex of ASBO recipients but does not identify their personal circumstances.

Correspondence

Mr. Burns: To ask the Secretary of State for the Home Department when he will reply to the letter of 28 February from the hon. Member for West Chelmsford regarding Mrs. L. Broderick and the petition that was enclosed. [1052]

Fiona Mactaggart *[holding answer 26 May 2005]:* There is no record of the hon. Member's letter having been received in the Home Office. He has now sent a copy, and I will respond shortly. The petition was received and has been noted.

Court Orders

John Cummings: To ask the Secretary of State for the Home Department how many *(a)* parenting contracts, *(b)* parenting orders, *(c)* acceptable behaviour contracts and *(d)* antisocial behaviour orders were issued in each local authority area in County Durham in (i) 2003 and (ii) 2004. [1591]

Hazel Blears: The Youth Justice Board collects the numbers of parenting contracts, parenting orders and other voluntary parenting interventions by youth offending team ("YOT") area rather than local authority area. The Durham YOT area covers County Durham.

The statutory powers in the Anti-social Behaviour Act 2003 for YOTs to enter into parenting contracts commenced on 27 February 2004.18 parenting contracts were entered into in the Durham YOT area between 1 April and 31 December 2004. YOTs can intervene with parents on a voluntary basis without a parenting contract. There were 20 such interventions in the area in 2003 and 30 in 2004.

The number of parenting orders in the Durham YOT area is shown in Table one. These all relate to crime or antisocial behaviour by the child. No parenting orders were made in the area during 2003 and 2004 in respect of offences under the Education Act 1996 or on application by the education authority under the Anti-social Behaviour Act 2003.

The number of Acceptable Behaviour Contracts ("ABCs") made in the Wessex area is not known as this information is not collected centrally.

A recent survey carried out by the Home Office and sent to all Crime and Disorder Reduction Partnerships estimated that 5383 ABCs were made between October 2003 and September 2004.

The Home Office collects the number of antisocial behaviour orders by local authority area and the latest available information is provided in Table two.

Table 1: Parenting orders in Durham YOT area

	Number
2003	4
2004	22

Table 2: The number of antisocial behaviour orders issued, as reported to the Home Office, by all courts and where restrictions are imposed within local authority areas in Durham, by age and by period up to 30 September 2004

	2003			*1 January to 30 September 2004*		
Area	*Age 10–17*	*Age 18+*	*Total all ages*	*Age 10–17*	*Age 18+*	*Total all ages*
County Durham	6	6	12	6	10	16
of which:						
Chester-le-Street district council	—	—	—	—	3	3
Derwentside district council	1	4	5	1	6	7
Durham city council	2	1	3	3	—	3
Easington district council	3	1	4	2	—	2
Sedgefield borough council	—	—	—	—	1	1
Teesdale district council	—	—	—	—	—	—
Wear Valley district council	—	—	—	—	—	—

Mr. Hoban: To ask the Secretary of State for the Home Department how many *(a)* parenting contracts, *(b)* parenting orders, *(c)* other voluntary parenting interventions, *(d)* acceptable behaviour contracts and *(e)* antisocial behaviour orders were issued in (i) each local authority area in Hampshire, (ii) Portsmouth and (iii) Southampton in (A) 2003 and (B) 2004. [1311]

Hazel Blears *[holding answer 6 June 2005]:* The Youth Justice Board collects the numbers of parenting contracts, parenting orders and other voluntary parenting interventions by youth offending team (YOT) area rather than local authority area. Wessex YOT includes Hampshire, Portsmouth and Southampton. The number of parenting orders shown in Table 1 also includes orders made in respect of offences under the Education Act 1996 or, since commencement of the powers in the Anti-social Behaviour Act 2003 on application by the education authority, which are described as "Educational".

The statutory powers in the Anti-social Behaviour Act 2003 for YOTs to enter into parenting contracts commenced on 27 February 2004. No such contracts were entered into by YOTs in the Wessex YOT area.

The number of other voluntary parenting interventions made in the area is shown in table 2.The number of Acceptable Behaviour Contracts ("ABCs") made is not known as this information is not collected centrally.

A recent survey carried out by the Home Office and sent to all Crime and Disorder Reduction Partnerships estimated that 5,383 ABCs were made between October 2003 and September 2004.

The Home Office collects the number of antisocial behaviour orders by local authority area and the latest available information is provided in table 3.

Winchester City Council	—	—	—	—	—	1	1

Crime (Rural Areas)

Mr. Fraser: To ask the Secretary of State for the Home Department if he will make a statement on measures to tackle *(a)* crime and *(b)* the fear of crime in rural areas. [1375]

Hazel Blears: Effective and responsive policing at neighbourhood level as well as robust partnership working are both essential parts of our strategy to tackle crime and antisocial behaviour and to sustain the confidence and trust of the public in all parts of the country.

In accordance with this, we are committed to working with the police and other partners at national and local level so that, by 2008 every area in England and Wales, rural as well as urban, will benefit from visible and responsive neighbourhood policing teams. The dedicated teams will be led by police officers and involve special constables, community support officers, volunteers and neighbourhood wardens among others.

In addition, the Rural Policing Fund was introduced part way through 2000–01, when £15 million was made available to enhance the policing service in rural areas at no cost to the metropolitan forces. The fund is currently £30 million per annum benefiting 31 forces. This fund enables rural forces to focus on local crime hot-spots and provide a physical presence to deter criminals and troublemakers.

In terms of fear of crime, whilst it is statistically lower in rural areas, the impact of crime can be greater in small communities, particularly among older people. Comparative statistics between older residents still however produce lower fear of crime rates in rural areas than urban. Work to reduce further the fear of crime is a key component of the Home Office's public service agreement which looks to increase confidence in the Criminal Justice System and reduce antisocial behaviour and the fear of crime.

Crime and Policing (Hammersmith and Fulham)

Mr. Hands: To ask the Secretary of State for the Home Department for what average length of time a police officer in Hammersmith and Fulham was occupied following an arrest before resuming their patrol in the last period for which figures are available. [849]

Hazel Blears: The Commissioner of Police for the Metropolis is responsible for the day to day operational management of the force. I will ensure that he receives a copy of the question and replies directly to the hon. Gentleman's concerns.

Criminal Justice Act

John McDonnell: To ask the Secretary of State for the Home Department by what mechanisms he plans to monitor the implementation of the Criminal Justice Act 2003. [1380]

Fiona Mactaggart: Yes. The regularly published statistics on sentencing, probation and prison will be a source of monitoring information on how the new sentencing framework contained in the Criminal Justice Act 2003 is used.

John McDonnell: To ask the Secretary of State for the Home Department what restrictions will be placed on the number of additional conditions that the courts can place on community orders under the provisions of the Criminal Justice Act 2003. [1382]

Fiona Mactaggart: The community order introduced by the Criminal Justice Act 2003 provides sentencers with a new flexible disposal that can be tailored. A court making a community order may impose one or more of 12 statutory requirements, but the Act requires that these must be the most suitable for the offender; that multiple requirements be compatible with each other, and that the restrictions they impose on the offender's liberty must be commensurate with the seriousness of the offence.

Death Certification

Mr. Heald: To ask the Secretary of State for the Home Department what plans the Department has to change arrangements relating to coroners and death certification. [2854]

Ms Harman: I have been asked to reply.

The Government is committed to reforming the arrangements relating to coroners and death certification and I shall be looking at the best way of taking this forward, building on the work undertaken by the Home Office and taking into account the Reports of the Fundamental Review of the Coroner Service and the Shipman Inquiry.

Drugs (Policy Unit Report)

Joan Ruddock: To ask the Secretary of State for the Home Department what action he is taking to implement the recommendations of the policy unit's report on drugs; and if he will publish the report. [2396]

Paul Goggins: There are no plans to publish the confidential policy advice contained in the strategy unit report on drugs. The Government have a comprehensive and balanced drug strategy which we launched in 1998 and updated in 2002. It sets out the range of policies and interventions to reduce the harm caused by illegal drugs by 2008. We have achieved a great deal across the strategy. Class A drug use among young people is stable. Where there was once virtually no drug treatment, 154,000 people are now being helped and waiting times are at their lowest ever—down 75 per cent. since December 2001. Where previously little attempt was made to break the link between drugs and crime, there is now the Drug Interventions Programme doing just that. Crime is falling, and falling faster in areas operating the programme, with over 1,950 drug-misusing offenders entering treatment in April 2005—the highest number since the programme began. And where in the past communities felt helpless against the problems of drugs there is now a coordinated approach backed by powers such as the ability to close crack houses quickly and seal them for up to six months.

Drunk and Disorderly Convictions

Mr. Crabb: To ask the Secretary of State for the Home Department how many convictions were made for the offence of being drunk and disorderly in England and Wales in each year between 1984 and 2004. [2588]

Hazel Blears: The number of offenders convicted of being drunk and disorderly in England and Wales 1984 to 2003 is contained in the table.

Statistics on court proceedings for 2004 will be published in the autumn.

Number of offenders found guilty of the offence of being drunk and disorderly—England and Wales 1984 to 2003[1]

Offence: Being guilty while drunk of disorderly behaviour *Statute: Criminal Justice Act 1967 S.91*	*Found guilty*
1984	39,965
1985	37,785
1986	31,135
1987	35,557
1988	38,514
1989	36,874
1990	32,276
1991	24,970
1992	20,290
1993	16,170
1994	17,102
1995	16,922
1996	21,218
1997	24,940
1998	26,391
1999	24,872
2000	23,899
2001	23,252
2002	24,136
2003	25,165

[1] These data are on the principal offence basis.

EU Legislation

Mr. Davidson: To ask the Secretary of State for the Home Department what EU legislation was implemented by *(a)* the Data Protection Act 1998, *(b)* the Criminal Justice and Police Act 2001, *(c)* the Disability Discrimination (Providers of Services) (Adjustments from 1999 of Premises) Regulations 2001, *(d)* the Proceeds of Crime Act 2002 and *(e)* the Money Laundering Regulations 2003. [1707]

Hazel Blears: The Data Protection Act 1988 implements the 1995 European Data Protection Directive (Directive 95/46/EC).The Criminal Justice and Police Act 2001 does not implement any specific EU legislation. The Disability Discrimination (Providers of Services)(Adjustment of Premises) Regulations 2001, were introduced to implement provisions of domestic legislation under the Disability Discrimination Act, and not to meet any EU requirements. The Proceeds of Crime Act 2002 (Business in the Regulated Sector and Supervisory Authorities Order 2003 No. 3074) (SI 3074/2004), took into account the 2nd EC Money Laundering

Directive (Directive 2001/97/EC of the European Parliament and of the Council amending Council Directive 91/308/EEC on prevention of the use of the financial system for the purpose of money laundering). The Money Laundering Regulations 2003 completed the implementation in the UK of the 2nd EC Money Laundering Directive (Directive 2001/97/EC).

Gun Crime (London)

Sarah Teather: To ask the Secretary of State for the Home Department how many gun-related crimes there were in *(a)* Brent East and *(b)* each London borough in each year since 1997. [2499]

Hazel Blears: The information requested is not available centrally because statistics on offences involving firearms are only collected at police force area level.

Identity Cards

Mr. Khan: To ask the Secretary of State for the Home Department if he will make a statement on the powers of the National Identity Cards Scheme Commissioner. [4140]

Mr. McNulty: The National Identity Scheme Commissioner's powers are set out in clause 24 of the Identity Cards Bill. The Commissioner will be responsible for overseeing the operation of the Act and any subordinate legislation. The Commissioner will also oversee the arrangements put in place for the purposes of fulfilling functions granted to the Secretary of State or designated documents authorities under the Act and the arrangements made by those people authorised to receive information from the register (for example how the information is used, what it is used for, how is it recorded), except in the cases which would fall within the jurisdiction of the Intelligence Services Commissioner as set out in clause 26. The Commissioner will also be able to oversee the uses to which identity cards are being put.

The Commissioner will report to the Secretary of State as soon as practicable after the end of each calendar year about the carrying out of the Commissioner's functions. The Commissioner may also at any other time make such report to the Secretary of State as he thinks fit. The Secretary of State must lay before Parliament a copy of every report made to him by the Commissioner. This is set out in clause 25 of the Identity Cards Bill.

There is nothing in the Bill to constrain the National Identity Scheme Commissioner from working with any other Commissioner (for example the Information Commissioner or the Commission for Racial Equality) in order to oversee the National Identity Cards Scheme.

Lynne Jones: To ask the Secretary of State for the Home Department what estimate he has made of the cost of providing online verification to validate identity cards and other identity inquiries from user organisations; and what methodology was used to calculate the cost. [1784]

Mr. McNulty: The regulatory impact assessment published along side the Identity Cards Bill on 25 May 2005 contains the latest cost estimates. The current best estimate for the total average annual running costs for issuing passports and ID cards to UK nationals is estimated at £584 million. The cost of providing on-line verification of ID cards is included within this figure, however the costs have not been disaggregated. The costs were calculated in accordance with Government accounting guidelines and Office of Government Commerce best practice.

Keith Vaz: To ask the Secretary of State for the Home Department what assessment he has made of the potential impact the introduction of the identity card scheme may have on civil liberties; and what measures he is taking to protect confidential information. [2402]

Mr. McNulty: The ID card scheme is being designed to help support civil liberty and human rights by fostering a more inclusive society and allowing people to feel part of the community by easily demonstrating their identity and entitlement to reside in the UK, whatever their heritage. There will be very strong controls in place, including full auditing of all on-line checks to deter abuse of the scheme and ensure that any complaints can be fully investigated. The Register will be designed in such a way to ensure that data is stored in a highly secure manner. In addition, the design of the scheme will ensure compliance with legislation such as, among others, the Data Protection Act 1998, the Human Rights Act 1998, the Disability Discrimination Act 1995 & 2005, the Race Relations Act 1976 & 2004 and the Gender Recognition Act 2004. The Government published their response to the Joint Committee on Human Rights interim report on 8 February 2005 which explains in detail why the scheme is in compliance with the European Convention on Human Rights. The Council of Europe's Commissioner for Human Rights said in a report published on 8 June 2005,

The issuing of some form of identifying document to all residents does not seem to me to be objectionable in principle, nor does the right to private life guaranteed by the Article eight of the Convention preclude it. I carry an identity card myself and find it more useful than annoying.

The information which may be recorded on the National Identity Register is strictly limited by Schedule one of the Identity Cards Bill, and only Parliament would be able to change the information to be held. Unauthorised disclosure or modification of information held on the Register is subject to a criminal offence under clauses 29 & 31 of the Bill. The vast majority of checks on the Register will be made with the consent of the individual under clause 14 of the Identity Cards Bill. There are provisions for accrediting authorised users of the verification service. Even with an individual's consent, this clause only allows a limited amount of information from the Register, for example name, address, date of birth, residential status and status of the card, to be verified. Compulsion to carry the card is strictly prohibited in the Bill and clause 18 precludes any organisation from requiring the production of an ID card as sole proof of identity before the move to compulsion (so called compulsion by the 'back door'). Clause 15 only allows regulations to be made establishing a requirement to make use of the ID cards scheme a condition of provision of public services which have to be provided free of charge or social security payments should the scheme become compulsory. For all types of public services identity checks, rules need to be approved by Parliament on a case by case basis.

Circumstances where information can be provided without consent are strictly regulated, as outlined in Clauses 19–23 of the Bill. Organisations which can be provided with information are listed on the face of the Bill and any changes will require Parliament's approval. There will be independent oversight of the ID cards scheme—including how the scheme is used—by the National Identity Scheme Commissioner set up by the Bill and by existing Commissioners such as the Information Commissioner and the Intelligence Services Commissioner.

Mr. Wallace: To ask the Secretary of State for the Home Department from which external consultants his Department received advice on the biometric technology to be used for the proposed identity cards. [2698]

Mr. McNulty: Final decisions on the biometric technology which may be used for the proposed identity cards scheme have yet to be taken. Biometrics technology is advancing all the time and the Identity Cards Programme team are taking advice from a number of organisations who have been developing knowledge in the field. These include the United Kingdom Passport Service (UKPS), Immigration and Nationality Directorate (IND), Communications-Electronic Security Group (CESG), Police Information Technology Organisation (PITO) and the National Physical Laboratory. Additionally, further advice has been received from biometric technology advisors at San Jose University and PA Consulting Group.

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department what assessment he has made of the merits of using DNA identifiers in the proposed identity cards; and if he will make a statement. [3175]

Mr. McNulty: The Identity Cards Scheme is not proposing to use DNA as one of the biometric identifiers. Clause 43 of the Identity Cards Bill defines a biometric as data about a person's external characteristics, eg facial image, iris pattern or fingerprints. DNA is not included in the list of information at schedule one of the Identity Cards Bill that may be held on the National Identity Register and there is no power under clause five of the Bill (applications relating to entries in the register) for the Secretary of State to require a person to provide a DNA sample.

David Howarth: To ask the Secretary of State for the Home Department if he will list the classes of *(a)* public officials and *(b)* others who will have sufficient access to the National Identity Register under the provisions of the Identity Cards Bill to be able to retrieve an individual's record on the basis of a fingerprint or an iris scan. [2781]

Mr. McNulty *[holding answer 9 June 2005]:* Information held on the Register will be used by public and private sector organisations with the consent of the individual for verification purposes. Clause 14 of the Identity Cards Bill limits the information that could be provided with consent, and under these provisions the whole of an individual's record could not be obtained.

An accreditation scheme will be established, so that only those private sector organisations that have been approved will be able to make checks on the National Identity Register on the validity of cards or the registered details.

There are also the required identity checks provision in Clauses 15–19 of the Identity Cards Bill. Parliament will need to agree rules on a service by service basis including whether biometric information would form part of the identity check.

Clauses 19–23 of the Identity Cards Bill set out how the information may be provided without the consent of the individual. The organizations to whom this information may be provided are listed on the face of the Bill, namely: the Security and Intelligence Agencies, the Serious and Organised Crime Agency, Her Majesty's Revenue and Customs and the Police . Parliament must agree the rules under which such information would be provided without consent. The whole of a person's record may be provided to the Security Service, the Secret Intelligence Service, GCHQ and the Serious and Organised Crime Agency provided it is for the purpose of the carrying out of their functions. The Police, Her Majesty's Revenue and Customs and Government Departments, including Northern Ireland Departments which have been specifically approved by Parliament, may only be provided with the whole of an individual's record for purposes connected with the prevention or detection of serious crime. Any other public authorities approved by Parliament to be provided with information without consent, cannot be provided with the whole of a person's record under the provisions of Clause 22 of the Bill.

The Bill ensures that provision of information without consent will be properly regulated and subject to independent oversight.

Specified staff working on the administration of the scheme would have access to individual records but only as required by their duties, and criminal sanctions will apply to any person who discloses information without lawful authority. The offence is punishable by up to two years imprisonment. This is set out in Clause 29 of the Bill.

Mr. Michael Foster: To ask the Secretary of State for the Home Department what plans he has to conduct a computerised model for the national identity card system. [2636]

Mr. McNulty: Research is currently under way which will help to model various parts of the scheme, for example, take-up rates for registering with the scheme. Final decisions on the technical design of the scheme have yet to be taken. The scheme will be subject to rigorous testing but it is not possible to give specific detail of plans until the procurement phase is complete.

Independent Police Complaints Commission

Lynne Featherstone: To ask the Secretary of State for the Home Department how many complaints under active investigation by the Independent Police Complaints Commission are *(a)* less than one-year-old, *(b)* one to three years old, *(c)* three to five years old and *(d)* over five years old; and if he will make a statement. [2891]

Hazel Blears: The Independent Police Complaints Commission (IPCC) is responsible for the managements of the police complaints system. I will ensure that the Chairman receives a copy of the question and replies to you directly. Copies of the letter containing the IPCC's response will be placed in the House Libraries.

Inquests

Vera Baird: To ask the Secretary of State for the Home Department at what age a coroner who was appointed in 1972 must retire. [3523]

Ms Harman: I have been asked to reply

There is no retirement age for coroners.

Vera Baird: To ask the Secretary of State for the Home Department (1) what the average time has been between deaths and inquests in the jurisdiction of the Teesside Coroner during the last 12 months; [3520]

(2) what the number of unfinished cases currently in the jurisdiction of the Teesside Coroner is; and how many are over six months old; [3521]

(3) what the backlog of cases requiring inquests in the jurisdiction of the Teesside Coroner is; and how many are over six months old; [3522]

(4) what the average time has been between deaths and inquests in the coroners' jurisdictions *(a)* in the north-east and *(b)* nationally during the last 12 months. [3524]

Ms Harman: I have been asked to reply.

I will write to my hon. and learned Friend as soon as the information is available.

Kamel Bourgass

Harry Cohen: To ask the Secretary of State for the Home Department what investigations his Department has conducted into the role of Mr. Mohammed Meguerba in the alleged ricin case of Kamel Bourgass and his associates; and if he will make a statement. [2068]

Hazel Blears: The Home Office is not an investigative authority. It is the duty of the police to investigate criminal matters and all enquiries involving those persons alleged to have been involved in the case referred to would have been carried out by the Metropolitan Police Service.

Knife Crime

Mr. Fraser: To ask the Secretary of State for the Home Department whether statistics are kept by police forces for the number of offences of violence against the person committed involving the use of knives. [1440]

Hazel Blears: Details of offences of violence against the person involving knives are generally collected by forces on the individual crime records. The ease with which statistics can be generated will vary depending on individual force computer systems.

Information on offences specifically involving knives is not collected centrally.

Looked-after Children

Mr. Hoban: To ask the Secretary of State for the Home Department how many and what proportion of children subject to *(a)* antisocial behaviour orders and *(b)* acceptable behaviour contracts were looked-after children. [2317]

Hazel Blears: The information requested is not available centrally. Information on antisocial behaviour orders (ASBOs) collected and collated by the Home Office for statistical purposes does not identify the personal circumstances of ASBO recipients. Information on acceptable behaviour contracts (ABCs) is not collected centrally. ABCs are voluntary agreements with no statutory basis. They are therefore unsuitable for central data collection.

Mental Health

Mr. Lansley: To ask the Secretary of State for the Home Department if she will estimate the total number of people who are dangerous by virtue of severe personality disorder (DSPD) in England; and what her estimate is of the number of people who are DSPD in England but cannot be detained under sections 2, 3 or 4 of the Mental Health Act 1983. [234]

Fiona Mactaggart: The most recent estimates indicate that the number of people within the prison population in England and Wales who are likely to meet the Dangerous Severe Personality Disorder (DSPD) criteria is 2,300–2,500. This estimate is based on Prison Service data and on experience with referrals and admissions to the DSPD programme.

We do not have sufficiently robust information to provide a reliable estimate of the numbers of individuals within the community who would be likely to meet the criteria.

At present there also is insufficient information available to provide an indication of the number of people who are DSPD and who cannot be detained under sections two, three or four of the Mental Health Act 1983.

Estimates will be kept under review as further information from the DSPD programme becomes available.

Metropolitan Police

Lynne Featherstone: To ask the Secretary of State for the Home Department what funding per head of population the Metropolitan Police Service received in each year since 1995 from *(a)* central funds and *(b)* precept; and if he will make a statement. [2890]

Hazel Blears: The information is set out in the table.

Government funding for police authorities is chiefly allocated using a funding formula that distributes resources on the basis of relative policing need. The formula is currently being reviewed to ensure it remains up to date. Funding is not, and never has been, distributed on a per capita basis.

£

	Government grant funding[1] per head of population[2]	Precept[3] per head of population[2]
1995–96	209.48	20.72
1996–97	209.63	21.46
1997–98	211.79	24.26
1998–99	212.42	29.38
1999–2000	213.96	31.69
2000–01	227.70	34.56
2001–02	243.70	44.59
2002–03	261.46	49.04
2003–04	282.32	61.80
2004–05	286.29	70.95
2005–06[4]	300.33	75.95

[1] Government funding includes general grant (Home Office police grant, ODPM Revenue Support Grant, National Non Domestic Rates and SSA Reduction Grant). It also includes specific grants: Crime Fighting Fund, Basic Command Unit funding, community support officer funding (including, for 2004–05 and 2005–06, round one of the Neighbourhood Policing Fund), Airwave, DNA Expansion Programme, Counter Terrorism funding, Street Crime Initiative, Special Priority Payments and capital grants.
The Home Office also funds free travel for MPS officers and 75 per cent. of the cost of the London allowance for all qualifying officers. .These figures are not included within the totals.
[2] Source for resident population figures: Office of the Deputy Prime Minister as used in the calculation of the police funding settlements.
[3] Source for precept information: Office of the Deputy Prime Minister.
[4] Estimates for 2005–06.

Sarah Teather: To ask the Secretary of State for the Home Department what the rate of Metropolitan Police officer abstractions was from each London borough for *(a)* counter-terrorism, *(b)* special operations and *(c)* public order event policing work in each of the last 12 months; what the average rate was for each of the last five years; and if he will make a statement. [2521]

Hazel Blears: The information requested is not collected centrally.

Minicabs

Sarah Teather: To ask the Secretary of State for the Home Department how many attacks were committed by the drivers of unlicensed minicabs in each year since 1997. [2409]

Fiona Mactaggart: The information requested is not collected centrally.

Mobile Telephone Thefts (London)

Sarah Teather: To ask the Secretary of State for the Home Department how many thefts of mobile telephones there were in each London borough in each year since 1997. [2480]

Hazel Blears: The information requested is not collected centrally.

Motoring Offences (London)

Sarah Teather: To ask the Secretary of State for the Home Department how many people were convicted for motoring offences in each of the last five years in *(a)* Brent East and *(b)* each London borough. [2473]

Paul Goggins: The available information is contained in the table and gives the number of offenders found guilty for motoring offences by magistrates courts/ London borough, 1999 to 2003. Statistics on court proceedings for 2004 will be published in the autumn.

Number[1] of offenders found guilty of motoring offences[2] by police force area and magistrates courts/London borough 1999 to 2003

Magistrates courts/borough	1999	2000	2001	2002	2003

n/a = not applicable.
[1] These data are on the principal offence basis.
[2] Includes indictable and summary motoring offences.
[3] Cases included with adult courts from 2001.

National Identity Register

Mr. Khan: To ask the Secretary of State for the Home Department if he will make a statement on how the information stored in the National Identity Register will be used. [4132]

Mr. McNulty: The information that may be held on the National Identity Register is strictly limited by the Bill. This is listed in schedule one of the Bill and includes personal information such as name address date and place of birth. Only Parliament would be able to change the information which could be held by the scheme. The purposes for which the register is established and maintained are confined to the statutory purposes which are clearly set out in clause one of the Bill.

Information held on the register will be used by public and private sector organisations with the consent of the individual for verification purposes. Clause 14 of the Identity Cards Bill limits the information that could be provided with consent, and under these provisions the whole of an individual's record could not be obtained.

An accreditation scheme will be established, so that only those private sector organisations that have been approved will be able to make checks on the National Identity Register on the validity of cards or the registered details.

There are also the required identity checks provision in clauses 15–19 of the Identity Cards Bill. Parliament will need to agree rules on a service by service basis including whether biometric information would form part of the identity check.

Clauses 19–23 of the Identity Cards Bill set out the how information may be provided without the consent of the individual. The organisations to whom this information may be provided are listed on the face of the Bill, namely: the Security and Intelligence Agencies, the Serious and Organised Crime Agency, Her Majesty's Revenue and Customs and the police. Parliament must agree the rules under which such information would be provided without consent. The whole of a person's record may be provided to the Security Service, the Secret Intelligence Service, GCHQ and the Serious and Organised Crime Agency provided it is for the purpose of the carrying out of their functions. The police, Her Majesty's Revenue and Customs and Government Departments, including Northern Ireland Departments which have been specifically approved by Parliament, may only be provided with the whole of an individual's record for purposes connected with the prevention or detection of serious crime. Any other public authorities approved by Parliament to be provided with information without consent, may be provided with such information for purposes connected with the carrying out of any prescribed functions of that department, or of a Minister in charge of it. These public authorities cannot be provided with the whole of a person's record, as under the provisions of clause 22, they cannot be provided with information listed in paragraph nine, schedule one of the Bill.

The Bill ensures that provision of information without consent will be properly regulated and subject to independent oversight.

Mr. Khan: To ask the Secretary of State for the Home Department what the cost will be for individuals who need to amend their details on the National Identity Register. [4138]

Mr. McNulty: The Identity Cards Bill provides powers to the Secretary of State to set fees in respect of functions that are carried out under this Act. This is outlined in clause 37 of the Bill. However no decisions have been taken on the fee structure and Parliament will have the final say on the regulations to impose fees, as set out in clause 37(4) of the Bill.

Nazi War Criminals

Mr. Dismore: To ask the Secretary of State for the Home Department pursuant to the letter from the then Immigration Minister of 8 February to the hon. Member for Hendon, on how many alleged Nazi war criminals who may be living in the UK his Department holds personal information; if he will pass the information to the Metropolitan police anti-terrorism branch; whether the information held includes information on any of those individuals named in the list communicated to him by the hon. Member for Hendon; and if he will make a statement. [2718]

Mr. McNulty: Personal information held by the Immigration and Nationality Directorate about alleged Nazi war criminals who may be living in the United Kingdom is already available for inspection by the Metropolitan police in connection with their investigations. Since the passage of the War Crimes Act 1991, a large number of personal files have been examined by the police in connection with investigation of possible war crimes committed during the Second World War. I understand my right hon. Friend passed

a list of alleged Nazi war criminals to the Metropolitan police earlier this year. That list is currently under consideration by the Metropolitan police who are checking it against material already in the possession of their Crimes against Humanity Unit and liaising with other Government Departments including the Immigration and Nationality Directorate to establish the best way forward. The Metropolitan police will write to my hon. Friend to inform him of their conclusions once this process is complete.

Passports

Mr. Gregory Campbell: To ask the Secretary of State for the Home Department if he will ensure that people who have resided in Northern Ireland for a certain length of time, but were born in the Irish Republic, can obtain a British passport at the same cost as those who were born in Northern Ireland. [3026]

Mr. McNulty: The standard fee of £42.00 for adults, or £25.00 for children, is payable for all passports issued to British nationals who are resident in the United Kingdom of Great Britain and Northern Ireland at the time of the application.

Police

Mr. Fraser: To ask the Secretary of State for the Home Department what assessment he has made of the impact of best value legislation on the administrative burden faced by police forces. [1372]

Hazel Blears: Best Value legislation was introduced in 1999 by virtue of Section 1(1)*(d)* of the Local Government Act 1999. The legislation put a statutory responsibility upon police authorities to achieve continuous improvement through application of the Best Value approach, carrying out structured Best Value Reviews (BVRs) of all aspects of police service delivery. Her Majesty's Inspectorate of Constabulary (HMIC) has conducted a significant number of inspections of BVRs each year since the introduction of Best Value. All HMIC Inspection reports and recommendations to police forces and authorities have been published on the HMIC website. A report summarising the work carried out and identified good practice has been submitted to the Police Minister on an annual basis. To the best of HMIC's knowledge, there has not been a comprehensive evaluation of the overall impact of Best Value legislation within policing therefore it is difficult to fully quantify the direct benefits to the Police Service or whether the legislation has significantly improved or increased the bureaucratic burden on police forces and police authorities. HMIC has an expectation forces and police authorities should be proactive in securing continuous improvement giving due regard to economy, efficiency and effectiveness. Best Value is one of the many tools that is considered within this process and HMIC has worked with the Service to ensure that, wherever possible, the full benefits of the approach are realised while avoiding the potential downside of excessive bureaucracy.

Sarah Teather: To ask the Secretary of State for the Home Department which London boroughs' police community consultative groups have had their funding withdrawn in each year since 2000 [2462]

Hazel Blears: The Commissioner of Police for the Metropolis is responsible for the operational management of, and allocation of funding by, the force. I will ensure that he receives a copy of the question and replies to you directly in response to your concerns.

Mr. Steen: To ask the Secretary of State for the Home Department if he will list local authorities in England which have provided funds to police authorities for the purchase of additional police community support officers (PCSOs); how many PCSOs have been provided under such purchasing agreements; and what funding stream was used by each local authority to pay for the additional PCSOs. [2923]

Hazel Blears *[holding answer 9 June 2005]:* This information is not collected centrally. Community support officers (CSOs) are employed by police authorities. At the end of March 2005, there are over 6,300 CSOs in post. Of these 4,367 posts are supported by some degree of Home Office funding. The Neighbourhood Policing Fund will assist forces to increase the number of CSOs to 24,000 by 2008.

Mr. Amess: To ask the Secretary of State for the Home Department if he will list the courts in which completed proceedings against police officers from Essex have taken place in each year since 2000. [1244]

Hazel Blears: The Chief Constable of the Essex police force is responsible for the day-to-day operational management of the force. I will ensure that he receives a copy of the question and replies to you directly in response to your concerns.

John Hemming: To ask the Secretary of State for the Home Department how many deaths in police custody have occurred in each police authority in each year since 1990; and in how many cases the person who died was considered to be suffering from a mental illness. [1616]

Hazel Blears: An annual published breakdown by force area of those who have died during or following contact with the police for each of the last five years, is attached at annex A. Prior to 1997, the Home Office did not collect the statistics by force area. The breakdown is not structured to provide specific information on those with mental health problems. However, since 1997 there have been some deaths of those detained by the police under section 136 of the Mental Health Act 1983, and these figures are listed separately in the tables at annex A. Mental health problems may be a factor in other deaths or—particularly those that are recorded under category three (deaths in or following police custody).

Mr. Drew: To ask the Secretary of State for the Home Department (1) whether he has completed his assessment of the McFarland Report on the performance and structure of the Police Information Technology Organisation; and when he intends to make a statement; [2176]

(2) whether he plans to publish a summary of the McFarland Report on the performance and structure of the Police Information Technology Organisation. [2177]

Hazel Blears: The Review's report has been completed and is still under consideration by Ministers. Once Ministers have considered the content of the report, the report will be published and copies of the final report will then be available in the Libraries of both Houses. A Ministerial statement will be made to Parliament in due course.

Keith Vaz: To ask the Secretary of State for the Home Department what the Government's plans are for the modernisation of the police service; and if he will make a statement. [561]

Hazel Blears: The Government's plans for a modernised police service—which is more responsive, visible, accessible and accountable to local communities—were set out in the November 2004 White Paper 'Building Communities, Beating Crime'. Key elements of the reform programme include: ensuring every community in England and Wales benefits from neighbourhood policing by 2008; building a stronger customer service culture within the service; strengthened accountability arrangements and a greater role for local people in determining how their communities are policed; further reductions in bureaucracy; ensuring greater national consistency on issues such as IT; consideration of whether we have the right policing structures to meet present and future challenges; and further modernisation of the workforce to enable the service to deliver these changes.

Sarah Teather: To ask the Secretary of State for the Home Department how many police stations there were in London in each of the last five years. [2526]

Hazel Blears: The Commissioners of Police of the metropolis and for the City of London are responsible for the day-to-day operational management of the police forces in London. I will ensure they receive a copy of the question and reply directly to you in response to your concerns.

Keith Vaz: To ask the Secretary of State for the Home Department if he will make a statement on the policing targets instructing officers to make four arrests per month for specified offences or face the prospect of disciplinary action. [563]

Hazel Blears: There are no Government performance targets for police forces in respect of the number of arrests to be made. The individual performance regimes for individual forces and how they are managed are rightly a matter for the chief constable and their police authority.

Prisons

Andrew Rosindell: To ask the Secretary of State for the Home Department how many prison inmates have escaped from prisons in England and Wales in each of the last eight years. [2908]

Fiona Mactaggart: The following performance indicators identify an escape as one where (i) the prisoner is not recaptured within 15 minutes or (ii) is recaptured within 15 minutes but has committed an offence other than escape before recapture.

Table 1: Number of escapes from prisons (includes escapes from contracted out prisons)

	Number
1997–98	23
1998–99	28
1999–2000	30
2000–01	11
2001–02	15
2002–03	5
2003–04	10
2004–05	12

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department in what circumstances female prison officers are expected to search male prisoners; and if he will make a statement. [1872]

Fiona Mactaggart *[holding answer 6 June 2005]:* Female prison officers are expected to perform rub down searches on male prisoners on a routine basis. Staff working in high security establishments will carry out more frequent rub down searching than lower category establishments.

Female officers are not allowed to view a strip search of a male prisoner or participate in one.

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department how many appeals his Department has made against tribunal decisions which have compensated female prison officers for having been made to search male prisoners in the last 10 years; and if he will make a statement. [1873]

Fiona Mactaggart *[holding answer 6 June 2005]:* In the last 10 years, one female prison officer successfully sought an employment tribunal ruling that she was unfairly being asked to rub-down search male prisoners. The decision made by that tribunal is being appealed by the Prison Service.

Probation

Mr. Hancock: To ask the Secretary of State for the Home Department what plans he has to make the employees of probation boards in England and Wales civil servants. [329]

Fiona Mactaggart: Work on the future organisational design of the National Offender Management Service has still to be concluded.

Mr. Amess: To ask the Secretary of State for the Home Department how many people have been employed in the Probation Service in *(a)* Essex and *(b)* Southend in each year since 2000. [2136]

Fiona Mactaggart: The requested information is not available for the full period required. Data collected prior to 1 April 2003 is unreliable, and is not directly comparable with the more accurate figures collected since that time. The following figures show full-time equivalent (FTE) figures for each Quarter from 1 April 2003 to 31 March 2005.

Staffing information is collected by probation area, and is not collected centrally in sufficient detail to allow figures for Southend to be presented separately. The staffing figures are provided for the Essex probation area only.

Essex probation area	FTE in post
30 June 2003	385.4
30 September 2003	383.7
31 December 2003	393.1
31 March 2004	399.1
30 June 2004	414.7
30 September 2004	406.5
31 December 2004	432.6

Mr. Amess: To ask the Secretary of State for the Home Department what the cost of the Probation Service in *(a)* Southend and *(b)* Essex was in each year since 2000. [2137]

Fiona Mactaggart: The table shows the net expenditure for the Essex probation area in each year since 2000.

Data on Probation Service costs are collected by probation area. The figures collected centrally are not in sufficient detail to allow costs for Southend to be presented separately.

Essex probation area

Financial year	Net expenditure (£000)
2000–01	10,786.20
2001–02	13,554.20
2002–03	14,660.80
2003–04	15,308.30

Race Equality Council (Gloucestershire)

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department if he will make a statement on the *(a)* work of and *(b)* funding in 2005–06 for the Race Equality Council for Gloucestershire. [689]

Fiona Mactaggart *[holding answer 24 May 2005]:* Gloucestershire Race Equality Council (REC) was unsuccessful in its application for funding for this year from the Commission for Racial Equality's Getting Results grant programme. However the Commission for Racial Equality (CRE) is planning to build the capacity of the voluntary and community sector, including RECs, to deliver local race equality services in the areas of most need. The CRE has set aside £250,000 for this work. I welcome this development and hope it will benefit Gloucester.

Secure Training Centres

Dr. Vis: To ask the Secretary of State for the Home Department how many children were received into each secure training centre *(a)* on remand and *(b)* under sentence in each year since they opened, broken down by age. [899]

Fiona Mactaggart: The number of young people received into each secure training centre between 1 January 2000 to 30 April 2005 is shown in the tables. Information on admissions prior to 1 April 2000 is not available centrally.

Admissions to secure training centres

2000

Sure Start

Mr. Gibb: To ask the Secretary of State for Education and Skills how many second phase Sure Start's children's centres are planned in each local authority during 2006–08; and how much funding will be provided to each local authority for this purpose. [1812]

Beverley Hughes: A total of £947 million funding has been made available to local authorities in the second phase of the children's centres programme. This comprise of £405,523,772 capital and £542,205,843 revenue. The capital allocation is to contribute to the funding of new children's centre places to be created in phase two, whereas the revenue allocation is to fund both new and existing centres created in phases 1 and 2. Local authorities will develop their children's centres by building on existing provision such as Sure Start local programmes, neighbourhood nurseries and primary schools which have already benefited from a number of funding streams. The following table sets out the funding allocated to each local authority.

Local authority	*Total number of CCs required in 2006–08*[1]	*Total capital 2006–08, including 20 per cent. London uplift*[2]	*Total revenue 2006–08 including 10 per cent. London uplift*[2]
Barking and Dagenham	6	2,388,828	5,105,821

Total	1,823	405,523,772	542,205,843

[1] These are subject to negotiation if authorities with large targets wish to defer some centres to phase 3;

[2] Excluding rural uplift. Authorities with rural areas will be advised of their allocations shortly;

[3] Allocations yet to be agreed—due to the small number of children in those authorities we are working with the authorities to determine suitable targets and funding.

Tube Ticket Touting

Sarah Teather: To ask the Secretary of State for the Home Department how many arrests were made outside tube stations in *(a)* Brent East and *(b)* each London borough for ticket touting in each year since 1997. [2510]

Fiona Mactaggart: In England and Wales ticket touting outside tube stations is not in itself an offence.

Violent Crime (London)

Sarah Teather: To ask the Secretary of State for the Home Department how many violent crimes against the person were committed in *(a)* Brent East and *(b)* each London borough in each year since 1997. [2515]

Hazel Blears: The available information relates to Crime and Disorder Reduction Partnership (CDRP) areas in the Metropolitan Police force area and is available on the Home Office website. Data at CDRP level is only available from 1999.

The appropriate links are as follows:

Data for 2002–03 and 2003–04:

http://www.homeoffice.gov.uk/rds/pdfs04/cdrptabs.xls

Data for 2000–01 and 2001–02:

http://www.homeoffice.gov.uk/rds/pdfs2/hosb702chap7.xls Table 7.06

Data for 1999–2000:

http://www.homeoffice.gov.uk/rds/pdfs/1200data2.xls -Table 7.

Weapon Sales

John Mann: To ask the Secretary of State for the Home Department if he will impose restrictions on the sale of crossbows and swords. [1662]

Hazel Blears: There are restrictions on the sale of these weapons to young people and it is also an offence to have an offensive weapon in a public place without lawful authority or reasonable excuse. It is already an offence to sell knives and other articles with a blade or point including swords to a person under 16. We are raising this to a person under 18 in the Violent Crime Reduction Bill. We condemn the misuse of crossbows and swords and will keep the powers to deal with offensive weapons under review as the Bill goes through Parliament.

Youth Justice Bill

Helen Jones: To ask the Secretary of State for the Home Department when his Department will publish the draft Youth Justice Bill. [2724]

Hazel Blears *[holding answer 9 June 2005]:* We are currently working on a range of youth justice provisions which will be introduced in one or more Bills as soon as parliamentary time permits.

CONSTITUTIONAL AFFAIRS

Community Justice Facilities

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on her Department's plans to establish community justice facilities in Salford. [1772]

Ms Harman: A community justice initiative is being developed in Salford. The initiative will focus on antisocial behaviour and increasing community confidence in the criminal justice system. The initiative will be operational from November 2005. Salford is the second community justice initiative in the country.

Compensation Claims Companies

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the Department's plan to regulate advertising by compensation claims management companies. [2830]

Bridget Prentice: We are committed to tackling irresponsible claims advertising by claims management companies and solicitors that raises false hopes of compensation and encourages people to bring unnecessary claims. We are considering what action needs to be taken to address this.

Compulsory Voting

Mr. Gordon Prentice: To ask the Minister of State, Department for Constitutional Affairs whether the review of electoral systems will examine the merits of compulsory voting. [3171]

Ms Harman: The Department for Constitutional Affairs is conducting an official level review of the experiences of the new systems for the election of members of the Scottish Parliament, the Welsh Assembly, the European Parliament and the Greater London Assembly and Mayor. This review is not considering the case for compulsory voting.

Coroners Courts

Mr. Greg Knight: To ask the Minister of State, Department for Constitutional Affairs whether she plans to hold a review of the *(a)* operation and *(b)* scope of coroners courts; and if she will make a statement. [3699]

Ms Harman: The Government are committed to reforming the arrangements relating to coroners and death certification and these include the operation and scope of coroners courts. I shall be looking at the best way of taking this forward, building on the Home Office Position Paper and taking into account the Reports of the Fundamental Review of the Coroner Service and the Shipman Inquiry.

Court House (Colchester)

Bob Russell: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on progress with the proposed new court house in Colchester. [3091]

Ms Harman: The Essex magistrates court scheme, of which Colchester is part, continues to be within the programme of new court projects. However, my Department is still finalising investment plans, as part of the development of a business strategy for Her Majesty's Court Service. This is due to be produced by the end of summer 2005 and a further announcement will be made shortly thereafter.

Deputy District Judges

Mr. Malins: To ask the Minister of State, Department for Constitutional Affairs (1) how many deputy district judges (magistrates courts) were in post on 1 January in each of the last five years; [2832]

(2) how many district judges (magistrates courts) were in post on 1 January in each of the last five years; and what plans she has to increase the number. [2833]

Ms Harman: The number of district judges (magistrates courts) (DJ(MC)) and deputy district judges (magistrates courts) (DDJ(MC)) in posts on 1 January from 2001 to 2005 was as follows.

	DJ(MC)	DDJ(MC)
2001	91	169
2002	95	162
2003	105	147
2004	106	174
2005	124	149

Existing plans allow for a total number of DJ(MC) posts in 2005–06 of 140 in 2006–07 of 145 and in 2007–08 of 150. The number created in any year is however subject to the business needs of Her Majesty's Courts Service. The total number of approved posts at this time in England and Wales is 137.

Electoral Administration

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs (1) what plans the Government have to ringfence Government funding of local authorities' electoral administration budgets; [3610]

(2) what plans the Government have to introduce performance targets for local authority electoral administration departments. [3611]

Ms Harman: The Government have no plans to ringfence Government funding of local authorities' electoral administration budgets. The Government intend to include in the forthcoming Electoral Administration Bill a power to allow the Electoral Commission to set performance standards for electoral administration and to require reports to be prepared on how they have been met.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the Government's plans to *(a)* introduce clearer rules for candidates and political parties and *(b)* reduce bureaucracy for smaller parties and independent candidates. [3612]

Ms Harman: The Government's response to The Electoral Commission's report "Voting for change—An electoral law modernisation programme", published in December 2004 sets out how we propose to take forward the Commission's proposals relating to candidates and political parties. The necessary legislative provisions will be included in the Electoral Administration Bill which was announced in the Queen's Speech on 17 May.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what discussions Ministers have held over the last 12 months with the Electoral Commission regarding individual voter registration. [1769]

Ms Harman: Ministers in my Department have held various meetings with the Electoral Commission in the last 12 months where electoral issues, including individual voter registration were discussed.

Mr. Gordon Prentice: To ask the Minister of State, Department for Constitutional Affairs how many people have been imprisoned in each year since 1995 for offences under electoral law. [656]

Ms Harman: We are aware of the following prosecutions, although, this information is not collected centrally. The cases include Hackney where two councillors were imprisoned in 2001 for three years each for registering electors falsely. In Blackburn, a Labour councillor pleaded guilty to conspiracy to defraud the returning officer. He was sentenced to three years and seven months on 8 April 2005. In Guildford, a former Conservative councillor was jailed for four months in April 2004 for forging ballot papers in a local election. These prosecutions even though related to electoral matters were not specific electoral offences.

Derek Wyatt: To ask the Minister of State, Department for Constitutional Affairs how many prosecutions there have been in *(a)* the UK, *(b)* Kent and *(c)* Swale for not registering to vote since 1997. [2653]

Ms Harman: It is not an offence in electoral law to fail to register to vote although it is an offence to fail to complete and return an annual registration canvass form to an electoral registration officer (ERO). Local EROs are responsible for compiling a register of eligible electors for their registration area and would hold locally any records regarding prosecutions for failure to supply information requested. I understand there have been none since 1997 in Swale but such information is not collected centrally either for Kent or the UK.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what arrangements are in place for obtaining copies of the marked electoral register in *(a)* Scotland, *(b)* Northern Ireland and *(c)* England. [3613]

Ms Harman: In Scotland, the marked electoral registers produced at the 2005 general election are stored by the relevant sheriff clerk of the sheriff court. In Northern Ireland, they are stored by the Clerk of the Crown for Northern Ireland, in Belfast. In England (and Wales) they are stored by Pickfords Records Management, at their site in Bow, London, on behalf of the Clerk of the Crown. Applications to view or obtain copies of them should be made to those authorities.

Family Justice

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the Department's plans to reform the family justice system. [2819]

Bridget Prentice: The Government published 'Parental Separation: Children's needs and Parents' Responsibilities, Next Steps' on 18 January, which sets out plans to implement a range of measures to help separating parents in dispute reach agreement about future parenting arrangements.

The Government's plans include improvements in the information available to parents and greater use of alternative dispute resolution mechanisms such as mediation and conciliation at the start of court proceedings. The Family Resolutions Pilot Project is testing out new arrangements for handling the more intractable contact cases. The Government intends to promote these methods as better ways to reach agreement than through contested court hearings.

Also on 18 January, the former President of the Family Division issued the Private Law Programme, designed to improve judicial case management and reduce delays in the family justice system.

Legislation (the Children and Adoption Bill) will be taken forward in the 2005–06 parliamentary session to give the courts more flexible powers to help improve the enforcement of court orders and facilitate child contact. The draft Bill underwent pre-legislative scrutiny.

Gravestones

Anne Main: To ask the Secretary of State for the Constitutional Affairs (1) what guidance he provides for local authorities on the need to consult families of the deceased before *(a)* levelling, *(b)* disturbing and *(c)* flattening gravestones or markers; [3631]

(2) how many people have been *(a)* killed and *(b)* seriously injured by falling or unstable gravestones in (i) St. Albans and (ii) Hertfordshire in the last 25 years. [3260]

Ms Harman: Advice has been sought from relevant professional bodies on issues arising from unsafe memorials and we are currently considering what guidance might now be given to local authorities and others on these issues, including the need to consult families.

Information on the total number of deaths and serious injuries is not recorded centrally, but I understand that, sadly, as at June 2004 there have been at least three deaths and 18 serious injuries attributed to unstable memorials in recent years. I understand that none of these incidents has occurred in St. Albans or in Hertfordshire.

High Court Applications (Wills)

Mr. Alan Williams: To ask the Minister of State, Department for Constitutional Affairs what records are kept of the number of applications to the High Court to seal a will in order to prevent it being made public. [3106]

Ms Harman: Records are not maintained centrally of the number of applications to the High Court to seal a will in order to prevent its being made public. That information could be obtained only at disproportionate cost to the Department.

Judicial Pensions Bill

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the Department's plans to bring forward a Judicial Pensions Bill. [2820]

Ms Harman: The inclusion of a Judicial Pensions Bill in the legislative programme for the 1st Session of the new Parliament, was announced at the time of the Queen's Speech on 17 May 2005.

Legal Aid

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the Department's plans to reduce the proportion of the legal aid budget expended on very high cost criminal cases. [2813]

Bridget Prentice: The Government and the Legal Services Commission are committed to securing value for money in all high cost legal aid cases, particularly very high cost criminal cases. We are addressing very high cost criminal cases in two ways. First, the fundamental legal aid review announced in May 2004, has been examining wider processes on criminal legal aid costs so that better outcomes for those who need publicly funded legal services can be achieved and efficient services delivered for the taxpayer. Second from September 2003 the Legal Services Commission has brought all new eligible very high cost criminal cases under individual case contracts. In these cases all work must be set out in a stage plan in advance, so that the Legal Services Commission can ensure that the work done is proportionate. The Legal Services Commission calculates that during 2003–04 savings of around £26.5 million were achieved.

Magistrates

Mr. Malins: To ask the Minister of State, Department for Constitutional Affairs what percentage of trials in magistrates courts in the Greater London area were ineffective on the date fixed for trial in the last 12 months for which figures are available. [2964]

Ms Harman: In the last 12 months (financial year April 2004-March 2005) 31.7 per cent. of trials in the magistrates courts Greater London area became ineffective on the date of trial. In comparison to this 37.1 per cent. of trials became ineffective on the date of trial for the financial year April 2003-March 2004. This is a 14.8 per cent. improvement in performance.

Parliamentary Boundaries

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what the timetable is for parliamentary boundary changes in *(a)* England and *(b)* Wales. [3609]

Ms Harman: The Parliamentary Boundary Commission for Wales submitted its report recommending boundary changes for Westminster parliamentary and National Assembly of Wales constituencies in January 2005. That report will be laid before Parliament shortly. In its last annual report, the Parliamentary Boundary Commission for England indicated that, at its current rate of progress, it expected to publish its report on English parliamentary boundaries in the late summer of 2006. Once implemented, no changes will take effect until the next Westminster parliamentary general election, or the next general election to the National Assembly of Wales.

Personal Injury Cases

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what plans the Department has to raise the limit on small claims for personal injury cases. [2824]

Bridget Prentice: The Better Regulation Task Force in its report, 'Better Routes to Redress' recommended that research should be carried out into the potential impact of raising the small claims limit for personal injury cases from the current limit of £1,000. The Government indicated that it would carry out this research and would also consider other options for dealing with these claims in a more proportionate and cost effective way. That research is currently under way and consultation will take place on any proposals which may emerge.

Negligence

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on plans to make statutory changes to the common law tort of negligence. [2822]

Bridget Prentice: The Government have announced that they will introduce legislation in the Compensation Bill to clarify the existing common law of negligence to make clear that those who take reasonable care or exercise reasonable skill cannot be held liable for untoward incidents.

Victims of Crime

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what plans the Department has to grant the victims of certain crimes and their families a right to representation and advocacy in court. [2814]

Ms Harman: We are looking at how we could provide legal advice and representation for victims of certain crimes. We are now working up proposals, with other ministerial colleagues, and will make an announcement in due course.

Voter Registration

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs what the Government's policy is on individual voter registration. [2948]

Ms Harman: I refer the hon. Member to the reply I gave on 24 May 2005, *Official Report*, column 84W.

Mr. Robathan: To ask the Minister of State, Department for Constitutional Affairs how many prosecutions there have been under the Representation of the People Act 2000 for failing to register to vote. [3033]

Ms Harman: It is not an offence in electoral law to fail to register to vote although it is an offence to fail to complete and return an annual registration canvass form to an electoral registration officer (ERO). Local EROs are responsible for compiling a register of eligible electors for their registration area and would hold locally any records regarding prosecutions for failure to supply information requested.

EDUCATION AND SKILLS

Academies

Mr. Hoban: To ask the Secretary of State for Education and Skills what criteria will be used to determine where new Academies will be placed. [4094]

Jacqui Smith: The location of Academies is determined on an individual basis taking into account historic educational performance, the level of

deprivation in the area concerned, parental demand as well as the quality and suitability of each specific proposal.

Adult Education Funding

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what budgets have been agreed between her Department and the Learning and Skills Council for adult education for each region of England for *(a)* 2004–05 and *(b)* 2005–06. [3243]

Maria Eagle: The Department allocates funds for education and training in the post-16 learning and skills sector to the Learning and Skills Council (LSC). Of the LSC's 2004–05 budget, £2.466 billion was allocated to adult education, including adult FE provision, Adult Community Learning and Work Based Learning. Of the 2005–06 budget, £2.499 billion was allocated to adult education. It should be noted however that allocations for 2005/06 academic year are still being finalised, and the figures for both FE and Work Based Learning may change.

The Department does not agree specific regional budgets with the LSC for adult education.

A-levels

Mr. Hoban: To ask the Secretary of State for Education and Skills (1) what actions her Department is taking to develop extended projects at A-level; [3850]

(2) when she intends to introduce extended projects at A-level. [3851]

Jacqui Smith: We have asked the Qualifications and Curriculum Authority (QCA) to take forward work on developing extended projects in consultation with employers and higher education institutions. Consultation will extend into the autumn.

Different models of the extended project will be piloted from September 2006, and QCA will evaluate the outcomes in 2007 and 2008.

Autism

Charles Hendry: To ask the Secretary of State for Education and Skills if she will list the schools which provide specialist education for children with autism; and which are *(a)* residential and *(b)* non-residential. [3662]

Maria Eagle: The information requested has been placed in the Libraries.

Building Schools for the Future

Mr. Hoban: To ask the Secretary of State for Education and Skills (1) what account was taken of the school repair backlog when prioritising schools under the Building Schools for the Future programme; [3779]

(2) what the target dates are for agreeing the Education Vision for projects in *(a)* waves 4–6, *(b)* waves 7–9, *(c)* waves 10–12 and *(d)* waves 13–15 of the Building Schools for the Future initiative. [3989]

Jacqui Smith: We have set up Building Schools for the Future to change the 'patch and mend' approach to the school repair backlog, which unfortunately built up over many decades of underinvestment. Repair backlog was not a criterion for choosing projects. But local authorities were asked to reflect repair backlog at their schools in their proposals for wave 1 and expressions of interest for waves 2 and 3. This information fed into our allocations to each project. We expect each local authority to carry out options appraisals to decide how best to address the condition and other issues at each school, and to invest appropriately.

Assuming that spending reviews continue in the current pattern, we intend to announce two further waves of investment after each spending review. So, for example, waves four and five would be announced in late 2006, waves 6 and 7 in 2008, and so on. Our planning assumption is that local authorities will submit education visions for agreement within three months of a project starting.

Mr. Hoban: To ask the Secretary of State for Education and Skills how many *(a)* new schools, *(b)* replacement schools and *(c)* refurbished schools are to be provided in each of the (i) Pathfinder and (ii) wave one Building Schools for the Future projects. [3780]

Jacqui Smith: For Building Schools for the Future pathfinder projects the breakdown of new build and refurbished schools, (all of which are replacement schools) is as follows:

Authority	*Number of new build schools*	*Number of refurbished schools*
Bradford	3	—
Bristol	4	—
Greenwich	3	2
Lewisham	1	2
Sheffield	3	6

For Building Schools for the Future wave one projects, current plans indicate that there will be one new school (as in additional provision) provided in Waltham Forest, with the breakdown of new build and refurbishment in replacement schools as follows:

Authority	*Number of new build schools*	*Number of refurbished schools*
Knowsley	8	—
Lancashire	9	—
Leeds	5	9
Leicester	6	12
Manchester	8	8
Newcastle	3	7
Newham	4	11
Solihull	4	—
South Tyneside	3	9
Stoke	9	15
Sunderland	5	4
Waltham Forest	2	5

Mr. Hoban: To ask the Secretary of State for Education and Skills if she will list the private sector partners involved in each successful bid for Building Schools for the Future. [3782]

Jacqui Smith: Eight projects in wave one of Building Schools for the Future are currently in procurement but none has reached the stage of appointing a preferred bidder yet. We expect the most advanced projects to appoint preferred bidders in October this year

Bullying

Mr. Hoban: To ask the Secretary of State for Education and Skills what assessment she has made of the prevalence of bullying in schools in England. [3286]

Jacqui Smith: Data on bullying are not collected centrally and there is no reliable basis for an estimate of prevalence. Bullying cases appear to be reported more often now than previously but we have no hard evidence that bullying is increasing or that it is affecting more children. Indeed, as children and young people increasingly feel safe at school to report bullying, and confident that it will be tackled effectively and sensitively, it is likely reporting will rise.

However, any level of bullying is too high and we are determined to help schools tackle the problem. Our guidance pack 'Bullying: Don't Suffer in Silence', the anti-bullying Charter and the anti-bullying website www.dfes.gov.uk/bullying offer detailed advice on preventing and addressing bullying. We also offer specific advice to schools on tackling homophobic bullying and are developing advice on racist bullying.

CAFCASS

Mr. Heald: To ask the Secretary of State for Education and Skills what plans she has to reform the Children and Family Court Advisory and Support Service. [2817]

Maria Eagle: We are continuing to develop CAFCASS's role as a key contributor to the Government's work to improve the support available to children and families. In particular, the Green Paper "Parental Separation: Children's Needs and Parents' Responsibilities", published in July 2004, and the subsequent "Next Steps" document, published in January 2005, set out a major change of approach for CAFCASS practitioners working with families, by moving their work away from report writing to a more active, problem-solving role in facilitating agreement between parents over contact and residence arrangements in the best interests of their children. The Children (Contact) and Adoption Bill will underpin this new role, by giving CAFCASS a clear part to play in facilitating contact and monitoring contact orders.

This shift in the nature of CAFCASS's work closely reflects the view of the Constitutional Affairs Select Committee, in its March 2005 report on Family Justice, which recommended an emphasis on 'overcoming problems' in CAFCASS interventions.

In addition, CAFCASS is currently undergoing internal restructuring in order further to renew and strengthen its operational front-line focus for all aspects of its work with children and families.

Greg Clark: To ask the Secretary of State for Education and Skills how many cases remain to be allocated to a case worker in the Children and Family Court Advisory and Support Service (CAFCASS); and what the average length of time is for allocation of new cases to a case worker, broken down by CAFCASS region in England. [3622]

Maria Eagle: The total number of CAFCASS unallocated Public Law Children Act 1989 cases (applications for local authority care and supervision orders and applications for adoption) at 31 March 2005 is 316, representing 2.7 per cent. of the caseload. This meets CAFCASS' key performance indicator target that the number of cases unallocated for the month should be no more than the target of 3 per cent. of the workload.

A regional break-down of Public Law cases is provided in the following table which shows the number of unallocated cases by region.

CAFCASS—Public Law unallocated cases at 31 March 2005

Region	
East Midlands	2
Eastern	15
Greater London	90
North East	20
North West	35
South East	41
South West	22
Wales	2
West Midlands	35
Yorks and Humberside	54
Total	316

In Public Law, CAFCASS' key performance indicator states that at least 98 per cent. of all public allocations each month for all case types should be within 28 days of receipt of request. In 2004/05 CAFCASS allocated 92.7 per cent: of it cases within 28 days.

The total number of CAFCASS Private Law reports (as a consequence of applications for parental responsibility, residence and contact, where parents have been unable to reach agreement on these matters) unallocated less than 10 weeks before filing date as at 31 March 2005 is 168, representing 2 per cent. of the total caseload. In addition CAFCASS hold "managed unallocated" cases where the court has agreed a filing time later than the standard 10 to12 weeks.

CAFCASS does not collect information on the length of time taken to allocate new Private Law cases to case workers by region. CAFCASS' key performance indicator states that the number of private law reports unallocated less than 10 weeks before the court filing date for the month should be no more than 4 per cent. of the total workload.

A regional break-down for Private Law work unallocated less than 10 weeks before filing date is provided in the following table.

CAFCASS—Private Law unallocated cases at 31 March 2005

Region	*Number of unallocated reports less than 10 weeks before court filing date*
East Midlands	0
Eastern	0
Greater London	3
North East	15
North West	21

CAFCASS—Private Law unallocated cases at 31 March 2005

Region	*Number of unallocated reports less than 10 weeks before court filing date*
South East	12
South West	77
Wales	1
West Midlands	13
Yorks and Humberside	26
Total	168

Greg Clark: To ask the Secretary of State for Education and Skills what assessment she has made of the impact on families who are affected by delays at the Children and Family Court Advisory and Support Service. [3623]

Maria Eagle: The impact of delay on the welfare of children and their families is a concern for all of the agencies involved in family proceedings and we are concentrating on addressing the causes of delay. It is also a top priority for CAFCASS and, together with the Department for Constitutional Affairs, we are working closely with CAFCASS, the judiciary, local authority social services and others in order to reduce delays in Public Law Children Act 1989 cases (cases that involve social services—mainly care proceedings and adoptions).

CAFCASS itself is making progress in this area. For example, for the CAFCASS Key Performance Indicator Target for 98 per cent. of public law work to be allocated within 28 days, 93.5 per cent. was achieved in March 2005, compared with 90.6 per cent. in March 2004.

Progress is also being made in Private Law work (mainly disputes between separating parents over contact and residence arrangements for their children). CAFCASS has a Private Law Key Performance Indicator Target, where the number of reports unallocated less than 10 weeks before court filing date for the month should be no more than the target of 4 per cent. of the workload. In March 2005 2.0 per cent. of cases were unallocated, compared with 3.2. per cent. in March 2004. There is an expectation that private law reports are completed within 10 to 12 weeks of the date of request being made to CAFCASS. CAFCASS also have "managed unallocated" cases where the court has agreed a filing time later than the standard 10 to 12 weeks. In March 2005 10.8 per cent. of cases were "managed unallocated", compared with 15.5 per cent. in March 2004. The CAFCASS waiting list is continuously reviewed and re-prioritised.

A change in the role of CAFCASS practitioners will also contribute to reducing court delay in Private Law cases. The Green Paper "Parental Separation: Children's Needs and Parents' Responsibilities", published in July 2004, and the subsequent "Next Steps" document, published in January 2005, set out a major change of approach for CAFCASS practitioners working with families, by moving their work away from report writing to a more active, problem-solving role in facilitating agreement between parents over contact and residence arrangements in the best interests of their children.

Capital City Academy

Sarah Teather: To ask the Secretary of State for Education and Skills what assessment she has made of the performance of the Capital City Academy; and if she will make a statement. [2548]

Jacqui Smith: Ofsted inspectors carried out a monitoring visit at Capital City Academy on 18 and 19 May this year, focusing on pupil attainment. That visit found that much has been achieved in the Academy's second year. Year 11 pupils achieved higher than expected results in their 2004 GCSE examinations based on their starting points at the beginning of key stage 4, and the proportion gaining five or more A* to C grades met the target set.

Ofsted conduct monitoring inspections of academies within two years of opening, and the Department's educational advisers also carry out termly monitoring visits. A full inspection of Capital City Academy, which will be published on the Ofsted website, is due before the end of next year.

Child Safeguarding Unit

Mr. Pickles: To ask the Secretary of State for Education and Skills (1) what guidelines the Department has issued to child safeguarding units at local education authorities on the recording of *(a)* teachers' names and *(b)* details of the complaint where the complaint was dismissed; [4023]

(2) what details about teachers are held by child safeguarding units where a complaint has been made against them; [4024]

(3) what rights teachers have to challenge information held against their name by child safeguarding units; [4025]

(4) in what circumstances information held by child safeguarding units is shared with third parties; [4026]

(5) for how long teachers' names are held by child safeguarding units following the outcome of a complaint. [4027]

Jacqui Smith: My Department has not issued guidelines about recording details of teachers who are the subject of complaints nor does it collect information about the length of time such records are kept by local authorities or what details about the teacher authorities record in each case. It does, however, ask local authorities to collect statistical data about all allegations of abuse made against teachers and other education staff. The information does not identify individuals, but includes information such as the nature of the alleged abuse, and the gender of the person accused, as well as information about how the allegation was investigated and the outcome of that.

It is essential that individuals and organisations working with children share information for the purpose of protecting children. However, it is also important that in all cases the disclosure of information complies with the appropriate legislation: the Data Protection Act and the Human Rights Act; and takes account of the common law duty of confidence, and

teachers have the same rights as everyone has under the Data Protection Act to see information that is held about them and challenge its accuracy.

City Academies

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to her answer of 6 June 2005, *Official Report*, columns 330–31W, on City Academies, if she will request the information regarding the proportion of lessons setted in city academy schools from Ofsted. [3259]

Jacqui Smith: Ofsted collect some information from Academies and other schools on the extent to which lessons are setted as part of their inspection into the overall quality of education, although this is not done systematically. For example, they will record whether each lesson which is observed is setted or not but they will not ask the school about the total number of lessons which are setting. We do not intend to increase the bureaucratic burden by requiring Ofsted to ask routinely for this information from Academies or other schools.

Helen Jones: To ask the Secretary of State for Education and Skills (1) how many students were permanently excluded from each city academy in each academic year since the academy was opened; [3195]

(2) how many permanent exclusions from secondary schools took place in each local education authority which has a city academy in its area, in each academic year since the opening of the academy. [3196]

Jacqui Smith: Latest exclusions data are for 2002/03. The table provides the requested information for the first three academies that opened in September 2002.

Number and percentage of permanent exclusions[1]—2002/03

Establishment name	*LEA name*	*Permanent exclusions from the academy*		*Permanent exclusions from maintained secondary schools within the LEA*	
		Number	*Percentage[2]*	*Number*	*Percentage[2]*
Greig City Academy, Haringey	Haringey	13	1.54	29	0.27
Unity City Academy	Middlesbrough	0	0.00	5	0.07
The Business Academy, Bexley	Bexley	4	0.56	56	0.32

[1] Permanent exclusions data are collected retrospectively. The Annual Schools Census (ASC) for 2004 collected data on pupils in schools in January 2004 together with data on permanent exclusions in the school year 2002/03. Figures are as reported by schools.
[2] The number of exclusions expressed as a percentage of the school population as at January 2003.

Annual Schools Census

Departmental IT contracts

Mr. Godsiff: To ask the Secretary of State for Education and Skills what the *(a)* projected cost at the time of tender and *(b)* actual cost at the time of completion was for each IT contract commissioned by her Department and its predecessors in the last five years. [2580]

Maria Eagle: The information in the following table relates to our more recent or current contracts which have been put in place, however, information relating to the last five years is not held centrally and could be obtained only at disproportionate costs.

£

IT contract	*Business case*	*Cost of contract*
Records Management Service	3.8 million	2.2 million
IP—WAN	1.5 million	993,360
Power over Ethernet	550,600	642,957
Electronic Document and Records Management—Pilot	1.2 million	1.3 million
Caxton House Network Backbone Upgrade	500,000	319,253
Moorfoot Network Backbone Upgrade	400,000	268,664
Integrated HR/Payroll System	850,000	666,000
Integrated Financial Information System	1.6 million	1.7 million
Dual Data Centre	2.2 million	1.7 million
Remote Office	254,000	198,000
Video Conference Upgrade	492,000	492,000
Correspondence Handling System	852,000	850,000
Video/telecom support	450,000	420,000
Video Conference Maintenance	400,000	400,000
Telephony Services	10.8 million	10.8 million
Hard/Software Network Support	375,000	300,000
Web Hosting	5 million	3.64 million
Telephones Moves and Changes	500,000	450,000

Drug-addicted Parents

John Battle: To ask the Secretary of State for Education and Skills what the Government's estimate is of the number of children being brought up by grandparents because the children's parents have drug addiction problems. [1718]

Maria Eagle: The Government do not make any estimate of the number of children being brought up by grandparents because of parental drug abuse.

Education Champion (Nottingham)

Mr. Allen: To ask the Secretary of State for Education and Skills if she will make a statement on the creation of an Education Champion for Nottingham, North. [3427]

Jacqui Smith: There is a Higher Education Champion for Nottingham, North, funded by Aimhigher through the Department and Higher Education Funding Council.

Educational Provision

Mr. Hoban: To ask the Secretary of State for Education and Skills what criteria will be used to determine whether overall educational standards are too low when making decisions on new school provision. [3857]

Jacqui Smith: The principal criteria in making such decisions will be Ofsted inspection judgments, and in particular inspectors' opinions that the overall provision

in the school is inadequate, and that the school requires special measures or significant improvement, in accordance with the Education Act 2005.

Mr. Hoban: To ask the Secretary of State for Education and Skills what role her Department will have in making new provision in education to address low standards. [3858]

Jacqui Smith: The Education Act 2005 requires local authorities to hold a competition whenever they plan to establish a new secondary school, including a school which is replacing one or more existing schools. This means that if a school is closed, and a new school established in its place, the local authority must invite potential providers to bring forward proposals. A local authority or potential provider may apply to the Secretary of State to publish proposals for a new school without a competition in exceptional circumstances, for example where it is intended to replace a weak or failing school as part of a collaborative restart. In considering such an application, the Secretary of State would have regard to the extent to which the local authority or independent provider's proposals would contribute to the quality and diversity of provision in the area.

English SATs

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will revise marking guidelines for Standard Assessment Tests at Key Stage 3 in English to ensure spelling is taken into account in assessing performance. [3029]

Jacqui Smith: The Qualifications and Curriculum Authority (QCA) is responsible for the development and marking of the National Curriculum Tests. Spelling has always been assessed in the Key Stage 3 English test and will continue to be.

Faith Communities

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what recent consultations have been carried out by her Department with representatives of faith communities; and if she will make a statement. [3230]

Maria Eagle: The Department for Education and Skills has carried out 46 public consultations since 1 December 2003.

Five of these consultations specified faith communities as part of their target audience:

Application of the Best Value Code of Practice on Workforce Matters in Local Authority Service Contracts to Maintained Schools

Interagency Co-operation to Improve the Wellbeing of Children: Children's Trusts Regulations and Guidance on the Children's and Young People's Plan

Inclusion, Equality and Diversity: Data

School Inspection Regulations

FE Colleges (Targets)

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the public service agreement target referred to in the Departmental Report 2004, Cm 6202, page 73, what targets have been set by the *(a)* Department and *(b)* learning skills councils for (i) minimum performance and (ii) value for money for (A) further education colleges and (B) other providers. [3048]

Bill Rammell: The public service agreement committed Government to set minimum performance and value for money targets for further education colleges and institutions, and work based learning providers. The Learning and Skills Council (LSC), working in partnership with the Department, set the minimum performance targets in 2003. Each college has been set a minimum standard for learner achievement and by 2006, every college and 90 per cent. of work based learning providers will be expected to meet or exceed these minimum standards.

Floor targets have been set separately for long and short qualifications for further education colleges and institutions as follows:

Percentage

	Long	*Short*
General FE (and Tertiary) colleges	45	55
Specialist colleges	45	55
Sixth Form colleges	55	50
Funded further education provision in former external institutions	40	45

In work-based learning two floor targets have been set at 40 per cent. and 35 per cent. for different sectors to reflect variations between them.

Value for money targets for colleges have not yet been set. The Department and LSC will develop and trial new value for money indicators during 2006/07 and implement new measures from 2007/08.

Foundation Schools

Mr. Hoban: To ask the Secretary of State for Education and Skills what *(a)* primary and *(b)* secondary legislation will be necessary to allow primary schools to become foundation schools. [4089]

Jacqui Smith: Primary and secondary legislation is already in place to allow primary schools which are not foundation schools to acquire foundation status. The relevant provisions are section 35 of, and schedule 8 to, the School Standards and Framework Act; and the Education (Change of Category of Maintained Schools) (England) Regulations 2000, as amended.

The Government's manifesto contains a commitment to enable primary schools to acquire foundation status more easily. This would require amendments to the relevant secondary legislation, which governs the procedures for publishing and deciding proposals to acquire foundation status. We will set out our detailed proposals for implementing this commitment in due course.

Mr. Hoban: To ask the Secretary of State for Education and Skills when she expects the first primary schools to become foundation schools. [4090]

Jacqui Smith: There are already over 360 foundation primary schools in England. Primary schools which are not foundation schools may seek to acquire foundation status by publishing statutory proposals, which are decided by the School Organisation Committee. The

Government intend to enable primary schools to acquire foundation status more easily, and we will set out our detailed proposals in due course.

GCSE Food Technology

David Taylor: To ask the Secretary of State for Education and Skills to what extent the course content of GCSE food technology covers *(a)* food choice, *(b)* nutrient provision, *(c)* nutritional needs of individuals, *(d)* energy balance and *(e)* dietary guidelines for health. [3383]

Jacqui Smith: The precise content of GCSE examination courses is set out in subject specifications, which are a matter for individual awarding bodies. Awarding body specifications must, however, conform to subject criteria laid down by QCA.

The GCSE subject criteria for home economics (food and nutrition) specify, among other things, that candidates should demonstrate knowledge and understanding of:

nutrition in relation to the preparation and cooking of food;

the relationship between nutrition and good health;

the effect of the marketing and advertising of food products on consumer choice.

Candidates must also demonstrate knowledge and understanding about diet and health in relation to different family members; and how food choice is affected by a variety of factors.

GCSE Music

Mr. Hoban: To ask the Secretary of State for Education and Skills how many secondary schools in England offer GCSE music. [4108]

Jacqui Smith: Information on the number of secondary schools offering GCSE music is not centrally available. However, it is possible to provide the number of schools where at least one pupil has attempted GCSE music. In 2003/04, 3,461 out of the 5,353 secondary schools had at least one pupil attempt GCSE music. This is equivalent to 65 per cent. of all secondary schools.

Grammar Schools (Buckinghamshire)

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many children there have been in each *(a)* grammar school and *(b)* upper school in Buckinghamshire in each year since 2001, broken down by ethnic group. [3234]

Jacqui Smith: The information requested has been placed in the House of Commons Library.

Inner-London Education

Mr. Denham: To ask the Secretary of State for Education and Skills how much each inner London local education authority has received under each Government initiative aimed at raising secondary school standards in each year since 1997. [1743]

Jacqui Smith: The following tables show how much each inner London local education received under each Government initiative aimed at raising standards in secondary schools since 1997–98 The tables also give comparable figures for Southampton local education authority since 1997–98.

Grant for Inner London and Southampton local education authorities under initiatives to raise secondary schools standards since 1997–98

Notes:
'—' Indicates the grant did not exist that year.
'0' Indicates the grant did exist that year but the LEA did not receive an allocation.

Mr. Denham: To ask the Secretary of State for Education and Skills if she will list each *(a)* specialist school and *(b)* city academy in each inner London local education authority; and on what date each opened. [1744]

Jacqui Smith: There are some 79 operational specialist schools within the inner London local education authorities, together with five academies. There are a further eight schools designated for the award of specialist status from 1 September 2005. These schools are listed below:

Inner London specialist schools

Authority name	School name	Date became specialist
Camden	William Ellis School	1 September 1997
Camden	Hampstead School	1 September 1997
Camden	Parliament Hill School	1 September 1999
Camden	Acland Burghley School	1 September 2000
Camden	Haverstock School	1 September 2003
Camden	South Camden Community School	1 September 2004
Camden	La Sainte Union Catholic Secondary School	1 September 2004
Hackney	Homerton College of Technology	1 September 1997
Hackney	Haggerston School	1 September 1998
Hackney	Our Lady's Convent Roman Catholic High School	1 September 1999
Hackney	Clapton Girls' Technology College	1 September 1999
Hackney	Stoke Newington School	1 September 2001
Hackney	Hackney Free and Parochial C of E Secondary School Specialist Sports College	1 September 2002
Hackney	The Skinners' Company's School for Girls	1 September 2003

Southwark	City of London Academy (Southwark)	2 June 2003
Southwark	The Academy of Peckham	3 June 2003

In-service Teacher Training

Mr. Hoban: To ask the Secretary of State for Education and Skills what steps her Department is taking to improve in-service training for teachers. [3847]

Jacqui Smith: The Government are driving up demand from teachers and schools for high-quality training by building professional development into each of the four main stages in the career ladder for teachers; and by refocusing annual teacher appraisals as teaching and learning reviews, which will identify professional development needs and effective ways of meeting them. The Teacher Training Agency will keep the supply and quality of teachers' professional development under review and where practicable, intervene to broker improvements locally.

Mathematics (Primary Schools)

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will make a statement on the teaching of multiplication tables in primary schools. [3148]

Jacqui Smith: The teaching of multiplication tables is an important part of the guidance offered to schools by the Primary National Strategy. One of its key objectives is that all pupils should know by heart all multiplication facts up to 10×10.

It is for schools to determine the best approaches to use to achieve this, given the individual learning needs of their pupils.

Ministerial Visits

Mr. Hands: To ask the Secretary of State for Education and Skills what plans she has to visit Hammersmith and Fulham. [2093]

Maria Eagle: I have no plans at present to visit Hammersmith and Fulham.

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills what plans she has to visit Coventry, South. [2787]

Maria Eagle: I have no plans at present to visit Coventry, South.

Modern Apprenticeships

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what percentage of young people started a Modern Apprenticeship by age 22 in 2004. [3051]

Jacqui Smith: 24.5 percent of young people started an Apprenticeship for the first time in 2003/04. This is the most recent assessment available.

The Department has a PSA target for at least 28 per cent. of young people to start an Apprenticeship by age 22 by 2004. This is based on starts in the 2004/05 academic year. The target outturn will be reported by December 2005.

Out-of-Hours Learning

Mr. Gibb: To ask the Secretary of State for Education and Skills what her estimate is of the proportion of schools that have drawn up home-school agreements as required by the School Standards Framework Act 1998. [4022]

Jacqui Smith: We expect all maintained schools to have a home-school agreement in place.

Primary Schools

Mr. Fabian Hamilton: To ask the Secretary of State for Education and Skills whether a primary school's added value is taken into account when decisions are made regarding school closures and surplus places. [3345]

Jacqui Smith: Since 1998 decisions on the organisation of school places have been taken by local School Organisation Committees (SOCs) or, where the SOC cannot reach a unanimous decision, the schools adjudicator.

In making their decision, the SOC and schools adjudicator must have regard to guidance issued by the Secretary of State. This sets out a range of factors that must be considered, including whether the proposals will improve standards, particularly at those schools which are the subject of proposals. When considering this aspect of the proposals, the SOC or the adjudicator have a range of indicators available to them including recent Ofsted reports and the autumn package of performance data which includes schools' value added measures.

Mr. Fabian Hamilton: To ask the Secretary of State for Education and Skills if she will take steps to prevent the closure by Education Leeds of Miles Hill and Fir Tree primary schools. [3346]

Jacqui Smith: The responsibility for maintaining adequate and appropriate school provision rests with local authorities and Ministers have no direct involvement in decisions to reorganise schools. The Government introduced statutory procedures under the School Standards and Framework Act (SSFA) 1998 to ensure that the views of local people, and those directly affected by school organisational changes, are heard. These procedures include a requirement on local authorities to consult locally and publish statutory proposals should they wish to proceed with closure, or other significant change to education provision. School Organisation Committees are independent of local authorities and Ministers, and take decisions about school closures when local objections to statutory proposals have been made. I understand that Education Leeds is currently consulting on proposals to reorganise primary school provision across the area and that further decisions will be necessary from the Council's Executive Board before the question of issuing statutory notices arises.

Mr. Hoban: To ask the Secretary of State for Education and Skills (1) when the criteria for rebuilding primary schools will be announced; [3783]

(2) whether Building Schools for the Future will be used as the template for the Department's plan to refurbish primary schools. [3784]

Jacqui Smith: In his March 2005 Budget, the Chancellor announced that in 2008–09, an additional £150 million of capital will be provided to renew primary school buildings in England, which will rise to £500 million in 2009–10. This funding is additional to the annual investment in schools of £6.3 billion which we will provide by 2006–07, and is to support our aim of rebuilding or renewing up to half of all primary schools in England in around 15 years from then.

I am still considering this programme, including issues such as criteria, and I aim to announce further details later this year. This new investment should transform primary schools, renew decayed and unsuitable buildings, and provide the wrap-around and extended school provision for our children that is at the heart of "Every Child Matters". Like Building Schools for the Future, our primary schools programme will drive reform of the primary system and improvements in educational standards, provide good places for teachers to teach and pupils to learn, which are used by the community, and which are well designed and built on time and at a reasonable cost to the taxpayer.

School Discipline

Mr. Pope: To ask the Secretary of State for Education and Skills if she will include a representative of children as a stakeholder group in the Leadership Group on Pupil Behaviour and Discipline to be chaired by Sir Alan Steer. [3081]

Jacqui Smith: There will not be a pupil representative on the group itself but the group will be receiving representations from children and young people.

Mr. Hoban: To ask the Secretary of State for Education and Skills what powers her Department has given to headteachers to maintain *(a)* discipline and *(b)* standards of conduct since 1997. [4095]

Jacqui Smith: Headteachers have extensive powers to make and enforce rules for pupils' behaviour, including powers to apply a wide range of sanctions up to and including exclusion from school. We have further strengthened headteachers' authority by:

reforming exclusion appeal panels to strike a better balance between the interests of the individual and those of the school as a whole; and

giving them powers to make parenting contracts with the parents of badly behaved and truanting pupils and issue penalty notices to the parents of truants.

In addition, we have given schools access to high-quality behaviour management training materials and advice from expert behaviour management consultants.

Further, the Department is working with the Home Office on the recently introduced Violent Crime Reduction Bill. Clause 35 of the Bill will provide headteachers and other members of staff with the power to search pupils for knives.

The Department recently announced a new Leadership Group to look into the problems of poor behaviour and indiscipline in schools. One of the issues that the group will cover is the possible expansion of headteachers' powers.

Mr. Hoban: To ask the Secretary of State for Education and Skills what definition she uses of low level disruption. [4096]

Jacqui Smith: There is no formal definition within the Department of low level disruption. The HMCI report for 2003–04 refers to 'incessant chatter, calling out, inattention and other forms of nuisance that irritate staff and interrupt learning' as 'the most common forms of misbehaviour'. Although it does not define these as low level disruption the context makes it clear that this is what is meant.

School Governance

Mr. Hoban: To ask the Secretary of State for Education and Skills what representations her Department has received on the structure of school governing bodies. [4088]

Jacqui Smith: From 1 September 2003 new arrangements allowed governing bodies to determine their own size and composition within a framework of guiding principles based on a stakeholder model. We have regular discussions with representatives of the two national organisations representing school governors.

School Independence

Mr. Hoban: To ask the Secretary of State for Education and Skills what criteria will be used to determine which schools will gain greater independence. [3856]

Jacqui Smith: The Government have set out plans for enabling all secondary schools, except those which are failing, to gain greater independence by acquiring foundation status. A failing school is a school which is subject to a warning notice from the local authority; has serious weaknesses; is in special measures; or has had its delegated budget suspended. It will be for the governing bodies of individual schools to decide whether to acquire foundation status, taking into account the views of parents and other stakeholders. The Government's manifesto contains a commitment to enable primary schools to acquire foundation status more easily, and we will set out our proposals for primary schools in due course.

School Meals

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills how much she plans to make available to schools in Coventry, South to improve school meals over the next three years; and if she will make a statement. [2786]

Jacqui Smith: Over the three years 2005–06 to 2007–08, all maintained schools in England will receive a share of the £220 million set aside to help local education authorities and schools strengthen their support for healthy eating and to provide better quality food. Of this, £30 million each year will go to schools to help meet transitional costs involved in developing and improving their "whole school" approach to food. £30/50/50 million will go to LEAs to enable them to support schools with this process, with an emphasis on schools in deprived areas and schools starting from a low base.

The first instalment of this additional funding will be available to schools and LEAs this autumn. Further details about the distribution of both grants between individual local authorities and schools will be announced in due course.

Lynne Featherstone: To ask the Secretary of State for Education and Skills what the average spending per meal per pupil for school meals was in *(a)* the London borough of Haringey and *(b)* England in the last period for which figures are available; and if she will make a statement. [3076]

Jacqui Smith: This information is not currently collected centrally.

Lynne Featherstone: To ask the Secretary of State for Education and Skills when *(a)* Haringey local education authority and *(b)* schools in the London borough of Haringey council area are expected to receive extra funding to improve school meals; and if she will make a statement. [3078]

Jacqui Smith: Over the three years 2005–06 to 2007–08, all maintained schools in England will receive a share of the £220 million set aside to help local education authorities and schools strengthen their support for healthy eating and to provide better quality food. Of this, £30 million each year will go to schools to

help meet transitional costs involved in developing and improving their "whole school" approach to food. £30/50/50 million will go to LEAs to enable them to support schools with this process, with an emphasis on schools in deprived areas and schools starting from a low base.

The first instalment of this additional funding will be available to schools and LEAs this autumn. Further details about the distribution of both grants between individual local authorities and schools will be announced in due course.

Mr. Jenkins: To ask the Secretary of State for Education and Skills what the average spending per pupil per meal for school meals was in *(a)* England and *(b)* Tamworth in the last period for which figures are available. [3332]

Jacqui Smith: This information is not currently collected centrally.

Mr. Jenkins: To ask the Secretary of State for Education and Skills when *(a)* Staffordshire local education authority and *(b)* schools in Tamworth are expected to receive extra funding to improve school meals. [3333]

Jacqui Smith: Over the three years 2005–06 to 2007–08, all maintained schools in England will receive a share of the £220 million set aside to help local education authorities and schools strengthen their support for healthy eating and to provide better quality food. Of this, £30 million each year will go to schools to help meet transitional costs involved in developing and improving their "whole school" approach to food. £30/50/50 million will go to LEAs to enable them to support schools with this process, with an emphasis on schools in deprived areas and schools starting from a low base.

The first instalment of this additional funding will be available to schools and LEAs this autumn. Further details about the distribution of both grants between individual local authorities and schools will be announced in due course.

Mr. Gibb: To ask the Secretary of State for Education and Skills what estimate she has made of the expenditure on *(a)* capital equipment and alterations and *(b)* re-training necessary to meet higher nutritional standards in schools; and if she will make a statement. [3581]

Jacqui Smith: The Government are investing £5.5 billion in 2005–06, rising to £6.3 billion in 2007–08 to improve school buildings. This will include £1 billion allocated directly to schools for their priority needs. Decisions on how to prioritise investment are made locally through the asset management planning process, which should reflect government aims as well as local needs. The Building Schools for the Future programme aims to bring all secondary schools to 21st century standard, including kitchen and dining facilities. Additional funding of £650 million for primary schools has already been announced for 2008–09 and 2009–10, and further details of this programme will be announced later this year.

Every school is allocated money to improve its building each year, which can be spent on kitchen and dining facilities. Devolved Formula Capital guidance for 2005–06 makes clear the priority attached to schools making plans to provide at least one hot meal a day on the premises, and for this to be eaten in reasonable comfort in suitable dining facilities.

There are also funds specifically earmarked for the refurbishment of school kitchens in Voluntary Aided (VA) schools. This results from the reform of liabilities and funding arrangements at VA schools in 2002, when their governing bodies took on responsibility for some buildings (including kitchens) which were previously the responsibility of local education authorities.

The Secretary of State recently announced that over the three years 2005–06 to 2007–08 £220 million new funding grants will be given direct to schools and local education authorities. These grants are part of a wider package to improve the quality of school meals. Decisions on spending these grants will be made at local level, but we have already made clear the importance we attach to school catering staff being given the knowledge and skills they need to deliver a healthier school meals service.

John Cummings: To ask the Secretary of State for Education and Skills what the average spending per meal per pupil for school meals in the county of Durham has been in each year since 1999. [3758]

Jacqui Smith: This information is not currently collected centrally.

Dr. Starkey: To ask the Secretary of State for Education and Skills when she will publish nutritional standards for school meals in *(a)* secondary schools, *(b)* primary schools and *(c)* nurseries; and whether she expects these standards to be enforced through legislation. [4005]

Jacqui Smith: An expert panel has been convened to advise the Government on how best to meet their commitment in the Public Health White Paper to improve school food, through the revision of school meals standards. The panel has been asked to produce draft minimum standards to be rolled out to secondary schools from September 2005, with those for primary schools following shortly afterwards. The final version of the standards will become mandatory from September 2006. We are currently considering whether nursery school standards should be similarly revised.

Once the school lunch standards have been considered, the panel will then set about looking at how the standards could apply to other food and drink on school premises e.g. vending machines and tuck shops. Any extended standards will need to be enshrined in regulations as are the current standards.

Dr. Starkey: To ask the Secretary of State for Education and Skills when she will publish details of the formulae for distributing to *(a)* local education authorities and *(b)* schools the funding to improve school meals announced on 30 March. [4101]

Jacqui Smith: Over the three years 2005–06 to 2007–08, all maintained schools in England will receive a share of the £220 million set aside to help local education authorities and schools strengthen their support for healthy eating and to provide better quality food. Of this, £30 million each year will go to schools to help meet transitional costs involved in developing

and improving their "whole school" approach to food. £30/50/50 million will go to LEAs to enable them to support schools with this process, with an emphasis on schools in deprived areas and schools starting from a low base.

The first instalment of this additional funding will be available to schools and LEAs this autumn. Further details about the distribution of both grants between individual local authorities and schools will be announced over the summer.

Dr. Starkey: To ask the Secretary of State for Education and Skills what criteria are used for allocating capital funding to *(a)* build and *(b)* refit school kitchens. [4102]

Jacqui Smith: The Government are investing £5.5 billion in 2005–06, rising to £6.3 billion in 2007–08 to improve school buildings, including kitchen and dining facilities. Much of this funding is allocated to schools and authorities by needs-related formula. Decisions on how to prioritise investment are made locally through the asset management planning process, which should reflect Government aims as well as local needs, based on a survey of all school buildings.

The Building Schools for the Future programme aims to bring all secondary schools to 21st century standard, including kitchen and dining facilities. Additional funding of £650 million for primary schools has already been announced for 2008–09 and 2009–10, and further details of this programme will be announced later this year.

By 2006–07, school funding will include £1 billion allocated directly to schools for their priority needs, which can be spent on kitchen and dining facilities. Our current guidance on schools' devolved formula capital makes clear the priority attached to schools making plans to provide at least one hot meal a day on the premises, and for this to be eaten in reasonable comfort in suitable dining facilities.

There are also funds specifically earmarked for the refurbishment of school kitchens in voluntary Aided (VA) schools. This results from the reform of liabilities and funding arrangements at VA schools in 2002, when their governing bodies took on responsibility for some buildings (including kitchens) which were previously the responsibility of local education authorities.

School Places (Staffordshire)

Mr. Jenkins: To ask the Secretary of State for Education and Skills what measures she plans to take to assist parents who fail to get their children into any of their chosen schools in Staffordshire; and if she will make a statement. [3331]

Jacqui Smith: 98 per cent. of parents applying for Staffordshire primary schools, and 95 per cent. applying for secondary schools were allocated their most preferred school. All parents have been offered a school place. Parents who are not satisfied have the right of appeal to an independent appeal panel. This gives them an important opportunity to have their case heard by an independent body who will consider objectively the evidence from the admission authority and the parents before reaching a final decision.

School Sport

Hugh Robertson: To ask the Secretary of State for Education and Skills pursuant to the Answer of 6 June 2005, *Official Report*, columns 345–6W, on school sport, *(a)* what percentage of schools in a school sport partnership responded to the survey and *(b)* what percentage of schools are in a school sport partnership. [3642]

Jacqui Smith: At the time that the 2003/04 survey was conducted 8,105 schools, 34 per cent. of all schools in England, were within a school sport partnership. In total, 6,547 schools took part in the survey, which represents a high 81 per cent. response rate.

School Support Staff

Mr. Hoban: To ask the Secretary of State for Education and Skills what action she proposes to take to broaden the range of support staff working in schools. [3848]

Jacqui Smith: More support staff undertaking a wider range of tasks and responsibilities in schools is one of the key components of school work force reform. The importance of the role of support staff is illustrated by the range of partners that signed the National Agreement on Raising Standards and Tackling Workload. There are now over 263,000 full time equivalent support staff in England, an increase of almost 130,000 since 1997.

School Transport

Mr. Keetch: To ask the Secretary of State for Education and Skills if she will provide additional funds for the provision of school transport to Herefordshire council; and if she will make a statement. [3212]

Jacqui Smith: The Secretary of State has no plans to provide additional funds to Herefordshire council for the provision of school transport.

In the 2005–06 Education Formula Spending Share (EPS) settlement, Herefordshire's LEA allocation was £12.8 million: 14.5 per cent. of its total EPS settlement, compared with a national average of 11.4 per cent. This was £100 per resident pupil (26 per cent.) more than was allocated to an average LEA in 2005–06, due to the rural nature of the county.

Mr. Keetch: To ask the Secretary of State for Education and Skills (1) what assessment she has made of the trial Yellow School Bus schemes; and if she will make a statement; [3213]

(2) what plans she has to widen trial areas for Yellow School buses; if she will establish a national school bus scheme; and if she will make a statement. [3214]

Jacqui Smith: The Department for Education and Skills is currently considering options for taking forward the Government's commitment to support innovation in home to school transport.

A small number of local authorities operate limited yellow bus schemes for home to school transport. The Department for Transport conducted an evaluation of these schemes in 2003, which suggested that well-designed dedicated bus schemes can help reduce car dependency for the journey to school. The Department

for Transport has provided £18.7 million to support a large-scale pilot of yellow buses in West Yorkshire. The first phase of this pilot started in autumn 2004, and it will be extended in 2005 and again in 2006. DfT will be working with West Yorkshire Passenger Transport Executive to evaluate the impact of this large scale pilot.

Schools (Special Measures)

Helen Jones: To ask the Secretary of State for Education and Skills how many schools placed in special measures by Ofsted were situated within the most deprived 20 per cent. of wards according to the Government's index of deprivation in each of the past 10 years. [3222]

Jacqui Smith: My Department is collating the information requested and I will write to the hon. Member as soon as possible, and place a copy in the Library.

Schools Funding

Lynne Featherstone: To ask the Secretary of State for Education and Skills what the per capita pupil funding in *(a)* primary and *(b)* secondary schools in (i) the London borough of Haringey and (ii) Greater London (A) is in 2005–06 and (B) has been in each of the last five years; what assessment she has made of differences between the figures; and if she will make a statement. [3077]

Jacqui Smith: The figures requested for Haringey and Greater Londonin the table. Total funding includes funding via education formula spending/standard spending assessment and revenue grants allocated at an LEA level. For comparability with previous years the real terms figures exclude the pensions transfer to EFS and the Learning and Skills Council from 2003–04. This transfer is included in the cash terms figures. The principal reason why funding for Haringey is greater than the London average is the high level of deprivation in Haringey.

Average funding per pupil (£)

	2005 to 2006 cash terms, including pensions transfer to EFS and LSC	
LEA	*Primary (3 to 10-year-olds)*	*Secondary (11 to 15-year-olds)*
Haringey	4,980	6,290
London	4,690	5,720

Average funding per pupil (£)

	Real terms, excluding pensions transfer to EFS and LSC 2003–04 to 2005–06	
Haringey	*Primary (3 to 10-year-olds)*	*Secondary (11 to 15-year-olds)*
2000–01	3,690	5,040
2001–02	3,970	5,380
2002–03	4,100	5,450
2003–04	4,300	5,760
2004–05	4,510	5,980
2005–06	4,680	5,920

Average funding per pupil (£)

	Real terms, excluding pensions transfer to EFS and LSC 2003 to 2004 2005 to 2006	
Greater London	*Primary (3 to 10-year-olds)*	*Secondary (11 to 15-year-olds)*
2000–01	3,430	4,500
2001–02	3,640	4,800
2002–03	3,760	4,900
2003–04	4,000	5,010
2004–05	4,190	5,240
2005–06	4,400	5,370

Notes:

1. Price base: Cash terms, and Real terms at 2003–04 prices, based on GDP deflators as at 23.03.05
2. Figures reflect relevant sub-blocks of education SSA/EFS settlements and exclude the pensions transfer to EPS and LSC.
3. Total funding also includes all revenue grants in DfES departmental expenditure limits relevant to pupils aged 3 to 10 and 11 to15, and exclude EMAs and grants not allocated at LEA level. For those LEAs in receipt of advance of grant under the transitional support arrangements for 2004–05, advance grant funding is included in the year of payment (2004–05). There will be a consequential reduction in DfES grant for these LEAs in future years (either 2006–07 and 2007–08 or 2006–07 to 2008–09, depending on the terms on which the advance was given to the LEA).
4. The pupil numbers used to convert £ million figures to per pupil are those underlying the SSA/EFS settlement calculations plus PLASC 3-year-old maintained pupils and estimated 3 to 4-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
5. Figures are rounded to the nearest pound.

2003–04, 2004–05 and 2005–06 figures are provisional as some grants have not yet been Status: finalised/audited.

Sex Education

Lynne Jones: To ask the Secretary of State for Education and Skills if she will make sex and relationships education a compulsory part of the school curriculum. [3299]

Jacqui Smith: Sex and relationship education (SRE) is compulsory in all maintained secondary schools and discretionary in primary schools. Sex education is included in statutory science lessons which all pupils receive.

Parents can withdraw their child from some or all SRE lessons except those which form part of the science curriculum.

Sexually-transmitted Diseases

Andrew Rosindell: To ask the Secretary of State for Education and Skills what steps the Government are taking to raise awareness of sexually-transmitted diseases in schools. [2954]

Maria Eagle: The Department's Sex and Relationship Education (SRE) guidance requires schools to teach about sexual health and sexually transmitted infections. Through SRE, pupils learn about sexual health and are helped to clarify their knowledge of sexually transmitted infections in order that they can negotiate safer sex and understand what is risky behaviour and what is not. Pupils should be made aware of how sexually transmitted infections can be prevented, diagnosed and treated and the range of support services available.

Special Educational Needs

Helen Jones: To ask the Secretary of State for Education and Skills how many students in each city academy were classed as having special educational needs on the last date for which figures are available; and what proportion of each school's intake that figure represents. [3194]

Maria Eagle: The information requested is in the following table.

Academies: number and percentage of pupils with special educational needs (SEN)—Position in January each year 2004 and 2005 (provisional)—England

			2004			
			Pupils with statements of SEN		Pupils with SEN without statements	
	Establishment name	LEA name	Number	Percentage[2]	Number	Percentage[3]

Annual Schools Census

Specialist Schools

Mr. Hoban: To ask the Secretary of State for Education and Skills if she will make a statement on the progress of schools in acquiring specialist school status. [4091]

Jacqui Smith: To date, about 69 per cent. of all maintained secondary schools are designated as specialist schools (2,176 schools, including 24 special schools). We expect about 80 per cent. of all maintained secondary schools to be specialist by September 2006. As set out in the Five Year Strategy for Children and Learners, published in July last year, we intend that every school which is up to standard should be a specialist school.

Mr. Hoban: To ask the Secretary of State for Education and Skills when she expects schools to take on a second specialism; and when she expects *(a)* to bring forward legislation and *(b)* to issue guidance on this. [4092]

Jacqui Smith: In the Five Year Strategy for Children and Learners, published in July last year, we set out our proposals for high performing specialist schools to be able to take on leading roles. There are currently 69 specialist schools with a second specialism. Legislation is not required as specialist school designation is not a statutory requirement. Details about further opportunities for specialist schools to take on a second specialism will be published in due course.

Sure Start

Mr. Gibb: To ask the Secretary of State for Education and Skills how many second phase Sure Start's children's centres are planned in each local authority during 2006–08; and how much funding will be provided to each local authority for this purpose. [1812]

Beverley Hughes: A total of £947 million funding has been made available to local authorities in the second phase of the children's centres programme. This comprises of £405,523,772 capital and £542,205,843 revenue. The capital allocation is to contribute to the funding of new children's centre places to be created in phase 2, whereas the revenue allocation is to fund both new and existing centres created in phases 1 and 2. Local authorities will develop their children's centres by building on existing provision such as Sure Start local programmes, neighbourhood nurseries and primary schools which have already benefited from a number of funding streams. The following table sets out the funding allocated to each local authority.

Local authority	*Total number of CCs required in 2006–08*[1]	*Total capital 2006–08, including 20 per cent London uplift*[2]	*Total revenue 2006–08 including 10 per cent London uplift*[2]
Barking and Dagenham	6	2,388,828	5,105,821

[1] These are subject to negotiation if authorities with large targets wish to defer some centres to phase 3.

[2] Excluding rural uplift. Authorities with rural areas will be advised of their allocations shortly.

[3] Allocations yet to be agreed—due to the small number of children in those authorities we are working with the authorities to determine suitable targets and funding.

Synthetic Phonics

Mr. Gibb: To ask the Secretary of State for Education and Skills (1) if she will make a statement on her announcement on 3 June of an independent review into the role of synthetic phonics in teaching reading in primary schools; [3579]

(2) if she will list the people who will conduct the independent review of the role of synthetic phonics in teaching reading in primary schools headed by Mr. Jim Rose. [3580]

Jacqui Smith: The National Literacy Strategy, combined with developments in the Foundation Stage, have transformed the nature of teaching, learning and achievement in primary schools over the last seven years. Compared to 1997, around 96,000 more children each year are being helped to reach the expected reading level for their age.

The Strategy have continually evolved to ensure that it benefits from the latest developments in this area, and the time is now right to renew the literacy framework, to accelerate and build on this success. Synthetic phonics is already at the heart of early literacy teaching for every child under the Strategy, and the debate centres not on whether to teach phonics, but how to do so. As part of the renewal of the literacy framework, we have appointed Jim Rose to make recommendations on best practice in the teaching of early reading and synthetic phonics in primary schools and early years settings, covering content and pace of learning. He will also make recommendations on the best support for children with significant literacy difficulties to enable them to catch up with their peers, and the relationship between such targeted intervention programmes with synthetic phonics

Mr. Rose's recommendations will draw on an examination of both academic research and classroom best practice in schools and early years settings, as well as recent reports by the Education and Skills Select Committee, Ofsted and the Clackmannanshire study. He will provide an interim report in November 2005 and make final recommendations early in the new year. Decisions on who will work alongside him as he conducts his review will be made shortly, in agreement with Mr. Rose.

Teacher Assaults

Mr. Walker: To ask the Secretary of State for Education and Skills if she will introduce a national register for the recording of assaults committed against teachers by parents and pupils; and if she will make a statement. [3217]

Jacqui Smith: Schools are required to report significant injuries to staff resulting from acts of violence to the Health and Safety Executive. In addition, the data my Department collects about exclusions include a reason for each exclusion, with violence to adults as a separately-identified reason. These arrangements strike a sensible balance between gathering data to inform national policy and imposing administrative burdens on schools. It would be wrong to shift the balance towards more work for schools.

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many teachers in Tamworth have been assaulted by pupils in each year since 1997. [3330]

Jacqui Smith: The information requested is not collected centrally.

Teacher Qualifications

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what proportion of *(a)* citizenship and *(b)* personal, social and health education teachers giving financial literacy lessons at Key Stages 3 and 4 had (i) GCSE or O level, (ii) A level and (iii) degree level qualifications in mathematics in 2003/04. [3238]

Jacqui Smith: The Information requested is not available. Information on the post A level qualification in Citizenship and PSHE for those teaching these subjects can be found in tables 24 and 25 of The Statistics of Education, School Workforce in England Volume, 2004 edition, a copy of which have been placed in the House of Commons Library. Alternatively it may be accessed at the following URL: http://www.dfes.gov.uk/rsgateway/DB/VOL/v000443/index.shtml

It is a requirement for the attainment of qualified teacher status to have GCSE Mathematics at grade A to C or an equivalent qualification.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what qualifications are required of *(a)* citizenship and *(b)* personal, social and health education teachers giving financial literacy lessons at Key Stages (i) 3 and (ii) 4. [3239]

Jacqui Smith: A programme of Initial Teacher Training (ITT) for Citizenship teachers has been running since September 2000 to gradually grow the number of specialists in the subject; over 850 specialists will have been trained by the end of the current academic year. The ITT courses include a component on financial capability. The Department introduced a national programme for certificating effective Continuing Professional Development in PSHE in 2000, which provides the framework for teachers to improve their classroom practice in financial education. The Department is currently piloting a similar programme for citizenship teachers in three centres in England.

Truancy (Yorkshire)

David Davis: To ask the Secretary of State for Education and Skills how many children in the East Riding of Yorkshire played truant from school in each of the last five years. [3584]

Jacqui Smith: The information requested on the number of pupils that missed at least a half day due to unauthorised absence in schools in the East Riding of Yorkshire LEA is as follows.

	1999/2000	2000/01	2001/02	2002/03	2003/04
Maintained primary and secondary schools					
Number absent	6,184	4,641	5,761	5,750	5,104
As percentage of pupils of compulsory school age	14.0	10.4	12.8	12.7	11.5
Maintained primary schools					
Number absent	2,013	1,766	1,956	1,725	1,759
As percentage of pupils of compulsory school age	8.3	7.2	8.1	7.1	7.5
Maintained secondary schools					
Number absent	4,171	2,875	3,805	4,025	3,345
As percentage of pupils of compulsory school age	21.0	14.3	18.3	19.2	16.0

Unauthorised absence includes other forms of absence such as lateness, holidays during term time not authorised by the school, absence where reason is not yet established and truancy.

University Students

Mr. Clappison: To ask the Secretary of State for Education and Skills what proportion of students admitted to university to read *(a)* mathematics, *(b)* sciences and *(c)* modern foreign languages were from (i) grammar schools, (ii) state schools and (iii) independent schools in each of the last 10 years. [1740]

Bill Rammell: The latest available information is shown in the table. Comparable information for the intervening years is not held centrally by the Department. Although the majority of full-time undergraduates apply through UCAS, a small proportion, mostly mature students, apply direct to institutions and will therefore be excluded from the figures in the table, as will part-time students who are also not covered by UCAS application scheme.

Previous school type of accepted applicants to full-time undergraduate courses at UK institutions by subject

Universities and Colleges Admissions Service (UCAS). UCAS covers all HE institutions in the UK as well as FE colleges with significant HE provision. Figures have been rounded to the nearest 5.

Tuition Fees

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the maximum level of financial support available to undergraduates at higher education institutions in England from *(a)* low, *(b)* medium and *(c)* high income backgrounds will be from 2006. [3100]

Bill Rammell: The level of financial support available will depend on a number of things including the level of fees being charged by the higher education institution and the circumstances of the individual student.

But, whatever their circumstances, from 2006 students will not have to pay tuition fees while they are studying. Instead, all students will be able to take out a loan to cover their fees; that loan will not be based on income.

In addition, new students with household incomes between £16,000 and £33,000 will be eligible for the new non-repayable maintenance grant of up to £2,700. Institutions wishing to charge fees of the maximum £3,000 will have to provide a minimum institutional bursary of £300 to students entitled to the full £2,700 maintenance grant; many institutions will be offering much more than this.

The arrangements for repayment of maintenance and fee loans are fair and equitable. The graduate's repayments are at zero real rate of interest, related directly to earnings and only required when earnings are greater than £15,000 per year.

Mr. Hands: To ask the Secretary of State for Education and Skills how much was raised through student tuition fees in Hammersmith and Fulham constituency in *(a)* 1997, *(b)* 2001 and *(c)* 2004. [3420]

Bill Rammell: Students on full-time undergraduate courses and their families are expected to make a contribution towards the cost of their tuition only if they can afford to do so. The amount of the contribution depends on family income.

The amount of private contributions to tuition fees by students from Hammersmith and Fulham, and England and Wales for academic year 2004/05 are given in the table.

Private contribution to tuition fees in Hammersmith and Fulham, and England and Wales for academic year 2004/05

Academic year 2004/05[1]	*£ million*
Hammersmith and Fulham	0.8
England and Wales	424.7

[1] Provisional (as at 8 June 2005)

Source:

Student Loans Company

Private contributions to tuition fees were introduced in 1998/99 therefore no data are available for academic year 1997/98.

Up to 2002/03, data were collected from LEAs to produce national estimates and the data collection exercise did not allow for the production of firm figures below this level; data at local education authority or regional level are therefore not available for 2001/02.

CHURCH COMMISSIONERS

Senior Clergy

Michael Fabricant: To ask the hon. Member for Middlesbrough, representing the Church Commissioners if he will make a statement on the availability and number of qualified clergy for senior clerical positions within the Church of England. [2988]

Sir Stuart Bell: There are always clergy available for senior appointment in the Church of England. It is hard to measure the number of qualified clergy in general terms as the requirement of particular posts and its context determine what skills, attributes and experience are sought.

Residential Sales

29. **David Taylor:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners what safeguards for existing tenants are sought before decisions by the Commissioners to sell the freehold of residential properties are taken. [2990]

Sir Stuart Bell: The Commissioners have reassured tenants that this is a sale of the freehold only and does not affect the terms of their tenancies.

Written Answers to Questions

Tuesday 14 June 2005

CULTURE, MEDIA AND SPORT

Acts of Parliament (Internet Access)

Mr. Gordon Prentice: To ask the Secretary of State for Culture, Media and Sport if she will take steps to make all Acts of Parliament published before 1988 for which her Department is responsible available on-line. [3716]

Mr. Caborn: The Controller of Her Majesty's Stationery Office (HMSO) within the Cabinet Office is the Queen's Printer of Acts of Parliament, and responsible for the publication of Acts of Parliament. HMSO has considered the publication of Acts prior to 1988, which is the earliest date when these were available electronically, but has decided not to do so as many have been heavily amended and to publish them in their original form would be misleading for many users. The Government are, however, taking forward development of a Statute Law Database which will contain the fully revised and updated text of all legislation from 1275. It is expected that this will be made available to the general public during 2006.

British Museum Act

Mr. Dismore: To ask the Secretary of State for Culture, Media and Sport if she will bring forward amendments to the British Museum Act 1963 following the judgment of the High Court in the case of works of art formerly owned by Arthur Feldman and now in the British Museum; and if she will make a statement. [3209]

Mr. Lammy: We are carefully considering the recent recommendation of the Spoliation Advisory Panel that legislation should be introduced to permit the return of items where possession was lost during the Nazi era. The Vice Chancellor's judgment of 27 May provides clarity in this important area and will contribute to our consideration of the Panel's recommendation.

Civil Servants

Dr. Cable: To ask the Secretary of State for Culture, Media and Sport what value-for-money procurement savings were identified and what reduction in civil service posts occurred in her Department in 2004–05. [4551]

Mr. Caborn: DCMS will complete its assessment of the value-for-money procurement savings in July. Last year's savings for DCMS were £5.88 million and this year's return is expected to be a similar figure. I will write to the hon. Member with the 2004–05 savings as soon as they are available. Civil service posts in DCMS increased by 4.6 full-time equivalents in 2004–05.

Licensing Act

John Cummings: To ask the Secretary of State for Culture, Media and Sport how many applications have been received to date by Easington district council from licensees for a new licence under the Licensing Act 2003; and what percentage of licences held this represents. [3800]

James Purnell: Information on the number of applications for converting existing licences received to date by Easington district council licensing authorities under the Licensing Act 2003 and the percentage this represents of existing licences is not kept by my Department. Information on local licence application levels should be available from the respective district or borough council. Licensing authorities are the main local authorities responsible for administering and enforcing the new regime that comes into effect in November.

Mr. Peter Ainsworth: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the likely consequences of the provisions of the Licensing Act 2003 on the income of village halls; and if she will make a statement. [2654]

James Purnell *[holding answer 9 June 2005]:* There is no cost to village halls applying for a premises licence for the provision of public entertainment. Only where they wish to add the supply of alcohol to their licence will the vast majority pay no more than £190 on initial application and £180 as an annual fee. For many halls the fees would be £100 and £70 respectively. Once granted a premises licence, village halls will have the flexibility to provide licensable activities on their premises to a wide variety of users.

London Eye

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the effect of the London Eye on the 2012 Olympic bid. [1230]

Tessa Jowell: The London Eye is now a much loved and iconic London landmark, as such it is a first class tourist attraction—all of which helps to support London's bid for the 2012 Olympic and Paralympic Games.

National Lottery

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport how much money in each year has remained unclaimed since the National Lottery started; and what has happened to this money. [4584]

Mr. Caborn: All prizes that are unclaimed 180 days after the date of the relevant draw are passed, together with any interest accrued, to the National Lottery Distribution Fund. The amount passed in every year, in £ million, since the National Lottery began is:

	£ million
1994–95	0
1995–96	34
1996–97	48
1997–98	74
1998–99	78
1999–2000	71
2000–01	76

	£ million
2001–02	81
2002–03	85
2003–04	73
2004–05	100

Sport Administration Costs

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what the total administration costs of *(a)* the Sport and Recreation Division of her Department, *(b)* Sport England, *(c)* regional sports boards and *(d)* county sports partnerships were in 2004–05 (i) in total and (ii) as a percentage of the overall budget of each. [3606]

Mr. Caborn: The information requested is shown in the following table:

	Administration costs 2004–05 (£000)	*As a percentage of budget allocated for each*
DCMS Sports Directorate[1]	1,325	942
Sport England[2]	24,782	99.11
Regional Sports Boards	8,692	89.82
County Sports Partnerships	6,850	100.00

[1] Includes costs of Sports Division and Director of Sport (Group Head). Includes pay and other general administration.
[2] Excludes the direct costs of running National Centres and Regional Offices

TRADE AND INDUSTRY

Agents

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what measures UK Trade and Investment staff take to ensure that the lists of agents they provide to British companies include only agents committed to non-bribery principles. [2557]

Ian Pearson: The onus remains with UKTI customers to satisfy themselves as to the business standing and integrity of potential agents.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many agents were removed from the list of agents provided by UK Trade and Investment to British companies, in each year since 2000; and from which countries. [2345]

Ian Pearson: UK Trade and Investment (UKTI) do not hold a central list of agents or any other potential business partners. Bespoke lists of agents and other potential business partners can be provided direct to UKTI customers at their request.

Arms Sales (Indonesia)

Mr. Meacher: To ask the Secretary of State for Trade and Industry what action is being taken to prosecute Alvis plc for the payment made to Siti Hardiyanti Rukmana in order to secure the contract from the Indonesian Government to supply Scorpion armoured fighting vehicles; and if he make a full statement. [557]

Ian Pearson: The Export Credits Guarantee Department (ECGD) provided support for the contract referred to. ECGD does not have investigatory powers, but I understand that the above matter has been referred to the Serious Fraud Office, which has primary responsibility for deciding whether such allegations should be investigated.

Citizens Advice Bureaux

Sarah Teather: To ask the Secretary of State for Trade and Industry how much his Department gave in grant to Citizens Advice Bureaux in each London borough in the last year for which figures are available. [2533]

Mr. Sutcliffe: The Department does not provide grant to local Citizens Advice Bureaux.

Departmental Union Representation

Mr. Jenkins: To ask the Secretary of State for Trade and Industry how many trade union learning representatives there are in his Department. [3313]

Alan Johnson: DTI has eight trade union learning representatives.

Inward Investment

Mr. Arbuthnot: To ask the Secretary of State for Trade and Industry what assessment he has made of levels of inward investment into the United Kingdom; and if he will make a statement. [1461]

Ian Pearson *[holding answer 6 June 2005]:* On 29 June I will be making a written statement to the House on inward investment into the United Kingdom in 2004–05 updating the one that was laid before the House last July. A copy of UKTI's 2004–05 annual report on UK inward investment will be placed in the Libraries of the House.

Patio Heaters

Norman Baker: To ask the Secretary of State for Trade and Industry what estimate he has made of the number of outdoor patio heaters imported into the United Kingdom in each year since 1997. [4526]

Ian Pearson: The information requested is not available because the system of classification used to record trade does not separately identify outdoor patio heaters.

Race Relations Amendment Act

John Hemming: To ask the Secretary of State for Trade and Industry what proportion of employees in the agencies in his Department are members of ethnic minorities that are *(a)* included and *(b)* not included in the schedule for the Race Relations Amendment Act 2000. [978]

Alan Johnson: DTI agencies included in the schedule for the Race Relations Amendment Act 2000 (category a) are: Patent Office, Companies House, Employment Tribunals Service, Small Business Service, Insolvency Service and National Weights and Measures Laboratory.

There are no DTI agencies excluded from the schedule for the Race Relations Amendment Act 2000 (category b).

DTI HQ does not have access to the data requested. Agencies listed under *(a)* were asked to supply the data requested, and have responded with the following information:

As part of the schedule for the Race Relations Amendment Act 2000, the following percentages of staff have registered themselves as from an ethnic minority background:

	Percentage
Patent Office	4
Companies House	4
Employment Tribunals Service	21.2
Small Business Service	7
Insolvency Service	15
National Weights and Measures Laboratory	*0

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abandoned Vehicles

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by councils on clearing abandoned vehicles in each year since 1997. [2414]

Mr. Bradshaw: Figures on local authority expenditure on abandoned vehicles are not recorded centrally. However, the Defra Abandoned Vehicle Survey for 2002–03 estimated that the direct costs to local authorities of investigating, removing and disposing of abandoned vehicles was £25 million.

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of abandoned vehicles were investigated within *(a)* 24 hours, *(b)* a week and *(c)* a month of a complaint being registered in the last year for which figures are available. [2426]

Mr. Bradshaw: The Government has introduced a new Best Value Performance Indicator 218 on abandoned vehicles. From April this year, local authorities are required to record and supply data on both:

(a) the percentage of new reports of abandoned vehicles investigated within 24 hours of notification and

(b) the percentage of abandoned vehicles removed within 24 hours of the local authority becoming legally entitled to do so

Figures for 2005–06 will be available later in 2006.

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned vehicles have been identified in each year since 1997; and how many have been cleared. [2427]

Mr. Bradshaw: Estimates for abandoned vehicles removed and destroyed were first compiled in the Defra Municipal Waste Management Survey for 2000–01.

Annual results for England are listed in the table.

	Number
2000–01	223,539
2001–02	284,421
2002–03	291,710
2003–04	221,424

Angling Revenues

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what use is made of revenues raised from National Rod Licence fees. [2915]

Mr. Bradshaw: All rod licence revenue is used to protect, conserve and enhance freshwater fisheries and other salmonid fisheries. Actions which this revenue funds include enforcement activities, monitoring, research and development, and habitat improvement works. The Environment Agency also uses the revenue to promote the social and economic benefits of fisheries. The Government also fund EA fisheries activities in the order of £6.2 million per year.

Auction Marts

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the future of auction marts. [3639]

Jim Knight *[holding answer 13 June 2005]:* Auction marts continue to be important for livestock farmers, particularly for store and breeding stock. As part of the wider livestock and meat marketing chain they are not immune from change and evolution, but this can have positive impact too. New and/or redeveloped markets will include the one now being built at Cirencester which is part funded by the Defra Rural Enterprise Scheme. In other markets there may be opportunities for business diversification. We continue to monitor the network of auction markets, and remain in regular contact with the Livestock Auctioneers Association and the Meat and Livestock Commission. The Red Meat Industry Forum, with significant contributory Government funding, is working on finding ways of helping industry improve the competitiveness of the red meat supply chain. This includes livestock auction markets.

Avian Flu

Lady Hermon: To ask the Secretary of State for Environment, Food and Rural Affairs what precautionary measures have been put in place to prevent the spread of the avian influenza virus H5N1 to the United Kingdom. [2270]

Mr. Bradshaw: If there is an outbreak of disease in an exporting country Defra takes appropriate emergency safeguard action in accordance with Community legislation. This may include a ban on imports of animals and animal products from all, or parts, of that country.

Safeguard measures in relation to Avian influenza (AI) were put in place for effected Asian countries in January 2004 and have since been extended to 30 September 2005. Restrictions were placed on South African imports in August 2004 and have now been extended to 31 December 2005.

The situation in affected countries is kept under review and controls on imports are modified in line with community decisions. Safeguard measures are currently in place to ban or restrict imports of animals, meat and other products of susceptible species in respect of highly pathogenic Avian influenza (HPAI) in Cambodia, Indonesia, Laos, Malaysia, Pakistan, the People's Republic of China, including the territory of Hong Kong, North Korea, Thailand, Vietnam and South Africa.

All poultry meat and birds imported into the EU from third countries must enter at designated border inspection posts where they are subject to veterinary inspections. All consignments are subject to documentary and identity checks. These checks ensure that these import conditions are met.

From the time of import, live poultry or eggs once hatched, must be held in quarantine for six weeks in an approved establishment to ensure that they are not carrying disease.

Canada Geese

Mr. Gordon Prentice: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the impact of Canada geese on *(a)* the environment and *(b)* other forms of wildlife. [3401]

Jim Knight: Canada geese were introduced to this country to add interest to parks and are another example of unwise introductions. They are large aggressive birds, now resident and breeding in Britain. The population estimate is 96,000 in England, with a suggested annual increase in population of 10 per cent. Its size and aggressive nature enables it to dominate other native species in terms of feeding and nest site selection, which can result in other species being unable to breed. There are also reports that breeding success of other birds is affected by trampling of nests, eggs and young. The Canada goose can also interbreed with other goose species, resulting in hybrids.

Large congregations of Canada geese in parks can lead to local problems of bank erosion, fouling and intimidation of other park users, both human and wildlife.

Being resident, Canada geese may extend the period during which damage to agricultural crops may occur which can lead to conflict with farmers.

The Canada goose is not a rare species, and the numbers in England are not significant in terms of the world population.

Genetically Modified Maize

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has evaluated on the effects of the consumption of genetically modified maize MON863 on the health of *(a)* rats and *(b)* humans. [2011]

Caroline Flint: I have been asked to reply.

The advisory committee on animal feedingstuffs examined a rat feeding study concerning MON863 and concluded that it did not indicate any adverse effects. The European Food Safety Authority also reviewed the application for genetically modified maize MON863, including a critique of a rat feeding study, and concluded that MON863 would not have any adverse affect on human health.

There have been no studies carried out on the effects on humans of consuming MON863 maize.

Incinerators

Anne Milton: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of incinerators that will be constructed over the next five years in *(a)* England and *(b)* South East England. [3381]

Mr. Bradshaw: There are no data held centrally on the estimated number of incinerators that will be built in future years. The choice of waste management options is for individual local authorities to make.

Private Finance Initiative

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the private finance initiative and public private partnership projects her Department is undertaking; and what the status of each is. [2369]

Jim Knight: The core Department is currently undertaking one PFI project to provide office facilities at Brooklands Avenue in Cambridge. This project is operational.

There are, however, a number of other PFI and PPP projects being undertaken by Defra's sponsored public bodies ie its Executive agencies, NDPBs, and public corporations. The details are listed as follows:

Organisation	*Description*	*Category*	*Status*
Environment Agency	Broadland (Norfolk) Flood Defence Scheme	PFI	Operational
Environment Agency	Pevensey Bay Sea Defences	PFI	Operational
Countryside Agency	'SPIRIT IT' System	PFI	Operational
British Waterways	Pub Partnership—development and management of canal side pub estate	PPP	Partnership is operational
British Waterways	'Isis'—development of river and canal side property	PPP	Partnership is operational
British Waterways	Wood Wharf (London) redevelopment	PPP	Partnership is operational
British Waterways	Watergrid—water supply network	PPP	Partnership is dormant

In addition, although they are not Defra projects, the Department also provides support in the form of PFI credits to allow local authorities to enter into PFI contracts to provide waste recycling and management facilities. Information about these local authority projects can be found on the database of approved projects on HM Treasury's website.

Recycling

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage

of *(a)* domestic, *(b)* commercial and *(c)* industrial waste has been recycled in the UK in each year since 2001. [1076]

Mr. Bradshaw: The information requested is as follows:

(a) Estimates of the percentage of UK household waste recycled or composted are shown in the table:

Household waste recycled or composted

	Percentage
2001–02	12
2002–03	14
2003–04	17

(a) and *(b)* Estimates based on an Environment Agency survey of England and Wales in 1998–99 show that 45 per cent. of industrial and 26 per cent. of commercial waste was recycled or reused. Results from a further survey for 2002–03 will be published shortly.

UK Presidency (EU)

Kate Hoey: To ask the Secretary of State for Environment, Food and Rural Affairs what communication activities are planned in relation to the policy areas covered by her Department during the UK presidency of the EU; and what budget has been allocated for these activities. [1657]

Jim Knight: External communications activity for the presidency is being co-ordinated centrally by the Foreign and Commonwealth Office. Defra is engaged with FCO and other Government Departments on presidency communications activity.

Defra's presidency communications activity has been developed to be sustainable and accessible and to address both public interest in the EU in general and the priorities, programme and progress of Defra's parts of the EU agenda.

Ministers will undertake a range of activities, including briefings for media and stakeholders, and explanatory information will be placed in public areas of Defra buildings. Currently we have £20,000 set aside for publicity materials. We will also work with stakeholders, other Departments and the Commission on joined-up communications activity as appropriate.

Whales

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what further steps she intends to take following the decision of the Japanese authorities to *(a)* increase the quota of minke whale taking and *(b)* begin hunting the humpback whale. [3129]

Mr. Bradshaw: With colleagues from 14 other countries HM ambassador in Tokyo delivered a Demarche to the Government of Japan on 2 June 2005, protesting in the strongest terms on Japan's plans to expand its so-called 'scientific' whaling activities. We are working to ensure that the International Whaling Commission's Scientific Committee takes no action which could possibly be read by Japan as an 'endorsement' of their plans, and will make further protest during the annual meeting of the Commission which takes place later this month.

TRANSPORT

Car Sharing

Tom Brake: To ask the Secretary of State for Transport what assessment the Government have made of the effectiveness of car-sharing within schools as a means of reducing congestion associated with the school run. [1675]

Ms Buck: The Government want to make it possible for more children to walk, cycle or use the bus to get to and from school. Where these are not feasible, we would like as many parents as possible to have the option of car-sharing. Many families already make their own informal arrangements but formal car-sharing schemes for school journeys are only just starting to be developed.

The impact of car-sharing on traffic levels is included in a major research report published by the Department last July—"Smarter Choices—Changing the Way We Travel". Based on the evidence provided by this report, we are encouraging local authorities to consider including initiatives such as car-sharing in their new transport strategies.

Tom Brake: To ask the Secretary of State for Transport (1) how much funding has been given by his Department, and its predecessors, in each year since 1997 towards the *(a)* development and *(b)* promotion of (i) car clubs, (ii) car sharing and (iii) the Carplus scheme; [1677]

(2) what funding has been made available to local authorities to promote *(a)* car sharing, *(b)* car clubs and *(c)* education programmes to promote walking and cycling in each year since 1997. [1781]

Ms Buck: The information requested is as follows.

Car Clubs and Car Sharing

In 1999, the Department contributed setting up costs of £150,000 to establish the Edinburgh City Car Club. The Department has also supported the CarPlus advisory service with the following grants:

	£
1999	37,000
2000	38,000
2001	103,000
2002	53,000
2003	60,000
2004	60,000

CarPlus have requested further funding for 2005–06. This is currently under consideration.

Education Programmes

In general, revenue funding provided to local authorities is not dedicated for specific purposes. We did, however, provide some ring-fenced funding to local authorities through our bursary scheme for the

employment of school and workplace travel plan co-ordinators at a cost of £3 million per annum for three years from April 2001 to March 2004. Both car-sharing and car clubs are measures that could be included in travel plans.

Since October 2003, the focus has been on promoting school travel plans through the Travel to School Initiative. This is a joint project with the Department for Education and Skills. A budget of £50 million has been allocated for the two years up to March 2006. The aim is for every school in England to have a travel plan by the end of the decade and through this to boost walking, cycling and bus use. The funding is being used to support around 250 local-authority based school travel advisers to assist schools with developing their plans. There are also capital grants for schools with approved travel plans to pay for infrastructure such as improved cycle storage facilities. This is typically £5,000 for a junior school and £10,000 for a senior. £14 million was spent on these capital grants in 2004–05 and £20 million is expected for this and each subsequent year up to and including 2008.

Tom Brake: To ask the Secretary of State for Transport if he will estimate the total reduction in vehicle kilometres that would result from a *(a)* 10 per cent. *(b)* 20 per cent. and *(c)* 50 per cent. increase in average vehicle occupancy. [1678]

Ms Buck: It is estimated that the decrease in vehicle kilometres for cars, taxis and vans as a result of an increase in vehicle occupancy would be as follows:

		Vehicle kilometres by cars, taxis and vans (billion)		
Increase in vehicle occupancy	*Resultant percentage change in vehicle kilometres*	*Current (2003)*	*Following decrease in occupancy*	*Change*
10 per cent.	-9	451	410	41
20 per cent.	-17	451	376	75
50 per cent.	-33	451	301	150

This assumes that the occupancy increase is a result of increased trip sharing and therefore fewer trips, and not, for example, from a shift of passengers from other modes of transport. It is also assumed that an increase in occupancy does not result in an increase in trip length (i.e. passenger kilometre figures stay fixed).

Clive Soley

Tom Brake: To ask the Secretary of State for Transport if he will list the recent occasions on which *(a)* he, *(b)* other Ministers in his Department and *(c)* officials of the Department have met Clive Soley on departmental business. [2291]

Ms Buck: My right hon. Friend the Secretary of State for Transport met Clive Soley at the Future Heathrow event on Monday 23 May. No other Department for Transport Ministers have recently met Clive Soley on departmental business. It is not known whether any officials from the Department for Transport may have met Clive Soley recently since no central record is kept of meetings officials attend.

Commercial Pilots

Mr. Gordon Prentice: To ask the Secretary of State for Transport how many hours flying time per month are considered necessary for commercial pilots to retain their skills and competence. [3177]

Ms Buck: There are no specified flying hours per month necessary for pilots of commercial aircraft to retain their skills and competence. Commercial pilots are however required to complete a minimum of three take-offs and three landings as pilot flying (i.e. handling the aircraft) in the previous 90 days prior to operating a public transport flight, and a programme of recurrent training and checking requires them to demonstrate high levels of competency.

Crossrail

Dr. Pugh: To ask the Secretary of State for Transport what the latest estimate is of the cost of Crossrail. [3167]

Derek Twigg: The latest estimate of the cost of Crossrail is contained in the Estimate of Expense submitted with the Crossrail hybrid Bill.

EU Directive

Malcolm Bruce: To ask the Secretary of State for Transport what derogations the Government have *(a)* sought and *(b)* secured from (i) Article 4, (ii) Article 7 and (iii) other articles of Directive 2002/15/EC. [4230]

Dr. Ladyman: Directive 2002/15/EC allows for various derogations from Articles 4 and 7 under certain conditions. There is no requirement to seek approval for such derogations from the European Commission.

The Government consulted twice on their approach to implementing the Directive, including the use of derogations, and, following these consultations, the implementing regulations allowed for:

(a) the extension of the reference period (Article 4 of the Directive) over which the average 48 hour weekly working time limit is calculated from 17 to 26 weeks; and,

(b) exceeding the 10 hour working time limit for working at night (Article 7)

In both cases, such derogations may be applied only where there is a collective or workforce agreement (as required under the Directive).

No derogations are allowed from Articles of the Directive other than Articles 4 and 7.

High-occupancy Vehicle Lanes

Tom Brake: To ask the Secretary of State for Transport what the location of each high occupancy vehicle lane is; how long each lane is; and what new lanes are planned. [1673]

Dr. Ladyman: Three sections of high occupancy vehicle (HOV) lane are presently in operation. In Leeds two lengths totalling 1.5 km have been installed along a 2 km stretch of the A647 Stanningley Road. South Gloucestershire council has three sections of HOV lane on the A4174 Avon Ring Road totalling 1.79 km. North Somerset council has a 1.425 km length of HOV lane on the A370 Long Ashton Bypass.

Leeds city council plans to include HOV lane operation on the East Leeds Link. South Gloucestershire council plans a further 220 metre length for the A4174 and North Somerset council is considering an HOV lane on the A369 as part of a showcase bus route. I understand a number of other local authorities are also considering HOV lanes.

In addition the Highways Agency has recently carried out a study that assessed the feasibility of introducing HOV lanes on sections of the motorway network. As a result of this study it is planned to introduce an HOV lane in both directions on the M1 junctions 7–10 when that section of motorway is widened in 2008. If this scheme proves successful the HOV lane could be extended as far as junction 13 (Milton Keynes) when that section of motorway is widened in 2011. The length of HOV lane to be provided between junction 7–10 is approximately 12.5 km in both directions. If the HOV is extended to junction 13 the total length will be about 36.25 km in both directions.

The Agency is also looking into the feasibility of introducing HOV lanes on other sections of the motorway network. Locations being actively considered include sections of the M25 to be widened, M61 junctions 6–3 on the approach to Manchester and M62 junctions 25–27 on the approach to Leeds. This feasibility work is yet to conclude.

Tom Brake: To ask the Secretary of State for Transport what research his Department has collated on the effectiveness of high occupancy vehicle lanes. [1676]

Dr. Ladyman: The Department is in touch with the highway authorities who have installed high occupancy vehicle (HOV) lanes. The Highways Agency has commissioned reviews of international knowledge and experience on high occupancy/toll (HOT) lanes, a development of HOV lanes.

Leeds city council has reported on the HOV lane on the A647 in Leeds and an information sheet is available on their website at http://www.leeds.gov.uk/, then search for high occupancy vehicle lane.

South Gloucester council can provide data on the performance of their HOV lane and there is some information on their website at http://www.southglos.gov.uk/SouthGlos/TransportAndRoads/TrafficAndRoads/CalmingAndManagement/CarShareLanes.htm

It is too early to report on the lane on the A370 Long Ashton Bypass in North Somerset which commenced operation in February this year.

Learner Driver Pack

John Smith: To ask the Secretary of State for Transport if he will *(a)* withdraw the Complete Official Learner Driver Pack published by The Stationery Office, *(b)* amend the inaccurate information it contains and *(c)* refund the cost to learner drivers and others who have purchased the Pack. [2852]

Dr. Ladyman: We have identified an error concerning information about a road sign in the DVD in our Complete Official Learner Driver Pack. We are taking steps to withdraw the incorrect packs from sale. We shall consider sympathetically any requests for a refund.

Litter

Sarah Teather: To ask the Secretary of State for Transport how many successful prosecutions were carried out against passengers for dropping litter at *(a)* train stations and *(b)* tube stations in London in each year since 1997. [2512]

Derek Twigg: The information requested can be provided only at disproportionate cost.

M6

Dr. Pugh: To ask the Secretary of State for Transport what research he has evaluated on *(a)* the purposes for car journeys on the M6 and *(b)* the average length of car journeys on the M6. [2764]

Dr. Ladyman: The purposes of car journeys and the average trip length on the M6 has been evaluated in connection with the West Midlands to North West Conurbations Multi-Modal Study.

(a) The purpose of car journeys that join the M6 between Junctions 11 and 19 were as follows:

	AM	*Inter-Peak*	*PM*
Commuting	58.2	12.8	49.8
Business	27.5	43.6	26.2
Other	14.0	43.6	24.0

These figures exclude journeys on the M6 that pass through both these junctions. The Department for Transport does not hold information on the purpose of these journeys.

(b) 42 per cent. of all traffic (cars, vans, lorries etc) passes through both Junction 11 and 19 and therefore has a journey length greater than 54 miles.

M62

Mr. Greg Knight: To ask the Secretary of State for Transport for what reason a traffic survey was being carried out east of junction 37 on the M62 motorway on 4 June; and who was carrying out the survey. [3041]

Dr. Ladyman: A traffic survey was carried out east of junction 37 on the M62 motorway on 4 June to look at traffic flows in preparation for the removal of cones to be undertaken. The cones were in place to allow the installation of safety barriers. The survey was carried out by Balfour Beatty on behalf of the Highways Agency.

Mr. Greg Knight: To ask the Secretary of State for Transport how many accidents took place on the M62 motorway east of junction 37 in the last 12 months for which figures are available. [3042]

Dr. Ladyman: There have been five accidents on the M62 motorway east of junction 37 during 2004, the latest year for which figures are available.

Mr. Greg Knight: To ask the Secretary of State for Transport why speed cameras are being erected on the M62 motorway east of junction 37; upon whose authority the cameras were erected; for how long the cameras are expected to remain; and if he will make a statement. [3043]

Dr. Ladyman: Speed cameras have been erected on the M62 motorway east of junction 37 as part of the M62 Gilberdyke to Newport concrete resurfacing scheme to improve safety for the travelling public and the work force during the works. The cameras have been erected by the Highways Agency in agreement with the Humberside Camera Partnership and Humberside police. The cameras will be in place for the duration of the works. The works started on 9 June and are expected to last 10 weeks.

North London Line

Sarah Teather: To ask the Secretary of State for Transport how many rail journeys were made by freight trains on the North London Line in each year since 1997. [2504]

Derek Twigg: The Department does not hold this type of statistical information regarding the number of train journeys on specific lines of the rail network.

Specific inquiries of this nature should be directed to Network Rail and the train operating companies.

Park and Ride

Tom Brake: To ask the Secretary of State for Transport how many *(a)* new and *(b)* expansions of existing park and ride facilities are proposed in the most recent annual progress reports. [2170]

Ms Buck: The projected numbers of new and expanded existing schemes recorded by local authorities in the 2003–04 annual progress reports are in the table. A few authorities did not provide returns.

Park and ride facilities

	New	*Expansion to existing*	*Total*
2004–05	20	28	48
2005–06	32	25	57
2006–07	21	21	42
2007–08	23	11	34

Pedestrian Crossings

John Hemming: To ask the Secretary of State for Transport what the evidential basis is for the claim that puffin crossings cause less vehicle delay than pelican crossings; what assessment the Department has made of which type of crossing pedestrians prefer and what guidance his Department gives to local authorities as to which system to install for newly implemented pedestrian crossings. [3724]

Dr. Ladyman: The reduced vehicle delay at a puffin crossing is primarily a result of cancelling the call for a pedestrian stage when no pedestrians are waiting. This frequently occurs when pedestrians see a gap in the traffic after pressing the call button. The benefit published in the Transport Research Laboratory study, (TRL Research Report 364), was derived from observations at sites where the call cancelling facility was trialled.

Puffin crossings were developed to address the problems that pedestrians were encountering in using traditional signalled controlled crossings, including pelicans. We are currently carrying out further research to assess the operation of conversions from pelicans to puffins, including the behaviour and perception of pedestrians.

The Department issued guidance to practitioners in the form of Local Transport Notes 1/95 "The Assessment of Pedestrian Crossings" and 2/95— "Design of Pedestrian Crossings". These include information about both pelican and puffin crossings. They do not recommend one against the other, although they do say that it is intended that the puffin operational cycle will become the standard form of pedestrian crossing at all types of crossings.

PFI/PPP

Mr. Philip Hammond: To ask the Secretary of State for Transport if he will list the private finance initiative and public private partnership projects his Department is undertaking; and what the status of each is. [2362]

Ms Buck: The Department for Transport has awarded private finance initiative/public private partnership contracts for the following contracts. All of the projects are operational.

Driver and Vehicle Licensing Agency

Estates Rationalisation

Highways Agency

Dartford Crossing
Severn Crossing
M6 Toll Road
A69
A1(M)
A417/419
A50
A30/35
M40
A19
M1-A1 Link Road
A1 Darrington to Dishforth
A249 Stockbridge to Sheerness
Traffic Control Centre

Vehicle Operator and Services Agency

MOT Computerisation

Quieter Road Surfaces

Tom Brake: To ask the Secretary of State for Transport whether the target in the 10-year plan for transport on quieter road surfaces remains a Government target. [2169]

Dr. Ladyman: The 10-year plan for transport included an illustration of the delivery programme possible by 2010–11, given the levels of investment set out in the

plan. Included in the illustration was the installation of quieter surfacing on over 60 per cent. of the strategic road network. The Highways Agency had surfaced approximately 27 per cent. of the network with quieter surfacing by the end of March 2005 and is currently on target to resurface 60 per cent. by the end of March 2011.

Tom Brake: To ask the Secretary of State for Transport when he expects the Quiet Lanes Regulations to be published. [2171]

Dr. Ladyman: The Department for Transport expects to publish the Quiet Lanes and Home Zones Regulations in autumn 2005.

Railways

Tom Brake: To ask the Secretary of State for Transport how many *(a)* incidents of and *(b)* prosecutions there were for (i) vandalism and (ii) trespass on rail lines by (A) adults and (B) juveniles in each of the last five years, broken down by region. [1469]

Derek Twigg: The British Transport police have provided the following table which shows the number of reported incidents of criminal damage/malicious mischief and of trespass on the railway over the last five years. There are no separate statistics for vandalism and the statistics are not available by region.

	2000-01	*2001-02*	*2002-03*	*2003-04*	*2004-05*
Criminal damage/malicious mischief offences					
England/Wales (exc. LU)	5,090	4,774	4,978	6,480	6,661
London Underground	693	725	925	1,509	1,470
Scotland	753	531	599	563	605
Total	6,536	6,030	6,502	8,552	8,736
Railway trespass offences					
England/Wales (exc. LU)	13,445	14,727	15,099	14,080	13,001
London Underground	23	28	91	242	357
Scotland	1,927	2,024	2,029	2,060	2,025
Total	15,395	16,779	17,219	16,382	15,383

The following table shows the number of offences prosecuted for criminal damage and for railway trespass for adults and juveniles, based on the date of the offence.

The British Transport police do not hold data on Scottish prosecutions.

	2000-01	*2001-02*	*2002-03*	*2003-04*	*2004-05*
Criminal damage offences prosecuted—adults					
England/Wales (exc. LU)	413	449	442	414	312
London Underground	83	87	118	109	71
Total	496	536	560	523	383
Criminal damage offences prosecuted—juveniles					
England/Wales (exc. LU)	218	196	183	194	199
London Underground	35	49	36	36	92
Total	253	245	219	230	291
Railway trespass offences prosecuted—adults					
England/Wales (exc. LU)	237	457	412	522	448
London Underground	11	11	14	23	17
Total	248	468	426	545	465
Railway trespass offences prosecuted—juveniles					
England/Wales (exc. LU)	199	266	245	254	209
London Underground	10	6	4	3	13
Total	209	272	249	257	222

Derek Wyatt: To ask the Secretary of State for Transport when he last met *(a)* Network Rail and *(b)* the Health and Safety Executive to discuss the siting of whistleboards. [4670]

Derek Twigg: There have been no meetings between Ministers at the Department, Network Rail and the Health and Safety Executive to discuss the siting of whistleboards. The railway industry has a duty under health and safety legislation to ensure that risks to those on or near railway lines are reduced. The location of whistleboards is the responsibility of Network Rail, who apply the requirements laid down by the Health and Safety Executive.

Train drivers are required to sound train horns where whistleboards are located: on the approaches to footpath crossings and at unprotected crossings, in order to alert pedestrians to approaching trains. This is an important safeguard for those using footpath and level crossings, as there have been a number of fatal accidents at such locations.

Peter Law: To ask the Secretary of State for Transport what action is being taken to improve services on the South Wales Main Passenger Rail Service. [4040]

Derek Twigg: The introduction of the Arriva Trains Wales Standard Pattern Timetable in December 2005 will bring a more regular, clockface timetable for services in South Wales. A 60-day consultation began on 2 June on future services in the new Greater Western franchise to run from 1 April 2006, which includes services between London and South Wales.

Mr. Laxton: To ask the Secretary of State for Transport when he expects to publish a timetable for the break-up of Central Trains; and which franchise he expects will then be responsible for the Derby to Matlock services. [4063]

Derek Twigg: The Strategic Rail Authority has begun informal consultation with industry stakeholders including passenger transport executives and local authorities. Specific proposals for the re-allocation of Central Trains' services to other franchises will be considered later in the year.

Secure Station Status

Tom Brake: To ask the Secretary of State for Transport how many stations with secure station status have subsequently had their designation removed since 6 December 2004; and which stations have been designated secure stations under the secure station scheme since that date. [2173]

Derek Twigg: Stations are awarded secure stations status for a two year period once they have met the required scheme accreditation standards on station design, station management, crime management, and passenger perceptions. There is provision for the accreditation to be withdrawn if there is a clear breach of standards during that time. No stations have breached the standards since the launch of the scheme in 1998.

The following 38 stations have been accredited under the secure stations scheme since 6 December 2004, including 27 new accreditations and 11 re-accreditations:

Aberystwyth
Barnsley
Bath Spa
Beckton
Birkenhead Central
Birmingham New Street
Bletchley
Bow Church
Brentford
Bristol Temple Meads
Brunswick
Cannon Street
Chesterfield
Clapham Junction
Cobham and Stoke D'Abernon
Deptford Bridge
Devon Road
Fazakerley
Fleet
Gallions Reach
Honiton
Island Garden
Lewisham
Liverpool Lime Street
Meadow Hall
Milton Keynes
Northampton
Old Roan
Prince Regent
Pudding Mill Lane
St. Pancras
Swindon
Wallesey Grove Road
Wandsworth Town
Waterloo
Waterloo International
Watford Junction
Wigan North Western

Tom Brake: To ask the Secretary of State for Transport how many crimes have been committed at stations that meet secure station status since 31 October 2004. [2172]

Derek Twigg: The British Transport police have provided the following information for the number of offences reported at stations that meet secure station status for the period 1 November 2004 to 31 May 2005:

	Number
Notifiable offences	7,249
Non-notifiable offences	2,484

Notifiable offences are those offences which form the Home Office recorded crime statistics and include all indictable offences together with some closely related summary offences such as common assault. Data supplied include offences recorded within stations' premises, including retail/entertainment outlets, car parks and cycle sheds.

Traffic Volume

Tom Brake: To ask the Secretary of State for Transport what the average 24 hour traffic volume at the *(a)* J3-J4E, *(b)* J4A-J5, *(c)* J9-J10, *(d)* J10-J10A, *(e)* J10A-J11, *(f)* J12-J13, *(g)* J6-J7 and *(h)* J9-J10 automatic traffic counters on the M6 on (i) Mondays to Fridays, (ii) Saturdays and (iii) Sundays has been in each month since January. [2300]

Dr. Ladyman: The traffic flows for the period from January to April 2005 are provided in the table. With regard to section *(a)*, the correct definition of this link is J3-J3a, rather than J3-J4E.

Average 24hr traffic volumes

		January 2005			*February 2005*		
Location	*Direction*	*Monday to Friday*	*Saturday*	*Sunday*	*Monday to Friday*	*Saturday*	*Sunday*
J3-J3a	N/B	58,067	34,966	35,370	62,341	41,949	39,787
J3-J3a	S/B	59,136	34,918	40,119	63,089	40,398	44,140
J4-J4a	N/B	50,425	33,639	33,118	54,582	39,410	37,436
J4-J4a	S/B	38,358	23,639	24,333	41,082	26,928	27,322
J4a-J5	N/B	65,367	42,824	41,170	69,481	46,420	45,205

[1] No data

Tom Brake: To ask the Secretary of State for Transport what the average 24 hour traffic volume at the *(a)* J6-J7 and *(b)* J9-J10 automatic traffic counters on the M42 on (i) Mondays to Fridays, (ii) Saturdays and (iii) Sundays has been in each month since January. [2301]

Dr. Ladyman: The traffic flows for the period from January to April 2005 are provided in the table.

2005	Junction 6 to Junction 7 Northbound	Junction 6 to Junction 7 Southbound	Junction 9 to Junction 10 Northbound	Junction 9 to Junction 10 Southbound
January				
Monday to Friday	58,310	[1]	36,027	33,992
Saturday	36,250	[1]	21,298	20,761
Sunday	43,293	[1]	22,729	22,809
February				
Monday to Friday	62,561	[1]	38,715	36,137
Saturday	42,366	[1]	25,169	23,659
Sunday	48,433	[1]	25,611	25,859
March				
Monday to Friday	63,784	[1]	38,466	36,304
Saturday	45,973	[1]	25,737	25,579
Sunday	48,952	[1]	25,776	25,868
April				
Monday to Friday	65,771	[1]	39,993	37,999
Saturday	47,987	[1]	26,480	26,290
Sunday	52,956	[1]	27,764	27,443

[1] No data available.

Train Commuters

Tom Brake: To ask the Secretary of State for Transport what the *(a)* passengers in excess of capacity and *(b)* total number of passengers figure was (i) for each London commuting service train operator and (ii) in total, broken down into (A) am peak and (B) pm peak figures measured in the annual survey in 2004; and how many peak passengers into London there were for (1) am peak periods, (2) pm peak periods and (3) in total for each London commuting service train operator. [2297]

Derek Twigg: The results of the autumn 2004 counts will be published at the end of this month. The results of the autumn 2003 counts are shown in the following

table. The "Passengers In Excess of Capacity" (PIXC) mechanism monitors services into London in the morning peak and out of London in the evening peak.

Operator	am peak Load	am peak PIXC (percentage)	pm peak Load	pm peak PIXC (percentage)	Total (am and pm)
Chiltern	9,191	3.3	8,157	0.8	2.1
South Central	69,127	4.7	52,083	1.1	3.1
Connex South Eastern	118,162	3.1	92,048	0.5	2.0
Great Eastern	47,739	2.1	46,358	2.1	2.1
C2c	26,643	1.3	23,619	0.6	1.0
Silverlink	18,824	6.0	17,395	2.1	4.2
South West Trains	81,670	7.4	70,373	2.8	5.2
Thames	11,054	2.0	8,977	0.9	1.5
Thameslink	27,131	2.3	23,218	2.7	2.5
WAGN	47,367	1.5	43,003	1.3	1.4
Total	459,908	3.8	385,231	1.5	2.7

Vehicle Excise Duty

Tom Brake: To ask the Secretary of State for Transport on how many occasions in the last 12 months for which figures are available when the Driver and Vehicle Licensing Agency (DVLA) initiated court proceedings against people who were believed not to have paid excise duty (VED), the DVLA *(a)* withdrew proceedings and *(b)* lost a case in court because the vehicle keeper showed that he or she had paid VED; how much the DVLA estimates such proceedings cost public funds; what steps the DVLA will take to improve its administration procedures to avoid the initiation of this type of unnecessary proceedings; and if he will make a statement. [1470]

Dr. Ladyman: In the 12 months to the end of March 2005 DVLA successfully prosecuted 189,418 cases in court for vehicle excise duty (VED) evasion. DVLA was unsuccessful in 3,400 cases. A breakdown of why these cases were unsuccessful is not available but the main reason is likely to be that VED was paid after the summons had been issued.

DVLA asks for a minimum of £35 to cover the costs of the whole procedure from initiation of enforcement proceedings to attendance in court.

The agency makes every effort to avoid court action. Initial action against VED evaders is taken through the offer of an out of court settlement which offers the offender the opportunity to settle the matter without recourse to court proceedings. Around 27 per cent. of evaders make use of this procedure.

Dr. Cable: To ask the Secretary of State for Transport what estimate he has made of the cost of collecting vehicle excise duty in the latest year for which information is available. [4539]

Dr. Ladyman: The total cost of collecting vehicle excise duty in 2004–05 was £119.5 million.

WORK AND PENSIONS

Bereavement Allowance

Mr. Laws: To ask the Secretary of State for Work and Pensions how many *(a)* widows and *(b)* widowers are receiving bereavement allowance; and how many of these are over 55 years and claiming the full rate of benefit. [3867]

Mr. Plaskitt: The information is in the following table.

Bereavement allowance recipients in Great Britain, as at September 2004

	All bereavement allowance recipients in Great Britain	Bereavement allowance recipients aged 55+ and receiving the full rate
Male	5,300	600
Female	14,400	6,300
Total	19,700	6,900

Notes:
1. Figures are rounded to the nearest 100.
2. The full rate for bereavement allowance at September 2004 is £79.60.
3. Bereavement allowance figures include both age related and non-age related recipients.
4. Figures exclude overseas recipients.

Source:
Information Directorate, 5 per cent. sample

Mr. Laws: To ask the Secretary of State for Work and Pensions how many *(a)* widows and *(b)* widowers have received the lump sum bereavement benefit of £2,000 within the last 12 months. [3868]

Mr. Plaskitt: The information is in the following table.

Number of successful claims for bereavement payment in the last 12 months, by gender.

	Total successful claims	Total successful claims; female	Total successful claims; male
April 2005	2,983	1,838	1,145
March 2005	2,891	1,772	1,119
February 2005	2,862	1,805	1,057
January 2005	3,420	2,203	1,217
December 2004	2,445	1,567	878
November 2004	2,786	1,746	1,040
October 2004	2,853	1,848	1,005
September 2004	2,604	1,721	883
August 2004	2,397	1,512	885
July 2004	2,476	1,601	875
June 2004	2,749	1,770	979
May 2004	2,635	1,636	999

Management Information Systems Programme 04 (MISP 04)

Cost-benefit Analyses

Mr. Laws: To ask the Secretary of State for Work and Pensions which employment programmes have had a cost benefit analysis produced; and if he will place copies in the Library. [2078]

Margaret Hodge: Evidence on the cost effectiveness of the New Deal for Young People programme has been produced by the Policy Studies Institute and the National Institute of Economic and Social Research and is available in the Library in 'Findings from the Macro Evaluation of the New Deal for Young People, DWP Research Report 168.'

A preliminary cost benefit analysis of New Deal for Lone Parents programme was carried in house by DWP economists, using results from the independent evaluation of the programme carried out by the National Centre for Social Research. The findings were published in 'New Deal for Lone Parents: Second Synthesis Report of the National Evaluation', DWP Evaluation Report W163 June 2003 and is also available in the Library.

This Department is currently producing cost benefit analyses of other major labour market programmes using an improved and more consistent method on a rolling basis. Results are expected to emerge from this autumn and as produced they will be made available under the Department's Freedom of Information procedures.

Earnings-related Pensions

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will estimate the cost of increasing the basic state pension to the level of the guarantee credit, linking that level to the growth of average earnings, abolishing the winter heating allowance and pensioner means-tested benefits, and introducing these charges for all pensioners aged over *(a)* 65, *(b)* 67, *(c)* 70 and *(d)* 75 years in each year from 2005–06 to 2050–51. [2062]

Mr. Timms: Such information as is available is in the table:

Cost of raising the level of the basic State Pension to the guaranteed credit level while abolishing pension credit and the winter fuel payment

Age:	*2005–06*	*2010–11*	*2020–21*	*2030–31*	*2040–41*	*£ billion 2050–51*
Over 65	5	10	25	50	80	113
Over 67	5	8	22	43	72	101
Over 70	4	6	17	34	60	84
Over 75	2	4	10	21	40	61

Notes:

1. The costs are for Great Britain in 2005–06 price terms, using the Gross Domestic Product deflator index, rounded to the nearest £1 billion.
2. Basic State Pension (BSP) expenditure is estimated by the Government Actuary's Department, consistent with Budget 2005 assumptions, made using 2003 based population projections.
3. Pension credit and the winter fuel payment expenditures are estimated by the Department for Work and Pensions forecasts based on 2005 Budget assumptions.
4. The eligibility to the basic State Pension is assumed not to change and to achieve the minimum basic State Pension payable (25 per cent.) a person will normally need 10 or 11 qualifying years.
5. It is assumed that the full rate of basic State Pension is increased to the level of the individual guarantee credit in 2005–06 and is increased in line with earnings. Category B pension paid to married women and basic State Pension paid to people entitled to less than the full rate of basic State Pension are increased by the same proportion.
6. Both pension credit and the winter fuel payment are assumed to be abolished for the different age groups from April 2005 with no payments to existing pensioners and no new recipients after 2005.
7. These figures do not take into account any offsets of tax.
8. Entitlement to additional State Pension, housing benefit, council tax benefit and other pensioner benefits are all assumed to be unchanged.

Under this proposal the pensioners already in receipt of pension credit would be no better off and a substantial number of pensioners would be worse off. This would be because they would lose pension credit and winter fuel payments and any additional amounts that pension credit gives them for caring responsibility, disability and certain housing costs.

Housing Benefit

Lynne Featherstone: To ask the Secretary of State for Work and Pensions what the average housing benefit payment in *(a)* the London borough of Haringey and *(b)* Greater London has been in each of the last eight years; and if he will make a statement. [4110]

Mr. Plaskitt *[holding answer 13 June 2005]:* The information is in the table.

Average weekly housing benefit payments in London borough of Haringey and the Government Office Region of London

As at November:	*Haringey*	*£ per week London*
1997	70.50	60.94
1998	72.13	62.45
1999	73.59	65.59
2000	77.97	68.78
2001	84.23	73.55
2002	93.73	81.69
2003	99.23	84.42
2004	108.51	92.42

Notes:

1. The data refer to benefit units, which may be a single person or a couple.
2. The average amounts have been rounded to the nearest penny.
3. Figures for any non-responding authorities have been estimated.
4. Housing benefit figures exclude any Extended Payment cases.

Source:

Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count taken in November 1997 to 2004.

Jeremy Corbyn: To ask the Secretary of State for Work and Pensions what the average housing benefit payment in each London borough has been in each of the past five years. [2249]

Mr. Plaskitt: The information is in the following table:

Average weekly amount of housing benefit in London by local authority: November 2000 to 2004

£

Local authority	November 2000	2001	2002	2003	2004
Barking	53.29	55.94	58.73	64.26	70.29
Barnet	80.93	85.58	93.04	101.49	112.09
Bexley	64.73	68.29	73.16	74.92	82.13
Brent	86.20	92.40	103.40	103.83	113.25
Bromley	68.23	70.94	78.23	79.63	83.98
Camden	73.83	77.81	88.48	85.19	92.05
City of London	66.54	67.44	78.53	73.15	79.44
Croydon	71.02	75.37	82.50	84.97	91.67
Ealing	73.98	78.74	86.20	93.65	103.31
Enfield	73.35	82.99	97.97	99.92	108.85
Greenwich	57.96	60.87	63.96	66.12	70.33
Hackney	65.98	71.00	79.71	75.88	87.02
Hammersmith and Fulham	67.82	74.11	81.92	82.66	90.40
Haringey	77.97	84.23	93.73	99.23	108.51
Harrow	82.15	92.28	105.66	109.49	117.34
Havering	54.44	58.25	61.02	60.68	67.11
Hillingdon	72.21	77.60	83.41	94.76	98.98
Hounslow	62.44	65.13	71.93	78.21	84.20
Islington	62.31	66.45	71.52	73.61	80.54
Kensington and Chelsea	79.88	83.02	95.50	91.36	104.41
Kingston upon Thames	73.46	78.94	87.17	91.04	97.08
Lambeth	62.00	65.68	74.60	74.53	82.67
Lewisham	57.98	62.16	67.38	67.41	69.55
Merton	63.75	67.30	72.54	76.14	83.13
Newham	68.88	74.82	87.34	96.18	109.20
Redbridge	86.37	90.67	98.13	104.82	119.18
Richmond upon Thames	70.03	74.11	82.46	86.28	91.96
Southwark	57.79	60.83	67.88	68.29	73.05
Sutton	61.55	63.36	69.98	72.91	77.92
Tower Hamlets	63.38	68.12	74.82	79.15	87.10
Waltham Forest	65.86	70.28	78.22	78.71	88.53
Wandsworth	72.46	76.70	82.81	86.46	93.41
Westminster	90.78	97.50	114.58	115.51	126.83

Notes:
1. The data refer to benefit units, which may be a single person or a couple.
2. The figures are weekly amounts expressed in pounds and have been rounded to the nearest penny.
3. Figures for any non-responding authorities have been estimated.
4. Housing benefit figures exclude any extended payment cases.
5. From April 2003 support costs were removed from housing benefit eligible rents, resulting in a decrease in the amount of housing benefit awarded. This accounts for the decrease in some of the figures at November 2003.

Source:
Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count taken in November 2000 to 2004.

Job Centre (High Wycombe)

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions how long it took for payments of *(a)* income support, *(b)* jobseeker's allowance and *(c)* incapacity benefit to be made to recipients who claimed those benefits at the Job Centre in High Wycombe in (i) 2001, (ii) 2002, (iii) 2003 and (iv) 2004. [1518]

Mr. Plaskitt: The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. Paul Goodman, dated 14 June 2005:

The Secretary of State has asked me to reply to your question asking how long it took for payments of Income Support, Jobseekers Allowance and Incapacity Benefit to be made to customers who claimed those benefits at the jobcentre in High Wycombe in 2001, 2002, 2003 and 2004. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The available information is in the table.

Clearance times[1] for High Wycombe new claims

Days

Benefit	2000–01	2001–02	2002–03	2003–04	2004–05
IS[2] WA / IS[2] MIG	14.4	14.8	19.4 / [3]30.2	23.3 / —	15.63 / —
JSA	13.9	14.7	25.8	28	20.40
IB	20.7	28.7	[4]34.6	[4]26.42	[4]14.43

[1] The clearance times figures in the table are mean figures taken over a 12 month period.

[2] Income support 2001–02 includes Aylesbury claims and from 2002–03 includes *all* Bucks claims.

[3] In 2002–03 claims for income support were processed separately according to whether they were from customers of working age or pension age (minimum income guarantee).

[4] IB processed at Aylesbury so these figures relate to the district.

Source:
Bucks and Oxon District Jobcentre Plus

The mean clearance times in the table show how long it took for a claim to be decided. Where payment is due to the customer at the time the claim is decided, it is made on the same day. If the claim is decided before the first payment is due, then payment is made on the following payday.

I hope this is helpful.

Jobseeker's allowance

Mr. Heathcoat-Amory: To ask the Secretary of State for Work and Pensions how many UK citizens living abroad are in receipt of jobseekers allowance. [2037]

Mr. Plaskitt: None; one of the conditions of entitlement to jobseekers allowance is that the claimant be in Great Britain.

In certain very limited circumstances jobseekers allowance can remain in payment during a temporary absence abroad.

Pensions

Mr. Laws: To ask the Secretary of State for Work and Pensions what discussions he has had with the pensions industry about the number of people aged 53 years and over who remain contracted into the state second pension. [3576]

Mr. Timms: My colleagues and I have had wide ranging discussions with representatives of the pensions industry and these have included issues that relate to the current contracting-out arrangements.

It is for individuals to decide and keep under review whether it is in their best interest to contract out, taking into account their attitude to risk and their personal circumstances. The Department is however committed to ensuring that people are properly informed of the issues involved so that they can make a decision that best suits their needs. This includes the fact that when they reach the age at which the age-related rebate is capped, currently age 54, most personal pension holders would be better off contracting back in.

Tax Credits

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of housing benefit and council tax benefit claims that will need to be reassessed as a result of overpayments of tax credits in the last 12 months; what assessment he has made of the cost implications for local authorities; and if he will make a statement. [2856]

Mr. Plaskitt *[holding answer 13 June 2005]:* No housing benefit or council tax benefit assessments need to be revisited solely because of an incorrect tax credit award. Both housing benefit and council tax benefit take into account the actual amount of tax credit in payment at the time. This means that when someone is getting a higher amount of tax credit than they are due, they will receive less housing benefit or council tax benefit. However, when the tax credit is reduced on account of an earlier overpayment, the individual will receive a higher amount of housing benefit or council tax benefit.

This is easier for local authorities to administer and means that individuals receive, overall, the right amount of money. There should be no cost implications to local authorities.

Unemployment/Incapacity

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will estimate the numbers of *(a)* unemployed people and *(b)* people on incapacity benefit in each year between 1979–80 and 2005–06; and if he will make a statement. [969]

Mr. Plaskitt: The information is in the table.

Numbers of people claiming unemployment benefit (UB), jobseekers allowance (JSA), invalidity benefit (IVB), incapacity benefit (IB) or severe disability allowance (SDA) in Great Britain in each year

	UB/JSA claimants	*IVB/IB and SDA working-age claimants*
1979	1,011,000	720,000
1980	1,289,000	731,000
1981	2,068,000	751,000
1982	2,426,000	798,000

Notes:
1. Figures are rounded to the nearest thousand.
2. "working-age" includes men aged 16 to 64 and women aged 16 to 59.
3. Invalidity benefit was replaced by incapacity benefit in 1995. The IB/SDA figures from 1995 onwards include incapacity benefit short-term lower-rate benefit cases, so cannot be directly compared with the pre-1995 figures.
4. Invalidity benefit and incapacity benefit figures include credits-only cases.

CABINET OFFICE

Civil contingency plans

Sarah Teather: To ask the Chancellor of the Duchy of Lancaster which local authorities have produced *(a)* civil contingency and *(b)* emergency plans. [2442]

Mr. Hutton: Local authorities do not currently have a statutory duty to undertake civil protection activity. The Government makes a contribution towards the cost

of civil protection work undertaken by all principal local authorities, but does not systematically collect information on the emergency plans and business continuity plans that local authorities maintain.

Part 1 of the Civil Contingencies Act 2004—which will come fully into force in November 2005—will establish a statutory framework for civil protection activity at the local level. The Act sets out clear roles and responsibilities for local responder organisations and establishes a basis for effective performance management. Under this legislation principal local authorities will be required to maintain both emergency plans and business continuity plans to the standards set out in the Regulations and statutory guidance that support the Act. English local authorities' performance against the requirements set out in the Act will be monitored by the Audit Commission as part of the Comprehensive Performance Assessment process.

CONSTITUTIONAL AFFAIRS

Electoral Register

Mr. Gordon Prentice: To ask the Minister of State, Department for Constitutional Affairs what estimate she has made of the *(a)* number and *(b)* percentage of names on the current electoral register that were rolled forward from the previous year's register. [2745]

Ms Harman: The information requested has not been collected by the Government. Electoral Registration Officers (EROs), appointed by local authorities for the purpose, have a statutory duty to compile and maintain electoral registers. The Representation of the People Regulations 2001 provide for the ERO to retain electors' details on the register where they have not returned the annual canvass form, unless they fail to return the canvass form the following year. These provisions were made to facilitate a more accurate and flexible electoral register.

Equality and Diversity

Mr. Jim Cunningham: To ask the Minister of State, Department for Constitutional Affairs how her Department promotes equality and diversity within the Department. [3293]

Ms Harman: My Department carried out an audit of equality and diversity in 2003. This led to the initiation of a programme of work to take forward the recommendations of that review. Steady progress has been made in the key areas of delivering services to our communities, policy making, staff potential and leadership and compliance with diversity legislation.

House of Lords

Mr. Jim Cunningham: To ask the Minister of State, Department for Constitutional Affairs what the Department's policy is on reform of the House of Lords. [3292]

Ms Harman: I refer my hon. Friend to my reply of 7 June 2005, *Official Report*, column 535W to the right hon. Member for Berwick-upon-Tweed (Mr. Beith).

Judicial Appointments

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs what plans there are to introduce part-time salaried judicial posts in the Crown court. [1580]

Ms Harman: With effect from 1 April 2005 arrangements for salaried part-time working have been extended to all salaried judicial office holders below High Court level.

Magistrates

Mr. Allen: To ask the Minister of State, Department for Constitutional Affairs what estimate she has made of the number of magistrates resident in Nottingham North; and if she will take steps to improve recruitment of magistrates in that constituency. [2829]

Ms Harman: We do not have data showing magistrates by residence, the current number of magistrates serving in the Nottingham local justice area is 385.

The Magistrates National Recruitment Strategy Implementation Paper published on 11 March 2005 sets out the progress made to date, and sets out how we will be working with advisory committees to recruit more magistrates, target recruitment where it is most needed, to raise the profile of the magistracy, and to improve the diversity of benches.

Legal Aid

Mr. Djanogly: To ask the Minister of State, Department for Constitutional Affairs what percentage of solicitors firms have ceased performance of their *(a)* immigration legal aid and *(b)* family legal aid contracts before the expiry of the term of the contract in each of the last 10 years, broken down by region. [7423]

Bridget Prentice: The information requested is not available. The figures in the table set out the number of solicitors' offices with civil contracts with the Legal Services Commission (LSC). The figures date from 2000 when the new contracting regime was implemented. The initial contract lasted from 2000 to 2004, when a new three year contract was introduced.

Mr. Djanogly: To ask the Minister of State, Department for Constitutional Affairs what percentage of solicitors firms have refused the offer of civil legal aid contracts in each of the last 10 years, broken down by region. [7422]

Bridget Prentice: The Legal Services Commission (LSC) does not keep records of firms which refuse offers of a contract, only the changes in numbers for each year.

DEPUTY PRIME MINISTER

Correspondence

Mr. Swire: To ask the Deputy Prime Minister what steps he has taken to ensure that all official correspondence from his Department carries *(a)* an e-mail address and *(b)* a telephone contact number. [1862]

Jim Fitzpatrick: All departmental staff are encouraged to provide such details by using an agreed template when replying to correspondence.

Council Housing

Sarah Teather: To ask the Deputy Prime Minister (1) what percentage of local authority-owned properties in each London borough are fitted with (i) smoke alarms, (ii) fire doors and (iii) double glazing; [2524]

(2) what percentage of council-owned properties had their smoke alarms checked in the last 12 months, in each London borough. [2551]

Jim Fitzpatrick: The information is not held centrally and could be provided only at disproportionate cost.

Council Tax

Mr. Hands: To ask the Deputy Prime Minister what analysis his Department has undertaken of the potential effect of council tax revaluation in the London borough of Hammersmith and Fulham; and if he will make a statement. [3419]

Mr. Woolas: The terms of reference for the independent inquiry into local government funding by Sir Michael Lyons require him to make recommendations on how best to reform council tax, taking into account the forthcoming revaluation of domestic property. His report is due to be submitted by the end of the year to my right hon. Friends the Deputy Prime Minister and the Chancellor of the Exchequer. Sir Michael's work will inform the Government's decisions on council tax bands.

Mr. Drew: To ask the Deputy Prime Minister (1) what criteria have been drawn up for the council tax banding revaluation; [4099]

(2) whether he plans to increase the number of council tax bandings in England at the time of revaluation. [3105]

Mr. Woolas: The terms of reference for the independent inquiry into local government funding by Sir Michael Lyons require him to make recommendations on how best to reform council tax,

taking into account the forthcoming revaluation of domestic property. His report is due to be submitted by the end of the year to my right hon. Friends the Deputy Prime Minister and the Chancellor of the Exchequer. Sir Michael's work will inform the Government's decisions on council tax bands.

Councillor Paul Dimoldenberg

Mr. Dismore: To ask the Deputy Prime Minister how much the Standards Board spent on external legal advice and representation in the investigation and Adjudicants Bench Hearing into the complaint against Westminster City Councillor Paul Dimoldenberg; and if he will make a statement. [3107]

Mr. Woolas: The Standards Board for England has incurred spending of about £50,000 on external legal advice and representation in respect of the case concerning Councillor Dimoldenberg.

Councils (Audit Fees)

Mrs. Spelman: To ask the Deputy Prime Minister what the estimated audit and inspection fees to be levied by the Audit Commission for each individual council rated as excellent in their Comprehensive Performance Assessment will be in *(a)* 2004–05 and *(b)* 2005–06. [4301]

Mr. Woolas: This is an operational matter for the Audit Commission. I will ask the chief executive to write to the hon. Member and to ensure the answer is made available in the Library of the House.

Departmental Union Representatives

Mr. Jenkins: To ask the Deputy Prime Minister how many trade union learning representatives there are in his Department. [3317]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not currently have a trade union learning representative. However, the Departmental Trade Union Side is consulted on our learning and development policies on a regular basis.

Disability Discrimination

Danny Alexander: To ask the Deputy Prime Minister what measures will be used to ensure that local authorities meet the requirements of the Disability Discrimination Act 2005 to promote equality for disabled people and eliminate unlawful discrimination, with particular reference to the diversity of needs of people with disabilities; and if he will make a statement. [3170]

Jim Fitzpatrick: The general duty to promote disability set out in the Disability Discrimination Act 2005 will place positive, proactive responsibilities on public authorities to work towards a more equal society by mainstreaming disability equality into the way in which they carry out their functions. This includes local authorities and Government Departments (including the Office of the Deputy Prime Minister). The general duty will come into force in December 2006.

The 2005 Act also enables Ministers to impose specific duties on public bodies such as local authorities. The purpose of imposing specific duties is to assist these public bodies to comply with the general duty to promote equality. Such duties might include the publishing of Disability Equality Scheme, or the monitoring of various indicators, particularly in relation to employment of disabled people.

It will be the responsibility of each public authority to ensure that it is acting in compliance with its statutory duties. If the Disability Rights Commission (DRC) is satisfied that a public authority is not complying with its specific duties, it will be able to serve a compliance notice. This would require the authority to comply with its duties and inform the DRC of the measures it has taken. If necessary the DRC could ask the county court or sheriff court to order the authority to comply.

The Office of the Deputy Prime Minister will publish a Disability Equality Scheme by December 2006, which will outline how the Office will meet its legal responsibilities.

Environmental Health Officers (London)

Sarah Teather: To ask the Deputy Prime Minister how many environmental health officers were employed by each London borough per 1,000 population in the last year for which figures are available. [2488]

Jim Fitzpatrick: The information is not held centrally and could be provided only at disproportionate cost.

Faith Awareness Training

Mr. Paul Goodman: To ask the Deputy Prime Minister how many civil servants in the Department received faith awareness training in 2004. [3811]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) ran a series of workshops specifically dedicated to faith awareness training during 2002–03. Just over 300 staff attended. There are no plans to repeat the programme at present. Our current approach is rather to integrate equality and diversity awareness into the design and delivery of training and development programmes across the ODPM.

Faith Communities

Mr. Paul Goodman: To ask the Deputy Prime Minister what recent consultations have been carried out by his Department with representatives of faith communities; and if he will make a statement. [3226]

Jim Fitzpatrick: The Office of the Deputy Prime Minister maintains the Inner Cities Religious Council (ICRC). ICRC routinely meets three times a year for the purpose of consultation with faith communities. Recent agenda items have included consultations on the UK Sustainable Development Strategy, the Delivering Sustainable Communities Summit and the Independent Police Complaints Commission.

Fire Service

Mr. Dismore: To ask the Deputy Prime Minister how many people were rescued alive by the fire service *(a)* from fires, *(b)* from fires in dwellings and *(c)* having been trapped or injured by industrial machinery in each of the last 10 years for which figures are available. [1632]

Jim Fitzpatrick: The number of people rescued alive from fires by fire and rescue service personnel in England are shown for each year 1994 to 2003 in the following table.

The number of people rescued having been trapped or injured by industrial machinery is not available centrally.

	Rescued casualties[1]		*Rescued unharmed*[2]		*All people rescued alive*	
	All fires	*Dwelling fires*	*All fires*	*Dwelling fires*	*All fires*	*Dwelling fires*
1994	2,072	1,815	1,150	901	3,222	2,716
1995	2,317	2,034	1,155	918	3,472	2,952
1996	2,442	2,138	1,022	864	3,464	3,002
1997	2,684	2,347	889	701	3,573	3,048
1998	2,545	2,300	959	811	3,504	3,111
1999	2,511	2,252	1,413	1,043	3,924	3,295
2000	2,728	2,641	2,155	1,627	4,883	4,268
2001	2,671	2,412	1,409	1,176	4,080	3,588
2002[3]	2,829	2,580	1,763	1,589	4,592	4,169
2003[3]	2,735	2,441	1,606	1,427	4,341	3,868

[1] Based on all primary fires attended. Casualties include people who were injured or required a precautionary check-up.
[2] Based on a grossed up 20 per cent. sample of primary fires attended.
[3] Data include estimates for incidents not recorded during periods of national industrial action in 2002 and 2003.

Source:
Fire and Rescue Service FDR1 returns to ODPM.

Sarah Teather: To ask the Deputy Prime Minister what percentage of firefighters in the Fire and Rescue Service was female in each year since 1997. [2445]

Jim Fitzpatrick: The percentage of female firefighters (wholetime and retained duty system) in the Fire and Rescue Service in England is set out as follows:

Date	*All*	*Female*	*Percentage female*
31 March 1997	45,049	382	0.8
31 March 1998	44,702	407	0.9
31 March 1999	44,940	473	1.1
31 March 2000	44,637	548	1.2
31 March 2001	44,694	632	1.4
31 March 2002	44,594	753	1.7
31 March 2003	44,679	938	2.1
31 March 2004	44,871	1,081	2.4

Source:
ODPM annual returns

Mr. Dismore: To ask the Deputy Prime Minister how many *(a)* railway and *(b)* aircraft accidents were attended by the fire service in each of the last 10 years for which figures are available. [1633]

Jim Fitzpatrick: Number of railway and aircraft incidents attended by the fire and rescue service in England each year, between 1994–95 and 2003–04. The following table shows the breakdown of fire and non-fire incidents attended.

	Railway (non-fire)	*Railway (fires)*	*Total railway incidents*	*Aircraft (non-fire)*	*Aircraft (fires)*	*Total aircraft incidents*
1994–95	96	121	217	259	6	265
1995–96	93	110	203	309	41	350
1996–97	75	132	207	317	29	346
1997–98	131	109	240	299	40	339
1998–99	92	138	230	378	52	430
1999–2000	67	101	168	231	39	270
2000–01	108	114	222	194	25	219
2001–02	92	91	183	259	52	311
2002–03	97	122	219	178	24	202
2003–04	69	68	137	211	30	241

Note:
Data include estimates for incidents not recorded during periods of national industrial action in 2002–03.

Fire and Rescue Service returns to ODPM.

Green Belt

Mrs. Spelman: To ask the Deputy Prime Minister what powers *(a)* the Greater London Authority and *(b)* the regional chambers, have to create, amend, review or delete green belt designation. [4285]

Yvette Cooper: The creation, amendment, review or deletion of green belts is undertaken through the statutory development plan process, in accordance with the Planning and Compulsory Purchase Act 2004. Any proposals to establish new green belts, or to change the general extent of existing green belts, should be considered as part of a review of the regional spatial strategy, or the London Plan, in the first instance. Detailed boundary changes would be made by local planning authorities through the preparation and review of local development frameworks.

House Building

Mr. Jenkins: To ask the Deputy Prime Minister what the requirement is for the number of houses to be built in Tamworth in each of the next 10 years. [3338]

Yvette Cooper: The requirement for housing is currently being considered through the Local Plan process. It would therefore be prejudicial to the proper planning process to pre-empt these considerations.

The Regional Spatial Strategy (RSS) for the West Midlands does not currently provide housing requirements at district level. The West Midlands Regional Assembly is currently undertaking technical work which will deliver district level requirements through a future review of the RSS. In the meantime Tamworth borough council is currently completing its Local Plan and has considered relevant advice in relation to the level of housing requirements. The Local Plan process is nearing the conclusion of its statutory process and we would expect annual requirements to be confirmed by spring 2006.

Mr. Hollobone: To ask the Deputy Prime Minister what proportion of new build housing in Kettering borough up to 2021 he expects will take place on greenfield land. [4168]

Yvette Cooper: The Milton Keynes and South Midlands Sub-Regional Strategy, published on 17 March 2005, does not set targets for the proportion of greenfield land to be used for housing. This issue will be considered by Kettering borough council and the North Northamptonshire Joint Planning Unit when producing Local Development Document. However, a main aim of achieving Sustainable Communities in the sub-region, as stated in Strategic Policy 3 of the strategy, will be to maximise the contribution of 'previously developed land'.

Local Government

Mr. Drew: To ask the Deputy Prime Minister what discussions he has had with the Local Government Association on local government pensions; and what plans he has to tackle deficits in local government pension funds. [2926]

Mr. Woolas: My right hon. Friend the Deputy Prime Minister and I last met with the chairman of the Local Government Association at the first meeting of the Local Government Pension Scheme (LGPS) tripartite committee which was held on 24 May.

The setting up of this committee was announced by my right hon. Friend on 18 March. It is chaired by my right hon. Friend, and includes representatives of local authority employers and trades unions. It will focus on the development and modernisation of the scheme, involving the local authority employers and trade unions who have an interest in its future and will consider what measures need to be put in place to ensure the scheme's affordability and sustainability. We want to ensure that local authority employees have a stable, strong pension scheme in which they have confidence. It is important that the balance is right between, on the one hand, the cost of the scheme to the taxpayer, and on the other hand, the value of the benefits which the scheme offers to current and future pensioners.

Following the 31 March 2004 LGPS actuarial valuation exercise, the actuaries appointed by each of the funds in England and Wales have set employer contribution rates, with effect from 1 April 2005, so as to ensure the ongoing solvency of individual funds as required by the LGPS Regulations 1997. This exercise took account of each funds' funding strategy statement which sets out the deficit recovery period over which their liabilities are to be prudently managed.

Mr. Dismore: To ask the Deputy Prime Minister when the review of the Local Government Standards Board is expected to be completed; and if he will make a statement on the progress of the review. [3814]

Mr. Woolas: It is expected that the review by the Standards Board for England of the code of conduct for local authority members will be concluded this autumn, following the end of the board's consultation exercise on 17 June. The Office of the Deputy Prime Minister will consider carefully any recommendations the board may make following its review.

Mr. Dismore: To ask the Deputy Prime Minister what the total cost of the Local Government Standards Board was in each of the last three years; and if he will make a statement. [3817]

Mr. Woolas: The information requested is tabled as follows:

£ million

	Grant paid to the Standards Board for England
2003-04	8.944
2004-05	8.94
2005-06	[1]9.181

[1] Expected.

These figures represent the Office of the Deputy Prime Minister's annual funding to the Standards Board. Grant funding enables the board and the Adjudication Panel to undertake the full range of their responsibilities, including the investigation by board officials of allegations of misconduct by local authority members, the issuing of guidance to authorities on conduct issues and the determination of cases by tribunals of Adjudication Panel members.

Mr. Dismore: To ask the Deputy Prime Minister what the daily fee paid to adjudicators sitting on a Local Government Standards Board adjudication panel is; whether there is a fee for preparatory 'reading in' work on a case; when the fees were last reviewed; when they are next expected to be reviewed; and if he will make a statement. [3819]

Mr. Woolas: The current daily fees payable to members of the Adjudication Panel for England are shown in the following table:

£

	Daily fee from 1 April 2005
President of the Adjudication Panel	452
Legal members of the Adjudication Panel	379
Lay members of the Adjudication Panel	175
Fee for cancellation of tribunal date	58

The fees were last reviewed with effect from 1 April 2005, and the Office of the Deputy Prime Minister currently expects them to be reviewed again next year. No fee in addition to the daily fees listed above is payable.

Mr. Dismore: To ask the Deputy Prime Minister how many of the cases disposed of directly by the Local Government Standards Board *(a)* were not investigated, *(b)* had no evidence of a breach of the code and *(c)* resulted in no action being required in respect of the matters under investigation in each of the last three years. [3897]

Mr. Woolas: This information is shown in the following table:

Cases	*2002–03*	*2003–04*	*2004–05*
Not referred for investigation	1,689	2,144	3,029
Investigations producing finding of no evidence of a breach of the code	113	154	310
Investigations producing finding that no action is required in respect of the matters under investigation	225	462	947

Local Strategic Partnerships

Dr. Pugh: To ask the Deputy Prime Minister what the Government's policy is on hon. Members being members of local strategic partnerships. [2645]

Mr. Woolas: The membership, structure and size of a Local Strategic Partnership (LSPs) should reflect both their aims and the breath of issues that fall within their scope. The precise membership of any partnership will depend on local circumstances and priorities. It is up to the LSP to decide who their members should be but LSP will only be effective if their core membership includes the public, private, community and voluntary sector.

London Housing Board

Jeremy Corbyn: To ask the Deputy Prime Minister what criteria he used in making the decision to over-rule the London Housing Board's recommendation on investment allocations in 2004 to 2006 [3945]

Yvette Cooper: Regional Housing Board recommendations on allocations for 2004–05 and 2005–06 were largely accepted in full. However the Office of the Deputy Prime Minister made changes for London, East of England and the South East to the balance of funding for different types of affordable housing. This was done in order to ensure sufficient investment in key worker housing in the three years to 2005–06.

Mobile Phone Masts

Mr. Davey: To ask the Deputy Prime Minister what his policy is on mobile phone operators sharing telecommunications masts; what steps he has taken to encourage operators to do so; and if he will make a statement. [2746]

Yvette Cooper: Planning Policy Guidance Note 8, "Telecommunications" (PPG8), makes clear the expectation that developers should provide evidence to local planning authorities that they have carefully considered the use of existing masts, buildings and other structures before seeking to erect any new mast, regardless of size. The authority may be justified in refusing prior approval or planning permissions if it considers the evidence regarding the consideration of such alternative sites is not satisfactory.

Ministers in the Office of the Deputy Prime Minister meet regularly with the Mobile Operators Association to discuss a range of issues including the operators' progress in meeting their 10 commitments which includes a commitment on site sharing. The UK network operators have established a cross-industry Site Share Working Group and have developed a database to facilitate the exchange of information on site sharing opportunities.

On 4 April, it was announced that the Government will be commissioning research to identify the future direction of mobile phone technology and the future need for mast developments. The research will also look at the potential for increased sharing of masts.

Mr. Davey: To ask the Deputy Prime Minister what investigation his Department has undertaken into the fees charged by local planning authorities for planning applications for mobile telephone telecommunication masts; and if he will make a statement. [2748]

Yvette Cooper: Research was undertaken by Arup for the Office of the Deputy Prime Minister in 2003 to investigate the costs of handling planning applications in general. Using this as a basis, in September 2004 we issued a consultation document entitled "Changes to the System of Planning Fees in England" and in December 2004 we published a second consultation document entitled "Further Proposed Changes to the System of Planning Fees in England". Both these documents asked about the fees charged by local planning authorities for planning applications for mobile telephone telecommunication masts.

Negative Subsidy

Mr. Jenkins: To ask the Deputy Prime Minister how much was taken in negative subsidy from *(a)* all councils and *(b)* Tamworth borough council in each of the last two years. [3336]

Yvette Cooper: Total negative subsidy in 2004–05 was £620,543,656. The equivalent figure, representing the total negative housing element for 2003–04 was £706,268,335. Negative subsidy generated by some councils is captured so that it can be redistributed to other authorities with an assumed deficit. It is not retained by central Government

Negative subsidy for Tamworth in 2004–05 was £1,205,058. The borough's negative housing element in 2003–04 was £1,242,533..

The definition of negative subsidy was changed by the Local Government Act 2003, which came into force on 1 April 2004. The figures given are directly comparable, though the terminology changed between the financial years.

New Build

Mr. Dismore: To ask the Deputy Prime Minister what percentage of new build residential properties in *(a)* England and *(b)* London have been purchased by (i) individuals not normally resident in the UK and (ii) companies not based in the UK. [4372]

Yvette Cooper: This information is not held centrally and could be provided only at disproportionate cost.

Press Officers

Sarah Teather: To ask the Deputy Prime Minister how many press officers were employed by each London borough per 1,000 population in the last year for which figures are available. [2463]

Jim Fitzpatrick: The information is not held centrally and could be provided only at disproportionate cost.

Property Prices

Mr. Dismore: To ask the Deputy Prime Minister what the average price of a new build residential property excluding social housing in *(a)* England, *(b)* London, *(c)* Westminster and *(d)* Barnet was on the latest date for which figures are available. [4369]

Yvette Cooper: Figures from the HM Land Registry for 2004 give the following median prices for new properties sold:

Area	*Median price (£)*
England	175,000
London	249,500
Barnet	250,000
Westminster	499,972

It is not possible separately to identify shared ownership sales from the source.

Rescue Services

Sarah Teather: To ask the Deputy Prime Minister what resources have been *(a)* spent on and *(b)* allocated to the New Dimension programme for improving capacity in the rescue services; and if he will make a statement. [2441]

Jim Fitzpatrick: The Government have announced funding for the New Dimension programme of up to £188 million in capital and committed to meeting the resource consequences of that investment. To date the Government have invested £116 million in capital in the programme, and announced up to £16 million per year to meet the crewing costs of that investment.

Road Safety

Sarah Teather: To ask the Deputy Prime Minister how many gritting lorries are owned by each London borough. [2484]

Jim Fitzpatrick: While we do not hold any up to date figures for the London boroughs we do know that TfL has 32 gritting lorries and four pavement gritters.

South East England Regional Assembly

Anne Milton: To ask the Deputy Prime Minister what powers the South East England Regional Assembly has *(a)* to amend, *(b)* to delete and *(c)* to review (i) green belt designation, (ii) area of outstanding national beauty designation and (iii) site of special scientific interest designation. [3368]

Yvette Cooper: The South East England Regional Assembly may propose changes to the green belt as part of their responsibility for preparing a draft new Regional Spatial Strategy for the South East (known as the South East Plan). All aspects of the South East Plan will be subject to public consultation and may be tested at public inquiry, before being finalised by Government. The Assembly have no powers to amend, delete or review Areas of Outstanding Natural Beauty or Sites of Special Scientific Interest.

HOME OFFICE

Afghanistan

Mr. Malins: To ask the Secretary of State for the Home Department what steps he is taking to reduce the supply of drugs from Afghanistan to the UK. [2969]

Paul Goggins: The UK, as lead nation, is supporting the Afghan Government in the implementation of their comprehensive National Drug Control Strategy. We are working with others to increase activity in all areas of their strategy over the coming year.

As well as coordinating the activity of international partners, the UK is providing substantial financial and practical support—the Government will spend more than £50 million this year on counter narcotics work in Afghanistan, including £30 million on alternative livelihoods. In the last financial year we ran seven training courses on intelligence and investigation techniques for the Afghan Counter-Narcotics Police; supported five major seizures of opiates; provided a mobile forensic laboratory; and helped to establish regional law enforcement offices in seven provincial centres outside Kabul.

In addition, the UK is working with Afghanistan's neighbours and other main transit countries to increase international effort, build capacity and improve operational co-operation.

At our borders Her Majesty's Revenue and Customs deploy staff at ports and airports to cover high-risk arrivals. Officers use risk assessment techniques and specific intelligence, gathered from a variety of sources, to ensure that the resources available are utilised to best effect. They also use a range of equipment, such as drug detection scanners, to assist them.

Acceptable Behaviour Contracts

Mr. Jenkins: To ask the Secretary of State for the Home Department how many acceptable behaviour contracts have been made with Tamworth residents since October 2003. [3326]

Hazel Blears: The number of Acceptable Behaviour Contracts ("ABCs") made in the Tamworth area is not known as this information is not collected centrally. ABCs are voluntary agreements with no statutory basis and can be entered into by various local services such as

local authority social services or housing departments, Youth Inclusion and Support Panels or the police. They are therefore unsuitable for central data collection.

A recent survey carried out by the Home Office and sent to all Crime and Disorder Reduction Partnerships estimated that 5,383 ABCs were made between October 2003 and September 2004.

Antisocial Behaviour Orders

Anne Milton: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in *(a)* Guildford, *(b)* Waverley and *(c)* Surrey in each year since their creation. [3377]

Hazel Blears: The available information is given in the table.

Number of antisocial behaviour orders (ASBOs) issued at all courts, as reported to the Home Office, where restrictions are imposed in local government authority areas in Surrey, by period, from 1 June 2000[1] to 30 September 2004 (latest available)

	1 June 2000 to 31 December 2000	2001	2002	2003	1 January 2004 to 30 September 2004	Total
Surrey	2	2	2	5	19	30
Of which:						
Guildford Borough Council	1	—	—	1	6	8
Waverley Borough Council	—	—	—	—	—	—

[1] Between 1 April 1999 to 31 May 2000 data were collected on aggregate numbers only by police force area (pfa). During this period no ASBOs were reported as issued within Surrey pfa.

Mr. Streeter: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in Devon and Cornwall since 1 January 2004; and if he will make statement. [3039]

Hazel Blears *[holding answer 13 June 2005]:* The number of antisocial behaviour orders issued at all courts in Devon and Cornwall, as notified to the Home Office, from 1 January to 30 September 2004 (latest available) is 49.

Andrew Stunell: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in *(a)* Bolton metropolitan borough council, *(b)* Bury metropolitan borough council, *(c)* Manchester city council, *(d)* Oldham metropolitan borough council, *(e)* Rochdale metropolitan borough council, *(f)* Salford city council, *(g)* Stockport metropolitan borough council, *(h)* Tameside metropolitan borough council, *(i)* Trafford metropolitan borough council and *(j)* Wigan metropolitan borough council since April 1999. [3133]

Hazel Blears: The available information is given in the table.

Number of antisocial behaviour orders issued at all courts, as reported to the Home Office, where restrictions are imposed in local government authority areas within the Greater Manchester criminal justice system area, up to 30 September 2004 (latest available)

Area	1 April 1999 to 31 May 2000[1]	1 June 2000 to 30 September 2004
Greater Manchester	10	598
Of which:		
Bolton Metropolitan Borough Council	n/a	49
Bury Metropolitan Borough Council	n/a	14
Manchester City Council	n/a	238
Oldham Metropolitan Borough Council	n/a	70
Rochdale Metropolitan Borough Council	n/a	39
Salford Metropolitan Borough Council	n/a	90
Stockport Metropolitan Borough Council	n/a	23
Tameside Metropolitan Borough Council	n/a	20
Trafford Metropolitan Borough Council	n/a	34
Wigan Metropolitan Borough Council	n/a	21

n/a = Not available.
[1] Between 1 April 1999 to 31 May 2000 data were collected on aggregate numbers only by police force area (pfa).

Asylum Seekers

Mr. Malins: To ask the Secretary of State for the Home Department what plans he has to bring forward proposals to hear asylum applications offshore; and if he will make a statement. [2843]

Mr. McNulty: The Government have no plans to introduce offshore processing of asylum applications.

Mr. Malins: To ask the Secretary of State for the Home Department if he will take steps to speed up the asylum process. [2844]

Mr. McNulty: Our current targets for the processing of asylum claims are to: decide 75 per cent. of new asylum applications within two months; ensure that 65 per cent. of new substantive asylum applications are decided, including final appeal, within six months; take 60 per cent. of detained NSA designated list claimants who were certified as clearly unfounded and detained throughout the process from claim to removal within 14 days. In addition, as we made clear in the five-year strategy for asylum and immigration, "Controlling our Borders: Making migration work for Britain" which was published in February 2005 [Cm 6472], we are planning to introduce faster, tightly-managed processes for all new asylum claimants. Existing detained processes will continue alongside new, faster, non-detained processes which are currently being developed and will be implemented in phases which will include tight case-management as a specific feature.

Cannabis

Mrs. Gillan: To ask the Secretary of State for the Home Department what guidance he has given to police

officers on differentiating between varieties of cannabis with a high tetrahydrocannobinal content and varieties of lesser strength. [4057]

Paul Goggins: None. All varieties of cannabis are Class C drugs under the Misuse of Drugs Act 1971. Offences under the Act are not determined by cannabis's relative strength and neither is police action.

Children (Penal Custody)

Dr. Vis: To ask the Secretary of State for the Home Department how many children have been received into penal custody on remand in each year since 1990, broken down by age. [900]

Fiona Mactaggart: The number of persons aged under 18 received into prison establishments on remand, as recorded on the Prison Service IT system, is provided in the table. Information is not available for 1990 or 1991.

Receptions of remand prisoners aged under 18 to prison establishments, by age[1]—England and Wales, 1992–2004

	14	15	16	17
1992	4	377	721	3,912
1993	—	454	907	3,943
1994	—	635	1,103	3,978
1995	—	643	1,248	4,069
1996	—	730	1,360	4,423
1997	—	677	1,298	4,650
1998	—	603	1,191	4,688
1999	—	521	1,159	4,720
2000	—	1,040	1,892	3,311
2001	—	477	994	3,507
2002	—	592	1,180	3,655
2003	—	597	1,188	3,353
2004	—	653	1,296	3,209

[1] Age at date of reception.

Community Support Officers

Daniel Kawczynski: To ask the Secretary of State for the Home Department if he will provide financial assistance to large rural parish councils that receive no regular police patrols to employ community support officers. [2791]

Hazel Blears: Community Support Officers (CSOs) are employed by police authorities, and their deployment is an operational matter for the chief constable. At the end of March there were 6,300 in England and Wales. Funding is being made available over the next three years to assist in the recruitment of 24,000 CSOs by 2008. The investment will help deliver our commitment that by 2008 every area in England and Wales will benefit from a dedicated, visible, accessible and responsive neighbourhood policy team.

Convictions

Mr. Amess: To ask the Secretary of State for the Home Department how many convictions for each category of offence there were in *(a)* England and *(b)* Essex in the last year for which figures are available. [399]

Fiona Mactaggart: The information contained in the table gives the number of offenders found guilty at all courts by category of offence for England and Essex, 2003.

Statistics for 2004 will be available in the autumn.

Number of offenders found guilty at all courts by offence type in England and Essex, 2003[1]

Offence type	England	Essex
Violence against the person	35,283	702
Sexual offences	4,100	77
Burglary	24,138	410
Robbery	7,112	84
Theft and handling stolen goods	112,455	2,457
Fraud and forgery	17,076	386
Criminal damage	10,304	402
Drug offences	47,172	896
Indictable motoring offences	8,056	183
Other indictable offences	48,419	799
Summary offences (excluding motoring)	456,991	13,932
Summary motoring offences	617,068	21,960
All offences	1,388,174	42,288

[1] These data are on the principal offence basis

Crime

John Battle: To ask the Secretary of State for the Home Department what percentage of males in Leeds aged 40 or younger had a criminal record in the latest period for which figures are available. [1721]

Fiona Mactaggart: The data requested are not collected on a city or other regional basis. The most recent national figures on criminal careers were published in Home Office Statistical Bulletin, 4/01.

John Battle: To ask the Secretary of State for the Home Department which age group in Leeds had the highest rate of offending in the latest period for which figures are available. [1733]

Fiona Mactaggart: The data contained in the table give the number of offenders found guilty at all courts in Leeds, by offence and age group, 2003.

Statistics on court proceedings for 2004 will be published in the autumn.

Number of offenders found guilty at all courts in Leeds by offence group, age group and population, 2003[1]

	Age group					
	10 to 17 years		18 to 20 years		21+ years	
Offence group	Found guilty	Found guilty per 10,000 population	Found guilty	Found guilty per 10,000 population	Found guilty	Found guilty per 10,000 population
Indictable	1,065	141	908	252	4,696	90
Summary non-motoring	440	58	305	85	4,829	93
Summary motoring	221	29	682	189	7,345	141
All offences	1,726	229	1,895	526	16,870	323

[1] These data are on the principal offence basis.

Defence Systems and Equipment International Exhibition (Policing Costs)

Jeremy Corbyn: To ask the Secretary of State for the Home Department what the estimated cost of policing the Defence Systems and Equipment International Exhibition in September is; and from which budget the funding will come. [3940]

Hazel Blears: The Commissioner of Police for the Metropolis is responsible for the operational management of, and allocation of funding by, the force. I will ensure that he receives a copy of the question and replies to you directly in response to your concerns.

Departmental Refurbishment Costs

Mr. Benton: To ask the Secretary of State for the Home Department how much has been spent on refurbishment costs for the first floor of Litherland House since his Department commenced its occupation. [556]

Andy Burnham: Home Office Pay and Pensions Service took occupation of Litherland House in June 1998. Since that date £1,041,699.90 has been spent on works to the physical building.

Deportation

Mr. Malins: To ask the Secretary of State for the Home Department how many recommendations for deportation in respect of convicted criminals have been made by the judiciary in *(a)* Crown courts and *(b)* magistrates courts in each of the last three years. [2835]

Andy Burnham: The number of recommendations for deportation in respect of convicted criminals made by the judiciary in the last three years was:

	Number of recommendations
Magistrates courts	
2001	19
2002	24
2003	45
Crown courts	
2001	609
2002	543
2003	488

Domestic Abuse (Shrewsbury)

Daniel Kawczynski: To ask the Secretary of State for the Home Department if he will provide financial assistance to establish a shelter for women who have suffered domestic abuse in Shrewsbury. [2792]

Paul Goggins: In 2003 the Government announced major investment in additional refuge provision in England over three years. A total of £32.1 million capital has been allocated (£15.7 million through the Housing Corporation and £16.4 million from the Homelessness and Housing Support Directorate in the Office of the Deputy Prime Minister), to provide 427 units of new or improved accommodation.

The allocation of funds was based on bids made by housing associations to the Housing Corporation. The bids were needs led and based on local priorities identified by local authorities in consultation with local domestic violence agencies. Priority was given to projects arising from local authority housing and homelessness strategy reviews. It was the responsibility of local authorities in partnership with the domestic violence agencies to identify gaps in refuge service provision at the time bids were being formulated.

Although there is no actual refuge in Shrewsbury, there are currently two refuge provisions for victims of domestic violence within Shropshire.

Dovegate Prison

John McDonnell: To ask the Secretary of State for the Home Department how many drug crimes there were at Dovegate Prison during 2004-05. [1383]

Fiona Mactaggart: In the period 1 April 2004 to 31 March 2005 there were 158 proven offences against prison discipline involving drugs at HMP Dovegate, as recorded on the Prison Service IT system.

Mr. Gerrard: To ask the Secretary of State for the Home Department how many assaults on *(a)* staff and *(b)* prisoners took place at Dovegate Prison during 2004-05; how many instances there were of prisoners absconding or escaping from Dovegate Prison in that year; and how many instances there were of the finding of illicit alcohol at Dovegate Prison in that year. [1532]

Fiona Mactaggart: As recorded on the Prison Service IT system, in the period 1 April 2004 to 31 March 2005 there were 44 assaults on staff and six assaults on prisoners at HMP Dovegate; there were no absconds or escapes from HMP Dovegate in that year; there were six proven offences against prison discipline for knowingly consuming alcohol at HMP Dovegate in that year.

Drink-driving

Keith Vaz: To ask the Secretary of State for the Home Department how many cases of breath-testing of drivers resulted in withdrawal of driving licences in England and Wales in the last period for which figures are available. [2403]

Paul Goggins: Information taken from the Home Office Court Proceedings Database for England and Wales shows that the total number of driving disqualifications imposed for breath test and specimen offences in 2003 (latest available) was 84,767. This figure does not include disqualifications as a result of 'totting up' of points on driving licence under s.35 of the Road Traffic offenders Act 1988.

Data for 2004 will be available early in 2006.

Information relating to Scotland and Northern Ireland is a matter for the Scottish Executive and Northern Ireland Office respectively.

EU Accession Countries

Mr. Betts: To ask the Secretary of State for the Home Department how many citizens of EU accession state countries are registered to work in the UK. [1814]

Andy Burnham *[holding answer 8 June 2005]:* Provisional management information from the Worker Registration Scheme was published in the Accession Monitoring Report on 26 May 2005. The full report is available on the Home Office website at:

www.ind.homeoffice.gov.uk/ind/en/home/0/reports/accession_monitoring.html

Mr. Malins: To ask the Secretary of State for the Home Department how many nationals of the EU accession countries have been convicted of crimes in the Greater London area in the last 12 months. [2836]

Andy Burnham: The information requested is not available. Data held on the Home Office Court Proceedings database do not include the nationality of the defendant.

EU Immigrants

Mr. Malins: To ask the Secretary of State for the Home Department if he will estimate the number of people who have arrived in the UK from each of the new member states of the EU since their accession. [3630]

John Healey: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Malins, dated 14 June 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question on the number of people who have arrived in the UK from each of the new member states of the EU since their accession. I am replying in his absence. (3630)

The International Passenger Survey (IPS) provides information on visits to the UK. The figures cover visits of all lengths of stay and for all reasons (holiday visits; business visits; visits to friends or relatives; study visits; other tourists; migrants and non-tourists).

The data included in the table below have been published, and continue to be available on a monthly, quarterly and annual basis. They can be accessed through the National Statistics website at the following address: http://www.statistics.gov.uk/STATBASE/Product.asp?vlnk=12222.

Visits to the UK from residents of EU accession countries, May 2004 to April 2005
International Passenger Survey

Country	*Thousands Number of visits*
Accession-8	
Czech Republic	224
Estonia	33
Hungary	162
Latvia	64
Lithuania	97
Poland	838
Slovakia	140
Slovenia	43
Accession-8 total	1,604
Cyprus	51
Malta	56
Accession-10 total	1,711

Notes
1. The numbers of visits are estimated from data collected by the ONS International Passenger Survey. This year-round survey interviews approximately one in 500 passengers at all major UK airports, sea ports, and tunnel routes, as they arrive in or depart from the UK.
2. The data refer to number of visits to the UK rather than the number of people, since some may have travelled more than once.
3. The data presented here relate to non-UK residents arriving in the country, either as returning residents or as visitors or new migrants.

Fly-tipping

Sarah Teather: To ask the Secretary of State for the Home Department (1) how many successful prosecutions there were for fly-tipping in each local authority in England in the last five years; [2498]

(2) how many successful prosecutions there have been of individuals for *(a)* dropping litter and *(b)* graffiti in (i) Brent East and (ii) each local authority in England. [2547]

Hazel Blears: The available information is contained in the table and gives the number of defendants proceeded against and found guilty at all courts for "fly-tipping" for petty sessional area, and by police force areas in England, 1999 to 2003.

Statistics on court proceedings for 2004 will be published in the autumn.

Number of defendants proceeded against at magistrates' courts and found guilty at all courts for "fly-tipping" offences[1,2], Brent petty sessional area and police force areas in England, 1999 to 2003

Court/police force area	*1999*		*2000*		*2001*	
	Proceeded against	*Found guilty*	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*
Brent PSA[3]	—	—	1	1	4	3
Police force area						
Avon and Somerset	2	2	—	—	7	4
Bedfordshire	5	3	—	—	6	6

Jury Trials

Mike Penning: To ask the Secretary of State for the Home Department what plans he has to bring into force part seven of the Criminal Justice Act 2003 to introduce the procedure for conducting complex criminal trials without a jury. [1903]

Fiona Mactaggart *[holding answer 7 June 2005]:* An announcement will be made shortly.

Mr. Heald: To ask the Secretary of State for the Home Department what research the Department has conducted into alternatives to jury trial. [1771]

Fiona Mactaggart: In formulating the provisions for trial without a jury in the Criminal Justice Act 2003, account was taken of information about alternatives to jury trial (including procedures used in other jurisdictions) available from a variety of governmental and academic sources, and of the previous consideration of this issue by the Roskill Committee and Sir Robin Auld's Review of the Criminal Courts of England and Wales.

Life Sentences

Andrew Rosindell: To ask the Secretary of State for the Home Department how many people are serving life sentences in England and Wales. [2907]

Fiona Mactaggart: On 30 April 2005 there were 5,814 persons serving life sentences in prison establishments in England and Wales, as recorded on the Prison Service IT system.

Information on Scotland and Northern Ireland is a matter for my colleagues in the Scottish Executive and Northern Ireland Office.

Minicabs

Sarah Teather: To ask the Secretary of State for the Home Department how many people were *(a)* charged and *(b)* convicted of illegally operating an unlicensed minicab in each year since 1997. [2408]

Fiona Mactaggart: Statistics on the number of persons charged with a crime are not centrally collected.

Available information from the Home Office Court Proceedings database on the number of offenders convicted of illegally operating an unlicensed minicab are contained in the table.

Statistics on court proceedings for 2004 will be published in the autumn.

Number of people found guilty of certain offences in relation to illegally operating an unlicensed minicab, England and Wales 1997 to 2003[1]

Offence description	Statute	Year	Found guilty

[1] These data are on the principal offence basis.
[2] Offenders convicted for summary offences under the Private Hire Vehicle (London) Act 1998 and Local Government (Miscellaneous Provisions) Act 1976 cannot be separately identified as they form part of a miscellaneous group which cannot be analysed.

Murder

Ian Lucas: To ask the Secretary of State for the Home Department when he will carry out his planned review of the law relating to murder. [3093]

Fiona Mactaggart: I plan to announce the way forward for the Murder Review shortly.

New Hall Prison

Dr. Vis: To ask the Secretary of State for the Home Department how many women at New Hall Prison have been represented by a solicitor at an adjudication hearing in each case; and how many women awarded additional days in each of the last five years. [1834]

Fiona Mactaggart: This information could be obtained only at disproportionate cost.

Persistent and Priority Offenders

Dr. Vis: To ask the Secretary of State for the Home Department what definition he uses of a persistent and priority offender; and what guidance has been given to local authorities. [1833]

Fiona Mactaggart: There is no national definition, as the Prolific and other Priority Offender (PPO) strategy was designed to allow local areas to tackle those offenders who are causing the most harm to their communities and have been identified locally through intelligence from the police and their partners.

In July 2004, we issued guidance to Crime and Disorder Reduction Partnerships on the criteria which should be used in selecting prolific and other priority offenders. This recommended that selection should be based upon the nature and volume of the crimes an individual is committing; the nature and volume of other harm they are causing (e.g. as a result of their gang leadership or antisocial behaviour); and other local criteria, based on the impact of the individuals concerned on their local communities.

Police Convictions (Essex)

Mr. Amess: To ask the Secretary of State for the Home Department how many cases there have been of police officers from Essex being convicted of offences, where all the proceedings have been completed, in each year since 2000. [1240]

Hazel Blears: Number of police officers in Essex police service convicted of criminal offences are as follows:

	Officers convicted of a criminal offence
1999–2000	6
2000–01	7
2001–02	6
2002–03	6
2003–04	7

Police Standards Unit

Lynne Featherstone: To ask the Secretary of State for the Home Department what evaluation has taken place of the Police Standards Unit since its inception; and if he will make a statement. [2894]

Hazel Blears: The effectiveness of the Police Standards Unit (PSU) is subject to the same performance scrutiny regime as every other Unit of the Home Office. The Unit will shortly be publishing its annual report which will set out its accomplishments over the period 2004–05.

In terms of the Unit's work with local areas, over 2003–04, the police forces with whom the PSU was engaged reduced volume crime by 13.3 per cent.—twice the rate of other forces in England and Wales.

Police/Crime Statistics (Wales)

Bill Wiggin: To ask the Secretary of State for the Home Department how many drug rehabilitation places are available in prisons in Wales. [1071]

Fiona Mactaggart: There are 432 rehabilitation places available in prisons in Wales for 2005–06.

Bill Wiggin: To ask the Secretary of State for the Home Department how many prisoners whose last place of residence before sentence was in Wales are held in prisons in England. [1073]

Fiona Mactaggart: Information is not recorded centrally on the home address of prisoners in England and Wales. Information is, however, held on the court that a prisoner is sentenced by.

On 30 April 2005 there were 1,514 prisoners held under sentence in a prison establishment in England who were sentenced at a court in Wales, as recorded on the Prison Service central IT system.

Pre-sentence Reports

Mr. Malins: To ask the Secretary of State for the Home Department how many defendants in magistrates' courts in Greater London have been remanded *(a)* in custody and *(b)* on bail for pre-sentence reports in each of the last 24 months for which figures are available; how many of those have returned to court with no report prepared on the due date; and if he will make a statement. [2710]

Fiona Mactaggart: Information on the number of defendants held in *(a)* custody and *(b)* bail, for pre-sentence reports are not held centrally.

Prison Population

Andrew Rosindell: To ask the Secretary of State for the Home Department what the prison population in England and Wales is, broken down by gender. [2934]

Fiona Mactaggart: On 30 April 2005 there were 70,466 males and 4,425 females held in prison establishments in England and Wales, as recorded on the Prison Service IT system.

Prisoners

Steve Webb: To ask the Secretary of State for the Home Department what percentage of the prison population had previously served a period in prison as a convicted prisoner *(a)* in the latest year for which figures are available and *(b)* 10 years earlier. [646]

Fiona Mactaggart: The table gives the percentage of the sentenced prison population with at least one previous sentence of imprisonment. The latest year for which figures are available is 2002. We do not have data readily available on previous sentences of imprisonment for those in prison 10 years earlier. The data for 1996 are shown as the earliest year for which these data are available.

Sentenced prison population by previous sentences of imprisonment[1]

Percentage	*2002*	*1996*
No information[2]	9	9
No previous sentence of imprisonment	38	46
At least one previous sentence of imprisonment	53	45

[1] Based on a sample of those in prison under sentence on the 30 June 2002 and 1996 respectively. The numbers are then weighted to give an estimate for all those in prison under sentence at that time.

[2] Data on the criminal history of the sentenced prison population are taken from the Offenders Index. It was not possible to find data on the criminal history of all convicted prisoners.

Mr. Malins: To ask the Secretary of State for the Home Department what percentage of persons arrested for a trigger offence under the Criminal Justice Act 2003 have tested positive for drugs in the latest period for which figures are available. [2968]

Paul Goggins: The Criminal Justice Act 2003 introduced provisions for testing (for specified class A drugs) young people aged 14–17 years following charge for trigger offences. Adults may be tested at charge under provisions of the Criminal Justice and Court Services Act 2000.

At present, neither adults nor young people are tested at the point of arrest, although provisions for testing of adults following arrest for trigger offences were introduced in the Drugs Act 2005. There are no current plans to introduce testing on arrest for young people.

Testing on charge for young people is operational in 10 areas on a pilot basis. Management information collected in the pilot areas indicate that approximately 5 per cent. of those tested at charge test positive for specified class A drugs.

Prisons

Dr. Vis: To ask the Secretary of State for the Home Department if he will break down by ethnicity the number of children received into *(a)* prison service custody, *(b)* secure training centres and *(c)* local authority secure children's homes in each of the last five years. [1826]

Fiona Mactaggart: The information requested is provided in the table. Information for prison establishments is as recorded on the Prison Service IT system. Annual figures are not available for prison establishments in 2003 as during this time the Prison Service implemented the 2001 Census ethnic categories.

Information for Secure Training Centres and Local Authority Secure Children's Homes has been supplied by the Youth Justice Board.

First receptions of persons aged under 18 to prison establishments, by ethnic group

England and Wales, 2000–04	*2000*	*2001*	*2002*	*2004*

Regional Offender Managers

Dr. Vis: To ask the Secretary of State for the Home Department what the salary rates are for regional offender managers; and whether they have been awarded salary increases in the last financial year. [1835]

Fiona Mactaggart: The regional offender managers are paid on senior civil service (SCS) pay band one which ranges from a minimum of £54,788 to a ceiling of £115,616. They will be due an increase on 1 April each year in line with the SCS pay award.

Sentencing Guidelines

John McDonnell: To ask the Secretary of State for the Home Department whether the Sentencing Guidelines Council plans to produce guidelines on sentencing of *(a)* sex offenders and *(b)* persons found guilty of robbery. [1381]

Fiona Mactaggart: The role of the Sentencing Guidelines Council is to issue guidance on all aspects of sentencing. It is assisted in formulating its guidance by the sentencing advisory panel.

The panel submitted advice on sexual offences to the council for consideration in March 2005. The advice on offences relating to robbery was presented in April 2004, and the advice itself was published in May 2004.

It is anticipated that the guidelines for both sexual offences and robbery will be in place by the end of 2005.

Teenage Girls (Grooming)

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps the Government are taking to tackle the "grooming" of teenage girls on the internet; and if he will make a statement. [2905]

Paul Goggins: The Task Force on Child Protection on the internet was established in March 2001 in response to concerns about the possible risks to children after a number of serious cases where children had been "groomed" via the internet.

The work of the Task Force have focused on the needs of children and in particular teenagers, under the age of consent, who are considered to be most at risk from paedophile "grooming".

Arising out of its work, we introduced legislation to tackle the sexual grooming of children under 16 both online and offline in the Sexual Offences Act 2003. Section 15 of the Act makes it an offence for a person aged 18 or over to meet intentionally, or to travel with the intention of meeting, a child under the age of 16 in any part of the world, if he has not met or communicated with that child on at least two prior occasions, and intends to commit a sexual offence against that child either at the time of the meeting or on a subsequent occasion. The offence has a maximum penalty of 10 years' imprisonment.

To cover the kind of behaviour which might precede a meeting, and enable the police to take action at an earlier stage, Sections 123 to 129 of the Act provide for a new civil preventative order, the Risk of Sexual Harm Order (RSHO). The police can apply for this civil order against any person aged 18 or over who is thought to

pose a sexual risk to children under 16, provided that on at least two occasions, the defendant has done one of the acts listed. The acts include, among other things, communicating with a child, where any part of the communication is sexual. The minimum duration of an order is two years. Breach of an order, without reasonable excuse, is a criminal offence with a maximum penalty on indictment of five years' imprisonment.

The work of the Task Force has also extended to four national awareness campaigns since 2001 at a cost of over £3 million. These campaigns, carried out through cinema, radio and online advertising, have highlighted the measures that can be taken to promote safety online, and the new risks posed by emerging technology. In addition, over 1.5 million copies of a leaflet for parents called "Keeping your Child Safe on the Internet" have been distributed to schools in conjunction with the campaign. The Government have also provided online advice for children, parents and carers, in particular at www.thinkuknow.co.uk and www.parentscentre.gov.uk

Trafficking in Human Beings

Mr. Donaldson: To ask the Secretary of State for the Home Department what plans he has to ratify the Warsaw Convention on trafficking in human beings. [3861]

Paul Goggins *[holding answer 13 June 2005]:* The UK has not yet taken a decision on whether or not to sign the Council of Europe Convention on Action against Trafficking in Human Beings, which opened for signature in Warsaw in May. There are certain provisions in the Convention which present concerns for the UK and which remain under active consideration. We want to resolve these issues before taking a decision on signature. We support fully all of the aims of the Convention and we too want to see widespread action to tackle this abhorrent trade at source, to protect and support the victims and bring those responsible to justice.

War Crimes

Mr. Dismore: To ask the Secretary of State for the Home Department what progress is being made in the investigations for war crimes into the former members of the SS Galician division believed to be resident in the UK; and if he will make a statement. [2681]

Andy Burnham: The enquiries into the Galician division continue. We have identified several hundred individuals in the UK who may still be alive. We are working with other Government agencies to explore lines of enquiry to gather any available evidence.

Mr. Dismore: To ask the Secretary of State for the Home Department if he will assess the merits of professional historians assisting the Metropolitan police in war crimes investigations; and if he will make a statement. [2684]

Hazel Blears: The Metropolitan police have in the past and continue to work closely with experts who provide valuable assistance to a wide range of investigations.

Mr. Dismore: To ask the Secretary of State for the Home Department what assessment he has made of the resources available *(a)* to the Metropolitan Police to investigate and *(b)* to the Crown Prosecution Service to prosecute alleged Nazi war criminals resident in the UK; and if he will make a statement. [2683]

Hazel Blears: The Metropolitan Police War Crimes Unit was disbanded in 1999. Responsibility then passed to the Anti-Terrorist Branch, which has a dedicated section to deal with Crimes Against Humanity. Expenditure is met from normal Metropolitan Police budgets. There are no current prosecutions.

Mr. Dismore: To ask the Secretary of State for the Home Department whether a list of suspected Nazi war criminals believed to be resident in the UK was supplied to the UK by the USSR in 1988; and if he will make a statement. [2686]

Paul Goggins: A list of 34 suspects was supplied by the Soviet Union in June 1988, having originally been sent to Scottish Television. All of those names were investigated as part of the War Crimes Inquiry.

Weapon Sales (Prosecutions)

Sarah Teather: To ask the Secretary of State for the Home Department how many businesses have been prosecuted for the illegal sale of *(a)* knives, *(b)* replica guns and *(c)* firearms in (i) Brent East and (ii) each London borough in the last 12 months. [2549]

Hazel Blears: The available information on the Home Office Court Proceedings database shows that for Greenwich and Woolwich petty sessional area 2003 there were two defendants proceeded against for "Selling a firearm to a person without a certificate" (Firearms Act 1968 Sec 3(2) as amended by the Criminal Justice and Public Order Act 1994, Section 8, part III). There were no other prosecutions in London magistrates' courts for the requested offences as notified to the Home Office Court Proceedings database.

Witness Protection

David Howarth: To ask the Secretary of State for the Home Department what further measures he plans to bring forward to prevent criminals and terrorists using coercion to obtain access to the identity of persons within witness protection programmes. [2780]

Andy Burnham *[holding answer 9 June 2005]:* Police forces and other law enforcement agencies are responsible for providing witness protection and they make full use of measures such as relocation and identity changes where the risk to the safety of a witness is serious or life threatening.

The provisions we have introduced in the Serious Organised Crime and Policing Act 2005 will greatly support this work. They provide an additional safeguard in the form of two new offences of disclosing information about protected witnesses or protection arrangements.

Law enforcement agencies believe that the legislation will also assist them in a number of other ways, most importantly in placing a statutory duty on public and private bodies to assist protection officers in setting up protection arrangements. This will overcome many of

the difficulties they face in obtaining the cooperation of such organisations. The provisions will also help programmes run more effectively by exempting protected witnesses who have had an identity change from criminal or civil liability in respect of failure to declare their original identities when asked to do so by these organisations.

We also provide more practical support to protection officers through the Witness Mobility Service, which has helped speed up the completion of witness protection arrangements and ensure that witnesses are moved to a place of safety as quickly as possible. We are planning to expand on this service through the establishment of a central services unit which will provide law enforcement agencies with other essential witness protection needs. Work is now under way to set up the unit, which we hope will be operational by spring 2006.

Young Offender Institutions

Dr. Vis: To ask the Secretary of State for the Home Department what the average length of stay for sentenced juveniles in each young offender institution was in the last period for which figures are available.[897]

Fiona Mactaggart: The average length of stay per episode for a sample of sentenced prisoners aged under 18 who were discharged in 2003, as recorded on the Prison Service IT system, is provided in the table.

Average time served (including remand time) for a sample of sentenced prisoners aged under 18 England and Wales, 2003

HEALTH

Waiting Lists/Times

13. **Jonathan Shaw:** To ask the Secretary of State for Health if she will make a statement on in-patient waiting times. [3681]

Ms Hewitt: The NHS is continuing to make huge progress in providing faster access to hospital care. In 1997, 284,000 patients were waiting more than six months for operations; that number has now been reduced to 45,400 and by the end of the year it will be reduced to zero.

22. **Ms Barlow:** To ask the Secretary of State for Health if she will make a statement on the number of patients waiting over 13 weeks for an out-patient appointment. [3690]

Mr. Byrne: There are now 30,222 patients referred by their GP who are waiting more than 13 weeks for their outpatient consultation, compared with 338,957 in June 1997. The NHS is on track to ensure that no patients are waiting more than 13 weeks by the end of 2005.

Hospitals (Lichfield)

14. **Michael Fabricant:** To ask the Secretary of State for Health if she will make a statement on the progress of construction of the new hospital in Lichfield. [3682]

Caroline Flint: Work is currently under way for the provision of a new hospital to serve the residents of Lichfield and Burntwood. The new hospital will be located on the old St. Michael's hospital site in Lichfield and is scheduled for completion in winter 2006, receiving its first patients early in 2007.

Accident and Emergency Consultants (Lancashire)

16. **Mr. Jack:** To ask the Secretary of State for Health if she will make a statement on the availability of accident and emergency consultants in Lancashire. [3684]

Mr. Byrne: Within the Cumbria and Lancashire Strategic Health Authority area, the national health service trusts in Lancashire have a total of 17 accident and emergency consultants as at December 2004. The most recent centrally held information on vacancy rates indicated that in March 2004 there were two vacancies which trusts were actively trying to fill, which had lasted for three months or more.

Dentistry

17. **Mr. Robathan:** To ask the Secretary of State for Health what proportion of residents in the South Leicestershire primary care trust area are registered with an NHS dentist. [3685]

Ms Rosie Winterton: At the end of March this year, there were 80,979 people registered with a dentist in the South Leicestershire Primary Care Trust area, which equates to 47.5 per cent. of the population.

Sir Paul Beresford: To ask the Secretary of State for Health if she will make a statement on the NHS dental patient charges review. [3683]

Ms Rosie Winterton: A Dental Charges Working Group, led by Harry Cayton, the Department of Health's Director for Patients and the Public, submitted proposals for a new system of dental charges to the Department last year. These proposals are being considered alongside information about the effects of the new pilot dentists' contracts on treatment patterns.

Sir Paul Beresford: To ask the Secretary of State for Health what plans she has to establish better working relations between private dentistry and NHS dentistry. [2768]

Ms Rosie Winterton: *[holding answer 9 June]:* In March 2003, the Office of Fair Trading published a report of a market investigation, "The private dentistry

market in the UK", in response to a super-complaint from the Consumers Association. The report's main conclusion, which we accepted, was that consumers need better information to make properly informed choices about which dentists and treatments will best meet their needs. We have been working with the General Dental Council (GDC) on implementation of the report's recommendations. The GDC has just published a new version of its ethical guidance, "Standards for Dental Professionals", which includes the requirement that dentists give full information on proposed treatments and possible costs. In addition, the Dentists Act 1984 Amendment Order 2005, which was laid before Parliament on 25 May, includes a power for the GDC to establish a new private complaints system to investigate and resolve complaints from patients who have received private dental treatment including instances where patients have not been given a well-informed choice between national health service and private treatment.

Sir Paul Beresford: To ask the Secretary of State for Health what mechanisms are in place to ensure there is *(a)* co-ordination and *(b)* no duplication between the work of Methods Consulting and individual primary care trusts in recruiting dentists from Poland. [2769]

Ms Rosie Winterton *[holding answer 9 June 2005]:* Methods Consulting, on behalf of the Department, only recruit dentists from Poland to posts submitted by strategic health authorities to the Department and subsequently approved as suitable for international recruitment.

Sir Paul Beresford: To ask the Secretary of State for Health how many Polish dentists are practising in England as a result of the Department's central recruitment programme; and how many of those are working in the *(a)* General Dental Service, *(b)* Personal Dental Service, *(c)* Community Dental Service and *(d)* Hospital Dental Service. [2771]

Ms Rosie Winterton *[holding answer 9 June 2005]:* 114 Polish dentists are practising in England as a result of the Department's central recruitment programme.

All of these dentists are working under a personal dental service (PDS) contract. 108 are working in PDS pilots and six are based in the community dental service. None of the dentists work under a general dental services contract or are employed in the hospital dental service.

Mr. Hollobone: To ask the Secretary of State for Health what steps she is taking to ensure adequate provision of NHS dentistry in the Kettering constituency; and if she will make a statement. [4169]

Ms Rosie Winterton: Northamptonshire Heartlands Primary Care Trust (PCT) has been allocated £298,000 to improve access to national health service dentistry, and plans to use these resources to provide more than 17,000 additional NHS dental patient registrations.

A dental access centre (DAC) has been opened in Corby to provide NHS urgent treatment to patients who are not registered with a dentist. One Polish dentist has been recruited to work at the DAC and a further four dentists from Poland will be starting work in the PCT area later this year.

Mr. Chope: To ask the Secretary of State for Health on what date the Clayton Report on NHS dental charges was *(a)* commissioned and *(b)* delivered to her Department; and on what date it will be published. [4562]

Ms Rosie Winterton: A dental charges working group, led by Harry Cayton, the Department's Director for Patients and the Public, was commissioned in June 2003 to consider and make proposals for a revised system of dental charges. The report on the group's work was submitted to the Department in March 2004. The group's findings are being considered alongside information about the effects of the new pilot dental contracts on treatment patterns. The written ministerial statement in January indicated that we would be consulting on a new system of dental charges in the summer. The Cayton report will be made available when we begin consultation on the draft charges regulations.

Primary Care Trusts

19. **Dr. Tony Wright:** To ask the Secretary of State for Health what plans she has for the future structure of primary care trusts. [3687]

Jane Kennedy: Primary care trusts are central to improving the health of their populations by commissioning high quality care. As we implement the next stage of the national health service reforms, including practice based commissioning and streamlining NHS management, PCTs will need to change and develop. These changes need to reflect local circumstances and form part of a structured programme for the NHS as a whole.

Hospitals (Parking Charges)

20. **Keith Vaz:** To ask the Secretary of State for Health if she will take steps to ensure further car parking charges at hospitals are not introduced. [3688]

Mr. Byrne: It is a matter for individual national health service trusts to decide whether or not to charge for car parking, and the level of charges in the light of local circumstances. We have no plans to change this.

Stroke Care

21. **Helen Jones:** To ask the Secretary of State for Health what progress has been made in improving stroke care for younger people. [3689]

Mr. Byrne: The national service framework for older people, launched in 2001, covered specifically the development of stroke services for all ages, including younger people. Between 1998 and October 2004, the proportion of hospitals in England treating stroke patients that have a specialist stroke service rose from 45 per cent. to 90 per cent.

Venous Thromboembolism

23. **Dr. Richard Taylor:** To ask the Secretary of State for Health when the Government's response to the second report of the Health Committee, Session

2004–05, on the Prevention of Venous Thromboembolism in Hospitalised Patients, is expected to be published. [3691]

Caroline Flint: We are currently considering our response on this important topic of Venous Thromboembolism in hospitalised patients. It is our intention to respond to the Health Committee as soon as possible.

Acute Services (Northampton)

24. **Ms Keeble:** To ask the Secretary of State for Health what steps she is taking to improve acute services in Northampton. [3692]

Ms Rosie Winterton: The Northampton general hospital has benefited from an £11.2 million investment in cancer services, including three new linear accelerators.

In addition, the Northampton general hospital NHS trust is also developing plans for a £300 million redevelopment of hospital services in Northampton. The strategic outline case has been approved by the strategic health authority and work is now in hand on the outline business case. It is hoped that work on the new hospital will begin 2010.

British Pregnancy Advisory Service

David T.C. Davies: To ask the Secretary of State for Health whether her Department has completed its investigation into the British Pregnancy Advisory Service; and if she will make a statement. [3686]

Caroline Flint: The Report was commissioned to the Chief Medical Officer by the previous Secretary of State. Decisions will be taken on the publication of the Report once the Secretary of State has considered the CMO's conclusions and recommendations. It would be inappropriate to comment any further at this stage.

Abortions

Mr. Crabb: To ask the Secretary of State for Health (1) how many pregnancies were terminated in the United Kingdom in each year between 1975 and 2005 at fewer than *(a)* 28 weeks, *(b)* 24 weeks, *(c)* 22 weeks and *(d)* 12 weeks; [2329]

(2) how many terminations of pregnancy were carried out in the United Kingdom in each year between 1975 and 2005; [2330]

(3) how many patients under the age of 16 years had pregnancies terminated in each year between 1975 and 2004. [2331]

Caroline Flint: The available information is shown in the tables. The annual abortion data for 2004 will be published in July; the annual data for 2006 will be published next summer.

Legal abortions: total number of abortions, number of abortions at age under 16, and abortions by gestation[1], residents of England and Wales, 1975 to 2003

	Total	Age in years under 16	Gestation weeks[2] 0 to 11	12 to 19	20 to 23	24 and over
1975	106,224	3,570	74,464	26,993	847	124
1976	101,912	3,345	72,442	24,935	811	164
1977	102,677	3,581	73,218	24,712	912	183
1978	111,851	3,298	79,301	27,138	1,249	261
1979	120,611	3,534	84,634	30,004	1,486	281
1980	128,927	3,650	90,472	32,001	1,853	381

	Total	Age in years under 16	Gestation weeks[2] 0 to 12	13 to 22	23 to 24	25 and over
1981	128,581	3,531	108,472	18,694	296	104
1982	128,553	3,852	110,148	17,958	290	78
1983	127,375	4,087	108,861	18,021	311	87
1984	136,388	4,158	117,414	18,396	447	57
1985	141,101	4,002	122,252	18,354	440	31
1986	147,619	3,894	128,658	18,509	420	26
1987	156,191	3,765	135,782	19,911	463	24
1988	168,298	3,568	145,969	21,725	569	23
1989	170,463	3,383	149,765	20,166	511	19
1990	173,900	3,422	152,666	20,801	407	21
1991	167,376	3,158	147,494	19,444	380	58
1992	160,501	3,000	142,166	17,976	304	53
1993	157,846	3,083	140,405	17,035	342	61

	Total	Age in years under 16	Gestation weeks[2] 0 to 12	13 to 22	23 to 24	25–27
1994	156,539	3,246	139,207	16,927	323	49
1995	154,315	3,270	137,696	16,226	330	25
1996	167,916	3,645	148,819	18,614	397	59
1997	170,145	3,434	151,667	18,013	399	36
1998	177,871	3,759	158,327	19,036	445	30

	Total	Age in years under 16	Gestation weeks[2] 0 to 12	13 to 20	21 to 23[3]	24–27
1999	173,701	3,603	154,682	17,274	1,654	58
2000	175,542	3,748	154,908	18,790	1,745	65
2001	176,364	3,658	154,869	19,458	1,936	66

	Total	Age in years under 16	Gestation weeks[2] 4 to 12	13 to 21	22 to 23[3]	24–27
2002	175,932	3,733	153,730	20,840	1,245	73

	Total	Age in years under 16	Gestation weeks 4 to 12	13 to 21	22 and over
2003	181,582	3,967	158,449	21,768	1,365

[1] The way gestation length has been grouped for publication has changed several times since 1975 and this is reflected in the tables.
[2] Figures by gestation may not add to the total as they include terminations at gestations over 27 weeks and terminations at gestations unknown.
[3] Includes 24 weeks and 0 days.

Alcohol Consumption

Tim Loughton: To ask the Secretary of State for Health what the average weekly consumption of alcohol for *(a)* men and *(b)* women has been in each of the last 10 years. [4623]

Caroline Flint: The average weekly alcohol consumption for 1992 to 2002 for men and women is shown in the table.

Average weekly alcohol consumption (mean units per week) by sex: 1992 to 2002—Persons aged 16 and over, England

	Men	Women
Unweighted		
1992	15.7	5.5
1994	15.4	5.6
1996	16.1	6.3
1998	16.4	6.4
Weighted		
1998	17.2	6.5
2000	17.1	7.1
2001	16.9	7.5
2002	17.0	7.6
Weighted base 2002 (thousands) = 100 per cent	16,781	19,160
Unweighted sample[1] 2002	5,906	6,889

[1] Data for 1998 onwards are weighted for non-response; table shows unweighted and weighted figures for 1998 to give an indication of the effect of the weighting. For the weighted data, 1998 and 2000–02, the weighted base is the base for percentages. Bases for earlier years are of similar size and can be found in General Household Survey (GHS) reports for each year.
Source:
GHS, Office for National Statistics.

Antiviral Drugs

Mr. Lansley: To ask the Secretary of State for Health when the delivery of the stockpile of 14.6 million treatment courses of antiviral drugs, over and above the current stockpile of 100,000, for the purposes of combating avian influenza, will commence. [3445]

Caroline Flint: Monthly deliveries of antiviral drugs to create a national stockpile will commence in August 2005 and are due to be completed by December 2006.

Driving (Medical Fitness)

Mr. Drew: To ask the Secretary of State for Health what discussions she has had with her colleagues at the Department of Transport on the criteria for medical fitness to drive. [2565]

Caroline Flint: There have been no discussions with colleagues in the Department of Transport regarding the criteria for medical fitness to drive.

Advice on the setting and application of standards and the impact of medical conditions on driving in general is given to the Secretary of State for Transport by six honorary medical advisory panels. These cover the major relevant conditions, that is vision, diabetes, cardiology, neurology, psychiatric conditions and alcohol and substance misuse. All nominations to the panels are approved by the Royal College of Physician.

Any change to the standards set down in legislation will of course be subject to public consultation. The Department is included as a consultee in any such exercise.

Employment, Social Policy, Health and Consumer Affairs

Mr. Lansley: To ask the Secretary of State for Health what the outcome of discussions held at the recent Employment, Social Policy, Health and Consumer Affairs Council meeting of 2–3 June was, with specific reference to *(a)* the Foods Supplements Directive, *(b)* pandemic influenza and *(c)* health claims made on foods. [3518]

Caroline Flint *[holding answer 13 June 2005]:* I refer the hon. Member to the written ministerial statement made on 13 June 2005, *Official Report*, columns 1–3WS.

Hemel Hempstead Hospital

Mike Penning: To ask the Secretary of State for Health if she will list key services set to transfer from Hemel Hempstead Hospital; and what the new location is in each case. [3990]

Ms Rosie Winterton *[holding answer 13 June 2005]:* The information requested is not held centrally. Our policy of "Shifting the Balance of Power" means that the configuration of local services is a matter for the local national health service, working in partnership with its local community. Ministers have no formal part in this process, unless this matter is referred by the overview and scrutiny committee, and it would therefore not be appropriate for me to provide a detailed response to the comments made.

Bedfordshire and Hertfordshire Strategic Health Authority (SHA) is currently in the process of drawing up its outline business case (OBC) for the reconfiguration of health services in both counties. The SHA's OBC will be submitted to the Department for consideration in January 2006.

Hepatitis C

Mr. Burns: To ask the Secretary of State for Health if she will *(a)* set a maximum wait and *(b)* publish standards for levels of diagnosis and treatment for hepatitis C; and if she will make a statement. [1462]

Caroline Flint *[holding answer 6 June 2005]:* The maximum waiting time for a first outpatient appointment following general practitioner (GP) referral has been reduced to 17 weeks and will continue to fall to a maximum of 13 weeks by the end of 2005. By 2008, the maximum wait from GP referral to start of treatment, including outpatient appointments and any diagnostic tests, will be 18 weeks.

The level of diagnosis of hepatitis C will depend upon the number of individuals at risk of infection who are tested. In many cases, particularly those who injected drugs in the past, this will depend upon their coming forward. The recent and on-going awareness campaign aims to increase knowledge of hepatitis C among the public and particularly those who may have been exposed to the virus. Those at risk can then make informed decisions about whether to seek testing. Infected individuals can be referred for further specialist advice and treatment where indicated. There are currently no plans to set standards for the levels of diagnosis of hepatitis C, but progress will be monitored from the total number of laboratory-confirmed reports of hepatitis C infection collected by the Health Protection Agency.

Hot Weather-Related Conditions

Steve Webb: To ask the Secretary of State for Health how many *(a)* accident and emergency department attendances and *(b)* hospital admissions in England with a hot-weather related primary diagnosis, including sunburn, there have been in each year since 1997, broken down by age. [2154]

Caroline Flint: Diagnosis-specific data are not collected or held centrally on accident and emergency department attendances. However, it is collected by hospital admissions and the information available is shown in the table.

Count of finished admissions, admitted via accident and emergency, primary diagnosis hot weather related illness including sunburn, split by age group 0–14, 15–64 and 65+, NHS hospitals in England 1997–98 to 2003–04

	Finished admissions	Age bands		
	Total	0–14	15–64	65 +
1997–98	162	44	85	33
1998–99	127	45	72	10
1999–2000	176	52	103	21
2000–01	126	43	70	13
2001–02	144	51	76	17
2002–03	101	40	54	7
2003–04	188	62	95	31

Source:
Hospital Episode Statistics, Department of Health.

Influenza

Mr. Lansley: To ask the Secretary of State for Health when the UK influenza pandemic contingency plan will be updated to reflect the review of phases of pandemic influenza undertaken by the World Health Organisation. [265]

Caroline Flint: The United Kingdom influenza pandemic contingency plan published on 1 March is currently being updated to take into account comments invited, and a revised version will be published within the next few months. The revised plan will reflect the review of the pandemic influenza alert phases undertaken by the World Health Organization.

Mr. Lansley: To ask the Secretary of State for Health what procedures are in place to monitor the development by NHS organisations of multi-agency contingency plans for an outbreak of pandemic influenza. [266]

Caroline Flint: Preparing for emergencies is part of the role of national health service trusts and includes arrangements for a multi-agency response. A designated influenza pandemic co-ordinator supported by an influenza planning committee in each primary care trust will have specific responsibility for the development, maintenance and testing of multi-agency contingency plans for a pandemic.

In addition, strategic health authorities (SHAs) will be responsible for monitoring the preparedness of NHS trusts in their area. SHAs are also involved in the regional resilience forums, which have an important role in co-ordinating planning between different agencies.

Leukaemia (High Voltage Lines)

Keith Vaz: To ask the Secretary of State for Health whether the Government have commissioned research into a possible correlation between children living within 200 metres of high voltage lines at birth and risk of leukaemia; how many homes in England are estimated to be within 200 metres of high voltage power lines; and whether the Government plans to make recommendations regarding the safety of living near high voltage power lines. [3428]

Caroline Flint: The Department commissioned the work by Dr. Draper and colleagues on childhood cancer and distance from power lines, recently published in the British Medical Journal (BMJ Vol. 330, 4 June 2005). The study found higher rates of childhood leukaemia among those born within 600 metres of a power line

compared with those born further away. The rate was higher for those born within 200 metres than those between 200 and 600 metres. The authors have no satisfactory explanations for the results in terms of causation by magnetic fields. A response statement has been provided by the Health Protection Agency's (HPA) radiation protection division and is available on its website at: www.hpa.org.uk/radiation.

The study concerned high voltage power lines forming the National Grid in England and Wales, that is all 400 kilovolts (kV) and 275kV lines and a small fraction of 132kV lines. The National Grid Transco website notes that 139,000 homes in England and Wales, less than 1 per cent. of homes, are within 200 metres of their lines.

A number of population studies in the past that have linked magnetic field exposure with a raised incidence of childhood leukaemia but with no corresponding explanation. This led to the International Agency for Cancer Research to classify extremely low frequency electromagnetic fields as a "possible carcinogen". The World Health Organization and the HPA in this country have recommended additional research and, bearing in mind the scientific uncertainty, the need for further precautionary measures to be considered. Government officials have already started detailed discussions with industry, regulators, professional bodies and interest groups about how to respond and a stakeholder group has been set up with the intention of making practical and proportionate recommendations in the interests of society as a whole.

Monsanto's Toxin

Alan Simpson: To ask the Secretary of State for Health what assessment has been made of the health effects of Monsanto's toxin MON863. [3066]

Caroline Flint: MON863 is a genetically modified maize line, not a toxin.

Each genetically modified food is assessed for safety on a case by case basis before it is approved for marketing. This includes a consideration of the genetic modification itself and resulting protein and toxicology, nutrition and allergenicity studies. A wide range of safety data on GM maize MON863 was assessed by the European Food Safety Authority's genetically modified organism panel, which concluded that the maize would have no adverse effect on human health. This conclusion was endorsed by the United Kingdom advisory committee on novel foods and processes.

Parkinson's Disease

Norman Baker: To ask the Secretary of State for Health what assessment her Department has made of whether there is a link between pesticide use and the risk of contracting Parkinson's Disease. [3127]

Caroline Flint: The independent advisory committee on pesticides (ACP) provides authoritative advice to government on all aspects of pesticides. Last November, the ACP considered a report produced by its medical and toxicology panel on the possible links between pesticides and Parkinson's disease. At its meeting, the ACP concluded that, although this review indicated a correlation between recalled pesticide exposure and Parkinson's disease, it did not point to a particular toxic mechanism or a hazard from a specific compound or group of compounds.

However, the ACP did advise that further mechanistic and epidemiological research be carried out on the association between pesticide exposure and Parkinson's disease. The tender process has been organised by the pesticides safety directorate and has now finished. The research proposals are currently being peer reviewed with a view to the work being commissioned later this year.

School Meals

Mr. Kidney: To ask the Secretary of State for Health what discussions her Department has had with the Department for Education and Skills on the setting of higher nutritional standards for school meals. [2752]

Caroline Flint: The Department for Education and Skills is leading on work to improve the school meals standards. The Department is supporting this work and Ministers and officials from both Departments have met regularly to discuss the setting of higher nutritional standards for school meals.

Second-hand Smoke

Mrs. Ellman: To ask the Secretary of State for Health what plans she has to deal with the effect of second-hand smoke in the workplace. [3738]

Caroline Flint: Our plans were set out in the Queen's Speech for legislation to make the vast majority of enclosed public places and workplaces smoke-free within the next four years.

Soya Milk

Anne Milton: To ask the Secretary of State for Health what plans she has to introduce milk tokens for soya milk. [3104]

Caroline Flint: There are no plans to extend the scope of the current welfare food scheme tokens or the new healthy start vouchers to include soya based milk products. Expert advice from the committee on medical aspects of food policy concludes that soya milk is not as nutritionally adequate for infants and young children as cow's milk.

This is because soya based milk products are lower in energy than cow's milk, lack sufficient amounts of several vitamins and minerals, especially iron and zinc and are particularly low in calcium unless fortified.

Where a child has a diagnosed intolerance to cows milk a doctor may prescribe a suitable alternative. Prescriptions are, of course, free for children and those in receipt of income support.

With the inclusion of fresh fruit and vegetables to healthy start the scheme will, as well as providing greater nutritional choice, accommodate the needs of those with an intolerance to cow's milk and the dietary choices of vegetarians and vegans.

NORTHERN IRELAND

Breast Cancer

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what targets have been set for *(a)* assessment and *(b)* treatment for breast cancer in Northern Ireland. [1443]

Mr. Woodward: In Northern Ireland, patients with suspected breast cancer are expected to be assessed by a specialist within two weeks of urgent referral by their GP. This two-week target for breast cancer patients has been in place since 1 August 2000. There are no formal targets for treatment time, but on the basis of the latest available information the vast majority of breast cancer patients receive treatment within six weeks of their diagnosis.

The Regional Cancer Services Framework is considering waiting times for cancer patients and is developing recommendations, which aim to improve the treatment and care for all people with cancer.

British-Irish Summit

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on the outcome of the seventh British-Irish summit held on the Isle of Man on 20 May. [2194]

Angela E. Smith: My right hon. Friend the Secretary of State for Northern Ireland was very pleased, so early in his new role, to have the opportunity to meet the Taoiseach and the Heads of the other BIC Administrations. They considered the subject of Telemedicine and its potential to assist in the delivery of health and social care across all member administrations.

The summit was highly successful and a copy of the official communiqué detailing the discussions which occurred at the meeting has been placed in the Library of the House. It is also available at the following website address; http://www.britishirishcouncil.org/documents/iom_summit.asp

Cardiac Surgery

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many patients from Northern Ireland had cardiac surgery performed outside the Province in each of the last five years. [1426]

Mr. Woodward: The number of patients from Northern Ireland who had cardiac surgery performed outside the Province in each of the last five years is detailed in the following table.

	Number of patients treated outside Northern Ireland
1999–2000	n/a
2000–01	n/a
2001–02	254
2002–03	401
2003–04	333

Notes:
1. Figures are not available for 1999–2000 or 2000–01.
2. Figures relate to patients whose treatment was purchased by Health and Social Services Boards.

Civil Servants

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many people are employed within the Department of Health, Social Services and Public Safety in Northern Ireland, broken down by area of responsibility. [1422]

Mr. Woodward: The total number of staff employed by the Department, including Health Estates Agency is 1,037. A table showing the breakdown of staff, per area of responsibility, is as follows.

Staff in post at 25 May 2005

Head of group	*Area of responsibility*	*Number of staff*
Permanent Secretary	Office of the Permanent Secretary	13
Deputy Secretary, Resources and Performance Management Group	Internal Audit Hyponatraemia Inquiry	18
	Personnel and Corporate Services	141
	Finance	59
	Information and Analysis	26
	Planning and Performance Management	27

Costello Report

Lady Hermon: To ask the Secretary of State for Northern Ireland pursuant to his answer of 25 May 2005, *Official Report*, column 116W, whether each pro-forma letter received by his Department in relation to the Costello Report is treated as a single letter of support or opposition. [2264]

Angela E. Smith: In addition to recommending that transfer from primary to post-primary school should be on the basis of informed parental and pupil choice, with no reference to academic ability, the Post-Primary Review Working Group Report made a number of key recommendations. These include the introduction of an "Entitlement Framework" to guarantee pupils access to a wider choice of courses, and the development of a Pupil Profile. These and other recommendations have received a large measure of support, including from some of those opposed to the changes relating to academic selection. It is not, therefore, feasible or appropriate to categorise correspondence received by the Department as simply either supporting or opposing the Report as a whole.

Each letter received by the Department on these issues, whether part of a campaign or not, is treated on an individual basis.

Freedom of Information

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the costs to date for Northern Ireland Government departments resulting from individuals seeking information under the Freedom of Information Act 2000. [1398]

Angela E. Smith: The information requested is not collected routinely and could be obtained only at disproportionate cost.

Fuel poverty

Mr. Dodds: To ask the Secretary of State for Northern Ireland what percentage of the population in Northern Ireland is categorised as fuel poor. [4149]

Mr. Hanson: The Northern Ireland House Condition Survey 2001 indicated that 33 per cent. of the population in Northern Ireland were classified as fuel poor. It is expected that the interim House Condition Survey, which is due to be published later this year, will indicate a reduction reflecting the Department for Social Development's efforts to reduce fuel poverty.

Mr. Dodds: To ask the Secretary of State for Northern Ireland what steps are being taken to tackle fuel poverty in Northern Ireland. [4150]

Mr. Hanson: The Department for Social Development's fuel poverty strategy which was launched last year sets stringent targets for the eradication of fuel poverty in vulnerable households and all social houses by 2010, and in non-vulnerable households by 2016. The Strategy is underpinned by a wide range of measures and programmes which both directly and indirectly tackle fuel poverty including the Warm Homes Scheme, winter fuel payments, cold weather payments and the Northern Ireland Housing Executive's (NIHE) heating replacement programme. A Fuel Poverty Advisory Group and an Interdepartmental Group on Fuel Poverty have been established to monitor and review the fuel poverty strategy and ensure a partnership approach to tackling fuel poverty.

Hospital Consultants

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on progress in implementing the new consultant contract. [1406]

Mr. Woodward: The Department is fully committed to ensuring the full implementation of the new consultant contract in Northern Ireland at the earliest possible date, and continues to make progress towards this. Health and Personal Social Services employers have been instructed to agree job plans with consultants by 1 July 2005. Substantial additional funding has been provided to the Health and Personal Social Services to support implementation of the new contract and the Department is developing a range of measures to monitor implementation.

Housing Executive

Lady Hermon: To ask the Secretary of State for Northern Ireland how many Housing Executive properties in each housing executive district in Northern Ireland are vacant; how many of those are awaiting refurbishment; and how many are available for use. [3497]

Mr. Hanson: The information requested is not available in the form requested. However, the following table sets out by Housing Executive District office, the total number of vacant properties, and indicates those that have been identified for refurbishment and those that could be let. In addition the table shows those properties for which longer term use has still to be decided, because they are located in areas where there has been civil disturbance. Some of these may need repairs and may eventually come back into use. Also shown are those properties being used for decanting purposes and on which decisions on future use have still to be made. For completeness the table also shows those not available for letting due to planned demolition or sale.

Vacant housing executive properties

[1] Dwellings identified as requiring major improvements
[2] Dwellings where work is under way
[3] Change of Tenancy Repairs

Lady Hermon: To ask the Secretary of State for Northern Ireland how much has been spent in each housing executive district in Northern Ireland on accommodating those on the waiting list for housing in hostels, hotels or bed and breakfast establishments in each of the past five years for which figures are available. [3498]

Mr. Hanson: The information is not available in the form requested, or for the period specified. The Housing Executive makes use of a variety of types of housing such as self-contained or hostel accommodation and "shared" accommodation which may be a house in multiple occupation or a bed and breakfast establishment. However, the following table details expenditure on all temporary accommodation by Housing Executive administrative area and the out of hours service for the financial years 2003-04 and 2004-05.

Temporary accommodation expenditure 2003-04 and 2004-05

Housing Executive administrative area	Expenditure (£) 2003-04	Expenditure (%) 2003-04	Expenditure (£) 2004-05	Expenditure (%) 2004-05

MRI Scans

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the most recent figures are for average waiting times for MRI scans in Northern Ireland. [1416]

Mr. Woodward: The information requested is not collected centrally and could be provided only at disproportionate cost.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what recent estimate he has made of the *(a)* waiting times and *(b)* number of patients waiting for an MRI scan at the (i) Ulster hospital, Dundonald and (ii) Royal Victoria hospital, Belfast. [1417]

Mr. Woodward: Data supplied by (i) Ulster hospital, Dundonald and (ii) Royal Victoria hospital, Belfast showing the latest available information on waiting times/lists for MRI scans is provided as follows.

(i) *(a)* In-patient average waiting time 1–2 days. Out-patient average waiting time 3–4 weeks.

(i) *(b)* 183 patients waiting.

(ii) *(a)* Average waiting time for an urgent MRI scan is within six weeks. Average waiting time for a routine MRI scan is 3–9 months.

(ii) *(b)* Approximately 1,200 patients waiting.

NHS Dentistry

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many dentists were taking new NHS patients in Northern Ireland at the end of 2004. [2802]

Mr. Woodward: During the quarter ending December 2004, 654 dentists in Northern Ireland registered new patients for treatment under the NHS, that is, patients who had not been registered with them at the end of the previous quarter. These registrations may have resulted from patients moving between dentists or may have been re-registration of patients who have not attended the dentist for some time and whose registrations will therefore have expired. Registrations may also have been due to registering for the first time, for example, children or people coming to reside in Northern Ireland.

NHS Information Technology Systems

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland who was instructed by the Eastern Health Board to produce a business case regarding implementing new information technology systems; when this instruction was given; what costs have been incurred; and if he will make a statement on progress. [1400]

Mr. Woodward: The information is not available in the form requested.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans there are to improve information technology within the NHS in the Province. [1401]

Mr. Woodward: The Health and Personal Social Services (HPSS) Information and Communications Technology (ICT) Strategy, published in March 2005, sets out the long term vision for the use of ICT in the HPSS. It outlines a framework of activities to develop ICT in support of service modernisation. The HPSS ICT Programme, developed to deliver the HPSS ICT Strategy, was formally launched in March 2005. This programme encompasses the projects and activities required to develop and roll out new and enhanced ICT systems and support structures over a 10 year period, focusing on new and improved systems for electronic care records, electronic care communications and electronic information.

Among the many activities identified, the HPSS ICT Programme aims to establish an electronic integrated record for each individual using community services by 2008, with electronic care records in use across the whole of the HPSS by 2010. Also by 2010, technology will be available to care professionals at the point of need, whether at remote locations or in clinics, hospitals or health centres. The programme will also introduce electronic transfer of pathology results and digital imaging which will enable early diagnosis. Electronic referral and booking systems as well as electronic prescribing will give patients more choice and convenience.

NHS Staff

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much was spent by each health trust in the Province on temporary and locum staff in each of the last five years, broken down by profession. [1411]

Mr. Woodward: The information requested is provided as follows:

Year to:	£000
31 March 2000	8,665
31 March 2001	13,155
31 March 2002	16,837
31 March 2003	23,022
31 March 2004[1]	30,857

[1] From 31 March 2004 temporary staff are also included in this expenditure total.

The figures provided in the table refer to expenditure classed as 'agency staff' in Health and Social Services Trust annual accounts. Only locum staff who are not placed on the payroll of the trust will be included in this category.

The information is not available centrally broken down by profession, and could be obtained only at disproportionate cost.

Porphyria

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assistance is provided to sufferers of porphyria in the Province. [1420]

Mr. Woodward: Porphyria is not one single condition but a group of seven related disorders that can cause a variety of signs and symptoms. Most of the conditions are inherited but some may be acquired. The treatment provided to people with porphyria will depend on which type of porphyria a patient has and the severity of the condition. A patient may be seen by consultants from general medicine, chemical pathology, dermatology or a combination of these as appropriate. In addition, the medical genetics service can offer appropriate genetic advice and gene testing.

School Discipline

Lady Hermon: To ask the Secretary of State for Northern Ireland what guidance is issued to teachers by his Department as to whether and when it is justifiable for a member of teaching staff to raise their voice when dealing with an unruly pupil or student. [2197]

Angela E. Smith: No specific guidance has been issued on this subject. The Department's publication "Pastoral Care in Schools: Promoting Positive Behaviour", distributed to all teachers, contains advice on dealing with aggressive pupils and confrontational situations. The advice emphasises keeping the emotional temperature as low as possible and dealing with the situation calmly and quietly.

School Sport

Lady Hermon: To ask the Secretary of State for Northern Ireland what target is set by his Department in relation to the weekly allocation of time for sport in schools in Northern Ireland; and what percentage of schools in each education and library board area currently meet that target. [2158]

Angela E. Smith: Physical Education is, and will remain, part of the statutory curriculum for all pupils from age 4 to age 16. My Department does not however specify the amount of time schools should spend on any particular subject. Schools themselves determine how much time is devoted to Physical Education in the curriculum, but they are encouraged to offer pupils at least two hours a week of Physical Education, including sport. My Department does not keep records relating to how much time individual schools allocate to PE.

Specialist Elective Surgery Units

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on progress on developing specialist elective surgery units in the Province. [1403]

Mr. Woodward: Developing Better Services (DBS) endorses the concept of specialist elective surgery units as a means of protecting planned surgery from the peaks of emergency treatment and care. In line with the ministerial announcement on DBS of February 2003, the Department of Health, Social Services and Public Safety has been working with the Health and Social Services Boards and Trusts to develop protected elective capacity across Northern Ireland. As specifically designated in the DBS announcement, protected elective units are now in place at Lagan Valley and South Tyrone Hospitals. Protected elective capacity has also been established at the Mater, Altnagelvin, Causeway and Erne Hospitals, and is planned for other locations.

FOREIGN AND COMMONWEALTH OFFICE

Acts of Parliament (Internet Access)

Mr. Gordon Prentice: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to make all Acts of Parliament published before 1988 for which his Department is responsible available on-line. [3718]

Mr. Straw: The Controller of Her Majesty's Stationery Office (HMSO) within the Cabinet Office is the Queen's Printer of Acts of Parliament, and responsible for the publication of Acts of Parliament. HMSO has considered the publication of Acts prior to 1988, which is the earliest date when these were available electronically, but has decided not to do so as many have been heavily amended and to publish them in their original form would be misleading for many users. The Government are, however, taking forward development of a Statue Law Database which will contain the fully revised and updated text of all legislation from 1275. It is expected that this will be made available to the general public during 2006.

Departmental Budget

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much of the budget for 2004–05 for public-facing activities has been spent to date, broken down by activity; and what future activities are planned. [1805]

Mr. Douglas Alexander: The budget for 2004–05 for EU presidency related public-facing activities was fully spent. The work undertaken included the creation of a presidency identity, designing presidency information materials and recruiting media relations and marketing support to communicate presidency priorities to the public from July to December 2005. In respect of future

activities, I refer my hon. Friend to the reply I gave my hon. Friend the Member for Glasgow, South-West (Mr. Davidson) on 9 June 2005, *Official Report*, column 663W.

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs at what level the budget for public-facing activity for 2005–06 has been set, broken down by activity, and what sums have been allocated to each *(a)* activity and *(b)* budget line. [1806]

Mr. Douglas Alexander: I refer my hon. Friend to the reply I gave on 9 June 2005, *Official Report*, column 663W to my hon. Friend the Member for Glasgow, South-West (Mr. Davidson).

Departmental Union Representation

Mr. Jenkins: To ask the Secretary of State for Foreign and Commonwealth Affairs how many trade union learning representatives there are in his Department. [3311]

Mr. Straw: None. There have been no requests from trade unions in the Foreign and Commonwealth Office for this facility.

EU Directives

John Hemming: To ask the Secretary of State for Foreign and Commonwealth Affairs how many EU directives have been issued *(a)* in each month since 2000 and *(b)* in each year since 1975. [3729]

Mr. Douglas Alexander: Based on the *Official Journal* of the European Union (Directory of Community Legislation in force and other acts of the Community institutions, Volume II, as at 1 January 2004) the approximate numbers of EC directives which have been enacted each year since 1975 are:

	Number of directives
1975	38
1976	39
1977	39
1978	72
1979	55
1980	40
1981	54
1982	75
1983	43
1984	55
1985	56
1986	54
1987	64
1989	132
1990	88
1991	146
1992	138
1993	170
1994	86
1995	75
1996	138
1997	143
1998	150
1999	166
2000	160
2001	187
2002	201
2003	233
2004	109

The number of directives adopted each month since 2000 is as follows:

Directives 2000–05

	2000	*2001*	*2002*	*2003*	*2004*	*2005*
January	12	4	3	21	13	11
February	4	4	5	15	7	4
March	3	3	7	15	17	6
April	3	2	3	21	50	6
May	2	8	6	17	—	2
June	6	4	5	24	—	11
July	2	6	8	18	—	—
August	4	4	1	9	1	
September	3	1	4	10	—	
October	4	4	5	10	8	
November	4	4	6	8	1	
December	3	1	15	25	12	

A number of the directives adopted since 1975 will have been amended or repealed. But the exact figure is not held by the Foreign and Commonwealth Office and it would incur disproportionate cost to obtain it.

European Constitution

Mr. Andrew Turner: To ask the Secretary of State for Foreign and Commonwealth Affairs which provisions of the Treaty establishing a constitution for Europe can be made *(a)* without that Treaty being ratified and *(b)* under existing European treaties. [3762]

Mr. Douglas Alexander *[holding answer 13 June 2005]:* I refer the hon. Member to my right hon. Friend the Foreign Secretary's statement to the House on 6 June 2005, *Official Report*, columns 991–92, on the EU Constitutional Treaty.

European Court of Justice

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list those decisions of the European Court of Justice where the court have found an item of European Community legislation to be in breach of the principles of subsidiarity and proportionality; and if he will make a statement. [3275]

Mr. Douglas Alexander *[holding answer 13 June 2005]:* The European Court of Justice has not ruled that an item of European Community legislation is in breach of the principle of subsidiarity although arguments based on the principle have been advanced as the basis for striking down Community legislation in a number of cases, notably in C376/98 Germany *v.* European Parliament and Council [2000] European Court Report I–8419.

There have however been many cases over the years where the Court has been presented with legal arguments on the principle of proportionality. The Court's website provides a list of officially reported cases which refer to the principle. Some of these references are to summaries of the parties' pleadings; some are in opinions of the Advocates General; and some are in judgments of the Court. Because of the number of references to the principle of proportionality, I am unable to provide a comprehensive analysis of the instances in which the Court has struck down Community legislation on this basis due to the disproportionate cost that would be involved. The list can be found at:

http://curia.eu.int/jurisp/cgi-bin/form.pl?lang=en&Submit=Submit&docj=docj&docop=docop&numaff=&datefs=&datefe=&nomusuel=&domaine=&mots=%22principle+of+proportionality%22&resmax=100

Alternatively, a list of cases in which the Court dealt with legal questions on the principle of proportionality can be found in the 'Alphabetical Subject Matter' section of the Court's website (www.curia.eu.int) under 'Principes generaux du droit communautaire'. The case references are under the heading 'Proportionnalité'. This section is only available in French.

European External Action Service

Mr. Heathcoat-Amory: To ask the Secretary of State for Foreign and Commonwealth Affairs what preparatory work has been carried out in relation to the European External Action Service. [2674]

Mr. Douglas Alexander: The preparatory work on the European External Action Service, as tasked by the October Intergovernmental Conference and the December European Council, has consisted of official level discussions and an "issues paper" presented jointly by High Representative Solana and Commission President Barrosso. Discussions are at an early stage and no conclusions have been reached. The Commission and Council Secretariat have written a joint progress report on the official level discussion which the Government have placed in the Library of the House.

Falkland Islands (Fish Stocks)

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to help maintain fish stocks in the seas surrounding the Falkland Islands. [2958]

Mr. Douglas Alexander: The Falkland Islands Government are responsible for the management and conservation offish stocks in the Falkland Islands Conservation Zones. Falkland Islands' fisheries legislation and policies establish a precautionary approach to the conservation, management and exploitation of fish stocks in Falklands' waters. A new draft Bill on Fisheries Conservation and Management, which is currently under consideration in the islands, contains provisions to strengthen this further. In parallel, the Falkland Islands Government operate an effective fisheries surveillance and enforcement regime to counter illegal fishing activities which represent a continuing threat to the conservation offish stocks in this region.

The UK Government take part in the South Atlantic Fisheries Commission, a bilateral body established by the UK and Argentine Governments to address the conservation of straddling and migratory fish stocks in the South West Atlantic, and which provides a mechanism for scientific co-operation aimed at conserving the principal fish species straddling Argentine and Falklands waters. The Commission meets biannually.

Foreign State Awards

Paul Flynn: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he will change the policy which prevents British citizens accepting and wearing foreign state awards; and if he will make a statement about the offer by the Malaysian Government to award the Pingat Jasa Malaysia medal to British citizens who served between 1957 and 1966. [4557]

Mr. Straw: The question of seeking permission for the Pingat Jasa Malaysia Medal to be accepted and worn by British citizens was raised formally by the Malaysian authorities in March, when their Deputy Prime Minister spoke to me about it. We have subsequently received more details about the proposal from the Malaysian High Commission.

In the light of the Malaysian Government's request to present the Pingat Jasa Malaysia medal to British Citizens, I have asked for certain principles of the Government's rules governing the accepting and wearing of foreign awards to be reviewed.

G8 Summit

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs which countries have requested the deployment of armed service personnel on United Kingdom soil to guard *(a)* the G8 summit and *(b)* Prestwick Airport. [4004]

Mr. Straw: The diplomatic mission of the country concerned makes requests for the protection of VIPs visiting the United Kingdom to the Foreign and Commonwealth Office. Where it is agreed that protection is appropriate, the Police Service provides that protection. For obvious reasons of security, details of requests submitted on protection provided are not made public.

Guantanamo Bay

Mr. Pope: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the United States Administration on inappropriate treatment of the Koran at Guantanamo Bay. [3080]

Dr. Howells: We have expressed our concern to the US authorities about the conditions of detention at Guantanamo Bay on many occasions. British officials conducting welfare visits to the British detainees checked that the detainees' religious requirements were met.

We understand that detainees are given copies of the Koran, prayer mats and Halal food, and that prayer calls are made throughout the Camp.

Iraq

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Iraqi Government to urge them to sign up to the Ottawa Convention; and if he will make a statement. [3111]

Mr. Straw: The United Kingdom is strongly committed to the Ottawa Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction (the "Mine Ban Treaty"). The UK was among the first states to sign and ratify the Convention, which entered into force on 1 March 1999, and is proud

of its record with respect to implementation of the Convention. To be fully effective, the ban on anti-personnel landmines must be universal. The United Kingdom urges all states that have not signed the Convention to do so as soon as possible.

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the state of the environment in Iraq, with particular reference to *(a)* oil pollution, *(b)* looted nuclear compounds and *(c)* chemical pollution. [3126]

Dr. Howells: We welcome the appointment, in May 2005, of Narmin Othman as the new Minister of the Environment for Iraq. The Ministry was created under the Coalition Provisional Authority in 2003. Iraq faces many environmental challenges following the neglect and abuse inflicted by Saddam Hussein's regime. Getting an up to date Environmental Law on the statute books is an environmental priority.

The UK Government are working closely with the Government of Iraq to develop the principles of good governance in the oil sector. In January and February this year the Tigris was polluted by oil slicks emanating from sabotaged pipelines. Booms were successfully deployed to prevent contamination of drinking water plants along the river. Oil pollution is also evident in the marshland and desert areas around Basra, particularly where saboteurs breached pipelines.

We are aware of reports of people in the area of the Al Tuwaitha nuclear facility having looted drums and containers, emptied low-enriched uranium from them, and taken the containers off to use for water storage. Separate reports of children playing with the uranium powder on the site have also been made, but we have seen no confirmation of these. The site has now been secured, and the radio-active material there returned to safe storage. We are not aware of any further looting taking place, and much of the remaining material was subsequently removed from Iraq by US experts, with the consent of the Iraqi Interim Government and keeping the IAEA informed. Initial indications are that there was little or no immediate radiation sickness evident in the population, but there might well be longer term health risks to people who were exposed to radiation. An inter-agency task force was set up in Baghdad in October 2004 to take forward action on recovering radio-active material that has been taken from the site, and monitor the long-term health of people at risk of exposure to radiation.

We have no information on chemical pollution in Iraq. However, disposal of chemical and hazardous waste is a significant problem. The US embassy estimates that there may be 5,000 chemical waste sites across Iraq which fail basic international environmental standards.

The United Nations Environment Programme (UNEP) has a $5 million programme in Iraq aimed at capacity building and in particular to train staff to assess the extent of environmental hazards. The Department for International Development has contributed £717,000 towards UNEP's work on post-conflict environmental assessment and to support the Environment Ministry.

Laptop Computers

Lynne Featherstone: To ask the Secretary of State for Foreign and Commonwealth Affairs how many laptop computers have been used by *(a)* Ministers, *(b)* special advisers and *(c)* officials in his Department in each year since 1995; how many have been (i) lost and (ii) stolen in that period; what the cost was of the use of laptops in that period; and if he will make a statement. [4121]

Mr. Straw: We do not have a central record of the numbers of laptops issued as budgets have been devolved to overseas post and UK directorates. This information could be provided only at disproportionate cost.

One laptop computer has been centrally reported lost or stolen in the past two years. We do not have earlier records.

Lebanon

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the results achieved by Hezbollah in the recent parliamentary elections in South Lebanon. [3294]

Dr. Howells: The Hizballah-Amal-Future list of candidates took all 23 seats in the elections held in South Lebanon on 5 June. We are looking for all parties, including Hizballah, to comply fully with the requirements of United Security Council Resolution 1559, and call on Hizballah to renounce terrorism and contribute towards regional security by not escalating tensions along the Blue Line.

The three rounds of elections to date, in Beirut, South Lebanon and Mount Lebanon and the Beka'a have passed off without incident.

Overseas Corruption

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library the most recent guidance to UK embassies on overseas bribery. [3909]

Mr. Straw: The latest guidance on foreign bribery to British diplomatic missions is already available in the Library of the House. The Government are in the process of reviewing this and will place the revised guidance in the Library of the House later this year.

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs how many allegations of overseas corruption have been forwarded by UK embassies overseas to London; and how many of these allegations the Department has forwarded to the law enforcement authorities. [3910]

Mr. Straw: The Foreign and Commonwealth Office (FCO) sends to the law enforcement authorities all allegations of overseas corruption where it is reasonable to believe that an offence may have been committed under Part 12 of the Anti-terrorism, Crime and Security Act 2001. Since the Act came into force in February 2002, the FCO has forwarded a total of 18 such allegations, the majority of which originated in reports from overseas missions.

Race Relations (Amendment) Act

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs how many and what percentage of staff in his Department have received training on the general and specific duties of the Race Relations (Amendment) Act 2000, broken down by *(a)* ethnicity and *(b)* grade. [3531]

Mr. Straw: The Foreign and Commonwealth Office's (FCO) Valuing Diversity course includes a section on the Race Relations (Amendment) Act 2000. This course is mandatory for all FCO staff. The course is delivered twice a month. In addition, staff who take on specific roles, for example heads and deputy heads of our overseas posts, and new staff joining the FCO, are briefed on diversity issues including the RR(A)A. Guidance for FCO staff on the RR(A)A is available on the FCO's internal intranet. This guidance includes the FCO's new Race Equality Scheme 2005–08, which is being circulated to all FCO departments and posts, and is available on our website, www.fco.gov.uk

In the 2004–05 financial year, 340 members of staff, 5 per cent. of the total number of UK based FCO staff, attended. This is broken down by grade in Table 1.

Grade	*Numbers attended*	*HCS grade equivalent*
A1	50	AA
A2	56	AO
B3	48	EO
C4	41	HEO
C5	19	SEO
D6	29	Grade 7 (Principal)
D7	8	Grade 6 (Senior Principal)
SMS	23	SCS pay bands 1–4
Unknown	66	

Under the employment duty of the RR(A)A we are required to monitor employment factors such as recruitment and promotion. It has not yet been possible to collect data on staff applying for and attending training courses broken down by ethnicity. However, we are working to establish a mechanism to monitor training using the FCO's information management system, Prism. We have asked the development team for a standard report to be available on Prism which will enable ethnicity data to be taken from staff records for all training courses attended. This report should be available in about four months' time.

Romania

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to visit Romania; and what assessment he has made of the likely timetable for Romania becoming an EU member. [3651]

Mr. Douglas Alexander: My right hon. Friend the Foreign Secretary would like to visit Romania when his diary permits.

Romania signed its Accession Treaty with the EU on 25 April this year and is scheduled to join in January 2007 provided it fulfils its EU commitments. The Commission will produce a report for the Council of Ministers assessing Romania's progress against its EU obligations in autumn 2005.

Trafficking

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what the UK's position is on the US State Department's citing of *(a)* Kuwait, *(b)* Saudi Arabia, *(c)* the United Arab Emirates and *(d)* Qatar for their responsibility for trafficking; and if he will make a statement. [3097]

Dr. Howells: Human trafficking is a global crime involving many source, transit and destination countries. We welcome the US State Department's 2005 Trafficking in Persons Report for raising awareness of the problem and seeking to promote action to resolve it. The UK is committed to doing all it can to combat trafficking, including working closely with governments around the world. We encourage those governments cited to increase their efforts to eliminate it.

DEFENCE

Absence without Leave

Mr. Moore: To ask the Secretary of State for Defence how many trained personnel have gone absent without leave in each of the services in each of the last five years. [4253]

Mr. Touhig: The number of service personnel[1] who have gone absent without leave in each of the last five years is as follows:

Navy

Calendar year	*Total number reported AWOL (rounded to the nearest 5)*
2000	50
2001	85
2002	90
2003	115
2004	185

Royal Marines

Calendar year	*Total number reported AWOL (rounded to the nearest 5)*
2000	20
2001	15
2002	20
2003	15
2004	22

Figures include trained and untrained strength.

Army

Calendar year	*Total number reported AWOL (rounded to the nearest 5)*
2000	2,725
2001	2,670
2002	2,970
2003	2,825
2004	3,005

RAF

Financial year	*Total number reported AWOL (rounded to the nearest 5)*
2000–01	20
2001–02	15
2002–03	25
2003–04	25
2004–05	40

Recording absence differs between the Naval Service, the Army and the RAF. The Naval Service and the Army record multiple periods of absence by the same person. However, the RAF registers an individual once, regardless of how many times they are absent within a financial year.

Afghanistan

Andrew George: To ask the Secretary of State for Defence how much has been spent by *(a)* the UK and *(b)* other allied countries in support of military and security efforts in Afghanistan since 2002–03. [3637]

Mr. Ingram: The net additional costs of operations in Afghanistan are published each year in the Ministry of Defence's Annual Report and Accounts. Costs for financial year 2002–03 were £311 million and for 2003–04 £46 million. Costs for financial year 2004–05 will be published in the MOD's next Annual Report and Accounts in the autumn.

Costs incurred by other allied countries are a matter for them.

Darfur

Mr. Amess: To ask the Secretary of State for Defence what role is envisaged for NATO in the Darfur region; and if he will make a statement. [3750]

Mr. Ancram: To ask the Secretary of State for Defence (1) whether it is the Government's policy that coordination of the EU and NATO efforts in Darfur should be done through NATO's military headquarters in Mons, Belgium; [3969]

(2) what resources his Department plans to make available to *(a)* the EU and *(b)* NATO for operations in Darfur; [3970]

(3) which European countries have declared resources available to *(a)* the EU and *(b)* NATO for operations in Darfur; [3971]

(4) what form of assistance and support *(a)* NATO and *(b)* the EU plan to offer in order to support the African Union in its mission in Darfur. [3972]

John Reid: The Government continue to support the international community's efforts to support the African Union mission in Darfur, notably through the UN, NATO and the EU. All these organisations have an important and complementary role to play in providing support to the work of the AU. What matters is that this support is provided through the most effective means, is in line with African Union requirements, and respects African ownership, through close co-operation between the supporting bodies.

NATO will support the AU mission through provision of airlift and the training of AU personnel. Individual contributions of airlift under the auspices of NATO will be clarified following a joint NATO/EU Donor Airlift Nation Movement Planning Conference on 15 June. The provision of training will be from within NATO's command structure.

The EU has supported the AU mission since its inception: the European Commission has allocated €92 million and provided logistical and planning support. The EU is now in the process of bringing together a further consolidated offer of assistance to support both the military and police aspects of the AU mission, including provision of equipment and assets, planning and technical assistance, and training. It is supporting the development of a police unit within the AU. Some member states also want to provide their airlift support under EU auspices.

The African Union is leading the operation and managing offers of assistance. There is no operational command and control role for either the EU or NATO. As the EU's support is a co-ordinated civil-military effort, the Government do not believe that it can be co-ordinated using NATO's military headquarters at Mons. However, both organisations are working closely together to co-ordinate their military offers, including through joint support to a single AU co-ordination cell for airlift at Addis Ababa.

On 13 June the Secretary of State for International Development announced that the UK will increase its contribution to the expansion of the AU mission to £19 million. This brings the UK Government's total contribution to the AU mission since its inception to almost £32 million. The Ministry of Defence has contributed to this support, which includes the purchase of vehicles, training for military observers, advice on logistics, and airlift. As part of the support to the expansion of the AU mission, the Ministry of Defence is offering two logistic planners within the EU's support to the AU's Joint Logistic Operation Centre at El Fashir, Sudan; and a mobile air movements team of up to 15 people to NATO if required.

European countries including Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Luxembourg, the Netherlands, Norway, Poland, Portugal, Slovenia, Spain, Sweden, Switzerland and Turkey have all pledged financial assistance and/or declared other resources available for operations in Darfur. Many of these offers are still being finalised and may be made through the EU or NATO depending on the nature of the offer.

EU Defence Co-operation

Ann Winterton: To ask the Secretary of State for Defence whether the Government have *(a)* notified their intentions to the European Council to participate

in the permanent structured co-operation in respect of the most demanding military missions and *(b)* made the commitments on military capabilities set out in the Protocol on permanent structured co-operation. [3253]

John Reid: No. The arrangements for participating in permanent structured co-operation and for making commitments under the Protocol are not yet in force as the Constitutional Treaty has not been ratified.

Nuclear Weapons

Dr. Julian Lewis: To ask the Secretary of State for Defence how much has been spent on preliminary *(a)* studies and *(b)* projects relating to the possible next generation of British nuclear weapons in each of the past four years; and what sums have been earmarked for expenditure in each of the next four years. [2000]

John Reid *[holding answer 8 June 2005]:* Decisions on whether to replace the UK's current nuclear deterrent have not yet been taken. We will continue to take appropriate steps to ensure that the range of options for maintaining a nuclear deterrent capability is kept open until that point, in line with the policy set out in the December 2003 Defence White Paper (Cm 6041–1). This includes sustainment of capabilities at the Atomic Weapons Establishment, Aldermaston. It is not possible precisely to assign costs at Aldermaston between work to support current and possible future deterrent systems. Future spending plans in this area have yet to be finalised.

Territorial Army

Lynne Featherstone: To ask the Secretary of State for Defence what plans he has for the Territorial Army centres in London; and if he will make a statement. [4658]

Mr. Touhig: The Territorial Army is currently being rebalanced to align with the changes to the Regular Army under the Future Army Structures work. We do not anticipate that this will result in significant change to the existing Territorial Army Estate, including in London.

Unmanned Aerial Vehicles

Mr. Hancock: To ask the Secretary of State for Defence what plans the Royal Navy has for the use of unmanned aerial vehicles at sea; what the budget level of expenditure on such vehicles over the next 10 years is; and if he will make a statement. [2352]

Mr. Ingram: There are currently no funded plans to provide military capabilities using unmanned aerial vehicles at sea. Current work is focused on experimentation under the Joint UAV Experimentation Programme (JUEP) to inform the development of user requirements and possible future programmes, including maritime applications. For example, in March 2005 successful trials were conducted at Benbecula, Scotland, in which a UAV was launched and recovered from land but controlled in flight by a Royal Navy warship. We aim to build on this work.

TREASURY

Air Passenger Duty

Norman Baker: To ask the Chancellor of the Exchequer for what reasons passengers using transit flights are exempt from air passenger duty; and if he will assess the environmental effects of this exemption. [4474]

John Healey: Not all transit flights are exempt from air passenger duty and in order to qualify specific criteria must be met. These are set out in HM Revenue and Customs' Public Notice 551, which can be obtained from the Revenue and Customs website at www.hmrc.gov.uk.

Exempting connecting flights ensures that passengers are not taxed twice for a journey simply because they have to make a connecting flight.

The Chancellor keeps under review the structure of all taxes, including the environmental, social and economic effects of exemptions.

Mr. Evans: To ask the Chancellor of the Exchequer how much money was raised in air passenger duty in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003 and *(e)* 2004. [4186]

John Healey: The amount of Air Passenger Duty received in each of the last five years was:

	£ million
2000	931
2001	834
2002	809
2003	778
2004	856

These figures are published online in the HMRC Air Passenger Duty Bulletin at www.uktradeinfo.com.

Breast Cancer

Mr. Lansley: To ask the Chancellor of the Exchequer what the *(a)* incidence of and *(b)* mortality rate from breast cancer in women under 40 years has been in each year since 1975. [3352]

John Healey: The information requested falls with the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Andrew Lansley, dated 14 June 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what the *(a)* incidence of and *(b)* mortality rate from breast cancer in women under 40 years has been in each year since 1975. I am replying in his absence. (3352)

The most recent available incidence figures are for the year 2002 and the most recent mortality figures are for the year 2004. Age-standardised incidence and mortality rates (directly standardised to the European standard population) for breast cancer in women aged under 40 in England, for each available year since 1975 are given in the attached table.

Directly age-standardised incidence and mortality rates[1] of breast[2] cancer in women aged under 40 in England, 1975–2004[3]

	Incidence	Mortality
1975	9.4	3.1
1976	9.5	2.7
1977	9.9	2.9
1978	9.9	3.1
1979	9.0	2.9
1980	9.3	2.8
1981	9.7	3.0
1982	9.8	2.9
1983	9.9	2.9
1984	9.8	3.0
1985	10.3	2.8
1986	11.2	2.9
1987	11.0	2.8
1988	10.5	2.9
1989	11.4	3.1
1990	10.8	2.7
1991	11.2	2.4
1992	12.0	2.6
1993	11.5	2.4
1994	11.9	2.7
1995	11.9	2.4
1996	12.2	2.4
1997	12.0	2.5
1998	12.7	2.3
1999	12.9	2.2
2000	12.1	2.4
2001	12.0	2.2
2002	12.0	2.1
2003	n/a	2.0
2004	n/a	1.8

[1] Age-standardised rates per 100,000 population are directly standardised to the European standard population. In detailed analyses of trends in incidence and mortality over time for a particular cancer, ONS use age-standardised rates. These control for differences in the size and age structure of the population and allow unbiased comparison of rates over time.

[2] From 1975 to 1978, International Classification of Diseases, Eight Revision (ICD-8) code 174; from 1992 to 1994, International Classification of Diseases, Ninth Revision (ICD-9) code 174; from 1995 to 2001, International Classification of Diseases, Tenth Revision (ICD-10) code C50.

[3] The mortality rate for 2004 is provisional: derived from deaths registered in the calendar year (rather than deaths occurring in the calendar year) and the rate is based on the mid-year populations for 2003 (as those for 2004 were not available).

n/a = not available

Office for National Statistics

Council tax

Mrs. Spelman: To ask the Chancellor of the Exchequer what the forecast revenue is from council tax in England in *(a)* 2004–05 and *(b)* 2005–06. [4619]

John Healey: Net council tax income for England as budgeted for 2004–05 was £17,552 million. Final outturn figures for that year will be published by the Office of the Deputy Prime Minister on 23 June. Net council tax income as budgeted for 2005–06 will be published in November in Local Government Finance Statistics No 16 : 2005.

Emigration

John Hemming: To ask the Chancellor of the Exchequer pursuant to the answer of 25 May 2005, *Official Report*, column 147W, on emigration, how many UK citizens have emigrated from the UK in each year since 1990. [4182]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl to Mr. John Hemming, dated 14 June 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question regarding the number of UK citizens emigrating from the United Kingdom in each year since 1990.I am replying in his absence. (4182)

Estimates of UK citizens emigrating from the UK from 1991 to 2003 are shown in the attached table. The figures are derived from the most comprehensive estimate of migration produced by the Office for National Statistics, Total International Migration (TIM), which is based on a number of sources.

TIM estimates using the current methodology are only available from 1991 onwards. The latest estimates, for 2003, were published in the annual reference volume International Migration, Series MN no. 30, on the National Statistics website at the link below on 28th April 2005. Note that Table 2.1 in this volume shows a time series of TIM from 1994 to 2003 by various groupings of citizenship for the UK, and for England and Wales: http://www.statistics.gov.uk/STATBASE/Productasp?vlnk = 507

Total international migration[1]: 1991 to 2003 British Citizenship[2]

United Kingdom (thousand)

	Inflow (immigration to the UK)	Outflow (emigration from the UK)	Balance
1991	109.4	154.4	-45.0
1992	92.6	155.1	-62.5
1993	85.9	148.7	-62.7
1994	108.3	125.1	-16.8
1995	83.9	135.5	-51.6
1996	93.6	155.7	-62.1
1997	88.9	148.7	-59.8
1998	103.1	125.8	-22.7
1999	116.4	139.2	-22.8
2000	104.1	161.1	-57.0
2001	106.3	159.2	-53.0
2002	94.6	185.7	-91.1
2003	105.8	190.9	-85.2

[1] Data for 1991–03 are based mainly on data from the International Passenger Survey. Includes adjustments for (1) those whose intended length of stay changes so that their migrant status changes; (2) asylum seekers and their dependants not identified by the IPS; and (3) flows between the UK and the Republic of Ireland.

[2] Citizenship is defined as the nationality of the passport that the traveller is carrying. The British Nationality Act 1981, which came into force on 1st January 1983, replaced citizenship of the United Kingdom and Colonies, with British citizenship, British Overseas citizenship, and British Dependent Territories citizenship.

Notes:

+ Denotes a net inflow figure.

- Denotes a net outflow figure.

Source:

From Table 2.1 from the MN Series (latest publication no.30) published at:http://www.statistics.gov.uk/statbase/Product.asp?vlnk = 507&More = N

Euro

Mr. Drew: To ask the Chancellor of the Exchequer what contingency plans his Department has put in place in the event that countries in the euro zone decide to leave the currency. [4255]

Mr. Ivan Lewis: The terms of membership of the single currency for member states without a derogation are set out in Article 4 and Articles 116 through to 124

of the treaty establishing the European Community. The Government's policy on UK membership of the single currency was set out by the Chancellor in his statement to the House of Commons in October 1997.

Government Spending

Mr. Walker: To ask the Chancellor of the Exchequer how much central Government money was spent in the most recent year for which figures are available per head of population in each of the English regions; and if he will make a statement. [3216]

Mr. Des Browne: Information on central Government and public corporations' identifiable spending per country and region per head is set out in table 8.16 of the HM Treasury and Office of National Statistics publication, "Public Expenditure Statistical Analyses 2005", April 2005 (Cm 6521). This provides outturn data for 2003–04, the most recent year for which figures are available, and plans for 2004–05.

House prices

Dr. Cable: To ask the Chancellor of the Exchequer what estimate he has made of the long-run equilibrium, or sustainable, house price to earnings ratio; and if he will make a statement. [4534]

John Healey: A discussion regarding the long-run house price to earnings ratio can be found in paragraph A76 of the 2004 pre-Budget report (Cm 6408). This included the statement that,

> "The consensus view is that house prices exceed sustainable levels, though there is a wide range of opinion on the extent of disequilibrium. However, the common method of assessing this by comparing the current ratio of house prices to earnings (or some wider measure of income) with its long-run average can be highly misleading. There is no economic law to dictate that this ratio must revert to some constant level over the long term."

Inheritance Tax/Stamp Duty

Mr. Hands: To ask the Chancellor of the Exchequer how much was raised through *(a)* inheritance tax and *(b)* stamp duty in Hammersmith and Fulham in (i) 1997, (ii) 2001 and (iii) 2004. [3421]

Mr. Ivan Lewis: No information is available at the local authority level for inheritance tax.

It is not possible to give stamp duty on land and property at this level for either 1997–98 or 2001–02. Estimates of UK stamp duty land tax for 2004–05 will be published in September.

Laptop Computers

Lynne Featherstone: To ask the Chancellor of the Exchequer how many laptop computers have been used by *(a)* Ministers, *(b)* special advisers and *(c)* officials in his Department in each year since 1995; how many have been (i) lost and (ii) stolen in that period; what the cost of the use of laptops in that period was; and if he will make a statement. [4115]

John Healey: Current Treasury records simply assign ownership of laptops and other small equipment to Budget centres within the Department, and so a distinction between *(a)*, *(b)* and *(c)* is not made.

	Laptops	*Cost (£)*	*Stolen*
2003	107	130,107	9
2004	83	94,727	4
2005 (part)	64	61,931	1

Details for 1995–02 can be found in the answer given on 3 March 2003, *Official Report*, column 838W by the Financial Secretary to the Treasury to the hon. Member for Twickenham.

The totals above indicate acquisitions and do not reflect the actual number in use, which is affected by occasional stock holding and by old equipment being replaced with newer models. At present the number of laptops supported is about 500.

All recorded losses of laptops have been due to theft.

Partnerships UK

Mr. Kidney: To ask the Chancellor of the Exchequer what assessment he has made of the performance of Partnerships UK in developing templates for private finance initiative and public-private partnership agreements. [3747]

John Healey: Partnerships UK (PUK) supports the Government's delivery of value for money PFI projects, including work on developing national procurement vehicles for key programmes such as Partnerships for Schools, and helping the Government standardise the legal documentation involved in PFI procurements.

PUK has worked closely with the Treasury and other Government Departments in the production and enforcement of the standardised contract for PFI agreements and in developing sector specific contracts. Through its help-line, PUK has provided a valuable support function for procuring authorities across the UK in negotiating standardised contracts and PFI project agreements. The work PUK does to support the enforcement of standardised contracts is important in delivering benefits to the public sector in terms of reduced procurement costs and procurement timescales.

The PUK Advisory Council reports annually on how PUK is fulfilling its public sector mission. A copy of the latest report is available on the Treasury website.

Personal Saving

Mr. Walker: To ask the Chancellor of the Exchequer what steps he is taking to increase levels of personal saving in the UK; and if he will make a statement. [3204]

Mr. Ivan Lewis: The Government's policies provide over £2 billion every year in tax relief on savings through individual savings accounts (ISAs) and other forms of personal saving incentives. In addition, the Government deliver fiscal support for retirement saving worth more than £11 billion this year.

As well as ISAs, the Government introduced the Child Trust Fund in April to ensure assets for all children, regardless of family background, strengthen financial education and promote positive attitudes to saving. At the same time, the Government introduced a new suite of Stakeholder saving and investment products, which are simple and risk-controlled, with a

charge cap to protect consumers from high charges. In addition to tax relief, the Government are using the Saving Gateway to explore how matching can help promote saving among those who do not usually save.

For retirement saving, the Government are delivering pension tax simplification which, in April 2006, will sweep away the many separate regimes and replace them with only one. This radical reform which gives greater flexibility to individuals is supported by the Informed Choice programme which will mean that individuals are better able to understand and appreciate the value of their pensions savings.

Property and Pensions

Adam Price: To ask the Chancellor of the Exchequer what estimate he has made of the likely effects on tax revenue of the new rules on residential property and personal pension plans to be introduced in April 2006. [3089]

Mr. Ivan Lewis: Pension tax simplification replaces the numerous existing tax regimes with a universal regime for tax-privileged pension savings providing greater flexibility to some 15 million pension savers.

Currently most pension funds may invest in residential property, and many do. Under the new simplified regime small self-administered schemes (SSASs) and self-invested personal pensions (SIPPs) may invest in residential property from 6 April 2006. Around 200,000 people, compared to over 15 million pension scheme members, hold these specialist pension vehicles. Creating a single set of allowable investments across all pension schemes fits the requirement to create a single regime for tax privileged pension saving and corrects an existing distortion by giving investors greater choice.

The regulatory impact assessment (RIA) "Simplifying the Taxation of Pensions" published in April 2004, which can be found at http://www.hmrc.gov.uk/ria/simplifying-pensions.pdf set out an assessment of the potential impact of the whole pensions simplification package, including the changes to the lifetime allowance and ages at which pensions can be taken, together with allowing residential property into SIPPs and SSASs. These elements cannot easily be separated and therefore the RIA estimates the overall cost of the pensions simplification package to the Exchequer at around £¼ billion within four years. Paragraphs 55 and 56 deal specifically with the potential consequences of allowing residential property into SIPPs and SSASs.

The Government will keep this aspect of the tax system, as with all others, under review.

Public sector pensions

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer what the net public sector pensions liability is estimated to be over the next 10 years based on the current retirement age. [3667]

Mr. Des Browne: The total liabilities of unfunded public service pension schemes as at 31 March 2004 were estimated to be £460 billion. This is a gross figure, as unfunded public service pension schemes do not hold assets to offset the liability. We do not hold information on a comparable basis projecting these aggregated liabilities to 2015.

Projected figures for the in year accrual of liabilities for the main unfunded pension schemes to 2007–08, based on the current normal pension age, are published in the Public Expenditure Statistical Analyses 2005.

The net liabilities of funded pension schemes in the wider public sector to 2015 will be dependent on the performance of the individual pension funds. Central Government does not hold comprehensive information on, or estimates of the future performance of, these individual funds.

Tax Credits

Dr. Cable: To ask the Chancellor of the Exchequer what research his Department has *(a)* undertaken, *(b)* commissioned and *(c)* reviewed on the effectiveness of research and development (R and D) tax credits in stimulating additional (R and D) activity in the UK. [4060]

John Healey: The effectiveness of fiscal incentives for R and D was fully considered in the development of the UK's R and D tax credit system. The Government has committed to a full evaluation of R and D tax credits and, as the first stage, has commissioned a survey of R and D companies to examine awareness and use of R and D tax credits and to assess any early effects on business R and D.

The Government will continue to monitor the wide range of economic and international evidence on R and D fiscal incentives to assess and inform improvements to the UK's R and D tax credits. Further research will also be commissioned as part of the evaluation programme.

National Statistics on the number of claims and amount of support claimed through the SME R and D tax credit are published on the HM Revenue and Customs website: http://www.hmrc.gov.uk/stats/corporate_tax/randdtcmenu.htm

Mr. Jenkins: To ask the Chancellor of the Exchequer how many non-pensioner families in Tamworth have been recipients of tax credits in each of the last three years; and how many have been identified as having received overpayments. [3327]

Mr. Ivan Lewis: I refer my hon. Friend to my reply to my hon. Friend the Member for Birmingham, Selly Oak (Lynne Jones) on 7 June 2005, *Official Report*, column 468W.

Small Businesses (London)

Sarah Teather: To ask the Chancellor of the Exchequer (1) how many small businesses were registered for VAT in *(a)* Brent East and *(b)* each London borough in each year since 1997; [2507]

(2) how many new VAT registrations of small companies there were in *(a)* Brent East and *(b)* each London borough in each year since 1997. [2508]

John Healey: HM Revenue and Customs does not collect data on the number of VAT registered businesses or new VAT registrations of small companies by geographic area. However, information on the number

of enterprises registered for VAT at the start of each year, and newly registered for VAT, is available via the Small Business Service website at www.sbs.gov.uk. This can be used to give an indication of the size of the business population within London. Table 1 shows the number of VAT registered small businesses and Table 2 shows the number of new VAT registrations, in London since 1997.

Table 1: Number of VAT registered small businesses in London

	1997	1998	1999	2000	2001	2002	2003

Stamp Duty

Mr. Walker: To ask the Chancellor of the Exchequer what research he has conducted into the impact that higher rates of stamp duty on domestic property have on workforce mobility; and if he will make a statement. [3199]

Mr. Ivan Lewis: The Government keep all taxes under review.

Tax Levels

Mr. Walker: To ask the Chancellor of the Exchequer what plans he has to reduce levels of tax paid by low and middle income earners; and if he will make a statement. [3200]

Mr. Ivan Lewis: The Government keep all taxes under review; announcements about taxation are made within the Budget cycle.

The Government are keen to use targeted measures to ensure that help goes to those that need it most.

Personal tax and benefit measures introduced since 1997 mean that by October 2005 a single earner family on male average earnings and with two children will be £205 a year better off in real terms and the same family on half male average earnings will be £3,700 a year better off in real terms.

Mr. Walker: To ask the Chancellor of the Exchequer what assessment he has made of levels of taxation applied to property in *(a)* the UK, *(b)* continental Europe and *(c)* USA; and if he will make a statement. [3203]

Mr. Ivan Lewis: Measures introduced in Budget 2005 mean that 89 per cent. of property transactions pay either no or 1 per cent. stamp duty land tax and the vast majority—currently around 94 per cent—of estates will continue to pay no inheritance tax. The Government have also stated that gains arising on disposal of a principal private residence will continue to be exempt from capital gains tax.

International comparisons of taxes for each sector of the economy using published data (for example from the OECD) can be misleading, because similar taxes in two countries may be classified as falling on different bases. However the level of property taxation has remained broadly constant in the UK, EU15 and the USA since the 1960s.

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer how many and what percentage of taxpayers in *(a)* Lancashire and *(b)* the UK paid tax at the (i) basic rate and (ii) higher rate in (A) 1992, (B) 1997, (C) 2001 and (D) the latest year for which figures are available. [3399]

Mr. Ivan Lewis: Information on the estimated number of income taxpayers in the UK for the years since 1992–93 is available in table 2.1 'Number of individual income taxpayers' on the HM Revenue and Customs internet website http://www.hmrc.gov.uk/stats/income_tax/table2-1.pdf.

Similar information on the estimated number of income taxpayers in Lancashire for the years 1992–93 and 1997–98 is not available.

Information on the number of number and percentage of taxpayers in Lancashire in 2001–02 and 2002–03 (the latest year for which figures are available) is provided in the following table.

	2001–02	*2002–03*
Basic rate		
Number (thousands)	424	436
Percentage	77.4	77.4
Higher rate		
Number (thousands)	44	44
Percentage	8.0	7.8
All taxpayers		
Number (thousands)	548	563
Percentage	100	100

The all taxpayers figures include all those paying tax at the starting rate, savers rate, basic rate and higher rate.

The income tax information is based upon the Survey of Personal Incomes (SPI).

Tax System (1997)

Mr. Laws: To ask the Chancellor of the Exchequer if he will list the disincentives to work that existed within the tax system in 1997. [3150]

Mr. Ivan Lewis: The work incentive problems that existed in 1997 were analysed in "Work Incentives: A Report by Martin Taylor", the second paper in HM Treasury's reports on modernising the tax and benefit system. The report is available at: http://www.hm-treasury.gov.uk/media/2BF/88/taylor.pdf

Taxation

Mr. Amess: To ask the Chancellor of the Exchequer what assessment he has made of the effect of the level of taxation on the state of the economy. [3751]

John Healey: The Government's macro-economic framework has consistently delivered stability with strong growth and low inflation, thus establishing a track record that has been internationally acknowledged. The Government's approach to taxation balances the need to finance better quality public services, deliver fairness and promote sustainable development while ensuring that the UK benefits from the advantages of being a lightly taxed economy.

Teenage Pregnancies

Tim Loughton: To ask the Chancellor of the Exchequer how many teenage pregnancies there were in each of the last 10 years, broken down by year group. [4638]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl to Mr. Tim Loughton, dated 14 June 2005:

The National Statistician has been asked to reply to your recent question asking how many teenage pregnancies there were in each of the last 10 years, broken down by year group. I am replying in his absence. (4638)

The most recent year for which conception statistics are available is 2003 and figures for this year are provisional estimates. The data requested are given in the table below.

Conceptions to women aged under 18, England, 1994 to 2003

	Number
1994	33,794
1995	35,371
1996	40,558
1997	40,463
1998	41,089
1999	39,247
2000	38,699
2001	38,461
2002	39,350
2003[1]	39,571

[1] Provisional estimates.

Telephone use

Dr. Cable: To ask the Chancellor of the Exchequer if he will set out the Department's policy on the private use of official telephones and how it is monitored. [4529]

John Healey: Treasury staff are allowed to make reasonable private use of the Department's official telephones.

Calls are not monitored. If misuse is suspected, then the destination of all calls placed can be recorded.

Trade Union Learning Representatives

Mr. Jenkins: To ask the Chancellor of the Exchequer how many trade union learning representatives there are in his Department. [3314]

John Healey: The Treasury does not have any trade union learning representatives, as the trade unions have not yet approached the Department on this issue or nominated anyone for the role.

VAT

Mr. Michael Foster: To ask the Chancellor of the Exchequer if he will estimate the amount of irrecoverable VAT incurred by *(a)* sixth form colleges and *(b)* further education colleges in each of the last 10 financial years. [4519]

Mr. Ivan Lewis: HM Revenue and Customs does not hold data about the level of irrecoverable VAT incurred by sixth form and further education colleges. However VAT incurred by sixth form and further education colleges is included in the funding they receive from central Government.

Mr. Michael Foster: To ask the Chancellor of the Exchequer how many *(a)* sixth form colleges and *(b)* further education colleges are registered for VAT purposes. [4523]

Mr. Ivan Lewis: HM Revenue and Customs do not collect data on the number of sixth form and further education colleges registered for VAT. HM Revenue and Customs do hold information on the number of VAT registered traders in the education sector and sub-sectors which is shown in the table.

The number of VAT registered traders within the education sector as at June 2005

	Number
1. Primary Education	
Primary education	71
2. Secondary Education	
General secondary education	215
Technical and vocational education	611
3. Higher Education

Driving schools	409
Activities of private training providers	8,077
Other adult and other education not elsewhere classified	1,890
Total	11,756

Venture Capital Sector

Mr. Walker: To ask the Chancellor of the Exchequer what measures he is taking to promote the venture capital sector in the UK; and if he will make a statement. [3192]

John Healey: The UK's private equity and venture capital industry is the largest in Europe, and the second largest in the world after the United States. The Government have delivered macro-economic stability that allows investors in venture capital to invest with confidence, and a low-tax environment, including an effective Capital Gains Tax rate of 10 per cent. on business assets held for at least two years, which allows them to keep more of the reward from successful investments.

The Government also make a number of direct interventions in the venture capital markets to support finance-raising by small companies affected by the equity gap, including Regional Venture Capital Funds and Venture Capital Trusts and the Enterprise Investment Scheme. A new model of support, Enterprise Capital Funds, will soon be launched by the Small Business Service, which will partner public and private money to invest in small businesses seeking venture capital.

Young People (Yorkshire)

David Davis: To ask the Chancellor of the Exchequer how many young people in the East Riding of Yorkshire were not working, studying or in training in *(a)* 2003 and *(b)* 2004. [3583]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl to Mr. David Davis, dated 14 June 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question about young people in the East Riding of Yorkshire. I am replying in his absence. (3583).

The numbers of people aged 16 to 24 not in employment, or in full-time education or government training, resident in the East Riding of Yorkshire for the 12 months ending February 2003 and 2004 are estimated at 4,000 and 3,000 respectively.

These estimates are based on annual local area Labour Force Survey data which, as with any statistical sample survey, is subject to sampling variability.

EDUCATION AND SKILLS

ADHD

Tim Loughton: To ask the Secretary of State for Education and Skills what steps the new behaviour task force will take in dealing with pupils suffering from attention deficit hyperactivity disorder. [4652]

Jacqui Smith: The Leadership Group on Behaviour and Discipline has been asked to advise on how effective school discipline reaches the classroom, how to improve parental responsibility for behaviour and deliver a culture of respect in all schools. It will be for the Group to decide how far issues relating specifically to attention deficit hyperactivity disorder relate to that overall remit.

Adult Education Budget/Funding

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the budget allocation for adult education was in each year between 1997 and 2004. [3056]

Bill Rammell: The Department allocates funds for education and training in the post-16 learning and skills sector to the Learning and Skills Council (LSC). The LSC was established in 2001 bringing the planning and funding of post-16 education together under one body. In 2001–02 the Learning and Skills Council spent £2,236 million on adult programmes including FE, Work Based Learning, Adult and Community Learning and other programmes. This increased to £2,427 million in 2002–03 and to £2,866 million in 2003–04. These figures are available in the LSC's published accounts. Figures for adult education for the period 1997–01 are not comparable as the budget was split between a range of different organisations. The Departmental Annual Report sets out total expenditure on Further Education, Adult Training and Skills and Lifelong Learning for this period.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills if she will safeguard central funding for adult education for 2005 to 2009. [4211]

Bill Rammell: The Department allocates funds for education and training in the post-16 learning and skills sector to the Learning and Skills Council (LSC). In the Department's Grant Letter of 15 November 2004, the LSC was allocated £6.7 billion in 2005–06, £6.8 billion in 2006–07 and £7.1 billion in 2007–08 for learning participation, which includes funding for adult education. For the year 2008–09, allocations will be determined by the Spending Review 2006 outcome.

The Government are committed to safeguarding the availability of a wide range of learning for personal and community development (previously termed adult and community learning). The DfES and the LSC will agree each year an overall indicative budget based on the broad proportion of LSC funds currently spent on this type of learning.

Adult Illiteracy/Innumeracy

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the level of adult *(a)* illiteracy and *(b)* innumeracy in England was in each year between 1994 and 2004. [3054]

Phil Hope: The Department for Education and Skills (DfES) does not collect annual data on levels of adult literacy and numeracy. However, to inform our planning and delivery in this key policy area, in October 2003 the Department published the "Skills for Live Survey: A national needs and impact survey of literacy, numeracy and ICT skills" (DfES, October 2003).

The survey assessed the literacy, numeracy and ICT skills of around 8,000 adults aged 16 and above in England. The findings are shown in the following tables. The assessment levels correspond to the new literacy and numeracy core curriculum and National Standards: Level 1 is broadly equivalent to a lower grade GCSE (grade D-G) and Level 2 to a higher grade GCSE (A*-C). Overall around 16 per cent. of adults had literacy skills below Level 1 and 47 per cent. had numeracy skills below this level.

Overall literacy—Base: all respondents with literacy level (7874)

	Percentage of 16 to 65-year-olds	*Number of 16 to 65-year-olds (million)*
Entry level 1 or below	3	1.1
Entry level 2	2	0.6
Entry level 3	11	3.5
(All Entry level or below)	(16)	(5.2)
Level 1	40	12.6
Level 2 or above	44	14.1
	100	*31.9*

A copy of the survey report is in the House of Commons Library and on the DfES website: www.dfes.gov.uk

Afro-Caribbean Pupils

Keith Vaz: To ask the Secretary of State for Education and Skills (1) what steps the Government have taken to improve the performance of Afro-Caribbean boys at schools; [3901]

(2) what assessment she has made of the performance of Afro-Caribbean boys against the national average performance for each age group. [3902]

Jacqui Smith: This Government are fully committed to improving the performance of African-Caribbean boys in our schools and narrowing achievement gaps for all underachieving minority ethnic pupils.

Following the Aiming High: Raising the Achievement of Minority Ethnic Pupils consultation, the Government announced a national strategy in

November 2003. The strategy aims to: focus mainstream school improvement programmes and targeted activity on identifying and addressing underachievement; increasing accountability, including through the publication of achievement data; and supporting the school workforce to be able to meet the needs of minority ethnic pupils more effectively.

The strategy included a pilot national project focused on raising the achievement of African-Caribbean young people, and boys in particular. This project was developed following detailed assessment of performance data for African-Caribbean pupils. The experience of delivering this project is currently informing the roll out of a national programme to support black pupils in all our schools across both primary and secondary education.

More widely my officials routinely use data, including ethnicity data, to support the development of policy and initiatives. In order to ensure that parents and other interested parties are kept informed of our progress in narrowing achievement gaps, my Department publishes the ethnicity performance data on an annual basis. The latest data is available at http://www.dfes.gov.uk/rsgateway/DB/SFR/s000564/index.shtmln and analysis of the 2003 data at

http://dfes.gov.uk/rsgateway/DB/SFR/s000448/NPD_sfr_text_Finished3.pdf

A-levels

Mr. Hoban: To ask the Secretary of State for Education and Skills when she expects individual module marks of A-level students to be made available to universities. [3853]

Jacqui Smith: UCAS and the Joint Council for Qualifications have agreed that individual unit grades will be made available to those institutions which wish to receive them from 2007 entry onwards. There will be a pilot for 2006 entry, although the extent of and participation in that pilot has yet to be determined.

Mr. Hoban: To ask the Secretary of State for Education and Skills what representations her Department has received on making individual module marks of A-level students available to universities. [3854]

Jacqui Smith: We have received representations from a number of Higher Education Institutions (HEIs) seeking more information about students' performance. Following a consultation with HEIs, UCAS will be making available individual unit grades to those institutions which wish to receive them from 2007 onwards. There will be a pilot for 2006 entry.

Apprenticeships

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what plans she has to remove the age limit on modern apprenticeships. [4212]

Phil Hope: The Department for Education and Skills has already changed the rules so that young people who start their apprenticeship at any point up to their 25th birthday can complete it. Beyond that, the Department is currently trialling apprenticeships for adult entry in three sectors: engineering, construction and health and social care. These trials are due to complete in March 2006 a decision will be made in the light of these trials whether apprenticeship frameworks offer an effective method for older workers to gain qualifications.

Building Schools for the Future

Mr. Hoban: To ask the Secretary of State for Education and Skills how many projects in wave one of Building Schools for the Future used the exemplar building design. [3781]

Jacqui Smith: Wave one authorities have not yet received tenders showing proposed school designs, but the first responses indicating proposed designs are expected later this month. However, authorities will be using exemplar building designs to assist in tender evaluation.

Bullying

Mr. Hoban: To ask the Secretary of State for Education and Skills what guidance her Department has produced to deal with *(a)* bullying of early years pupils and *(b)* bullying issues that arise in the infant age group. [2206]

Jacqui Smith: The Education Act 2002 embeds the Foundation Stage as part of the National Curriculum and supports our aim of giving all children a better start to school life. This will support staff in equipping children in their early years with the key skills they need for their learning journey and will feed through to higher educational attainment, supporting standards and improved behaviour within schools and outside.

In order to meet children's diverse needs, and help all children make the best possible progress, practitioners should provide a safe and supportive learning environment, free from harassment, in which the contribution of all children is valued and where racial, religious, disability and gender stereotypes are challenged.

'Personal, social and emotional development' is part of the Foundation Stage Curriculum. This includes 'developing respect for others, social competence and a positive disposition to learn'. Children learn to understand what is right, what is wrong and why; and to consider the consequences of their words and actions for themselves and others. Guidance to practitioners includes involving children in agreeing codes of behaviour and taking responsibility for their implementation.

To support this the Department has appointed the Institute of Psychology, King's College London to develop a training programme on young children's personal social and emotional development to support the Birth to Three Matters and Curriculum Guidance for the Foundation Stage documents.

The materials will address various aspects of children's personal social and emotional development and its promotion, implications for practice and multi agency-working. The emphasis will be on producing effective, user friendly, quality materials setting out key messages. Through these key messages children will develop respect for others, social competence and a positive disposition to learn.

In June 2005, the DfES is making available to all primary schools curriculum materials to help reduce bullying. They include age related materials for pupils in Foundation Stage, KS1 and KS2, and are part of the Social and Emotional Aspects of Learning (SEAL) curriculum resource.

All primary schools also have access to the DfES anti bullying resource pack for schools 'Don't Suffer in Silence', which provides a number of anti-bullying strategies including co-operative group work, circle time, circle of friends, all of which are suitable for use with infant age children.

Head teachers, staff and learners from various primary schools have been involved in the Make the Difference conferences sharing effective practice from their own schools with others.

We are currently developing advice for schools on Countering Racist Bullying, which will cover issues for all children from foundation stage upwards.

Bursaries

Andrew Rosindell: To ask the Secretary of State for Education and Skills how much the Government have spent on bursaries in each of the last five years. [2927]

Bill Rammell: The total spent on business in England from 2000–01 to 2004–05 is detailed in Table 1. 2004–05 data for Hardship Fund and Opportunity Bursaries will not be available until November 2005. Other Bursaries includes training bursaries for school and FE PGCE students and additional teacher bursaries for continuing professional development (the Professional Bursaries Scheme).

Table 1: Amount of money spent on bursaries 2000–01 to 2004–05

£

	2000–01	2001–02	2002–03	2003–04	2004–05
Hardship and opportunity bursaries	14,822,838	17,230,332	19,568,722	19,125,163	Not available
Other bursaries	77,820,000	136,620,000	137,409,000	154,256,989	156,974,582
Total	92,642,838	153,850,332	156,977,722	173,382,152	Not available

Child Safeguarding Unit

Mr. Pickles: To ask the Secretary of State for Education and Skills (1) how many names of teachers who have been complained against are held by the Department's Child Safeguarding Unit; and in how many such cases the complaint had been dismissed;[3963]

(2) for what purpose a teacher's name is recorded by *(a)* local education authorities and *(b)* the Department's Child Safeguarding Unit where a complaint against that teacher has been dismissed. [3964]

Jacqui Smith: Employers within the education sector are required to provide information to the Children's Safeguarding Operations Unit where they have ceased to use the services of an employee because they are considered unsuitable to work with children; as a result of misconduct; or because of a medical condition that raises the possibility of risk to the safety and welfare of children. Additionally the police notify the Unit of conviction or cautions of employees in the education sector.

The Unit currently holds approximately 15,000 records of individuals who have been referred to my Department in the circumstances referred to above. This includes different types of employee, not just teachers. Some of these referrals will have come about as a result of complaints, but only when those complaints reached the point that an employer ceased to use the services of an employee—complaints that do not lead to dismissal are not referred to my Department. Neither is there a requirement to report cases when a decision to dismiss has been overturned on appeal, but there may be some cases where a report is made to the Unit before a decision to dismiss is overturned. In such cases the Department will consider whether any decision made should be revised in light of the new evidence. The Department does not maintain a breakdown of the number of cases that fall into this category.

The purpose of referral is for the Secretary of State to consider whether the individual's employment should be prohibited or restricted. If so, that individual is added to the list held by the Secretary of State under section 142 of the Education Act 2002 (List 99).

All referral information received is retained to support the decision made by the Secretary of State to include or not include an individual on the list, to demonstrate that each case has been properly considered, and to ensure that any future duplicate referral is not reconsidered.

My Department has not issued guidelines to local education authorities about recording details of teachers who are the subject of complaints.

Classroom Supervisors

John Hemming: To ask the Secretary of State for Education and Skills what proportion of supply teachers' time are estimated will be replaced by classroom supervisors under the proposals in the technical note provided by her Department to the Gershon Review; and how much money is expected to be saved by this change. [3725]

Jacqui Smith: The thrust of the workforce reform agenda—which is supported by school workforce unions and employers, as well as by Government—are to encourage schools to make the most effective use of all their resources. In many cases, using cover staff rather than supply teachers will be the best option—in terms of educational benefit as well as value for money. But deployment will depend on a number of factors, including how much short term absence—much of which is unforeseeable—a school needs to cover.

Education Funding

Mr. Hoban: To ask the Secretary of State for Education and Skills how much funding has been set

aside for high-quality tuition in *(a)* the arts, *(b)* music, *(c)* sport and *(d)* foreign languages for the next three financial years. [4235]

Jacqui Smith: We are investing in major national programmes such as Creative Partnerships—providing a £2.5 million contribution to the larger DCMS funding specifically to run an education team—to support schools to give their pupils the opportunity to experience learning through creativity and working with artists, actors etc. We also support the Artsmark Awards which recognise schools that have made a strong commitment to the arts and have encouraged schools to increase their provision of arts to pupils, thereby raising the profile and quality of arts education across the country

To date, £270 million has gone to LEA Music Services through the Music Standards Fund. The MSF was set up in 1999 to protect music services and to expand music provision outside of the National Curriculum. We now plan to distribute up to a further £210 million during the course of the current spending period, and this includes a planned £30 million increase intended to specifically support Music Services to implement the Ofsted supported Wider Opportunities Music Programme at Key Stage 2. This successful programme was piloted in 13 areas, and consisted of new musical experiences and whole class instrumental tuition.

The Government are investing £978 million in the five years to 2008 to deliver the national PE, School Sport and Club Links strategy. £28 million of the overall budget has been set aside to support the professional development of teachers and other to enhance the quality of PE teaching and learning.

The Secretary of State announced a £115 million "Boost for Modern Foreign Languages" in March 2005, providing support for languages teaching over the next three years. £60 million of that sum will support initial and existing teacher training, and another £14 million will support new approaches for teaching and learning for 11 to 18-year-olds.

EU Students

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what estimate she has made of the number of EU students who have been resident in the UK for more than three years and will be eligible for higher education maintenance support from 2006 as a result of the European Court of Justice judgment in the case R (Bidar) *v* the London borough of Ealing. [3979]

Bill Rammell: It is difficult to estimate precisely the number of EU students that may be eligible for higher education maintenance support because of the uncertainty involved in projecting future numbers of EU students and the limited data available centrally on the number of years people in this group may have been resident in the UK. An EU student will still need to satisfy the requirement of three years residence in the UK prior to the start of his or her course in order to be eligible for maintenance support. Based on the limited data available, we estimate that around 6,000 full time EU students studying in English institutions could in principle be eligible for maintenance support in Academic Year 2006/07 as a result of changes we have made to regulations in the light of the ECJ ruling.

Further Education Funding

Mr. Gordon Prentice: To ask the Secretary of State for Education and Skills how many further education colleges have reported that they expect to be in financial deficit in this financial year; and if she will make a statement. [2743]

Bill Rammell: The latest data that the LSC has collected from further education colleges regarding their 2004–05 financial position is from the 2004–07 financial plans. These financial plans indicate that 78 out of 390 colleges (20 per cent.) were forecasting a financial deficit for 2004–05.

GCSE Music

Mr. Hoban: To ask the Secretary of State for Education and Skills what guidance her Department has issued on the provision of GCSE Music in secondary schools. [4109]

Jacqui Smith: This Government recognises the importance of music in schools both as a subject in its own right and as a means of driving up standards across the curriculum. Music is a statutory requirement for all pupils up to the age of 14. At Key Stage 4 it comes within the statutory entitlement to study arts—schools must provide access to a minimum of one course in the arts—art and design, music, dance, drama or media arts.

The Department has not provided guidance to schools on offering music GCSE, or indeed any other subject. It is for schools to decide what subjects to offer for GCSE in the light of suitable accommodation, facilities and suitably qualified teaching staff; and taking account of demand.

Key Stage Learning

Mr. Hoban: To ask the Secretary of State for Education and Skills if she will make a statement on the actions her Department will take to ensure that children who have not achieved the expected standards of numeracy and literacy at Key Stage 2 receive support at secondary school to achieve these standards; and whether these will include *(a)* curriculum flexibility, *(b)* targeted reading materials and *(c)* increased resources. [3852]

Jacqui Smith: Children who have not achieved the age-related expectations in numeracy and literacy on transfer to secondary school remain a key priority for this Government. The 14–19 White Paper and our recent manifesto set out our actions and proposals for improving the support for and schools' focus on these pupils. These include reviewing the Key Stage 3 curriculum to create more space to help those who have fallen behind; strengthening the support and guidance already provided to secondary schools by the Secondary National Strategy, and extending it to Key Stage 4; and strengthening the Achievement and Attainment Tables to include English and maths in the GCSE 5A* -C measure.

Mr. Hoban: To ask the Secretary of State for Education and Skills what guidance her Department has produced on the range of subjects beyond the core requirements of the national curriculum offered in secondary schools at Key Stage 3 and 4. [4234]

Jacqui Smith: My Department produces guidance materials to support teaching and learning in all the core and foundation subjects of the National Curriculum and other elements of the school curriculum (such as PSHE and RE). In addition, QCA provides guidance on a range of statutory and non-statutory elements of the curriculum, including areas of study outside of the National Curriculum, for example business studies, work-related learning, and economics.

Leadership Group on Behaviour and Discipline

Mr. Hoban: To ask the Secretary of State for Education and Skills (1) whether she expects the report of the Leadership Group on Behaviour and Discipline to be published; and if she will make a statement; [3772]

(2) how much has been allocated for the work of the Leadership Group on Behaviour and Discipline; [3773]

(3) which professional bodies have been invited to *(a)* attend and *(b)* nominate teachers and head teachers to the Leadership Group on Behaviour and Discipline; [3774]

(4) what the *(a)* functions and *(b)* membership of the (i) Leadership Group on Behaviour and Discipline and (ii) Behaviour and Attendance Reference Group are; [3775]

(5) what functions the Leadership Group on Behaviour and Discipline will take over from the Behaviour and Attendance Reference Group; [3776]

(6) whether the Behaviour and Attendance Reference Group will be abolished; [3777]

(7) how much funding the Behaviour and Attendance Reference Group *(a)* received in each year since it was established and *(b)* is projected to receive. [3778]

Jacqui Smith: The Leadership Group on Behaviour and Discipline, announced on 20 May, will advise the Government on how effective school discipline reaches every classroom, how to improve parental responsibility for their children's behaviour and deliver a culture of respect in all schools. Chaired by Sir Alan Steer of the Seven Kings High School in Ilford, the group has a membership of heads and teachers with a proven track record in managing behaviour. Six of these have been nominated by teacher unions and professional associations—ATL, NAHT, NAS/UWT, NUT, PAT and SHA. The Leadership Group is due to report by the end of October to a ministerial group on behaviour and attendance. The Ministerial Group comprises general secretaries of those six organisations, a representative from Unison, Ofsted, local authorities and governors, including a parent governor. The ministerial group's role will be to advise Ministers on the development and implementation of behaviour and attendance policies and to play an active part in promoting and helping to embed the most effective practice in improving behaviour and attendance across all schools. This includes receiving the report of the Leadership Group. I intend to make available the report of the leadership group, once my Ministerial Group has had an opportunity to consider its findings.

With the creation of the two new groups, and pending the report of the leadership group, we have suspended meetings of the Improving Behaviour and Attendance Programme (IBAP) reference group. The IBAP reference group has played a valuable role since its creation in September 2002. Its functions have been to review and help develop strategy, including the effect and practicalities of its implementation; to comment on guidance and other materials that have been made available to schools and LEAs; and to provide a forum for partners to discuss behaviour and attendance issues. Following the decision to suspend its meetings, its overall strategic role and its role as a discussion forum will be taken forward by the new Ministerial Group. No decisions have yet been taken on its future role.

The IBAP reference group did not receive any specific funding, apart from costs of its meetings. It is envisaged that similar arrangements will apply to the two new groups. As the Leadership Group comprises serving heads and teachers, we are providing supply cover costs.

The members of the IBAP reference group are listed as follows.

Learning Edge Partnership Programme

Mr. Hoban: To ask the Secretary of State for Education and Skills pursuant to her Answer of 6 July 2004, *Official Report*, column 340W, on the Leading Edge Schools Programme, what discussions her Department is having on the Leading Edge Partnership Programme; and with whom. [4093]

Jacqui Smith: Discussions have taken place about the future of the Leading Edge Partnership Programme, in the context of the Five Year Strategy commitment to offer leading roles for high performing specialist schools, with a wide range of professionals. The Department has had discussions with, among others, the Specialist Schools Trust, the Youth Sport Trust, the Teacher Training Agency, the Leading Edge Partnership Programme's Steering Group and other interested Head Teachers.

Mobile Phones (Schools)

Mr. Bailey: To ask the Secretary of State for Education and Skills what policies are being developed to stop the bullying with mobile phones known as 'happy slapping' in schools. [4407]

Jacqui Smith: Happy slapping incidents may well be considered violent crimes under existing criminal law legislation, and therefore should be dealt with in the same way as other such incidents. Guidance on dealing with such incidents is available on the teachernet website and further advice to schools on violence reduction is currently being developed.

In terms of bullying by mobile phone, part of the Anti-Bullying Alliance (ABA) remit under the funding provided by the Department is to develop innovative and practical approaches to tackling bullying, including the modern menace of bullying by text messaging. Bullying by text messages on mobile phones is also referred to in our guidance pack for schools 'Don't suffer in Silence'.

Mr. Bailey: To ask the Secretary of State for Education and Skills if she will consult mobile phone companies on the development of new technologies to block the use of mobile phones in schools. [4408]

Jacqui Smith: There are currently no plans for the Department to begin consultation with mobile phone companies on technologies to block mobile phone use in schools.

New School Provision

Mr. Hoban: To ask the Secretary of State for Education and Skills how she proposes to encourage the creation and retention of small schools and state boarding schools. [4237]

Jacqui Smith: Local authorities are responsible for planning school places in their area including the creation and retention of small schools. In the interests of raising standards, we expect local authorities to take parents' preferences for a particular type of provision into account in the planning process. Statutory Guidance to school organisation committees and the schools adjudicator makes clear that they must not assume a school must be of a certain size to be a good school.

In relation to State Boarding Schools, we have made available £5 million to support projects to increase boarding provision or undertake essential work to existing boarding accommodation.

Mr. Hoban: To ask the Secretary of State for Education and Skills what mechanisms will be put in place to ensure new school provision in areas where school standards are low. [4239]

Jacqui Smith: Where the appropriate response to low standards in an area is the establishment of a new school—whether an additional school or a school to replace one or more existing schools—the local authority will be required under the Education Act 2005 to invite potential providers to bring forward proposals.

Otley College

Bob Russell: To ask the Secretary of State for Education and Skills for what reason Otley College decided to close the IT training centre at Colchester. [269]

Jacqui Smith *[holding answer 23 May 2005]:* This is a matter for the Learning and Skills Council. Mark Haysom, the Council's Chief Executive, will write to the hon. Member with this information and a copy of his reply will be placed in the Library.

Letter from Mark Haysom to Mr. Bob Russell, dated 9 June 2005:

I write in response to your recent question to the Secretary of State for Education and Skills regarding the closure of the IT Centre at Otley College, Colchester.

Otley College's funding allocation for adult learners in 2005–06 has been capped at the 2004–05 level to support growth in funding for 16–18 learners.

The IT Centre offers free, low level IT courses mainly to adults, that are funded entirely from the college's funding allocation from the LSC. This provision is not a priority for the LSC and the college, having reviewed its adult provision, has decided to close the Centre because it is not economically viable. In making this decision the college was aware that suitable alternative provision was available in Colchester. Colchester has a large FE college, a large adult community college and numerous private providers that offer similar IT courses.

In order to achieve Government targets for 2005–06 LSC funding has been focused on priorities which has reduced the funding available for non-priority adult provision such as that offered at the IT Centre in Colchester. The scale of reduction in adult provision is likely to be greater than anticipated due to our need to support unprecedented numbers of young people in FE provision, and the LSC is currently reviewing planning arrangements and modelling funding implications to assist college plans for 2006–07.

Out-of-Hours Learning

Mr. Gibb: To ask the Secretary of State for Education and Skills what her estimate is of the proportion of *(a)* primary schools and *(b)* secondary schools that support out-of-hours learning. [4015]

Jacqui Smith: We recently commissioned MORI to conduct research into the extent and nature of study support in schools. Findings indicated that 90 per cent. of primary and 98 per cent. of secondary schools now offer some study support. The most popular activities are PE and sport, followed by music and ICT.

Out-of-school Units

Mr. Hoban: To ask the Secretary of State for Education and Skills how many places have been available in out-of-school units in each year since 1995; and what plans she has to increase the number. [4123]

Jacqui Smith: The available information is given in the table. It is the responsibility of local authorities (LAs) to provide suitable education for those children of compulsory school age who, by reason of illness, exclusion from school or otherwise, may not otherwise receive it. Therefore each LA will decide how many PRU places it needs, in line with its own policies, the efficient use of resources and DfES guidance.

Pupil referral units: number of pupils—1995 to 2005 (Provisional) England

	Number of pupils		
Position in January each year:	*Pupils on the unit register only*[1]	*Dually registered pupils*[2]	*Total*
1995	5,043	4,129	9,172
1996	6,872	4,183	11,055
1997	7,530	4,403	11,933
1998	7,740	4,166	11,906
1999	8,263	4,202	12,465
2000	8,479	4,586	13,065
2001	9,289	4,993	14,282
2002	9,956	4,968	14,924
2003	12,005	5,518	17,523
2004	13,038	7,293	20,331
2005[3]	14,470	8,010	22,480

[1] Also includes pupils with other providers.

[2] Pupils who are on the unit's register and on another school's register.

[3] Provisional figures have been rounded to the nearest 10.

Annual Schools Census

Post-16 Education

Mr. Hoban: To ask the Secretary of State for Education and Skills what action she is taking to increase *(a)* flexibility of provision and *(b)* choice and diversity in 16–19 education. [3835]

Jacqui Smith: The actions we are taking to increase *(a)* flexibility of provision and *(b)* choice and diversity in 16–19 education are set out in the Departments' five year strategy, the 14–19 White Paper and the Government's manifesto.

We plan to publish more detailed guidance on measures to increase choice and diversity in 16–19 provision later this year.

Mr. Hoban: To ask the Secretary of State for Education and Skills what plans she has to increase diversity in 16–19 provision of education outside sixth form colleges, school sixth forms and further education colleges. [3836]

Jacqui Smith: An objective of competitions for new 16–19 provision is to open the market to new providers. These could include schools and colleges. They could also include others, for example private sector providers of vocational learning. The intention is that competitions will attract high quality, and where appropriate innovative proposals that will contribute to an improved local offer.

Mr. Hoban: To ask the Secretary of State for Education and Skills what guidance will be produced for stakeholders in 16–19 provision of education on increasing choice and diversity. [3837]

Jacqui Smith: The guidance on increasing choice and diversity in 16–19 provision that was prepared earlier this year has been reviewed in the light of policy developments. We plan to issue it for consultation later in the summer.

Mr. Hoban: To ask the Secretary of State for Education and Skills if she will list prospective stakeholders in 16–19 provision with which her Department has held initial discussions. [3838]

Jacqui Smith: Departmental officials have worked with the LSC on developing draft guidance on how the new measures for increasing choice and diversity in 16–19 provision will work in practice. We plan to consult stakeholders more widely on the draft guidance later in the summer.

Mr. Blizzard: To ask the Secretary of State for Education and Skills if she will allocate a portion of the funding for rebuilding of secondary schools to further education colleges for delivery of vocational education to 14 to 16-year-olds. [4263]

Bill Rammell: Building Schools for the Future (BSF) is for investment in schools.

The Spending Review settlement for 2005–06 to 2007–08 provides however, for capital investment in both the schools and further education sectors. The Department has been working with the Learning and Skills Council (LSC) to ensure that this capital investment is complementary. Where BSF proposals address the 14–19 agenda in association with a local further education college, the LSC will consider this when determining applications to upgrade further education provision, where this is deemed to be necessary as part of the overall local strategy. In order to support the needs of further education colleges, the Chancellor's March 2005 Budget statement included additional resources for the sector of £100 million and £250 million in 2008–09 and 2009–10 respectively.

School Governance

Mr. Hoban: To ask the Secretary of State for Education and Skills whether *(a)* primary and *(b)* secondary legislation would be necessary to allow more flexibility in the structure of governing bodies of schools. [3859]

Jacqui Smith: The existing framework allows governing bodies to determine their own size and composition within a framework of guiding principles based on a stakeholder model. We will consult on any new proposals in due course.

School Meals

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will make a statement on proposals for training for school catering staff. [3582]

Jacqui Smith: I refer the hon. Member to the response that I gave on 6 June 2005, *Official Report*, column 476W to his question and to the response that I gave on 8 June 2005, *Official Report*, column 691W to the hon. Member for North-West Leicestershire (David Taylor).

School Support Staff

Mr. Hoban: To ask the Secretary of State for Education and Skills whether she plans to require support staff working in schools to register with the General Teaching Council. [3849]

Jacqui Smith: There are no plans to require support staff in schools to be registered with the General Teaching Council.

School Transport

Tim Farron: To ask the Secretary of State for Education and Skills what Government assistance is available to provide school transport for pupils unable to travel to schools to which they have been allocated by their local education authority by either private or public transport. [4008]

Jacqui Smith: The Education Act 1996 sets out local education authority (LEA) duties and powers relating to school transport. LEAs must make transport arrangements for all pupils of compulsory school age who attend their nearest suitable school, where this is beyond statutory walking distance, and for pupils with transport written into their statement of Special Educational Need. LEAs may use their discretionary powers to help in other situations, including making transport arrangements to schools other than the nearest suitable school, and paying all or part of a pupil's reasonable travelling expenses.

Schools (Cheshire)

Ian Lucas: To ask the Secretary of State for Education and Skills if she will list the *(a)* primary and *(b)* secondary schools in Cheshire attended by children from Wales in 2005, indicating the number of pupils from Wales attending each school. [3092]

Jacqui Smith: The information requested has been provided in the tables below. To comply with the National Statistics code of practice and associated protocols low counts have been suppressed for individual schools.

Pupils resident in Wales who attend maintained primary, secondary and special schools in the Cheshire local education authority

	Pupil numbers	*Percentage of Cheshire school population*	*Number of schools*
Total Cheshire School Population	104,433	—	—
Total pupils resident in Wales attending schools in Cheshire	729	0.70	66
Primary Schools	292	0.28	48
Secondary Schools	421	0.40	14
Special Schools	16	—	4

'—' Denotes less than 0.05 per cent.

Sixth Forms

Andrew Mackinlay: To ask the Secretary of State for Education and Skills what assessment her Department has made of sixth form provision provided by Palmers College, Thurrock; and if she will make a statement. [4433]

Jacqui Smith: Palmer's College delivers provision for both young people and adults. It was inspected by Ofsted and the Adult Learning Inspectorate in March 2003. The inspection report shows that the overall quality of provision was good. Of the eight curriculum areas inspected, one was outstanding, six were good and one was satisfactory. The leadership and management of the college was also found to be good.

Joan Walley: To ask the Secretary of State for Education and Skills what steps are being taken to ensure that sixth form colleges in areas of high social need with above average drop-out rates receive equivalent funding to that allocated to high schools with sixth forms; and if she will make a statement. [4558]

Bill Rammell: We have increased funding for further education (FE), which includes sixth form colleges, by £1 billion in 2005–06 when compared to 2002–03—a 25 per cent. cash increase.

We have brought up funding levels for FE as we said we would, without penalising schools. The Learning and Skills Council's funding rates per course in FE have risen faster than school sixth forms and continued progress will depend on available resources.

Mr. Hoban: To ask the Secretary of State for Education and Skills what directions she has given to the Learning and Skills Council on funding new school sixth forms. [3840]

Jacqui Smith: None. My officials are, however, working with the LSC on guidance for stakeholders on the operation of the new 16–19 capital fund announced in the Department's Five Year Strategy.

Mr. Hoban: To ask the Secretary of State for Education and Skills how many school sixth forms have been established since the Department launched its Five Year Strategy. [3841]

Jacqui Smith: Four additional school sixth forms have been established since the strategy was published in July 2004, following the approval of the necessary statutory proposals. These include sixth forms added to existing schools and sixth forms included in new schools flowing from local reorganisations.

Proposals have been approved for a further three sixth forms which will open in September 2005. Details are set out in the following table.

LEA name	*School name*	*Proposal type*
Proposals implemented in September 2004		
Bromley	Bishop Justus CofE Secondary School	New school with sixth form
Haringey	Alexandra Park Secondary School	Addition of a sixth form
Northamptonshire	Caroline Chisholm School	New 4–18 school
West Sussex	Oriel High School	New school with sixth form
Proposals due to be implemented in September 2005		
Milton Keynes	Hazeley School	New school with sixth form
Milton Keynes	Oakgrove School	New school with sixth form
Slough	The Westgate School	Addition of a sixth form

Mr. Hoban: To ask the Secretary of State for Education and Skills what guidance she has issued to *(a)* schools and *(b)* local education authorities on the establishment of school sixth forms. [3842]

Jacqui Smith: The Department's guidance on statutory proposals for LEAs and for schools includes guidance on establishing school sixth forms. This can be found on the Department's website www.dfes.gov.uk/schoolorg

Mr. Hoban: To ask the Secretary of State for Education and Skills whether she has discussed the establishment of school sixth forms with *(a)* the Learning and Skills Councils and *(b)* local education authorities. [3843]

Jacqui Smith: No, but officials have had extensive discussions on the establishment of school sixth forms with national and local stakeholders, including the Learning and Skills Council and local education authorities.

Mr. Hoban: To ask the Secretary of State for Education and Skills how many schools have expressed an interest in establishing a school sixth form. [3844]

Jacqui Smith: My Department does not collect this data centrally. We are, however, aware of a number of schools with an interest in establishing a sixth form; and local authorities and Learning and Skills Councils will have information about 11–16 schools in their areas that would like to open sixth forms.

Mr. Hoban: To ask the Secretary of State for Education and Skills what procedures a school is required to follow to set up a new sixth form. [3845]

Jacqui Smith: A school wishing to set up a new sixth form must first consult and then publish a statutory proposal which is decided by the local school organisation committee or, if they cannot agree unanimously, by a schools adjudicator. The detailed procedures are set out in the Department's guidance for schools on statutory proposals which can be found on the Department's website www.dfes.gov.uk/schoolorg

Mr. Hoban: To ask the Secretary of State for Education and Skills whether *(a)* primary and *(b)* secondary legislation would be necessary to enable new school sixth forms to be set up. [3846]

Jacqui Smith: Provisions for establishing a new school sixth form are set out in the Schools Standards and Framework Act 1998, as amended and regulations

made under them. No additional primary or secondary legislation is necessary to enable new school sixth forms to be set up.

Skills Training

Mr. Jenkins: To ask the Secretary of State for Education and Skills what assistance the Department provides in Tamworth to promote a well-trained and skilled workforce. [3334]

Phil Hope: Central Government provides substantial financial investment in training and skills through the Learning and Skills Council (LSC) for Staffordshire. The LSC works with a range of partners, learning providers and employers. The recent White Paper 'Getting on in Business; Getting on at Work', announced a National Employer Training Programme which will tailor training solutions to meet the skills needs of employers and their employees. The Executive Director of Staffordshire LSC will give further detailed information about the work being undertaken in Tamworth and a copy of the reply will be placed in the Library.

Student Finance

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills pursuant to her written statement of 7 June 2005, *Official Report*, column 43WS, on student finance, what the *(a)* arrangements and *(b)* timescale for making submissions to the review are. [3929]

Bill Rammell: The review of student finance delivery will be inviting submissions, through a written questionnaire, in the next month. The timescale for making submissions is yet to be determined but will conform to the Cabinet Office Code of Practice on Written Consultations guideline of a minimum of 12 weeks.

Dr. Starkey: To ask the Secretary of State for Education and Skills what assessment her Department have made of the effect of the new student funding regime on access to part-time undergraduates courses for *(a)* mature students and *(b)* those from disadvantaged backgrounds. [4029]

Bill Rammell: This Government were the first to introduce statutory support for students studying on a part-time basis. In the current academic year, a grant of up to £575 for fees and a course grant of up to £250 are available for students from the poorest backgrounds. The grants are means-tested in order to target funding most effectively at those from disadvantaged backgrounds. There is no age limit on the fee grant or the course grant, ensuring that part-time students have access to funding regardless of age.

In 2005/06 we are improving the fee grant arrangements by linking the maximum fee grant available to the intensity at which the student is studying. For example, for a student studying at 75 per cent. or more of the full-time equivalent course a fee grant of up to £885 will be available.

We will continue to monitor the sector to ensure that we use available funding in the most effective way to support those part-time students who most need it.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the written ministerial statement of 7 June 2005, *Official Report*, column 43WS, on student finance, what the definition is of under-represented student groups for these purposes. [4630]

Bill Rammell: The review will consider the needs of all customers of the student finance service. It will particularly consider the needs of lower socio-economic groups and those who receive specific grants, such as students with dependents and disabled students.

Student Numbers

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many students of *(a)* Chinese, *(b)* Arabic, *(c)* chemistry, *(d)* physics and *(e)* mathematics there were in higher education institutions in England in each year between 1994 and 2004; and what the projected numbers are for each year from 2005 to 2010. [3102]

Bill Rammell: The latest available figures are shown in the table. Figures for 2004/05 will be available in January 2006. The Department does not produce projections of student numbers by subject.

Undergraduate students in higher education institutions in England by subject of study[1]

	Chinese[2]	*Modern middle eastern studies*[3]	*Chemistry*	*Physics*	*Mathematics*
1994/95	540	640	13,710	8,010	11,130
1995/96	590	740	12,960	7,870	10,855
1996/97	585	745	12,550	8,550	11,355
1997/98	550	695	12,370	8,320	12,095
1998/99	545	680	12,465	8,170	12,005
1999/2000	510	600	11,900	7,935	12,150
2000/01	465	555	10,965	7,715	12,320
2001/02	510	685	10,695	7,225	12,600
2002/03	650	1,030	10,445	7,670	14,460
2003/04	690	1,115	10,390	8,110	17,670

[1] Figures exclude students on combined science or combined language courses who study the subjects shown in the table as part of these courses.

[2] Covers Chinese languages, literature and culture.

[3] Covers Middle Eastern languages, literature and culture, including Arabic.

Note:

Figures have been rounded to the nearest 5.

Source:

Higher Education Statistics Agency (HESA).

Teacher Training

Mr. Hoban: To ask the Secretary of State for Education and Skills what action she proposes to take to encourage more people to enter teacher training and to increase the number of options for the training of teachers. [4238]

Jacqui Smith: The total number of trainees recruited to initial teacher training courses in 2004/05 entry year was 41,147. This is the highest recorded number of new entrants in any one year.

Since 2000 a number of financial incentives have existed for Postgraduate Certificate in Education (PGCE) students to encourage people to train to teach. The package of incentives has just been reviewed and from September 2006 a new range of incentives will be available:

an increase in financial incentives for maths and science trainees to £9,000 bursary and £5,000 golden hello;

an increase in the bursary for other shortage subjects such as modern languages, Design and Technology, Information and Communications Technology, English (including drama), Music and Religious Education(RE) to £9,000 with a £2,500 Golden Hello. Music and RE trainees currently get the £6,000 bursary only;

a continuation of the £6,000 bursary for all other PGCE student teachers This represents no change on the current position.

To ensure that people wishing to enter teaching have as many options open to them as possible there has been a significant expansion in the provision of flexible and employment-based routes to Qualified Teacher Status including the Graduate Teacher Programme in the last five years.

Temporary Classrooms

Mr. Hoban: To ask the Secretary of State for Education and Skills how many temporary classrooms are in use in each local education authority. [751]

Jacqui Smith: The following table shows numbers of temporary buildings on school premises for each English local education authority. The figures are derived from data supplied to the Department by authorities. Not all temporary buildings are used for teaching. They may accommodate one or more classrooms.

Central Government capital support for investment in schools has increased from under £700 million in 1996–97 to £5.5 billion this year and will rise further to £6.3 billion by 2007–08. Progress is being made year-by-year in improving the quality of the school building stock. The bulk of schools capital is now allocated by formula to authorities and schools so that they can address their local priorities, including the replacement of decayed temporary accommodation, on which we have set a high priority.

Modern, high quality mobile or demountable classrooms provide a good environment for teaching and learning where there is short term need. They might, for instance, be needed to cope with a short term increase in pupil numbers, or where extensive remodelling or rebuilding of permanent accommodation means providing temporary accommodation on the school site, rather than transporting children elsewhere.

Written Answers to Questions

Wednesday 15 June 2005

NORTHERN IRELAND

Ministerial Meetings

11. **Gordon Banks:** To ask the Secretary of State for Northern Ireland if he will make a statement on the outcome of his recent meetings with the political parties in Northern Ireland. [3021]

Mr. Hain: I refer my hon. Friend to the answer I gave earlier to the hon. Member for Glasgow, South (Mr. Harris), *Official Report*, cols. 244–45.

IRA

12. **Mr. Robathan:** To ask the Secretary of State for Northern Ireland what assessment he has made of the current level of IRA activities. [3022]

Mr. Woodward: The recent IMC report stated that the Provisional IRA continues to recruit and train new members. It continues to be involved in organised crime, and in paramilitary beatings and exiling. It is now time for all paramilitary activity and criminality to come to an end.

Security (North Belfast)

15. **Mr. Dodds:** To ask the Secretary of State for Northern Ireland what assessment he has made of the security situation in north Belfast; and if he will make a statement. [3025]

Mr. Woodward: Despite a number of incidents in North Belfast recently, the police have assured me they will have the resources to manage any foreseeable incidents which may occur.

Education

Michael Connarty: To ask the Secretary of State for Northern Ireland what progress has been made with plans to reform the structure of education in Northern Ireland. [3019]

Angela E. Smith: Northern Ireland's new post-primary arrangements are not about changing the structure of education. They are about providing real choice and flexibility for children by keeping options open and raising standards for all. Existing school types will continue and we offer access to a wider range of courses through the entitlement framework. We remain on schedule to put key arrangements in place before 2008, when the final transfer tests take place.

Influenza

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the stockpiling of antiviral drugs in the Province to protect against an outbreak of influenza. [3023]

Mr. Woodward: Earlier this year my right hon. Friend the former Secretary of State for Health approved a flexible plan to purchase stocks of anti-virals for the whole of the UK. The Under-Secretary of State, my hon. Friend the Member for Basildon (Angela E. Smith) agreed that Northern Ireland would co-join with the other parts of the UK in the two-year purchasing plan and subject to Department of Finance giving approval, funding for the purchase is available within existing resources. Discussions are ongoing about delivery plans to the province.

Northern Bank Robbery

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will make a statement on progress in the investigations into the Northern Bank robbery in Belfast in 2004. [3024]

Mr. Woodward: The investigation into the Northern Bank robbery on 20 December 2004 is ongoing and continues to be one of the largest investigations currently undertaken by the PSNI. By the very nature of the crime committed, the investigation is complex, methodical and resource intensive and to date over 3,300 separate investigative actions have been raised. PSNI remain committed to bringing the perpetrators to justice but as with any serious crime investigation, the police will only conduct searches or make arrests at a time that is in the best interests of the investigation and the administration of justice.

Abortion

Mr. Dodds: To ask the Secretary of State for Northern Ireland what steps he will take to ensure adequate consultation with *(a)* the public and *(b)* interested organisations in relation to the Department of Health, Social Services and Public Safety's development of guidance on abortion in Northern Ireland. [4054]

Mr. Woodward: The terms of the Court of Appeal Order require the Department to consider what steps it should take to inquire into the adequacy of termination of pregnancy services provided in Northern Ireland (including aftercare); and following such inquiry, and after appropriate consultation with concerned organisations, issue appropriate guidance. Once the draft guidance has been produced, the Department will consult with concerned organisations.

Mr. Dodds: To ask the Secretary of State for Northern Ireland if he will publish the minutes of meetings of the Working Party on guidance on abortion in Northern Ireland. [4055]

Mr. Woodward: The Departmental Working Group met on 21 January 2005 to consider the way forward on the court of appeal judgment and the minutes of this meeting are available on request from Family Policy Unit within the Department of Health, Social Services and Public Safety.

Mr. Dodds: To ask the Secretary of State for Northern Ireland what workshops the Working Party drawing up guidance on abortion in Northern Ireland has held; and if he will publish the reports of such meetings. [4056]

Mr. Woodward: In order to inform the development of guidance on abortion in Northern Ireland, a workshop was organised on 4 May. The purpose of the workshop was to provide the opportunity for some initial consideration into what individuals/groups require guidance, what this guidance should contain and how best to take this work forward.

Given the exploratory nature of the meeting and to enable a free and frank exchange of views, no formal record was taken, but it was agreed that guidance would be needed for the General Public, Clinicians and GPs. It was also concluded that guidance should cover issues such as conscientious objection, informed consent, and consistency in recording of decisions and good clinical practice.

Mr. Dodds: To ask the Secretary of State for Northern Ireland when he expects the Working Party on the development of guidance on abortion in Northern Ireland to report to the Department. [4148]

Mr. Woodward: Work has already commenced but given the complex nature of this issue it is difficult to determine what the time scale for completion of guidance will be. We will take this work forward as expeditiously as possible.

Belfast City Airport

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on the review of the planning agreement affecting Belfast City airport. [3509]

Angela E. Smith: The Department of Environment is currently considering a number of options on how best to progress this review and expects to be able to make an announcement on the way forward in early July 2005.

Carers

Lady Hermon: To ask the Secretary of State for Northern Ireland how much funding was allocated by his Department to help unpaid carers in Northern Ireland in the last year for which figures are available; and if he will make a statement. [3508]

Mr. Woodward: In 2004–05, the Social Security Agency paid £84.5 million in Carers Allowance. In addition, the Health and Personal Social Services provides support for carers with assessed needs through its social care programmes. Information on this expenditure is gathered by service, rather than reason for care and it is therefore not possible to specify how much was spent directly on carers. In 2005–06, an additional investment of £400,000 is being made in the development of flexible and responsive respite services, which will be of direct benefit to carers.

Contracted-out Employees (Terms and Conditions)

Mr. David Anderson: To ask the Secretary of State for Northern Ireland whether the Government's commitment to ensure that workers employed by the private sector doing work previously done in the public sector do not have less favourable terms and conditions than those who remain employed by the public sector applies in Northern Ireland in the same way as it does in the rest of the UK. [3149]

Angela E. Smith: The Government are committed to ensuring that work forces in Northern Ireland continue to receive the same protection as in the rest of the UK, in line with government policy as set out in the "Code of Practice on Workforce Matters in Public Sector Contracts" announced by the Prime Minister on 18 March. Work is being taken forward to apply this Code formally in Northern Ireland as quickly as possible. A copy of the code is available at the following website: http:7/www.cabinetoffice.gov.uk/opsr/workforce_reform/code_of_practice/index. asp

Drug and Alcohol Rehabilitation

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on the *(a)* funding and *(b)* provision of drug and alcohol rehabilitation in Northern Ireland. [3490]

Mr. Woodward: The information requested on funding for drug and alcohol rehabilitation is not available centrally.

Rehabilitation is an integral part of all drug and alcohol treatment whether community or in-patient based. The cost of this generic rehabilitation cannot be disaggregated from the total costs of such programmes. The majority of drug rehabilitation can and does take place in the community as part of an overall community care and rehabilitation programme and provision exists within each board area to refer individuals to rehabilitation centres outside Northern Ireland if deemed to be clinically appropriate.

I will write to the hon. Lady about provision within the non-statutory sector as soon as the information is received from Health and Social Services Boards.

Environmental Protection Agency

Lady Hermon: To ask the Secretary of State for Northern Ireland what plans he has to create an independent environmental protection agency in Northern Ireland. [3569]

Angela E. Smith: In May 2004 a coalition of environmental non-governmental organisations launched a report for public consultation, by Professor Richard Macrory, entitled Transparency and Trust: Reshaping Environmental Governance in Northern Ireland. In October 2004 the coalition published an analysis of the comments received and indicated that the majority of respondents were in favour of the establishment of an independent environment protection body in Northern Ireland.

I met with the coalition on 2 November 2004 and agreed that the Department of the Environment would explore in detail with the coalition the possible terms of reference for such an inquiry. Those discussions are continuing.

Fuel Poverty

Mr. Dodds: To ask the Secretary of State for Northern Ireland what discussions he has had with the Scottish Executive on measures to tackle fuel poverty. [4152]

Mr. Hanson: None, however officials within the Department for Social Development are in regular contact with their colleagues in other parts of the UK to monitor developments in their fuel poverty strategies and their steps to tackle fuel poverty.

Health Policy (Strangford)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will set out, with statistical evidence relating as closely as possible to Strangford constituency, the effects on Strangford of health policies implemented by his Department since 1997. [3664]

Mr. Woodward: There have been improvements in the number of deaths and in life expectancy of the residents of the Strangford parliamentary constituency since 1997:

The overall death rate has fallen in the constituency from 9.27 per 1,000 persons in 1998 to 8.19 in 2003.

Life expectancy for males has increased from 74.8 years to 77.0 and for females from 79.5 years to 81.7 years since 1997.

Deaths due to circulatory disease have reduced from 3.66 per 1,000 in 1997 to 3.22 per 1,000 persons in 2003.

Deaths due to respiratory disease have reduced from 1.73 per 1,000 in 1997 to 1.30 per 1,000 in 2003.

Literacy Teaching

Lady Hermon: To ask the Secretary of State for Northern Ireland what plans he has to initiate a review of literacy teaching in primary schools in Northern Ireland. [3473]

Angela E. Smith: Under the School Improvement Programme, a Literacy (and Numeracy) Strategy is in place. The Literacy Strategy is updated annually, in consultation with Education and Library Boards, to ensure that it is meeting the needs of pupils and schools.

Multiple Sclerosis (Beta Interferon)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many multiple sclerosis sufferers are receiving Beta Interferon in each health board; how many were waiting for the drug in each board in each of the past three years; and if he will make a statement.[4103]

Mr. Woodward: The number of people in each Health and Social Services Board area receiving disease modifying treatment for multiple sclerosis (beta interferon or glatiramer acetate) is as follows:

Health and social services board	*Number receiving treatment*
Eastern	219
Northern	177
Southern	104
Western	73
NI total	573

Note:
Figures include 22 patients who have started a course of treatment but are currently on a break from treatment.

Information about waiting lists for disease modifying treatments was not routinely collected prior to May 2004. The number of patients waiting for treatment in May 2004 and May 2005 was as follows:

Health and social services board	*Number waiting to begin treatment at 31 May 2004*	*Number waiting to begin treatment at 31 May 2005*
Eastern	19	37
Northern	28	42
Southern	12	10
Western	14	17
NI Total	73	106

The Department remains committed to improving access to specialist drugs which offer the potential for significant improvement in patient care. Disease modifying treatments for people with multiple sclerosis have been available in Northern Ireland since the mid-1990s. In recent years, substantial additional funding has been made available to Health and Social Services Boards for a wide range of specialist medicines, including beta interferon. Funding has also been provided to support the infrastructure for the provision of disease modifying treatment for people with multiple sclerosis.

NHS Employment (Foreign Nationals)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many foreign nationals have applied for employment within the national health service in Northern Ireland over the last three years, broken down by type of employment. [4073]

Mr. Woodward: Information on the nationality of applicants for employment is not held.

Pension Rights

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will amend the Northern Ireland Local Government Officers' Superannuation Committee regulations to allow partners of deceased pensioners the same pension rights as widows and widowers of deceased pensioners. [3483]

Angela E. Smith: There are no plans to introduce such benefits at present, other than those required for civil partners under the Civil Partnership Act 2004.

The Northern Ireland Local Government Pension Scheme Regulations, administered by the Northern Ireland Local Government Officers' Superannuation Committee, in common with those in Scotland, maintain broad parity with the Local Government Pension Scheme (LGPS) Regulations in England and Wales.

The possibility of further extending survivor benefits in the LGPS in England and Wales to include same or opposite sex partners, other than spouses or civil partners was one of the propositions included in the consultation document "Facing the Future", published by the Office for the Deputy Prime Minister (ODPM) in October 2004. The consultation document is available on the ODPM website at www.xoq83.dial.pipex.com. The Deputy Prime Minister has recently established a committee comprising employer, trade union and ODPM representatives to consider and negotiate the long-term future of the LGPS.

Planning Applications

Lady Hermon: To ask the Secretary of State for Northern Ireland how many retrospective planning applications were *(a)* approved and *(b)* rejected in Northern Ireland in each of the past three years. [3502]

Angela E. Smith: The Planning Service does not record separate information on retrospective planning applications, as these applications are dealt with in the same way as standard planning applications. As this information is not routinely collected, it could be obtained only at disproportionate cost to the Department.

Planning Policy

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will give a date for the publication of the draft retail planning policy document for Northern Ireland. [3291]

Angela E. Smith: It is hoped that draft planning policy statement 5—Retailing, Town Centres and Commercial Leisure Developments will be published shortly.

Hoax Calls (Emergency Services)

Lady Hermon: To ask the Secretary of State for Northern Ireland how many telephone calls to the emergency services in Northern Ireland in each of the past 12 months were discovered to be prank calls; what penalties are in place for those caught making prank calls to the emergency services; and if he will estimate the cost in *(a)* monetary and *(b)* other terms of prank calls in that period. [3496]

Mr. Woodward: Information provided by the Northern Ireland Fire and Rescue Service (NIFRS), Northern Ireland Ambulance Service (NIAS) and the Police Service Northern Ireland (PSNI) on the numbers of hoax calls in each of the past 12 months for which statistics are available is as follows:

	Fire	*Ambulance*	*Police*
2004			
May	—	259	—
June	455	239	[1]—
July	567	233	[1]—
August	496	277	[1]—
September	492	205	[1]—
October	490	205	[1]—
November	385	201	[1]—
December	333	235	[1]—
2005			
January	457	199	[1]—
February	437	175	[1]—
March	529	354	[1]—
April	426	366	[1]—
May	440	—	[1]—
Total	5,507	2,948	[1]875

[1] Police figure covers the period 1 June 2004 to 31 May 2005. A monthly breakdown is not available.

Under the Communications Act 2003, the maximum penalty for those caught making hoax or malicious calls is a fine not exceeding £5,000 and/or a term of imprisonment not exceeding 6 months.

NIFRS, NIAS and PSNI estimate the costs of hoax calls at £141,250, £442,200 and £31,336 respectively during the reporting periods.

It is extremely difficult to quantify the indirect costs of hoax calls. However, the most serious cost is the potential for serious injury or loss of life if the emergency services are not available to respond to genuine emergencies or are delayed in responding because crews are deployed responding to hoax calls.

Speech Therapists

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps are being taken to attract more speech therapists to the NHS in Northern Ireland; and if he will make a statement. [4106]

Mr. Woodward: The recruitment of staff, including speech and language therapists, is a matter for individual Health and Social Services Trusts taking into account factors such as service needs and available resources. The Department provided additional funding to increase by 10 the number of student places with effect from the 2001–02 academic year and by a further five places from 2002–03. These increased intake levels are being maintained and the annual commission is 40 student places. There are 152 students in training during the current academic year.

Suicide

Lady Hermon: To ask the Secretary of State for Northern Ireland how much funding was made available by his Department for suicide awareness campaigns and support groups for those affected by suicide in the last year for which figures are available. [3476]

Mr. Woodward: In 2004–05, the Department provided £350,000 to take forward the actions in the Mental Health Promotion Strategy including a specific campaign aimed at young men; £60,390 was paid to regional voluntary organisations, which provide counselling services, and £228,353 was paid to local groups providing counselling services which includes those affected by suicide.

University of Ulster

Lady Hermon: To ask the Secretary of State for Northern Ireland what discussions he has had with senior management of the University of Ulster regarding the report of Sir Michael Buckley. [3479]

Angela E. Smith: As this is a matter for the internal management of the university the Department of Employment and Learning has not received a copy of Sir Michael Buckley's report. The Department has discussed the matters considered by Sir Michael with the university's authorities and has sought, and received assurances, that none of these matters presented a risk to public funds. It has reminded the university that any severance terms for the Vice-Chancellor should comply with established guidelines and should not be funded from the Department's grant.

Lady Hermon: To ask the Secretary of State for Northern Ireland whether his Department has been informed of the findings of Sir Michael Buckley's inquiry into senior management practice at the University of Ulster. [3481]

Angela E. Smith: The Department of Employment and Learning has not received a copy of Sir Michael Buckley's report. It has been kept informed by the university's authorities of the issues being considered, so that it can assure itself that those issues relevant to financial management and accountability have been addressed.

Waste Dumping (Asbestos)

Lady Hermon: To ask the Secretary of State for Northern Ireland what recent steps he has taken to eradicate cross-border illegal dumping of waste, with particular reference to asbestos. [3515]

Angela E. Smith: The Department of the Environment is aware of the scale and nature of illegal dumping in Northern Ireland, and all possible action is being taken to combat it. The Environment and Heritage Service continues to carry out investigations and prepare prosecution cases in incidents where waste is illegally disposed of in Northern Ireland, regardless of its origin.

Several cases, including those involving illegal disposal of waste from the Republic of Ireland, are due to be heard in the Crown court. These are the first cases relating to environmental criminal offences to be dealt with in a higher court, where there is potential for unlimited financial penalties and prison sentences. The Department has also taken over responsibility for Transfrontier Shipment of Waste, which will allow us to exercise tighter control.

The recently established Waste Task Force is exploring measures to strengthen still further the regulatory regime and I will be bringing forward proposals for new legislation as soon as possible.

Legislation is in place for the safe removal and disposal of asbestos and waste containing asbestos. District councils have the statutory responsibility for fly-tipped waste. However, EHS does work closely with the councils and the Health and Safety Executive for NI to resolve issues involving asbestos waste.

PRIME MINISTER

Belarus

Daniel Kawczynski: To ask the Prime Minister what discussions he has had with the President of Belarus on increasing democracy and accountability; and if he will make a statement. [3653]

The Prime Minister: I have had no recent discussions with the President of Belarus.

G8 summit

Mr. Jim Cunningham: To ask the Prime Minister what the outcome was of his recent meeting with President Bush regarding the G8 summit. [3801]

The Prime Minister: I refer my hon. Friend to the answers I gave at Prime Minister's Questions on 8 June 2005, *Official Report*, columns 1234–44, and to the press conference I held with President Bush, a transcript of which is available on the No. 10 website.

Local Elections

Mr. Heald: To ask the Prime Minister for what reason responsibility for local elections has been transferred from the Office of the Deputy Prime Minister to the Department of Constitutional Affairs. [3618]

The Prime Minister: I refer the hon. Member to the Number 10 press notice issued on 23 May 2005 on Machinery of Government changes, copies of which are available in the Libraries of the House.

Royal Prerogative

Mr. Allen: To ask the Prime Minister if he will list the powers available to him under the Royal Prerogative. [2826]

The Prime Minister: The powers available to the Prime Minister under the Royal Prerogative have evolved over many years and it is not possible precisely to define them.

Mr. Allen: To ask the Prime Minister if he will bring forward proposals to make it a requirement for Parliament to be consulted on the use of his power under the Royal Prerogative to take the country to war; and if he will make a statement. [3342]

The Prime Minister: The Government recognise the desire for parliamentary scrutiny of decisions to deploy our armed forces, and has shown that it will provide opportunities for debate when this arises. A formal requirement to consult Parliament is, therefore, unnecessary and could prejudice the Government's ability to take swift action to defend our national security where the circumstances so require.

Social Behaviour

Mr. Allen: To ask the Prime Minister if he will establish a Royal Commission to develop a long-term strategy on improving and promoting social behaviour and reducing antisocial behaviour. [2869]

The Prime Minister: No. The Government have a wide-ranging strategy to tackle antisocial behaviour. During this Parliament, we will step this up by driving through cultural change in local communities, especially in deprived areas. This will be a Government-wide programme led by the Home Office, with the active support of a number of Government Departments. I will also chair the Cabinet Committee on antisocial behaviour in order to take this agenda forward and consider what further actions need to be taken.

TREASURY

Business Taxes

Andrew Rosindell: To ask the Chancellor of the Exchequer what steps the Government are taking to maximise collection of taxes and revenues from businesses. [2937]

Dawn Primarolo: To assist business customers in payment of taxes and revenues the Department offers a wide range of help and advice to businesses through its 'Large Business' and 'Small and Medium Enterprises' units. The Department then offers a wide range of

options to make it as easy as possible for payments to be made promptly and on time. This includes encouraging customers to pay electronically and to this end a flexible range of e-payment methods is available to business customers.

Several methods are also available to encourage future compliance and to secure payment from the non-compliant, for example legal proceedings through the courts.

Child Trust Fund

Dr. Cable: To ask the Chancellor of the Exchequer if he will make a statement on the rate of take-up to date of the Child Trust Fund; what plans he has to increase take-up; and what estimates he has made of future take-ups. [4538]

Mr. Ivan Lewis: I refer the hon. Member to the answer I gave to the hon. Member for Yeovil (Mr. Laws) on 6 June 2005, *Official Report*, columns 286–87W. Although it is still very early days for the Child Trust Fund, I am encouraged that parents have seized the initiative on savings. Nearly one third of vouchers have already been used. It is in the interests of children that parents use the Child Trust Fund voucher to open a Child Trust Fund account as soon as they feel ready to do so. The sooner vouchers are invested, the sooner Child Trust Fund accounts can start to grow. Child Trust Fund advertising on television, radio, online and in national and consumer press will resume on 1 July 2005.

Civil Servants

Mr. Gale: To ask the Chancellor of the Exchequer how many civil service posts have been transferred from London to deprived areas of the South East in the past 12 months; how many posts are under consideration for such transfer; and if he will make a statement. [3930]

Mr. Des Browne: The Government are relocating posts out of London and the South East in accordance with Sir Michael Lyons' recommendations. However, the Lyons Review recognised that in some circumstances departments might be able to make strong business cases for relocating from London to deprived parts of the South East. Twenty-two posts either have transferred or are under consideration for transfer from London to deprived areas of the South East. It is for individual departments to decide on relocation destinations, according to their business needs and taking account of published guidance which promotes consideration of deprived areas, and comprehensive information is not maintained centrally on locations being considered by departments.

Council Tax

Mrs. Spelman: To ask the Chancellor of the Exchequer how many council tax valuations the Valuation Office Agency have made in England in each year since 1997. [4318]

Dawn Primarolo: In the course of maintaining the council tax valuation lists in England, and excluding cases where no action has been taken, the Valuation Office Agency has made new or altered bandings as follows:

	£
1997–98	388,239
1998–99	357,403
1999–2000	355,825
2000–01	338,566
2001–02	330,379
2002–03	345,552
2003–04	351,245
2004–05	370,019

Mrs. Spelman: To ask the Chancellor of the Exchequer if he will state the number of appeals against council tax valuations in England for each year since 1997. [4320]

Dawn Primarolo: In the course of maintaining valuation lists in England the Valuation Office Agency has received the following number of valid council tax appeals:

	£
1997–98	71,848
1998–99	56,420
1999–2000	45,368
2000–01	41,093
2001–02	33,490
2002–03	30,252
2003–04	28,275
2004–05	28,470

Mrs. Spelman: To ask the Chancellor of the Exchequer if he will publish the council tax band of the residences of *(a)* the Prime Minister and *(b)* the Chancellor of the Exchequer in Downing street. [4317]

Dawn Primarolo: The council tax band of the residences of *(a)* the Prime Minister and *(b)* the Chancellor of the Exchequer, in Downing street, are publicly available in the Council Tax Valuation List. These can be accessed, online, via the Valuation Office Agency's website, www.voa.gov.uk.

Mrs. Spelman: To ask the Chancellor of the Exchequer whether the Valuation Office Agency will have powers to enter residential premises when inspecting them during the forthcoming council tax revaluation process in England. [4174]

Dawn Primarolo: It is a function of the listing officers, throughout the Valuation Office Agency, to carry out valuations for the purposes of compiling the new lists on 1 April 2007. Section 26(1) of the Local Government Finance Act 1992 provides power of entry for inspection, subject to the requirements of section 26(2) and 26 (3), to provide written notice and production of authorisation.

Mrs. Spelman: To ask the Chancellor of the Exchequer whether the Valuation Office Agency will take into account the *(a)* number of bathrooms, *(b)* number of bedrooms, *(c)* floor area, *(d)* age of the property, *(e)* off-street parking, *(f)* out-buildings, *(g)* conservatories and *(h)* size of garden when valuing a residence in the forthcoming council tax revaluation process in England. [4231]

Dawn Primarolo: It is the intention of the Valuation Office Agency, when assigning dwellings to bands for the forthcoming council tax revaluation, to reflect a number of property attributes, including all those referred to, where a value significance can be established.

Flat Tax

Dr. Cable: To ask the Chancellor of the Exchequer what studies his Department has conducted or commissioned about a 'flat tax' for *(a)* personal taxes and *(b)* business taxes; and if he will make a statement. [4535]

Dawn Primarolo: The Government actively monitors the international developments in taxation, including the countries that have introduced 'flat tax' regimes. The Government have not conducted or commissioned studies on the introduction of a 'flat tax' in the UK.

Game Rearing Farms

Mr. Hancock: To ask the Chancellor of the Exchequer how many game rearing farms are registered as valued for non-domestic rates with the Valuation Office Agency in *(a)* England and *(b)* Wales. [4520]

Dawn Primarolo: As at 9 June 2005 there are 128 game rearing farms listed in the 2005 rating lists. These are available on the Valuation Office Agency's website at www.voa.gov.uk , of which *(a)* 120 are in England and *(b)* eight are in Wales.

Hard-working families

John Hemming: To ask the Chancellor of the Exchequer what his definition is of a hard-working family. [3755]

Dawn Primarolo: The Government are committed to supporting families who work hard to balance their work and family commitments looking after children and their dependents. That is why we are increasing financial support for families through tax credits, extending paid maternity leave, taking action to improve the quality, availability and affordability of child care, and helping record numbers of people into employment.

Income Tax

Dr. Cable: To ask the Chancellor of the Exchequer how many individuals paid a combined deduction rate on their income in excess of 40 per cent. for the latest five years for which data is available; and if he will make a statement. [4533]

Dawn Primarolo: The information requested is unavailable.

Insurance Availability (Criminals)

Mr. Oaten: To ask the Chancellor of the Exchequer what discussions he has had with the insurance industry on the availability of insurance products for individuals who have a criminal record. [4672]

Mr. Ivan Lewis: I and my officials regularly meet representatives of the insurance industry to discuss a variety of issues.

I understand that cover for ex-offenders seeking general insurance products is available in the market. The practice of insurance companies varies from case to case, however, and it may be necessary for people to look across the market for acceptable cover.

National Income

Mr. Paul Goodman: To ask the Chancellor of the Exchequer if he will break down post-tax national income by *(a)* decile and *(b)* quintile for each year since 1997. [3889]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl to Mr. Paul Goodman, dated 15 June 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking for a breakdown of post-tax national income by *(a)* decile and *(b)* quintile for each year since 1997. I am replying in his absence. (3889)

Estimates for post-tax national income by quantile are not available but estimates for post-tax household income are shown in the following tables. These have been produced from the Office for National Statistics' analyses 'The effects of taxes and benefits on household income' and the latest analysis for 2002–03 was published on the National Statistics website on 6 May 2004 at http://www.statistics.gov.uk/taxesbenefits. The analyses include measures of income inequality for households in the United Kingdom as a whole based on data from the Expenditure and Food Survey (the Family and Expenditure Survey from 1997–98 to 2000–01). This is a sample survey covering about 6,000 to 7,000 households in the UK. The analysis for 2003–04 is due to be published on the National Statistics website on 7 July 2005.

The tables show a breakdown of post-tax household income in terms of the average annual amount per household for each year between 1997–98 and 2002–03 for all households in the UK, and for each income decile and quintile group where households are ranked by equivalised disposable income. Equivalisation is a standard methodology that takes into account the size and composition of households and adjusts their incomes to recognise differing demands on resources. The tables also show the equivalised disposable income decile and quintile point boundaries, which have been calculated separately for each year. For example, the 1st decile point is the income below which one tenth of all households are estimated to lie. The decile and quintile point boundaries differ between each year as shown in the tables.

Post-tax income is defined as income (after government intervention) net of estimates of direct taxes and indirect taxes. Indirect taxes include intermediate taxes which are the portion of indirect taxes that are passed on by businesses to households.

Distribution of post-tax income, by decile, 1997–98 to 2002–03

United Kingdom					*Average per household (£ per year)*	
	1997–98		*1998–99*		*1999–2000*	
Decile	*Income boundary*[1]	*Post-tax income*	*Income boundary*[1]	*Post-tax income*	*Income boundary*[1]	*Post-tax income*
Bottom		3,409		3,340		3,095
	6,766		7,048		7,372

National Insurance

John Hemming: To ask the Chancellor of the Exchequer how many people living in the UK qualify for a National Insurance number; and on what basis they qualify. [3726]

Dawn Primarolo: All young people resident in the UK who are the subject of a child benefit claim qualify for a National Insurance number (NINO) which is issued to them around the age of 15 years and 9 months. An individual resident in the UK is qualified to register for a NINO if they meet certain employment or benefit-related criteria. They must never have registered before, be aged 16 or over, be employed and/or self-employed, or not employed but wish to be or would benefit from paying Class 3 voluntary contributions. Alternatively they must be eligible for and seeking to claim a social security benefit or tax credit.

There are 73 million NINOs registered on the National Insurance Recording System (NIRS2) (this total includes, among others, numbers for deceased persons and those who have gone abroad). We do not know how many people who would qualify for NINO registration do not apply.

Andrew Rosindell: To ask the Chancellor of the Exchequer what plans he has to change the rate of national insurance contributions. [1362]

Mr. Amess: To ask the Chancellor of the Exchequer what plans he has to change the rate of national insurance contributions. [3752]

Dawn Primarolo: From April 2003 an additional 1 per cent. national insurance contribution (NIC) by employers, employees and the self-employed was introduced on all earnings above the NICs threshold to deliver the largest sustained spending growth in the history of the NHS while meeting the fiscal rules.

Offshore Facilities

Mr. MacNeil: To ask the Chancellor of the Exchequer what his policy is on UK publicly-funded companies moving services offshore to avoid tax or national insurance payments; and if he will make a statement. [3340]

Dawn Primarolo: It is Government policy that Departments and non-departmental public bodies should not seek to minimise tax liabilities through transactions or activities for which there is no genuine justification in economic terms, and should apply restrictions on the use of offshore jurisdictions by successful bidders to procurement contracts, where such restrictions are justified in terms of the objectives of the project and consistent with international obligations and stated objectives on tax transparency and openness. This is made clear in the "Dear Accounting Officer" letter sent by HM Treasury to Departments on 22 May 2003 (DAO Gen/03). Public corporations follow the same rules for managing tax liabilities as private companies.

Private/Public Finance Initiative

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer (1) which circumstances would *(a)* qualify private finance initiative to be considered for and *(b)* exclude it from being considered for public borrowing requirements; [3665]

(2) how much public finance initiative funding has been written off since its inception. [3666]

John Healey: The Government follow rules based upon internationally agreed standards of commercial accounting practice, policed by the independent accounting watchdog, the FRAB (Financial Reporting Advisory Board), when accounting for PFI transactions.

All PFI deals are subject to audit by the NAO or another UK audit body. Where they judge that assets in PFI deals should be on a public authority's balance sheet the value of those assets is scored as public sector net borrowing.

Approximately half of all signed PFI deals are judged under this process to be 'off-balance sheet'.

Stamp Duty

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 26 May 2005, *Official Report*, column 201W, on stamp duty, what the forecast revenues from stamp duty on *(a)* residential properties and *(b)* commercial properties are in (i) 2004–05 and (ii) 2005–06. [4217]

Mr. Ivan Lewis: Estimated and projected revenues for total stamp taxes in 2004–05 and 2005–06 are published in Table C8 of the Budget 2005 report. The Stamp Duty Land Tax component of these figures is estimated at £6.3 billion in 2004–05 and £6.7 billion in 2005–06.

Separate estimates for Stamp Duty Land Tax receipts for 2004–05 from both residential and commercial property will be published later this year.

Mrs. Spelman: To ask the Chancellor of the Exchequer what the average stamp duty paid for a residential property purchase in *(a)* each Government Office region, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland has been in each year since 1997. [4278]

Mr. Ivan Lewis: Estimates of average stamp duty on land and property by Country and Region are given in the following table. Reliable estimates are only readily available for Scotland for 2003–04.

Averages : £

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*

Tax Credit

Mr. Evans: To ask the Chancellor of the Exchequer what changes have been made to the HM Revenue and Customs prosecution policy against fraudulent tax credit claims. [4376]

Dawn Primarolo: There have been no changes to criminal sanctions policy for tax credit offences caused by the creation of HM Revenue and Customs. The same policy operates as used by the former Inland Revenue.

Mr. Jack: To ask the Chancellor of the Exchequer what his estimate is of the administrative cost of dealing with all aspects of tax credit overpayments made since April 2003. [1166]

Dawn Primarolo: I refer the right hon. Member to my reply to him and the hon. Member for Moray (Angus Robertson) of 6 June 2005, *Official Report*, column 298W.

Mr. Winnick: To ask the Chancellor of the Exchequer pursuant to the answer of 6 June 2005, *Official Report*, column 293W, on Inland Revenue, for what reasons information on the number of complaints on tax credit received is not collected; if he will take steps to ensure the number of complaints is *(a)* recorded and *(b)* published; and if he will make a statement. [2873]

Dawn Primarolo *[holding answer 9 June 2005]:* My hon. Friend's original question asked how many complaints have been made *(a)* directly and *(b)* through hon. Members in the last 12 months on how the Inland Revenue office in Preston deals with tax

credit queries. The Department does not keep records of the number of complaints made specifically about the way the Tax Credit Office deal with queries, so it was not possible to provide a figure.'

For the numbers of complaints for 2003–04, I refer my hon. Friend to the Report of the Comptroller and Auditor General published with the Annual Report and Accounts of the Inland Revenue for the year 2003–04. For 2003–04, the Inland Revenue counted the number of complaints rather than the number of people who complained. For 2004–05, to be consistent with the rest of the Department, the Tax Credits Office counted the number of people who made written complaints.

In 2004–05, complaints were received in around 42,000 cases directly from claimants. Around 9,000 complaints were also made through Members of the House of Commons.

Mr. Winnick: To ask the Chancellor of the Exchequer if he will ask the Comptroller and Auditor General to carry out a review of the tax credit office in Preston and to make recommendations for improvement. [4187]

Dawn Primarolo *[holding answer 14 June 2005]:* The Comptroller and Auditor General and the National Audit Office have their own programme of work. They will report on the separate 2004–05 accounts of the Inland Revenue and HM Customs and Excise in the autumn. The report on the Inland Revenue will include consideration of tax credits.

Tax Investigations (Northern Ireland)

Mrs. Iris Robinson: To ask the Chancellor of the Exchequer how many people in Northern Ireland have been subject to two or more tax investigations in the past five years. [3663]

Dawn Primarolo: This information is not readily available and could be obtained only at disproportionate cost.

Taxation

Dr. Cable: To ask the Chancellor of the Exchequer what percentage of gross income was paid by *(a)* all households, *(b)* the bottom quintile group and *(c)* the top quintile group in (i) direct taxation, (ii) indirect taxation and (iii) all taxes in the latest year for which figures are available; and if he will make a statement. [4059]

John Healey: This information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl to Dr. Vincent Cable, dated 15 June 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what percentage of gross income was paid by *(a)* all households, *(b)* the bottom quintile group and *(c)* the top quintile group in (i) direct taxation, (ii) indirect taxation and (iii) all taxes in the latest year for which figures are available. I am replying in his absence. (4059).

The proportion of gross income that was paid in taxes in 2002–03 (the latest year for which data are available) by *(a)* all households types, *(b)* the bottom quintile group and *(c)* the top quintile group can be obtained from Table 3 of 'The effects of taxes and benefits on household income 2002–2003', published on the National Statistics website on 6 May 2004 at http://www.statistics.gov.uk/taxesbenefits.

The analysis includes measures of income inequality for households in the United Kingdom as a whole based on data from the Expenditure and Food Survey. This is a sample survey covering about 7,000 households in the UK.

The analysis for 2003–04 is due to be published on the National Statistics website on 7 July 2005.

Taxpayer Numbers

Dr. Cable: To ask the Chancellor of the Exchequer how many *(a)* starting rate, *(b)* basic rate and *(c)* higher rate taxpayers there have been in each year since 1979; and if he will make a statement. [4531]

Dawn Primarolo: I refer the hon. Member to National Statistics table 2.1 on HM Revenue and Customs website:

http://www.hmrc.gov.uk/stats/income_tax/table2-1.xls

Figures prior to 1990–91 can be found in Table 1.5 of Inland Revenue Statistics 1992, a copy of which is in the Library.

Tobin Tax

Mr. Kidney: To ask the Chancellor of the Exchequer what recent discussions he has had with Finance Ministers of other Governments about the viability of a Tobin tax. [3707]

Dawn Primarolo: At the June G8 meeting, Ministers agreed on a work programme on the IFF and its pilot (the IFF for Immunisation), some of the revenue proposals from the Landau Report brought forward by France and Germany, the Millennium Challenge Account and other financing measures. We believe the International Finance Facility remains the most developed proposal for providing additional resources in the region of the required $50 billion estimated for meeting the Millennium Development Goals. The Government are prepared to consider all proposals for raising international finance for development, but there would be significant technical problems with a tax of this sort and it is not being actively considered at the present time.

Tuition Fees

Peter Law: To ask the Chancellor of the Exchequer if he will provide the resources necessary to avoid the introduction of variable tuition fees in Wales to the Welsh Assembly Government. [4693]

Mr. Des Browne: In devolved areas of policy it is for the Welsh Assembly Government to decide their policies and priorities within their overall budget.

VAT

Keith Vaz: To ask the Chancellor of the Exchequer if he will make representations in the European Union for reduced VAT for contraceptives. [4731]

Dawn Primarolo: Under European VAT agreements, member states may apply a reduced VAT rate for products used for contraception.

Keith Vaz: To ask the Chancellor of the Exchequer if he will make representations in the European Union for reduced VAT for energy efficient buildings. [4730]

Dawn Primarolo: The Government are negotiating with their EU partners to achieve a reduced rate for energy-saving materials for DIY installation. Any changes to the list of permitted reduced rates require the agreement of all member states.

To encourage investment in domestic energy efficiency, the Government have introduced a broad range of measures, including reduced rates for the installation of micro-renewable energy, energy saving materials, micro-combined heat and power and air source heat pumps.

Keith Vaz: To ask the Chancellor of the Exchequer if he will make representations in the European Union for reduced VAT for places of worship. [4729]

Mr. Ivan Lewis: The Government are negotiating with their EU partners to achieve a reduced rate of VAT for repairs to listed places of worship. Any changes to the list of permitted reduced rates require the agreement of all member states.

The Chancellor announced in March 2001 that a grant scheme would be put in place to refund the difference between the standard rate of VAT and a reduced rate. This was extended to cover the full amount of VAT from 1 April 2004. The scheme is due to continue until March 2008, unless a reduced rate is achieved earlier.

LEADER OF THE HOUSE

Consultation

Mr. Allen: To ask the Leader of the House what steps he will take to increase consultation with Parliament. [3341]

Mr. Hoon: It is a function of the Leader of the House to ensure that the views of the House are communicated to Government. In addition to passing on matters raised at Business Questions, I am willing to meet with hon. Members from all parts of the House to discuss matters which concern them.

Standing Orders

Mr. Allen: To ask the Leader of the House if he will make it Government policy to support a change in the operation of Standing Order No. 13 in order to extend the ability of hon. Members to make representations to the Speaker for the earlier meeting of the House in certain circumstances. [3411]

Mr. Hoon: The Government see no need for a change in the operation of Standing Order No. 13. The Government have recalled Parliament whenever major developments have required it: six times since 1997. The Government would be resistant to any change which increased the pressure on the Speaker or politicised his role, or which led to recalls in circumstances which did not merit it.

SOLICITOR-GENERAL

Security Incident Trial

Sir Gerald Kaufman: To ask the Solicitor-General what the cost was of the trial of the individuals who broke into the House of Commons Chamber in September 2004. [2720]

The Solicitor-General: I am advised that the Prosecution costs were approximately £2,800. Costs orders were made against each of the defendants in the sum of £350 each.

Witness expenses were in the sum of £83. No claim was made to the court for witness expenses because the prosecutor had not been told of the figure at the time of sentencing.

I will write to my right hon. Friend with a more detailed breakdown on costs.

Violence (Sport)

Lady Hermon: To ask the Solicitor-General whether future guidelines issued by the Crown Prosecution Service to police forces in relation to violence carried out on the sporting field will extend to Northern Ireland. [3471]

The Solicitor-General: The Crown Prosecution Service (CPS) is responsible for the review and, where appropriate, the prosecution of criminal offences in England and Wales.

In the past, the CPS has issued general guidance on various topics (such as prosecuting racist crime, offences against the person), which can apply to violence, disorder and antisocial behaviour both on and off the sports field. The CPS is currently considering whether further guidance should be issued which specifically relates to criminal conduct on the playing field. However, as the CPS has no jurisdiction over criminal prosecutions in Northern Ireland, any further guidance would not directly extend to them, unless it is specifically adopted by their Director of Public Prosecutions.

CULTURE, MEDIA AND SPORT

Live8

Mr. Mark Field: To ask the Secretary of State for Culture, Media and Sport (1) what discussions she had with *(a)* local residents, *(b)* amenity societies and *(c)* other interested parties in advance of consent being given for the Live8 concert to take place in Hyde Park; [3935]

(2) what discussions she had with the organisers of the Live8 concert in Hyde Park on ensuring that the cost of clearing up after the concert will be met by the organisers. [3936]

Mr. Lammy: The Royal Parks Agency discussed the concert with the local authority, Westminster city council; with the Friends of Hyde Park and Kensington Gardens; with the local operational and safety planning group, which is chaired by Westminster city council and which includes representatives of the emergency and

rescue services, and with the Princes Trust, whose Party in the Park was already booked to take place that weekend.

The event organisers will arrange for the concert site to be cleared during and after the concert. However, as part of Government-wide support for tackling the problems affecting Africa, the Royal Parks Agency will not be charging the organisers for clearing up Hyde Park after this genuinely one-off event. My Department expects to bear those costs arising from Live8 which the Royal Parks are unable to absorb within their existing budgets.

London Olympic Bid

Mr. Willis: To ask the Secretary of State for Culture, Media and Sport what resources from public funds she is making available to run the office of the 2012 Olympic Bid Committee. [4258]

Tessa Jowell: Decisions regarding the running costs of the Bid company London 2012 Ltd. are made by the company itself and the Government have not made separate funding available for this. The Government have made up to £20 million of public funds available to London 2012: £10 million from the Department for Culture, Media and Sport; and £10 million from the London Development Agency. In addition, London 2012 has raised in excess of £8 million in private finance.

Mr. Mark Field: To ask the Secretary of State for Culture, Media and Sport what the aggregate public expenditure to date has been on the London 2012 Olympic bid. [4703]

Tessa Jowell: Public funding for London's bid for the 2012 Olympic Games consists of £20 million for the commercial company London 2012 and a further £10 million for bid-related supporting activities. To date, London 2012 has drawn down £17 million and £7.1 million of the bid support budget has been spent, giving a total spend of £24.1 million.

Lottery-funded Projects (Nottingham)

Mr. Allen: To ask the Secretary of State for Culture, Media and Sport if she will list the projects funded by the Lottery in Nottingham, North in the 2005–06 financial year. [3924]

Mr. Caborn: Awards made in Nottingham, North in this financial year to date (1 April 2005 to 10 June 2005) are shown in the following table:

Distributing body	*Recipient*	*Project*	*Award date*	*Award amount (£)*
Awards for All (England) Joint Scheme	Beacon FE	The organisation was recently set up to provide equipment and facility hire for under 10s football.	4 April 2005	2,373
Awards for All (England) Joint Scheme	William Sharp School	This school will use the award to set up and run an after-school dance club and centre of excellence for local primary schools. The award is for coaching fees, music resources, performance sessions, t-shirts and technical support.	10 May 2005	4,959
New Opportunities Fund	A veteran	A Second World War veteran from Nottingham has been awarded a grant towards travel costs for a veteran commemorative visit to Singapore and Thailand in November of this year. Funding has also been provided for a carer to travel with the veteran.	10 May 2005	2,100
New Opportunities Fund	A veteran	A Second World War veteran from Nottingham has been awarded a grant towards travel costs for a commemorative visit to France in May of this year. Funding has also been provided for a care to travel with the veteran.	10 May 1005	525
New Opportunities Fund	3 veterans	Three Second World War veterans from Nottinghamshire have been awarded a grant towards travel costs for a commemorative visit to Malta in September of this year. Funding has also been provided for two spouses to travel with the veterans.	18 May 2005	2,250

There will have been awards made this financial year by Lottery Distributors that have yet to be recorded, due to a degree of lag in the reporting process.

The information is freely available from the Department's searchable Lottery award database at www.lottery.culture.gsi.gov.uk, which uses information supplied by the Lottery distributors.

DEPUTY PRIME MINISTER

Business Rates

Mrs. Spelman: To ask the Deputy Prime Minister for what reasons transitional relief for the 2005 business rates revaluation in England is not subsidised by central Government. [4311]

Mr. Woolas: The Government see no reason why a transitional scheme for business should be subsidised by the general taxpayer. The Local Government Act 2003 made transition a permanent feature of non-domestic rates revaluations and required such schemes to be self-financing. Transition schemes from 2005 will therefore be funded by other non-domestic ratepayers.

Capital Spending (Housing)

Mr. Llwyd: To ask the Deputy Prime Minister (1) what the total capital spending allocation was for housing between 1997 and 2004; and if he will break down the payments by scheme; [4188]

(2) what payments have been made by the Government as investment in affordable housing in England, broken down by scheme in each year since 1997; and if he will make a statement. [4189]

Yvette Cooper: Government's capital investment in housing in England exceeded £4.7 billion in 2004–05, an increase of almost £2.9 billion over 1997–98 levels.

Table 1 shows how this total investment in England was split between the main housing programmes.

Table 1

	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	£ million 2004–05
Supported borrowing for local authorities[1,2]	617	955	1,022	1,819	684	785	837	795
Major Repairs Allowance[1]	—	—	—	—	1,587	1,529	1,459	1,406
Cash Incentive Scheme[1,3]	53	31	2	—	—	—	—	—
Estate Action	173	96	57	69	39	14	5	3
Housing Action Trusts[4]	66	53	45	71	68	75	60	45
Private sector renewal	192	166	165	0	21	8	8	5
Housing Market Renewal Pathfinders[5]	—	—	—	—	—	—	48	197
Disabled Facilities Grants	66	64	66	77	88	95	112	106
Arms Length Management Organisations	—	—	—	—	—	56	322	575
Affordable Housing via Housing Corporation's programmes	727	732	816	830	823	1,030	1,805	1,636
Total	1,894	2,097	2,173	2,866	3,310	3,592	4,656	4,768

[1] Two changes were made to funding arrangements from 2000–01 as part of wider initiatives to:
reduce ring fencing of funds to provide local authorities with more flexibility on use of resources in the light of local needs and priorities (the resources which had previously been allocated specifically for private sector renewal grants and Cash Incentive Scheme grants were include in the general funding provided for housing with only transitional payments occurring in later years); and
move to a basis of resource accounting for government accounts in 2001–02 (a separate funding stream—the Major Repairs Allowance—was established to cover the costs of maintaining council housing in its existing condition (as a proxy for depreciation).
[2] In each of 2002–03 and 2003–04 about £40 million was topsliced for an overall cross service performance reward pot supporting asset management.
[3] Funding to help existing council tenants purchase a home of their own thereby freeing up a home for a household in need.
[4] Some, but not all, of the investment within HATs will deliver housing outputs.
[5] In addition to this £48 million, £21 million from the Capital Modernisation Fund was spent in the Market Renewal pathfinder areas.

In addition, Government sponsor other capital programmes which support the housing agenda by levering in private sector investment on housing or supporting infrastructure development. For example, since 1998 we have allocated credits in Housing PFI totalling £259 million between 1998–99 to 2004–05 in schemes that have been signed.

Affordable housing

A significant proportion of the total expenditure between 1997–98 and 2004–05 supported provision of affordable housing—table 2 shows a detailed breakdown of the affordable housing programme.

Table 2

	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	2004–05
Approved Development Programme	667	603	635	727	799	925	1,590	1,600
Safer Communities Supported Housing Fund	0	0	0	0	9	27	27	11
Starter Home Initiative	0	0	0	0	2	67	172	7
Other	60	129	180	103	13	11	16	18
Total	727	732	816	830	823	1,030	1,805	1,636

This table represents the investment the Government have made via the Housing Corporation to registered social landlords for the provision and repair of affordable housing for both rent and low cost homeownership.

Council Tax

John Hemming: To ask the Deputy Prime Minister what the total council tax take was for 2004–05; and how much council tax was raised from second homes. [3733]

Mr. Woolas: The amount local authorities in England budgeted they needed to raise through council tax in 2004–05 was £20,299 million.

It is estimated that approximately £230 million was raised by local authorities from charging council tax on second homes in 2004–05.

Deputy Prime Minister (Properties)

Mrs. Spelman: To ask the Deputy Prime Minister if he will list the addresses of the properties provided by the Government for the use of the Deputy Prime Minister. [4374]

Jim Fitzpatrick: I refer the hon. Member to the answer given by my right hon. Friend the Prime Minister on 20 January 2005, *Official Report*, column 1037W.

Disabled Facilities Grants

Gregory Barker: To ask the Deputy Prime Minister (1) what assessment he has made of the number of people eligible for the Disabled Facilities Grant who are deterred from applying because of the means testing of claims; [4161]

(2) when he expects the Disabled Facilities Grant Review Group to publish its report; [4162]

(3) if he will make a statement on the take-up of the Disabled Facilities Grant since the introduction of means-testing. [4163]

Yvette Cooper: The Disabled Facilities Grant (DFG) was first introduced in 1990 following the coming into force of the Local Government and Housing Act 1989. It has always been subject to a means test.

Detailed information on the number of people deterred from applying for DFG because of the operation of the means test is not collected centrally. However, the latest evaluation of the DFG system in

England carried out by PIEDA plc for the Department of Environment in 1996 showed that of 38,000 annual inquiries about the grant, 10 per cent. (3,800) drop out because their income would mean they received no grant, 2 per cent. (800) drop out because they cannot afford their assessed contribution towards the costs of the works and 1 per cent. (400) refuse to submit to a means test.

As part of the current review of the DFG system a team from Bristol University are looking at the operation of the DFG system including the means test. The review is continuing and Ministers will put forward any proposals for change later in the year.

Fire Service

Lynne Featherstone: To ask the Deputy Prime Minister how many attacks there have been on fire officers in each of the last five years, broken down by brigade; how many people have been successfully prosecuted for carrying out such attacks; how many prosecutions are ongoing; and if he will make a statement. [4159]

Jim Fitzpatrick: I refer the hon. Member to the answer I gave to the hon. Member for Brent, East (Sarah Teather) on 13 June 2005, *Official Report*, column 114W.

John McDonnell: To ask the Deputy Prime Minister how many chemical or fuel spills or leaks or suspected chemical or fuel spills or leaks were attended by the Fire Service in each of the last 10 years for which figures are available. [2066]

Jim Fitzpatrick: Information is not collected centrally on attending incidents specifically concerning chemical or fuel spills or leaks.

The figures provided are for attending spills and leaks of all substances including those that are radioactive or hazardous, for standing by at spills or leaks and for attending gas leaks.

The number of spills or leaks incidents attended by the Fire and Rescue Service for the last 10 years in England is set out as follows:

	Number of incidents
1994–95	11,261
1995–96	13,228
1996–97	12,865
1997–98	13,153
1998–99	12,864
1999–2000	12,160
2000–02	13,529
2001–02	14,140
2002–03	13,097
2003–04	11,189

Source:
ODPM annual returns

The figures available cover dealing with all types of spills and leaks, and additionally incidents where only standby action was required.

Since 1994–95, the number of incidents attended has varied from year to year, but there was a discernable peak in 2001–02 when 14,140 incidents were attended. This represented a 26 per cent. increase compared with 1994–95. The number of incidents attended has fallen in the last two years, and in the most recent year there was a fall of 15 per cent. in the incidents attended, and the number is now below the 1994–95 level.

John McDonnell: To ask the Deputy Prime Minister how many incidents were attended by the Fire Service which required standby or precautionary action in a potentially hazardous situation in each of the last 10 years for which figures are available. [2067]

Jim Fitzpatrick: The figures provided are for attendance at a potentially hazardous situation, which includes, for example, 'standing by' while explosives are unloaded, or during an aircraft landing or an electrical power failure, but exclude standing by at spills or leaks which is included in the figures for attending spills or leaks.

The number of standby or precautionary action incidents attended by the Fire and Rescue Service in England is set out as follows:

	Number of incidents
1994–95	1,941
1995–96	2,024
1996–97	2,126
1997–98	2,003
1998–99	1,753
1999–2000	1,965
2000–02	1,867
2001–02	1,904
2002–03	1,751
2003–04	1,634

Source:
ODPM annual returns

The number of incidents attended increased by 10 per cent. between 1994–95 and 1996–97. Between 1996–97 and 2001–02, the pattern was variable with some years increasing and others showing a fall in the number of standby incidents. Since 2001–02, the number of incidents attended has fallen sharply, by 14 per cent., to 1,634 in 2003–04. The latest figure is 23 per cent. below the peak of 2,126 in 1996–97.

Sarah Teather: To ask the Deputy Prime Minister how many *(a)* fire engines, *(b)* firefighters and *(c)* fire stations there were in London in each of the last five years. [2527]

Jim Fitzpatrick: The number of fire engines, firefighters and fire stations in the London Fire and Emergency Planning Authority for the last five years is set out as follows:

At 31 March:	*Fire engines*	*Whole-time firefighters*[1]	*Fire stations*
2000	185	5,639	112
2001	185	5,693	112
2002	185	5,913	112
2003	185	5,875	112
2004	185	5,986	112

ODPM annual returns

Homelessness

Sarah Teather: To ask the Deputy Prime Minister how many persons are *(a)* registered homeless with and *(b)* on the housing waiting lists of (i) Maidstone district council, (ii) Milton Keynes council and (iii) Basingstoke and Deane council. [2458]

Yvette Cooper: Information about local authorities' actions under homelessness legislation is collected quarterly and is in respect of households rather than persons. Information on the numbers on local authorities' Housing Registers is collected annually and is also in respect of households.

The number of households accepted as eligible for assistance, unintentionally homeless and in priority need during 2004, and the number of households in temporary accommodation arranged by local authorities under homelessness legislation as at 31 December 2004 as reported by each of these local authorities is tabled as follows. Also shown is the number of households on each authority's Housing Register as at 1 April 2004.

The duty owed to a person accepted as eligible for assistance, unintentionally homeless and in priority need is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available. As an alternative to the provision of temporary accommodation some authorities arrange for households to remain in their current accommodation (homeless at home), until a settled solution becomes available.

Information is also collected, since 1998, on the number of people who sleep rough—that is, those who are literally roofless on a single night—and these are also tabled.

	Accepted[1] as owed a main duty during 2004	*In temporary accommodation[2] on 31 December 2004*	*Households on the housing register as at 1 April 2004*	*Rough sleepers 2004[3] (Number of persons)*
Maidstone	264	149	1,254	0
Milton Keynes	852	1,467	2,951	0
Basingstoke and Deane	128	150	4,761	2

[1] Households eligible under homelessness legislation, found to be unintentionally homeless and in a priority need category, and consequently owed a main homelessness duty.
[2] Households in accommodation either pending a decision on their homelessness application or awaiting re-allocation of a settled home following acceptance. Excludes those households designated as "homeless at home" that have remained in their existing accommodation and have the same rights to suitable alternative accommodation as those in accommodation arranged by the authority.
[3] June 2004 estimates.
Source:
ODPM: Homelessness returns (quarterly) and Housing Strategy Statistical Appendix (annual)

Sarah Teather: To ask the Deputy Prime Minister how many people were registered as homeless in each London borough; and what the figures were per 1,000 population in the last year for which figures are available. [2546]

Yvette Cooper: Information about local authorities' actions under homelessness legislation is collected quarterly and is in respect of households rather than persons. The number of households accepted by each London borough as eligible for assistance, unintentionally homeless and in priority need during 2004, and expressed as a rate per 1,000 households, estimated to be living in the borough in 2003, is in the table.

The duty owed to a person accepted as eligible for assistance, unintentionally homeless and in priority need is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available. As an alternative to the provision of temporary accommodation some authorities arrange for households to remain in their current accommodation (homeless at home), until a settled solution becomes available.

Information is also collected, since 1998, on the number of people who sleep rough—that is, those who are literally roofless on a single night—and these are also presented in the following table.

Reported acceptances in 2004

	Mid-year household estimates (2003)	*Total households accepted[1]*	*Annual rate per 1,000 households*	*Rough sleepers 2004[2] (Number of persons)*
Barking and Dagenham	67	776	11.6	0

ODPM: Homelessness returns (quarterly); and
Housing Strategy Statistical Appendix (annual)

Pensions

Mrs. Spelman: To ask the Deputy Prime Minister what proportion of the Local Government Pension Scheme is invested in UK equities. [4305]

Mr. Woolas: The information is not held centrally and could be provided only at disproportionate cost. Individual Local Government Pension Scheme pension fund authorities can provide specific figures for their funds.

Planning Applications (Covenants)

Mr. Duncan Smith: To ask the Deputy Prime Minister (1) if the Government will introduce legislation ensuring that planning authorities are bound by covenants on land for which a planning application has been submitted; [3922]

(2) what statutory obligations there are on local authority planning departments to ensure that they do not grant planning requests if such requests are in breach of existing covenants. [3923]

Yvette Cooper: Restrictive covenants protect private rights and benefits of the owners or occupiers of the land specified in them. Covenants are privately negotiated and agreed. If a covenant is breached, it would be for those affected to see if enforcement would be possible; through the courts, if necessary.

Private rights are quite separate from planning considerations. Planning decisions are taken in the broader public interest, in the light of policies in development plan documents and of any other factor relevant to land-use planning. There is public involvement when plan documents are put forward for adoption, or planning applications made. Accordingly, the existence of a restrictive covenant should not be the basis of a decision about a planning application or appeal.

Shared Ownership Schemes

Mrs. Spelman: To ask the Deputy Prime Minister how many people have participated in a shared ownership scheme in each year since 1990. [1102]

Yvette Cooper: Figures on the number of people or households participating in a shared ownership scheme are not available.

Toyota Prius

Peter Viggers: To ask the Deputy Prime Minister whether he was offered the free use of a Toyota Prius motor car; and what his response was. [4710]

Jim Fitzpatrick: My right hon. Friend the Deputy Prime Minister has not been offered the free use of a Toyota Prius motor car.

My right hon. Friend is provided with an official car and driver from the Government Car Service in accordance with the rules set out in the 'Ministerial Code' and 'Travel by Ministers', copies of which are available in the Libraries of the House.

Wardens

Mrs. Spelman: To ask the Deputy Prime Minister if he will publish figures for the central Government funding of neighbourhood warden schemes in each year since their commencement. [4268]

Mr. Woolas: Funding for neighbourhood warden schemes from the Office of the Deputy Prime Minister (ODPM) is shown in the following table.

	£ million
2000–01	4.5
2001–02	5
2002–03	4.5
2003–04	5
Total	19

Mrs. Spelman: To ask the Deputy Prime Minister what plans the Government has to provide central funding for *(a)* community wardens and *(b)* neighbourhood wardens after March 2006. [1101]

Mr. Woolas: There are no current plans to centrally fund either community wardens or neighbourhood wardens after March 2006.

It was the Government policy to pilot fund warden schemes for a limited period as was announced to test the concept.

The Office of the Deputy Prime Minister is in contact with local authorities to analyse progress towards the mainstreaming of funding. In fact 83 per cent. of first round schemes and 84 per cent. of second round schemes secured future funding after the Office of the Deputy Prime Minister financial support ceased.

CABINET OFFICE

Faith Awareness Training

Mr. Paul Goodman: To ask the Chancellor of the Duchy of Lancaster how many civil servants in the Department received faith awareness training in 2004. [3813]

Mr. Hutton: The Cabinet Office does not have a separate departmental faith awareness training programme.

Information about faith awareness is provided for all staff via the departmental intranet. Diversity and equality issues are also covered in the Department's selection and management development programmes.

Mr. Paul Goodman: To ask the Chancellor of the Duchy of Lancaster what recent consultations have been carried out by his Department with representatives of faith communities; and if he will make a statement. [3890]

Mr. Hutton: The Cabinet Office has not recently undertaken formal consultations that have required specific consultation with representatives of faith communities.

TRADE AND INDUSTRY

Businesses (London)

Sarah Teather: To ask the Secretary of State for Trade and Industry how many businesses have ceased trading in *(a)* Brent, East and *(b)* each London borough in each year since 1997. [2536]

Alun Michael: DTI figures based solely on VAT de-registrations for the Brent, East parliamentary constituency area and all the London borough areas are shown as follows for 1997 to 2003. Data for 2004 will be available in autumn 2005.

VAT de-registrations	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Brent East parliamentary constituency	255	340	315	415	315	345	340
Outer London							
Barking and Dagenham	255	380	260	235	255	265	260

Source:
VAT Registrations and De-registrations 1994–2003, Small Business Service, available from http://www.sbs.gov.uk/vats

VAT de-registrations do not give a complete picture of business closures. Businesses that de-register will not necessarily have closed. For example, they might continue to trade but at a turnover level below the VAT threshold. Only 1.8 million out of 4 million enterprises were registered for VAT at the start of 2003.

Sarah Teather: To ask the Secretary of State for Trade and Industry what the average income was of a small business in *(a)* Brent East and *(b)* each London borough in each year since 1997. [2517]

Alun Michael: Data on the average profit or gross value added of all small businesses are not available. Turnover gives an alternative indication of the income of a business; it corresponds to the market sales of goods and services, excluding VAT. Figures on the average turnover of small businesses are only available at the national and regional level. They are not available for Brent, East or any London borough separately.

The average turnover of a small business (defined as a business with zero to 49 employees) in the UK in each year since 1997 is as follows:

In UK at the start of:	*Average turnover[1]/£1,000:*
1997	193
1998	202
1999	201
2000	205
2001	206
2002	216
2003	215

[1] Excludes turnover in financial intermediation.

The average turnover of a small business based in London in each year since 1997 is as follows:

Based in London at the start of:	*Average turnover[1]/£1,000:*
1997	354
1998	330
1999	282
2000	[2]
2001	276
2002	[2]
2003	312

[1] Excludes turnover in financial intermediation.
[2] London figures for 2000 and 2002 are not available.
Source:
Small Business Service Small and Medium-sized Enterprise Statistics, www.sbs.gov.uk/smes

The average turnover of a small business in the UK at the start of 2004 will be available in August 2005.

Community Interest Companies

Mr. Kidney: To ask the Secretary of State for Trade and Industry what estimate he has made of the likely level of use that will be made of the new community interest companies in the management of voluntary organisations in England. [3711]

Alun Michael: As stated in the Regulatory Impact Assessment prepared for the Companies (Audit, Investigations and Community Enterprise) Act 2004, take-up of community interest companies is hard to estimate given the lack of overall data on start-ups in the social enterprise sector. We expect that the community interest companies will be used initially mainly by new enterprises, rather than existing organisations which are already operating through an existing legal form. Our working assumption is that initially there may be between 100 and 300 new community interest companies registering each year. This figure was considered low by some of those who responded to consultation, but they did not produce any evidence on which to base a different forecast of initial take-up. The management of voluntary organisations seems to me to be a quite separate issue.

Export Control Organisation

Mr. Drew: To ask the Secretary of State for Trade and Industry what plans he has for the Export Arms Sales Unit; and if he will make a statement. [4066]

Malcolm Wicks: The Export Control Organisation is currently considering how best it can continue to deliver high quality export licensing services to industry and contribute to the Government's counter-proliferation effort. No decisions have been taken.

Mr. Drew: To ask the Secretary of State for Trade and Industry how many staff were employed in the Export Arms Sales Unit at the end of March in *(a)* 2003 and *(b)* 2004; and how many are planned for (i) 2005 and (ii) 2006. [4067]

Malcolm Wicks: The Export Control Organisation (ECO) had 146 staff in post at end March 2003,158 staff at end March 2004, and 143 staff at end March 2005. There is an overall target for an ECO headcount of 109 by 1 April 2006.

Mr. Drew: To ask the Secretary of State for Trade and Industry what discussions he has had with the trades unions over the future of the Export Arms Sales Unit. [4068]

Malcolm Wicks: I am in the process of arranging such discussions.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what representations the Government have received from other governments regarding his Department's consideration of private sector involvement in delivering some of the Export Control Organisation's services. [3168]

Malcolm Wicks: None.

Lynne Jones: To ask the Secretary of State for Trade and Industry how many staff were employed by the Export Control Organisation in each of the last five years. [2334]

Malcolm Wicks: The Export Control Organisation (ECO) had an average of staff:

	Staff
2000–01	143
2001–02	142
2002–03	146
2003–04	156
2004–05	142

MG Rover

Lynne Jones: To ask the Secretary of State for Trade and Industry if the Government will publish in full the findings of the Financial Reporting Council into the finances of MG-Rover; and when the Council is expected to report. [1278]

Ian Pearson: My then right hon. Friend the Secretary of State announced on 31 May the appointment of inspectors to investigate and report on the affairs of MG Rover Group, including Phoenix Venture Holdings Ltd. and MGR Capital Ltd. It is intended that the inspectors will do their work as quickly as possible and their report will be published.

The Financial Reporting Review Panel have not published their report and the Government have been advised that to do so would be prejudicial to those potentially affected by it and to the regulatory process.

THORP Plant

Norman Baker: To ask the Secretary of State for Trade and Industry what period of time elapsed between instruments at the Thorp plant indicating that a leak of radioactive material was occurring and the decision being taken to close the facility. [3277]

Malcolm Wicks *[holding answer 13 June 2005]:* British Nuclear Group Sellafield Ltd. suspended operations at THORP as soon as it became clear to them that a leak was occurring. However the results of BNGSL's investigation suggests that the pipe may have started to fail in August 2004 and that complete failure of the pipe may have occurred in mid January 2005. Opportunities such as cell sampling and level measurements were missed which would have shown that material was escaping to secondary containment.

A British Nuclear Group investigation has made recommendations to improve the maintenance, testing and reliability of cell instrumentation and other systems that give indications of plant abnormality. A separate independent investigation by the Health and Safety Executive's Nuclear Installations Inspectorate is considering both technical issues and broader safety culture and management of nuclear safety issues, and this will provide the basis for any subsequent enforcement actions.

Unsolicited Telephone Calls

Dr. Pugh: To ask the Secretary of State for Trade and Industry what action the Government have taken to ensure that owners of mobile phones do not receive unsolicited calls from firms selling goods. [4226]

Alun Michael: The Department introduced the Privacy and Electronic Communications (EC Directive) Regulations in 1999, which provides a scheme called the Telephone Preference Service scheme. This provides protection to mobile phone subscribers from receiving unsolicited calls from firms selling goods. The Information Commissioner's Office has responsibility for the enforcement of the TPS scheme.

TRANSPORT

Air Travel Levy

Mr. Marshall: To ask the Secretary of State for Transport (1) if he will introduce a levy on all UK outbound flights to pay for protection arrangements for air travellers; [4588]

(2) if he will make it his policy to replace ATOL bonding with a simple levy on outbound UK air passengers to pay for consumer protection of air travellers. [4590]

Ms Buck: The Department is considering the Civil Aviation Authority's economic analysis and assessment of the likely regulatory impact of a range of options for the future financial protection of air travellers.

Aircraft Insurance Costs

Derek Wyatt: To ask the Secretary of State for Transport what discussions he has had with the European Commission about the effect of regulations on the levels of insurance premiums relating to vintage aircraft, with particular reference to the Imperial War Museum at Duxford. [3274]

Ms Buck: On 2 June the Department attended a meeting of the European Commission's Ad-Hoc Group on aviation insurance and expressed concern at the effect of Regulation 785/2004 on the cost of vintage aircraft insurance. The chairman of the Civil Aviation Authority has also written to the Commission on the same issue.

Cars

Norman Baker: To ask the Secretary of State for Transport what the average mileage of a car was in the UK for each year since 1985. [4475]

Dr. Ladyman: Data from the National Travel Survey is shown in the table. Data from 1990 to 2002 are presented on a three-year rolling average basis.

Average annual car mileage

	Miles
1985–86	8,880
1990	9,600
1991	9,570
1992	9,490
1993	9,540
1994	9,550
1995	9,510
1996	9,370
1997	9,280
1998	9,200
1999	9,270
2000	9,100
2001	9,040
2002	8,960

Norman Baker: To ask the Secretary of State for Transport how many cars have ceased to be licensed in each year since 1985. [4476]

Dr. Ladyman: The estimated number of cars that have ceased to be licensed during each year is as follows:

	Number of cars (million)
1985	1.39
1986	1.30
1987	1.52
1988	1.15
1989	1.44
1990	1.48
1991	1.57
1992	1.40
1993	1.47
1994	1.48
1995	1.78
1996	1.21
1997	1.56
1998	1.76
1999	1.53
2000	1.87
2001	1.85
2002	2.03
2003	2.18
2004	1.81

Motorway Fencing

Mr. Greg Knight: To ask the Secretary of State for Transport what criteria he uses to determine whether a particular stretch of motorway should have fencing installed alongside the carriageway; how many miles of motorway in England and Wales have met such criteria; and how many miles of fencing have been erected to date. [3743]

Dr. Ladyman: The Secretary of State for Transport is responsible for the strategic road network, comprising motorways and high-speed all-purpose trunk roads, in England. The National Assembly for Wales is responsible for roads in Wales.

Fencing designed to control the spread of traffic noise is often provided on the strategic road network to mitigate the effects of increased traffic noise arising from both newly constructed and substantially improved strategic roads. The need for these is considered as part of the assessment of the overall impact of the scheme on the surrounding environment. There are no specific criteria, but a judgment is made about their cost-effectiveness, taking into consideration the sensitivity of the area and the number of people affected, compared with the alternative of providing statutory insulation of residential properties meeting the criteria specified in the Noise Insulation Regulations 1975.

In addition, this type of fencing has been provided at a number of locations meeting sift criteria announced on 22 March 1999 in conjunction with a £5 million annual ring-fenced budget.

To date, various lengths of fencing have been provided to protect groups of properties within 26 locations on the strategic road network that qualified for consideration under the sift criteria identified in the announcement. A further four locations will have barriers provided this year. Information on the exact lengths of fencing that have been provided at these locations is not held centrally.

Oil Tankers

Mr. Chope: To ask the Secretary of State for Transport what the policy of the Government is on the transport of crude oil in single hull tankers in the area of the Solent. [4373]

Dr. Ladyman: Single hull tankers carrying heavy grade oils, including the heavier grades of crude oil (high density or high viscosity), are not allowed to enter or leave a port or offshore terminal or anchor in an area under the jurisdiction of the United Kingdom.

International agreements still allow the lighter grades of crude oil to be carried in single hull tankers. By 2006, these tankers will have been constructed with some form of protection against collision or grounding. These tankers will no longer be allowed to enter or leave a port or offshore terminal or anchor in an area under the jurisdiction of the United Kingdom in 2010, unless they are modified to comply with the double hull construction requirements of the IMO MARPOL Annex I regulations.

Pedicabs/Rickshaws

Mrs. Dunwoody: To ask the Secretary of State for Transport what estimate he has made of the numbers of pedicabs and rickshaws operating on a commercial basis. [3182]

Ms Buck: None, though I understand Transport for London estimate that there are about 200 pedicabs in operation in London.

Mrs. Dunwoody: To ask the Secretary of State for Transport what his most recent estimate is of the numbers of passengers using pedicabs and rickshaws in a year. [3183]

Ms Buck: This information is not available. It is not collected by the Department and to do so would involve disproportionate cost in relation to the small numbers of passengers carried.

Mrs. Dunwoody: To ask the Secretary of State for Transport what tests he has commissioned to assess the structural safety of pedicabs and rickshaws; when those tests were undertaken; and what the results were. [3184]

Ms Buck: The Department has not commissioned any tests of pedicabs or rickshaws.

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will introduce minimum standards of structural safety for pedicabs and rickshaws. [3185]

Ms Buck: Pedicabs and pedal rickshaws are three-wheeled pedal cycles and thus fall under the requirements of the Pedal Cycles (Construction and Use) Regulations 1983 and the road Vehicles Lighting

Regulations 1989 as amended. They are also subject to the EC Directive on General Product Safety. There are no plans to introduce new minimum standards of structural safety for pedicabs or rickshaws.

Mrs. Dunwoody: To ask the Secretary of State for Transport what standards relating to vehicle construction and maintenance apply to *(a)* pedicabs and rickshaws plying for hire and *(b)* licensed taxis. [3186]

Ms Buck: Pedicabs and pedal rickshaws are three-wheeled pedal cycles and therefore fall under the Pedal Cycles (Construction and Use) Regulations 1983. Lighting requirements are prescribed in the Road Vehicles Lighting Regulations 1989 as amended. The vehicles are also subject to the EC Directive on General Product Safety.

Licensed taxis, like other powered road vehicles, must comply with the Road Vehicles (Construction and Use) Regulations 1986 as amended and the Road Vehicles Lighting Regulations 1989 as amended. In addition, new cars, including taxis, must have European Whole Vehicle Type Approval.

Local licensing authorities determine suitable construction standards for licensed taxis, beyond statutory roadworthiness requirements. In London, Transport for London's Conditions of Fitness essentially define the London-style cab. Elsewhere each authority formulates its own policy. Outside London a pedicab or pedal rickshaw can be licensed as a hackney carriage (taxi) under the Town Police Clauses Act 1847. In London they are not currently licensed.

The testing of licensed taxis is also for licensing authorities, who have powers to monitor vehicles' continued suitability during the currency of a licence, by spot checks or formal testing.

Mrs. Dunwoody: To ask the Secretary of State for Transport what training is required of riders of pedicabs and rickshaws plying for hire. [3187]

Ms Buck: In England and Wales, outside London, if pedicabs or rickshaws are licensed as hackney carriages by the relevant local authority then any training requirements for drivers would be a matter for that local authority.

Inside London, pedicabs are not currently subject to licensing controls and there are no mandatory requirements for training, though I understand some pedicab operators provide training to their drivers.

Mrs. Dunwoody: To ask the Secretary of State for Transport what injuries have occurred to passengers in pedicabs and rickshaws in the last 12 months. [3190]

Ms Buck: The information requested is not available. Information regarding accidents involving pedicabs or rickshaws are not separately identified in the Department's road accident collection system. Pedicabs or rickshaws are included in other vehicles whose body type is categorised as "pedal cycle".

Mrs. Dunwoody: To ask the Secretary of State for Transport what insurance must be obtained by the riders or owners of pedicabs and rickshaws plying for hire. [3205]

Ms Buck: In England and Wales, outside London, if pedicabs are licensed as hackney carriages by the relevant local authority then any insurance requirements would be a matter for that local authority in the context of its licensing regime.

Inside London, pedicabs are not subject to licensing controls and there is no statutory requirement for riders or owners to have insurance.

Mrs. Dunwoody: To ask the Secretary of State for Transport what representations he has received in the last 12 months about the activities of riders and operators of pedicabs and rickshaws. [3206]

Ms Buck: We have received two letters making representations on this matter in the last year.

Mrs. Dunwoody: To ask the Secretary of State for Transport what meetings *(a)* he and *(b)* his officials have had with Transport for London about the activities of riders and operators of pedicabs and rickshaws in the last 12 months. [3207]

Ms Buck: The Department's Ministers or officials have had no meetings with Transport for London specifically on these matters in the last 12 months.

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will convene a meeting of representatives of Transport for London, the police, affected local authorities and other relevant parties to discuss the activities of riders and operators of pedicabs and rickshaws. [3208]

Ms Buck: There are no current plans to call such a meeting, but this is being kept under review.

Rail Passengers Council

Mike Gapes: To ask the Secretary of State for Transport in which newspapers advertisements were placed for recruitment of members of the Rail Passengers Council. [3927]

Derek Twigg: Advertisements for the 12 member appointments that the Secretary of State has recently made to the Rail Passengers Council were placed in *The Sunday Times*, *The Daily Telegraph*, *The Times*, *The Western Mail*, *The Glasgow Herald* and *The Scotsman*.

Road Accidents

John Hemming: To ask the Secretary of State for Transport how many personal injury accidents there have been on the roads in each Government Office Region in each year since 1990; how many involved serious injuries; and how many *(a)* people in total and *(b)* children died. [3732]

Dr. Ladyman: The information requested has been placed in the Libraries of the House.

Road Freight

Norman Baker: To ask the Secretary of State for Transport what has been the annual movement of freight by road, in billion tonne kilometres, for each year from 1997 to date. [4563]

Dr. Ladyman *[holding answer 14 June 2005]:* Information is as follows.

Freight transport by road in Great Britain[1]

	Billion tonne kilometres
1997	157
1998	160
1999	157
2000	158
2001	157
2002	157
2003	159

[1] Figures are for freight moved within Great Britain by UK registered goods vehicles, including those up to 3.5 tonnes gross weight.
Source:
Table 4.1 Transport Statistics Great Britain

Speed Cameras

Mr. Jenkins: To ask the Secretary of State for Transport how many speed safety cameras there have been in Tamworth in each year since 1997. [3328]

Dr. Ladyman: The information broken down as requested is not held centrally by the Department. The Staffordshire Safety Camera Partnership publishes details of the number of safety camera sites, by local authority area, available through its website, www.staffordshire.gov.uk/cameralifesavers.

John Hemming: To ask the Secretary of State for Transport how many speed cameras were installed in each Government Office Region in each year since 1990. [3745]

Dr. Ladyman: The Department only holds the requested information at Safety Camera Partnership level. I refer to my answer of 9 June 2005, *Official Report*, columns 617–19W. Further detailed information is available from partnerships.

Traffic Volume

Tom Brake: To ask the Secretary of State for Transport what the average 24 hour traffic volume has been in each month since January at the *(a)* Norton Canes to A34 Great Wyrley, *(b)* Shenstone to Chasetown and *(c)* Wishaw to A38 automatic traffic counters on the M6 toll road on (i) Mondays to Fridays, (ii) Saturdays and (iii) Sundays. [2299]

Dr. Ladyman: The information requested is not held by the Department for Transport. The M6 Toll road is operated by Midlands Expressway Ltd. Further information may be available on their website (m6toll.co.uk).

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Welfare

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what standards for animal welfare will apply to agri-environmental schemes under the England Rural Development Programme from 2007–08; and what discretion she has to seek derogations from EU standards. [2676]

Jim Knight: Negotiations on the draft Rural Development Regulation are expected to reach a conclusion at the Agriculture Council on 20–22 June. We expect that an animal welfare measure will—as now—be among the options available to member states; although not as part of a combined agri-environment and animal welfare measure. Decisions on whether to make payments under this measure from 2007 are part of the process of designing a successor Rural Development Programme, and will be taken in the light of responses to a full consultation this autumn. There will be difficult choices to make about how best to allocate limited resources but we will bear in mind the importance of ensuring that legal animal welfare requirements are fully adhered to.

Mr. Crabb: To ask the Secretary of State for Environment, Food and Rural Affairs how she intends to use the UK's presidency of the European Union to improve animal welfare standards in the broiler industry. [3770]

Mr. Bradshaw: The EU has an important role to play in regard to farm animal welfare. The European Commission intend to introduce proposals for a Directive on the welfare of broiler chickens later this year which we plan to progress during the UK's presidency.

Badger Culling

Mrs. Dean: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to receive the results of the validation of the survey in the badger culling trial areas. [4425]

Mr. Bradshaw: The Independent Scientific Group on Cattle TB (ISO) has analysed 2002–03 data and intends to present the 2004 data at its July 2005 meeting, after which we will need to decide on the value of the data.

Cormorants

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs how many licences to kill cormorants have been issued in each Government Office region under her Department's revised policy announced on 16 September 2004; and how many cormorants have been licensed to be killed in each region as a result of such licences. [2692]

Jim Knight: Up until 8 June 2005 the Department granted 325 licences. The minimum number of birds which have been licensed to be killed is 1,957 although actual numbers of birds killed is likely to be less. The data on licences per region is not currently available. National licensing statistics, along with the number of cormorant licences issued in each Government office region, will be published in the summer.

Departmental Union Representatives

Mr. Jenkins: To ask the Secretary of State for Environment, Food and Rural Affairs how many trade union learning representatives there are in her Department. [3308]

Jim Knight: There are currently 15 union learning reps in Defra from both the Public and Commercial Services Union and Prospect but more are planned. Defra has worked with the unions to develop a Union Learning Reps agreement covering their role. Both Defra and Defra unions are committed to working in

partnership with each other to promote and support lifelong learning activities and opportunities inside and outside the workplace.

Foot and Mouth

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what response she will make to the main findings of the cost-benefit study of foot and mouth disease control strategies, with particular reference to vaccination. [3871]

Mr. Bradshaw: The report indicates the overall size and cost of any future outbreaks are very likely to be less than in 2001 because there are now fewer movements of livestock, we have a movement stand still and there would be an immediate national movement ban and swift implementation of the revised contingency plan when foot and mouth disease (FMD) is first detected. It therefore supports the steps the Government have taken since 2001 to manage the risk of another outbreak.

Overall, the report suggests that vaccination reduces the size and extent of medium and large outbreaks—although at an additional financial cost in all but the largest outbreaks.

The basic disease control policy required under the new EU FMD Directive remains the slaughter of all susceptible animals on premises infected with FMD and those identified as "dangerous contacts". However, the Directive gives greater prominence to the potential use of emergency vaccination, as an additional control measure to culling.

The Government will consider emergency vaccination as a disease control option from the start of any outbreak of FMD; on the basis of vaccinate to live, wherever possible. This is in line with the recommendations of the main FMD Inquiries.

The Cost Benefit Analysis (CBA) will help us gauge which disease control option we should use in which circumstance. It will also help us plan resources for an outbreak and generally improve our understanding of the costs of different disease control policies.

The CBA report does not, however, propose a unique single strategy for dealing with a future outbreak of foot and mouth disease (FMD).

The epidemiological and economic information the report provides, will be used to help determine the most appropriate control strategy or strategies to regain FMD-free status without routine vaccination under a range of defined circumstances, should the disease break out in the future.

Hazardous Waste

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many convictions have been secured by the Environment Agency's for fly-tipping of hazardous waste since 16 July 2004. [3460]

Mr. Bradshaw: There have been four such convictions since 16 July 2004. However, the Environment Agency follows the general principles set out in its Enforcement and Prosecutions Policy which means that preventive or remedial action is taken to protect the environment or to secure compliance with the regulatory system governing waste.

During July 2004 to April 2005 the agency dealt with 527 fly-tipping incidents involving asbestos or chemical drums/oil/fuel.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how much hazardous waste was produced in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003 and *(e)* 2004; [3463]

(2) how many producers of hazardous waste there were in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003 and *(e)* 2004. [3464]

Mr. Bradshaw: The data derived from the Environment Agency special waste tracking system are as follows:

	Quantity of special waste produced (tonnes)	*Number of hazardous waste producers*
2000	5,196,000	117,420
2001	5,214,000	99,829
2002	5,058,000	91,194
2003	4,772,000	96,050
2004	[1]	87,749

[1] Available in August 2005

Nappies

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the life cycle assessment on disposable and reusable nappies recently published by the Environment Agency, with particular reference to *(a)* the reusable nappy product sample used and *(b)* the methodology used to collect the consumer data; and if she will make a statement. [3130]

Mr. Bradshaw: The Government consider that the Environment Agency's LCA is a useful piece of work. It nevertheless considers that further work should be carried out to look at the environmental impacts of the main re-usables in current use. The survey forming the basis of the LCA was carried out in 2002–03 and showed that terry nappies were the main type of reusable nappy used. 2004 sales data suggest that pre-fold nappies have overtaken terries with more than 50 per cent. of sales. So the LCA needs to be reassessed reflecting the environmental impacts of recent increases in the proportion of other types of reusable nappies. The Environment Agency has been asked to commission this further work.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what policies she has to reduce the number of disposable nappies going to landfill. [3132]

Mr. Bradshaw: The Government have tough targets to meet under the Landfill Directive to reduce the amount of biodegradable municipal waste going to landfill. The Government strategy to meet these targets includes measures to minimise the amount of waste. As part of this the Government are funding, through the Waste and Resources Action Programme (WRAP), a programme on reusable nappies.

The aim of the WRAP programme is to convert 155,000 households to re-usable nappies by April 2006, thereby diverting 35,000 tonnes per annum of disposable nappy waste from landfill.

The WRAP programme includes making information available to parents, health care professions and other points of contact for parents e.g. nurseries. WRAP is also working to raise the profile of existing nappy laundering businesses and supporting the development of others.

Primates

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to introduce a ban on the keeping of primates as pets. [4250]

Jim Knight: We are looking carefully at this issue, and plan to go out to public consultation by the end of July to seek views on how powers under Article 8.2 of European Council Regulation 338/97 should be used in relation to the holding of specimens of certain exotic animals subject to control under the Convention on International Trade in Endangered Species (CITES), including primates.

Race Relations (Amendment) Act 2000

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs how many and what percentage of staff in her Department have received training on the general and specific duties of the Race Relations (Amendment) Act 2000, broken down by *(a)* ethnicity and *(b)* grade. [3533]

Jim Knight: The Race Relations (Amendment) Act (RRA) 2000 places a general duty on Government Departments to have regard to the need to eliminate unlawful discrimination and to promote equality of opportunity and good relations between people of different racial groups.

In line with the specific duties imposed the Department published a Race Equality Scheme which set out how the Department planned to meet the duties imposed; including those relating to training; The Department is committed to ensuring that its staff are properly trained so that they can make equality and diversity core issues to their work, whatever their area of responsibility. Specialist equal opportunities training for those working in areas which impacted directly on people was provided to 262 staff in the last financial year. The grade and ethnicity breakdown is as follows:

	White	*Asian*	*Black*	*Mixed*	*Other*	*Unknown*	*Total*
SCS	1	0	0	0	1	0	2
G6	0	0	0	0	0	1	1
G7	19	2	0	0	1	8	30
SEO	6	0	0	0	0	4	10
HEO	33	2	2	0	0	11	48
EO	43	4	8	3	1	16	75
AO	47	7	6	0	0	17	77
AA	8	0	2	2	0	7	19
Total	157	15	18	5	3	64	262

Training on issues relating to race, and other key equality areas are incorporated into a range of learning opportunities, including comprehensive information and guidance on the Departments internal website. The Diversity and Equality Unit have provided a number of presentations to Business Units (over 100 staff) and have used these to facilitate discussions on a number of equality issues. These included work required within business units to address the duties arising from the RRA and other equality legislation e.g. the impending duties relating to disability.

Specific training on the duties arising from the RRA delivered through an external consultant were provided to staff working in areas identified in the Race Equality Scheme as relevant to the RRA. The seminars provided an overview of the responsibilities arising from the RRA as well as guidance on mainstreaming race equality in policy development and in service delivery. Feedback from recent workshops which was specifically targeted at senior managers is currently being evaluated. It will be used to inform the work under way to review the Race Equality Scheme and future strategies for providing staff with the required training. Details of staff attending specific Race Relations training is as follows:

	White	*Asian*	*Black*	*Mixed*	*Other*	*Unknown*	*Total*
SCS	2	0	0	0	0	0	2
G6	10	0	0	0	0	0	10
G7	28	0	0	1	0	4	12
SEO	29	0	0	0	0	1	30
HEO	63	0	3	1	1	1	69
EO	36	1	2	1	0	0	99
AO	18	0	5	0	0	2	25
AA	0	0	0	0	0	0	0
Total	186	1	10	3	1	8	247

Currently the Department is unable to monitor comprehensively attendance at all training events. The new Human Resource database which was introduced in July 2004 should enable such monitoring in the future. However the module that will provide this functionality has not yet been rolled out. Data are therefore only available for courses which were organised centrally. As a result we are unable to provide details of attendees at locally organised events which were arranged by Business Units to provide staff with training on the specific duties arising within their work area, although we are aware of a number of such events. This information should be available in the future.

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs what arrangements are in place to ensure that bodies within the responsibility of her Department comply with the requirements of the Race Relations (Amendment) Act 2000. [3534]

Jim Knight: The Race Relations (Amendment Act) 2000 places the general duty on a large number of specified public authorities. The core Department's Race Equality Scheme covers the Departments two smallest Executive Agencies, the Pesticides Safety Directorate and the Veterinary Medicines Directorate. The remaining Executive Agencies have produced Agency specific Schemes using the core Department's Scheme as a model. Annual progress reports are produced and the Schemes are discussed regularly as part of an ongoing review process.

In addition the Home Secretary has made Orders under the Act to place the 'specific duties' on named public authorities. These include a number of non-departmental public bodies for which Defra has responsibility in the following table. Although these Bodies are not required to produce a Race Equality Scheme they are expected to follow the lead of the core Department in addressing the general duties imposed. This list is updated periodically in consultation with the CRE and other Government departments and amended to take account of new Bodies and to delete defunct Bodies.

The Department's Race Equality Scheme is currently being reviewed and as part of this work we will be working closely with all bodies for which we have responsibility to ensure that due regard is taken of the duties imposed by the Act. The Commission for Racial Equality has reviewed the Race Equality Scheme and have commented favourably on a number of areas. Any areas highlighted as requiring additional action will be addressed as part of the current review of the Scheme.

Recycling

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs how much plastic per person was recycled in *(a)* Brent, East and *(b)* each London borough in each year since 1997. [2542]

Mr. Bradshaw: The following table shows the amount of plastic per person collected for recycling by local authorities as reported to the Defra annual survey of Municipal Waste Management. These figures underestimate the total amount of plastics collected for recycling since some authorities collect an unknown amount of plastics for recycling as part of a mixed (co-mingled) collection of recyclables:

Plastics recycling

kg per capita	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*
Barking and Dagenham	—	—	—	—	—	—	—
Barnet	—	—	—	—	[1]—	0.1	0.1
Bexley	—	—	—	—	0.1	0.2	0.4

Merton	—	—	—	—	—	—	—
Newham	—	—	—	—	—	[1]—	—
Redbridge	—	0.2	0.9	0.2	0.3	0.4	—
Richmond upon Thames	—	0.1	—	—	—	—	—
Southwark	—	—	—	—	—	—	—
Sutton	0.3	0.3	1.2	0.6	0.4	—	—
Tower Hamlets	—	—	—	—	—	—	—

[1] Represents less than 0.05kg per capita.

Note:

1. The results shown are for plastics only waste recycling collections—excludes unknown amount of material collected through co-mingled recyclable collections.
2. In addition to the figures a small proportion of plastics recycling is collected through London Waste Disposal Authority run Civic Amenity Sites. As this only amounts to approximately 0.1 per cent. of all plastic only recycling, an attempt to record and apportion this small tonnage has not been made.

Rubbish Collection

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what the average cost of collecting rubbish was, per household, in each English region in each year since 1997. [2422]

Mr. Bradshaw: The average expenditure on waste collection per household by region from 2000–01 to 2003–04 is shown in the following table. Comparable data prior to 2000–01 are not held centrally.

Average expenditure on waste collection per household by region from 2000–01 to 2003–04

£

	2000–01	*2001–02*	*2002–03*	*2003–04*
North East	31.4	31.3	32.5	35.2
North West	27.4	28.4	30.5	34.0
Yorkshire and the Humber	30.7	31.9	33.9	39.0
East Midlands	30.8	32.6	33.9	38.3
West Midlands	29.6	31.9	34.3	41.1
East of England	30.1	31.1	33.5	37.5
London	36.1	38.9	40.3	46.5
South East	30.3	33.5	37.0	41.5
South West	29.6	32.6	33.1	36.2

Notes:

1. Regional averages have been calculated by dividing the sum of BV 86 data for each local authority by the number of authorities in each region.
2. Authorities that did not supply data for BV 86 have been excluded from the calculation of regional averages for that year.
3. Best Value Performance Indicator (BVPI) data from 2001–02 (including the data above) are available on the BVPI website at: http://www.bvpi.gov.uk/.

Source:

ODPM Best Value Performance Indicator data (BV 86)

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* public tip and *(b)* large scale rubbish facilities there were on the last date for which figures are available; and how many there were in each year since 1997. [2423]

Mr. Bradshaw: The information requested is currently being collated by the Environment Agency from a variety of sources. I will write to the hon. Member as soon as it is available.

Single Farm Payment Scheme

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what plans her Department has to reclassify motor sport under the 28-day rule of the Single Farm Payment scheme; [3391]

(2) what assessment her Department has made of the viability of the future use of agricultural land for motor sports under Single Farm Payment rules. [3392]

Jim Knight: Land used in support of applications for payment under the 2005 Single Payment Scheme (SPS) must be at applicants' disposal for the 10-month period nominated on their application forms. Under recently

updated guidance issued by the Department, motor sports may take place on up to 28 days during the nominated 10-month period, in addition to all of the remaining two months of the year. The updated guidance takes on board representations made by motor sports interests and, overall, we would expect the impact of the SPS on the availability of agricultural land used for such sports to be limited. There are no immediate plans to further update the guidance, but it will be reviewed for the 2006 scheme in the light of experience of this first year of operation of the SPS.

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs which of the regulatory restrictions governing the carrying out of motor sports on agricultural land are imposed under EU statutory requirements. [3393]

Jim Knight: For the purposes of the Single Payment Scheme, the relevant EU legislation is Council Regulation No. 1782/2003. Title II, Chapter 1 covers the requirements related to cross-compliance while Title III, Chapter 3, Section 1 covers the requirements related to eligibility of land.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons sugar beet is treated differently from potatoes in relation to authorised entitlements on land under the Single Farm Payments system. [2875]

Jim Knight: The EU rules for the 'flat-rate' model of the Single Payment Scheme (SPS) adopted in England are designed to avoid any SPS related increase in production of fruit, vegetables and potatoes and so avoid disadvantaging growers of these crops in those parts of the EU which did not adopt the 'flat-rate' model. There is no need for similar rules in relation to sugar beet as quotas still limit production of that crop.

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received concerning the impact of the eligibility rules for Single Farm Payment on off-road motor sport events; and if she will make a statement. [3735]

Jim Knight: The Department has issued guidance on the Single Payment Scheme (SPS) and non-agricultural use of land which balances the need for diversification opportunities with the necessity to abide by EU rules on eligibility of land under the scheme. Following representations from a number of motor sports organisations and enthusiasts, that guidance has recently been updated. Motor sports are now placed in a category which allows for events to take place on up to 28 days during the 10-month period that farmers must declare, for SPS payment purposes, that they have the required amount of eligible land at their disposal. In addition, such events may take place on that land at any time during the remaining two months of the year. It remains the case that all claims for SPS payment are subject to observance of set cross-compliance conditions, which apply for the whole calendar year.

Trees

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of trees *(a)* had full crowns, *(b)* had slight defoliation, *(c)* had moderate defoliation, *(d)* had severe defoliation and *(e)* were dead in the most recent survey of tree health in Europe under the United Nations Economic Commission for Europe Convention on Long Range Transboundary Air Pollution, broken down by country. [4440]

Jim Knight: The following table has been compiled by the International Co-operative Programme on Assessment and Monitoring of Air Pollution Effects on Forests—a body operating under the United Nations Economic Commission for Europe Convention on Long Range Transboundary Air Pollution.

Defoliation of all species by classes and class aggregates—2004

[1] No survey in 2004.

Note:

1. Serbia and Montenegro: Serbia only.
2. Some differences in the level of damage across national borders may be at least partly due to differences in standards used. This restriction, however, does not affect the reliability of the trends over time.

Waste Management

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what definition *(a)* her Department, *(b)* the European Commission and *(c)* the European Environment Agency uses for (i) biodegradable waste, (ii) municipal waste, (iii) commercial waste, (iv) hazardous waste, (v) industrial waste, (vi) recycling, (vii) recovery, (viii) composting and (ix) waste minimisation. [3465]

Mr. Bradshaw: Where terms are defined in European Community (EC) law, that definition is used by the Department, the European Commission and the European Environment Agency. EU directives, including their definitions, are binding on member states and their "competent authorities". The European Commission is responsible for ensuring the implementation of directives, assisted by the objective and comparable information provided by the European Environment Agency. In the case of terms for which a relevant definition is not provided by Community law, the Department uses national definitions. The following definitions are in use:

(i) "Biodegradable waste" is defined in Article 2*(m)* of the EC Landfill Directive (Council Directive 1999/31/EC) (LFD);

(ii) "Municipal waste" is defined in Article 2*(b)* of the LFD. Where the term is used in a context other than implementation of the LFD, the Department uses the appropriate national definition;

(iii) "Commercial waste" is a national term which is defined in section 75(7) of the Environmental Protection Act 1990, with refinement provided by regulation 6 of and Schedule 4 to the Controlled Waste Regulations 1992;

(iv) "Hazardous waste" is defined in Article 1(4) of the EC Hazardous Waste Directive (Council Directive 91/689/EEC);

(v) "Industrial waste" is a national term which is defined in section 75(6) of the Environmental Protection Act 1990, with refinement provided by regulation 5 of and Schedule 3 to the Controlled Waste Regulations 1992;

(vi) "Recycling" is a term which is used but is not defined in the EC Waste Framework Directive (Council Directive 75/442/EEC as amended) (WFD). While there is no common definition of "recycling" in Community law, there are definitions of "recycling" in the EC Packaging and Packaging Waste Directive (Directive 94/62/EC as amended), the EC End of Life Vehicles Directive (Directive 2000/53/EC) (ELV) and the EC Waste Electrical and Electronic Equipment Directive (Directive 2002/96/EC as amended) (WEEE). These definitions apply for the purposes of each of these directives;

(vii) "Recovery" is defined in Article 1*(f)* of the WFD by reference to Annex MB of that directive. For the purposes of the Packaging and Packaging Waste, ELV and WEEE directives, the definition of "recovery" is limited to the "applicable operations" in Annex MB to the WFD;

(viii) "Composting" is used but is not defined in the WFD. However, the list of recovery operations in Annex IIB to the WFD includes at R3 "Recycling/reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes)"; and

(ix) "Waste minimisation" is not defined in either Community or national legislation.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs when the Environment Agency will publish its final report on the diversion of biodegradable municipal waste from landfill by mechanical biological treatment and other options. [3467]

Mr. Bradshaw: The Environment Agency intends to publish its final guidance on sampling and testing for evaluating the performance of mechanical biological treatment plant in reducing the biodegradability of municipal waste in July 2005.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how much public money was spent on municipal waste management in *(a)* 2003–04 and *(b)* 2002–03; and how many tonnes of municipal waste were recycled in (i) 2003–04 and (ii) 2002–03. [3468]

Mr. Bradshaw: In 2002–03 4.6 million tonnes of municipal waste were recycled, rising to 5.5 million tonnes in 2003–04. The net revenue expenditure on municipal waste management is shown in the following table:

£

	2002–03	*2003–04*
Waste collection	752,143,000	865,098,000
Waste disposal	1,054,541,000	1,139,041,000
Total waste management	1,806,684,000	2,004,139,000

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the total volume of *(a)* domestic, *(b)* commercial and *(c)* other waste was in each region in each year since 2001–02; what this represents per head of population; and what

proportion of each category of waste was (i) sent to landfill, (ii) incinerated and (iii) disposed of by other means in each year. [4439]

Mr. Bradshaw: Information on domestic waste from the Management Survey for 2001–02, 2002–03 government region is shown below:

	Municipal waste—Tonnes (Thousand)	*Kilogrammes per head*	*Landfilled (Percentage)*	*Incinerated (Percentage)*	*Other (Percentage)*
2001–02					
North East	1,572	624	78	15	7
North West	4,183	620	86	2	11

South West	2,865	573	76	0	24
England	29,105	584	72	9	19

Note:
Totals and percentages might not add up due to rounding.

The latest year for which full information on industrial and commercial waste is available is 1998–99, from the Environment Agency's National Waste Production Survey, Strategic Waste Management Information for England and Wales. Results can be found at: www.environment-agency.gov.uk. Results from the 2002–03 survey will be published shortly.

Information on construction, demolition and excavation waste is available from the Office of the Deputy Prime Minister publication: Survey of Arisings and Use of Construction, Demolition and Excavation Waste as Aggregate in England in 2003. Results for England for 2001 and 2003 are shown in the following table:

Construction, demolition and excavation—England

	2001		*2003*	
	Tonnes (Thousand)	*Percentage*	*Tonnes (Thousand)*	*Percentage*
Landfilled	23,210	26	29,060	32
Spread on registered exempt sites	[1]22,400	[1]25	16,430	18
Recycled	43,280	49	45,450	50
Total CDEW	[1]88,890		90,930	

[1] Stated to be an unadjusted estimate.

WORK AND PENSIONS

EU Legislation

Mr. Davidson: To ask the Secretary of State for Work and Pensions what EU legislation was implemented by *(a)* the Stakeholder Pension Schemes Regulation 2000, *(b)* the Occupational Pension Schemes (Minimum Funding Requirement and Miscellaneous Amendments) Regulations 2002 and *(c)* the Occupational Pension Schemes (Winding Up and Deficiency on Winding Up etc.) (Amendment) Regulations 2004. [1713]

Mr. Plaskitt: None of the three pieces of legislation referred was introduced in order to achieve UK compliance with European Council Directives. They were all introduced to implement internal national policy initiated by the UK Government.

Local Housing Allowance

Mr. Laws: To ask the Secretary of State for Work and Pensions how much housing benefit has been paid in

each local housing allowance pilot area in each month in the last two years; and how many housing benefit claimants there have been. [924]

Mr. Plaskitt: The information is not available in the format requested because local authorities are only required to provide expenditure figures on an annual basis and 2004–05 figures will not be available until the end of this year.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many different information technology systems are being used to process housing benefit in the local housing allowance pilot areas; and if he will make a statement. [950]

Mr. Plaskitt: Four software suppliers are involved in providing the software to the nine pathfinder local authorities. The information technology systems used to process housing benefits claims is for individual local authorities to decide.

Pension Credit

Paul Flynn: To ask the Secretary of State for Work and Pensions in what circumstances under pension credit legislation, pensioners will receive an award of £1.20 for each extra pound of qualifying income; what criteria were used in setting the amount; and whether those potentially entitled to the £1.20 award will be informed of this. [3122]

Mr. Timms: In very exceptional circumstances the effect of applying the normal formula will be that some pensioners will receive a reward of £1.20 instead of 60 pence for each extra pound of qualifying income. This may happen if the pension credit recipient is also receiving a working tax credit, spousal maintenance, or a social security benefit which does not count as rewardable income. It will only occur if their total income brought to account is greater than their appropriate guarantee level but the income which counts for the savings credit is less than the guarantee level. If this happens the pensioner will be able to ask the Pension Service for an explanation.

Pensions

Andrew Rosindell: To ask the Secretary of State for Work and Pensions what plans the Government have to increase the state pension. [2957]

Mr. Timms: We will continue with our policy of increasing the basic state pension annually by 2.5 per cent. or the increase in the September Retail Prices Index whichever is higher.

DEFENCE

Acts of Parliament

Mr. Gordon Prentice: To ask the Secretary of State for Defence if he will take steps to make all Acts of Parliament published before 1988 for which his Department is responsible available online. [3715]

Mr. Touhig: The Controller of Her Majesty's Stationery Office (HMSO) within the Cabinet Office is the Queen's Printer of Acts of Parliament, and responsible for the publication of Acts of Parliament. HMSO has considered the publication of Acts prior to 1988, which is the earliest date when these were available electronically, but has decided not to do so as many have been heavily amended and to publish them in their original form would be misleading for many users. The Government are, however, taking forward development of a Statute Law Database which will contain the fully revised and updated text of all legislation from 1275. It is expected that this will be made available to the general public during 2006.

Agency Staff

Mike Penning: To ask the Secretary of State for Defence what the cost has been of agency staff used to augment UK military units on operations in *(a)* 2000–01, *(b)* 2001–02, *(c)* 2002–03, *(d)* 2003–04 and *(e)* 2004–05; and if he will make a statement. [3794]

Mr. Ingram *[holding answer 13 June 2005]:* There are many contracts placed in operational theatres which entail the employment of personnel, the details of which are recorded in theatre.

This information is not held centrally and could be provided only at disproportionate cost.

Apache Helicopters

Mr. Gerald Howarth: To ask the Secretary of State for Defence when he expects his Department's requirement for fully trained pilots of Apache helicopters will be met. [2324]

Mr. Ingram: The first of three Apache Attack Regiments has been fully trained, tested and exercised and will shortly be available for operations following formal clearance as a result of successfully completing Exercise Eagles Strike on 24 May 2005. The conversion of the second regiment is under way and is due to be ready for operations by September 2007. The third regiment is programmed to convert from October 2007 and should be ready for operations by October 2009. At this stage it is envisaged that all three regiments will be manned with 42 Apache Attack Helicopter trained aircrew, which represents 87.5 per cent. of the final manning requirement. There will then follow a period where all three regiments will be brought up to full manning, which should be complete by September 2010. Thereafter, training will then focus on sustaining full manning throughout the rest of the aircraft operating life.

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether he plans *(a)* to marinise the fleet of Apache helicopters against salt corrosion and *(b)* to allow the aircraft to operate from Royal Navy vessels. [2328]

Mr. Ingram: A range of maritime modifications will be applied to the Apache AH Mk 1 fleet to enable it to operate from Royal Navy ships and Royal Fleet Auxiliary support vessels, including an enhanced corrosion protection scheme.

Armed Forces (Recruitment Rates)

Mr. Ancram: To ask the Secretary of State for Defence how many new entrants there have been to each of the armed forces in each quarter since 2002. [3973]

Mr. Touhig: The following table shows intake[1] from civilian life to UK Regular[2] Forces in each quarter since 2002.

[1] Figures show all intake to UK Regular Forces including re-enlistments and rejoined reservists.[2] UK Regular Forces includes nursing services and excludes full-time Reserve Service personnel, Gurkhas, the Home Service battalions of the Royal Irish Regiment, mobilised reservists and Naval Activated Reservists. It includes trained and untrained personnel.

Quarter ending	*Naval Service*[1]	*Army*	*Royal Air Force*
2002			
31 March	1,390	4,520	880
30 June	1,210	2,930	870
30 September	1,270	5,760	1,180
31 December	1,130	2,560	1,100
2003			
31 March	1,620	5,350	1,290
30 June	1,170	3,010	1,110
30 September	920	5,420	1,080
31 December	980	2,490	960
2004			
31 March	1,050	4,270	1,010
30 June	820	2,380	650
30 September	920	3,610	590
31 December	990	2,000	520
2005			
31 March	970	3,690	410

[1] Naval Service includes Royal Navy and Royal Marines.

Note:
All figures have been rounded to the nearest 10. When rounding to the nearest 10, numbers ending in five have been rounded to the nearest multiple of 20 to prevent systematic bias.

Astute Submarines

Mr. Hancock: To ask the Secretary of State for Defence what the in-service date is for the first of the Astute submarines. [3815]

Mr. Ingram: HMS Astute, the first of the Astute Class, is due to enter service in 2009.

Departmental IT Projects

Mr. Hancock: To ask the Secretary of State for Defence if he will list his Department's IT projects in each year since 1997, broken down by *(a)* amount spent and *(b)* purpose; and whether each project has over-run. [2341]

Mr. Ingram: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Union Representation

Mr. Jenkins: To ask the Secretary of State for Defence how many trade union learning representatives there are in his Department. [3307]

Mr. Touhig: The Ministry of Defence does not hold details of the numbers of trade union learning representatives. These are appointed by their trade union from within the elected representative community and usually have other TU duties in addition to this particular role.

Fairford Air Base

Mr. Clifton-Brown: To ask the Secretary of State for Defence what plans he has for the Royal Air Force to use Fairford air base jointly with the US Air Force after the runway is refurbished at RAF Brize Norton. [2638]

Mr. Ingram: We are currently in discussion with the US Air Force about the possibility of RAF units periodically using RAF Fairford for operational training exercises. No decisions have been made.

Far East Detainees (Compensation)

Ben Chapman: To ask the Secretary of State for Defence what recent assessment he has made of requests for compensation from Far East detainees previously disqualified. [4609]

Mr. Touhig: The Ex Gratia Payment Scheme for Far East Prisoners of War and Civilian Internees is currently the subject of a judicial review in relation to a former civilian internee whose claim for payment was rejected. It is not appropriate at this stage to comment further.

Iraq

Andrew George: To ask the Secretary of State for Defence how much has been spent by *(a)* the UK and *(b)* other allied countries in support of military and security action in Iraq since 2002–03. [3636]

Mr. Ingram: The net additional costs of operations in Iraq are published each year in the Ministry of Defence's annual report and accounts. Costs for financial year 2002–03 were £847 million and for 2003–04 £1,311 million. Costs for financial year 2004–05 will be published in the MOD's next annual report and accounts in the autumn.

Costs incurred by other allied countries are a matter for them.

Daniel Kawczynski: To ask the Secretary of State for Defence how many additional troops the UK intends to send to *(a)* Najaf and *(b)* Qadisiyah in Iraq; and if he will make a statement. [3650]

Mr. Ingram: The United Kingdom does not have any troops deployed in Najaf or Al Qadisiyah. There are currently no plans to deploy UK forces to these areas or elsewhere outside the boundaries of Multi National Division (South East).

Lynne Featherstone: To ask the Secretary of State for Defence when he expects British troops to complete the present mission in Iraq; and if he will make a statement. [4661]

Mr. Ingram: The United Kingdom is committed to remaining in Iraq for as long as the Iraqi Government judge that the coalition is required to provide security and assist the Iraqi Security Forces. United Nations Security Council Resolution 1546, which provides the present legal basis for the coalition presence in Iraq, makes clear the mandate for multi-national forces will expire upon the completion of the current political process, and will be terminated earlier if requested by the Government of Iraq.

MARS Programme

Mr. Hancock: To ask the Secretary of State for Defence what the current estimate for the *(a)* in-service date and *(b)* cost of Royal Navy tankers under the Military Afloat Reach and Sustainability programme is; what the original estimates were; and if he will make a statement. [2975]

Mr. Ingram: The Military Afloat Reach and Sustainability (MARS) programme is currently in the Concept Phase and no decisions have yet been made on the scope, timing or costs of the programme. These matters will be addressed during the Assessment Phase, which is planned to commence shortly.

Ministerial Expenses

Mr. Prisk: To ask the Secretary of State for Defence when he expects to write to the hon. Member for Hertford and Stortford concerning question 191401, of 18 November 2004, *Official Report*, column 1835W, on ministerial expenses. [1064]

Mr. Touhig: I replied to the hon. Member today, and placed a copy of the letter in the Library of the House.

Regimental Uniforms

Ann Winterton: To ask the Secretary of State for Defence pursuant to the answer of 23 May 2005, *Official Report*, column 24W, on army boots, whether the figures given for jungle boots and desert boots are *(a)* the manufacturer's life-span specification and *(b)* the life-span obtained from combat conditions; and which manufacturer supplies the (i) jungle boot and (ii) desert boot. [3256]

Mr. Ingram: The figures given for the life span for both jungle and desert boots are estimated figures. In respect of individual items there may be a different life span for each boot procured, and this would be impacted upon to a large extent by their actual use.

The Prime Contractor for footwear is Iturri SA through the prime contract mentioned in my answer of 23 May 2005, *Official Report*, column 24W.

Religious Texts (Iraq/Afghanistan)

Mr. Pope: To ask the Secretary of State for Defence what guidance he has issued to UK forces in *(a)* Iraq and *(b)* Afghanistan on appropriate treatment of religious texts and other materials; and whether he has received reports of inappropriate behaviour in this respect. [3084]

Mr. Touhig: All United Kingdom armed forces personnel undergo cultural awareness training as part of their theatre specific pre-deployment training package. We have received no reports of inappropriate treatment of religious texts and other materials by UK forces serving in Iraq and Afghanistan.

Royal Navy

Mr. Hancock: To ask the Secretary of State for Defence what the planned out-of-service date is for the Royal Navy's repair ship, RFA Diligence; and what his plans for replacing the ship are. [3881]

Mr. Ingram: It is currently planned that RFA Diligence will remain in service until 2014. Decisions have yet to be taken on how best to deliver future Operational Maintenance and Repair capability.

Mr. Hancock: To ask the Secretary of State for Defence what the out-of-service date is for *(a)* HMS Superb and *(b)* HMS Trafalgar. [3816]

Mr. Ingram: Both boats are planned to be withdrawn from service in 2008.

Mr. Hancock: To ask the Secretary of State for Defence which helicopter will operate from the four batch Type-22 frigates from 2008. [3880]

Mr. Ingram: Lynx helicopters will continue to operate from the four batch 3 Type-22 frigates until a replacement for the Lynx Mk3/8 is delivered under our future helicopter programme.

Mr. Hancock: To ask the Secretary of State for Defence if he will list the out-of-service date for each of the remaining Type-42 destroyers. [3883]

Mr. Ingram: The latest planned withdrawal dates are as follows:

	Type-42 destroyers
Type 42 Batch 1:	
2005	HMS Cardiff
Type 42 Batch 2:	
2009	HMS Exeter
2010	HMS Southampton
2012	HMS Nottingham
2009	HMS Liverpool
Type 42 Batch 3:	
2011	HMS Manchester
2011	HMS Gloucester
2013	HMS Edinburgh
2012	HMS York

Mr. Hancock: To ask the Secretary of State for Defence if he will list the in-service date for each of the eight Type-45 destroyers. [3884]

Mr. Ingram: Six Type-45 destroyers are currently on order. The planned in-service date (ISD) for the First of Class, HMS Daring, is May 2009. The remaining five ships are planned to enter service at intervals over a four-year period following the First of Class ISD.

Territorial Army

Charles Hendry: To ask the Secretary of State for Defence what the strength of the Territorial Army has been in each of the last 10 years. [3661]

Mr. Touhig *[holding answer 13 June 2005]:* The strength of the Territorial Army (TA) for the last 10 years is as follows:

Dates	*Strength*
1995	59,690
1996	57,260
1997	57,620
1998	56,980
1999	52,260

Dates	Strength
2000	44,840
2001	41,510
2002	40,900
2003	39,610
2004	38,320
2005	37,260

The April 2005 figure is provisional and subject to revision.

Tracked Vehicles

Ann Winterton: To ask the Secretary of State for Defence what plans he has to phase out the S series of tracked vehicles. [3258]

Mr. Ingram: The S series of tracked vehicles comprises the following variants of the Combat Vehicle Reconnaissance (Tracked) (CVR(T)): Scimitar, Sultan, Samson, Samaritan, Spartan, Striker, Sabre, Scorpion.

The CVR(T) fleet will be supported until its planned out of service date of 2014 when it is scheduled to be replaced by elements of the Future Rapid Effects System (FRES) suite of vehicles and the Panther Command and Liaison Vehicle (CLV). The initial variants of FRES are due to be in service early in the next decade and the Panther is due to come into service in November 2007.

UK Energy Supplies

Mr. Hancock: To ask the Secretary of State for Defence what recent discussions he has had with *(a)* the Secretary of State for Trade and Industry and *(b)* others on the security of gas supplies to the UK which are imported from abroad. [3413]

Mr. Ingram: My right hon. Friend the Secretary of State for Defence has not had any specific discussions with his right hon. Friend the Secretary of State for Trade and Industry or others in regards to the security of gas supplies to the UK. Ministry of Defence officials continue to be engaged in DTI and FCO work on a range of energy security matters.

Mr. Hancock: To ask the Secretary of State for Defence (1) what assessment he made of requirements to protect UK access to pipelines and gas supplies in his decision to decommission the three Type-23 frigates; [3791]

(2) what the role of Type 23 destroyers is in the protection of UK energy supplies; if he will reverse the decision to decommission three of the fleet; and if he will make a statement. [3792]

Mr. Ingram: The Defence White Paper set out our analysis of the future security environment, of which one element was the potential for developments which could impact upon the security and stability of regions which contribute to global energy supplies.

The analysis of the future security environment formed the baseline against which the decision to rebalance and optimise the force structure was taken, including the decision to decommission three Type-23 frigates, as set out in Delivering Security in a Changing World, "Future Capabilities" (Cm 6260).

The new force structure has been designed to meet the broad range of operational demands we might expect in the future, through a range of inherently flexible and adaptable capabilities.

HOME DEPARTMENT

Amnesty Papers

Derek Wyatt: To ask the Secretary of State for the Home Department when he expects the hon. Member for Sittingbourne and Sheppey's constituent, Cesar Augusto Giraldo Gil and his daughter Francesca Zofia Wasik to receive notification of their amnesty papers. [4178]

Mr. McNulty *[holding answer 14 June 2005]:* Mr. Gil has been asked to re-submit his application and I can assure my hon. Friend that when it is received it will receive prompt consideration.

Asylum Seekers

Mr. Malins: To ask the Secretary of State for the Home Department how many persons were granted *(a)* indefinite leave to remain and *(b)* exceptional leave to remain in each of the last eight years. [2971]

Mr. McNulty: The latest available statistics on the number of people granted indefinite leave to remain in the UK and those granted exceptional leave to remain can be found in the table.

The latest published data on settlement in the United Kingdom are for 2003. Further information on immigration can be found in the Command Paper 'Control of Immigration: Statistics United Kingdom 2003' (Cm6363), available from the Library and from the Home Office website http://www.homeoffice.gov.uk/rds/commandpubs1.html. The 2004 edition is due to be published later this year.

Grants of settlement and exceptional leave to remain[1], United Kingdom[2], 1996 to 2004

	Total grants of settlement			Asylum cases granted ELR Cases considered under normal procedures				
	Total	On removal of time limit (ILR)	Settlement on arrival (ILE)	Total	Recognised as a refugee and granted asylum	Not recognised as a refugee but granted exceptional leave, discretionary leave or humanitarian protection[3]	Considered under backlog clearance exercise[4,5]	Exceptional leave granted when applicant had not applied for asylum
1996	61,730	59,610	2,120	7,295	2,240	5,055	—	12,255
1997	58,725	56,375	2,355	7,100	3,985	3,115	—	10,400
1998	69,790	66,895	2,895	9,255	5,345	3,910	—	2,830
1999	97,115	90,275	6,845	21,425	7,815	2,465	11,140	1,480
2000	125,945	117,750	8,190	32,195	10,375	11,495	10,325	1,780

Grants of settlement and exceptional leave to remain[1], United Kingdom[2], 1996 to 2004

	Total grants of settlement			*Asylum cases granted ELR Cases considered under normal procedures*				
	Total	*On removal of time limit (ILR)*	*Settlement on arrival (ILE)*	*Total*	*Recognised as a refugee and granted asylum*	*Not recognised as a refugee but granted exceptional leave, discretionary leave or humanitarian protection[3]*	*Considered under backlog clearance exercise[4, 5]*	*Exceptional leave granted when applicant had not applied for asylum*
2001	108,410	96,460	11,950	31,640	11,450	20,190	—	680
2002	118,255	109,690	8,560	28,410	8,270	20,135	—	70
2003[6]	143,845	140,985	2,860	11,075	3,865	7,210	—	n/a
2004[6]	n/a	n/a	n/a	5,510	1,515	3,995	—	n/a

[1] Information is on initial decisions, excluding the outcome of appeals or other subsequent decisions.
[2] Figures rounded to the nearest 5.
[3] Humanitarian Protection (HP) and Discretionary Leave (DL) replaced Exceptional Leave to Remain (ELR) from 1 April 2003.
[4] Cases decided under measured aimed at reducing the pre 1996 asylum backlog criteria.
[5] Includes cases where asylum or exceptional leave has been granted under the backlog criteria.
[6] Provisional data.

Mr. Malins: To ask the Secretary of State for the Home Department whether he plans to meet the French Government to discuss the setting up in France of offices where applicants for asylum in the UK could make an application to British officials; and if he will make a statement. [3624]

Mr. McNulty: My right hon. Friend the Home Secretary has no plans to meet with the French Government to discuss the setting up in France of offices where applicants for asylum in the UK could make an application to British officials. It is accepted internationally that asylum seekers should seek asylum in the first safe country they reach. Where juxtaposed controls are in operation, it is clearly established in all instances that the host State should remain responsible for those claiming asylum at such controls, so that an asylum application made at the UK controls in France will be handled by the French authorities and vice versa.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letters from the right hon. Member for Manchester, Gorton with regard to *(a)* Mr. Mohammed Kader Babakh, dated 24 March, *(b)* Mrs. Eva Fletcher, dated 7 April, *(c)* Mr. Sami Ullah, dated 7 April and *(d)* Mr. Angus Charles Mincher, dated 24 March. [189]

Mr. Charles Clarke: The information requested is as follows:

(a) I wrote to my right hon. Friend on 25 May.

(b) I wrote to my right hon. Friend on 24 May.

(c) I wrote to my right hon. Friend on 24 May.

(d) I wrote to my right hon. Friend on 24 May.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letters to his predecessor from the right hon. Member for Manchester, Gorton with regard to *(a)* Mrs. Guy-Blackburn, dated 9 December 2004, *(b)* Mr. Jamal Mohammed Bin Omar, dated 7 February, *(c)* Azis Nicolae Bobric, dated 27 January and *(d)* Mr. Malik Arshad Mahmoud, dated 5 April. [191]

Mr. Charles Clarke: The information requested is as follows.

(a) I replied to my right hon. Friend on 8 June.

(b) I replied to my right hon. Friend on 1 March.

(c) I replied to my right hon. Friend on 14 June.

(d) I replied to my right hon. Friend on 24 May.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department (1) when he will reply to the letters from the right hon. Member for Manchester, Gorton with regard to *(a)* Mr. Mollan Orlando Bell, dated 29 March, *(b)* Vinleslav Cahalo, dated 30 March, *(c)* Mr. Anisuzzaman Milon, dated 4 April and *(d)* Mr. M. Osman Mohammoud, dated 14 February; [192]

(2) when he will answer the letter to him dated 29 March from the right hon. Member for Manchester, Gorton with regard to Mr. Mollan Orlando Bell. [2124]

Mr. Charles Clarke: The information requested is as follows.

(a) I replied to my right hon. Friend on 14 June.

(b) I replied to my right hon. Friend on 25 May.

(c) I replied to my right hon. Friend on 24 May.

(d) My hon. Friend the Minister for Race Equality, Community Policy and Civil Renewal wrote to my right hon. Friend on 24 February.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department (1) when he will answer the letter to him dated 22 April from the right hon. Member for Manchester, Gorton with regard to Mr. Nisar Ahmed; [2123]

(2) when he will answer the letter dated 22 April from the right hon. Member for Manchester, Gorton with regard to Mr. Nisar Ahmo. [2630]

Mr. Charles Clarke: I replied to my right hon. Friend on 9 June 2005.

Crime (Rural Areas)

Mr. Fraser: To ask the Secretary of State for the Home Department what plans he has to meet police officers from Norfolk to discuss matters of local concern. [1376]

Mr. Charles Clarke: I regularly meet with police officers from Norfolk.

Crime Records

David Davis: To ask the Secretary of State for the Home Department what estimate he has made of the percentage change in recorded crime statistics resulting

from the changes made by the National Crime Recording Standards in 2002–03, broken down by type of crime. [1390]

Mr. Charles Clarke: Percentage change figures for those offences where it was possible to make an estimate of the impact of the National Crime Recording Standard (NCRS) are published in Home Office Statistical Bulletin 07/03 of 'Crime in England and Wales 2002–03'. Table 3.04 gives the available information and the publication is available on the Home Office website at: http://www.homeoffice.gov.uk/rds/pdfs2/hosb703.pdf '

A detailed analysis of the impact of the NCRS was published in a companion volume to 'Crime in England and Wales 2002–03'. This gives details of the impact for certain offence groups and is available on the Home Office Research and Statistics website as online report 31/03.

Eurostar

Mr. Malins: To ask the Secretary of State for the Home Department how many undocumented passengers arrived at Waterloo on the Eurostar in each of the last six months for which figures are available. [3628]

Mr. McNulty: Locally collated management information, which may be subject to change indicates that in the last six months there were 11 cases of undocumented passengers arriving at Waterloo, which were referred to the Immigration Service by other agencies.

Four arrived in December 2004

Four arrived in April 2005

Three arrived in May 2005

G8 Summit

Jo Swinson: To ask the Secretary of State for the Home Department (1) under what circumstances United States armed forces may be deployed against protesters at *(a)* the G8 Summit and *(b)* Prestwick airport; and under whose authority such deployment may be made; [4046]

(2) what equipment US forces will be issued with in the United Kingdom while deployed to guard *(a)* the G8 Summit and *(b)* Prestwick airport; [4047]

(3) what the rules of engagement of United States military personnel will be while deployed on UK soil to guard *(a)* the G8 Summit and *(b)* Prestwick airport; [4048]

(4) what equipment UK security forces will have available for deployment at the G8 Summit; [4049]

(5) whether the United States military forces that are to be deployed in the United Kingdom for the G8 Summit will be *(a)* under UK law jurisdiction and *(b)* exempted under (i) the Visiting Forces Act 1952 and (ii) the Visiting Forces and International Headquarters (Application of Law) Order 1999; and if he will make a statement; [4045]

(6) how many military forces will be deployed by the United States to Scotland for the G8 Summit. [4003]

Mr. Charles Clarke: Policing and security arrangements for the forthcoming G8 Summit are a devolved responsibility for the Scottish Executive and Scottish police forces. Scottish Executive and Tayside Police have confirmed that US military personnel will play no role in the security operation.

Identity Cards

Mr. Khan: To ask the Secretary of State for the Home Department what assessment has been made of the likely impact of identity cards on *(a)* immigration control, *(b)* illegal working, *(c)* misuse of public services, *(d)* activities of organised criminals and *(e)* terrorism. [4143]

Mr. McNulty: The Identity Cards Bill Regulatory Impact Assessment (RIA), published on 25 May 2005, outlines the assessed benefits of the identity cards scheme in section two. Benefits specifically relating to the categories mentioned in the question above are summarised below: The scheme will provide a straightforward means to record and verify the immigration status of all residents aged 16 and over. The verification service will be available not just to the authorities for maintaining immigration controls but also to employers to check status and entitlement to work. The scheme will reduce the opportunity for those facilitating terrorist and organised criminal activity to operate using multiple identities, encourage verifiable proof of identity when conducting major financial transactions, provide the capability—with independent oversight—for law enforcement and security agencies to be provided with information on when a person's record on the National Identity Register has been checked or amended, allow for the more efficient use of police resources and to check fingerprint biometric information at scenes of crime where no match can be found against existing police records. Public services will benefit from the ID cards scheme through improving the administration of social security benefits, eligibility checks for free non-emergency NHS treatment, adult allocation of the national insurance number; speeding up and improving the accuracy of Criminal Records Bureau checks and in more general ways through speeding up administrative processes.

Mr. Khan: To ask the Secretary of State for the Home Department what he expects the cost to be for replacement of lost identity cards. [4136]

Mr. McNulty: No decisions have yet been made about the cost to the individual of replacing a lost ID card. The current best estimate of the average annual operating costs of issuing biometric passports and ID cards of £584 million which was published in the regulatory impact assessment on 25 May 2005 includes an allowance for the replacement of lost, stolen and damaged cards.

Mr. Khan: To ask the Secretary of State for the Home Department what assessment has been made of the pilot studies carried out for the identity cards scheme. [4141]

Mr. McNulty: The United Kingdom Passport Service (UKPS) biometric enrolment trial, carried out in collaboration with Driver and Vehicle Licensing Agency, the Immigration and Nationality Directorate and the Identity Cards Programme team, is the only

pilot study carried out for the identity cards scheme to date. The UKPS trial was not a trial of ID cards nor the technology involved, rather a test of the practicalities of enrolling people's biometrics and people's perceptions of that process. A great deal was learnt from the trial. We now know much more about the practicalities of biometric enrolment and issues that arise with enrolment on such a large scale. We also learned that people's perception of the process was very positive overall, with a post-trial reduction in those who had reported concerns about having their biometrics taken pre-trial and a majority reporting a better than expected level of intrusion at the process. The vast majority of participants found their expectations of the overall experience to have been met or bettered. The full results of the trial are available on the UKPS website http://www.ukpa.gov.uk/news/news.asp?intElement=986.

Mr. Khan: To ask the Secretary of State for the Home Department what research his Department has *(a)* commissioned and *(b)* evaluated on the technology that will be used for identity cards; and if he will make a statement. [4144]

Mr. McNulty: Given the constant advancement of biometric technology and the need to conduct a fair and thorough procurement process, final decisions have not been taken about the technology that will be used for the Identity Cards scheme.

Rather than evaluate equipment at this time, much of which may be superseded by the time cards are first issued, we are working with other Government Departments and with expert advice to set the requirements for performance. We have engaged independent and Government advisers to work on the Identity Cards programme team and to provide advice with regard to technologies to be considered for use by the Identity Cards scheme. We are also applying the lessons learnt from the experience of other large scale technology implementation projects within the Home Office and across Government.

Mr. Khan: To ask the Secretary of State for the Home Department what recent representations he has received on the likely impact of identity cards on civil liberties; and what response he has made. [4145]

Mr. McNulty: Since the publication of the Identity Cards Bill on 25 May 2005, 21 representations have been received from members of the public. No representations have been received from any organisations or official bodies. The representations took the form of both letters and e-mails, and they expressed concern that the Identity Card Scheme would infringe civil liberties.

The Government believe that the Identity Cards Scheme will support civil liberties and human rights. The scheme will be bound by legislation such as the Data Protection Act, Human Rights Act and the Disability Discrimination Act. The Identity Cards Bill also contains a number of important safeguards such as setting limitations on the information that may be held by the scheme and its use. Only Parliament would be able to change the statutory purposes of the Register or the type of information which could be held and only via primary legislation.

Mr. Khan: To ask the Secretary of State for the Home Department if he expects further primary legislation to be required to extend the use of the information stored on the National Identity Register in the second stage of the identity cards process. [4165]

Mr. McNulty: The scope of the legislation currently before Parliament is sufficient to ensure that the benefits of the scheme are realised without the need for further primary legislation.

Ms Butler: To ask the Secretary of State for the Home Department who will have access to data stored in connection with identity cards. [4410]

Mr. McNulty: Other than staff involved in the administration of the scheme, no individual or organisation will have direct access to the National Identity Register itself.

Instead, accredited organisations will be allowed to verify information or, in certain circumstances, be able to obtain some limited information from the register through the scheme's verification services and—in the main—only with the consent of the card-holder. Information from the register can only be provided without the consent of the card-holder if specifically authorised by the powers in the Identity Cards Bill. Organisations entitled to request such information are listed on the face of the Bill and any changes to the list must be approved by Parliament.

Ms Butler: To ask the Secretary of State for the Home Department what the cost of the proposed identity card will be for *(a)* pensioners, *(b)* the unemployed, *(c)* low earners, *(d)* lone parents and *(e)* students. [4413]

Mr. McNulty: The Identity Cards Bill provides powers to set concessionary fees. This is set out in clause 37 of the Bill. No decisions have yet been made in respect of the fee schedule or concessionary fees for Identity Cards, however Parliament will have the final say on the fees that will be charged.

Mr. Oaten: To ask the Secretary of State for the Home Department what the maximum criminal penalty is which will apply to individuals who fail to comply with Clause 6(6) of the Identity Cards Bill. [4677]

Mr. McNulty: Clause 6(6) of the Identity Cards Bill imposes no criminal penalty for failing to register with the scheme should such an obligation be agreed by Parliament.

Mr. Khan: To ask the Secretary of State for the Home Department when he expects the requirements for the National Identity Register to be finalised. [4131]

Mr. McNulty: Work is continuing to specify requirements for the National Identity Register. The procurement phase of the scheme cannot begin until the Identity Cards Bill currently before Parliament is passed. In line with procurement best practice, each requirement will be finalised before the procurement starts, but the details will be worked through with potential suppliers to ensure that the Government can take full advantage of innovation in the market place.

Mr. Khan: To ask the Secretary of State for the Home Department what plans he has to audit the accuracy and efficiency of *(a)* biometric readings and *(b)* the National Identity Register. [4134]

Mr. McNulty: During procurement we will undertake carefully designed scientific tests of the performance of the biometric system. The overall verification and identification performance of the ID card system will be tested both during rollout of the technology and when the scheme is running, this will include the quality of data held on the National Identity Register. Primarily, individual cardholders will be encouraged to keep their record up-to-date in order to maintain the integrity and accuracy of the register. It is likely that the convenience of having a reliable method of verifying identity in everyday situations will encourage individuals to keep their details up to date, so they can access services in a secure and speedy manner. The proposed identity cards agency will seek to validate and verify new information provided as far as is practically possible. However, in addition, there is a power for the Secretary of State to require individuals to keep prescribed details up to date.

Mr. Khan: To ask the Secretary of State for the Home Department what research his Department has conducted on systems to link identity card readers to the National Identity Register. [4135]

Mr. McNulty: The Identity Cards Programme has examined the viability, resilience, security, technical interoperability and practicality of various reader and network options. This includes remote authentication where the card-holder and the service provider are not present at the same location, Chip and PIN and checks for the purposes of border control. For example, the ID Cards Programme is working closely with the Association for Payment Clearing Services to examine the technical architecture underpinning Chip and PIN and to benefit from lessons learned during the rollout. The dialogue will help to develop considerations of where shared technical opportunities with the Chip and PIN infrastructure might exist in the future.

Illegal Immigrants

Mr. Malins: To ask the Secretary of State for the Home Department what types of machinery and equipment are used by immigration officials to detect illegal immigrants at the *(a)* Hull, *(b)* Dover, *(c)* Portsmouth and *(d)* Southampton ports of entry; and how many hours per day on average each was used in the last period for which figures are available. [3140]

Mr. McNulty: The following detection systems are used by the Immigration Service port operators and carriers:

Dover

The Immigration Service operates a juxtaposed control for services arriving at Dover in Calais, Boulogne and Dunkerque.

Calais

CO2 Probes, manual passenger vehicle checks, use of body detection dogs (operated by the Immigration Service), Heartbeat detectors, Passive Millimetric Wave Imagers (PMMWI) (operated by the Calais Chamber of Commerce)

Dunkerque

CO2 probes and body detection dogs (operated by the Immigration Service) CO2 probes (operated by the carrier)

Boulogne

No freight vehicles use these services. Passenger vehicles are checked manually on a risk assessed basis by Immigration Service staff.

Hull, Southampton, Portsmouth

CO2 probes (Operated by the Immigration Service)

In addition to these checks the Mobile Freight Search Team operates at all UK seaports and at juxtaposed locations and is deployed on a risk assessed, intelligence led basis. The team uses a gamma ray scanner, CO2 probes and body detection dogs.

It is not possible to provide details of how many hours per day these systems are operated as these figures are not collated.

Mr. Malins: To ask the Secretary of State for the Home Department how many illegal immigrants were detected at the *(a)* Hull, *(b)* Dover, *(c)* Portsmouth and *(d)* Southampton ports of entry in the last six months for which figures are available. [3141]

Mr. McNulty: All figures in this response are locally collated management information.

The numbers of illegal immigrants detected in the ports specified are as follows:

	2004	*2005*				
	December	*January*	*February*	*March*	*April*	*May*
Hull	2	0	0	0	0	0
Dover	45	86	37	33	27	50
Portsmouth	12	7	4	10	16	18
Southampton	0	0	0	0	0	0

From 1 December 2004 to 22 May 2005 3,268 persons were prevented from boarding by port authorities checks and 2,590 were detected by the Immigration Service at juxtaposed locations serving Dover from 1 December to 31 May 2005. 2,560 were reported by carriers as the number of persons off-loaded at ports with services to Portsmouth in the same period.

Motoring Offences

Tom Brake: To ask the Secretary of State for the Home Department how many people have been fined under the offence of using a hand held mobile phone while driving; how many people have contested the fines; and what revenue has been raised through fines, broken down by *(a)* month and *(b)* police authority region. [2294]

Hazel Blears: Available information on the number of fixed penalty notices and court fines ordered to be paid for the new offence (introduced as from 1 December 2003) of driving while using a hand held mobile telephone is given in the table. Statistics are not collected centrally on appeals against court fines by type of offence. Information on revenue raised through fines is also not available centrally but data are given in the table on the amount of fines imposed by the courts and on the estimated revenue from fixed penalties. Fixed penalty notice data are submitted to the Home Office on a calendar year basis from police forces and as such it is not possible for a month by month break down.

2004 data will be available in early 2006.

Use of a hands free mobile phone is not part of the new offence.

Fixed penalty notices and court proceedings data for the offence of use of hand held mobile phone while driving[1] by police force area, England and Wales 2003

Number of offences

	Type of action

[1] Offences under the Road Vehicles (Construction & Use) Regulations 1986, Regulations 110 (1), 110 (2) and 110 (3). Introduced 1 December 2003.

[2] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.

[3] Only covers tickets paid where there is no further action.

[4] Estimate based on fixed penalty charge of £30.

[5] In the month of December 2003.

Policing

David Davis: To ask the Secretary of State for the Home Department how much was spent per capita from central Government funds on policing in *(a)* the East Riding of Yorkshire, *(b)* Humberside and *(c)* England in each of the last five years. [3601]

Mr. Charles Clarke: I refer the right hon. Member to the answer I gave to the hon. Member for Meriden (Mrs. Spelman) on 7 June 2005, *Official Report*, column 514W.

Information on spend for policing in the East Riding of Yorkshire is not held centrally. The distribution of resources within a force area is a matter for the chief constable and the police authority.

Probation Reports

Mr. Amess: To ask the Secretary of State for the Home Department how many reports were prepared by probation officers for people convicted of any offence in each year since 2000 in *(a)* Essex and *(b)* England; and how many of those reports were challenged and subsequently found to be unreasonable. [1219]

Fiona Mactaggart: The number of pre-sentence reports and specific sentence reports (now replaced by the Fast Delivery PSR) written by probation officers in the Essex probation area and in all probation areas in England in each year since 2000 is given in the following table. Information on the number of reports which were challenged and subsequently found to be unreasonable is not collected centrally.

Number of pre-sentence reports and specific sentence reports

	Essex	*England*
2000	4,894	236,984
2001	3,300	231,510
2002	3,967	236,750
2003	4,205	228,519

Public Service Agreement Targets

David Davis: To ask the Secretary of State for the Home Department what progress his Department has made on each of its public service agreement targets as set down in spending reviews since 1997. [1392]

Mr. Charles Clarke: Public service agreement (PSA) targets have been set every two years as part of the Spending Review. Since 1997 there have been four reviews: the 1998 Comprehensive Spending Review, and the 2000, 2002 and 2004 Spending Reviews.

Performance against all PSA targets has been reported in our Annual Report since 1999–2000. Since 2002, performance has also been reported in our autumn performance report. The Treasury also introduced a performance reporting website in 2003 www.hm-treasury.gov.uk/performance. The Home Office Annual Report for 2004–05 with the latest performance information will be published in June.

Violent Crime (Pembrokeshire)

Mr. Crabb: To ask the Secretary of State for the Home Department how many violent crimes have been recorded in Pembrokeshire in each year since 1997. [3739]

Hazel Blears: The available information relates to the Pembrokeshire Crime and Disorder Reduction Partnership (CDRP) area and is given in the tables. Data at CDRP level are only available from 1999–2000.

Table 1: Violent crimes recorded by the police in the Pembrokeshire Crime and Disorder Reduction Partnership area, 1999–2000 to 2001–02

	Number of offences
1999–2000	1,273
2000–01	1,341
2001–02	1,239

Note:
The data in this table are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 2: Violent crimes recorded by the police in the Pembrokeshire Crime and Disorder Reduction Partnership area, 2002–03 and 2003–04

	Number of offences
2002–03	1,402
2003–04	2,120

Note:
The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

CONSTITUTIONAL AFFAIRS

Community Justice Facilities

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the Community Justice Centre in Liverpool. [1773]

Ms Harman: My Department, Home Office and CPS have been working together to develop the first pilot Community Justice Centre in North Liverpool, to help tackle antisocial behaviour and quality of life crime problems facing the area.

The Community Justice Centre will provide a community centre, a court and an experienced team of professionals, including the police, the Crown Prosecution Service, the Probation Service, defence representatives, youth services and a range of advice providers. It will also offer access to a range of services to address the underlying problems causing crime, for example debt counselling and housing advice. These services will be available to victims, witnesses and their families, local residents and offenders.

His Honour Judge Fletcher began hearing cases for the area from 9 December 2004 in a courtroom in Liverpool's Dale Street magistrates court. Over 700 hearings have taken place to date.

Contact Orders

Margaret Moran: To ask the Minister of State, Department for Constitutional Affairs (1) how many contact orders were *(a)* granted and *(b)* refused under section 8 of the Children Act 1989 in each year since the Act came into force; [4184]

(2) in how many cases in which contact orders were *(a)* granted and *(b)* refused domestic violence was cited in each year since their inception. [4185]

Ms Harman: The Children Act 1989 was implemented on 14 October 1991. The number of contact orders granted and refused since 1992 is set out as follows.

	Granted	*Refused*
2004	70,169	504
2003	67,184	601
2003	61,356	518
2001	55,030	713
2000	46,070	1,276
1999	41,862	1,752
1998	49,313	1,911
1997	42,065	1,847
1996	39,982	1,877
1995	35,753	1,894
1994	31,506	2,113
1993	27,780	1,956
1992	17,470	1,092

The data requested on the number of cases that cited domestic violence are not held centrally. One recent research report (Wade and Smart, DCA Research Series 06/2003), however, did suggest that around 25 per cent. of child contact cases involved allegations of domestic violence. From 31 January new forms for applications for child contact and residence were introduced. These 'Gateway forms' identify allegations of harm at the beginning of the court process. We are committed to evaluating the impact of these forms and further research is planned for one year on from implementation with a report expected in the autumn of 2006.

Drugs Courts

Mr. Malins: To ask the Minister of State, Department for Constitutional Affairs what plans she has to set up designated drugs courts in the Greater London area; and if she will make a statement. [2704]

Ms Harman: The Government are committed to establishing a pilot of a dedicated drug court by the end of 2005. It is anticipated that this pilot will involve trained sentencers, inter-agency co-operation and regular court reviews by a consistent court to track an offender's progress from sentence through to completion or breach of an order. The pilot builds upon international evidence and existing best practice that close sentencer review of drug treatment can play a role in successful rehabilitation.

The Government are currently determining the exact scope and best sites for the pilot, but it is likely that one location for the pilot will take place in London. A further announcement will be made in due course.

Electoral Administration/Register

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what plans the Government have to amend electoral law in *(a)* Scotland, *(b)* Northern Ireland and *(c)* Wales in the forthcoming Electoral Administration Bill. [3608]

Ms Harman: The conduct of parliamentary and local elections in Wales is not devolved and therefore the measures included in the Electoral Administration Bill will apply to Wales. The conduct of parliamentary elections and the franchise in Scotland is reserved and therefore the measures in the Bill will apply to Scotland in respect of these matters. Discussions with Scotland in respect of the impact on local government elections, and with Northern Ireland, where the conduct of all elections is excepted, are currently on-going and at present we cannot comment on the what the outcome of these will be.

Derek Wyatt: To ask the Minister of State, Department for Constitutional Affairs what procedures are in place for the Department to audit the accuracy of electoral rolls. [2727]

Ms Harman: The Representation of the People Act (RPA) 1983 requires electoral registration officers (EROs) appointed by local authorities for the purpose to compile the electoral register as accurately as possible. The Act gives this responsibility to EROs who act independently for these purposes.

Lynne Jones: To ask the Minister of State, Department for Constitutional Affairs if she will list the *(a)* number and *(b)* nature of election counts held in each year since 1999. [3300]

Ms Harman: The information since 1997 is in the following table.

Date	*Location*	*Petitioner/s*	*Respondent/s*	*Grounds*	*Result*
Parliamentary					
14 May 1997	Dagenham	Richard Henry Dawson	Jack Thomas	R/O negligent in that he accepted nominations from non-electors etc.	Lapsed
15 May 1997	Winchester	Gerald Malone	Mark Oaten, Lindsey Garrett Fox	Quality of Ballot papers rejected for want of official mark and rejected ballot papers disputed	Special Case 6 October1997 Petition Allowed
22 May 1997	North East Bedfordshire	Ashley Leggett	Sir Nicholas Walter Lyell QC George Coates	Sir Nicholas Walter Lyell formerly Peter Rubery Hayward prevented from standing as a candidate by interim injunction obtained by Sir Nicholas Walter Lyell QC	Lapsed

Date	Location	Petitioner/s	Respondent/s	Grounds	Result

6 July 2004	Flintshire	Peter Pemberton	Stella Jones	Tyrone Wilcox was disqualified from standing for election	20 December 2004 Petition Dismissed

Faith Awareness Training

Mr. Paul Goodman: To ask the Minister of State, Department for Constitutional Affairs how many civil servants in the Department received faith awareness training in 2004. [3810]

Ms Harman: My Department requires all new staff to attend Diversity Awareness Training. In December 2003 the Diversity Awareness Training course was updated to take account of the Employment Equality (Religion or Belief) Regulations.

1,872 new entrants to the Department attended the Diversity Awareness Training course during 2004.

In addition staff in the Department were informed of the Religion or Belief Regulations through a number of communication channels. These included articles in staff magazines, team briefing sessions and guidance notes that were placed on the Department's intranet.

Fixed-term Judicial Appointments

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs if she will commission research into the experience in Commonwealth countries of fixed-term judicial appointments and its applicability to the UK. [4714]

Ms Harman: There are currently no plans to carry out such research.

Freedom of Information Act

Harry Cohen: To ask the Minister of State, Department for Constitutional Affairs how many requests under the Freedom of Information Act 2000 have been referred to the Central Clearing House; and what proportion of these referrals have been accompanied by a recommendation that an exemption should be applied to the request. [4596]

Ms Harman: Since the Freedom of Information Act came into force on 1 January, 2,080 cases have been referred to the Clearing House, including Internal Reviews and appeals to the Information Commissioner's Office. The first quarterly monitoring report is due to be published on 23 June providing a wide range of information on FOI requests received by central Government Departments.

Specific information relating to the proportion of cases in which the Clearing House has advised that an exemption is applicable cannot be provided without incurring disproportionate cost.

Local Elections

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs what plans the Government have to hold *(a)* all-postal and *(b)* e-voting pilot schemes in local elections. [3704]

Ms Harman: I refer the hon. Member to the reply I gave on 7 June 2005, *Official Report*, column 483W.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs whether the 2006 local elections will be conducted by all-postal ballots. [1761]

Ms Harman: Under the Representation of the People Act 2000 the Secretary of State is obliged by law to consider any application from a local authority to pilot innovative voting methods and we will consider them on a case by case basis. We have no intention to amend the RPA 2000 in this respect.

Magistrates (Warrington)

Helen Jones: To ask the Minister of State, Department for Constitutional Affairs what progress has been made in appointing more magistrates from the most deprived wards in Warrington borough. [3193]

Ms Harman: The Cheshire Advisory Committee is responsible for recruiting magistrates in Warrington and will be submitting its recommendations for appointment in July. In the past 12–18 months the Advisory Committee have made particular efforts to raise awareness of the magistracy and target recruitment effort in Warrington, particularly those areas.

The Cheshire Advisory Committee are aiming to make eight appointments this year (five of which are from the north of Warrington covering the most deprived areas). four magistrates were appointed to the Warrington Bench in 2002, five in 2003 and six in 2004.

Members of Parliament (Judicial Positions)

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs whether hon. Members will continue to be eligible to sit as recorders of the Crown court. [4715]

Ms Harman: There are no plans to disbar hon. Members from sitting in the Crown court as recorders. While full-time judicial office holders and some fee-paid judges are disqualified from sitting in both Houses, the Lord Chancellor does not feel that it is incompatible for recorders, deputy district judges, including magistrates' courts, and magistrates to discharge their judicial duties in parallel with their parliamentary and political responsibilities, provided they do nothing in their judicial capacity to suggest political partiality.

Postal Voting

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what estimate the Government have made of the cost to local authorities of the implementation of *(a)* postal voting on demand and *(b)* the provisions outlined by the Department for inclusion in the Electoral Administration Bill. [3617]

Ms Harman: Local authorities fund the administration of postal voting from their own budgets and the cost to them will vary according to demand in the local authority area concerned. Information about such costs is not currently collected centrally, but we intend to give the Electoral Commission the power to do so. All the proposals in the Bill are being costed as part of policy development.

Private Finance Projects

Mr. Philip Hammond: To ask the Minister of State, Department for Constitutional Affairs if she will list the private finance initiative and public-private partnership projects her Department is undertaking; and what the status of each is. [2363]

Ms Harman: I list the private finance initiative and private-partnership projects currently undertaken by the Department for Constitutional Affairs and the status of each.

PFI Project	*Status*
Aramis	Operational-system is up and running.
National Probate Records	Operational—business is running. Ready for use since June 2001.
LOCCs	Operational-IT systems are up and running.
LIBRA	Operational—business is successfully running.
East Anglia Courts	Operational—courts sitting since July 2004.
Exeter Crown and County Court	Operational—court sittings commenced since November 2004.
Sheffield Family Hearing Centre	Operational—court Sittings commenced July 2004.
Hereford and Worcester Magistrates Courts	Operational—courts sitting since October 2001.
Humberside Magistrates Courts	Operational—courts sitting since November 2001.
Manchester Magistrates Courts	Operational—open to public in May 2004.
Derbyshire Magistrates Courts	Construction completed—Derby and Chesterfield magistrates courts are sitting. New Mills is awaiting the outcome of a court case.
Avon and Somerset Magistrates Courts	Under construction—contracts let in August 2004.

Race Relations (Amendment) Act

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs how many and what percentage of staff in her Department have received training on the general and specific duties of the Race Relations (Amendment) Act 2000, broken down by *(a)* ethnicity and *(b)* grade. [3553]

Ms Harman: My Department provided training for all senior managers (Grades 7 and above in HQ and senior operational managers in a range of grades in its agencies) on the duties of the Race Relations (Amendment) Act 2000. This was through a series of seminars and supporting guidance notes. Approximately 750 senior managers (6 per cent. of staff) attended the training and this was then cascaded by the senior managers to their staff.

At the same time the Department reviewed its Diversity Awareness Training course to include details of the duties under the Act. The Diversity Awareness Training course is a mandatory course for all new entrants to the Department.

The Department also reviewed its Employment Law for New Managers course to include details of the duties under the Act. The Employment Law for New Managers course is mandatory for all new managers in the Department.

Since 2002 the Department has been collecting data on training by responsibility level and ethnic origin. Due to the constraints of the current HR IT system we are only able to publish data by training type (developmental/business skills) and we do not have breakdowns for individual courses. The data collected is published in the Department's Equality and Diversity Report 2002–04.

The Department's HR IT system will be upgraded as part of an HR transformation programme.

Remote Electronic Voting

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what costs the Government have incurred in connection with remote electronic voting in each year since its introduction; and if she will make a statement on forecast expenditure on promoting e-voting. [3615]

Ms Harman: The Government launched their electoral modernisation programme in 2002. This commenced a three-year programme of electoral pilots to test new methods of voting and other electoral innovations at local elections. The costs that the Government have incurred in connection with remote electronic voting pilots was £2,261,204 in 2002 and £16,976,000 in 2003.

Future expenditure will depend on the electoral modernisation strategy, which is still in development.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what Implementing Electronic Government targets the Government have set local authorities to promote the implementation and take-up of remote electronic voting. [3616]

Ms Harman: The Government have not set any Implementing Electronic Government targets for local authorities to promote the implementation or take-up of remote electronic voting.

Televised Court Hearings

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs whether the Department plans to televise court hearings. [2821]

Ms Harman: We are considering whether any televising should be permitted. My Department recently carried out a public consultation on broadcasting court proceedings. The consultation paper and the entries in

our on-line discussion forum are available on the Department's website. Any change to the current prohibition would require primary legislation.

FOREIGN AND COMMONWEALTH AFFAIRS

Acquis Communautaire

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's estimate is of the size of the acquis communautaire; and if he will make a statement. [4567]

Mr. Douglas Alexander *[holding answer 14 June 2005]:* The acquis communautaire consists of the principles, practices, policies, obligations, objectives and legal and other acts that have been agreed or have been developed over the years by the European Union and the European Communities. These include, in particular, the EU Treaties in their entirety, as well as all existing EU legislation and Court of Justice judgments.

The acquis ranges over virtually all policy areas and its content develops over time. To try to estimate its "size" would be as meaningless as to try to estimate the "size" of UK law.

Afghanistan

Paul Flynn: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent by the UK on supporting measures to eradicate heroin poppy cultivation in Afghanistan; and what change there has been in the *(a)* cultivation of poppies and *(b)* production of heroin over the period of that support. [3761]

Dr. Howells: Since 2001 the UK's overall spend on counter narcotics work in Afghanistan has been as follows:

	Overall spend (£)
2001–02	31,000
2002–03	1,599,036
2003–04	16,500,931

Final outturn figures for financial year 2004–05 have not yet been confirmed.

However, we estimate total spend to be around £20 million.

The UK continues to provide substantial financial and practical support to the Afghan Government in the implementation of their comprehensive national drug control strategy. This year, the UK will spend more than £50 million, including £30 million on alternative livelihoods.

The United Nations Office on Drugs and Crime (UNODC) conducts an annual survey into the level of opium poppy cultivation and production in Afghanistan. Full details can be found on their website at:

http://www.unodc.org/pdf/afg/afghanistan_opium_32survey 2004.pdf

During the period detailed, the reported levels of cultivation and production was as follows:

	Hectares	*Tonnes*
2001	8,000	185
2002	74,000	3,400
2003	80,000	3,600
2004	131,000	4,200

There are no reliable figures to show how much of this opium was processed into heroin within Afghanistan.

The UK, as lead nation on counter narcotics (CN), remains committed to supporting the Afghan Government in the implementation of their comprehensive 2005 CN implementation plan and in updating their national drug control strategy. I refer my hon. Friend to the reply I gave to the hon. Member for Bognor Regis and Littlehampton (Mr. Gibb) on 6 June 2005, *Official Report*, columns 234–35W, on the counter narcotics programme in Afghanistan .

China

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effects of the UK position on lifting the EU embargo on arms sales to China on *(a)* the UK balance of trade with the USA and *(b)* the UK arms industry. [1479]

Dr. Howells: The Government are concerned about the possibility of legislation being introduced by the US Congress and the effect that this may have on UK companies' future export sales and strategies. We are making and shall continue to make our views known to the US Administration and Congress to ensure that UK exports are not negatively affected as a result of any future lift of the EU embargo on arms sales to China. The European Council in December 2004 concluded that any decision on the arms embargo should not lead to

> "an increase in arms exports from EU Member States to China, neither in quantitative nor in qualitative terms".

Proposed exports from the UK defence industry to China will continue to be subject to the EU code of conduct, which is, and will remain, the key to controlling EU arms exports to China.

Colombia

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Colombian Government on the recent arrest of the Colombian Agricultural Trade Union representative Hernando Hernandez Tapasco; and if he will make a statement. [2860]

Mr. Douglas Alexander: Our embassy in Bogota has contacted the Colombian authorities to seek clarification of the circumstances surrounding the arrest of Hernando Hernandez Tapasco. The Colombians advise that he was lawfully arrested on 1 June 2005 in Bogota on suspicion of being a member of an illegal armed group.

Human rights are at the heart of our policy towards Colombia and we regularly raise such cases with the Colombian authorities. We also urge the Colombian

Government to implement the recommendations arising from successive annual reports from the Colombia office of the United Nations High Commissioner for Human Rights, and have offered our assistance to achieve this. Human rights have formed a significant strand in the three visits paid by Foreign and Commonwealth Office Ministers to Colombia in the last few years.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will answer the letter dated 15 April from the right hon. Member for Manchester, Gorton with regard to Mrs. S. Siddique. [2632]

Dr. Howells: I refer my right hon. Friend to the answer I gave him on 7 June 2005, *Official Report*, column 547W.

Mr. Steen: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply in full to the letter from the hon. Member for Totnes of 6 April 2005 regarding Kit Marshall of Thurlestone and his detainment at Miami airport in January. [4713]

Ian Pearson: In April, consular officials at our Vice-Consulate in Orlando approached the US Immigration authorities at Miami airport about Mr. Marshall's case. The US authorities told them that Mr. Marshall's complaint is serious and as a result, has been forwarded to their headquarters in Washington, for further investigation.

We await a substantive reply from the headquarters in Washington and will continue to remind them of the need to respond to Mr. Marshall's complaint as soon as possible. The hon. Member will receive a full reply as soon as we have further information from the US immigration authorities in Washington.

Diego Garcia

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs for how long the lease of Diego Garcia to the US runs; and what arrangements he expects will be put in place for Diego Garcia when the lease expires. [3656]

Mr. Douglas Alexander: There is no lease of Diego Garcia to the United States. Under the Exchange of Notes between the United Kingdom and United States concerning the Availability for Defence Purposes of the British Indian Ocean Territory of 30 December 1966, the whole Territory is to remain available to meet the possible defence needs of the two countries for an initial period of 50 years from 1966, and thereafter for a further period of 20 years unless either party has given prior notice to terminate it within the two years immediately before the end of the initial period. No plans have been made regarding what will happen in 2016 when the initial period of the agreement has expired.

East Timor

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of whether British citizens Malcolm Rennie and Brian Peters, who died at Balibo, East Timor, on 16 October 1975, were murdered; and if he will make a statement. [4497]

Ian Pearson: The Foreign and Commonwealth Office is unable to make an assessment about whether these two British citizens were murdered. The author of a report commissioned by the Australian Government in 1999 (the Sherman Report) concluded that he had

> "... never reached the stage of concluding that the Balibo 5 [of which Brian Peters and Malcolm Rennie were two] were murdered ..."

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department has met the relatives of Malcolm Rennie and Brian Peters to inquire into the security of the United Nations' police files on their case; and if he will make a statement. [4498]

Ian Pearson: The former Minister of State at the Foreign and Commonwealth Office, my hon. Friend the Member for North Warwickshire (Mr. O'Brien) met relatives of Malcolm Rennie and Brian Peters in September 2003 and March 2004. We have since made representations to both the UN and to the Government of Timor Leste (East Timor) about the future security of these and other files.

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the security of the police files of East Timor's Serious Crimes Unit; and if he will make a statement. [4499]

Ian Pearson: We have not made an assessment of the security of the files held by the Serious Crimes Unit in Dili, East Timor. We understand that the UN will be advising how it believes the case documents should be handled in future. We have recently made clear to the UN in East Timor and to the Government of Timor Leste (East Timor) the importance we attach to the security of this information.

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs what correspondence he has had with Indonesia's *(a)* Foreign Minister and *(b)* ambassador regarding the case of Malcolm Rennie and Brian Peters; and if he will make a statement. [4500]

Ian Pearson: This case was raised in 2004 by the former Minister of State at the Foreign and Commonwealth Office, my hon. Friend the Member for North Warwickshire (Mr. O'Brien), with both Indonesia's Foreign Minister and the then Indonesian ambassador.

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the British police regarding their involvement in the case of British citizens Malcolm Rennie and Brian Peters; and if he will make a statement. [4501]

Ian Pearson: The British police have not been involved in this case, although we understand a British police officer was at one time a temporary member of the UN civilian police detachment in East Timor.

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in persuading the Indonesian authorities to bring to trial in Indonesia or to extradite to East Timor those Indonesian military officers from Indonesia's Battalion 745 who have been indicted by East Timor's Serious Crime Unit for the murder of *Financial Times* journalist Sander Thoenes; and if he will make a statement. [4502]

Ian Pearson: The death of Sander Thoenes, a Dutch journalist working for the *Financial Times* killed in East Timor in 1999, fell within the remit of the Serious Crimes Unit in Dili, East Timor, and has been investigated by them. We understand that no further progress has been made in bringing anyone to trial.

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in persuading Indonesian authorities to investigate crimes committed by the Indonesian Army's Battalion 745 *(a)* on 21 September 1999, including the attack on Sunday Times journalist Jon Swain and his three companions and *(b)* during other stages of the Battalion's withdrawal from East Timor in 1999; and if he will make a statement. [4503]

Ian Pearson: Human rights violations committed in 1999 in East Timor have been investigated by both the Serious Crimes Unit in Dili and the ad hoc tribunal in Jakarta. Further information may result from the work of the Commission for Truth and Reconciliation established by Indonesia and East Timor and due to start work by August 2005.

Electoral Reform (Africa)

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations the Government have made to the Tanzanian Government in relation to ensuring peaceful, fair and transparent elections to both Tanzanian assemblies in October. [4349]

Ian Pearson: We are in regular touch with the Governments of Tanzania and Zanzibar, and the opposition, on the importance of peaceful, fair and transparent elections. The UK co-chairs, along with the National Electoral Commission, a Steering Committee which is supporting the electoral process on the mainland, and to which we have contributed approximately £800,000. We are also funding implementation of the Muafaka Agreement, aimed at promoting reconciliation between the two main political parties on Zanzibar and working towards peaceful and credible elections there.

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations the Government have made to the Government in Cote D'Ivoire in relation to *(a)* respecting its commitments fully to implement the provisions of the Pretoria Agreement and *(b)* ensuring the elections in October are free from intimidation, fair and transparent. [4350]

Ian Pearson: We welcomed and supported United Nations Security Council Resolution 1603, passed unanimously on 3 June 2005, demanding that all signatories to the Pretoria agreement and all the Ivorian parties concerned implement it fully and without delay, and demanding that all the Ivorian parties take all necessary steps to ensure that the forthcoming general elections are free, fair and transparent.

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of the Democratic Republic of Congo concerning *(a)* the constitutional reform process, *(b)* the next phase of the transition arrangements and *(c)* ensuring that the forthcoming referendum, presidential and legislative elections are transparent, free and fair. [4351]

Ian Pearson: We and international partners worked closely with members of the Congolese Government and Parliament on the Democratic Republic of Congo (DRC)'s new constitution before its adoption on 16 May 2005. We continue to press the DRC Government and Independent Electoral Commission to establish soon a realistic electoral calendar and begin voter registration. My right hon. Friend the Secretary of State for International Development and my noble Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs, Lord Triesman of Tottenham, made these points to the President of the Congolese Parliament on 25 May 2005. We have contributed £5 million to the United Nations Trust Fund supporting elections, as part of a wider package. We are discussing with partners how best to ensure the security and integrity of these elections.

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Uganda concerning *(a)* the proposed constitutional reforms dealing with removing limits on multi-party politics and presidential terms and *(b)* ensuring that the forthcoming referendum, presidential and legislative elections are transparent, free and fair. [4352]

Ian Pearson: We have repeatedly underlined our support for a return to multiparty politics, and for a free and fair referendum and elections. We hold regular meetings with Ugandan Ministers to discuss the political situation, including the transition, the forthcoming referendum and the elections due next March. The high commissioner has also raised these issues directly with President Museveni, and last did so when they met on 28 May 2005.

EU Constitution

Mr. Maples: To ask the Secretary of State for Foreign and Commonwealth Affairs what work is being done by *(a)* his Department and *(b)* the EU Commission on proposals for (i) an EU Diplomatic Service, (ii) an EU President, (iii) an EU Foreign Minister, (iv) an EU Defence Agency and (v) implementation of the EU Charter of Fundamental Rights; what the legal basis is in each case; and when work began. [3986]

Mr. Douglas Alexander *[holding answer 13 June 2005]:* There have been official level discussions between member states, the Commission and the Council Secretariat on preparations for a "European External Action Service" since October 2004. No conclusions have been drawn. The Commission and the High Representative have produced an "issues paper" and progress report on the European External Action

Service. This preparatory work was specifically requested by the Heads of State and Government in October 2004 and December 2004.

No work has been undertaken by the Foreign and Commonwealth Office regarding the proposed posts of the European Council President and EU Foreign Minister beyond internal analysis of the implications of these proposals for the UK. It is not for the Government to comment on any internal work by the Commission on either of these two posts.

The European Defence Agency was established in June 2004 under the provisions of the Treaty on European Union following the unanimous agreement of Heads of State and Government in June 2003. The Foreign and Commonwealth Office contributes to the work of the Ministry of Defence in agreeing work plans for the European Defence Agency. A representative of the European Commission is a member of the European Defence Agency Steering Board, and the Agency liaises with the Commission in its work on the European defence industry and security research.

The Charter of Fundamental Rights would be implemented in the UK by the Bill proposed to give effect to the Constitutional Treaty (the European Union Bill). The Government's current intentions with regard to that Bill were set out by the Foreign Secretary in his statement to the House on 6 June 2005, *Official Report*, columns 991–92, on the EU Constitutional Treaty.

EU Directives

Mr. Davidson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress of the EU Directive on Services. [4218]

Mr. Douglas Alexander: Negotiations on the draft Directive for Services in the Internal Market are still at an early stage. The proposal is currently being debated in the European Parliament, which is due to complete its First Reading in early autumn. We then expect a revised Commission proposal which will form the basis for further negotiations. The UK remains a strong supporter of the Directive—we will continue to work with the Commission, the Parliament and EU partners to produce a measure that opens up the European services market and reduces barriers to business across the continent.

Mr. Davidson: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is regarding *(a)* the country of origin principle and *(b)* the freedom of establishment principle within the EU directive on services. [4219]

Mr. Douglas Alexander: The UK strongly supports the Directive on Services in the Internal Market—there is vast untapped potential in the services sector, which accounts for over two-thirds of EU Gross Domestic Product.

The country of origin principle is an important means to facilitate the temporary provision of services across borders. This is of particular relevance to small businesses, which need to be able to enter new markets on a temporary basis without committing themselves to the full costs of establishment.

The UK strongly supports proposals in the draft directive for simplifying administrative procedures and screening authorisations for establishment. These measures will reduce bureaucracy, make it easier for service providers to become established in other member states, and complement the EU and UK better regulation agenda.

Europe Directorate Budget

Mr. Davidson: To ask the Secretary of State for Foreign and Commonwealth Affairs how much of the Europe Directorate's budget for developing a longer-term communications strategy for financial year 2004–05 has been spent; what work has been completed; what further work is planned; and if he will make a statement on the Government's long-term communications strategy for informing the public about the EU, including the Treaty Establishing a Constitution for Europe. [1212]

Mr. Douglas Alexander: I refer my hon. Friend to my right hon. Friend the Foreign Secretary's statement made to the House on the EU Constitutional Treaty on 6 June 2005, *Official Report*, columns 991–92.

All of the money allocated for developing a longer-term communications strategy in financial year 2004–05 has been spent. The money has been used to develop a communications strategy on the EU. No final decisions have yet been made on communication activities on the EU Constitutional Treaty for financial year 2005–06.

Honorary Consul (Antananarivo)

Mr. Cameron: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he intends to maintain the position of honorary consul in Antananarivo; and if he will make a statement. [4604]

Ian Pearson: My right hon. Friend the Foreign Secretary announced on 15 December 2004, *Official report*, columns 137–140WS that the British embassy in Antananarivo will close shortly After closure relations with Madagascar will be covered from our High Commission in Port Louis, Mauritius. We intend to appoint an honorary consul in Antananarivo.

Lebanon

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to hold discussions with the Lebanese authorities following the recent elections there. [3096]

Dr. Howells: There are no plans for my right hon. Friend the Foreign Secretary to hold discussions with the Lebanese authorities once the elections are completed there on 19 June. However, our embassy in Beirut has regular contact with representatives of the Lebanese authorities, and I spoke briefly with Foreign Minister Hammoud during the Euro-Mediterranean Partnership ministerial meeting in Luxembourg, and hope to see the Lebanese ambassador later this month.

Private Finance Initiative

Mr. Philip Hammond: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the

private finance initiative and public private partnership projects his Department is undertaking; and what the status of each is. [2371]

Mr. Straw: The Foreign and Commonwealth Office (FCO) has two private finance initiatives and one public private partnership arrangement in place.

Private Finance Initiatives:

1. Global Crossing—Provision of a worldwide telecommunications network for a term of ten years from 10 May 2000. The total estimated value of the contract is £236 million. The present unitary payment charged to the operating cost statement is £25 million per annum. This is an off-balance sheet charge and can be viewed in the FCO 2003–04 Resource Accounts on the FCO websiteathttp://www.fco.gov.uk/Files/KFile/FCOResourceAccounts200304,0.pdf

2. Arteos—In respect of the building, operation and maintenance of the British embassy in Berlin for a term of 30 years from 23 June 1998 with an option to extend for a further 30 years. The total estimated value of the contract over its lifetime is £131.5 million. The current unitary payment is £4.5 million per annum. This is mainly an on-balance sheet charge and can be viewed in the FCO 2003–04 Resource Accounts on the FCO website at http://www.fco.gov.uk/Files/KFile/FCOResourceAccounts200304,0.pdf

Public Private Partnership:

3. Hewlett Packard—The FCO awarded a contract to Hewlett Packard in February 2005 to become the FCO's strategic partner for the provision of its global IT infrastructure. The value of the contract is £179 million over seven years.

Race Relations (Amendment) Act

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what arrangements are in place to ensure that bodies within the responsibility of his Department comply with the requirements of the Race Relations (Amendment) Act 2000. [3532]

Mr. Straw: The Foreign and Commonwealth Office has just published a revised Race Equality Scheme 2005–08 which is available on our website, www.fco.gov.uk. This scheme sets out how the FCO will meet its obligations under the Race Relations (Amendment) Act 2000, and lists the FCO's non-departmental public bodies to whom the RR(A)A applies.

Russia

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures are being taken to help Russia secure its *(a)* nuclear material and *(b)* facilities against terrorism. [4632]

Malcolm Wicks: I have been asked to reply.

The UK is currently implementing a series of projects under the Global Partnership programme to enhance security of nuclear materials across the former Soviet Union (FSU). In addition to projects already completed at the Atomflot port in Murmansk, negotiations are under way to support an enhanced physical protection programme at the Nikiet Institute in Moscow. Further discussions are underway with the Russian authorities to identify potential future projects for UK support. The planned budget for nuclear security work under the Global Partnership is £4 million for this financial year.

A number of other countries involved in the Global Partnership programme, most notably the US, Canada and Germany have portfolios of projects to address security of nuclear materials and facilities. The UK is working closely with these and other countries to maximise the impact of our assistance, for example through increasing the focus on nuclear security in the G8 Nuclear Safety and Security Group which is currently under UK chairmanship.

Sierra Leone

Mr. Gale: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received a report from the UK high commission in Sierra Leone relating to the work of that country's anti-corruption commission; and if he will make a statement. [3931]

Ian Pearson: We receive regular reports from the high commission on the anti-corruption commission's progress. We also receive the commission's annual reports. The commission has a vital role to play in co-ordinating the Government's efforts to detect and prevent corruption. The UK, at the request of the Government of Sierra Leone, helped to establish the commission. We are its main external supporter, providing funds and specialist expatriate staff.

Mr. Gale: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the report of the Sierra Leone Truth and Reconciliation Commission as soon as it is made available to him; and if he will make a statement. [3932]

Ian Pearson: As soon as the full report of the commission is published, a copy will be placed in the Library.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what contribution the UK plans to make to *(a)* witness protection and *(b)* an effective investigation team in the recently announced International Criminal Court case regarding genocide, war crimes and crime against humanity in Darfur. [3094]

Ian Pearson: The Government concluded a general agreement in 2004 with the International Criminal Court (ICC) to provide witness protection services at the request of the Court.

The Court will carry out its investigations in Darfur and elsewhere in an entirely independent capacity. In order to respect this independence, and to protect the integrity of the Court's operations, it would not be appropriate to comment on the operational aspects of specific ICC investigations; nor to reveal what support the UK is providing. The UK remains ready to consider any specific request put forward by the Court.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his US counterpart on the decision to pursue a case against alleged perpetrators of genocide, war crimes and crimes against humanity in Darfur through the International Criminal Court. [3095]

Ian Pearson: My right hon. Friend the Foreign Secretary held numerous discussions with a number of Security Council foreign ministers, including with his

US counterpart, in the weeks preceding the adoption of Security Council Resolution 1593 which referred the situation in Darfur to the International Criminal Court. The US abstained, but did not veto this resolution, and has made clear its strong support for putting on trial those allegedly responsible for serious international crimes in Darfur.

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what action the UK is taking to deal with the situation in Darfur. [3295]

Ian Pearson *[holding answer 14 June 2005]:* We are gravely concerned by the situation in Darfur and are playing a leading role in pressing for peace there. We were closely involved in the recent Security Council resolutions on Sudan, which extended the arms embargo in Darfur to the Government of Sudan and imposed sanctions against individuals who violate human rights and obstruct the peace process. We sponsored UN Security Council Resolution 1593, which referred the situation in Darfur to the International Criminal Court.

The African Union (AU) mission in Darfur is having a positive impact on security there and we fully support their decision to expand the mission to over 7,000 personnel. We have committed more than £20 million to the AU to date, mainly in logistical support, including delivery of nearly 600 vehicles.

Since October 2003 we have provided more than £74 million in humanitarian aid to Darfur, making us the second largest bilateral donor. We have set aside £119.5 million for our work in Sudan this financial year.

We will continue to press all sides to reach a political settlement for Darfur. To this end, we welcome the resumption of the Abuja peace talks. A UK representative will attend the talks on their resumption, and will provide advice to the parties in support of the AU's mediation work.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will urge the leaders of the Arab League to take steps to assist in resolving the situation in Darfur. [3655]

Ian Pearson: The UK is greatly concerned about the crisis in Darfur. We are urging all sides to work together to find a political solution to the conflict. We regularly press other members of the international community, including the Arab League, to do what they can to support the African Union (AU) mediation at the Darfur peace talks in Abuja, and to use their influence with the parties to get them to engage constructively in political dialogue. To this end, we welcome the recent Heads of State Darfur summit in Tripoli, at which Egypt, Libya, Chad, Nigeria and Gabon called for the resumption of peace talks, and secured the commitment of the Government of Sudan to attend and engage in good faith. We welcome the resumption, on 10 June, of peace talks in Abuja. A UK Representative is present to provide support to the parties.

Uganda

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the outcome of the recent London debate on the constitutional amendment in Uganda. [4075]

Ian Pearson: It is important that any constitutional changes have the genuine confidence of the people and their representatives. We therefore welcome public debate of this kind. We continue to urge the Government of Uganda to ensure that all political change, including amendments to the Constitution, follows the procedures set out in the Constitution, respects the rule of law and institutions of governance, and is free from physical intimidation or manipulation.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the steps taken by the Government of Uganda to deal with institutional corruption in that country. [4077]

Ian Pearson: We welcome the publication of the Government of Uganda's 2005 National Strategy to Fight Corruption, which acknowledges that corruption is a serious problem in Uganda. Progress has been made in establishing the basic institutional and legislative framework. The UK has been providing practical support for these government led initiatives. But more remains to be done. For example, there has been little follow through on any of the recent Commissions of Inquiry related to corruption issues.

Uzbekistan

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the United States Administration regarding the human rights record of the Government of Uzbekistan. [2627]

Mr. Douglas Alexander: On 17 May 2005 my right hon. Friend the Foreign Secretary discussed recent events in Andijan with US Secretary of State Rice in Washington. Like the UK, the US has condemned reports of the Uzbek Government's disproportionate use of force in Andijan and has called for an independent, international investigation into Andijan. On 8 June 2005 the State Department press spokesman, Sean McCormack, noted that there had been many reliable eyewitness accounts of Uzbek forces shooting civilians, and that it was now clear hundreds of innocent civilians had been killed. He also reiterated the US call for an independent, international investigation, stating that it was important

> "to find out what happened, so the Uzbek people know, so the world knows, and so that something like this does not happen again."

Visas

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs how many individuals were refused visas to visit the UK from *(a)* India, *(b)* Pakistan, *(c)* Bangladesh and *(d)* Jamaica in the last period for which figures are available, broken down by (i) gender, (ii) age and (iii) marital status. [3431]

Dr. Howells: UKvisas does not hold statistics about visit visas in the categories requested. The number of visit visas to the UK applied for and refused during 2003–04, was as follows:

Visit visas	April 2003 to March 2004 Received	Refused
India	232,519	36,631
Pakistan	83,566	9,032
Bangladesh	24,839	9,839
Jamaica	23,552	10,412

Figures for April 2004 to March 2005 are not yet available. When they are, they can be found, along with further entry clearance statistics, on the UKvisas website at www.ukvisas.gov.uk—"Entry Clearance: Facts and Figures".

Weapons Testing (Syria/Iran)

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* the Syrian missile tests on 27 May and *(b)* the Iranian announcement on 31 May that it had successfully tested a solid fuel motor for the Shahab 3 missile; and if he will make a statement. [3108]

Dr. Howells: Syria has said that the firing of three SCUD missiles, one of which exploded with debris landing in Syria, Turkey and the Mediterranean, was a test of its defensive weapons systems. We do not believe that this represents an attempt by Syria to develop an offensive missile capability.

We are aware of reports that Iran claims to have tested a solid fuel motor for their Shahab 3 missile. Iran's ballistic missile programme remains an issue of serious concern for us and for the international community.

Zimbabwe

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the UK's relations with Zimbabwe. [2846]

Ian Pearson: The United Kingdom has a long and deep relationship with Zimbabwe and its people. We maintain diplomatic relations with the Government of Zimbabwe, including embassies in respective capitals, to promote reform and convey directly our concerns, shared by many in the international community, about the dire situation in the country and the misrule of the current Government. The current crackdown in Zimbabwe is the latest example of the regime's lack of respect for individuals' welfare or human rights. On 2 June the British ambassador raised our protest directly with the Vice President.

But our relations go well beyond governmental contact, and include support to civil society and £71 million of humanitarian assistance provided since September 2001. This includes programmes to help orphans, vulnerable children and pregnant mothers. Department for International Development are presently responding to the current crisis by providing humanitarian assistance to the most vulnerable, mainly through the UN and International Organisation for Migration. To date, over 5,000 families have been reached with food, blankets, soap and other forms of assistance. Where appropriate, transport, emergency water and sanitation has been provided.

Mr. Robathan: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of South Africa concerning the sale of Alouette helicopter spares to Zimbabwe. [3797]

Ian Pearson *[holding answer 13 June 2005]:* The British High Commission in Pretoria has raised this issue with the South African Government and reiterated British Government concerns over the supply of any military equipment that may be used for internal repression in Zimbabwe.

Mr. Lancaster: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made in response to the Zimbabwean police force's expressed intention to use force during the National Strike to be held on 9 and 10 June 2005. [3925]

Ian Pearson: The British ambassador in Harare condemned the brutal actions of the authorities throughout the recent crackdown in Zimbabwe when he met with Vice President Joyce Mujuru and, separately, Didymus Mutasa, Minister of State for National Security, on 2 and 3 June 2005 respectively. The European Union has also condemned these actions. We continue to monitor the situation on the ground and will consider further protests to the Zimbabwean authorities should the actions of the Zimbabwean police force during the national strike warrant them.

Mr. Lancaster: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made in relation to the Zimbabwean Government's slum clearance campaign. [3926]

Ian Pearson: I refer the hon. Member to the reply I gave today to the hon. Member for the Isle of Wight (Mr. Turner), (UIN 3763).

EDUCATION AND SKILLS

Academies

Mr. Hoban: To ask the Secretary of State for Education and Skills what new academies are proposed to be built; and what stage discussions with sponsors and local education authorities have reached to date. [4236]

Jacqui Smith: There are 17 open Academies with 10 more set to open in September 2005. There are currently proposals for a further 38 Academies being developed. Of these 38 there are 27 Academies that are in the stage of implementation, meaning that a Funding Agreement has been signed between the Secretary of State for Education and skills and the sponsor to establish and maintain the Academy. There are a further 21 projects in the stage of feasibility testing, where the Department investigates and consults whether an Academy is appropriate in an area once a sponsor has been selected and the LEA confirms it wishes to be involved.

In addition there are around 140 projects in early stages of development where the Department explores whether an Academy can be established in an area in partnership with an LEA and/or predecessor school.

Access Agreements

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many access agreements have been completed between the Office of Fair Access and higher education institutions in England; and if she will place copies of each such agreement in the Library. [3982]

Bill Rammell: 120 such access agreements have been completed with higher education institutions, plus 34 agreements with further education colleges. Copies of all finalised agreements are available on the Office of Fair Access website, www.offa.org.uk

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the deadline is for the conclusion of access agreements between the Office for Fair Access and those higher education institutions in England intending to charge the maximum tuition fees from 2006. [3983]

Bill Rammell: The Office for Fair Access has not set any strict deadlines around the completion of access agreements. It would expect all agreements for 2006 to have been completed in time for institutions to tell prospective students about bursary arrangements before the start of the UCAS application cycle in September 2005, for entry in September 2006.

Action Zones (Pupil Achievement)

Mr. Hoban: To ask the Secretary of State for Education and Skills pursuant to her answer of 7 June 2005, *Official Report*, columns 468–69W, on action zones (pupil achievement), what assessment she has made of the research to which she refers. [4905]

Jacqui Smith: Research evidence was considered by Ministers and officials and taken in to account as we reviewed the effectiveness of the Education Action Zones (EAZs). Many of the recommendations were used to inform policy development, especially as the EAZs reached the end of their statutory lifespan and they have been transformed into either an Excellence Cluster (where a zone was not in an EiC area) or an EiC Action Zone (where they were in an EiC area). This has enabled us to develop a more focused strategy with a less bureaucratic structure.

Adult Education Funding

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what estimate she has made of the change in the number of *(a)* adult education classes and *(b)* adult education places as a result of the budget allocations agreed by her Department and the Learning and Skills Council in the academic year 2005/06. [3241]

Bill Rammell: Government have been clear about their priorities for adult further education and public funding will increasingly focus on ensuring adults are able to gain a platform of skills for employability. In line with these priorities, state funded adult learner numbers in Skills for Life and full Level 2 courses are expected to continue to increase in 2005/06. However, the Skills Strategy set out the need to rebalance the contributions of Government, individuals and employers towards the costs of learning and we support the case for charging higher fees for provision outside these priority areas, particularly for better qualified learners, for those studying for pleasure or personal development, and for employers. Colleges and other providers must decide how they can best raise income from non-government sources to support the continued provision of a broad range of courses for adults.

Bullying

Mr. Hoban: To ask the Secretary of State for Education and Skills what assessment she has made of the effectiveness of the Behaviour Improvement Programme on *(a)* behaviour, *(b)* bullying, *(c)* antisocial behaviour, *(d)* attendance and *(e)* truancy. [4903]

Jacqui Smith: In his 2003/04 annual report, Her Majesty's Chief Inspector of Schools said that

> "The government's Behaviour Improvement Programme is effective in the large majority of schools in which it is in place".

My Department has commissioned the London University Institute of Education to carry out a detailed evaluation of the programme. The results will be published this autumn.

Child Care

Keith Vaz: To ask the Secretary of State for Education and Skills what steps she is taking to raise the proportion of child care workers who are male. [4722]

Maria Eagle: We have been running a national recruitment campaign since 2000 to encourage people to consider working in child care. Within the campaign, we have targeted those under-represented in the child care workforce, including men, through a range of initiatives. We have, for example, produced a video for men considering working in child care and our latest press advertising campaign features a case study about a male child carer. We have also commissioned the Daycare Trust to work with local authorities to enhance their efforts to promote the recruitment of men in their local labour markets.

Mrs. Spelman: To ask the Secretary of State for Education and Skills what estimate she has made of the cost to local authorities of the implementation of the Childcare Bill's new duties for local authorities. [4378]

Beverley Hughes: We shall shortly be undertaking a consultation exercise on the content of the Childcare Bill to be introduced in the autumn. As part of the consultation we will produce a Regulatory Impact Assessment which will include details of costings.

Children's Fund

Mr. Dismore: To ask the Secretary of State for Education and Skills what the allocation from the Children's Fund was in each of the last four financial years *(a)* in total and *(b)* for each recipient authority. [4362]

Beverley Hughes: There are 149 Children's Fund partnerships based in each local authority area in England, responsible for delivering a range of preventive services for children and young people aged 5–13. The fund was rolled out in three waves from April 2001 to March 2005 onwards and I have placed in the

Library a full list of allocations made to Children's Fund partnerships, totalling well over £500 million for that period.

Following the last Spending Review, Children's Fund partnerships have been allocated £411.5 million over the three years 2005–06 to 2007–08.

Departmental Union Representation

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many trade union learning representatives there are in her Department. [3310]

Maria Eagle: My Department currently has five trade union learning representatives, with provision for a further 15 and one full-time union learning representative co-ordinator, yet to be appointed. Trade union representatives carry out their union duties in addition to their normal job roles.

Family Resolutions Project

Mrs. May: To ask the Secretary of State for Education and Skills (1) what estimates her Department had made of the number of likely participants prior to the setting up of the Family Resolutions Project; [4686]

(2) what the estimated costs of running the Family Resolutions Project are; [4687]

(3) how many parents have taken part in the Family Resolutions Pilot Project to date; and how many have accepted mediation services as part of the project. [4688]

Maria Eagle: During the design phase of Family Resolutions it was estimated that up to 1,000 parental couples could be eligible for consideration as participants in the Family Resolutions Pilot Project during a full year of operation. However, the number referred to the project has to date been significantly lower, due to a number of factors. These include there being a lower than expected number of applications to the participating courts; the exclusion of cases where harm is a factor and the refusal of some parents to participate. As at 14 June 2005, 47 couples have participated in the pilot and, of these, 23 couples have participated in the Parent Planning session.

Family Resolutions does not offer mediation as part of its services. Instead, in the Parent Planning session, couples, with the aid of a CAFCASS adviser and the Parenting Plans, are enabled to seek agreement about the practicalities of contact and other post-separation parenting arrangements

The costs of setting up and running the pilot project were estimated at £300,000 over one year for the three pilot areas; exact costs cannot be confirmed until the pilot is complete, after September 2005. To date, £173,669 has been spent.

Forecasts (16 to 18-year-olds)

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the projected *(a)* number and *(b)* percentage of 16 to 18-year-olds participating in (i) education, (ii) training and (iii) employment in the UK is for each year between 2005 and 2010; and what the figures were for each year from 1994 to 2004. [3052]

Jacqui Smith: The Department only holds information for participation estimates and their projections at England level. Participation rates and projections in other countries of the UK are matters for the respective devolved authorities.

The numbers and the percentages of 16 to 18-year-olds in education, training and employment from end 1994 to end 2003 are shown in the following table. The education and training information is split into those young people participating in full-time education and training which includes LSC funded work-based learning (WBL), employer funded training (EFT) and other education and training (OET). The participation projections between end 2004 and end 2007 are also given in the table. Projections after end 2007 will be constructed as part of the 2006 spending review. Projections are not made of the number of 16 to 18-year-olds in employment.

Participation in education and training of 16 to 18-year-olds by labour market status, England, 1994 to 2003[1]

	Participation estimates as at end of the calendar years:				
All in age group (number, thousand)	*1994*	*1995*	*1996*	*1997*	*1998*
Full-time education	921	957	1,000	1,010	999
Work Based Learning (WBL)[2]	184	174	178	177	173

DfES SFR 03/2005—Participation in education, training and employment by 16 to 18-year-olds in England: 1985 to 2003 (Revised) and DfES participation projections for 16 to 18-year-olds

Fostering

Tim Loughton: To ask the Secretary of State for Education and Skills what steps she is taking to encourage an increased number of foster carers; and how much her Department has spent on recruitment campaigns to encourage people to become foster carers in the last five years. [4463]

Maria Eagle: Funding of £113 million has been made available from 2003–04 to 2005–06 through the Choice Protects programme to support local authorities in improving placement choice for their looked after children—in particular through strengthening and expanding their fostering services, including by recruiting greater numbers of foster carers. Of this amount, a total of £7.25 million has been retained over the three years of the grant to fund national initiatives, including measures to support the recruitment and retention of foster carers. These include the establishment of a new national advice line for foster carers, a new national awards ceremony, measures to improve the support given to foster carers who are subject to allegations as well as work to improve training opportunities for foster carers.

In addition, my Department has funded a number of initiatives to support the recruitment activities of local authorities. We have funded the production of a Fostering Publicity Pack, at a cost of £100,000, designed to help local authorities to run targeted local campaigns to recruit new foster carers. We have awarded a three

year grant of £180,000 to The Fostering Network to support 'Fostercare Fortnight', which has a particular focus on recruitment, and we have recently awarded a two year grant to The Fostering Network of £80,000 to look at innovation in foster care recruitment. These steps, aimed at supporting recruitment at a local level, follow on from a national recruitment campaign undertaken by the National Foster Carer Association on behalf of the Department, in 2000, in which £2 million was invested.

Keith Vaz: To ask the Secretary of State for Education and Skills if she will make a statement on Government plans to tighten safeguards protecting the welfare of privately fostered children. [4723]

Maria Eagle: The Government plan to enhance and strengthen the private fostering notification under the Children Act 1989 through new measures in the Children Act 2004 and underpinning regulations, which come into force on 1 July 2005.

The new measures will require local authorities to promote public awareness in their area of the requirements as to notification; to satisfy themselves of the suitability of a proposed arrangement before it commences, where advance notification is given; and to monitor the way in which they discharge their Children Act 1989 functions in relation to private fostering, and to appoint an officer of the authority for that purpose.

The new measures, along with National Minimum Standards, are expected to focus local authorities' attention on private fostering by requiring them to take a more proactive approach to identifying arrangements in their area. The new measures are also expected to improve notification rates and compliance with the existing legislative framework for private fostering, and significantly to increase the number of arrangements checked out before a child begins to be privately fostered.

Keith Vaz: To ask the Secretary of State for Education and Skills what plans she has to provide privately fostered children with greater access to their social workers. [4724]

Maria Eagle: Under the existing private fostering regulations (the Children (Private Arrangements for Fostering) Regulations 1991) local authorities are already required to make arrangements for each child who is privately fostered within their area to be visited by an officer of the authority when reasonably requested by the child (or private foster carer) and, in particular, in the first year of the private fostering arrangement, within one week from its beginning and then at intervals of not more than six weeks and in any second or subsequent year, at intervals of not more than three months.

This requirement is reproduced and extended in the Children (Private Arrangements for Fostering) Regulations 2005, which replace the 1991 regulations and come into force on 1 July 2005. The 2005 regulations also require the local authority to arrange for a privately fostered child to be visited when reasonably requested to do so by a parent of the child, or any other person with parental responsibility for him or her. Further, these regulations also require the local authority to visit a privately fostered child at least every six weeks during the first year after it becomes aware that a private fostering arrangement is in place.

In addition, under the 2005 regulations, on receipt of a notification of a proposal to foster a child privately, local authorities will be required to arrange for an officer to visit and speak to the child within seven working days of such a notification being received, among other things to establish the wishes and feelings of the child about the proposed arrangement (considered in the light of his or her age and understanding).

Grammar Schools (Buckinghamshire)

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many pupils in each *(a)* grammar school and *(b)* upper school in Buckinghamshire achieved each (i) GCSE and (ii) A-level grade in each year since 2001, broken down by ethnic group. [3233]

Jacqui Smith: The information requested has been placed in the Libraries.

Higher Education

Mr. Allen: To ask the Secretary of State for Education and Skills what representatives she will send to the Higher Education Funding Council Conference on rates of participation in higher education on 15 June in Birmingham; and if she will make a statement. [4333]

Bill Rammell: The Department will not be sending a representative to this meeting although officials are aware of its purpose, which we understand is to explore the reasons behind the low participation in higher education (HE) rates for three constituencies and to agree how these rates might be improved. The Department will be kept informed of and where appropriate involved in the outcomes of the 15 June meeting in Birmingham. The Government remain committed to widening participation in HE for all those who have the merit and potential to benefit from it, regardless of background. Much of the Government's reforms of HE over the last year has widening participation at its heart and we look forward to seeing improvements in participation rates as a result.

Key Stage Learning

Mr. Hoban: To ask the Secretary of State for Education and Skills if she will make a statement on the research commissioned by Professor David Jesson of York University on the achievement at Key Stage 4 of children with high levels of attainment at Key Stage 2. [4233]

Jacqui Smith: I refer the hon. Member to the reply I gave to the hon. Member for Hertsmere (Mr. Clappison) on 7 June 2005, *Official Report*, columns 474–75W.

Learning Methods

Mr. Gibb: To ask the Secretary of State for Education and Skills what the difference is between learning by heart multiplication facts, as required by the

Framework for Teaching Mathematics: Reception to Year 6 document, and learning by heart multiplication tables. [4432]

Jacqui Smith: The Primary National Strategy stresses the importance of learning multiplication 'facts' (such as 8 x 7 = 56) which are bought together in multiplication tables. Acquiring these facts is a core part of children's mathematical education, and helps deepen their mathematical understanding, for example, enabling them to make the link between multiplication and division. Teaching multiplication tables can be used as a key means of ensuring that children learn multiplication facts.

Personalised Learning

Mr. Hoban: To ask the Secretary of State for Education and Skills (1) if she will make a statement on progress on introducing personalised learning for secondary school pupils; [3785]

(2) when she expects all secondary school pupils to have access to a personalised package of learning; [3786]

(3) what role her Department will play in implementing personalised packages of learning for secondary school pupils; [3831]

(4) whether the Department will introduce targets for the implementation of personalised packages of learning; [3832]

(5) what assessment she has made of the *(a)* financial and *(b)* personnel resources needed to introduce personalised packages of learning for secondary school pupils; [3833]

(6) what assessment she has made of the training required for teachers to introduce personalised packages of learning for secondary school pupils; and what plans she has to implement this. [3834]

Jacqui Smith: Through the Five Year Strategy for Children and Learning and the 14–19 White Paper we have embarked on an ambitious long-term agenda to personalise the education system to meet the needs of all pupils. A central element of that is the idea of "Personalised Learning"—tailoring educational provision to individual needs, interests and aptitudes so that every young person can receive a personalised package of learning and support to enable them to fulfil their potential.

Personalised learning has five key components that offer a framework for implementation:

assessment for learning;

effective teaching and learning strategies;

curriculum entitlement, choice and flexibility;

school organisation for personalisation;

partnership beyond the school to remove barriers to learning.

Personalised Learning is not new, nor is it a discreet package or programme to be delivered in isolation. Many schools and teachers have tailored the curriculum and teaching methods to meet the needs of pupils with great success for many years. We will continue to support schools through the continuous professional development provision provided by the National Strategies, our workforce remodelling and forthcoming curricula reforms.

Prison Education

Mr. Dunne: To ask the Secretary of State for Education and Skills how many prisoners are registered on prison education programmes. [4417]

Phil Hope: The Prison Service does not collect centrally individual information on prisoners participating in learning and skills through its contracts with education providers.

However, a 2003 report published by the Learning and Skills Development Agency ("Education, Training, Assessment and Learner Support in HM Prisons and Young Offender Institutions"), found that 39 per cent. of prisoners were engaged in education and training.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what was the *(a)* target for and *(b)* number of offenders acquiring (i) Basic Skills Level 1, (ii) Basic Skills Level 2, (iii) Basic Skills Level 3, (iv) Basic Skills Level 4 and (v) Basic Skills Level 5 in each year since 2002. [4494]

Phil Hope: Since 2002, targets and achievement by offenders of awards in literacy, language and numeracy at entry level, level one and level two in prisons in England and Wales, have been:

Custody	*2002–03*	*2003–04*	*2004–05*
Entry Level Target	6,000	7,749	16,970
Entry Level Achievement	9,181	13,500	22,301
Level 1 Target	12,000	14,462	23,430
Level 1 Achievement	16,991	18,911	25,371
Level 2 Target	10,800	14,420	15,600
Level 2 Achievement	15,147	14,233	15,875

For offenders in the community, the National Probation Service collects information on the number of offenders taking up a basic skills course as well as the number of literacy, language and numeracy awards that offenders in the community achieve. Targets are not broken down by level of award. Since 2002–03, targets and achievement have been as follows:

Community	*2002–03*	*2003–04*	*2004–05*
Basic skills 'starts' target	6,000	16,000	32,000
Basic skills 'starts' achievement	5,983	14,971	34,199
Basic skills awards target	1,000	4,000	8,000
Basic skills awards achievement	848	2,815	9,451

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what target has been set by Offenders' Learning and Skills in relation to the number of prisoners undertaking Open University degrees by 2006; what progress has been made towards that target; and what resources have been made available to realise the target. [4495]

Phil Hope: There is no target for Open University participation by offender learners.

However, we have provided funding to increase the number of Open University undergraduate places and access courses for offenders in custody from 450 in 2002–03 to 1,100 in 2004–05. In 2005–06 we are providing £1,048,050 in order to support 1,300 Open University undergraduate places and access courses for offender learners in custody.

Pupil Exclusions

John Cummings: To ask the Secretary of State for Education and Skills how many pupils have been excluded from each school in the Easington constituency in each year since 2000. [3757]

Jacqui Smith: The requested information is given in the table. Figures for 2003/04 will be available from 23 June 2005.

Maintained primary, secondary and all special schools: number and percentage of permanent exclusions 1999/2000 to 2002/03, Easington parliamentary constituency

URN	Establishment name	1999/2000		2000/01[1]		2001–02[2]		2002–03[2]	
		No.	%	No.	%	No.	%	No.	%
	Total	14	0.10	14	0.11	11	0.08	15	0.12
114202	Murton Primary School	[3]	[3]	0	0.00	0	0.00	[3]	[3]
114286	Seaham School of Technology	4	0.36	[3]	[3]	[3]	[3]	[3]	[3]
114313	Dene Community School of Technology	[3]	[3]	4	0.54	[3]	[3]	[3]	[3]
114314	Shotton Hall School	4	0.38	[3]	[3]	0	0.00	[3]	[3]
114318	Easington Community School	[3]	[3]	4	0.39	5	0.51	5	0.53
114346	Glendene School	[3]	[3]	0	0.00	0	0.00	0	0.00
114145	Haswell Primary School	0	0.00	[3]	[3]	0	0.00	[3]	[3]
114327	Peterlee St. Bede's Catholic Comprehensive School	0	0.00	[3]	[3]	[3]	[3]	0	0.00

[1] There are known quality issues with exclusions data for these years. Figures shown here are as reported by schools but are unconfirmed and should be used with caution.
[2] The number of exclusions expressed as a percentage of the total number of pupils on the school roll in January of the same school year. Excludes dually registered pupils.
[3] Less than 3, or a rate based on less than 3.
Source:
Annual Schools Census

Mr. Willis: To ask the Secretary of State for Education and Skills how many school age children were permanently excluded for bringing knives or other offensive weapons into schools in each year between 1997–98 and 2004–05. [4259]

Jacqui Smith: The requested information is not available.

We have recently started to collect reasons for exclusions. First findings for the 2003/04 academic year will be published in a Statistical First Release on 23 June 2005. This will include information on the number of permanent exclusions by reason, although there will not be a specific category relating to possession of knives and other offensive weapons.

Race Relations (Amendment) Act

Keith Vaz: To ask the Secretary of State for Education and Skills how many and what percentage of staff in her Department have received training on the general and specific duties of the Race Relations (Amendment) Act 2000, broken down by *(a)* ethnicity and *(b)* grade. [3559]

Maria Eagle: Our ongoing programme of staff awareness training (for all staff) on the Race Relations Amendment Act began before the Act was passed and the specific duties had to be implemented. We continue to offer regularly updated guidance i.e. on line and in person.

We measure the positive impact of mainstreaming equality and diversity throughout our programmes, through data collection and analysing feedback on participation. Key tools to measure progress are the DfES Staff Survey and the Learning Academy evaluation strategy. As part of these we collect and analyse information on the ethnic breakdown of people applying for and taking part in learning activities. If results show disparities, we take action to investigate and, as appropriate, remedy the situation.

Further detail on our approach to monitoring and learning and development can be found on the DfES website in the Race Equality Scheme.

Keith Vaz: To ask the Secretary of State for Education and Skills what arrangements are in place to ensure that bodies within the responsibility of her Department comply with the requirements of the Race Relations (Amendment) Act 2000. [3560]

Maria Eagle: Our arrangements involve mainstreaming Race Equality Impact Assessments into the policy-making process for all of our programmes and policies. On line guidance is available to policy teams in our equality proofing web tool "Fairway".

DfES provides strategic direction to delivery partners. Our key delivery partners have their own Race Equality Schemes. We require partners who implement DfES policies to fulfil the requirements of the Race Relations Amendment Act.

Further details can be found in the recently published DfES Race Equality Scheme and its summary of Race Equality Impact Assessments on the DfES website.

School Building

Mr. Hoban: To ask the Secretary of State for Education and Skills what the total cost is of projects under waves 1 to 3 of the Building Schools for the Future programme for the special schools sector. [4865]

Jacqui Smith: The local authorities in waves 1 to 3 of the Building Schools for the Future (BSF) programme are all at different stages of developing their proposals.

Costs of each project are only identified as they proceed through procurement and are not finalised until contract signature.

Costs for all special schools in BSF are being reviewed in the context of the current consultation on revised design guidance in the form of Building Bulletin 77: Designing for Pupils with Special Educational Needs and Disabilities in Schools. However, we have identified resources to fund the special schools in waves one to three at the new standard, once finalised, from within the BSF budget.

School Meals

Mr. Iain Wright: To ask the Secretary of State for Education and Skills what the average spending per meal per pupil for school meals was in *(a)* England and *(b)* Hartlepool in the last period for which figures are available. [1816]

Jacqui Smith: This information is not currently collected centrally.

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answers of 13 June 2005, ref. 3581, what proportion of the £220 million funding grant to transform school meals is intended for *(a)* food ingredients and *(b)* re-training of school catering staff. [5026]

Jacqui Smith: Over the three years 2005–06 to 2007–08, all maintained schools in England will receive a share of the £220 million set aside to help local education authorities and schools strengthen their support for healthy eating and to provide better quality food. Of this, £30 million each year will go to schools. This money will not be ring-fenced, but it is intended to help meet transitional costs involved in developing and improving their "whole school" approach to food. This might include, for example, revisiting the whole school approach, reviewing meals provision, retraining school meals staff or preparing for "healthy schools" accreditation.

£30/50/50 million will go to LEAs, ring-fenced for improving the quality of school meals and other food provided by schools, with an emphasis on supporting schools in deprived areas and schools starting from a low base. The first call on this money will be transition funding to help schools provide meals with ingredients costing 50p or more in primary schools, and 60p or more in secondary schools.

The first instalment of this additional funding will be available to schools and LEAs this autumn. Further details about the distribution of both grants between individual LEAs and schools will be announced over the summer.

School Standards

Mr. Hoban: To ask the Secretary of State for Education and Skills what steps she will take to make parents partners in raising school standards. [3839]

Jacqui Smith: There is a wealth of evidence that parental involvement in their children's education (in the form of good parenting in the home) has a strong and positive impact on their child's education, even controlling for other factors that influence attainment such as social class. Since 1997, we have sought to enhance parental involvement in children's learning through a range of measures targeted at parents and schools. These include information for parents such as videos, DVDs, the "Learning Journey" guides, the Parents Centre website, and funding for help lines offering advice on educational issues; and materials for schools such as the "Involving Parents, Raising Achievement" toolkit, and others disseminated through the Primary and Key Stage 3 National Strategies. The Government have elevated the priority of effective parental engagement by requiring all schools to address it explicitly within the self evaluation form that will underpin the new inspection regime to take effect from this autumn. Ofsted inspectors will seek the views of parents and must have regard to those views when conducting an inspection. Inspectors will use this information alongside the evidence provided in the self evaluation form to assess how effectively the school is working in partnership with parents. In assessing the quality of provision, inspectors will also evaluate the involvement of parents in their children's learning and development. The new style inspection reports have been designed with parents' needs specifically in mind.

We are currently considering how we can best capitalise on and further increase the contribution parents make to raising educational standards.

Special Schools

Mr. Drew: To ask the Secretary of State for Education and Skills what longitudinal research her Department has collated on the life time experiences of students who attended specialist schools for moderate learning disabilities and similar students who were included into mainstream schools; and what the basis has been for the closure of moderate learning disabilities schools. [4251]

Maria Eagle: The Department has not investigated the life time experiences of SEN pupils with moderate learning difficulties who attend special schools compared with those who went to mainstream schools. Comparing pupils from the two settings to give a comparison is not a valid exercise as these pupils have different characteristics and needs.

The Department is concerned about the outcomes for pupils who attend special schools and in 1999 commissioned a longitudinal study of pupils with special educational needs leaving compulsory education at the age of 16. About a quarter of the pupils in the study were classified as having moderate learning difficulty.

The study investigated pupils' expectations and aspirations towards transitions and their subsequent experience and attitude toward education, employment and independent living. The first baseline report was published in 2001, with a first follow up report published in 2004. Parents and carers were also interviewed. The final Wave 3 report, based on over a thousand follow up interviews, will be published at the end of July 2005. The Department has used the findings from this study to develop policy to help pupils with Special Educational Needs make successful transitions from school.

Special schools have a role to play in the provision for pupils with special educational needs but school closures are a matter for local provision based on local decision making processes.

Mr. Cameron: To ask the Secretary of State for Education and Skills if she will list the special schools in England, broken down by *(a)* geographical area and *(b)* specialisation. [4671]

Maria Eagle: The requested information has been placed in the House of Commons Library.

Student Finance

Dr. Starkey: To ask the Secretary of State for Education and Skills (1) what discussions her Department has had with the Open University about the effect of the new student funding system on part-time undergraduate students; [4030]

(2) when she expects the Higher Education Funding Council to announce additional funding for the Open University to compensate for the effects of the new funding regime on part-time undergraduate students. [4839]

Bill Rammell: Over the last 12 months, Ministers and officials have met regularly with the Open University to consider a range of issues, including the changes to the funding system which will be introduced in 2006/07. The Higher Education Funding Council for England (HEFCE) has considered representations from the Open University and Birkbeck College for special funding in response to their concerns about the impact of variable fees on large scale providers of part-time undergraduate higher education. The Council announced its findings on 1 March. These included a commitment to develop a widening participation measure, from the 2006/07 academic year, designed to ensure that the most disadvantaged students will continue to be able to study on a part-time basis. Details of the measure will be confirmed by the HEFCE Board in the autumn. Both the Government and HEFCE continue to monitor the sector, holding discussions with the Open University and other institutions, to ensure that available funding is used to support part-time provision in the most effective way.

Teacher Training

Ms Gisela Stuart: To ask the Secretary of State for Education and Skills (1) what the recent change has been in the resources given by the Teacher Training Agency to the Return to Teaching scheme; and what the change in places available for former teachers on training courses will be; [4506]

(2) what assessment she has made of the contribution retrained former teachers have made to the education system in the last 12 months; [4507]

(3) what assessment she has made of the effect the policy change of the Teacher Training Agency towards the Return to Teaching programme will have on providers of training; [4508]

(4) if she will list the subjects for which the Teacher Training Agency still fund Return to Teaching courses. [4509]

Jacqui Smith: In allocating resources to the Teacher Training Agency, the Secretary of State gives the agency a degree of discretion in how it deploys some of those resources to achieve the recruitment to teacher training and teaching required to meet the targets set it. Each year, the agency considers the data on the enduring challenges to recruitment and adapts its deployment of resources accordingly.

Slow recruitment to the Returners Programme and falling primary vacancies have led the agency to reduce the sums allocated to the Returners Programme for 2005–06, from £5.5 million to just over £3.5 million, with a target of 1,400 places to be filled compared with the 1,547 places filled (from a target of 2000) in 2004–05. It is properly ensuring that resources deployed secure best value for money.

The figures are not yet available on the contribution retrained former teachers have made to the education system in the last 12 months. However, for the 12 months to March 2003, according to the DfES survey data, returning teachers made up 29 per cent. of the total inflows to the work force (12,200 out of a total inflow of 41,900). Of these, 1,586 had attended Returners courses.

Primary Returners course provision has been reduced across the country. Every provider successfully running a course in 2004–05 has a course programme, although the numbers of courses commissioned from some providers has been reduced, to ensure better value for money.

The TTA are still funding both primary and secondary courses. The subjects offered include all secondary subjects, but providers are asked to prioritise shortage subjects such as maths, science and modern languages.

Tennis

Mr. Amess: To ask the Secretary of State for Education and Skills what plans the Government have to encourage schools to develop and promote tennis. [4580]

Jacqui Smith: As part of the national strategy for PE, School Sport and Club Links, the Lawn Tennis Association is receiving £805,000 to allow them to build sustainable high quality links between School Sport Partnerships and accredited clubs. Funding of National Governing Bodies of Sport through Whole Sport Plans will of course also have a major impact on junior participation.

Data taken from the 2003/04 PE, School Sport and Club Links Survey showed that 70 per cent. of the 6,500 schools taking part provide tennis to their pupils and 27 per cent. have a link to a local tennis club. This is the sixth most popular school to club link.

Tuition Fees

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills if she will estimate the likely debt of graduates from higher education institutions in England from *(a)* low, *(b)* medium and *(c)* high income backgrounds from 2009–10, broken down by (i) fee and (ii) maintenance loans. [3099]

Bill Rammell: Debt will depend on the financial circumstances and choices of individual students. Information from the Student Income and Expenditure Survey (SIES) 2002/03 indicated that average total student debt on graduation was £8,666: £10,198 for students from the lower, £9,288 for those from the middle and £7,952 for those from the higher socio-economic classes. The 2004/05 SIES, published at the end of 2005, will give up-to-date figures.

The introduction of loans for variable fees of up to £3,000 will increase the amount the average student borrows. However, those receiving the new maintenance grants and university bursaries could use them to reduce their call on loans for fees. Students generally may also seek to pay fee contributions from part-time work or family income.

Changes to maintenance loans levels could reduce rather than increase student indebtedness for many poorer students. Although maintenance loans will rise in 2006/07 to reflect the median of essential living costs expenditure recorded in the SIES 2002/03, a bigger change will be the substitution of a significant part of the new £2,700 maintenance grant for maintenance loans for lower income students, reducing the need to borrow.

It is therefore very difficult to estimate student indebtedness from 2009/10 now. We will be monitoring changes in borrowing patterns as the new student support arrangements come in.

Whatever a student's circumstances, no student from 2006/07 has to pay fees upfront and the arrangements for repayment of maintenance and fee loans are fair and equitable. The graduate's repayments are at zero real rate of interest, related directly to earnings and only required when earnings are greater than £15,000 per year.

Workforce Agreements (Schools)

Mr. David Jones: To ask the Secretary of State for Education and Skills if she will make a statement on progress towards implementation of the workforce agreement for schools. [4166]

Jacqui Smith: The first two phases of the National Agreement Raising Standards and Tackling Workload have already taken effect in schools. The third and final phase takes effect in September 2005 and will provide, among other things, guaranteed planning, preparation and assessment time for teachers. The signatories to the Agreement—school work force unions, employers and Government—are working with the National Remodelling Team, offering advice, guidance and support, to ensure continued successful implementation in schools.

HEALTH

Agency Nursing Staff

David Davis: To ask the Secretary of State for Health how many agency nurses were employed by the NHS in *(a)* Haltemprice and Howden, *(b)* the East Riding of Yorkshire and *(c)* England in each of the past five years; and at what cost. [3598]

Mr. Byrne: Information is not available centrally in the form requested, but for England, expenditure on non-national health service nursing, midwifery and health visiting, which includes agency and other staff, is shown in the following table.

£

	England
1999–2000	361,656,683
2000–01	435,431,882
2001–02	554,323,821
2002–03	589,738,042
2003–04	524,675,129

Notes:
1. 2003–04 is the latest date for which data are available.
2. Data relate to non-NHS staff: nursing, midwifery and health visiting, which cannot be broken down further.

Sources:
Annual financial returns of health authorities 1999–2000 to 2001–02.
Annual financial returns of strategic health authorities 2002–03 and 2003–04.
Annual financial returns of primary care trusts 2000–01 to 2003–04.
Annual financial returns of NHS trusts 1999–2000 to 2003–04.

Lynne Featherstone: To ask the Secretary of State for Health how much the national health service spent on hiring agency nursing staff in each of the last 18 months for which figures are available; and if she will make a statement. [3073]

Mr. Byrne: Information is not available centrally in the form requested but, for England, expenditure on non-national health service nursing, midwifery and health visiting, which includes agency and other staff, for the last two financial years for which figures are available are shown in the table.

Non-NHS staff: nursing, midwifery and health visiting staff—England

	£
2002–03	589,738,042
2003–04	524,675,129

Source:
Annual financial returns of strategic health authorities, primary care trusts and NHS trusts 2002–3 and 2003–04.

The figures show that spend is down by £65 million, or 11 per cent., in 2003–04 due to:

increasing flexible working patterns;

expanding the NHS nursing workforce;

implementing agency framework agreements;

establishing NHS Professionals as a special health authority.

Alcohol (Young People)

Steve Webb: To ask the Secretary of State for Health how many children aged between 11 and 15 years have been admitted to hospital owing to alcohol-related problems in each year since 1997. [2134]

Mr. Byrne: The numbers of children aged between 11 and 15 years who have been admitted to hospital owing to alcohol-related problems in each year since 1997 are shown in the table.

Counts of finished in-year admissions where there was a primary diagnosis code or cause code for selected alcohol related diseases, age at admission between 11–15 years, national health service hospitals, England, 1997–98 to 2003–04

Primary diagnosis	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*
F10 Mental and behavioural disorders due to use of alcohol	2,455	2,324	2,949	2,902	2,972	2,745	3,216
K70 Alcoholic liver disease	—	—	1	1	—	—	1
T51 Toxic effect of alcohol	894	737	760	736	691	561	542
X45 Accidental poisoning by and exposure to alcohol	554	457	481	533	439	300	272

Allergies

Mr. Amess: To ask the Secretary of State for Health what steps her Department has taken to implement the recommendations of the Health Select Committee to improve the diagnosis and treatment provided by the NHS for people suffering with allergies. [4579]

Mr. Byrne: In its response to the Health Committee report on the provision of allergy services, the Government undertook to carry out a review of the available data and research on the epidemiology of allergic conditions, the demand for and provision of treatment and the effectiveness of relevant interventions. The chief medical officer is overseeing this review of the evidence, which we hope to complete by the end of June 2006. It will inform decisions about what steps could be taken to address any gaps and pressures that it reveals.

Ambulance Service

Steve Webb: To ask the Secretary of State for Health what progress has been made on ensuring that ambulance response times are recorded consistently across all ambulance trusts. [4394]

Mr. Byrne: The Department issues annual guidance to ambulance trusts setting out how response times should be reported. This is updated annually. In addition, since 1 April 2005, ambulance trusts have been required to standardise how calls are categorised, in order to further improve consistency of response.

The Department recognises the need for further clarification regarding definitions of ambulance response times. The current strategic review of ambulance services is considering this, and we hope to publish the review's findings shortly.

Andrew Rosindell: To ask the Secretary of State for Health what steps the Government are taking to improve the efficiency of the ambulance service. [2963]

Mr. Byrne: The Department last year commissioned Peter Bradley CBE, Chief Executive of London Ambulance Service national health service trust and National Ambulance Adviser to the Department, to lead a strategic review of ambulance services in England. One of the subjects the review is considering is how to support improvements in the efficiency of ambulance services. We hope to publish the review by the summer recess.

Antipsychotic Medication

Mr. Burstow: To ask the Secretary of State for Health how many prescriptions were issued in each of the last five years for *(a)* atypical, *(b)* traditional and *(c)* all antipsychotic medication in each (i) region and (ii) health authority for (A) 0 to 15 years, (B) 16 to 59 years and (C) 60 years and over age groups. [2909]

Jane Kennedy: The information is not available in the requested format.

Information on the number of prescription items for atypical, traditional and all antipsychotic drugs dispensed in the community in each strategic health authority and primary care trust (PCTs) in England since 2001 has been placed in the Library. Data are not available for 1999 and 2000. The information has been broken down by age groups where possible and the year on year percentage changes recorded.

The information does not include prescriptions dispensed in hospitals or mental health trusts. Given that a large proportion of antipsychotic medication is dispensed in hospitals and mental health trusts, this data should not be used to compare PCTs' prescribing practices.

Asthma

Mr. Lansley: To ask the Secretary of State for Health how many finished consultant episodes with a primary diagnosis of asthma have been recorded in each month since 1997. [3351]

Mr. Byrne: Hospital episode statistics data on the number of finished consultant episodes are not available monthly.

Annual figures, for England, with a primary diagnosis of asthma are shown in the table.

	Number of finished consultant episodes for asthma
1998–99	69,725
1999–2000	65,164
2000–01	61,264
2001–02	63,067
2002–03	62,273
2003–04	70,129

Breastfeeding

Mr. Kidney: To ask the Secretary of State for Health what assessment she has made of the adequacy of the training provided for those training to be *(a)* a midwife and *(b)* a health visitor in respect of breastfeeding. [1318]

Mr. Byrne: This is the responsibility of the Nursing and Midwifery Council, the regulatory body that sets standards for nursing and midwifery training and approves the education institutions that provide the training and determine the curricula.

Cervical Smear Tests

Lynne Featherstone: To ask the Secretary of State for Health what proportion of smear tests in England resulted in women being recalled as a result of inadequate smears in each year since 2001; and if she will make a statement. [3069]

Ms Rosie Winterton: The total number of cervical tests taken, the number of inadequate tests and the proportion that were inadequate between 2000–01 and 2003–04 is shown in the table.

	Total number of smear tests	*Number of inadequate smear tests*	*Number of inadequate smear tests as percentage*
2003–04	4,031,885	370,138	9.2
2002–03	4,154,546	384,940	9.3
2001–02	4,371,561	396,164	9.1
2000–01	4,089,440	391,468	9.6

Being recalled to have a second cervical screening test because the first was inadequate can be a stressful and anxious time for women. To reduce this uncertainty we are introducing liquid based cytology (LBC) to the national health service cervical screening programme. LBC is a new way of making and reading cervical test slides. Government-funded pilot studies have shown that LBC reduces the rate of inadequate tests from around 9 per cent. to between 1 and 2 per cent. This means that, when fully implemented, 300,000 women a year will not be called back because their slide could not be read.

Chronic Fatigue

Lynne Featherstone: To ask the Secretary of State for Health what the cost was of the research project undertaken by North Bristol NHS trust on Cognitive Behavioural Therapy in Chronic Fatigue; and if she will make a statement. [3044]

Mr. Byrne: The project funded by the national health service health technology assessment programme, "Cognitive behavioural therapy in chronic fatigue syndrome: a randomised controlled trial of an outpatient group programme", for which the grant holder is the North Bristol NHS trust, has been allocated a total of £75,432.

Lynne Featherstone: To ask the Secretary of State for Health what research she has commissioned on the *(a)* physical causes and *(b)* treatment of chronic fatigue syndrome/myalgic encephalomyelitis; and how much has been spent on such research in each of the last five years. [2882]

Mr. Byrne: The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body, funded by the Department of Trade and Industry via the Office of Science and Technology.

The MRC does not normally allocate funds to particular topics: research proposals in all areas compete for the funding available. When appropriate, high quality research in particular areas of strategic importance may be given priority in competition for funds, but research excellence and importance to health continues to be the primary considerations in funding decisions. The MRC always welcomes high quality applications for support into any aspect of human health and these are judged in open competition with other demands on funding.

The MRC is currently funding two complementary trials into various treatment options for chronic fatigue syndrome/myalgic encephalomyelitis (CFS/ME) that aim to improve quality of life for those who are ill. The Department is meeting part of the cost of the trials, to which £4.2 million in total has been allocated. Patient recruitment began toward the end of last year.

Since 1998, the Department has separately commissioned and funded a number of small scale research projects related to aspects of CFS/ME at a total cost of £293,000.

Over 75 per cent. of the Department's total expenditure on health research is, however, devolved to and managed by national health service organisations. Details of individual projects, including some concerned with myalgic encephalomyelitis, can be found on the national research register at www.dh.gov.uk/research.

Clostridium Difficile

Mr. Drew: To ask the Secretary of State for Health if she will make a statement on the prevalence of *clostridium difficile* bacterium at Stoke Mandeville Hospital; and whether she has instigated an inquiry into fatalities there. [4065]

Jane Kennedy: As the outbreak is still being investigated, complete data are not available but the major cause of this outbreak appears to be a virulent strain of *clostridium difficile*. Our first priority is to resolve the current situation at the hospital and both the Department and Health Protection Agency are in close contact with the trust. However, officials are speaking to the Healthcare Commission about possible terms of reference and scope for an investigation.

Dentistry

Mr. Prisk: To ask the Secretary of State for Health (1) how many registered NHS dentists there are in Hertford and Stortford constituency; [1081]

(2) how many additional NHS dentists she expects to become registered during 2005–06 in Hertford and Stortford constituency; [1082]

(3) what actions her Department has taken to enable NHS dentists to reduce waiting lists in Hertford and Stortford constituency. [1083]

Ms Rosie Winterton: As at 31 March 2005, there were 141 registered national health service dentists in the Hertford and Stortford constituency, which is covered by Royston, Buntingford and Bishops Stortford Primary Care Trust (PCT) and South Hertfordshire PCT. This information was provided by the dental practice board and relates to dentists whose practice address postcode is within the constituency boundary.

Royston, Buntingford and Bishops Stortford PCT expect 2.5 whole time equivalent (WTE) dentists to become registered during 2005–06, resulting in 4,500 new patient registrations.

South East Hertfordshire PCT expects 6.6 WTE dentists to become registered during 2005–06, resulting in 11,900 new patient registrations.

It is anticipated that the appointment of these additional dentists will have a significant impact on the number of patients waiting to see a dentist.

Mr. Lansley: To ask the Secretary of State for Health when she will publish for consultation the Department's review of dental patient charges. [2281]

Ms Rosie Winterton: A dental charges working group, led by Harry Cayton, the Department's Director for Patients and the Public, submitted proposals for a new system of dental patient charges to the Department in March 2004. These proposals are being considered alongside information about the effects of the new pilot dental contracts on treatment patterns. The written ministerial statement in January indicated that we would be consulting on a new system of dental charges in the summer.

Sir Paul Beresford: To ask the Secretary of State for Health what progress has been made in implementing the NHS IT system for NHS dentistry; and whether dentists will *(a)* have access to the NHS Net and *(b)* have access to electronic patient records. [3283]

Mr. Byrne *[holding answer 13 June 2005]:* Work continues to finalise functional requirements for clinical information technology systems in both primary and secondary care and to ensure that solutions will integrate with the wider national programme for information technology. These requirements will be informed by the new contractual arrangements for primary care dentistry.

In addition, a programme of work is in hand to specify and procure a clinical information system for use in the dental hospitals of England. Part of this work will involve early definition of the dental component of the national care record system, with access to the care record for general dental practitioners likely to be in the later stages of the programme.

A pilot project is also under way to explore 'choose and book' functionality for primary care dentistry. A programme team has now been appointed and the 200 practices taking part in the field trials will be connected to the new national health service national network, N3. Discussions are under way regarding proposals to include general dental practitioners in the NHS Contact email service.

Mr. Paterson: To ask the Secretary of State for Health how many full-time equivalent NHS dentists have been employed in North Shropshire constituency in each of the last five years. [2789]

Ms Rosie Winterton: Information on a whole time equivalent basis is not available, as dentists are able to vary the amount of hours they work and to vary their national health service commitment. Many dentists do some private work. In North Shropshire constituency, the numbers of NHS dentists, as at 31 December each year, were:

	Number
2000	31
2001	31
2002	31
2003	33
2004	36

Note:
This data comes from the Dental Practice Board and relates to the number of dentists working in the general dental service and personal dental service in North Shropshire.

Diabetes

Mr. Sanders: To ask the Secretary of State for Health how much of the allocated capital funding for years *(a)* one and *(b)* two has been spent on digital cameras and related software for the screening of people with diabetes. [2810]

Ms Rosie Winterton: Information is collected in the accounts of national health service bodies on capital spending by the Department. However, this is at an aggregated level and cannot identify individual items or types of items within the overall categories of software and information technology equipment purchases.

Diagnostic and Treatment Centres

Frank Dobson: To ask the Secretary of State for Health (1) what checks are made to ensure that private diagnostic and treatment centres are complying with her Department's requirement that none of their staff have worked for the NHS in the preceding six months; [3572]

(2) whether the restrictions on private diagnostic and treatment centres recruiting NHS staff applies to agency staff working in the NHS. [3573]

Mr. Byrne *[holding answer 13 June 2005]:* Independent sector providers report to the Department monthly on a wide range of performance indicators including additionality. Independent sector providers are contractually obliged to ensure that additional staff working in independent sector treatment centres have not worked in the national health service for the previous six months. Regular joint service reviews are conducted on the data that are submitted and should any breaches or waivers be revealed the Department would investigate these.

The employment of agency staff by independent sector treatment centres is a matter for the independent sector provider as an employer.

Digital Hearing Aids

Sir Paul Beresford: To ask the Secretary of State for Health (1) what the average waiting time is for patients to be fitted with a digital hearing aid at the Royal Surrey County Hospital; [3825]

(2) what representations she has received on the change in her Department's national guidelines on the fitting of digital hearing aids; and if she will make a statement; [3826]

(3) for what reasons patients fitted with analogue hearing aids in the past three years are ineligible to be fitted with digital hearing aids; and if she will make a statement. [3827]

Mr. Byrne *[holding answer 13 June 2005]:* Information on waiting times is not held centrally.

There have been no changes to the national guidelines for fitting digital hearing aids since this Government became the first to make digital hearing aids free of charge in September 2000.

General guidelines issued by the modernisation hearing aid services (MHAS) programme include a recommendation that patients who have been fitted with, or offered, a hearing aid through the NHS service for the first time within the previous three years should be offered a digital aid only when they are reassessed and found to need new aids. These guideline are intended to ensure that the needs of people without a hearing aid and those with older hearing aids are addressed before the needs of people with a recently fitted aid. Use of these guidelines is subject to local clinical discretion.

Direct Payments (Disabled People)

Tim Loughton: To ask the Secretary of State for Health if she will simplify the paperwork relating to the qualification for and management of direct payments for people with long-term disabilities. [4643]

Mr. Byrne: The Department is aware that some people are deterred from taking up direct payments because of the paperwork involved in becoming an employer. This is why we introduced the direct payments development fund in 2003. The fund is worth £3 million each year over three years. It aims to support voluntary organisations in partnership with their local councils in building up the support services we have learnt are fundamental to the success of direct payments.

In addition, following the publication of the Green Paper, "Independence, Well-being and Choice", we are consulting on the viability of a new approach. It would offer the real benefit of choice and the control of direct payments without the potential burdens. This approach involves individual budgets which are held by the local authority on behalf of the person using services and who would work with them to arrange the appropriate support.

Fertility Treatment

Mr. Hoban: To ask the Secretary of State for Health (1) what guidance her Department has provided to *(a)* strategic health authorities and *(b)* primary care trusts on the eligibility criteria for IVF treatment provided by the NHS since 25 February 2005; [3946]

(2) whether her Department has issued guidance to *(a)* strategic health authorities and *(b)* primary care trusts on how to prioritise fertility treatment for patients according to social criteria; [3947]

(3) what steps her Department has taken to assess compliance with the announcement on the availability of IVF treatment made by the then Secretary of State for Health on 25 February 2005; [3948]

(4) how many primary care trusts have produced clinical guidance on the availability of IVF treatment to women in their area following the announcement made by the then Secretary of State for Health on 25 February 2005. [3949]

Caroline Flint: On 26 February 2004, the Department's Chief Executive's bulletin to the national health service included the following:

"NICE'S guideline on NHS fertility treatment services was published on 25 February. The Secretary of State has welcomed the guideline and advises as follows:

the Department will be looking to PCTs who provide no IVF treatment to meet minimum national level of provision of one cycle of IVF by April 2005

in the longer term he would expect the NHS to make progress to full implementation

the priority is to help those in greatest need—that must mean couples who have no children living with them."

The Department and the National Institute for Clinical Excellence (NICE) recognised that it would take time for the guideline to be fully implemented across the NHS. The primary responsibility for implementing NICE guidelines rests with the NHS at local level. The consideration that primary care trusts (PCTs) give to this is part of the range of factors that they, in liaison with local health bodies and patients groups, take into account in deciding their policy on the provision of treatment services for their locality. This policy will, quite rightly, reflect local health needs and priorities.

Compliance with NICE guidance by NHS organisations will be considered by the Healthcare Commission during its review and performance assessment processes.

We do not collect information centrally on the local provision of assisted treatment services or the guidance that PCTs issue about it.

Flexi-menus (Hospitals)

Mr. Lansley: To ask the Secretary of State for Health when she plans to establish pilots for flexi-menus in NHS hospitals, as described by the Minister of State, Lord Warner, in *The Daily Telegraph* on 16 March; and which NHS hospitals will conduct the pilots. [3353]

Jane Kennedy: Flexi-menu trials have recently been undertaken at Pilgrim Hospital, Lincolnshire, and Salisbury Hospital, Wiltshire. Further trials are also planned at Solihull Hospital, West Midlands, Central Middlesex Hospital, St. Mary's Hospital, London, Queen Elizabeth Hospital, Woolwich and Addenbrookes, Cambridge.

Foreign Nurses

Mr. Jenkins: To ask the Secretary of State for Health how many foreign nurses were employed in the NHS in Staffordshire *(a)* in 1997, *(b)* in 2001 and *(c)* on the latest date for which figures are available; and what percentage of the total those figures represent in each case. [3303]

Ms Rosie Winterton: The information requested is not held centrally.

General Practitioners (North Shropshire)

Mr. Paterson: To ask the Secretary of State for Health how many full-time equivalent NHS general practitioners have been employed in North Shropshire constituency in each of the last five years. [2790]

Ms Rosie Winterton: The information is not available in the requested format. However, information relating to the estimated numbers of full-time equivalent (fte) general medical practitioners, excluding retainers and registrars[1], for Shropshire and Staffordshire strategic health authority (SHA) and Shropshire county primary care trust (PCT) is shown in the table.

Estimated full-time equivalents

	2000	2001	2002	2003	2004	December 2004
Shropshire and Staffordshire SHA	749	741	756	785	799	798
Shropshire County PCT	n/a	155	157	162	167	168

[1] General medical practitioners, excluding retainers and registrars, includes contracted general practitioners, general medical service (GMS) others and personal medical service (PMS) others. Prior to September 2004, this group included GMS unrestricted principals, PMS contracted GPs, PMS salaried GPs, restricted principals, assistants, salaried doctors (Para 52 SFA), PMS other, flexible career scheme GPs and GP returners.
Data as at 30 September every year, except 31 December 2004
n/a denotes not available.
Fte data has been estimated using the results from the 1992–93 GMP workload survey
For 1994–2003—contracted GPs—full-time = 1.00 fte; three quarter time = 0.69 fte; job share = 0.65 fte; and half time = 0.60 fte; Other GP types full-time = 1.00 fte; part-time = 0.6 fte.
For 2004—all GPs—full-time = 1.0 fte; part-time = 0.6 fte, and therefore may not be fully comparable with previous years.
Fte GP retainers have been estimated using a factor of 0.12 per session for 1994–2004.
Source:
National health service health and social care information centre QMS and PMS statistics.

Genetic Testing

Bill Wiggin: To ask the Secretary of State for Health what measures she is taking to reduce the time taken to undertake genetic testing. [3210]

Jane Kennedy: The 2003 genetics White Paper, "Our inheritance, our future—realising the potential of genetics in the NHS", announced £18 million to upgrade national health service genetics laboratories in England. As a result of this increase in laboratory capacity, we expect that by 2006 genetic test results should be available:

Within three days where the result is needed urgently, for example, for prenatal diagnosis.

Within two weeks where the potential genetic mutation is already known, for example, because another family member have already been tested.

Within eight weeks for unknown mutations in a large gene.

This initiative builds on earlier investments by the Department, including £11 million in specialised genetics services from 2001 and two national genetic reference laboratories to explore the use of new technologies in NHS genetic laboratories. The genetics White Paper also announced that it would boost the future workforce in NHS genetic laboratories by funding up to 90 healthcare scientist trainees in genetics and 10 trainer posts.

Genito-urinary Medicine

Mr. Lansley: To ask the Secretary of State for Health when she plans to publish the results of the two-year review of genito-urinary medicine services undertaken by the Medical Foundation for AIDS and Sexual Health. [3354]

Caroline Flint: The review is expected to be completed in 2006, at which time the Department will consider when and how to disseminate the findings.

GP Practices

Mr. Jenkins: To ask the Secretary of State for Health how many *(a)* single-handed and *(b)* two or more partner general practitioner practices there were in Burntwood, Lichfield and Tamworth Primary Care Trust area on the latest date for which figures are available; and what percentage these practices represent of the total number of general practitioner practices in the primary care trust area. [3322]

Ms Rosie Winterton: The information requested is shown in the table.

Number of practices by practice size for Burntwood, Lichfield and Tamworth Primary Care Trust (PCT)—as at 30 September 2004

5DQ Burntwood, Lichfield and Tamworth PCT	Number (headcount) and percentages
Total	24
of which:	
Single handed practices[1]	9
Practices with two or more partners	15
Percentage of single handed practices	38
Percentage of practices with two or more partners	63

[1] Figures cannot be calculated prior to 2004 for single handed practitioners, excluding GP registrars and GP retainers.
Source:
National health service health and social care information centre general and personal medical services statistics.

Lynne Featherstone: To ask the Secretary of State for Health what assessment she has made of routine appointment waiting times at general practitioner surgeries in Hornsey and Wood Green; and if she will make a statement. [2887]

Jane Kennedy: The NHS Plan states that, by December 2004, all patients will be able to see a primary care professional (PCP) within 24 hours and a general practitioner within 48 hours.

The results for the Haringey Primary Care Trust May 2005 primary care access survey are:

	Percentage
24 hour GP access	100
48 hour PCP access	100

Heart Hospital, London

Mr. Dismore: To ask the Secretary of State for Health if she will make a statement about the recent closure of the Heart hospital, London. [3270]

Jane Kennedy: This is a matter for the chair of the University College London hospital national health service foundation trust. I have written to the chair, Peter Dixon. He will reply shortly and a copy will be placed in the Library.

Hepatitis C

Graham Stringer: To ask the Secretary of State for Health if she will make it her policy to collate centrally information on the numbers of prisoners receiving treatment for hepatitis C. [3136]

Ms Rosie Winterton: There are no present plans to do so.

Hepatology

Graham Stringer: To ask the Secretary of State for Health what plans she has to establish regional centres of excellence for hepatology. [3134]

Mr. Byrne: The Department has drawn the attention of specialised commissioning groups to the need to plan on the basis of the national definition for specialised hepatology services. In that context they will need to consider that some activities will be restricted to the seven liver transplant centres while other treatments should only be carried out at hepatology centres where the full range of multi-disciplinary support is available. Some local hospitals have developed expertise in a particular treatment and could be recognised appropriately as a centre for that particular treatment.

Hospital Cleanliness

Daniel Kawczynski: To ask the Secretary of State for Health what representations she has received regarding the use of ward sisters in the pursuit of cleanliness on hospital wards; and from whom those representations have been received. [3146]

Jane Kennedy: The Department has received no formal representations on this issue. We recognise that ward sisters have a key role to play in ensuring that hospitals are clean. "A Matron's Charter: An Action Plan for Cleaner Hospitals", published in 2004 by all of the organisations representing nursing staff, re-emphasises the importance of involving ward sisters in establishing cleaning contracts and setting and monitoring standards of cleanliness.

Hospitals (Learning Disabilities)

Mr. Andrew Smith: To ask the Secretary of State for Health what hospital facilities were available *(a)* in the last financial year and *(b)* in each of the previous five years to meet the needs of people with learning disabilities (i) across the NHS and (ii) in the private sector. [3525]

Mr. Byrne *[holding answer 14 June 2005]:* The national health service and private sector provides a variety of hospital facilities for people with learning disabilities. The figures available for NHS facilities are shown in the following table.

Hospital inpatient activity: average daily number of available beds for learning disabled people; NHS trusts in England

Learning disabilities:	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*
Children: short stay	—	—	281	205	268	229
Children: long stay	—	—	95	70	141	59
Other ages: secure unit	—	—	431	407	508	514
Other ages: short stay	—	—	1,323	1,374	1,117	1,210
Other ages: long stay	—	—	4,186	3,639	3,003	3,199
Total	6,834	6,834	6,316	5,694	5,038	5,212

Source:
KH03 return, Department of Health

With regard to private sector facilities, on 31 March 2004, the Healthcare Commission identified 46 private sector facilities registered as independent hospitals providing 968 beds for people with learning disabilities.

Source: The Healthcare Commission, 2004

Incinerators

Gregory Barker: To ask the Secretary of State for Health what research she has commissioned on the health effects of energy-from-waste incinerators. [4160]

Caroline Flint: The Department has not commissioned specific research into the health effects of energy-from-waste incinerators. Several studies of cancer rates near the older generation of waste incinerators have been undertaken by the small area health statistics unit (SAHSU). The Department is a co-funder of SAHSU, which is wholly funded by the Government. The expert advisory committee on the carcinogenicity of chemicals in food, consumer products and the environment considered these studies in March 2000[1, 2, 3] and concluded[4] that any potential risk of cancer due to residency near to municipal solid waste incinerators was exceedingly low and probably not measurable by the most modern epidemiological techniques. The Committee agreed that, at the present time, there was no need for any further epidemiological investigations of cancer incidence near municipal solid waste incinerators.

In addition to the studies of cancer, Government-funded investigations in the 1980s found no association with birth defects around two ReChem waste incinerators in Wales[5, 6, 7] and Scotland[8, 9], although no firm conclusion could be drawn in the Scottish study[9] about the occurrence of the eye defect microphthalmos.

Emissions from modern waste incinerators in the United Kingdom are subject to stringent controls which have been introduced since the periods covered by the studies noted.

Lifestyle

Mr. Davey: To ask the Secretary of State for Health what steps have been taken and what plans she has to encourage people *(a)* to exercise and *(b)* to lead healthy lifestyles. [3163]

Caroline Flint: "Choosing Activity: a physical activity action plan", was published on 9 March 2005. The plan brings together all the commitments relating to physical activity in the Public Health White Paper, "Choosing Health: Making healthy choices easier", as well as further activity across Government, which will contribute to increasing levels of physical activity. This represents a cross-Government plan to co-ordinate action aimed at increasing levels of physical activity across the whole population—as recommended in "Game Plan : A Strategy for delivering Government's sport and physical activity objectives", published by the Department of Culture Media and Sport and the Prime Ministers' strategy unit in 2002. Work is already under way to support the physical activity action plan, which includes:

Publication of the Chief Medical Officer's report, "At least Five A Week", in April 2004, setting out recommendations on activity levels sufficient for general health as well as more specific recommendations in relation to individual disease and conditions.

The Department, together with the Countryside Agency and Sport England, sponsoring local exercise action pilots in 10 neighbourhood renewal areas, which are testing different community approaches to increasing physical activity in deprived areas.

Publication of a guide for primary care trusts and football clubs to encourage good practice and foster links in health improvement work.

The Department also published "Delivering Choosing Health: Making Healthier Choices Easier" on 9 March. This overarching delivery plan will help more people make more healthy choices and reduce health inequalities, in particular through:

The introduction from mid 2007 of Health Direct, which will be accessible via the existing NHS Direct web, telephone and digital television-based service and will provide a permanent one-stop shop of practical health improvement information, advice and decision-support tools to professionals and individuals.

The provision of practical support to individuals through health trainers, who will be community based and who will help people develop their own personal health plans, provide advice and practical support to stop smoking, practise safer sex, deal with stress and access local services.

Macular Degeneration

Mr. Drew: To ask the Secretary of State for Health what research is being undertaken into dry macular degeneration. [2564]

Mr. Byrne: The main agency through which the Government support medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology.

In 2002–03, the latest year for which figures are available, the MRC spent £5.9 million on vision research. This research includes a project on genetic susceptibility to age-related macular degeneration (AMD). The project aims to identify the genetic factors involved in AMD.

The Department funds research to support policy and to provide the evidence needed to underpin quality improvement and service development in the national health service and, through its health technology assessment programme, is undertaking a systematic review into the cost effectiveness of screening programmes for both wet and dry AMD.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by NHS organisations. Details of individual projects including a number concerned with AMD can be found on the national research register at: www.dh.gov.uk/research.

Medical Practice Funding (Shropshire)

Daniel Kawczynski: To ask the Secretary of State for Health how many medical practices in the Shropshire County Primary Care Trust area are awaiting funding for relocation. [3189]

Ms Rosie Winterton: The information requested is not held centrally.

Mental Capacity Act

Mr. Leigh: To ask the Secretary of State for Health when she expects to make available to Parliament the guidelines for the implementation of the Mental Capacity Act 2005 which are to be sent to all hospitals. [3251]

Ms Rosie Winterton: The Mental Capacity Act will be accompanied by a code of practice. A draft code was laid before Parliament in September 2004. The revised draft will be subject to formal consultation in 2006 and the aim is to have the final code ready for implementation of the Act by April 2007.

National Institute for Health and Clinical Excellence

Mr. Havard: To ask the Secretary of State for Health what advice she will give to commissioning authorities on the continued use and funding of licensed cancer drugs affected by the delay in their appraisal by the National Institute for Health and Clinical Excellence. [1999]

Jane Kennedy: In 1999, the Department issued Health Service Circular 1999/176, which asks national health service bodies to continue with local arrangements for the managed introduction of new technologies where guidance from the National Institute for Health and Clinical Excellence has not yet been issued. These arrangements should include an assessment of the available evidence.

NHS Finance

Mr. Andrew Smith: To ask the Secretary of State for Health if she will list for each primary care trust its expenditure in the last financial year on out-of-area treatment for *(a)* people with a learning disability and *(b)* people with mental health problems. [3526]

Mr. Byrne *[holding answer 14 June 2005]:* This information is not held centrally.

NHS Management Salaries (Hertfordshire)

Mr. Walker: To ask the Secretary of State for Health how many managers working in Hertfordshire NHS trusts receive pay in excess of £100,000 per annum; and if she will make a statement. [3219]

Ms Rosie Winterton: The information requested is not collected centrally. However, this information is published in each trust's annual accounts, which can be accessed via each trust's individual website or by telephoning the individual trust who will send a copy out in the post.

NHS Staff

Lynne Featherstone: To ask the Secretary of State for Health what recent estimate she has made of the impact of staff availability on NHS capacity; and if she will make a statement. [3071]

Mr. Byrne: There has been a significant increase in national health service staffing with over 1.3 million people employed in September 2004, an increase of 272,000 or 26 per cent. since 1997 with greater devolution to NHS organisations in line with Shifting the Balance of Power. The approach to workforce planning is changing with greater reliance on credible local plans that maximise workforce capacity to support delivery. Delivering the NHS Improvement Plan: the Workforce Contribution highlights strategic workforce issues, which primary care trusts and strategic health authorities are asked to ensure are considered in their local delivery plans. This includes maintaining adequate staffing levels to maximise NHS capacity to deliver services.

Obesity

Mr. Amess: To ask the Secretary of State for Health what action her Department has taken to implement the recommendations of the Health Select Committee regarding *(a)* assisting people who suffer with obesity and *(b)* encouraging people to take action to stop them being obese. [4581]

Caroline Flint: The Health Select Committee's report made a major contribution to the development of our proposals for action in the White Paper, "Choosing Health", published in November 2004. Obesity was one of the six overarching priorities of the White Paper and we were able to address very nearly all of the Committee's recommendations.

The White Paper delivery plan, "Delivering Choosing Health", together with national plans focusing on nutrition, "Choosing a Better Diet", and physical activity, "Choosing Activity", published in March 2005, set out the detail of how we will deliver our White Paper proposals and how they will contribute to delivery of the public service agreement target on obesity.

Overseas Doctors

Mr. Laxton: To ask the Secretary of State for Health what discussions her Department has had with the British Association of Physicians of Indian Origin concerning the process by which overseas doctors obtain visas following Professional and Linguistic Assessment Board qualification; and what the outcome was of those discussions. [3386]

Mr. Byrne: The British Association of Physicians of Indian Origin have had discussions with the Department about the immigration rules relating to doctors who are seeking employment in the United Kingdom. The Department is discussing their views with the Home Office.

Pennine Acute NHS Trust

Paul Rowen: To ask the Secretary of State for Health if she will make a statement on the recent vote of no confidence received by the Pennine Acute NHS trust board. [4170]

Mr. Byrne *[holding answer 14 June 2005]:* I am aware that a vote of no confidence has been called at the Pennine Acute hospitals national health service trust. The postal ballot is due to close on 21 June. However, in line with the Department's Shifting the Balance of Power initiative, this matter needs to be resolved by the local NHS trust.

Primary Care (Hornsey and Wood Green)

Lynne Featherstone: To ask the Secretary of State for Health what funds have been committed to improving access to primary care in Hornsey and Wood Green since 1997; and if she will make a statement. [2886]

Jane Kennedy: The Department has supported Haringey Primary Care Trust (PCT) with a total of £1.3 million towards the cost of the North Middlesex national health service walk-in centre. However, under "Shifting the Balance of Power" principles, it is for Haringey PCT to decide how much of its overall funding is committed to improving primary care access and how much to other priorities. Haringey PCT's investment decisions have enabled it to be able to report that, from December 2004, it has successfully delivered the primary care access target without denying local patients the opportunity to book appointments ahead.

Radiographers

Mr. Lansley: To ask the Secretary of State for Health what her estimate is of the number of radiographers that will be employed in the NHS in each year until 2010. [3442]

Mr. Byrne: Since 1999, the number of radiographers employed in the NHS has increased by 1,570 (13 per cent.) to 13,900 in 2004. The Government have substantially increased training places for radiographers and expect that there will be further increases in the radiography workforce, but no forecast numbers are available to 2010.

Rheumatology

Mr. Lansley: To ask the Secretary of State for Health what evidence she has received from the British Society for Rheumatology relating to the prevalence of postcode prescribing in the treatment of *(a)* rheumatoid arthritis, *(b)* ankylosing spondylitis and *(c)* psoriatic arthritis. [3437]

Mr. Byrne: I have received a copy of a report entitled "Access to anti-TNF Therapies for Adults with Inflammatory Arthritis", published jointly by the British Society for Rheumatology and the Arthritis and Musculoskeletal Alliance.

Self-harming

Tim Loughton: To ask the Secretary of State for Health how many children were treated for self-harming in 2004. [4645]

Mr. Byrne: Data for estimated finished consultant episodes with a primary diagnosis of self-inflicted injury and/or poisoning by cause: children and adolescents in 2003–04 is shown in the table.

	Under 16	*Aged 16–18*	*All episodes*
All completed injury and poisoning episodes	127,950	32,910	823,890
Self-inflicted injury (X60-X84)	7,400	6,170	78,390
Self-inflicted injury by solid/liquid substances (X60-X69)	6,810	5,830	73,290
Intentional self harm—all methods (X70- X84)	590	330	5,100
Injury undetermined whether accidental (Y10-Y34)	550	270	3,580
All other causes (V01-X59, X85-09, Y35-Y98)	106,450	22,490	572,640
No external cause given	13,550	3,990	169,290

Hospital episode statistics, NHS health and social care information centre

Trent Strategic Health Authority

Mr. Leigh: To ask the Secretary of State for Health (1) how many *(a)* intensive care and *(b)* high dependency beds there were in the area administered by Trent Strategic Health Authority in the most recent year for which figures are available; and what the daily cost per bed was for each kind of bed in that area in that year; [3249]

(2) what the total cost of patients in *(a)* intensive and *(b)* high dependency care in Trent Strategic Health Authority's area of administration was in the most recent year for which figures are available; and what percentage of the total budget for NHS beds in that area in that year that figure represents. [3250]

Ms Rosie Winterton: There were 62 intensive care beds and 65 high dependency care beds on 13 January 2005 within Trent Strategic Health Authority. This is the latest data available.

On 15 January 2004 there were 60 intensive care beds and 58 high dependency beds.

The following table shows the total cost and the average daily cost per bed in 2003–04 in Trent and nationally.

	Total cost (£000)	*Average cost per unit per day in Trent (£)*	*National average cost per unit per day (£)*
Intensive therapy unit/intensive care unit	23,154	1,378	1,328
Neonatal intensive care unit—level 1	4,763	588	838
Neonatal intensive care unit—level 2	2,397	721	560
Special care baby unit	7,147	308	353
Cardiac Intensive Care Unit	2,465	1,065	1,025
Coronary care unit	6,042	516	457
High dependency unit	7,211	565	584
Paediatric intensive care unit	3,627	1,822	1,702
Total	56,807	—	—

Notes:
Average cost is calculated by dividing total cost by occupied bed days to give an average cost per occupied bed day.

Source data: Reference costs 2004 for financial year 2003–04.
National average unit costs source data: national schedule of reference costs 2004 for financial year 2003–04, Appendix 1: National Health Service Trusts' own data.
Source:
Department of Health statistical return form KHO3a.

The percentage that this represents, of the total budget for NHS beds in that area, is not held centrally.

Smoking-related Deaths

Mr. Lansley: To ask the Secretary of State for Health what her estimate is of the total number of deaths from smoking-related illnesses in people who are not smokers for the most recent period for which figures are available; and what proportion of these deaths were in people whose partners were smokers. [3435]

Caroline Flint: The scientific committee on tobacco and health (SCOTH) has reviewed the evidence on harm from second hand smoke, most recently in its report published alongside the White Paper "Choosing Health", on 16 November 2004. SCOTH did not produce an estimate of the total number of deaths other than stating that there are "several hundred extra lung cancer deaths a year" due to exposure to second hand smoke. SCOTH did not produce figures which estimated what proportion of deaths were in people whose partners were smokers. A copy of the SCOTH report is available in the Library.

In March 2005, the *British Medical Journal* published a study by Professor K. Jamrozik, entitled, "Estimate of deaths attributable to passive smoking among UK adults: database analysis". This concluded that:

> "Across the United Kingdom as a whole, passive smoking at work is likely to be responsible for the deaths of more than two employed people per working day (617 deaths per year), including 54 deaths in the hospitality industry each year. Each year passive smoking at home might account for another 2700 deaths in persons aged 20–64 years and 8000 deaths among people aged 65 and over."

A copy of the study is available in the Library.

Written Answers to Questions

Thursday 16 June 2005

CONSTITUTIONAL AFFAIRS

Acts of Parliament (Internet Access)

Mr. Gordon Prentice: To ask the Minister of State, Department for Constitutional Affairs if she will make it her policy for all legislation for which her Department has responsibility to be available online. [3713]

Ms Harman: It is my Department's policy to make all relevant information available via its website as a matter of course unless that information should more correctly be published elsewhere online. For example, Acts of Parliament are published by HMSO. In these latter cases, my Department's policy is to provide links from its website to the information.

Child Maintenance Awards

Tim Farron: To ask the Minister of State, Department for Constitutional Affairs whether guidance has been issued to courts requiring the granting of maintenance awards on an equal basis for each parent in cases where custody is awarded on an equal basis. [4032]

Bridget Prentice: No guidance on this matter has been issued to the courts. Under existing legislation the courts are empowered to make a number of orders in relation to the division of family property and financial provision for children. The courts will consider a range of issues in each case, including the contribution, both financial and other, made by each of the parties to looking after the home and children. The courts have the discretion to make the orders that they see as appropriate and fair with regard to the specific circumstances of each case. The needs of children are always the paramount consideration. Orders are made with regard to the financial status, and disposable income, of both parties.

Coroners (Retirement)

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs at what age a coroner who was appointed in 1972 must retire. [4921]

Ms Harman: There is no retirement age for coroners.

Family Visitor Appeals

Lynne Jones: To ask the Minister of State, Department for Constitutional Affairs how many *(a)* oral and *(b)* paper-only family visitor appeals were received by the Immigration Appellate Authority in each month since 1 January 2004. [3297]

Bridget Prentice: Provisional figures show the volume of monthly receipts at the adjudicator tier of the Immigration Appellate Authority (IAA), for the period January 2004 to the end of March 2005, to be as follows:

	Family visitor visa	
Month	*Oral receipts*	*Paper receipts*
2004		
January	490	578
February	787	675
March	789	865
April	790	716
May	803	646
June	1,134	900
July	1,266	1,173
August	1,624	1,191
September	2,452	1,808
October	1,674	1,517
November	1,440	1,403
December	2,259	1,823
2005		
January	1,317	856
February	1,122	959
March	994	776

Lynne Jones: To ask the Minister of State, Department for Constitutional Affairs how many *(a)* oral and *(b)* paper-only family visitor appeals were determined by the Immigration Appellate Authority in each month since 1 January 2004; and how many of each type of appeal were successful. [3298]

Bridget Prentice: Provisional figures for the period January 2004 to March 2005 show the monthly volume of family visitor appeal decisions from an oral hearing, with appeal outcomes, at the adjudicator tier of the Immigration Appellate Authority, to be as follows:

Month	*Total oral decisions*	*Number allowed*	*Number dismissed*	*Number withdrawn*
2004				
January	782	439	328	15
February	459	264	184	11
March	546	313	209	24
April	731	391	303	37
May	761	438	291	32
June	789	455	309	25
July	795	475	281	39
August	993	607	339	47
September	1,239	741	449	49
October	1,648	977	614	57
November	1,650	981	620	49
December	1,345	791	497	57
2005				
January	1,049	538	467	44
February	1,281	680	554	47
March	1,315	656	579	80

And the provisional figures for family visitor appeals determined on the papers only, for the equivalent period, to be as follows.

Month	Total paper decisions	Number allowed	Number dismissed	Number withdrawn
2004				
January	690	230	457	3
February	615	222	390	3
March	672	257	413	2
April	637	220	417	0
May	767	311	452	4
June	910	358	549	3
July	627	243	381	3
August	908	334	572	2
September	1,088	453	635	0
October	1,313	450	862	1
November	1,686	592	1,092	2
December	1,056	382	669	5
2005				
January	1,132	412	718	2
February	1,358	439	915	4
March	1,294	486	806	2

Inquests

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs (1) what the average time has been between deaths and inquests in the jurisdiction of the Teesside Coroner during the last 12 months; [4918]

(2) how many unfinished cases there are in the jurisdiction of the Teesside Coroner; and how many are over six months old; [4919]

(3) what the backlog of cases requiring inquests in the jurisdiction of the Teesside Coroner is; and how many are over six months old; [4920]

(4) what the average time has been between deaths and inquests in the coroners' jurisdictions *(a)* in the North East and *(b)* nationally during the last 12 months. [4922]

Ms Harman: I will write to my hon. and learned Friend once the information is available.

Lay Magistrates (Northern Ireland)

Mr. Dodds: To ask the Minister of State, Department for Constitutional Affairs how many lay magistrates there are in Northern Ireland, broken down by *(a)* gender, *(b)* community background and *(c)* age. [4384]

Bridget Prentice: The Lord Chancellor recently appointed 272 people to the new judicial office of Lay Magistrate in Northern Ireland. Of these, *(a)* 46 per cent. are male and 54 per cent. female; *(b)* 55 per cent. Protestant, 38 per cent. Roman Catholic and 7 per cent. Other, and; *(c)* 6 per cent. are under the age of 30, 25 per cent. are between the ages of 30 and 40, 24 per cent. are between the ages of 40 and 50, 27 per cent. are between the ages of 50 and 60 and 18 per cent. are over the age of 60.

Legal Aid

Mr. Kidney: To ask the Minister of State, Department for Constitutional Affairs when she plans to publish the findings of the Fundamental Legal Aid Review announced in May 2004; and if she will make a statement. [2761]

Bridget Prentice: We intend to set out our vision for the future of legal aid, outlining the Department's long-term strategy for reform and summarising the key findings of the Fundamental Legal Aid Review, in due course.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what plans the Department has to amend the system of legal aid in fraud trials. [2823]

Bridget Prentice: The Government are committed to overhauling the laws on fraud and the way fraud trials are conducted for the 21st century ensuring that they are quicker and more effective.

The Fraud Bill, which is currently before Parliament, will implement Law Commission proposals to remove the deception offences in the Theft Acts and replace them with a general offence of fraud which can be committed in three ways—by false representation, by failure to disclose information or by abuse of position. This will ensure that prosecutors are better placed to undertake short and effective fraud trials.

We intend to set out our vision for the future of Legal Aid, outlining the Department's long term strategy for reform and summarising the key findings of the Fundamental Legal Aid Review, including tackling fraud, in due course.

Polling Times

Mr. Whittingdale: To ask the Minister of State, Department for Constitutional Affairs if she will extend the hours of polling for local government elections to the same as those that apply for general elections; and if she will make a statement. [3734]

Ms Harman: The Government agree with the Electoral Commission that consistent hours of polling at all elections is desirable. Polling hours for all elections except parliamentary elections are set in secondary legislation by various authorities, such as the devolved Administrations, and those authorities will need to take decisions on this issue. I will consider carefully any suggestions for amendments to the rules of the elections for which I am responsible.

Race Relations (Amendment) Act

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what arrangements are in place to ensure that bodies within the responsibility of her Department comply with the requirements of the Race Relations (Amendment) Act 2000. [3554]

Ms Harman: The Race Relations (Amendment) Act 2000 placed a general duty and specific duties on a number of public bodies. The list of bodies subject to the general and specific duties is updated periodically in consultation with the CRE. My Department's Race Equality Scheme sets out the departmental approach to compliance and has been recently refreshed to take into account new bodies who form part of my Department.

Rape Trials

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs what training is undertaken by recorders of the Crown court before they are ticketed to try rape. [4683]

Ms Harman: Judicial training is the responsibility of the Lord Chief Justice and is exercised through the Judicial Studies Board (JSB), an independent body chaired by Lord Justice Keene.

The Senior Presiding Judge, on behalf of the Lord Chief Justice, authorises selected Recorders to hear cases involving rape or a serious sexual offence. Before being authorised, a judge must have wide and significant experience of the criminal justice system, and must have demonstrated the necessary sensitivity for these cases. These authorised Recorders may not hear such a case without first having attended the appropriate JSB training, and the designated course for this is the Serious Sexual Offences Seminar (SSOS). Authorised Recorders, along with other authorised judiciary, will be invited to continuation training every three years from the date of their first attendance.

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs how recorders of the Crown are selected as suitable to try rape cases. [4684]

Ms Harman: The Senior Presiding Judge, on behalf of the Lord Chief Justice, authorises selected Recorders to hear cases involving rape or a serious sexual offence. Before being authorised a judge must have wide and significant experience of the criminal justice system, and must have demonstrated the necessary sensitivity for these cases. These authorised Recorders may not hear such a case without first having attended the appropriate JSB training, and the designated course for this is the Serious Sexual Offences Seminar (SSOS). Authorised Recorders, along with other authorised judiciary, will be invited to continuation training every three years from the date of their first attendance.

Terrorism Acts

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what plans she has to reform legal procedures for dealing with terror cases. [3603]

Bridget Prentice: The Government have indicated their intention to bring forward fresh counter-terrorism legislation and are currently considering what provisions it should contain. The intention is to bring forward proposals for pre-legislative scrutiny in late autumn.

MINISTER FOR WOMEN

Working Mothers (Child Care)

Mr. Paul Goodman: To ask the Minister for Women what plans the Government have to provide working mothers with access to personal advisers in relation to child care; and if she will make a statement. [3888]

Meg Munn: Jobcentre Plus have introduced Childcare Partnership Managers to help support the growth of local child care provision. They work alongside child care partners and employers to meet the child care needs of unemployed parents.

We realise that many working parents face difficulties in finding accessible, affordable and quality child care, which stops them making the most of their opportunities in work, training or study.

Childcare Partnership Managers have a key role to play in helping them find the child care they need when they need it.

WALES

Digital Television

Peter Law: To ask the Secretary of State for Wales what discussions he has had with the Secretary of State for Culture, Media and Sport on the provision of digital signals which would allow free view set-top boxes to be used in Welsh valley communities. [2767]

Mr. Hain: The topography of the Welsh valleys leads to problems in securing digital terrestrial reception. Of the 200 analogue transmitters in Wales, only nine have so far been converted to digital transmissions. This is to protect current analogue signals from interference. When switchover occurs, it is expected that all 200 transmitters will be equipped to broadcast digital signals.

We are committed to achieving digital switchover between 2008 and 2012, on a region by region basis, and will ensure that the interests of elderly people and other vulnerable groups are protected.

Higher Education Fees

Peter Law: To ask the Secretary of State for Wales if he will meet the Chancellor of the Exchequer to discuss the provision of the necessary resources to the Welsh Assembly Government to avoid the introduction of variable top up fees in Wales. [4692]

Mr. Hain: I understand that the Assembly and the DfES have agreed the financial transfer under the Higher Education Act 2004.

Honours

Mr. Pope: To ask the Secretary of State for Wales how many officials currently in the Department received honours in the recent Queen's Birthday Honours List; and at what rank of honour. [5110]

Mr. Hain: None.

CULTURE, MEDIA AND SPORT

Digital Television

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on progress towards rollout of digital television services. [4243]

James Purnell: Great progress has been made. 61.9 per cent. of households are now estimated to have digital television.

We welcome the fact that Switchco, the organisation which will co-ordinate the UK's switchover to digital television, is now in place.

As we said in our manifesto, we will achieve digital switchover between 2008 and 2012 ensuring universal access to high-quality, free-to-view and subscription digital TV. This will happen region by region, and we will make sure that the interests of elderly people and other vulnerable groups are protected.

Men's Lifestyle Magazines

Mr. Hancock: To ask the Secretary of State for Culture, Media and Sport what recent discussions she has had with *(a)* the Advertising Standards Authority, *(b)* the Press Complaints Commission and *(c)* others about guidelines or legislation to ensure that explicit covers on men's lifestyle magazines are kept out of the reach of children; and if she will make a statement. [3415]

James Purnell: None. The Government believe that a free press is vital in a democracy and we would not, therefore, seek to intervene in what a magazine chooses to publish. The Obscene Publications Act 1959 and the Indecent Displays Act 1981, are designed to protect children and others from exposure to inappropriate material. Furthermore, the National Federation of Retail Newsagents operates a voluntary code of practice for the display of pornographic magazines; 'lifestyle' magazines are displayed at newsagents' discretion, and customers can seek to influence how that discretion is exercised.

Royal Parks Agency

Justine Greening: To ask the Secretary of State for Culture, Media and Sport if she will make it her policy to ensure that the Royal Parks Agency takes full account of the environmental and social impact on communities and areas surrounding Royal Parks when decisions are taken to restrict car access to those parks. [3032]

Mr. Lammy *[holding answer 13 June 2005]:* It is already the policy of the Royal Parks Agency to take full account of the environmental and social impact of decisions to restrict access to the Royal Parks for motor cars.

The agency is required under the Greater London Authority Act 1999 to consult with local authorities before introducing any measures that might affect traffic on the authorities' roads. By the same token, local authorities are required to consult the agency before introducing any measures on their roads that might affect traffic on park roads.

Television Licences (Northern Ireland)

Lady Hermon: To ask the Secretary of State for Culture, Media and Sport how many current television licence fees have been paid in each postcode area in Northern Ireland. [3510]

James Purnell: The BBC has responsibility for the administration of the television licensing system and the maintenance of television licence records. I have therefore asked the BBC's Head of Revenue Management to consider the question raised by the hon. Member and to write to her direct, placing a copy of the reply in the Library of the House.

Tourism Statistics

Alison Seabeck: To ask the Secretary of State for Culture, Media and Sport how much has been spent collating statistical information relating specifically to tourism in each year since 2000, broken down by region. [3894]

James Purnell: Five main surveys are used to assess the volume, value and nature of tourism for the UK, its countries and the regions of England.

The contract costs for these surveys since 2000 are shown in the table along with the expenditure on the UK Tourism Satellite Account (TSA) First Steps Project and English Regions TSA report.

£000

	2000–01	*2001–02*	*2002–03*	*2003–04*	*2004–05*	*2005–06*
Survey expenditure						
International Passenger Survey[1]	3,390	3,590	3,610	3,580	4,080	[2]4,100
UK Tourism Survey	625	625	630	650	665	810
Leisure Day Visits	—	—	450	—	—	—
UK Occupancy Survey	200	200	215	215	220	205
Survey of Visits to Visitor Attractions	65	65	65	45	45	45
Tourism Satellite Account expenditure						
UK TSA First Steps Project	—	—	—	—	80	—
English Regions TSA Project	—	—	—	—	45	—

[1] Data from the IPS also provide key statistics for areas other than tourism—such as migration and balance of payments
[2] Estimated expenditure

The surveys all provide data at both national and regional levels, so results are to the equal benefit of all English regions.

Only survey contract costs have been provided, so human resource and other data collection costs have been excluded. For example, other data are collected by regional authorities in support of their tourism promotion objectives, though the amount spent is not held centrally.

All expenditure has been rounded to the nearest £5,000.

LEADER OF THE HOUSE

Honours

Mr. Pope: To ask the Leader of the House how many officials currently in his Office received honours in the recent Queen's Birthday Honours List; and at what rank of honour. [5115]

Mr. Hoon: None.

Race Relations (Amendment) Act

Keith Vaz: To ask the Leader of the House how many and what percentage of staff in his Office have received training on the general and specific duties of the Race Relations (Amendment) Act 2000, broken down by *(a)* ethnicity and *(b)* grade. [3551]

Nigel Griffiths: The Office of the Leader comes within the administrative responsibility of the Privy Council Office. No specific training has taken place on the duties of the Race Relations (Amendment) Act 2000 but in line with the Privy Council Office Race Equality Scheme the need to eliminate discrimination and promote equality is built into PCO recruitment, training and performance management processes.

The Privy Council Office is committed to equality of access to development opportunities and its Management Board have signed a Statement of Principle to that effect. The Privy Council Office also includes questions on harassment and discrimination in its staff attitude survey and will be launching a programme of awareness sessions for staff later this year.

Keith Vaz: To ask the Leader of the House what arrangements are in place to ensure that bodies within the responsibility of his Office comply with the requirements of the Race Relations (Amendment) Act 2000. [3552]

Nigel Griffiths: The Office of the Leader is not responsible for any bodies or organisations.

TRANSPORT

Acts of Parliament (Internet Access)

Mr. Gordon Prentice: To ask the Secretary of State for Transport if he will take steps to make all Acts of Parliament published before 1988 for which his Department is responsible available online. [3723]

Ms Buck: The Controller of Her Majesty's Stationery Office (HMSO) within the Cabinet Office is the Queen's Printer of Acts of Parliament, and responsible for the publication of Acts of Parliament. HMSO have considered the publication of Acts prior to 1988, which is the earliest date when these were available electronically, but have decided not to do so as many have been heavily amended and to publish them in their original form would be misleading for many users. The Government are, however, taking forward development of a Statute Law Database which will contain the fully revised and updated text of all legislation from 1275. It is expected that this will be made available to the general public during 2006.

The DFT Publication Scheme, published in November 2002, specifies the categories of information that the Department and its agencies publish at the moment and will publish in the future and explains how to obtain that information (which may be available directly through the DFT or elsewhere). Acts of Parliament and explanatory notes are not published on the DFT site.

Air Transport (Pollution)

Norman Baker: To ask the Secretary of State for Transport (1) what steps he is taking to reduce aircraft stacking times over London; [4564]

(2) what the average daily composite time spent by planes destined for *(a)* Heathrow and *(b)* Gatwick held in stacking over London is; and what daily level of greenhouse gas emissions he estimates are attributable to this practice. [4565]

Ms Buck *[holding answer 14 June 2005]:* The operation of air traffic control stacking procedures is a matter for National Air Traffic Services (NATS), the air navigation services provider. NATS' service performance, including reductions in delays, is incentivised by independent economic regulation by the Civil Aviation Authority, subject always to overriding safety considerations.

Aircraft are held in stacks when demand dictates, or when they are affected by weather or other factors, and their rate of arrival would otherwise exceed the capacity of the airport to receive them.

The Future of Air Transport White Paper noted that future growth would require a structured programme for the redesign of UK airspace, taking into account safety and environmental considerations. As part of that, we look to NATS to operate and develop air traffic control efficiently, consistently with their overall objectives, and in particular to seek to minimise stack holding as far as possible, to reduce fuel burn and emissions.

Estimates of daily levels of greenhouse gas emissions attributable to stack-holding are not available.

Crossrail

Dr. Pugh: To ask the Secretary of State for Transport how much private sector investment is expected to be made in Crossrail. [3966]

Derek Twigg: The Government are working with Transport for London on the options for funding Crossrail. It will bring forward funding proposals, including on the level of investment expected from the private sector, during the passage of the Bill.

Heathrow Airport

Lynne Featherstone: To ask the Secretary of State for Transport when London Heathrow terminal five is expected to be operational; and if he will make a statement. [4615]

Ms Buck: BAA have announced that they expect phase one of Heathrow terminal five to be operational in March 2008, with phase two due to open in spring 2011.

Hydrocarbons Consumption (International Aviation)

John Hemming: To ask the Secretary of State for Transport what estimate his Department has made of forecast consumption of hydrocarbons by international aviation for *(a)* 2005, *(b)* 2010, *(c)* 2015, *(d)* 2020, *(e)* 2025 and *(f)* 2030; and how much carbon will be emitted as a result in each case. [5027]

Ms Buck: The table gives the Government's estimates for the forecasted amounts of emissions due to international civil aviation in the UK. More detail on the assumptions underpinning these estimates is available from Aviation and Global Warming, published by the Department for Transport in January 2004.

The following figures relate to international aviation estimates for each decade (i.e. 2010, 2020, 2030) with interpolated figures being provided in brackets for the years that fall between the published figures. The values for fuel and CO_2 have been reckoned assuming that one tonne of carbon corresponds to 3.67 tonnes of CO_2 and that one tonne of fuel is equivalent to 3.15 tonnes of CO_2.

	Carbon emitted (Mt)	*CO_2 emitted (Mt)*	*Fuel (Mt)*
2000	8.3	30.4	9.6
(2005)	(9.2)	(33.8)	(10.7)
2010	10.2	37.3	11.8
(2015)	(12.1)	(44.4)	(14.1)
2020	14.0	51.4	16.3
2025	(15.3)	(56.2)	(17.8)
2030	16.6	61.1	19.4

John Hemming: To ask the Secretary of State for Transport what the consumption of hydrocarbons within the air transport sector in England was in each five year period since 1990. [5028]

Ms Buck: The information is not available in the form requested. The following table sets out the amount of aviation turbine fuel and aviation spirit uplifted in the UK. This covers domestic and international airlines, aircraft industry own use, private and business flying and armed services.

	Fuel used (million tonnes)
1990–94	33.9
1995–99	43.5
2000–03	[1]42.9

[1] Four years only—2004 available in July.

Local Authority Transport Plans

Tom Brake: To ask the Secretary of State for Transport what the *(a)* unclaimed and *(b)* returned sums from each local authority's local transport plans were in the last year for which figures are available. [3384]

Ms Buck: Since April 2002 local authorities have been able to keep the single capital pot funding allocated to them for maintenance and smaller schemes. Typically we fund major schemes by 50 per cent. borrowing approvals and 50 per cent. by grant. Before prudential borrowing was introduced, the borrowing support for major schemes was provided through Supplementary Credit Approvals (SCA), and any returned SCAs were reallocated annually.

Following the introduction of prudential borrowing the Department carried out a final SCA reallocation exercise in respect of 2003–04 in August 2004. The amounts were as follows:

Final reallocation of SCAs in respect of 2003–04 amount rounded to nearest £000

Region	*Authority*	*Scheme*	*Returned SCAs reallocated to the same scheme*	*Returned SCAs reallocated to another authority*
GO-NE	Newcastle	Scotswood Road Improvement Phase III	181	—
GO-NE	Newcastle	Quayside Public Transport	1,230	—
GO-NE	Newcastle	Central Motorway East	438	—
GO-NE	Gateshead	Centrelink	2,752	—
GO-NE	Tyne and Wear PTA	For Lane Ends Interchange	23	—
GO-NE	Tyne and Wear PTA	Stephenson Link	1,397	—
GO-NE	Tyne and Wear PTA	Metro Track Dualling	—	500
GO-SE	Oxfordshire	Detrunking of the A41	1,604	—
GO-SE	Hampshire	A3 Integrated Major Public Transport Scheme	—	785
GO-SE	Kent	Fastrack Major Scheme	—	164
GO-YH	Leeds	Leeds Supertram	6,000	—
GO-NW	Salford	Cadishead Way	—	3,073
GO-EM	Derbyshire	Upper Derwent Charging Scheme	95	—
GO-East	Cambridgeshire	Fordham Bypass	186	—
GO-East	Southend	Priory Crescent	159	—
		Full reserve fed into reallocation	—	6,478
		Total	14,065	11,000

Under the prudential borrowing system a local authority is supported by the allocation of Supported Capital Expenditure (SCE). The SCAs in the final reallocation were allocated as SCEs. A local authority may carry forward unused SCEs for a reasonable period as judged by the Department.

The grant support for local authority public transport major schemes is paid through Public Transport Facilities Grant.

The latest figures available for unclaimed Public Transport Facilities Grant cover 2003–04 and are detailed as follows.

Region	Local authority	Scheme	Amount allocated—rounded to (£000)	Amount claimed (£000)	Difference—unclaimed in 2003–04 (£000)
GONE	Tyne and Wear PTE (Nexus)	Tyne and Wear Track Dualling	500	155	345
GONE	Newcastle City Council	Quayside Public Transport	1,004	658	346
GONW	Greater Manchester PTA	Manchester Metrolink Phase 3	63,000	26,150	36,850
GOSE	Portsmouth CC	South Hampshire Rapid Transit	1,444	0	1,444
GOSE	Hampshire CC	South Hampshire Rapid Transit	1,217	0	1,217
GOWM	Warwickshire CC	Nuneaton Development Project	799	610	189
GONW	Greater Manchester PTA	Northern Orbital Quality Bus Corridor	1,600	712	888
GONW	Greater Manchester PTA	South East Manchester Quality Bus Network (SEMMMS)	3,000	892	2,108

M26/M20

Sir John Stanley: To ask the Secretary of State for Transport (1) whether the study into the provision of lighting at the convergence of the M26 and M20 at junction 3 has commenced; when it is expected to be completed; and what its anticipated cost is; [4569]

(2) how many accidents there have been at the convergence of the M26 and M20 at junction 3 in each of the last 10 years, broken down by degree of seriousness of personal injury sustained. [4570]

Dr. Ladyman: The Highways Agency has commissioned a study into the provision of lighting at junction 3 of the M20, which will be completed later this year, at a cost of approximately £3,000.

Over the last 10 years there have been 165 accidents on the M20 starting at Trottiscliffe Road Bridge at junction 3 down to the on and off slips at junction 5. The table shows the number of accidents broken down by degree of seriousness of personal injury.

Number of accidents: Boundary at Trottiscliffe Road Bridge to junction 5 before on/off slips

	Fatal	Serious	Slight
1994	0	0	6
1995	0	1	4
1996	2	1	10
1997	0	1	7
1998	0	2	10
1999	1	0	11
2000	1	3	27
2001	2	1	20
2002	0	0	13
2003	1	4	12
2004	0	4	21
Total	7	17	141

MOT Computerisation Programme

Tom Brake: To ask the Secretary of State for Transport what the timetable is for the introduction of the MOT computerisation programme; and what it was when the contract to run the system was awarded. [3959]

Dr. Ladyman: The original contracted date for the first MOT stations to be computerised was May 2002. MOT computerisation went live for the first garages from 18 April 2005.

Tom Brake: To ask the Secretary of State for Transport what progress has been made in the testing of the MOT computerisation system by the Vehicle and Operator Services Agency and Siemens Business Systems. [3988]

Dr. Ladyman: MOT computerisation underwent three phases of test and trials; one stage of office based user acceptance testing followed by two phases trialing the system in garages. The test and trials have now concluded; the system went live on 18 April 2005.

Tom Brake: To ask the Secretary of State for Transport when he expects the MOT computerisation system to be fully operational. [4009]

Dr. Ladyman: MOT computerisation began being rolled out operationally to garages on 18 April 2005.

Tom Brake: To ask the Secretary of State for Transport what assessment was made of the MOT computerisation trial at 50 garages in 2004; and what conclusions were reached. [4010]

Dr. Ladyman: The second stage of trials in autumn 2004 initially involved 37 garages. Faults were discovered that needed to be corrected and retested so the trial was extended by a further three weeks and was broadened to include 72 garages. Following completion of the extended trial it was concluded that the service should proceed to the final stage of trials which started in February 2005.

Tom Brake: To ask the Secretary of State for Transport when the planned installation of the MOT computerisation programme in 1,000 MOT garages is expected to be completed; when the service is due to go live; and when it will be extended to all other MOT garages. [4011]

Dr. Ladyman: MOT computerisation went live on 18 April 2005. There are currently 2,730 garages who have conducted tests using the new system. The roll out of the system to all remaining testing stations depend on continued satisfactory performance and is planned to be completed by 31 March 2006.

Tom Brake: To ask the Secretary of State for Transport what the cost was at today's prices of the original contract with Siemens Business Services to run the MOT computerisation programme; when this contract was awarded; how much has been spent to date; and what estimate he has made of how much will have been spent by the time the system is operational. [4012]

Dr. Ladyman: The cost of the contract with Siemens Business Services (SBS) to run the computerised MOT service is £1.09 per test at today's prices. As roll out of the system to the garages has commenced, payments to SBS have also commenced.

The MOT Computerisation Contract was awarded in 2000. Expenditure on the project to the start of rollout (18 April 2005) has been £24 million. Expenditure by the time the service is rolled out to all testing stations is estimated to be £30.5 million.

Tom Brake: To ask the Secretary of State for Transport if he will make a statement on the progress of the MOT computerisation programme; and what assessment *(a)* has been conducted and *(b)* is planned of the (i) effectiveness and (ii) value for money of its implementation. [4013]

Dr. Ladyman: MOT computerisation went live in garages on 18 April 2005. To date 2,730 garages have used the new system and in excess of 340,000 tests have been recorded onto the database.

A report on the effectiveness and value for money of the implementation of the service was conducted by the National Audit Office during 2004.

Race Relations

Keith Vaz: To ask the Secretary of State for Transport how many and what percentage of staff in his Department have received training on the general and specific duties of the Race Relations (Amendment) Act 2000, broken down by *(a)* ethnicity and *(b)* grade. [3535]

Ms Buck: All staff within the Department for Transport and its Executive agencies who are responsible for conducting Race Impact Assessments have attended training or are due to attend. This includes both the general and the specific duty. Further impact assessment training will be delivered as and when there is a need to train more assessors.

Information about the Race Relations (Amendment) Act 2000, the General and Specific Duty, and the Race Equality Scheme 2005–08 has been communicated to all staff via internal bulletins, intranet sites, induction training and included within diversity and equality training.

Number of staff who have attended training specifically on impact assessments, general and specific duty within the Department and Executive agencies

Pay band	*White*	*Black*	*Asian*	*Mixed ethnic background*	*Ethnicity other*	*Ethnicity unknown*
PBS1	—	—	—	—	—	—
PBS3	—	—	—	—	—	—
AA	1	—	—	—	—	—
AO	8	1	—	—	—	2
EO	30	2	1	1	—	1
HEO	36	1	1	—	—	15
SEO	23	1	—	—	—	6
Grade 7	20	—	1	—	—	—
Grade 6	11	—	—	—	1	1
PB8	3	—	—	—	—	—
SCS	26	—	—	—	—	—
Total staff	158	5	3	1	1	26

Note:
Total staff = 194

Future training planned for 2005–06

Further training for impact assessments is scheduled within in some Executive agencies for 2005 to increase the number of staff trained in this area.

The central Department is also reviewing how to train all staff in the general and specific duty in 2005–06. This would increase the number of staff trained in the centre by a further 1,500 which is being considered to be mandatory training.

In addition, DVLA is also currently reviewing the training options available to include general and specific duty training to all staff, and expects to start this training later in 2005. This would involve training a further 7,000 members of staff.

Rail Passengers Council

Mike Gapes: To ask the Secretary of State for Transport how the consultants Odgers, Ray and Berndtson conducting the selection process for the members of the Rail Passengers Council were chosen. [3928]

Derek Twigg: The Department for Transport selected Odgers, Ray and Berndtson from the list of 16 firms included in the Cabinet Office executive search call off contract to assist in the appointment of members of the Rail Passengers Council.

Railways

Mr. Amess: To ask the Secretary of State for Transport what the Department's plans are for the East Coast Main Line. [4382]

Derek Twigg: The new East Coast Inter City franchise commenced on 1 May 2005. Among the obligations within the new franchise are additional services to Leeds and the development of a study into the electrification of the rail network between Neville Hill and Hambleton South Junction. Later this month the SRA plans to publish a review summarising the work to date on the supply and demand for ECML train services and the options that can be considered for the future. It is planned that Network Rail, who have the responsibility for route utilisation, will consult further on the requirements for the line.

Mr. Milburn: To ask the Secretary of State for Transport how many instances of trespass there were on railways in the UK in each of the last five years. [4705]

Derek Twigg: According to the rail industry's Safety Management Information System (SMIS) data, the total numbers of trespass cases recorded on the national rail network in Great Britain for each of the last five years are as follows:

	Trespass cases recorded
2000	11,147
2001	11,487
2002	12,034
2003	11,933
2004	11,196

Mr. Milburn: To ask the Secretary of State for Transport how many fatalities arising from trespass there were on railways in the UK in each of the last five years. [4706]

Derek Twigg: According to the rail industry's Safety Management Information System (SMIS), fatalities due to trespass in the Great Britain in each of the last five years are as follows:

	Suicides and suspected suicides	*Other trespasser fatalities*	*Total fatalities*
2000	205	63	268
2001	190	52	242
2002	207	48	255
2003	183	49	232
2004	196	37	233

Mr. Milburn: To ask the Secretary of State for Transport what the average fine for trespass on railways in the UK was in each of the last five years. [4708]

Derek Twigg: This information is not held centrally.

Mr. Milburn: To ask the Secretary of State for Transport what the maximum fine available for trespass on UK railways was in each of the last five years. [4709]

Derek Twigg: In each of the last five years, the maximum fine for trespassing on the railways in contravention of section 55(1) of the British Transport Commission Act 1949 has been £1,000.

Road Charging

Dr. Pugh: To ask the Secretary of State for Transport (1) what account will be taken in drawing up further proposals for road charging of the effects of the London congestion charge on *(a)* numbers of people travelling and *(b)* methods of transport used; [3824]

(2) what estimate the Department has made of the cost of gantry construction and installation in connection with a road pricing system in the whole of the United Kingdom. [4556]

Dr. Ladyman: I refer the hon. Member to my answer given today to the hon. Members for Dundee, East (Stewart Hosie) and for Romford (Andrew Rosindell).

Stewart Hosie: To ask the Secretary of State for Transport (1) what account will be taken of *(a)* engine size, *(b)* emissions and *(c)* fuel efficiency when calculating road charging prices; [2880]

(2) what assessment he has made of the likely effects on tourism of a road charging scheme; [2881]

(3) if he will make a statement on plans for a pay-as-you-go drive system. [2949]

Dr. Ladyman: In line with its manifesto commitments, the Government will examine the potential of moving away from the current system of motoring taxation towards a national system of road pricing.

The Feasibility Study of Road Pricing in the UK, published by the Department for Transport in July 2004, concluded that a scheme could reduce congestion by some 40 per cent. and achieve benefits of up to £12 billion a year in time savings and increased reliability. This would bring benefits for the economy as a whole and individuals using the road network for business and leisure.

The Feasibility Study recognised that before road pricing could be implemented much more work would need to be done. It is too early to specify all the details of a scheme, or to determine precisely its impacts. It will be important to learn from the experiences of charging schemes already in place, such as the London Congestion Charge. We need to design a system that works at a reasonable cost, with clear benefits to road users as well as the country as a whole. Key considerations include the need to safeguard our environmental objectives, respect privacy and the setting of prices.

More detailed work is now being taken forward to allow a decision to be made about whether national road pricing should be introduced and what form it should take.

Safety Cameras

Mr. Jenkins: To ask the Secretary of State for Transport how many safety cameras are operated by each safety camera partnership in England, broken down by *(a)* fixed cameras and *(b)* mobile cameras. [4915]

Dr. Ladyman: For information on the number of fixed and mobile speed camera sites broken down by partnership, I refer to my answer of 9 June 2005, *Official Report*, columns 617–19W. Further detailed information is available from partnerships.

South Hampshire Light Rail Scheme

Peter Viggers: To ask the Secretary of State for Transport when the Government will announce their decision on the funding of the revised South Hampshire Light Rail Scheme. [4712]

Derek Twigg *[holding answer 15 June 2005]*: We will announce our decision soon.

Traffic Accidents (London)

Sarah Teather: To ask the Secretary of State for Transport how many *(a)* fatal and *(b)* non-fatal traffic accidents there were in (i) Brent, East and (ii) each London borough in each year since 1997. [2538]

Dr. Ladyman: The numbers of fatal and non-fatal accidents in the Brent, East parliamentary constituency for the years 1997 to 2003 (the latest year available) are shown in the following table.

Accidents by severity: Brent East constituency 1997 to 2003

Accidents

	Fatal	*Injury*
1997	2	459
1998	2	457
1999	2	461
2000	5	509
2001	2	453
2002	1	422
2003	0	414

The equivalent information for each London borough is shown in the following table.

Accidents by severity: London boroughs 1997–03

Accidents

Vehicle Disposal

Norman Baker: To ask the Secretary of State for Transport what information he has about the average percentage of vehicle components removed from vehicles for reuse at end-of-life disposal in each year since 1985. [4477]

Malcolm Wicks: I have been asked to reply.

Although detailed figures are not routinely collected, various studies by Government and industry in recent years estimate that parts for re-use accounts for between 6 per cent. and 11 per cent. of the total weight of end-of-life vehicles (ELVs).

DEPUTY PRIME MINISTER

Affordable Homes

Daniel Kawczynski: To ask the Deputy Prime Minister what central Government assistance is available to Shrewsbury and Atcham borough council to provide the number of affordable homes they have been set. [3652]

Yvette Cooper: The main funding for affordable housing is provided through the Housing Corporation's Approved Development Programme. Decisions on the allocation of these funds are taken in the light of priorities set out in Regional Housing Strategies, reflecting provision for new housing in the planning system, and the quality and value for money in bids received from housing associations and other bodies. Around £1.2 million in total has been allocated for the two years 2004–05 and 2005–06.

There are other funding streams, e.g. the private finance initiative, the new first-time buyer initiative, which, directly or indirectly, support the provision of additional affordable housing. It is also open to local authorities to put funds into this where it is a local priority.

BMG Research (Surveys)

Tim Loughton: To ask the Deputy Prime Minister how many surveys have been sent out to residents in *(a)* England, *(b)* Adur and *(c)* Worthing on behalf of his Department by BMG Research entitled, "Your views on your local council"; and who pays for the surveys. [4627]

Mr. Woolas: BMG have sent 8,000 questionnaires to individuals across England as part of a national survey of public satisfaction with local government and its services they are undertaking for the Office of the Deputy Prime Minister. As part of this sample, 10 questionnaires were mailed to individuals in Adur and 22 to individuals in Worthing.

The survey is funded from the ODPM Local and Regional Government Research Programme.

Tim Loughton: To ask the Deputy Prime Minister how much has been paid to BMG Research for surveys on residents' views on local councils. [4628]

Mr. Woolas: BMG will be paid £36,000 plus VAT by the Office of the Deputy Prime Minister for the national survey of public satisfaction with local government and its services. This survey is currently in the field.

Business Rates

Mrs. Spelman: To ask the Deputy Prime Minister if he will publish figures for the average business rates bill in each Government Office region in each year since 1997–98, including the estimated average figures for 2005–06. [4266]

Mr. Woolas: The average business rates bill in each Government Office region in each year since 1997–98, including the estimated average figures for 2005–06, are shown in the following table.

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*
North East	5,501	5,978	6,159	6,968	7,305
North West	5,215	5,589	5,770	6,825	7,273
Yorkshire and the Humber	5,381	5,869	6,005	6,954	7,433
East Midlands	5,716	6,142	6,251	7,237	7,670
West Midlands	5,686	6,250	6,487	7,588	7,756
Eastern	7,026	7,125	7,080	8,096	8,476
London	10,057	10,433	9,792	12,033	12,842
South East	7,208	7,759	7,796	9,212	9,705
South West	7,087	5,295	5,412	6,332	6,570

	2002–03	2003–04	2004–05	2005–06
North East	7,498	7,518	7,701	8,367
North West	7,646	7,708	7,793	8,086
Yorkshire and the Humber	7,664	7,623	7,773	8,317
East Midlands	7,846	7,893	7,955	8,477
West Midlands	8,003	8,055	8,192	8,672
Eastern	8,685	8,620	8,740	9,575
London	13,753	14,124	14,484	15,705
South East	10,045	10,053	10,252	11,124
South West	6,658	6,614	6,662	7,195

Mrs. Spelman: To ask the Deputy Prime Minister (1) what the estimated average business rates bill was in each billing authority in England in 2004–05; and what the estimated level is for 2005–06; [4292]

(2) what the net yield from business rates was in each billing authority in England in 2004–05; and what the estimated level is for 2005–06. [4291]

Mr. Woolas: The information has been made available in the Library of the House.

Canal Restoration

Michael Fabricant: To ask the Deputy Prime Minister if he will make a statement on the impact of planning policy guidance 13 on the restoration of canals and the route such canals take. [3760]

Yvette Cooper: Planning policy guidance note (PPG) 13 states that proposals for waterside development should seek to enhance the use, enjoyment and setting of the adjacent waterway. Local authorities should work with all those concerned in the inland waterways industry to develop the potential of inland waterways. In liaison with British Waterways or other navigation authorities, the Environment Agency in its regulatory capacity, the Inland Waterways Association and local waterway organisations, local authorities should identify and where appropriate protect disused waterways where there is a reasonable degree of certainty of a restoration project proceeding within the plan period.

Car Boot Sales

Mr. Gordon Prentice: To ask the Deputy Prime Minister what assessment he has made of the operation of regulations on car boot sales; and if he will make a statement. [3173]

Yvette Cooper: In January 2002, a consultation paper was issued on possible options for change to the planning regulations over temporary uses, including car boot sales. The paper sought views from all interested parties. The overwhelming consensus in response to the consultation paper was to retain the existing provisions. In consequence, we announced on 21 August 2002 that there would be no change to the temporary use planning provisions.

Chief Executives

John Hemming: To ask the Deputy Prime Minister what his Department's policy is on whether local authorities should be required to have a chief executive. [3789]

Mr. Woolas: The Local Government and Housing Act 1989 provides that each principal local authority must designate one of its officers as a Head of Paid Service, who undertakes the overall management of the authority.

Construction (Litchfield)

Michael Fabricant: To ask the Deputy Prime Minister if he will meet the Chief Executive of Staffordshire county council to discuss *(a)* the route of the Lichfield southern bypass, *(b)* the construction of associated housing by Persimmon Homes and *(c)* the impact on the route of the restored Lichfield canal. [3978]

Yvette Cooper: This is a local issue for Staffordshire county council, Lichfield district council and the Lichfield and Hatherton Canals Restoration Trust to resolve.

Council Tax

Mrs. Spelman: To ask the Deputy Prime Minister whether the average council tax per dwelling figures compiled by his Department are a mean or median measure; and for what reason the measure is used. [4175]

Mr. Woolas: The average council tax per dwelling is a mean, rather than a median, measure. It is defined as the council tax requirement divided by the number of chargeable dwellings in an area.

The average council tax per dwelling measure is used to compare the amounts of council tax payable in different local authority areas.

Mrs. Spelman: To ask the Deputy Prime Minister whether *(a)* caravans, *(b)* stand-alone private garages, *(c)* armed forces barracks, *(d)* hostels and *(e)* properties occupied by squatters, are liable for council tax. [4245]

Mr. Woolas: The information requested is as follows:

(a) Caravans are not in themselves subject to council tax, but liability for council tax may arise in respect of the land (pitch) on which the caravan stands. A pitch occupied by a caravan which is somebody's sole or main residence is deemed to be a "dwelling" for council tax purposes and will therefore attract a council tax liability in the same way as other domestic types of property.

(b) Generally, a stand alone private garage is only liable for council tax to the extent that it forms part of a larger property which itself is liable for council tax.

(c) Living accommodation for UK armed forces which is owned by the Ministry of Defence is exempt from council tax. Contributions in lieu of council tax are payable to billing authorities by the Ministry of Defence to broadly match the amount of council tax which would otherwise have been payable. Service personnel make a contribution to this cost from their wages.

(d) Hostels—as defined in the Council Tax (Discount Disregards) Order 1992—are liable for council tax. The owner, rather than the residents, will be liable for paying the council tax.

(e) Properties occupied by squatters will be liable for council tax in the same way as any other dwellings.

Mrs. Spelman: To ask the Deputy Prime Minister whether there is a de minimis rule for small dwellings for the purposes of council tax valuation. [4319]

Mr. Woolas: No.

Mrs. Spelman: To ask the Deputy Prime Minister when the revised council tax valuation list will be available to the public following the council tax revaluation in England. [4321]

Mr. Woolas: The draft list will be made available on 1 September 2006 and the final list will be made available on 1 April 2007.

Mrs. Spelman: To ask the Deputy Prime Minister what the average collection rate was for council tax for Travellers in the last year for which figures are available. [4323]

Mr. Woolas: The information requested is not held centrally and could be provided only at disproportionate cost.

Mrs. Spelman: To ask the Deputy Prime Minister whether asylum seekers without leave to remain are liable for council tax. [4325]

Mr. Woolas: The liability of asylum seekers for council tax depends on the circumstances of the particular case.

Liability for council tax normally falls to the residents of a dwelling. However, where accommodation is provided to asylum seekers under Section 95 of the Immigration and Asylum Act 1999, then liability falls to the owner.

Mrs. Spelman: To ask the Deputy Prime Minister how many, and what proportion of appeals to *(a)* the valuation tribunal and *(b)* the High Court, against a council tax valuation, were successful in the last year for which figures are available. [4327]

Mr. Woolas: In 2004–05, 4,903 council tax appeals against valuation were decided by valuation tribunals in England. 723 (14.7 per cent.) appeals were successful.

In the same year, one decision of a valuation tribunal in England relating to a council tax appeal against valuation was appealed to the High Court. To date, this appeal remains outstanding.

Deprived Areas

Mr. Iain Wright: To ask the Deputy Prime Minister what steps are being taken to encourage enterprise and entrepreneurialism in deprived areas. [4332]

Mr. Woolas: In the March 2005 Budget, my right hon. Friend the Chancellor announced proposals for a new Local Enterprise Growth Initiative (LEGI) with the aim to provide flexible, devolved investment in the most deprived areas to support locally-developed and owned proposals that pursue new or proven ways of stimulating economic activity and productivity through enterprise development.

LEGI will be worth £300 million over the three years 2006–07 to 2008–09 and £10 million will be made available this year to help eligible areas develop proposals. The Office of the Deputy Prime Minister is consulting on the proposals until 30 June 2005 and would welcome views from all stakeholders.

The initiative have been designed to complement the work of the Regional Development Agencies and existing Government initiatives for increasing enterprise and entrepreneurship in deprived areas, such as the Phoenix Fund, the Enterprise Areas scheme, the Under-served Markets Project and the recently developed business engagement toolkit for local strategic partnerships.

Housing (Overcrowding)

Mr. Dismore: To ask the Deputy Prime Minister what proportion of social housing tenants who are *(a)* white and *(b)* black or ethnic minority live in overcrowded accommodation. [4367]

Yvette Cooper: It is estimated that in 2003–04 in England the proportion of social housing tenants living in accommodation which failed the "bedroom standard" were *(a)* 3 per cent. for white households and *(b)* 14 per cent. for black and minority ethnic households. The figures are derived from the Survey of English Housing.

Local Authorities (Expenditure/Indemnities)

Mrs. Spelman: To ask the Deputy Prime Minister if he will publish figures listing the capital expenditure for each local authority in England in the latest year for which figures are available. [4270]

Mr. Woolas: The figures requested have been made available in the Library of the House and relate to the financial year 2003–04, the latest year for which outturn figures are available.

Mr. Dismore: To ask the Deputy Prime Minister if he will revise the Local Authorities (Indemnities for Members and Officers) Order 2004 to provide for circumstances in which a member of a minority party on a council seeks an indemnity from a council which is refused *(a)* as a result of the votes of the majority party and *(b)* where a technical breach of the code has been found, but no penalty imposed and no further action taken. [3896]

Mr. Woolas: The Government have no plans to amend the Local Authorities (Indemnities for Members and Officers) Order 2004. These issues were considered before the Order was made.

Local Government Standards Board

Mr. Dismore: To ask the Deputy Prime Minister if he will require the Local Government Standards Board *(a)* to account separately for the costs of cases that were (i) proven and (ii) dismissed and *(b)* further to break down those costs by stage of the investigation and adjudication procedure; and if he will make a statement. [3818]

Mr. Woolas: The Office of the Deputy Prime Minister has no plans to require the Standards Board for England to provide information in the form referred to.

Mr. Dismore: To ask the Deputy Prime Minister how many of the cases disposed of *(a)* directly by the Standards Board, *(b)* after an adjudication panel and *(c)* after a local standards committee hearing (i) were dismissed, (ii) were found proven but no penalty imposed and (iii) were found to be vexatious complaints in each of the last three years. [3820]

Mr. Woolas: This information requested is in the table.

Cases	*2002–03*	*2003–04*	*2004–05*
Not referred for investigation	1,689	2,144	3,029
Investigations producing finding of no evidence of a breach of the code of conduct	113	154	310
Investigations producing finding that no action is required in respect of the matters under investigation	225	462	947
Total number of determinations made by the adjudication panel for England	30	130	59
Adjudication panel determinations that there was no breach of the code of conduct	1	4	8
Adjudication panel determinations that no further action is required	0	3	7
Total number of determinations made by local standards committees	[1]n/a	39	72
Local standards committees' determinations that there was no evidence of a breach of the code of conduct	[1]n/a	2	4
Local standards committees' determinations that no further action is required	[1]n/a	3	8

[1] Regulations providing for cases to be referred to local standards committees for investigation and determination were not in place in 2002–03.

The Standards Board does not hold information on the number of apparently 'vexatious' complaints received.

Lyons Review

Mrs. Spelman: To ask the Deputy Prime Minister whether the Lyons Review will consider the introduction of a capital value system in its assessment of local government finance. [4294]

Mr. Woolas: It is for Sir Michael Lyons to decide what to consider within his terms of reference.

National Spatial Address Infrastructure

Mrs. Spelman: To ask the Deputy Prime Minister what access political parties will have to the National Spatial Address Infrastructure database; and if he will make a statement. [4281]

Mr. Woolas: The proposed specification and plans to deliver the National Spatial Address Infrastructure are set out in the outline prospectus published by The Office of the Deputy Prime Minister on 26 May 2005.

The outline prospectus sets out a governance process that will encourage participation at a number of levels.

The Government are seeking comments from interested parties on a range of issues set out in the outline prospectus, by the end of June 2005. These issues include an outline of supply arrangements for the National Spatial Address Infrastructure and it would be inappropriate to comment on specific access issues at this stage.

Pensions

Mrs. Spelman: To ask the Deputy Prime Minister when the Government intends to revoke the local government pension scheme (amendment) (No. 2) regulations 2004. [4302]

Mr. Woolas: My right hon. Friend the Deputy Prime Minister is considering responses received to the recently concluded statutory consultation exercise on draft regulations which have the effect of revoking the local government pension scheme (amendment) (No 2) regulations 2004. A decision will be issued in due course.

Mrs. Spelman: To ask the Deputy Prime Minister what the current asset value of the Local Government Pension Scheme is *(a)* in England and *(b)* across the United Kingdom. [4303]

Mr. Woolas: The actuarial valuation of the local government pension scheme in England and Wales as at 31 March 2004 shows the asset value for funds in England to be £80.7 billion and £4.8 billion for funds in Wales. No comparable figure is available for the remainder of the UK.

Mrs. Spelman: To ask the Deputy Prime Minister what proportion of the local government pension scheme's liabilities are funded. [4304]

Mr. Woolas: The actuarial valuation exercise for the local government pension scheme in England and Wales, as at 31 March 2004, showed that the 89 separate funds which make up the scheme had assets covering 73 per cent. of their liabilities, as assessed by the independent actuaries. The actuaries have set new employers' contribution rates, effective from 1 April 2005, in each of these funds to secure their ongoing solvency.

Performance Targets

Mrs. Spelman: To ask the Deputy Prime Minister what plans the Government have to reduce the number of performance targets on local authorities. [4307]

Mr. Woolas: In March this year the Office of the Deputy Prime Minister published 'Securing better outcomes: developing a new performance framework' as part of our work on a 10 year strategy for local government. We highlighted the need to find a better balance between national and local targets for local government and its partners and to reduce the number of targets not directly related to PSAs or national standards. Over the coming months we will be considering how to achieve these aims.

Public Toilets

John Hemming: To ask the Deputy Prime Minister pursuant to the answer of 8 June 2005, *Official Report*, column 563W, on public toilets, what assessment his Department has made of the reasons for the reduction

in the number of public toilets; and what assessment he has made of the public health and environmental consequences of the change. [4616]

Mr. Woolas: As stated in my previous answer on 8 June 2005, *Official Report*, column 563W, the provision and maintenance of toilets in public places is at the discretion of local authorities who have, under section 87 of the Public Health Act 1936, a power to provide public conveniences, but no duty to do so.

It is therefore for individual local authorities to decide whether or not to provide public toilets and, if so, how many. In doing this, each local authority must balance the competing priorities of a whole range of services. The vast majority of government support is paid as a block grant, so that local authorities have considerable freedom to determine their own spending priorities.

Supporting People Programme

Mr. Andrew Smith: To ask the Deputy Prime Minister when he expects to publish the revised formula for the allocation of funds for Supporting People; and what consultation he plans to undertake on the formula. [4573]

Mr. Woolas: The current version of the Supporting People distribution formula is being developed in cooperation with representatives from local government. The Office of the Deputy Prime Minister plans to consult on a revised model for distributing funds shortly.

Unitary Authorities

Daniel Kawczynski: To ask the Deputy Prime Minister if he will rule out establishing unitary authorities in areas where a referendum has not given the assent of the people; and if he will make a statement. [3769]

Mr. Woolas: I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 6 June 2005, *Official Report*, columns 406–07.

Voluntary Organisations (Grants)

Sarah Teather: To ask the Deputy Prime Minister how much his Department gave in grants to voluntary organisations in each London borough in the last year for which figures are available. [2534]

Yvette Cooper: This information is not collected centrally by the Office of the Deputy Prime Minister across all programmes.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Welfare

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to bring forward legislation to replace the testing of animals under the REACH proposals with a testing strategy that uses advanced scientific techniques for *(a)* safety testing and *(b)* risk assessment without using animals; and if she will make a statement. [4147]

Mr. Morley: The REACH proposals will require industry to provide data on chemicals to enable an assessment to be made of their potential harm to the environment and human health. There will in some cases be a legal requirement for the use of animals for safety testing in much the same way as the current requirements for chemicals under existing regimes. However, the REACH regulation will require that all existing data from animal tests and alternative methods of generating data are taken into consideration before any new animal testing is carried out.

The Government are committed to minimising the numbers of animals used for safety testing and risk assessments under REACH and is supporting work aimed at the development of integrated testing strategies based on existing data, advanced modelling approaches and in vitro testing methods that do not require the use of animals. However, before the new methods can be accepted by regulatory authorities, there is a need for the methods to be fully validated as fit for purpose. It is also very unlikely that alternative methods will be available in the short term for certain toxicity endpoints, particularly those involving long-term exposure to chemicals.

Beavers

Mr. Jenkin: To ask the Secretary of State for Environment, Food and Rural Affairs if she will assess the effects of introducing beavers in Scotland to the ecology of the UK; and what representations she has received in connection with plans by the Scottish Executive to proceed with release of beavers in Scotland from *(a)* English Nature and *(b)* other bodies and organisations. [4914]

Jim Knight: Responsibility for nature conservation in Scotland is devolved to the Scottish Parliament. No re-introduction of beavers into the wild in Scotland can take place without a licence granted by the Scottish Executive. Scottish Ministers are currently considering an application from Scottish Natural Heritage to re-introduce beavers but have not yet reached a conclusion.

English Nature supports the proposal by Scottish Natural Heritage, on the grounds that it is properly researched and meets the requirements of the IUCN guidelines on introductions. However, they recognise that the re-introduction of a species that has been absent for several hundred years must proceed with great care, and address the concerns of a wide variety of interest groups. They advise that the next step should be to undertake a small scale trial re-introduction to improve predictions on impact and spread.

No other representations have been received on this issue by Defra.

Carbon Emissions

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the level of carbon emissions from oil and gas producers operating in the North Sea was in the last period for which figures are available; what allocation they have been awarded under the EU Emissions Trading Scheme; and if she will make a statement. [3128]

Mr. Morley: The Approved National Allocation Plan for the EU Emissions Trading Scheme, as published on 24 May, details the historic emissions and allocation methodology for the distribution of allowances to all sectors and installations covered by the scheme. Annual

emissions from the 88 offshore installations covered by the EU ETS were 14.3 million tonnes carbon dioxide in 2003. The annual allocation to offshore installations in Phase I (2005–07) of the Scheme is 14.4 million allowances.

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government are on target to reduce carbon emissions *(a)* as agreed under the Kyoto protocol and *(b)* by 20 per cent. by 2010. [4696]

Mr. Morley: Estimates published in March this year suggest that in 2004 UK greenhouse gas emissions were provisionally about 12.5 per cent. below base year levels. The data released in March also indicate that, even without the further action currently being considered under the review of the UK Climate Change Programme, the UK will be about 20 per cent. below base year levels in 2010. The UK is therefore on course to meet its Kyoto protocol commitment to reduce emissions of a basket of six greenhouse gases by 12.5 per cent. below base level years by 2008–12. This is a significant achievement. On the basis of existing policies, emissions of carbon dioxide are projected to be about 13 per cent. below the 1990 level in 2010. We therefore recognise that more needs to be done if we are to meet our more challenging domestic goal to reduce carbon dioxide emissions by 20 per cent. below 1990 levels by 2010.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what her most recent estimate is of the level of UK carbon emissions resulting in a year from electrical appliances being left in standby mode. [4451]

Mr. Morley: The most recent estimate by the Government's Market Transformation Programme (MTP) is that taken together consumer electronics, home computing equipment, domestic cooking equipment and office equipment in the UK produced approximately 800,000 tonnes of carbon (c7 TWh) in the UK during 2004.

We are also aware that there is further energy consumption from white goods such as washing machines and dishwashers which are switched on awaiting use or after they have completed their wash cycles; consumer electronic equipment using external power supplies (eg domestic portable telephones) that continue to consume energy when plugged in but not in use; and domestic personal computer equipment where the stand-by facilities are not properly enabled. Taken together, these sources of consumption may bring the overall figure to around 1 million tonnes of carbon.

In order to try to tackle this problem the Market Transformation Programme (www.mtprog.com) has been encouraging manufacturers to reduce both the "on" and the stand-by power consumption of household appliances through the adoption of design improvements, voluntary codes of conduct, and best practice guidelines and targets. This approach has been fairly successful in respect of televisions: an EU-wide voluntary agreement will mean that the majority of new televisions sold in the UK now consume around 1 watt of power in stand-by mode rather than the 3–8 watts consumed by older models. This agreement is currently being extended to cover other consumer electronics.

A similar agreement for external power supplies aims to encourage new power supplies consuming around half a watt in stand-by mode compared to the present average of just over 2 watts.

The recently agreed Framework Directive for the Eco-design of Energy Using Products (EUP), which is expected to come into force later this year will provide a streamlined and effective route for setting EU-wide environmental requirements for traded goods. EUP requires the Commission and member states to treat the issue of stand by energy consumption as a priority area for consideration. The UK will work proactively with the Commission and other member states to influence and speed the delivery of measures under EUP.

In addition the Government's initiative on sustainable procurement, announced in the autumn of 2003, includes a requirement for Government Departments which purchase computers and televisions to specify low stand-by power requirements.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the daily energy consumption resulting from the use of standby units on televisions; and if she will make a statement. [4452]

Mr. Morley: The Government's Market Transformation Programme estimates that in 2004 the 62 million television sets in use in the UK consumed just over 3 million Kwh per day while in stand by mode—approximately 8 per cent. of their total average daily energy consumption.

The Market Transformation programme estimates that by 2010 the number of televisions in use in the UK will rise to 67 million.

In order to try to reduce the overall energy consumed by televisions the Market Transformation Programme (www.mtprog.com) has been encouraging manufacturers to reduce both the "on" and the "stand-by" power consumption of televisions through the adoption of design improvements, an EU wide voluntary code of conduct, and best practice guidelines and targets.

The EU-wide voluntary agreement on televisions has been fairly successful in reducing the average energy consumed by televisions in stand-by mode with the majority of new televisions sold in the UK soon to consume around 1 watt of power in stand-by mode rather than the 3–8 watts consumed by older models. This agreement is in the process of being extended to cover other consumer electronic equipment.

The recently agreed Framework Directive for the Eco-design of Energy Using Products (EUP), which is expected to come into force later this year will provide a streamlined and effective route for setting EU-wide environmental requirements for traded goods. EUP requires the Commission and member states to treat the issue of stand by energy consumption as a priority area for consideration. The UK will work proactively with the Commission and other member states to influence and speed the delivery of measures under EUP.

In addition the Government's initiative on sustainable procurement, announced in the autumn of 2003, includes a requirement for Government Departments which purchase televisions to specify televisions with stand-by power requirements of less that 1 watt.

Endangered Species

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what programmes the Government sponsors to protect and encourage the breeding of endangered species. [4582]

Jim Knight: The Government are taking a wide range of measures to protect and conserve endangered species in this country and also internationally through mechanisms such as international conservation agreements and the Government's funding schemes (for example, the Darwin Initiative and FCO's Sustainable Development Global Opportunities Fund).

More specifically on breeding of endangered species, we are also taking measures. For example, the Royal Botanic Gardens (RBG) Kew, a non-departmental public body sponsored by Defra, carries out much important work, in support of the Convention on Biological Diversity. All living collections held at RBG Kew have undergone a conservation audit so that their endangered state is known and this material is available for propagation and reintroduction. RBG Kew assists governments to identify areas of floristic diversity which should be protected in countries such as Bolivia, Brazil, Madagascar, Cameroon, Thailand and Brunei, and manages the Millennium Seed Bank Project which involves partnerships between 18 countries which seek to collect and conserve long-term, seed from 24,200 species. Seed of 96 per cent. of the seed bearing flora of the British Isles are also held in the Millennium Seed Bank. Seeds of rare and threatened species, such as the Lady's Slipper Orchid, are micro-propagated prior to reintroduction into the wild as part of the national Biodiversity Action Plan (BAP), managed by English Nature and other UK conservation agencies. Collections of rare UK BAP lower plants (bryophytes) are held as a cryo-preserved collection and work is currently under way to develop methods to recover and reintroduce these cryo-preserved collections.

Also, in recognition that zoos can play a role in breeding endangered species for conservation purposes, British zoos are regulated through the Zoo Licensing Act 1981 to require them to participate in conservation measures including captive-breeding programmes for endangered species of animals.

We also provide funds to a number of Darwin Initiative projects which are focused on breeding endangered species in order to contribute to their conservation in the wild. For example, the Initiative has provided three grants to the RSPB and the Institute of Zoology for work to address the catastrophic decline of Vulture species across Asia. This work has identified causes of these declines and set up a captive breeding programme to ensure survival of populations while these causes are being addressed.

Fly-tipping

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what volume of waste she estimates was illegally fly-tipped in the most recent year for which figures are available, broken down by *(a)* the nature of the waste and *(b)* whether it was fly-tipped in urban or rural areas; [4442]

(2) what estimated total volume of waste has been illegally fly-tipped in each year since 1992, broken down by the nature of waste. [4443]

Mr. Bradshaw: Defra has worked with the Environment Agency to establish a national database on fly-tipping (Flycapture) which has been operational since April 2004. No national data were previously available on illegal waste disposal or fly-tipping.

Flycapture is a summary database of fly-tipping incidents and does not record specific volumes. The following data are a summary of incidents reported to the Flycapture system from April 2004 to March 2005 broken down by waste type and location.

	English WCAs	*EA*	*Total—April 2004 to March 2005*
Highway	365,363	19,536	384,899
Footpath bridleway	75,444	5,987	81,431
Back alleyway	92,690	5,425	98,115
Railway	790	47	837
Council land	261,545	16,598	278,143
Agricultural	3,633	391	4,024
Private residential	16,837	1,723	18,560
Commercial industrial	8,921	907	9,828
Watercourse bank	2,164	197	2,361
Other	37,682	3,362	41,044

	English WCAs	*EA*	*Total*
Animal carcass	7,148	457	7,605
Green	37,321	2,710	40,031
Vehicle parts	13,811	1,123	14,934
White goods	50,370	3,560	53,930
Other electrical	16,685	1,233	17,918
Tyres	21,463	1,631	23,094
Asbestos	2,745	240	2,985
Clinical	1,959	164	2,123
Construction/demolition/ excavation	44,787	3,334	48,121
Black bags—commercial	34,703	2,316	37,019
Black bags—household	234,103	13,149	247,252
Chemical drums of oil fuel	3,783	272	4,055
Other household	244,371	17,336	261,707
Other commercial	23,346	1,935	25,281
Other	127,964	4,713	132,677

Note:
The figures listed in the table are indicative figures from the first year of operation of the database. Data have become more consistent as users have submitted more complete returns. Defra will update its website with more detailed information on the first year's data shortly.

Game Rearing Farms

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs how many game rearing farms are operating in England. [4521]

Jim Knight: There are approximately 200 established game farms, who rear and sell in the UK. Approximately a further 200 or so gamekeepers rear birds mainly for their own estates but also sell some to other estates. Finally, a further 1,500 gamekeepers are involved in rearing game birds for release only on their own estates.

I must emphasise that these figures are merely the industry's own best estimate for the UK as a whole. There are no actual statistics held.

GM Crops

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Welsh Assembly Government on the planting of GM crops in Wales. [4038]

Mr. Morley: Defra keeps in regular touch with the Welsh Assembly Government on GM crop issues. This covers any applications for approval to cultivate GM crops under the EU legislative process, and the development of policy on the co-existence of GM and non-GM crops. Co-existence is a devolved matter but Defra and the devolved administrations are sharing information and ideas on possible ways forward.

Hazardous Waste

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of *(a)* the tonnage and *(b)* types of hazardous waste that will need to be treated to comply with the hazardous waste acceptance criteria coming into force on 16 July. [3452]

Mr. Bradshaw: The tonnage requiring treatment will depend on a number of factors, not least the amount arising. In 2003, some 4.8 million tonnes of special waste was consigned, and 47 per cent. was specifically consigned to treatment facilities (including recycling and reuse), 38 per cent. to landfill and 4 per cent. to incineration. Early indications suggest that arisings of hazardous waste for 2004 have declined further, though fully quality assured data will be available late in the summer.

Estimates on available capacity of hazardous waste treatment infrastructure were prepared for the Hazardous Waste Forum and posted on the Forum's website: http://www.defra.gov.uk/environment/waste/hazforum/statusreport.htm

Government and the Environment Agency are working closely with hazardous waste producers in the Landfill Regulation Group to assess how far treatment exists for specific waste streams in order that they may meet the waste acceptance criteria. The waste streams being considered in detail include battery recycling slag, spent pot linings and plasterboard.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the application of hazardous waste acceptance criteria coming into force on 16 July. [3453]

Mr. Bradshaw: The Government have transposed the requirements of Council Decision 2003/33/EC establishing the criteria and procedures for the acceptance of waste at landfills in the Landfill (England and Wales) (Amendment) Regulations 2004, SI 2004 No.1375. The Regulations will apply from 16 July 2005. A copy of the Regulations can be obtained from the Office of Public Sector Information at http://www.opsi.gov.uk/.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) which hazardous waste treatment facilities operating in England are able to treat hazardous waste to comply with the hazardous waste acceptance criteria; what their capacity is; and where they are located; [3454]

(2) what types of hazardous waste cannot be treated in the UK to comply with the hazardous waste acceptance criteria coming into force on 16 July; what the estimated quantities of such waste are; and when the technology required to treat this waste is expected to be operational. [3455]

Mr. Bradshaw: Almost all hazardous wastes can be treated in order to comply with the landfill waste acceptance criteria. Those that cannot may generally be treated by other technologies (which may themselves produce residues suitable for landfill) such as high temperature incineration.

Through its Landfill Regulation Group, the Environment Agency is working closely with industry and Government to identify problematic waste streams and their quantities to eliminate or mitigate any potential issues that could arise. This is being monitored by the Hazardous Waste Forum. Decisions on what if any additional technologies may be required are matters for commercial operators and subject to gaining the usual permissions for land use and environmental protection.

The Environment Agency intends to supplement its Enforcement and Prosecution Policy with an enforcement position in respect of any hazardous waste that is not capable of meeting the Waste Acceptance Criteria on 16 July 2005 for which no alternative recovery or disposal routes are available.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many pollution prevention control permits the Environment Agency granted for hazardous waste treatment plants in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003, *(e)* 2004 and *(f)* 2005 to date; to which plants; and what the capacity and location of each plant is. [3456]

Mr. Bradshaw: The following table gives the number of permits for hazardous waste treatment plants issued by the Environment Agency under the Pollution and Prevention and Control (England and Wales) 2000 Regulations for the years 2000–05 to date.

	Number of permits issued
2005 to date	2
2004	3
2003	5
2002	2

	Number of permits issued
2001	1
2000	0

More detailed information, giving details of the capacity and location for each of these plants is given in the table.

It should be noted that the capacity for four plants is given as >10 tonnes day. This is because this information is currently unavailable but I will write to the hon. Gentlemen when my officials have completed their investigations.

Operator name	Installation name	Date effective	PPC permit address	Capacity
Advance Waste Management Ltd.	Advance Waste Management	13 December 2001	Holbrooke Rise, Holbrooke Industrial Estate, Halfway, Sheffield, S20 3FG	No throughput capacity limits. Six month storage limit of 200m^3
Reformation Disposal Services Ltd.	Reformation Transfer Station	29 May 2002	Tollgate Road, Burscough Industrial Estate, Burscough, Ormskirk, L40 8LD	Annual capacity—1,000 tonnes
BP Exploration Operating Co. Ltd.	BP Wytch Farm Oilfield	15 July 2002	Gathering Station, Thrashers Lane, Corffe Castle, Wareham, BH20 5JR	In-house facility for BP only. No capacity limits in permit.
Octel Waste Management Ltd.	Octel Waste Treatment Centre	28 February 2003	Cheshire Waste Management Centre, Oil Sites Road, Ellesmere Port, South Wirral, CH65 4HF	206,000 tonnes per year
Petroplus Tankstorage Milford Haven Ltd.	Milford Haven Tankstorage	25 April 2003	Waterston Refinery, Milford Haven, SA73 1DR	To longer treating waste. Applied to vary permit to remove the capability to treat produced water.
Oil and Water Ltd.	Shaftesbury Oil and Water	2 May 2003	20 Wincombe Business Park, Shaftsbury, SP7 9QJ	Limited to oil related wastes: No annual throughput capacity. Approx max storage capacities: above ground tanks 844m^3.; Drums 53m^3; Reception sump 60m^3; skips 12m^3
Viridor Waste (Sheffield) Ltd.	Salmon Pastures	1 October 2003	Salmon Pastures, Attercliffe Road, Sheffield, S4 7WT	To throughput capacity limits or storage capacity limit.
Alco Waste Management Ltd.	Tanhouse Waste Transfer and Recycling Centre	12 December 2003	Tanhouse Ind. Estate, Cornubia Road, Lugsdale, Widness, WA8 OSB	>10 tonnes haz waste/day
Bale Environmental Ltd.	Honiton Waste Oil Treatment Facility	23 April 2004	90 Durham Way, Heathpark Industrial Estate, Honiton, EX14 1SQ	Waste oil >10tonnes/day
Leicester City Council	Leycroft Road Treatment Facility	24 May 2004	Leycroft Road, Beaumont Leys Liecester, LE4 1RT	120,000 litres max storage capacity (street cleaning waste, inc. oil contaminated)
LIS (North Western) Limited	LIS (North Western) Limited	14 October 2004	Unit 20, Haydock Lane, Haydock Industrial Estate, Haydock, WA11 9UQ	>10 tonnes haz waste/day
BCB Environmental Management Ltd.	Tockwith Transfer Station	31 March 2005	Unit 87 Marston Moor Business Park, Tockwith, York, YO26 7QF	Storage capacity of 50,000 tonnes/year
OSS Group Ltd.	OSS Group Ltd. Exeter	6 June 2005	Greendale Business Park, Greendale Barton, Woodbury Station, Exeter, EX5 1EN	Waste oil >10tonnes/day

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what steps *(a)* her Department and *(b)* the Environment Agency have taken to raise awareness amongst producers of hazardous waste of the hazardous waste acceptance criteria that will be in force from 16th July 2005. [3457]

Mr. Bradshaw: The Government and the Environment Agency have undertaken the following actions, many of which were of joint collaboration:

conducted seven rounds of public consultation on aspects of the Landfill Directive, two of which dealt specifically with waste acceptance criteria;

set up the Hazardous Waste Forum in December 2002 to bring together key stakeholders to advise on the way forward on the management of hazardous waste;

formed the Landfill Directive Implementation Group in March 2003. The Group provided stakeholder input into the process and negotiations in Europe that developed Council Decision 2003/33/EC establishing waste acceptance criteria and procedures;

established the Landfill and Hazardous Waste Implementation Programme (LHIP) in April 2004 to drive the changes required to successfully implement landfill and hazardous waste legislation;

set up a Communications Group for LHIP with strategic communication campaigns in place. This Group involves Defra, Environment Agency, DTI, Small Business Services, Envirowise, Environmental Services Association and Chartered Institution of Waste Management (CIWM);

set up a specialist website (www.hazardouswaste.org.uk) to provide information about landfill and hazardous waste changes;

produced leaflets and reports for distribution to waste producers to ensure they are aware of the changes;

organised two WAG seminars. The first on 6 December 2004 to continue to promote understanding of the implications in implementing WAC and to assist industries in preparations for it. The second seminar on 15 April 2005 provided a further opportunity for Government, waste managers, waste producers, regulators and policy makers, to catch up on what progress had been made towards meeting WAC;

Ministers, Government and Environment Agency officials have also spoken at many landfill and hazardous waste related events, some of which were organised by industry groups, such as ESA;

organised a series of hazardous waste road shows aimed specifically at SMEs which took place in Manchester, Bristol, Birmingham and London during April and May 2005;

produced an interpretative note (published in September 2004, available from www.defra.gov.uk) on the Landfill Regulations which cover many aspects of the Regulations, including on WAC, to help industry understand the Government's view on what the Regulations mean in practice;

the Environment Agency has published a regulatory guidance note on WAC, available on the Agency's website at www.environment-agency.gov.uk;

the Environment Agency set up a Landfill Regulation Group in April 2005 to develop a common understanding on the way forward for landfill and to act as a forward-looking forum concentrating on practical implementation of the Landfill Regulations and the impact on waste industry and the Environment Agency.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate her Department has made of the tonnage of hazardous waste that has been fly-tipped since 16 July 2004; [3458]

(2) how many incidents of fly-tipping of hazardous waste the Environment Agency's Flycapture data collection system has recorded since 16 July 2004; [3459]

(3) what estimate she has made of the tonnage of hazardous waste fly-tipped on private land since 16 July 2004 which has not been recorded by the Environment Agency's Flycapture data system. [3461]

Mr. Bradshaw: The national Flycapture database, established in April 2004, collates summary data of incidents of fly-tipping dealt with by waste collection authorities and the Environment Agency.

Flycapture does not record data specifically on hazardous fly-tips as it is broken down by other waste types. The system does not record specific tonnages. No national data are collected on tonnages of illegally dumped hazardous waste on private land.

Overall, the Environment Agency report that there has been no significant increase in fly-tipping of hazardous waste since July 2004, although there have been incidents of fly-tipping of asbestos in two regions, and these have been followed up as appropriate.

The following table sets out the number of reported incidents dealt with by waste collection authorities and the Environment Agency in England for each month from July 2004 to April 2005, as recorded on Flycapture.

Month	*Asbestos*	*Chemical drums/oil/fuel*	*Total*
July 2004	256	256	512
August 2004	242	473	715
September 2004	283	267	550
October 2004	299	311	610
November 2004	275	388	663
December 2004	193	298	491
January 2005	265	336	601
February 2005	327	674	1,001
March 2005	259	438	697
April 2005	276	385	661
Total	2,675	3,826	6,501

Note:
Hazardous waste is not a specified waste type within Flycapture so the figures provided indicate those waste streams which may include hazardous waste. It is also important to note that Flycapture is a relatively new system and data returns have been increasing as usage of the system improves.

National Enforcement Database

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions resulted in *(a)* convictions and *(b)* custodial sentences in each year since 1 May 1997 for offences related to (i) water resources, (ii) flood defences, (iii) fisheries, (iv) navigation, (v) process industry regulation, (vi) radioactive substances, (vii) waste and (viii) water quality as recorded in the national enforcement database; and what the average fines were where custodial sentences were awarded (A) in total and (B) broken down by region. [4602]

Mr. Morley: The information requested is provided in the following tables. The figures commence in April of 1999 because that is when national enforcement statistics were first recorded on the national enforcement database.

As regards what the average fines were where custodial sentences were awarded: fines and custodial sentences are not awarded against the same offence but are, in fact, mutually exclusive. It has therefore not been possible to provide any data in answer to this.

	1999 (from 1 April)		*2000*	
	Convictions	*Custodial*	*Convictions*	*Custodial*
Water resources	0	0	21	0
Flood Defence	4	0	1	0
Fisheries	0	0	29	0
Navigation	3	0	6	0

Waste	429	7	450	7	209	1
Water quality	175	0	187	1	91	0

National Fruit Collection Contract

Hugh Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 6 June 2005, *Official Report*, column 259W, on the National Fruit Collection, whether it is the Department's intention to advertise the contract on the open market once the two-year contract has expired on 31 March 2007. [3287]

Mr. Bradshaw *[holding answer 13 June 2005]:* Defra's contract with the Brogdale Horticultural Trust for the maintenance of the National Fruit Collections (NFC) runs until 31 March 2007. Defra is currently undertaking a strategic review of the future of the National Fruit Collections which is expected to report later this year. In the meantime we have no plans to put the work to open competition.

Oil Spills

Janet Anderson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will introduce a requirement for an annual inspection of domestic oil tanks to check the risk of oil spills. [4252]

Mr. Morley: I understand that a voluntary Tank Safety Scheme is under development by the Federation of Petroleum Suppliers and the Oil Firing Technical Association (Oftec), with support from the Environment Agency. This will combine the regular observations made by delivery drivers with the expertise of specialist registered technicians. Before considering the need for enforcement and statutory measures, this voluntary initiative needs to be given time to demonstrate that it can be effective.

Recycling

Anne Milton: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding *(a)* councils in England, *(b)* Guildford borough council and *(c)* Waverley borough council have received to support recycling in each year since 1997. [3380]

Mr. Bradshaw: The main source of funding for local authorities' waste management services is the Environmental, Protective and Cultural Services (EPCS) block of annual Government grant. It is for the local authorities to decide what proportion of the block is invested in waste management services, including recycling.

Funding is also being provided from a variety of other sources to help authorities improve recycling rates. The Waste Minimisation and Recycling (Challenge) Fund has made available funding totalling £275 million over the four years from 2002–03 to 2005–06 for specific projects to expand recycling operations.

Through the Private Finance Initiative (PFI), credits worth £355 million have been made available over the same period as an extra source of funding, with a further £535 million available in 2006–07 and 2007–08.

In January 2004 the Minister for Climate Change and the Environment announced that a further £20 million would be given to local authorities with responsibility for waste in England to reduce spending pressures in 2004–05.

In December 2004 the Government announced a targeted local authority Waste Performance and Efficiency Grant totalling £260 million over the three years between 2005–6 and 2007–08. A full list of allocations to each authority in England in 2005–06 is available on the Defra website. Authorities will receive further allocations in 2006–07 and 2007–08.

The amounts received by Guildford and Waverley borough councils from Defra funds to support recycling are shown in the following tables:

A: Waverley borough council

£

	2002–03	2003–04	2004–05	2005–06
National Waste Minimisation and Recycling Fund	101,970	229,809	—	—
Grant to relieve spending pressures in the waste area	—	—	47,117	—
Waste Performance and Efficiency Grant	—	—	—	41,055

B: Guildford borough council

£

	2002–03	2003–04	2004–05	2005–06
National Waste Minimisation and Recycling Fund	—	182,775	191,505	—
Grant to relieve spending pressures in the waste area	—	—	30,780	—
Waste Performance and Efficiency Grant	—	—	—	46,648

Snaring

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what action she is taking to promote *(a)* best practice and *(b)* observance of the law in relation to snaring. [4836]

Jim Knight: The Government support the legal use of snares and are committed to improving standards. An informal consultation on snares and traps and their use under UK legislation was carried out in 2003. One of the outcomes of the consultation was the convening of an independent snares working group. The aim of the working group is to agree good practice guidelines, produce a code of practice and advise DEFRA on any further work which needs to be undertaken to further improve the correct use of snares. The group is due to report by the autumn.

The illegal use of snares is irresponsible and can have a serious impact on the welfare of individual animals. If anyone suspects that snares are being used illegally they should report the matter to the police.

SSSIs

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs in what condition each site of special scientific interest (SSSI) has been in each year since 1997; and what the total land areas of SSSIs was in each category *(a)* in England and *(b)* broken down by (i) region and (ii) location in each year. [4453]

Jim Knight: Under the Joint Nature Conservation Committee's Common Standards for Monitoring, SSSI condition is assessed only on a six year cycle. In England, the first cycle, completed in March 2003, showed 56.9 per cent. in favourable or recovering condition, from a total area of 1,051,498 hectares. Full results for December 2003 were published by English Nature in "The Condition of Sites of Special Scientific Interest in England in 2003".

According to the latest assessment carried out on each unit of SSSI land by 31 March 2004, 62.8 per cent. from a total of 1,076,704 hectares of SSSI land was in favourable or recovering condition at that time. The equivalent figure for 31 March 2005 was 67.4 per cent. from a total area of 1,072,538 hectares.

Information on the current condition of each SSSI in England and a summary of SSSI condition in each Government region is available on the English Nature website at www.English-Nature.org.uk.

Thames Barrier

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the occasions on which the Thames Barrier has been closed in each year since its inception; and what estimate she has made of the number of occasions when it will be closed in *(a)* 2010, *(b)* 2020, *(c)* 2050 and *(d)* 2100. [4600]

Mr. Morley: The Thames Barrier is closed to protect London from high water levels in the River Thames. These high water levels result from tidal surge conditions in combination with high freshwater flows following rainfall over the Thames catchment. The Barrier closures may be characterised as predominantly tidal-influenced (T) or predominantly rainfall/fluvial-influenced (F). Since inception, the Thames Barrier has been closed to prevent flooding during the winter flood season (generally October to April) on 92 occasions as follows:

	Tidal	Fluvial	Total
1982–83	1	0	1
1983–84	0	0	0
1984–85	0	0	0
1985–86	0	1	1
1986–87	1	0	1
1987–88	0	0	0
1988–89	1	0	1
1989–90	1	3	4
1990–91	1	0	1
1991–92	1	0	1
1992–93	4	0	4
1993–94	3	4	7
1999–95	2	2	4
1995–96	4	0	4
1996–97	1	0	1
1997–98	1	0	1
1998–99	2	0	2
1999–00	3	3	6
2000–01	16	8	24
2001–02	3	1	4
2002–03	8	12	20
2003–04	1	0	1
2004–05	3	0	3
2005–06 (to date)	1	0	1

Forecasting the frequency of future closures of the Thames Barrier depends on two principal factors:

(a) The impacts of climate change on sea and river levels based on the climate change scenarios currently available; and

(b) The extent to which these levels may be reduced by other flood risk management measures used within the Thames Estuary in conjunction with operation of the Thames Barrier.

Depending on the balance of factors described above, The Environment Agency's early studies indicate that the estimated frequency of closures will be as follows.

2010: 10—20 closures per year
2020: 20—35 closures per year
2050: 6*—75 closures per year
2100: 30*—325 closures per year

The lower figure for each year indicates the best predicted outcome based on lowest climate change scenario impacts and maximum use of flood management mitigation measures implemented from 2030 (shown by *). The higher figure for each year indicates the worst potential outcome based on maximum climate change predicted impacts with no additional flood management mitigation measures implemented from 2030.

The Environment Agency is currently planning for the future of flood risk management within the Thames Estuary. For this purpose, it has established a project called Thames Estuary 2100 based at the Thames Barrier. The purpose of the project is to produce a flood risk management plan for the tidal part of the Thames Estuary covering the next 100 years.

Trees

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the percentage tree cover in each EU member state was *(a)* on the latest date for which figures are available, *(b)* 10 years ago and *(c)* 20 years ago. [4444]

Jim Knight: Based on information collected by the United Nations Food and Agriculture Organisation forest as a percentage of land area is given in the table as follows.

Country	*2000*[1]	*1990*[1]	*1980*[2]
Austria	47	46	45
Belgium/Luxembourg	22	23	23
Denmark	11	10	11
Finland	72	72	76
France	28	27	28
Germany	31	31	29
Greece	28	26	45
Ireland	10	7	6
Italy	34	33	27
Netherlands	11	11	10
Portugal	40	34	35
Spain	29	27	25
Sweden	66	66	68
United Kingdom	12	11	9

[1] FAO Global Forest Resources Assessment 2000. Definitions of forest can vary between countries and over time.
[2] FAO The Forest Resources of the ECE Region, published 1985. The years covered vary between countries, although most are around 1980. Definitions of forest can vary between countries.

The next international compilation will be the United Nations Food and Agriculture Organisation's Forest Resource Assessment 2005, which is expected to be published in the autumn.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps *(a)* have been taken and *(b)* are planned to improve tree health. [4445]

Jim Knight: The need to maintain, and improve where necessary, the health and vitality of trees is integral to the Government's approach to sustainable forest management. We have set this out in the UK Forestry Standard and its supporting literature, which contain many specific measures for protecting woodland and improving tree health. All woodland management by the Forestry Commission is consistent with this standard and we expect private woodland owners that receive grant aid from the Forestry Commission to also meet the standard. The Government have encouraged the development of the voluntary UK Woodland Assurance Standard that provides an independent verification of compliance with good practice and measures to ensure the continuing good health of woodland. We shall continue to ensure compliance with the UK Forest Standard in those woods managed by the Forestry Commission and encourage it in the private sector.

We will also continue to improve, through research, our knowledge of factors affecting tree health and we shall maintain a vigilant guard against the establishment of non-native pests and diseases. For example, there is a determined effort, led by the Department for Environment, Food and Rural Affairs and the Forestry Commission, to contain and eradicate the diseases of trees and shrubs caused by the pathogens Phytophthora ramorum and Phytophthora kernoviae.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the total *(a)* area and *(b)* production in cubic metres of (i) broadleaf and (ii) coniferous woodland in England has been in each year since 1980, broken down by region. [4446]

Jim Knight: A national woodland survey is carried out by the Forestry Commission at intervals of between 15 and 20 years. Comparative areas of woodland[1] in 1980 and 1998 were published in the latest National Inventory of Woodland and Trees, Regional Inventory reports. The figures are given in the table as follows.

	1980[2] *thousand hectares*		*1998*[3] *thousand hectares*	
Region	*Broadleaves*	*Conifers*	*Broadleaves*	*Conifers*
North-East	16.2	73.3	24.5	69.2
North-West	33.0	39.4	46.7	39.8
Yorkshire and the Humber	39.0	37.4	46.1	35.4
East Midlands	37.8	21.6	52.9	17.9
West Midlands	44.1	28.3	63.1	25.7
East of England	59.4	40.7	90.2	37.5
London	5.4	0.3	5.5	0.2
South East	138.2	59.1	173.6	52.4
South West	95.7	63.8	137.4	60.8
Total England	468.8	363.9	640.0	338.9

[1] Excluding open space, coppice and felled areas awaiting replanting.
[2] 1980 Census of Woodland
[3] National Inventory of Woodland and Trees—Regional Inventory Reports. Reference dates varied by region 1995 to 1999.
Notes:
1. Differences in sampling methodology between 1980 and 1998 may account for some of the differences.
2. In the 1980 Census the area assigned to broadleaves and conifers included any associated open space such as roads and rides. In the 1998 Inventory open spaces are separately identified and to obtain meaningful comparison between the two datasets the 1980 Census data has been reduced by the percentage of open space identified in the 1998 Inventory (Nationally 6.5 per cent.).

Timber production is not recorded by region and the estimate for total England production is given in the table as follows.

	Removals in million cubic metres overbark standing[1]	
	Hardwoods (from broadleafed trees)	*Softwood (from conifer trees)*
1980	1.2	1.3
1981	1.2	1.3
1982	1.0	1.4
1983	0.8	1.4
1984	0.8	1.5
1985	0.9	1.5
1986	0.9	1.7
1987	0.8	1.9
1988	1.1	2.3
1989	1.2	2.5
1990	1.1	2.5
1991	1.1	2.5
1992	0.8	2.6
1993	0.7	2.3
1994	0.8	2.6
1995	0.9	2.5
1996	0.8	2.4
1997	0.8	2.2
1998	0.7	2.1
1999	0.7	2.2
2000	0.6	2.1
2001	0.6	2.0
2002	0.6	1.8
2003	0.5	2.1
2004[2]	0.5	2.4

[1] Based on figures published in Forestry Facts and Figures for 1980–94, adjusted to consistent definition. Later figures for private sector removals estimated from a GB survey for 2000–04 and interpolated.
[2] Figures for 2004 are currently provisional.

Waste Education

Mrs. Dean: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to allocate a proportion of landfill tax revenue to waste education based work in schools. [4426]

Mr. Bradshaw: I refer my hon. Friend to the answer given to the hon. Member for Stoke-on-Trent North (Joan Walley) on 2 February 2005, *Official Report*, column 896W.

Water/Sewerage Services

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the average monthly cost to consumers is of *(a)* water services and *(b)* sewerage services in each water supply area in 2004–05 (i) in total and (ii) broken down by those who were (A) metered and (B) unmetered. [4455]

Mr. Morley: The average monthly cost to households of water and sewerage services is set out in the following tables, broken down by company area and by measured and unmeasured supply.

2004–05

Water and sewerage companies	*Unmeasured water*	*Measured water*	*Total water*	*Unmeasured sewerage*	*Measured sewerage*	*Total sewerage*
Anglian	11.65	8.42	9.91	16.38	11.65	13.84

Yorkshire (incl. York)	21.28	17.63	20.3

Mr. Davey: To ask the Secretary of State for Environment, Food and Rural Affairs what the volume of sewage discharges from each sewage treatment works in South West London was in each of the last 10 years. [3164]

Mr. Morley: Information for most of the requested years is either incomplete, or not readily available without disproportionate effort in the available time. Readily available information is presented in the following table, where sewage works in South West London are taken to be those listed. Information for 2002 is not included as it is incomplete.

Treated sewage effluent from South West London sewage treatment works for years indicated in millions m³

Sewage works	*2001*	*2003*	*2004*[1]
Mogden	220	225	197
Esher	15.8	13.5	13.4
Hogsmill A	33.5	26.9	27.6
Hogsmill B	6.9	7	6.4
Total[2]	276	272	244

[1] Includes estimated data.

[2] Rounded.

Mr. Davey: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance her Department has given to water companies and sewage service providers to ensure that their sewage treatment works meet the criteria of the EU 1991 Urban Waste and Water Treatment Directive. [3165]

Mr. Morley: In England the Urban Waste Water Treatment Directive is transposed by the Urban Waste Water Treatment (England and Wales) Regulations 1994.

Guidance to the regulations, titled "Urban Waste Water Treatment (England and Wales) Regulations 1994, Working Document for Dischargers and Regulators, A Guidance Note" was issued to sewerage undertakers and the Environment Agency in 1997.

Mr. Davey: To ask the Secretary of State for Environment, Food and Rural Affairs what penalties there are for *(a)* water companies and *(b)* sewage service providers who fail to meet the EU 1991 Urban Waste and Water Treatment Directive. [3166]

Mr. Morley: Regulation 6(2) of the Urban Waste Water Treatment (England and Wales) Regulations 1994, places a duty on the Environment Agency to ensure, through its discharge consenting powers under schedule 10 of the Water Resources Act 1991, as amended by the Environment Act 1995, that treatment standards set in the regulations are met. Where the Environment Agency considers sewerage undertakers are in breach of their consents it can undertake legal proceedings. Courts finding in favour of the Environment Agency can then levy fines.

Sewerage undertakers also have a duty under section 94 of the Water Industry Act 1991 to provide sewage collecting systems, which is supplemented by Regulation 4 of the above-mentioned regulations. The Water Act 2003 also gives Ofwat, the Secretary of State and the National Assembly for Wales powers to impose financial penalties in certain circumstances. The approach is included in the 'Statement of policy with respect to financial penalties' which is on Ofwat's website, www.ofwat.gov.uk

Mr. Davey: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of sewage service providers who are failing to meet the EU 1991 Urban Waste and Water Treatment Directive in *(a)* London and *(b)* England; and if she will make a statement. [3167]

Mr. Morley: It is the role of the Environment Agency to monitor and enforce the requirements of environmental legislation.

Each year the Environment Agency advises Ofwat of water companies' compliance with Urban Waste Water Treatment Directive requirements contained in discharge consents. Ofwat publishes summary information in its "Levels of Service for the water industry in England and Wales" annual reports available on its website.

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she is taking to ensure that there are adequate numbers of disposal points at sewage treatment works for delivered waste from domestic cess pools. [3737]

Mr. Morley: It is the responsibility of the users of cess pools and septic tanks to arrange the lawful disposal of waste from them. Services for the collection, transport and treatment of such waste are open to competition, and are offered by sewerage companies and by other firms. Neither Ministers nor Ofwat have intervened to require companies to provide such services.

TREASURY

Bankruptcy and Repossession

Dr. Cable: To ask the Chancellor of the Exchequer how many *(a)* individuals have entered into bankruptcy and *(b)* properties have been repossessed in each quarter since 1990; and if he will make a statement. [4532]

John Healey: The requested data is in the following tables. Data on individual bankruptcies is published by the Department for Trade and Industry, while data on repossessions is published by the Council of Mortgage Lenders.

Repossession figures are only available on a biannual rather than on a quarterly basis. Property repossessions are close to record lows as interest rates remain around their lowest levels for almost half a century. The Treasury has worked closely with the Department for Trade and Industry and the Office of the Deputy Prime Minister on the recent consumer credit bill, which sets out policy on tackling over-indebtedness, financial exclusion, unfair lending practices and loan sharks; and on the quality and quantity of information available to consumers looking for credit.

Civil Servants

Dr. Cable: To ask the Chancellor of the Exchequer what value for money procurement savings were identified and what reduction in civil service posts occurred in his Department in 2004–05. [4547]

John Healey: HM Revenue and Customs' figure for value for money procurement savings for 2004–05 is due to be audited and submitted to the Office of Government Commerce at the end of July. During 2004–05, HMRC delivered a total net full time equivalent reduction of 1,045 posts.

The Treasury's target for efficiency savings over the Spending Review 2004 period includes the delivery of £1 million of efficiencies by 2007–08 through improvements to the Treasury's procurement strategy. The plans to achieve this target include securing economies of scale through sharing of services with HMRC and maximising income opportunities through sub-letting of the building. Quantified procurement savings are currently being identified.

During 2004–05 the Treasury has secured efficiencies in working practices and processes which have enabled it to make good early progress on its full time equivalent post reduction target. By April 2005 efficiencies had been secured leading to a reduction in 100 full time equivalent posts. Both the HMRC and Treasury reductions in posts are adjusted for the 150 tax policy posts that transferred from HMRC to the Treasury during 2004–05.

Council Tax

Mrs. Spelman: To ask the Chancellor of the Exchequer what the revenue from council tax in England has been in each year since 1997–98. [4618]

Mr. Woolas: I have been asked to reply.

Accrued council tax income (net collectable debit) in England in the years 1997–98 to 2004–05 are available in Local Government Financial Statistics England No 15

2004. Outturn figures for 2004–05 will be published in an Office of the Deputy Prime Minister statistical release on 23 June.

False National Insurance Records

John Hemming: To ask the Chancellor of the Exchequer how many false national insurance records have been found in each year since 2000. [4896]

Dawn Primarolo: I refer the hon. Member to the answer I gave him on 6 June 2005, *Official Report*, column 294W.

Hepatitis C (Burton)

Mrs. Dean: To ask the Chancellor of the Exchequer how many deaths were caused by hepatitis C infection in Burton constituency in *(a)* 2003 and *(b)* 2004. [4427]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mrs. Janet Dean, dated 16 June 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking how many deaths were caused by hepatitis C infection in Burton Constituency in *(a)* 2003 and *(b)* 2004. I am replying in his absence. (4427)

Information on cause of death is available from death certificates. This information relates to where hepatitis C was either the underlying cause of death (i.e. the disease or condition that initiates the train of morbid events leading directly to death) or was mentioned on the death certificate as contributing to this sequence of events leading to death.

Information is not recorded at death if the certifying doctor did not know about the existence of a hepatitis C infection (which may have been contracted many years earlier), or where hepatitis C infection was not considered to be one of the factors contributing to the death.

There were no deaths of usual residents of Burton constituency registered in 2003 or 2004 where hepatitis C was the underlying cause of death. There was one death registered in 2003 where hepatitis C was mentioned on the death certificate.[1]

[1] Deaths were selected from the original causes of death recorded in the register. The following International Classification of Diseases, Tenth Revision (ICD-10) codes were used for selection:

ICD-10 B17.1—Acute hepatitis C

ICD-10B18.2—Chronic viral hepatitis C

House Prices

Dr. Cable: To ask the Chancellor of the Exchequer what estimate he has made of the effect on house prices of the Government's shared equity proposals; and if he will make a statement. [4537]

John Healey: This is a targeted measure that is expected to help up to 110,000 homebuyers over the next five years. While this is a substantial boost for first time buyers it needs to be considered in the context of the measures the Government is taking to increase housing supply, with 200,000 new homes expected to be built in this year alone and similar levels of home building in future years, and which are on top of a housing stock of some 26 million homes. With supply increasing far faster than the provision of these shared equity schemes, and this being on top of a total housing stock that dwarfs the number of homes that will be bought through shared equity schemes, we believe the effect on house prices in general will not be significant.

What really matters for the majority of homebuyers in terms of house prices is low and stable interest rates which this Government's monetary policy framework—in particular the independence of the Monetary Policy Committee—is delivering, alongside increasing housing supply, helped by a series of supply side reforms, including on planning.

Income Tax

Mr. Sanders: To ask the Chancellor of the Exchequer how many people he estimates did not pay income tax in 2004–05. [2839]

Dawn Primarolo: The number of people who did not pay income tax in 2004–05 can be estimated from the difference between the current projections of the UK's population and the projections of the number of income taxpayers. Information on the estimated number of income taxpayers in 2004–05 is available in table 2.1 'Number of individual income taxpayers' on the HM Revenue and Customs internet website at http://www.hmrc.gov.uk/stats/income_tax/table2-1.pdf

Population projections are prepared by the Government Actuary's Department and the UK projected population estimates can be found on the following link http://www.gad.gov.uk/Population/2003/uk/wuk03singyear.xls

Internet Use

Dr. Cable: To ask the Chancellor of the Exchequer if he will set out the Department's policy on the private use by staff of the internet and how it is monitored. [4528]

John Healey: Treasury staff are allowed to make reasonable private use of the internet for browsing and e-mail, but any deliberate access to, or sending of, inappropriate material is treated as a serious disciplinary offence.

Filtering software is used on the Department's firewalls to block access to most websites that contain inappropriate material, and to prevent similar material from entering the Treasury via e-mail. All internet activity, both for web browsing and e-mail is logged automatically on Treasury IT systems and can therefore be examined if any misuse is suspected.

Primary School Children (Tamworth)

Mr. Jenkins: To ask the Chancellor of the Exchequer how many primary school age children there are expected to be in Tamworth in each of the next five academic years. [4940]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Brian Jenkins, dated 16 June 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question concerning the number of primary school age children there are predicted to be in Tamworth for the next five academic years. I am replying in his absence. (4940)

Official 2003-based Subnational Population Projections for England were published by the Office for National Statistics in November 2004. The attached table shows the projected mid-year population of 5 to 11-year-olds for Tamworth taken from these projections.

Tamworth projected population of primary[1] school age children

	Thousand
2005	6.9
2006	6.8
2007	6.7
2008	6.6
2009	6.4
2010	6.3

[1] Primary school age defined as 5 to 11-year-olds

ONS 2003-based Subnational population projections http://www.statistics.gov.uk/STATBASE/Product.asp?vlnk=997

Private Finance Initiative

Dr. Cable: To ask the Chancellor of the Exchequer what studies his Department has *(a)* undertaken, *(b)* commissioned and *(c)* reviewed on the efficiency of private finance initiative; and if he will make a statement. [4530]

John Healey: HM Treasury assumed responsibility for PFI policy in April 2003. In July 2003 the Treasury published the document "PFI: Meeting the Investment Challenge" (available on the HM Treasury website). This distilled the findings of a number of studies into PFI that were either undertaken or reviewed by HM Treasury. References for these studies are included within the document. HM Treasury have a framework agreement in place with Partnerships UK under which it commissions work on a variety of PFI subjects on an ad hoc basis. The Treasury also takes account of the findings from NAO and PAC reports on PFI as they are published.

Revenue and Customs

Mr. Swire: To ask the Chancellor of the Exchequer whether HM Revenue and Customs has an obligation properly to check full and accurate information submitted by a taxpayer on or before 30 September before calculating the taxpayer's liability. [3933]

Dawn Primarolo: It is the responsibility of the person submitting the Self Assessment Return to ensure that it is, to the best of their knowledge, correct and complete. Obvious errors and mistakes are corrected. However there is no obligation on HM Revenue and Customs to check the information contained in any Self Assessment return before calculating the liability.

Mr. Swire: To ask the Chancellor of the Exchequer whether HM Revenue and Customs, in calculating a taxpayer's liability when it receives a tax return by 30 September, is only able to check that taxpayer's return for obvious mistakes by opening an enquiry under the Taxes Acts. [3934]

Dawn Primarolo: The legislation governing the operation of self-assessment allows HM Revenue and Customs to correct any obvious errors or mistakes on a self-assessment tax return for a period of up to nine months after the date of receipt without the need to open an enquiry.

Tax Benefit Manual

Dr. Cable: To ask the Chancellor of the Exchequer if he will make available the latest Tax Benefit Manual and a copy of the summary minutes from recent Treasury Management Board meetings. [4536]

John Healey: The 2004–05 edition of the Tax Benefit Reference Manual is available in the House of Commons Library.

The minutes of Treasury Board meetings are not routinely disclosed as to do so would harm the frankness and candour of internal discussion.

Tax Credit (Overpayments)

Lynne Featherstone: To ask the Chancellor of the Exchequer how many non-pensioner families in *(a)* the London borough of Haringey and *(b)* Hornsey and Wood Green constituency were recipients of tax credits in each of the last three years; how many have been identified as having received overpayments; and if he will make a statement. [4800]

Dawn Primarolo: I refer the hon. Member to my reply on 7 June 2005, *Official Report*, column 468W to the hon. Member for Birmingham, Selly Oak (Mrs. Jones).

Mr. Clappison: To ask the Chancellor of the Exchequer how many recipients of tax credits are being pursued for repayments as a result of overpayment of tax credits in *(a)* Hertsmere and *(b)* Hertfordshire. [4848]

Dawn Primarolo: HMRC has published statistics that show estimates of the number of 2003–04 awards to families that were overpaid in each region, local authority and constituency at 5 April 2004, after finalisation. The estimates are based on samples and are subject to significant sampling uncertainty. The publication can be found on the HMRC website at: http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-pyts_geog0304.pdf

Details of how overpayments are recovered are provided in the Department's Code of Practice 26 "What happens if we have paid you too much tax credit."

Winter Fuel Allowance

Mrs. Iris Robinson: To ask the Chancellor of the Exchequer if he will increase the amount of the pensioners' fuel allowance in line with changes in oil prices. [4574]

Mr. Timms: I have been asked to reply.

We have no such plans. The payment has risen from £20 in winter 1997–98 to £200 from winter 2000–01. It is a significant contribution towards fuel costs but is not intended to cover the full cost of fuel bills.

PRIME MINISTER

Defence Systems and Equipment

Jeremy Corbyn: To ask the Prime Minister if he will be attending the Defence Systems and Equipment International Exhibition in September. [3944]

The Prime Minister: No.

Nuclear Inventories (Missing Material)

Harry Cohen: To ask the Prime Minister what assessment he has made of the amounts of material missing from nuclear inventories which could be used in construction of a weapon in *(a)* the UK, *(b)* other NATO member states, *(c)* other countries with nuclear weapons and *(d)* other states with nuclear power; and if he will make a statement. [3110]

Malcolm Wicks: I have been asked to reply.

The Office for Civil Nuclear Security (OCNS), which regulates the security of nuclear material held by the UK civil nuclear industry, has recorded no theft of nuclear material from the industry. MOD is responsible for the security of the UK's inventory of non-civil nuclear material and there is no recorded theft of such material. Internationally, the security measures to prevent, and provide early warning of, the possible theft of nuclear material (e.g. by 'non-state actors') are a matter for the individual states concerned.

In addition, nuclear safeguards provide assurance that states (or nuclear facility operators on their behalf) do not divert nuclear material from declared peaceful uses. Euratom treaty safeguards are applied to all civil nuclear material in the UK and the European Commission's most recent report on its application of these safeguards concluded there were no indications that civil nuclear material in the EU (including UK and EU members of NATO) had been diverted from its declared uses http://europa.eu.int/comm/energy/nuclear/legislation/doc/2005_01_07_COM_2004_861_en.pdf.

So far as the application of international safeguards to inventories of nuclear material outside the UK are concerned, in addition to the Euratom treaty safeguards conclusions mentioned above, the definitive source is the International Atomic Energy Agency (IAEA), whose safeguards conclusions are published at the IAEA website http://www.iaea.org/OurWork/SV/Safeguards/es2003.html. However, such IAEA safeguards do not apply to all nuclear material in nuclear-weapon states nor to all material in states which are not party to the treaty on the non-proliferation of nuclear weapons (the NPT).

Prime Minister

Mr. Allen: To ask the Prime Minister what the procedure is for the selection of a new Prime Minister in the event of an incumbent retiring before a General Election; and if he will review the procedure. [3343]

The Prime Minister: Her Majesty the Queen appoints the Prime Minister, but the procedure for selecting a new Party Leader would be a matter for the political party concerned.

EDUCATION AND SKILLS

School Meals

10. **Jeff Ennis:** To ask the Secretary of State for Education and Skills what steps she is taking to assist in improving school meals by providing additional training for catering staff. [4751]

Jacqui Smith: Together with the Food Standards Agency and People 1st, we have developed a Vocationally Related Qualification (VRQ) at Level 1 in Healthier Catering, which will give school cooks and caterers the knowledge and skills to deliver a healthier meals service. We are also working with our external partners to review and build on other qualifications that are currently available to ensure we have a ladder of qualifications to meet the skills needs of all catering staff.

15. **Mr. Hollobone:** To ask the Secretary of State for Education and Skills if she will receive a deputation of school children from Millbrook Junior School in Kettering to discuss provision of healthier food in schools. [4758]

Maria Eagle: I would be happy to meet a deputation of children from Millbrook Junior School.

Helen Jones: To ask the Secretary of State for Education and Skills what discussions she has had on improving the skills of those who work in school kitchens; and whether she intends to issue guidance to local authorities on this matter. [4771]

Jacqui Smith: My officials have had discussions with a wide range of bodies including the People 1st (the Sector Skills Council for the hospitality, leisure, travel and tourism industries), the Food Standards Agency (FSA), the Teacher Training Agency, the Learning and Skills Council and the Qualifications and Curriculum Authority. We have no current plans to issue guidance to local authorities but, as my hon. Friend the Parliamentary Under-Secretary of State for children and families in her response to an adjournment debate on 23 May 2005, *Official Report*, column 535, said, we strongly encourage schools and LEAs to consider releasing support staff, as many already do, to attend training and development, especially where it is job related.

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to her answer of 7 June 2005, *Official Report*, column 477W, on school meals, whether she plans to develop a level 2 qualification. [5016]

Jacqui Smith: There are currently a range of catering qualifications available at levels 2 and 3. We are currently working with People 1st, the Food Standards Agency, the Teacher Training Agency, the LSC and the QCA to review and build on the qualifications that are available to ensure we have a ladder of qualifications, which includes information on nutritional standards where appropriate, and will meet the skills needs of all catering staff.

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to her answer of 7 June 2005, *Official Report*, column 477W, on school meals, (1) what

procedures are in place to monitor whether she needs to use her statutory powers to issue a directive to a school that is failing to meet current nutritional standards; [5017]

(2) how many directions she has issued to schools that have failed to meet the current nutritional standard, in each year since the current nutritional standards came into force. [5019]

Jacqui Smith: Local authorities or, where the budget for school lunches is delegated to them, school governing bodies have a duty to ensure that school lunch nutritional standards are being met. We are developing monitoring arrangements in support of our drive to improve school meals.

Support for healthy eating will be one aspect of children's services joint area reviews at local authority level.

Ofsted will, from September, inspect and report on schools' contribution to the 'being healthy' aspect of pupil well-being. School meals will be considered as part of this.

A separate sample survey linked to the proposed new standards is planned for the autumn.

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 June 2005, *Official Report*, column 478W, on school meals, what the annual budget is of *(a)* the School Food Trust and *(b)* the School Meals Review Panel: [5020]

Jacqui Smith: As I have previously announced, the School Food Trust will receive an annual budget of £5 million over the next three years. The School Meals Review Panel is an advisory group and does not have a fixed budget, although members of the panel are reimbursed for their expenditure on travel and subsistence when attending meetings.

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 June 2005, *Official Report*, column 477W, on school meals, when the school meals review panel will begin the examination of other food and drink sold on school premises. [5022]

Jacqui Smith: The top priority for the school meals review panel is to consider how to tighten nutritional standards that apply to school lunches as, for many children, this is often the main meal of the day.

However, the panel will also consider whether and how these standards might be applied to other aspects of food and drink in schools.

Private Schools (Charitable Status)

11. **Colin Challen:** To ask the Secretary of State for Education and Skills if she will take steps to remove the charitable status of private schools. [4752]

Jacqui Smith: My right hon. Friend the Home Secretary is responsible for the law on charitable status. Under the Charities Bill an organisation qualifies for charitable status only if it has a charitable purpose—such as advancement of education—and is for the public benefit. The Charity Commission, the independent regulator, will review the public benefit credentials of fee-charging charities, including independent schools. Any that are not for the public benefit face loss of charitable status.

Sure Start

12. **Sir Peter Soulsby:** To ask the Secretary of State for Education and Skills how many children are participating in the Sure Start programme. [4755]

Beverley Hughes: During March 2005, nationally across all Sure Start local programmes, 79,356 children were seen. Our expectations have been that programmes will see between a quarter and a third of the children in their area per month so these figures are broadly in line with expectations. Over the course of a year we expect that all families with young children will have some contact with their local Sure Start programme.

Reading (Teaching Methods)

13. **John Bercow:** To ask the Secretary of State for Education and Skills if she will make a statement on her plans to review the methods of teaching reading. [4756]

Jacqui Smith: Primary schools, supported by the National Literacy Strategy, have the highest standards of literacy ever. The Strategy has evolved to take account of the latest developments, and the time is right to renew the literacy framework, to build on this success. To inform this work, I have appointed Jim Rose to review best practice in the teaching of early reading, including synthetic phonics, and the range of provision to support children with significant literacy difficulties.

Prisons (Literacy)

14. **Mark Pritchard:** To ask the Secretary of State for Education and Skills if she will make a statement on literacy in prisons. [4757]

Phil Hope: The Government gives a high priority to improving offenders' literacy skills. During 2004–5, offenders in custody achieved almost 30,000 nationally accredited literacy qualifications—a major contribution to the Government's targets for improving basic skills.

School Funding (Bournemouth)

16. **Mr. Ellwood:** To ask the Secretary of State for Education and Skills if she will make a statement on school funding in Bournemouth. [4759]

Jacqui Smith: On the latest available figures, funding for pupils aged 3–19 in Bournemouth increased by £750 per pupil in real terms between 1997–98 and 2005–06.

Acts of Parliament (Internet Access)

Mr. Gordon Prentice: To ask the Secretary of State for Education and Skills if she will take steps to make all Acts of Parliament published before 1988 for which her Department is responsible available on-line. [3714]

Jacqui Smith: The Controller of Her Majesty's Stationery Office (HMSO) within the Cabinet Office is the Queen's Printer of Acts of Parliament, and responsible for the publication of Acts of Parliament. HMSO has considered the publication of Acts prior to 1988, which is the earliest date when these were available electronically, but has decided not to do so as many have

been heavily amended and to publish them in their original form would be misleading for many users. The Government are, however, taking forward development of a Statute Law Database which will contain the fully revised and updated text of all legislation from 1275. It is expected that this will be made available to the general public during 2006.

Attainment Seminar

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will list those invited to attend the seminar on international studies of attainment on 4 July. [779]

Bill Rammell: The following individuals, representing a range of interests and expertise in international comparisons studies of attainment have been invited, together with appropriate DFES officials, to attend a seminar on this subject scheduled for 4 July 2005:

Mr. John Bangs, National Union of Teachers

Dr. Jenny Bradshaw, National Foundation for Educational Research

Professor Margaret Brown, King's College London

Mr. Richard Browne, Qualifications and Curriculum Authority

Dr. Siobhan Carey, Department for International Development

Dr. Jude Cosgrove, St. Patrick's College, Drumconora

Mr. Keith Davies, Welsh Assembly Government

Mr. Steve Doo, Professional Association of Teachers

Mr. John Dunford, Secondary Heads Association

Dr. Tony Gardiner, University of Birmingham

Mr. Chris Girdler, National Association of Headteachers

Professor Harvey Goldstein, Institute of Education, University of London

Professor Stephen Gorard, University of York

Professor John Gray, University of Cambridge

Dr. Rachael Harker, Office for National Statistics

Professor Wynne Harlen, University of Bristol

Dr. Seamus Hegarty, Director of the National Foundation for Educational Research and General Secretary of the International Association for the Evaluation of Educational Achievement

Professor David Hopkins, Institute of Education, University of London

Ms Sue Horner, Qualifications and Curriculum Association

Mr. Martin Johnson, Association of Teachers and Lecturers

Dr. Ivor Johnston, Department of Education, Northern Ireland

Dr. Jo Macdonald, Scottish Executive

Professor John Micklewright, University of Southampton

Professor Peter Mortimore, ex-Institute of Education, University of London

Mr. Darren Northcott, National Association of Schoolmasters Union of Women Teachers

Dr. Tim Gates, Qualifications and Curriculum Authority

Professor Sig Prais, National Institute for Economic and Social Research

Professor David Reynolds, University of Exeter

Ms Melissa Rice, Statistics Commission

Dr. Graham Ruddock, National Foundation for Educational Research

Professor Pam Sammons, University of Nottingham

Dr. Ian Schagen, National Foundation for Educational Research

Dr. Andreas Schleicher, Organisation for Economic Co-operation and Development

Dr. Sylke Schnepf, University of Southampton

Dr. Gerry Shiel, St. Patrick's College, Drumconora

Dr. Patten Smith, British Market Research Bureau

Professor Alan Smithers, University of Buckingham

Dr. Patrick Sturgis, University of Surrey

Dr. Graham Thorpe, University of Glasgow

Dr. Chris Whetton, National Foundation for Educational Research

Dr. Julia Whitburn, National Institute for Economic and Social Research

Bournemouth and Poole FE College

Annette Brooke: To ask the Secretary of State for Education and Skills for what reasons the budget of Bournemouth and Poole College of Further Education for the academic year 2005/06 is being reduced. [741]

Bill Rammell *[holding answer 25 May 2005]:* Funding for further education is increasing and will rise by over £1 billion in 2005/06 compared to 2002/03—almost a 20 per cent. real terms increase over three years. Funding increases for individual colleges will depend on a number of factors including the extent to which college activities align with our key priorities. The Learning and Skills Council (LSC) have not yet confirmed Bournemouth and Poole College's allocation for 2005/06. As the allocation of funding to colleges relates to the LSC's operational responsibilities. I have asked the LSC's Chief Executive, Mark Haysom, to write to the hon. Member with the information requested. A copy of his reply will be placed in the Library.

Letter from Mark Haysom to Annette Brooke, dated 9 June 2005:

I write in response to your recent Parliamentary Question to the Secretary of State for Education and Skills regarding FE funding for Bournemouth and Poole College. Following discussions with colleagues who work with the College, I hope the following will answer your concerns.

Bournemouth and Poole College's Further Education allocation for 2004/05 was £22,684,000. The budget for this year, (2005/06) has been confirmed at £23,134,337—an actual increase on the previous year. Written confirmation of this amount was given to the college on 27 May.

The LSC is aware that some FE institutions are warning of serious cuts in courses for adults, particularly part-time courses, to make ends meet while others talk of the need for staff redundancies. We have always been clear that this funding round was going to be tough and that the whole sector is going to have to make difficult choices.

None of this is due to the LSC cutting FE budgets. In fact we have increased FE funding nationally from £3.5 billion to £4.5 billion from 2001/02 to 2005/06, an increase of 29 per cent. This year we will be increasing national funding by a further £170 million. This increase is reflected across the country with Bournemouth and Poole College seeing an increase of £450,337.

The fact that budgets have increased does not disguise the immense challenges ahead. Public funds are always finite and there will never be enough money to do all that the LSC or the FE colleges would like to do. There are a number of key factors to explain why colleges like Bournemouth and Poole are feeling the funding squeeze. The first is their success in driving up participation and achievement. For example, we now have the highest ever level of 16–18 year olds in education and training. These numbers have to be funded and this has put a strain on budgets, leaving less for other areas and ensuring that money will be tight in the next academic year and beyond.

Funding is also being squeezed because we are concentrating funding on key priorities we have agreed with the Government in the areas of education and training for 16–18 year olds, young people taking Apprenticeships, anyone needing to improve their literacy and numeracy and anyone without a full level 2 qualification. These priorities are vital to delivering the Government's Skills Strategy.

Copies of "The Skills We Need": Our Annual Statement of Priorities, which sets out the key actions for this coming year, were distributed during December 2004 and this was followed by a paper outlining local priorities, several group presentations and one to one meetings with the College. The last of these was held on May 12 to finalise allocations and gave them a week to respond with views.

We recognise this situation will not be easy and we understand that some colleges find it difficult to reduce courses outside our priorities. That is why we believe they can develop additional funding by increasing the fees for those individuals with higher-level qualifications and from employers.

The Skills Strategy clearly emphasised the need for employers and individuals to contribute more in relation to the significant benefits they receive from education and training. That is why following consultation last year, the LSC increased the levels colleges are assumed to charge for courses from 25 per cent. to 27.5 per cent. Raising fees is designed to ensure public funds are concentrated on those people with low or no skills to bring about a better balance between public and private investment in education and training.

In the summer of 2004, I discussed with college principals from all parts of the country the major and urgent issues facing further education. The extensive dialogue was an essential part of the LSC's commitment to work in partnership with FE in a spirit of trust, openness and transparency.

Following this we produced an agenda for change, identifying issues crucial to the transformation of FE to meet the needs of learners and employers. For our part, the LSC made very clear the scale of the challenges that we face together and the transformation agenda that we must pursue in FE to meet those challenges. I will be speaking further about our progress during a second series of regional road shows planned for this summer.

Trish Taylor, Executive Director for Bournemouth, Dorset and Poole plans to keep you updated throughout this year with progress against our priorities for Bournemouth, Dorset and Poole. In the meantime, I hope this letter answers your questions regarding funding for Bournemouth and Poole College.

Bullying

Mr. Hoban: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 June 2005, *Official Report*, column 472W, on bullying, what the *(a)* membership, *(b)* funding for 2005–06, *(c)* terms of reference and *(d)* date of the last meeting of the Change for Children Programme Board are; what work it has commissioned; and how often it has met since it was established. [5052]

Beverley Hughes: The Every Child Matters: Change for Children programme board is an official-level cross-Government programme board chaired by DfES to oversee delivery of the Every Child Matters: Change for Children programme. It reports to the new Cabinet Sub-Committee DA(CP). The programme board has met eight times since it was established and the last meeting was on 24 May 2005. Members are senior officials from key Government Departments and inspectorates and include the Children's Commissioner for England as an independent observer. Meetings are funded from administrative costs from the relevant Government Departments.

Child Care

Keith Vaz: To ask the Secretary of State for Education and Skills what steps she is taking to encourage fathers to become more involved in caring for children. [4721]

Beverley Hughes: Research has shown that fathers play a vital part in children's lives and that they can make a real difference in children's educational, emotional and social development, for both girls and boys. We have introduced a range of measures aimed at supporting fathers in their important role. For example, we have developed materials for schools on working with fathers, including a booklet on "Engaging Fathers" and an "Involving Parents Raising Achievement" toolkit. We have supported, through the Parenting Fund and the Strengthening Families Grant, projects run by organisations in the Voluntary and Community Sector which focus on fathers. We are currently considering what further measures we might put in place to meet the specific needs of fathers, and particularly to encourage them to support their children's development and learning, as we develop our work to support parents more generally.

Education and Skills Funding

Mr. Hoban: To ask the Secretary of State for Education and Skills what reviews her Department has undertaken in the last five years of the way funding for education and skills has been used. [3855]

Maria Eagle: The following reviews of education and skills have been undertaken in the last five years:

Review/consultation—Date of completion	*Aim*
Review of English Speakers of Other Languages (ESOL) Provision—February 2005. *Jointly undertaken with the Learning and Skills Council (LSC).*	A review of ESOL to determine current practices and issues and to make recommendations on how the planning and funding of ESOL may be improved.
Consultation on new school funding arrangements—May 2005.	To explore the mechanisms for funding schools covering the introduction of new school funding arrangements from April 2006.
Review of LEA Social Deprivation Funding for Schools—Publication due late 2005.	To examine ways in which Local Education Authorities (LEAs) fund schools for the higher costs incurred from socially deprived pupils, and recommend improvements.
Student Finance Review—January 2003	To explore options for student finance in higher education (HE).
Fundamental Review of HE—January 2003	To undertake a wide ranging and fundamental review of the mission for HE including widening participation, research, teaching and management and leadership.
Review of Funding for Adult Learning—July 2003	To explore incentives and ways of encouraging responsiveness to employer needs and reforming funding arrangements to enable the RDA role.

Review/consultation—Date of completion	*Aim*
Success for All—October 2002	Consultation on the Department's proposed investment and reform strategy for the learning and skills sector.
Review of Financial Support for Adult Learning—2000	To consider how learning accounts could be further developed and loans for adult learners made more widely available.
Learning to Succeed: Post-16 Funding: Second Technical Paper—2000	Consultation on new funding arrangements for post-16 education and skills.

EU Students

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills for what reasons no specific provision was made in the Higher Education Act 2004 for EU students in respect of *(a)* bursaries and *(b)* recovery of fee loans. [3055]

Bill Rammell: The content of the Higher Education Act 2004 was decided by Parliament after full debate. Parliament did not decide to include specific provisions about bursaries or loan repayments for any students, whether or not from the European Union.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what her estimate is of the total loan subsidy consequent on the non-commercial rate of interest charged by the Student Loan Company for EU students studying in England in each year between 2006 and 2010. [3057]

Bill Rammell: Assuming that 91 per cent. of EU students are charged the full £3,000 fee and 9 per cent. charged £2,000, and assuming that 80 per cent. of them take out a fee loan and that their repayment behaviour is similar to English and Welsh students, costs are estimated to be around £40 million[1] per year (steady state at academic year 2006/07 terms). These costs are made up of the interest rate subsidy of loans together with the costs that are never repaid for example loans that are written off after 25 years or death.

The costs of EU students studying in the UK are offset by the longer term economic benefits which they bring. It is estimated that each EU student provides a net benefit of over £6,000 per year in living expenses to the UK[2]. Multiplying this estimate for individual contributions to the UK economy by the estimated number of eligible EU students suggests that these students alone contribute £270 million per year. Of the known first destinations of EU undergraduates, 25 per cent. remain in the UK to work after graduation and on average they pay £5,000 in income tax over 1.5 years[2]. In addition there are substantial unquantifiable benefits to the UK. In particular, the UK benefits from an addition to its stock of employed manpower of a significant number of highly skilled young people. Other benefits arise from the contribution of these EU students and researchers within UK HEIs, and from having a significant proportion of the young future elite of Europe living, studying and working in this country for an important and formative period in their lives.

[1] Rounded to the nearest £10 million.

[2] Higher Education Policy Institute (HEPI) report "Projecting demand for UK HE from the Accession Countries" published March 2004.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what representations she has received concerning costs incurred by higher education institutions in obtaining legal advice regarding their liabilities to make bursary or financial support available to EU students from 2006. [4256]

Bill Rammell: None.

Faith Awareness Training

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many civil servants in the Department received faith awareness training in 2004. [3807]

Maria Eagle: From April 2004 to March 2005, 45 staff received faith awareness training, as part of a wider session on sexual orientation, religion and belief awareness.

The Department's intranet site provides comprehensive guidance on faith awareness for all staff, and is accessible at all times.

Freedom of Speech (SOAS)

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 6 June 2005, *Official Report*, column 335W, on freedom of speech, what measures she is taking to ensure that the governing body of the School of Oriental and African Studies is fulfilling its duties in this regard. [5008]

Bill Rammell: The duties on governing bodies of universities to ensure freedom of speech are statutory ones, capable of being enforced at law where a governing body has failed to carry out its responsibilities. There is no provision for the Government directly to intervene, but I am keeping in touch with developments in the sector. In particular, I welcome the intention of the sector, working through its Equality Challenge Unit, to produce guidance for universities on tackling extremism and intolerance on campus.

GCSEs

David Taylor: To ask the Secretary of State for Education and Skills whether parts of the course content for GCSE qualifications in *(a)* home economics and *(b)* design technology are replicated in the course content for the GCSE in food technology. [4844]

Bill Rammell: GCSEs exist in Home Economics (food and nutrition) and Design Technology (food technology). The focus of each specification is very different. Design and Technology (food technology) covers food materials and components; food product design; development and market influences; and food process and product manufacture.

Home Economics (food and nutrition) looks at nutrition in relation to the preparation and cooking of food; the relationship between nutrition and good health; and the effect of the marketing and advertising of food products on consumer choice.

Graduate Earnings

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills (1) what research she has collated on the lifetime levels of earnings of *(a)* graduates and *(b)* non-graduates; [4209]

(2) if she will make a statement on the recent research findings at Swansea University that graduates can expect to earn £140,000 more over their lifetimes compared with non-graduates. [4208]

Bill Rammell: Data on lifetime earnings are rare, but we do impute such information from cross-section data sets. The following table shows gross weekly average earnings for graduates and non-graduates, by age bands. It demonstrates that the premium rises with age, as a degree opens doors to promotion and progression over the working life which are closed to non-graduates.

	First/ foundation degree (£)	*Level 3 and below (£)*	*Percentage difference*
20–24	356	283	26
25–29	472	354	34
30–34	612	422	45
35–39	728	445	64
40–44	780	434	80
45–49	719	433	66
50–54	768	406	89
55–59	726	385	89
Total working age	610	388	57

Source:
Winter 2004 LFS. Gross weekly earnings for full-time employees in England.

We prefer to present this type of data in another format—most importantly using an accounting technique to express the benefit to a degree at today's valuation, and stripping out any other effects not related to the qualification itself.

In doing so, the average lifetime financial benefit to a degree, compared to holders of A-levels as their highest qualification, is £120,000 in present value terms—as outlined in a previous written answer to the House (PQ 140797, 8 December 2003).

This is entirely consistent with the University of Wales' research. It represents a strong financial benefit to university education, and provides a clear message that employers need graduates and the extra productivity and innovation that they bring to the economy.

Higher Education

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what progress has been made towards achieving the target of 50 per cent. of all 18 to 30-year-olds going on to higher education by 2010. [3980]

Bill Rammell: The Department measures progress on its target of increasing participation in higher education towards 50 per cent. of those aged 18 to 30 by 2010 through the higher education initial participation rate (HEIPR). The HEIPR has risen from 41 per cent. in 1999–2000 to 43 per cent.(provisionally) in 2003–04.

Further information on the HEIPR is available in DfES Statistical First Release 14/2005 "Participation Rates in Higher Education: Academic Years 1999/ 2000–2003/04 (Provisional)" published on 14 April 2005 and available from the House of Commons Library.

Helen Jones: To ask the Secretary of State for Education and Skills what percentage of individuals who entered higher education came from each social class in each of the past 10 years for which figures are available. [3221]

Bill Rammell: The latest available information showing the proportion of young (under 21) people from each social class who enter higher education is shown in the table. The Government are committed to widening participation in higher education (HE). The Aimhigher Programme, alongside, from 2006, grants and higher education institution bursaries for students from poorer backgrounds, will enable a wider range of people to be able and willing to enter HE.

Age Participation Index (API)[1] *by social class*

Percentage

	Social class							
Year of entry	*I*	*II*	*IIIn*	*IIIm*	*IV*	*V*	*I-IIIn*	*IIIm-V*
1991	55	36	22	11	12	6	35	11
1992	71	39	27	15	14	9	40	14
1992	73	42	29	17	16	11	43	16
1994	78	45	31	18	17	11	46	17
1995	80	46	31	18	17	12	47	17
1996	82	47	32	18	17	13	48	18
1997	79	48	31	19	18	14	48	18
1998	72	45	29	18	17	13	45	17
1999	73	45	30	18	17	13	45	17
2000	76	48	33	19	19	14	48	18
2001	79	50	33	21	18	15	50	19

[1] The Age Participation index (API) is defined as the number of home domiciled young (aged less than 21) initial entrants to full-time and sandwich undergraduate courses expressed as a proportion of the averaged 18 to 19-year-old GB population. The Age Participation Index has been superseded by the Higher Education Initial Participation Rate (HEIPR) which measures the participation of 18 to 30-year-olds, and in 2002 the social class categories were replaced by a new socio-economic group (SEG) classification. The Department has commissioned a report to look at disaggregating the HEIPR by SEG Class, or recommend other alternatives if this is not possible.

Note:
The percentages in the table represent the proportions of students from each given social class who enter HE. (The individual percentages in each column will not therefore sum to 100 per cent.)
I—Professional
II—Intermediate
IIIn—Skilled (non-manual)
IIIm—Skilled (manual)
IV—Partially skilled
V—Unskilled.

Literacy

Mike Gapes: To ask the Secretary of State for Education and Skills what assessment she has made of literacy standards in primary schools. [4747]

Jacqui Smith: Literacy standards in primary schools are the highest that they have ever been. Last year 78 per cent. of 11-year-olds reached the expected level for their

age in English Key Stage 2 tests. This represents an increase of 15 percentage points since 1997. In the Progress in International Reading Literacy Study (PIRLS) published in 2003, England's 10-year-olds achieved the third highest scores in reading of the 35 countries which took part.

Public Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the planned *(a)* staff numbers, *(b)* resource budget and *(c)* administration costs of the (i) Learning and Skills Council and (ii) Office of Fair Access are for each year between 2005 and 2010. [3981]

Bill Rammell: The Learning and Skills Council's estimated staffing requirement for 2005–06 is 4,230. Staffing numbers have not yet been agreed for the following years, but the LSC will meet its efficiency targets.

The current budgets allocated to the LSC are provided in the following table. The LSC has in place measures to achieve a planned reduction in administration costs to meet their contribution to the 15 per cent. efficiency savings required across government.

Learning and Skills Council budgets 2005–08

£000

	2005–06	2006–07	2007–08
Resource budget (excluding administration)	9,766,668	9,339,696	9,821,463
Administration	250,609	248,179	235,444
Total	10,017,277	9,587,875	10,056,907

Notes:

1. The 2005–06 LSC budget was updated in a letter to the LSC on 13 April 2005.
2. Budgets for 2006–07 and 2007–08 were set out in the Grant Letter from the Secretary of State to the LSC on 15 November 2004.
3. The LSC's administration costs include funding for Depreciation and Cost of Capital that in previous years were held centrally in DfES.

Budgets for 2008–09 and 2009–10 will be set as part of the next spending review.

The Office of Fair Access has a budget of up to £500,000 for 2005–06 from which it meets its administration costs and performs its statutory functions. Plans for future years will be set in consultation with the Director of Fair Access.

Pupil Behaviour

Mr. Hoban: To ask the Secretary of State for Education and Skills (1) pursuant to the answer of 7 June 2005, *Official Report*, column 476W, on pupil behaviour, when she expects to *(a)* collect and *(b)* publish the first figures on attendance at pupil referral units; [5050]

(2) pursuant to the answer of 7 June 2005, *Official Report*, columns 475–76W, on pupil behaviour, when she intends *(a)* to ask and *(b)* to require local education authorities to publish figures on attendance at pupil referral units. [5055]

Jacqui Smith: We plan to collect and publish figures on attendance at pupil referral units (PRUs) on a regular basis. However, we need to undertake a one-off exercise this year to ensure that the data currently available at PRUs are recorded in a suitable format for publication. We intend to issue the request for the data to local authorities in November 2005, with a view to collecting it in February 2006, and publishing it in April 2006. In the coming months, we also plan to amend the Education (School Performance Information) Regulations 2001, to require local authorities to provide these attendance figures to my Department at regular intervals, for publication.

Mr. Hoban: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 June 2005, *Official Report*, columns 475–76W, on pupil behaviour, what the process is for collection of information on attendance from local education authorities for *(a)* maintained schools, *(b)* independent schools and *(c)* pupil referral units. [5051]

Jacqui Smith: The Department collects data on pupil absences directly from schools through our contractor, Forvus.

(a) From this school year, maintained schools have been asked to submit data in January and April on overall pupil absences in the autumn and spring terms respectively. These new termly collections do not require schools to distinguish between authorised and unauthorised absences. Data on authorised and unauthorised absences for the period from the beginning of the school year to the May half-term are collected from maintained schools in June each year.

(b) Independent schools participate only in the annual data collection in June.

(c) At present, pupil referral units are not required to submit data for either the termly or annual collections. We are currently considering the best way to arrange for the collection of absence data from pupil referral units which we expect to publish in April 2006.

Pupil Funding

Mr. Crabb: To ask the Secretary of State for Education and Skills what the average *(a)* secondary and *(b)* primary school funding per pupil in England (i) was in 1997 and (ii) is in the current financial year. [5619]

Jacqui Smith: The average funding per primary pupil (aged 3–10) and per secondary pupil (aged 11–15) in England for 1997–98 and 2005–06 is:

	1997–98	2005–06
Pupils aged 3–10	2,390	3,600
Pupils aged 11–15	3,260	4,410

Notes:

These figures are in real terms and include funding via Education Formula Spending/Standard Spending Assessment and revenue grants allocated at an LEA level. The 2005–06 figures exclude the pensions transfer to EFS.

Price Base: Real terms at 2003–04 prices, based on GDP deflators as at 23 March 2005

Figures reflect relevant sub-blocks of education SSA/EFS settlements and exclude the pensions transfer to EFS.

Total funding also includes all revenue grants in DfES Departmental Expenditure Limits relevant to pupils aged 3–10 and 11–15 and exclude EMAs and grants not allocated at LEA level.

The pupil numbers used to convert £ million figures to £ per pupil are those underlying the SSA/EFS settlement calculations.

Rounding: Figures are rounded to the nearest £10.

Status: 2005–06 figures are provisional as some grants have not yet been finalised/audited.

Religious Education

Ann Winterton: To ask the Secretary of State for Education and Skills what guidance is issued by her Department on the teaching of Christianity in schools. [4743]

Maria Eagle: We recently launched a new national framework for religious education to support the delivery of high quality religious education in schools. This reinforces the position of Christianity as the main religious tradition of this country. It also provides opportunities for pupils to study the principal religions in Great Britain, other religious traditions and secular philosophies in line with the Government's goals of inclusion, tolerance and diversity.

School Building

Mr. Hoban: To ask the Secretary of State for Education and Skills which Building Schools for the Future projects will include building for the special schools sector; whether each will provide *(a)* new buildings and *(b)* improvements to existing buildings; what the cost will be of each such project; and in which wave of Building Schools for the Future they will occur. [4864]

Jacqui Smith: Building Schools for the Future aims to ensure that all secondary-age pupils are educated in 21st-century facilities, whether in mainstream or special schools. We expect all local authorities that have special schools to include them in their plans. As for mainstream schools, depending on local circumstances, these plans can include new buildings and/or improvements to existing buildings. Costs of each project are only identified as they proceed through procurement and are not finalised until contract signature. We have indicated to local authorities broadly where in the 15-year programme their projects will come, but have not specified in which wave.

Building Schools for the Future is not the only programme which supports building improvements in special schools. Each special school receives its own allocation of Devolved Formula Capital and local authorities can use their formulaic capital allocations to address the needs of special schools, which should be included in their asset management plans. Special schools are also a priority project within the Targeted Capital Fund, and we are currently considering applications for funding in 2006–07 and 2007–08.

Mr. Hoban: To ask the Secretary of State for Education and Skills what estimate she has made of the cost of providing accessible facilities for pupils with disabilities in mainstream schools under the Building Schools for the Future programme. [4866]

Jacqui Smith: All mainstream schools built under Building Schools for the Future or other programmes should provide accessible facilities for pupils with special education needs and disabilities. Guidance has been issued to help them do this in Building Bulletin 98.

Estimates and allocations for Building Schools for the Future reflect the requirements of Building Bulletin 98 as a whole; we have not estimated the cost of accessible provision separately.

We also support investment to improve the accessibility of school buildings through the School Access Initiative which has run since 1996. Funding for this, which is allocated to each local authority by formula, is £100 million in this and each of the next two financial years.

Mr. Hoban: To ask the Secretary of State for Education and Skills whether special schools to be built under the Building Schools for the Future programme will include special schools for *(a)* primary level, *(b)* joint primary and secondary level, *(c)* secondary level, *(d)* secondary level with post-16 provision and *(e)* post-16 level. [4912]

Jacqui Smith: Special schools to be built under Building Schools for the Future include those for joint primary and secondary level, secondary level, and secondary level with post-16 provision. Special schools for primary level will be included in the new primary capital programme announced by my right hon. Friend the Chancellor of the Exchequer in his 2005 budget. There are no special schools for just post-16 level. Capital investment in specialist colleges is directed through the Learning and Skills Council.

Schools (Weapons)

Mr. Malins: To ask the Secretary of State for Education and Skills on how many occasions in the last 12 months a pupil at a state secondary school in England has been found to be in possession of a weapon on school premises. [4786]

Jacqui Smith: A Youth Justice Board survey in 2004 showed that 1 per cent. of age 11–16 pupils in England and Wales had at some time in the last year carried a knife in school for offensive reasons, and 2 per cent. for "defensive" reasons. We propose to give head teachers a power to search for knives, and will add to existing guidance on how police, schools and other local agencies can work together, to keep knives out of our schools.

Secondary Education (Newark)

Patrick Mercer: To ask the Secretary of State for Education and Skills what plans she has for improvements to secondary education in Newark. [4754]

Jacqui Smith: Ministers have no specific plans for improvements to secondary education in Newark. The Department's strategy for children and learners sets out how we intend to achieve improvements over the next five years for children's services, and for education and lifelong learning.

Social Exclusion

Mr. Hoban: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 June 2005, *Official Report*, column 482W, if she will make a statement on the progress towards reaching the public service agreement target to which she refers; and how this is measured. [5034]

Beverley Hughes: The Department has a PSA target to "Improve children's communication; social and emotional development so that by 2008 50 per cent. of children reach a good level of development at the end of the Foundation Stage, and reduce inequalities between the level of development achieved by children in the 20 per cent. most disadvantaged areas and the rest of England".

The 50 per cent. level, set in July 2004 and covering the period April 2005 to March 2008, was based on the 2003 Foundation Stage Profile (FSP) results. The target level is provisional as the 2003 FSP data were "experimental statistics". The 2005 results, which will be published in a Statistical First Release in October, will inform the calculation of a challenging trajectory to enable the progress made by children to be measured. The 2005 survey will also collect for the first time information about children in the 20 per cent. most disadvantaged areas and this will be used to measure the rate of development achieved by children in these areas compared to the national picture. The figures from the 2004 survey indicate that 51 per cent. of children are working securely within the Early Learning Goals for communication, social and emotional development.

Special Educational Needs

Keith Vaz: To ask the Secretary of State for Education and Skills what the Government's policy is on the teaching of children with special needs in mainstream schools. [4728]

Maria Eagle: The Government's overarching priority for children with SEN is that their needs should be met in an appropriate way, through an appropriate package of support. Children with less significant needs should in general be able to have their needs met in a mainstream environment, provided that appropriate support is in place. However, we recognise that mainstream schools are not suitable for some children with special educational needs. Both mainstream and special schools have a significant role to play.

There needs to be a range of high quality provision for pupils for whom mainstream education may not be right, or may not be what their parents want. There must be strong links between special schools, mainstream schools, special units and resourced provision. This type of partnership working is a key aspect of the Government's published strategy on SEN—"Removing Barriers to Achievement".

Special Needs Tribunals

Charles Hendry: To ask the Secretary of State for Education and Skills how many special needs tribunals took place in the last year for which information is available, broken down by local education authority. [3668]

Jacqui Smith *[holding answer 13 June 2005]:* The followingtable shows the numbers of SEN appeals decided by the Special Educational Needs and Disability Tribunal in the last full Tribunal year, September 2003 to August 2004.

The numbers of SEN appeals decided by the Special Educational Needs and Disability Tribunal in the last full Tribunal year, September 2003 to August 2004, were as follows:

	Number
Barking and Dagenham	7
Barnet	16
Barnsley	7

Teacher Assaults

Lynne Featherstone: To ask the Secretary of State for Education and Skills how many teachers were assaulted by pupils in each London borough in each year since 2000; and if she will make a statement. [4804]

Jacqui Smith: The information requested is not collected centrally.

Tuition Fees

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what her estimate is of the *(a)* number and *(b)* percentage of (i) higher education institutions and (ii) further education colleges that are planning to charge the full tuition fee of £3,000 from 2006. [3058]

Bill Rammell: Based on information released by the Office for Fair Access on 17 March 2005, we estimate that around 91 per cent. of HEIs and FECs are planning to charge the full tuition fee of £3,000. Based on access agreements assessed before 4 March 2005, 110 HEI's and FEC's were planning to charge the full fee of £3,000.

University College Worcester

Mr. Michael Foster: To ask the Secretary of State for Education and Skills when she expects a decision to be made on extending full university status to University College Worcester. [4842]

Bill Rammell: We are awaiting advice from the Quality Assurance Agency for Higher Education (QAA) on University College Worcester's application for university title. We expect to receive this soon.

University Departments (Closures)

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many *(a)* physics, *(b)* mathematics and *(c)* chemistry departments in universities have closed since 1997. [3049]

Bill Rammell: Information on the closure, merger or opening of particular university courses and departments is not collected by the Department. Higher education institutions are autonomous organisations responsible for their own academic direction and strategic use of funds, and any decisions on closures of departments are made by them, not by Government or the Higher Education Funding Council for England (HEFCE).

The then Secretary of State for Education and Skills wrote to the Higher Education Funding Council for England (HEFCE) at the beginning of December 2004 asking their advice on what types of action should be considered to strengthen and secure subjects of strategic national importance, including mathematics and science. HEFCE have set up an expert group to look at this issue and to report to the HEFCE board this month. The board will inform Ministers of the outcome.

SOLICITOR-GENERAL

Sentencing Policy

20. **Mr. Andrew Turner:** To ask the Solicitor-General how many requests have been made in the past 12 months for the review of lenient sentences. [4735]

The Solicitor-General: For the period 1 June 2004 to 15 June 2005, 330 cases raising issues of unduly lenient sentences were submitted to the Law Offices for referral to the Court of Appeal. Requests came from the CPS, victims, their families, members of the public and Members of Parliament.

98 of the cases were referred to the Court of Appeal.

Witness Care Units

21. **Ben Chapman:** To ask the Solicitor-General if he will make a statement on witness care units in Merseyside. [4737]

The Solicitor-General: A pilot Witness Care Unit jointly staffed by the Crown Prosecution Service and police is currently dealing with North and South Sefton Magistrates Court cases and some Crown court work.

A Merseyside Witness Care Unit will be opened in October 2005. It will deal with all cases for the entire county. It will consist of 36 police and CPS staff; it will be based at Tithebarn House in Liverpool.

Ball-bearing Guns

22. **Miss McIntosh:** To ask the Solicitor-General how many prosecutions there were in England and Wales for illegal use of ball-bearing guns in the last year for which figures are available. [4738]

The Solicitor-General: Crown Prosecution Service records include a count of the number of prosecutions under particular Acts of Parliament, and under specific sections of each Act. However, the offences in question are not the subject of discrete legislation, and CPS records therefore provide no indication of the number of proceedings undertaken.

Domestic Violence

23. **Barbara Follett:** To ask the Solicitor-General what steps the Crown Prosecution Service is taking to raise awareness of its measures to tackle domestic violence, with particular reference to Hertfordshire. [4739]

The Solicitor-General: After the passing of the Domestic Violence, Crime and Victims Act last year, the CPS published its revised public policy statement on domestic violence in February 2005. Its national network of domestic violence co-ordinators engage with specialists in other agencies and represent the CPS in local domestic violence forums. The CPS recognises that awareness raising and confidence building are important elements of its work against domestic violence. CPS Hertfordshire works constructively with its criminal justice partners and NGOs in the county to raise awareness of domestic violence as an issue and of strategies for dealing with it. For example, in March 2004 it was fully represented at the Hertfordshire Criminal Justice Board open day in Stevenage.

Criminal Trials (Special Measures)

Vera Baird: To ask the Solicitor General what monitoring he undertakes of the relationship between the granting of special measures in criminal trials and the outcome of trials. [4694]

The Solicitor-General: This type of monitoring is not undertaken. A correlation cannot be made between a special measures direction and a trial's outcome. The weight to be attached to a piece of evidence is a matter for the magistrates/jury. Where special measures are used, witnesses appear to appreciate them.

Ministers (Prosecutions)

David Howarth: To ask the Solicitor-General what criteria the Law Officers apply in deciding whether to enter a plea of nolle prosequi in the case of a Minister of the Crown prosecuted for a criminal offence. [4910]

The Solicitor-General: The Law Officers act as guardians of the public interest when considering whether to enter a plea of nolle prosequi. In such cases, they apply the principles set out in the Code for Crown Prosecutors. Whether the defendant whose case is under consideration is a Minister of the Crown or not is irrelevant to their decision.

Proceeds of Crime Act

Mr. Kidney: To ask the Solicitor General what the success rate of prosecutors in securing orders in criminal cases under the Proceeds of Crime Act 2002 has been since their introduction. [4736]

The Solicitor-General: Prosecutors from the Crown Prosecution Service, the Serious Fraud Office, Revenue and Customs Prosecutions Office and other prosecutors make applications for restraint and confiscation orders under the Proceeds of Crime Act 2002 (POCA).

Since April 2004, the Joint Asset Recovery Database figures show that prosecutors have made 653 applications for restraint under POCA and earlier legislation, of which 650 have been successful. In the same period prosecutors have prepared 3,165 confiscation applications under POCA and earlier legislation, of which 2,007 POCA and 1,023 pre-POCA orders have been granted by the Crown Court.

Serious Fraud Office

Malcolm Bruce: To ask the Solicitor General whether the Serious Fraud Office will investigate all cases of foreign bribery that pass through vetting stage. [3911]

The Solicitor-General: Given the public interest in maintaining the reputation of British industry abroad and the sums involved in the contracts concerned, it is likely that any such allegation would be investigated by the Serious Fraud Office depending on the weight of the evidence and whether the public interest would be served.

The Serious Fraud Office has been nominated as the Department that will vet all foreign bribery cases and as such will take the decision whether or not it will retain cases or pass them to other authorities.

Malcolm Bruce: To ask the Solicitor General (1) if he will list the jurisdictions to which the Serious Fraud Office provides mutual legal assistance with regard to allegations of overseas corruption offences; [3912]

(2) how many requests for mutual legal assistance from foreign jurisdictions the Serious Fraud Office has received which relate to allegations of overseas corruption offences in the last 10 years; and if he will list the jurisdictions from which these requests have come; [3913]

(3) how many requests for mutual legal assistance from foreign jurisdictions received by the Serious Fraud Office with regard to overseas corruption have resulted in domestic investigations being opened by the Serious Fraud Office in each of the last five years. [3915]

The Solicitor-General: To identify mutual legal assistance requests involving corruption over a 10 year period would incur disproportionate cost.

Since 1 January 2001, the Mutual Legal Assistance (MLA) Unit of the Serious Fraud Office has received seven requests for assistance in cases involving corruption offences. These may relate to allegations of corruption by UK citizens or companies overseas, or to corruption by individuals or entities of the referring state.

The SFO does not disclose details of assistance provided to overseas investigations without consent from the referring jurisdiction or unless the referring jurisdiction has made public disclosures. The requests for assistance already in the public domain were from France and Norway.

In the last five years, there have been no requests for assistance involving corruption from overseas jurisdictions which have resulted in a domestic investigation being opened by the Serious Fraud Office. In 2003 a domestic investigation was opened following a request for assistance from Bosnia and Herzegovina concerning bribery offences as specified by the referring jurisdiction.

Malcolm Bruce: To ask the Solicitor General how many investigations into allegations of overseas corruption the Serious Fraud Office is conducting; and how many allegations are being vetted. [3916]

The Solicitor-General: The SFO is currently investigating four cases involving allegations of overseas corruption by British companies or individuals. In addition, there are 13 cases currently being vetted to decide if a full investigation should be instigated.

Malcolm Bruce: To ask the Solicitor General what action he is taking to ensure that the Serious Fraud Office has appropriate funding to pursue foreign bribery investigations. [3917]

The Solicitor-General: : The budget allocated to the SFO will increase in 2005–06 to £35.4 million to allow the SFO to continue to accept referrals that meet the acceptance criteria of the Department. To date, the SFO has not declined any allegations of overseas bribery due to insufficient resources.

Malcolm Bruce: To ask the Solicitor General what action he is taking to implement the OECD's recommendation that the Serious Fraud Office's role in leading foreign bribery investigations be confirmed. [3918]

The Solicitor-General: : The Government is currently considering how best to take forward the recommendations outlined by the OECD in their phase 2 report and will report on progress to the OECD Bribery Working Group in December. Part of the work that is being considered by Departments in response to the issue of overseas corruption is a rationalisation of the law enforcement response.

Guidance which governs implementation of the revised version of the Memorandum of Understanding will be placed in the Library of the House of Commons.

United States (Extradition)

Andrew Mackinlay: To ask the Solicitor-General if he will make a statement on those matters the Department has to take into account and what steps it has to take when it receives a request for extradition from the US. [4431]

The Solicitor-General: The Crown Prosecution Service (CPS) represents the interests of states that seek extradition of persons from the United Kingdom.

The CPS has to ensure that it fulfils the statutory requirements of the Extradition Act 2003. The United States of America (USA) has been designated a Part 2 territory by order of the Secretary of State; any request from the USA, therefore, has to comply with the requirements of Part 2 of the Act.

The Secretary of State, who receives the formal extradition request through diplomatic channels, has to certify under section 70 of the Extradition Act 2003 that the request for extradition is "valid". A request is valid if it contains the statement that the person is accused in the category 2 territory of the commission of an offence specified in the request or is alleged to be unlawfully at large after conviction by a court in the category 2 territory of an offence specified in the request.

The USA has been designated in that category of territory that no longer has to provide prima facie sworn evidence on those charges on which extradition is sought.

On receipt of an extradition request, the CPS checks that it contains the required documents, including an arrest warrant or a certificate of conviction, particulars of the offence and law, and evidence of identity.

The CPS also has to ensure that the offence specified in the request constitutes an extradition offence as defined by the Act.

Finally, the CPS checks that the documents are admissible (namely that they are signed by a judge, magistrate or other judicial authority of the USA or are authenticated by the oath of a witness).

If any part of the extradition request is deficient, the CPS advises the US authorities of the material required to satisfy the court in any ensuing extradition proceedings (which the CPS conducts on behalf of the USA).

HOME DEPARTMENT

Departmental Union Representation

Mr. Jenkins: To ask the Secretary of State for the Home Department how many trade union learning representatives there are in his Department. [3312]

Fiona Mactaggart: There are a total of 68 learning representatives within the Department. This is divided as follows:

Learning representatives in:	*Number*
The Prison Service[1]	42
The Criminal Records Bureau[2]	11
The United Kingdom Service Passport Service[2]	7
The Immigration and Nationality Directorate[2]	8

[1] Representatives of the Prison Officers Association (POA)
[2] Representatives of the Public and Commercial Services Union (PCS)

The Prison Service is consulting other recognised unions about the terms of a learning agreement and the appropriate number of related learning representatives. Separately the main Home Office including Immigration and Nationality Directorate is consulting recognised unions about the terms of a learning agreement and the appropriate number of learning representatives.

Eurostar

Mr. Malins: To ask the Secretary of State for the Home Department whether passengers travelling on Eurostar *(a)* from Waterloo to the continent and *(b)* from the continent to Waterloo have their baggage checked or searched by officials. [3627]

Derek Twigg: I have been asked to reply.

Security directions served on Eurostar by the UK Department for Transport include requirements for the searching of a specified minimum proportion of passengers and their baggage at Waterloo and Ashford International stations. The proportion is variable and is commensurate with the prevailing level of threat.

Security arrangements in France and Belgium are the responsibilities of the French and Belgian Governments respectively. French, Belgian and UK Government officials meet regularly to discuss security and to ensure continued comparability of security standards.

Illegal Labour

Dr. Pugh: To ask the Secretary of State for the Home Department how many prosecutions there were in 2003 and 2004 of employers who employ people illegally resident in this country. [4555]

Andy Burnham: Two defendants were proceeded against for "Employing a person subject to immigration control who has attained the age of 16" under the Asylum and Immigration Act 1996, Sec eight, England and Wales in 2003.

Statistics on court proceedings for 2004 will be published in 'Control of Immigration: Statistics United Kingdom 2004' in the autumn.

National Offender Management Service

Mr. Drew: To ask the Secretary of State for the Home Department whether the 42 probation boards in England and Wales will be retained under the National Offender Management Service arrangements. [3875]

Fiona Mactaggart: Work on the future organisational design of the National Offender Management Service has still to be concluded.

Pedicabs/Rickshaws

Mrs. Dunwoody: To ask the Secretary of State for the Home Department how many *(a)* sexual and *(b)* other assaults have been committed by the riders of pedicabs or rickshaws in the last 12 months. [3179]

Fiona Mactaggart: It is not possible to identify those riders of pedicabs or rickshaws from the data held on the Home Office Court Proceedings database as this information is not centrally collected.

Police/Crime Statistics (Wales)

Bill Wiggin: To ask the Secretary of State for the Home Department how many *(a)* adults and *(b)* young people are held in prisons in Wales; and what the operational capacity is of each prison in Wales. [1072]

Fiona Mactaggart: The information requested, as recorded on the Prison Service IT system, is provided in the table.

Population and operational capacity of prison establishments, by age group[1]—Wales, 30 April 2005

	Adults	*Young persons*	*Operational capacity[2]*
Cardiff	735	—	754
Parc	573	386	1,036
Swansea	402	—	425
Usk/Prescoed	414	—	420

[1] Adults are those aged 21 years and over. Young persons are those aged under 21, including some 21-year-olds who have not been reclassified as adults.
[2] At 29 April 2005.

Prison Education

Mr. Stephen O'Brien: To ask the Secretary of State for the Home Department what the levels of basic *(a)* literacy and *(b)* numeracy among (i) male young offenders, (ii) male adult offenders, (iii) female young offenders and (iv) female adult offenders were in each year between 1994 and 2004. [3245]

Fiona Mactaggart: The information requested is not collected centrally. However, Home Office statistics show that 43 per cent. of prisoners have numeracy

levels below level one and 37 per cent. have reading skills below level one.

Source:
Prison Statistics for England and Wales 2002.

Prison Staff (London)

Lynne Featherstone: To ask the Secretary of State for the Home Department what recent representations he has received on the remuneration of London-based prison staff; and if he will make a statement. [2896]

Fiona Mactaggart: Each year, the Prison Service invites applications from all prisons for inclusion in its local pay scheme or for increasing existing local pay rates. These applications are considered by the Prison Service Management Board and evidence, which is shared with trade unions, is supplied to the Prison Service Pay Review Body (PSPRB) which considers whether there is a case for adjustment of existing rates. In February, the PSPRB recommended that local pay rates should remain unchanged. The Home Secretary decided to implement the recommendations of the PSPRB in full with the local pay rates for most London prisons remaining at £4,000.

Prisoners (Team Sport)

Mr. Malins: To ask the Secretary of State for the Home Department what research he has commissioned regarding rates of reoffending by prisoners who play team sports in prison. [2703]

Fiona Mactaggart: No studies have been commissioned recently by the Home Office about rates of reoffending by prisoners who play team sports in prison. The last relevant research was the evaluation of the Colchester Military Training Centre as briefly used also for young offenders in the mid-1990s (Home Office Research Study 239, 2002).

Probation Service

Mr. Amess: To ask the Secretary of State for the Home Department how many people were employed in the Probation Service in each year since 1997 in *(a)* Essex and *(b)* Southend. [4587]

Fiona Mactaggart: The requested information is not available for the full period required. Data collected prior to 1 April 2003 is unreliable, and is not directly comparable with the more accurate figures collected since that time. The following figures show full time equivalent (FTE) figures for each quarter from 1 April 2003 to 31 March 2005.

Staffing information is collected by probation area, and is not collected in sufficient detail to allow figures for Southend to be presented separately. The staffing figures are provided for the Essex probation area only.

Staffing information for Essex probation area

	Essex probation area—FTE in post
30 June 2003	385.4
30 September 2003	383.7
31 December 2003	393.1
31 March 2004	399.1
30 June 2004	414.7
30 September 2004	406.5
31 December 2004	432.6

Mr. Llwyd: To ask the Secretary of State for the Home Department how many staff in each probation area were on long-term sickness absence on the latest date available, broken down by grade. [4206]

Fiona Mactaggart: The National Probation Directorate does not hold information on how many members of staff are long-term sick within individual probation areas. The directorate monitors overall sickness across the 42 areas and approximately 45 per cent. of sickness absence is defined as long-term i.e. over 20 working days and absence recorded under the Disability Discrimination Act.

A national working group has been established to review sickness absence across the service and an action plan will be produced in the late summer to reduce absence levels. The National Probation Service has produced what are considered by the HSE to be first class strategies and policies for health and safety and stress. The directorate is currently leading a major project on the development and use of occupational health in the service.

Rainsbrook Secure Training Centre

Ms Keeble: To ask the Secretary of State for the Home Department how many of the staff at Rainsbrook Secure Training Centre previously worked at St. John's Centre at Tiffield. [2877]

Fiona Mactaggart: Five members of staff currently employed at Rainsbrook previously worked at the St. John's Centre.

Seven other employees who have now left Rainsbrook were previously employed at St. John's.

Reoffending

Mr. Malins: To ask the Secretary of State for the Home Department what percentage of defendants conditionally discharged for an offence reoffended within the period of discharge. [2706]

Fiona Mactaggart: The information is not held in the required form.

Secure Training Centres

Ms Keeble: To ask the Secretary of State for the Home Department (1) what response he will make to the review of the use of restraint in secure training centres; and if he will make a statement; [2902]

(2) if he will publish the review of the use of restraint in secure training centres for young people. [2903]

Fiona Mactaggart: My noble Friend the Baroness Scotland is considering advice from the Youth Justice Board on the findings of their review. We will write to my hon. Friend once the Government have decided their response.

Treatment/Rehabilitation of Offenders

Anne Main: To ask the Secretary of State for the Home Department what facilities and premises are provided by

his Department in St. Albans for the provision of *(a)* treatment testing and *(b)* rehabilitation of offenders; and if he will make a statement. [3634]

Fiona Mactaggart: Drug treatment and testing is provided to offenders in St. Albans in a number of ways. The Drug Interventions Programme (DiP) provides a route out of crime and into treatment for drug misusing offenders, using their contact with the Criminal Justice System as an opportunity to engage then in treatment and support. In particular, the throughcare and aftercare elements of the programme are operating in St. Albans, with an enhanced arrest referral service and SWITCH, which picks up Prolific and Priority Offenders with treatment needs straight from prison.

The DIP project is based at The Old Ambulance Headquarters, Ascots Lane, Welwyn Garden City, AL7 4HL.

Offenders sentenced to Drug Treatment and Testing Orders (DTTOs)/Drug Rehabilitation Requirements (DRRs) (part of the new community order implemented as part of the Criminal Justice act 2003) is provided by Drugcare which provides treatment interventions, including drug testing, whilst a consultant psychiatrist assess and prescribes and delivers other medical interventions that may be required.

For offenders with drug misuse problems not on a DRR and not assessed as a priority and prolific offender, Hertfordshire Probation Area (HPA) has contracted the provision of assessments and counselling for offenders with drug and or alcohol problems who are subject to community penalties or on licence following imprisonment with Drugcare over a number of years.

They provide these services at HPA' offices at 62–72 Victoria Street, St. Albans AL1 3XH.

Young Offender Institutions

Mr. Malins: To ask the Secretary of State for the Home Department how many hours on average were spent per week by prisoners at each young offender institution *(a)* in and *(b)* out of cells in the last period for which figures are available. [2713]

Fiona Mactaggart: The Prison Service does not record the time prisoners spend in and out of their cells but does measure the time cells are unlocked. The following table shows the number of hours for which young offenders were unlocked, in young offender institutions across England and Wales in 2004–05.

Establishment name	*Average hours unlocked on a weekday*	*Average hours unlocked on a weekend day*
Ashfield	10.5	10.5
Aylesbury	8.5	6.8
Brinsford	8.5	6.9
Castington	8.3	7.6
Coldingley	11.8	8.5
Deerbolt	8.2	5.4
Feltham	7.9	7.2
Glen Parva	8.9	5.7
Huntercombe	10.1	8.7
Lancaster Farms	10.7	9.7
Northallerton	8.8	6.5
Onley	8.9	7.7
Portland	7.6	5
Reading	8	6.6
Rochester	9	6
Stoke Heath	10.3	10.2
Swinfen Hall	10.4	6.8
Thorn Cross (Open)	12.5	12.5
Warren Hill	10.5	10
Werrington	10.7	8
Wetherby	9.8	6.5
Young Offenders Estate Average	9.5	7.7

TRADE AND INDUSTRY

Acordis Factory

Shona McIsaac: To ask the Secretary of State for Trade and Industry if he will make a statement on the future of the Acordis factory in North East Lincolnshire. [2040]

Alun Michael: Since the announcement last month that Acordis was going into administration, the administrators have been working hard in co-operation with the company's management, employees, suppliers and customers to ensure its survival as a going concern.

I understand that the administrators have received a number of expressions of interest in the company which they are currently reviewing. In the meantime, it is continuing to trade and the support of its existing customers has resulted in an increase in orders. My colleagues and I will continue to monitor the situation.

Coal Health Claims

John Mann: To ask the Secretary of State for Trade and Industry how many *(a)* departmental press releases and *(b)* parliamentary (i) written and (ii) oral statements during 1999 referred directly to the vibration white finger and chronic obstructive pulmonary disease agreements with the Union of Democratic Mineworkers and Vendside. [2643]

Malcolm Wicks: No such press releases or parliamentary statements were made during 1999.

John Mann: To ask the Secretary of State for Trade and Industry how many industrial disease claims for deceased miners were submitted in 2004. [2666]

Malcolm Wicks: In 2004, the number of claims submitted for deceased miners was as follows:

	Total deceased claims registered in 2004[1]
COPD	84,514
VWF	8

[1] Claims registered reflects the total of deceased claims registered, i.e. does not include claims that were registered live but have died since.

Claim receipts are those claims that are fully registered, i.e. exclude pool of claims accepted with minimum data, awaiting further information to permit cross-referencing and duplicate checks prior to full registration.

John Mann: To ask the Secretary of State for Trade and Industry how many claims for deceased miners were submitted by more than one party in each year between 2001 and 2004. [2673]

Malcolm Wicks: The number of duplicate claims submitted is as follows:

	COPD	*VWF*
2001	69	1
2002	61	14
2003	682	12
2004	6,692	0
Total	7,504	27

Note:
Claims registered reflects claims that were deceased when registered. These figures do not include partially registered claims or those awaiting checks or further information.

A process is in place to establish the correct claimant and/or solicitor in each duplicate claim to ensure that duplicate payments are not made. Claims are put on hold until this process has been completed.

John Mann: To ask the Secretary of State for Trade and Industry who the individual signatories were to the claims handling agreements of 1999 between his Department and the Union of Democratic Mineworkers and Vendside Ltd. [2708]

Malcolm Wicks: Both arrangements were signed by Nabarro Nathanson solicitors on behalf of the Department and by the General Secretary of the Union for Democratic Mineworkers (Nottingham section).

Consumer Trading and Standards Agency

Mrs. Spelman: To ask the Secretary of State for Trade and Industry what powers the proposed Consumer Trading and Standards Agency will have to *(a)* inspect and *(b)* set targets for local authorities trading standards. [4299]

Mr. Sutcliffe: The Hampton Report recommended that a new body should be created at the centre of Government to co-ordinate work on consumer protection and trading standards.

In line with this recommendation, DTI will shortly be issuing a consultation on the creation of the Consumer and Trading Standards Agency (CTSA).

This consultation will inform decisions about the agency's roles and responsibilities, including in relation to Trading Standards.

Mrs. Spelman: To ask the Secretary of State for Trade and Industry what the timetable is for the establishment of the proposed Consumer Trading and Standards Agency. [4300]

Mr. Sutcliffe: DTI will shortly be issuing a consultation on the establishment of the new Consumer and Trading Standards Agency, as recommended in the Hampton Report.

Hampton recommended that the CTSA should be operational by 2009.

Mrs. Spelman: To ask the Secretary of State for Trade and Industry if he will make a statement on the impact of the proposed Consumer Trading and Standards Agency on local authority trading standards. [4356]

Mr. Sutcliffe: The Hampton Report recommended that a new body should be created at the centre of Government to co-ordinate work on consumer protection and trading standards.

In line with this recommendation, DTI will shortly be issuing a consultation on the creation of the Consumer and Trading Standards Agency (CTSA).

This consultation will inform decisions about the agency's roles and responsibilities, including in relation to Trading Standards.

Export Control Organisation

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what procedures the Export Control Organisation have in place for preventing corruption on defence sales for which it gives a licence; and if he will make a statement. [2553]

Malcolm Wicks: The Export Control Organisation do not have any procedures in place for preventing corruption on defence sales for which it gives a licence, except in so far as we require licence applicants to specify the end-use, end-user and, in the case of Standard Individual Export Licences, the value of the exports.

More generally, the Government have taken a number of steps in recent years with regard to preventing corruption and empowering law enforcers to investigate such offences. For example, by means of part 12 of the Anti-terrorism, Crime and Security Act 2001 (ATCS Act), which clarifies that the existing offences of bribery apply to the bribery of foreign officials and introduces a new jurisdiction over acts of bribery committed by UK nationals or UK-based companies overseas.

The UK has also ensured it has an adequate legal framework to implement the OECD Convention, as specifically acknowledged by the OECD Working Group on Bribery. In addition, the Government have made progress towards ratification of the UN Convention Against Corruption with the Serious Organised Crime and Police Act 2005.

The Government continue to make efforts elsewhere to prevent foreign bribery, for example, by stepping up its awareness-raising activities with the business community, public officials—in the UK and overseas missions—and NGOs to improve knowledge of the law and of the damage caused by international corruption. We are exploring sector-specific initiatives with business, e.g. in construction and engineering, to ensure that companies operating in these high-risk areas understand their obligations. And we continue to support codes of conduct and business principles promulgated by the likes of the International Chamber of Commerce and the World Economic Forum. Separately, ECGD has launched a consultation exercise on its anti-bribery measures (applicants for Export Credits Guarantee Department (ECGD) support must of course already comply with its anti-bribery and

corruption procedures, which are amongst the most robust in use by any of the world's leading Export Credit Agencies).

At the same time, law enforcers have streamlined the arrangements that relate to the handling of such allegations. To this end, the Serious Fraud Office now play a central part in the process and is investigating a number of cases. Law enforcers continue to keep these arrangements under review. The Government have also highlighted the provisions of part 12 of ATCS Act in the National Policing Plan, which asks forces to support SFO investigations involving these new powers and to take on those investigations not falling within the SFO's remit.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry whether the Export Control Organisation requires companies to sign no-bribery warranties before it will issue a licence. [2554]

Malcolm Wicks: The Export Control Organisation does not require companies to sign no-bribery warranties before it will issue a licence, but this in no way implies a lack of commitment by the Government to action against bribery and corruption.

More generally, the Government have taken a number of steps in recent years with regard to preventing corruption and empowering law enforcers to investigate such offences. For example, by means of part 12 of the Anti-terrorism, Crime and Security Act 2001 (ATCS Act), which clarifies that the existing offences of bribery apply to the bribery of foreign officials and introduces a new jurisdiction over acts of bribery committed by UK nationals or UK-based companies overseas.

The UK have also ensured it has an adequate legal framework to implement the OECD Convention, as specifically acknowledged by the OECD Working Group on Bribery. In addition, the Government have made progress towards ratification of the UN Convention Against Corruption with the Serious Organised Crime and Police Act 2005.

The Government continues to make efforts elsewhere to prevent foreign bribery, for example, by stepping up its awareness-raising activities with the business community, public officials—in the UK and overseas missions—and NGOs to improve knowledge of the law and of the damage caused by international corruption. We are exploring sector-specific initiatives with business, e.g. in construction and engineering, to ensure that companies operating in these high-risk areas understand their obligations. And we continue to support codes of conduct and business principles promulgated by the likes of the International Chamber of Commerce and the World Economic Forum. Separately, ECGD has launched a consultation exercise on its anti-bribery measures (applicants for Export Credits Guarantee Department (ECGD) support must of course already comply with its anti-bribery and corruption procedures, which are amongst the most robust in use by any of the world's leading Export Credit Agencies).

At the same time, law enforcers have streamlined the arrangements that relate to the handling of such allegations. To this end, the Serious Fraud Office now plays a central part in the process and is investigating a number of cases. Law enforcers continue to keep these arrangements under review. The Government have also highlighted the provisions of part 12 of ATCS Act in the National Policing Plan, which asks forces to support SFO investigations involving these new powers and to take on those investigations not falling within the SFO's remit.

Funding Allocations (Yorkshire)

Miss McIntosh: To ask the Secretary of State for Trade and Industry pursuant to his answer of 25 May 2005, *Official Report*, columns 113–44W, in Yorkshire and the Humber, what the distribution of *(a)* national funds and *(b)* EU funds were to (i) North Yorkshire, (ii) East Yorkshire, (iii) South Yorkshire and (iv) West Yorkshire in each of the last three years. [1792]

Alun Michael: The information is as follows:

£

	2002–03	2003–04	2004–05
Objective 1			
European Regional Development Fund	28,610,888	66,140,394	77,692,767
European Social Fund	27,372,602	29,370,428	32,980,128
European Agricultural Guidance Guarantee Fund	1,221,622	2,896,258	2,020,67
Objective 2			
North Yorkshire	1,236,638	6,401,401	12,158,697
The Humber	5,622,833	20,099,226	19,879,713
West Yorkshire	7,759,821	28,966,490	22,693,470

Note:

1. Figures are grant only to avoid double counting of match funding as many of the projects used other national funds as match funding.
2. European Funding works on calendar years.
3. Objective 3 is a national programme and cannot be split into sub-regions.

Yorkshire Forward has made available a total of £136.30 million towards economic development in Yorkshire and Humber over the last three years (excluding European Funding) Sub-regional funding split below. Yorkshire Forward works on financial years.

£

	2002–03	2003–04	2004–05
Yorkshire Forward North Yorkshire	1,300,000	1,800,000	2,100,000
Region wide	11,100,000	12,300,000	23,900,000
South Yorkshire	9,300,000	13,000,000	20,000,000
The Humber	3,600,000	5,900,000	9,300,000
West Yorkshire	2,500,000	9,600,000	10,600,000

Health Care Associated Infection

Mr. Lansley: To ask the Secretary of State for Trade and Industry what research funding has been provided in the last five years by the Medical Research Council for research into the effectiveness of bacteriophages in controlling healthcare associated infection. [3347]

Alan Johnson: During the last five years the MRC has awarded two grants, totalling £303,000, to studies relating the effect of bacteriophages on bacterial

infection which are, although not specifically, relevant to controlling healthcare associated infection. These are:

Dr. J. S. Soothill (Institute of Child Health) "Investigation of the Potential of Bacteriophage for the Treatment of Staphylococcal Infection".

Dr. J. Whyte (CAMR) "Evaluation of bacteriophage for the control of P aeruginosa infection in C.F. patients using in vivo and in vitro models".

Government do not prescribe to individual research councils what research they fund. Research excellence and importance to health are the primary considerations in MRC's funding decisions. Research proposals received by MRC undergo full peer review and assessment by one of the MRC's research boards.

Insolvency

Mr. Kidney: To ask the Secretary of State for Trade and Industry what assessment he has made of trends in *(a)* personal and *(b)* corporate insolvencies since 1997. [3710]

Mr. Sutcliffe: Insolvency levels, both personal and corporate can and do fluctuate, influenced by a number of economic factors such as inflation rates, the availability and price of credit, employment levels and economic growth. The trend in personal insolvencies has been steadily upward since 1997 and reflects in part the extent to which access to personal credit has increased. Corporate insolvencies increased modestly between 1997 and 2002, since when they have fallen, due to a stable economic environment for business and an increasing tendency for businesses to address their financial problems at an earlier stage.

Internet Fraud

Keith Vaz: To ask the Secretary of State for Trade and Industry what steps he is taking to protect users of internet auction and sales sites from fraud. [4716]

Alun Michael: Government Departments are working with industry organisations and law enforcement agencies through groups such as the Internet Crime Forum to tackle internet crime.

Two of the main approaches used in dealing with fraud over the internet are prevention and education. A large amount of fraud can be prevented if organisations and individuals have proper fraud prevention measures in place. The Home Office publishes fraud prevention advice on the e-tailing mini website, which forms part of the Crime Reduction website. It helps consumers and businesses protect themselves when buying and selling over the internet.

The Government are also involved in the development of Project Endurance, an initiative that will launch an internet security public awareness campaign later this year. The project is an alliance of public and private sector bodies, which brings together several Government Departments and law enforcement organisations with a number of high profile private sector companies. This campaign will be targeted at micro business and consumers, primarily aimed at helping them gain confidence in using the internet.

The Consumer Protection (Distance Selling) Regulations 2000 protect consumers against payment card fraud including credit cards. The regulations apply to contracts made at a distance including online ones. The card issuer is required to reimburse consumers the full amount in the event of fraudulent use of the consumer's card.

The Government issued guidance in December 2003 advising consumers how to guard against the risks associated with internet auction sites. Details are available from Consumer Direct Online at www.consumerdirect gov.uk/auctions.

In 2004 the Office of Fair Trading published Tips for Safe Trading when buying from private sellers. Information is available from www.oft.gov.uk/ internet + auctions.

The Home Office website provides information about internet crime, potential scams and how not be a victim of fraud. Their website address is www.homeoffice. gov.uk/crime/fraud/preventationadvice.

Laptop Computers

Lynne Featherstone: To ask the Secretary of State for Trade and Industry how many laptop computers have been used by *(a)* Ministers, *(b)* special advisers and *(c)* officials in his Department in each year since 1995; how many have been (i) lost and (ii) stolen in that period; what the cost was of the use of laptops in that period; and if he will make a statement. [4117]

Alan Johnson: We do not have figures for laptops prior to 1998. Before that laptops were expensive and were not widely available within DTI. In summary:

Ministers and Special Advisers

The number of laptops in use by Ministers and special advisers between 2000 and May 2005 varied between five in 2000 and eight by 2005. We do not have a breakdown of these.

DTI officials (Remote access to DTI Network)

1998—778 laptops used as standalone machines. Six lost/stolen. No running costs.

1999—1,325 laptops used as standalone machines. Five lost/ stolen. No running costs.

2000—1,733 laptops used as standalone machines. Six lost/ stolen. No running costs.

2001—300 laptops were in use for secure remote access at a cost of £360,000. 1587

laptops used as standalone machines. No running costs for these. Nine lost/stolen.

2002—900 laptops were in use for secure remote access at a cost of £1,080,000. 1688

laptops used as standalone machines. No running costs for these. 25 lost/stolen.

2003—1,400 laptops were in use for secure remote access at a cost of £1,430,000.

1338 laptops used as standalone machines. No running costs for these. 27 lost/stolen.

2004—1,550 laptops were in use for secure remote access at a cost of £1,575,000.

Approximately 1100 Laptops used as standalone machines. No running costs for these 12 were lost/stolen.

2005—1,500 laptops are in use for secure remote access, expected cost £1,525,000.

Approximately 1000 laptops used standalone machines. No running costs for these. 14 have been lost/stolen so far this year.

LES Project

Norman Baker: To ask the Secretary of State for Trade and Industry pursuant to the answer of 25 May 2005, *Official Report*, column 111W, on Nuclear Industry, to the hon. Member for Leyton and Wanstead (Harry Cohen), if he will give an undertaking that United Kingdom public funds will not be spent on this project. [4595]

Malcolm Wicks: Westinghouse operates in the United States as a commercial business. It generates its own profits and is free, within a strategic framework set by BNFL in consultation with its shareholder, to pursue business opportunities.

Miners' Compensation

John Mann: To ask the Secretary of State for Trade and Industry which claims handlers have sold miners' compensation claims to solicitors; and what action he is planning to take on this issue. [4859]

Malcolm Wicks: Although the Department is aware that claims farmers have been passing claims to solicitors, we do not keep a record of individual firms.

Currently, there are no laws covering the activities of claims handling agents where a client willingly enters into an agreement with them. However, following Sir David Clementi's review last year into the regulation of legal services, the Lord Chancellor has announced that legislation will be put forward that will see all those companies involved in claims processing come under a new legal services regulator. Such a regulator will have responsibility for ensuring that the services provided by all claims handling agents are of a required standard.

Nuclear Power

Andrew Stunell: To ask the Secretary of State for Trade and Industry what estimate he has made of the amount of carbon that is released per unit of electricity through the lifecycle of a nuclear power station, taking into account the building of the nuclear station and the transportation of nuclear materials; and if he will make a statement. [2642]

Malcolm Wicks: We are aware of a number of non-governmental studies on this, but DTI has made no such estimate.

Nuclear Transport Ships

Paul Flynn: To ask the Secretary of State for Trade and Industry how many nuclear transport ships are owned by the Nuclear Decommissioning Authority; and what the specifications of each are. [3121]

Malcolm Wicks *[holding answer 15 June 2005]:* The Nuclear Decommissioning Authority (NDA) owns two vessels the 'Atlantic Osprey' and the 'European Shearwater'. They were transferred to the NDA from BNFL on 1 April 2005 and are now registered in the NDA's name. Their specifications and certification are in accordance with those specified in the International Maritime Organisations' (IMO) International Code for the Safe Carriage of Packaged Irradiated Nuclear Fuel, Plutonium, and High Level Radioactive Wastes on Board Ships (INF Code). Details on the INF Code can be found at www.imo.org/home.asp. Information relating to the security systems in place on such vessels are confidential for security reasons.

Parking Charges (Airports)

Mr. Greg Knight: To ask the Secretary of State for Trade and Industry if he will invite the Competition Commission to investigate the level of car parking charges in force at airports in the UK. [3700]

Mr. Sutcliffe: At the five-yearly reviews conducted by the Competition Commission of the three BAA London airports and Manchester airport, the Commission is able to examine all activities conducted by the airports, including car parking. Where it concludes that the airport has been acting against the public interest in any of these activities the Commission can ask the CAA to impose a remedy in the form of a condition on the airport. The Competition Commission last reviewed the four airports during 2002. It did not make any public interest findings in relation to car parking at any of the airports but did indicate that car parking at Manchester airport was an issue to which it might wish to return at the next review.

Plutonium Consignments

Paul Flynn: To ask the Secretary of State for Trade and Industry when British Nuclear Fuels informed his Department that it planned to send consignments of plutonium to *(a)* French MOX plutonium nuclear fuel manufacturers Cogema and *(b)* Belgian MOX manufacturers Belgonucleaire; what details and when, of the proposed security arrangements for these plutonium transports were made available to (i) his Department and (ii) the Office of Civil Nuclear Security; when this was made available; and who will be responsible for funding for the implementation of the security arrangements for these shipments. [3123]

Malcolm Wicks *[holding answer 15 June 2005]:* I understand that BNFL is considering the transport of plutonium to France and Belgium as one of a number of options to repay loans of plutonium made to BNFL by companies in these countries. No formal plans have been submitted to the Department.

Any such shipment will be carried out in accordance with the Nuclear Industries Security Regulations 2003 (NISR), which are administered and enforced by the DTFs Office for Civil Nuclear Security (OCNS). A key requirement of the NISR is that a Transport Security Plan is submitted to OCNS for approval. All details of this plan, including dates, are confidential and it is not Government policy to release such information. OCNS will not approve the plan until it is satisfied that all measures are in place and are adequately robust to counter any credible threat. The responsibility for any costs of security arrangements falls onto BNFL.

Public Money Use Guidance

Mr. Greg Knight: To ask the Secretary of State for Trade and Industry whether he has issued guidance to regional development agencies concerning their use of public money. [3742]

Alun Michael *[holding answer 15 June 2005]:* Each of the eight regional development agencies outside London is issued with a management statement and financial memorandum under Section 27 of the Regional Development Agencies Act 1998; the London Development Agency receives a 'Grant offer letter', which serves the same purposes. These documents set out the Agency's powers to offer financial assistance and identify various Treasury guidance concerning the use of public money.

RDAs

Mr. Kidney: To ask the Secretary of State for Trade and Industry what budget was available to each regional development agency in England for each of the last three financial years; how much each spent on *(a)* running costs and *(b)* management costs in each year; and what proportion of the budget each represented in each year. [1274]

Alun Michael: For financial years 2002–03 and 2003–04, information for each Regional Development Agency (RDA) in England is detailed as follows. The Department does not monitor the RDAs' spend in terms of running costs and management costs. However, these costs, included as shown, are based on certain assumptions (see footnote). Figures in bracket represent these categories as percentage of each RDA's net budget allocation for that year.

£000

	Budget		*Running costs*[1]		*Management costs*[1]	
	2002–03	*2003–04*	*2002–03*	*2003–04*	*2002–03*	*2003–04*
Advantage West Midlands	205,156	252,506	9,159(4.5)	11,908(4.7)	6,457(3.1)	7,259(2.9)
East of England Development Agency	89,413	86,799	5,435(6.1)	5,810(6.7)	3,664(4.1)	4,037(4.7)
East Midlands Development Agency	102,892	130,127	5,569(5.4)	6,851(5.3)	5,611(5.5)	6,027(4.6)
London Development Agency	296,059	317,668	8,613(2.9)	12,980(4.1)	11,198(3.8)	13,291(4.2)
North West Development Agency	274,855	338,595	10,784(3.9)	14,128(4.2)	33,347(12.1)	45,775(13.5)
One North East	193,828	226,345	9,186(4.7)	12,288(5.4)	9,689(5.0)	9,736(4.3)
South East England Development Agency	115,034	140,718	8,678(7.5)	12,629(9.0)	6,473(3.3)	6,645(4.7)
South West of England Regional Development Agency	101,958	104,856	7,662 (7.5)	9,541 (9.1)	8,132 (8.0)	8,378 (8.0)
Yorkshire Forward	210,274	267,050	10,004(4.8)	12,093(4.5)	6,604(3.1)	7,317(2.7)

[1] Running costs and managements costs equates to "staff costs" and "other administration costs" respectively, as defined in the RDAs' Audited Accounts for 2003–04

Similar information for the financial year 2004–05 is not yet available until the RDAs' annual accounts have been audited. However, indicative estimates, by applying the percentages in 2003–04 under these categories to the RDAs' net budget allocations for 2004–05, are given as follows. These figures will need to be revised after the RDAs' annual accounts have been audited and laid before Parliament in July 2005.

£000

	Budget	*Indicative estimates*	
	2004–05	*Running costs*	*Management costs*
Advantage West Midlands	237,314	11,154	6,882
East of England Development Agency	92,177	6,176	4,332
East Midlands Development Agency	133,276	7,064	6,131
London Development Agency	327,642	13,433	13,761
North West Development Agency	366,968	15,413	49,541
One North East	228,651	12,347	9,832
South East England Development Agency	129,825	11,684	6,102
South West of England Regional Development Agency	115,758	10,534	9,261
Yorkshire Forward	290,497	13,072	7,843

Royal Mail

Peter Law: To ask the Secretary of State for Trade and Industry if he will make a statement on the future of the Royal Mail. [4691]

Barry Gardiner: The Government want to see a successful Royal Mail providing excellent services to its customers. The Government are committed to reviewing the impact on Royal Mail of market liberalisation on Royal Mail, which allows alternative carriers to offer postal services in competition with Royal Mail. We are currently working on the details of the review and hope to announce these shortly.

Solar Grants Programme

Lynne Featherstone: To ask the Secretary of State for Trade and Industry if he will make a statement on the future of the Solar Grants Programme operated by the Energy Savings Trust; how much funding remains to be allocated from the programme; how many applications are outstanding; and if he will make a statement. [4795]

Malcolm Wicks: The PV Major Demonstration programme has been extended to run until March 2006. A low carbon buildings programme will supersede both this and the Clear Skies programme. A consultation document for the new programme will be released on 23 June 2005.

Of a total of approximately 1250 stream one applications there are currently 481 that have been allocated grant funding from the existing budget and are yet to be completed. Of the 200 stream two approved projects there are 98 yet to be completed.

There are a further 30 stream two projects to be assessed at the next independent selection panel meeting in July 2005.

There are still currently £5.3 million unallocated under the current budget.

Television Channel Grants

Mr. Greg Knight: To ask the Secretary of State for Trade and Industry if he will list *(a)* how many and *(b)* which regional development agencies have given grants towards promoting, setting up or sustaining a television channel or channels; and whether he was consulted about such use of public money. [3741]

Alun Michael *[holding answer 15 June 2005]:* I understand that two of England's regional development agencies have given grants towards promoting or setting up TV channels. The London Development Agency is investing a total of £630,000 in London TV as part of a three-year grant agreement with Visit London. Along with another partner, Yorkshire Forward has invested £2.9 million over three years in a new digital satellite television channel called Propellor to promote the region's film and television talents.

The regional development agencies are required to seek the consent of my right hon. Friend the Secretary of State to give financial assistance outside their delegated authority. The LDA's grant to London TV was considered as part of the grant to Visit London and the agency was granted consent. Yorkshire Forward's investment in Propellor was within the agency's delegated authority.

Wassenaar Arrangement

Robert Key: To ask the Secretary of State for Trade and Industry what policy changes have been made in the past year to the UK's application of the Wassenaar Arrangement; and if he will make a statement. [4875]

Malcolm Wicks: No policy changes have been made in the past year to the UK's application of commitments made within the Wassenaar Arrangement. The Government continues to fully support the export control activities and principles of the Wassenaar Arrangement.

WORK AND PENSIONS

Benefits (Derbyshire)

Judy Mallaber: To ask the Secretary of State for Work and Pensions how many residents in *(a)* Amber Valley and *(b)* Derbyshire are in receipt of (i) incapacity benefit and (ii) industrial injury benefit. [4821]

Mrs. McGuire: The information is in the tables.

Incapacity benefit (IB) and severe disability allowance (SDA) claimants in areas shown as at February 2005

	Amber Valley	Derbyshire
IB/SDA	4,600	43,600
IB	4,000	38,600
SDA	500	5,000

Notes:
1. Figures have been rounded to the nearest hundred and may not sum due to rounding.
2. IB figures include credit-only cases.
3. Derbyshire figures are the total for the 10 parliamentary constituencies within the county of Derbyshire and Derby unitary authority.

Source:
Information Directorate, 5 per cent. sample.

Industrial injuries disablement benefit (IIDB), reduced earnings allowance (REA) and retirement allowance (RA) recipients in areas shown as at 30 September 2004

	Number
Amber Valley	995
Derbyshire	9,720

Notes:
1. Figures have been rounded to the nearest 5 to ensure anonymity.
2. A recipient may be in receipt of IIDB or REA/RA or both.
3. Derbyshire figures are the total for the 10 parliamentary constituencies within the county of Derbyshire and Derby unitary authority.

Source:
Industrial Injuries Computer System, 100 per cent. count.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions what contingency plans have been made for the transfer of child support functions to the HM Revenue and Customs. [3575]

Mr. Plaskitt: We have no such plans.

David T.C. Davies: To ask the Secretary of State for Work and Pensions when Stephen Brice, reference 1040238581, will have his payments to the Child Support Agency calculated under the new system. [4783]

Mr. Plaskitt: Information about individual cases is confidential and not disclosed.

Incapacity Benefit

Mr. Laws: To ask the Secretary of State for Work and Pensions what his estimate is of the total number of UK citizens claiming incapacity related benefits for each year since 1978–79; and if he will make a statement. [885]

Mrs. McGuire *[holding answer 25 May 2005]:* Information is not available in the format requested.

As a result of numerous changes to the benefits system the information on incapacity related benefits requested is not directly comparable over the whole period.

Incapacity related benefits between 1978 and 1983 included sickness benefit and the incapacity benefits of the time: invalidity benefit; non-contributory invalidity pension and housewives non-contributory invalidity pension.

In 1983, Statutory Sick Pay, paid by employers, was introduced. This had the effect of removing a large number of claimants from sickness benefit.

Between 1984 and April 1995 incapacity related benefits included sickness benefit and the incapacity benefits of the time: invalidity benefit and severe disablement allowance.

Since 13 April 1995, sickness benefit and invalidity benefit were replaced by incapacity benefit. From that date incapacity related benefits have consisted entirely of the incapacity benefits: incapacity benefit itself plus severe disablement allowance.

The available information is in the tables.

Incapacity related benefits claimants in Great Britain on the last day of the Department's statistical year (1978–83)

	Incapacity benefits[1]	*Sickness benefit*
1978	769,900	471,900
1979	832,100	430,400
1980	852,400	384,000
1981	872,800	352,600
1982	951,800	393,200
1983	1,008,400	338,400

[1] Incapacity benefits were invalidity benefit, non-contributory invalidity pension, housewives non-contributory invalidity pension and sickness benefits credits-only cases, until 1983.

Notes:

1. Figures are rounded to the nearest hundred.
2. Figures include some people over pension age.

Source:

Information Directorate 1 per cent. Sample

Incapacity related benefits claimants in Great Britain on the last day of the Department's statistical year (1984–95)

	Incapacity benefits[1]	*Sickness benefit*
1984	1,073,600	190,300
1985	1,146,700	179,700
1986	1,219,500	178,700
1987	1,305,800	109,600
1988	1,421,200	117,500
1989	1,557,900	109,200
1990	1,699,500	103,400
1991	1,862,400	109,600
1992	2,061,300	138,400
1993	2,283,100	147,000
1994	2,451,300	127,400
1995 (April)	2,627,900	127,200

[1] Incapacity benefits were invalidity benefit, severe disablement allowance and sickness benefits credits-only cases, up to April 1995.

Notes:

1. Figures are rounded to the nearest hundred.
2. Figures include some people over pension age.

Source:

Information Directorate 1 per cent. Sample

Incapacity related benefits claimants in Great Britain at the quarter shown (1995–2004)

As at November:	*Incapacity benefits*[1]
1995	2,767,500
1996	2,748,100
1997	2,738,800
1998	2,671,300
1999	2,637,500
2000	2,677,900
2001	2,705,100
2002	2,710,100
2003	2,720,500
2004	2,696,500

[1] Incapacity benefits are incapacity benefit, incapacity benefit credits-only and severe disablement allowance since November 1995.

Notes:

1. Figures are rounded to the nearest hundred
2. Figures include some people over pension age.

Source:

Information Directorate 5 per cent. sample

Mr. Laws: To ask the Secretary of State for Work and Pensions (1) how many recipients of incapacity benefit *(a)* returned to work, *(b)* died and *(c)* passed the state pension age in each quarter since 1997; and what proportion of all incapacity benefit claimants each represent; [1337]

(2) what the proportion of terminations of entitlement to incapacity benefit has been as a result of failing the personal capacity assessment or all work test in each of the last eight years. [1339]

Mrs. McGuire: The numbers leaving incapacity benefits and returning to work are not recorded in this format. An estimate of the proportion of incapacity benefit leavers returning to employment can be obtained from the annual Destination of Benefit Leavers Survey (DWP In-House Research Report no. 132), which is available in the Library. The latest published figures, for 2004 benefit leavers, show that 49 per cent. of incapacity benefit leavers surveyed had returned to work of 16 hours or more per week.

The available information is in the table.

Incapacity benefit and severe disability allowance terminations each quarter by reason and proportion.

	All terminations	*Death of claimant*	*Percentage*	*Award of RP*	*Percentage*	*Failed PCA*	*Percentage*
February 1997	244,000	8,300	3.41	5,600	2.28	35,500	14.54
May 1997	257,000	6,900	2.68	15,200	5.90	38,400	14.95
August 1997	241,800	7,500	3.10	17,800	7.34	35,100	14.51
November 1997	245,200	8,300	3.39	17,400	7.09	36,300	14.82
February 1998	230,400	8,100	3.52	18,700	8.13	37,000	16.04
May 1998	238,500	7,800	3.27	21,200	8.88	34,400	14.44
August 1998	215,800	6,500	3.02	20,700	9.57	35,300	16.37
November 1998	242,400	7,400	3.05	19,200	7.91	n/a	n/a
February 1999	193,700	8,100	4.20	19,400	10.02	31,900	16.46
May 1999	214,400	6,900	3.24	23,300	10.85	30,300	14.13
August 1999	217,400	7,500	3.43	23,500	10.79	28,200	12.96
November 1999	214,400	7,100	3.32	22,000	10.25	28,300	13.18
February 2000	213,300	8,800	4.11	22,900	10.73	27,600	12.92
May 2000	193,400	6,800	3.52	17,000	8.79	24,600	12.74

Incapacity benefit and severe disability allowance terminations each quarter by reason and proportion.

	All terminations	Death of claimant	Percentage	Award of RP	Percentage	Failed PCA	Percentage
August 2000	174,800	6,300	3.59	9,200	5.26	22,900	13.10
November 2000	180,400	7,000	3.88	8,400	4.67	20,300	11.23
February 2001	183,400	8,100	4.44	8,900	4.84	18,700	10.20
May 2001	187,300	7,300	3.89	11,300	6.01	20,200	10.78
August 2001	175,200	6,700	3.80	10,200	5.83	21,600	12.34
November 2001	188,400	7,200	3.82	10,000	5.31	26,400	14.01
February 2002	176,200	7,500	4.24	11,200	6.33	23,900	13.56
May 2002	181,100	6,200	3.41	12,100	6.67	25,700	14.21
August 2002	176,400	6,500	3.68	12,500	7.11	22,800	12.92
November 2002	185,900	7,600	4.09	11,100	5.95	27,000	14.51
February 2003	170,600	7,300	4.29	13,400	7.88	22,900	13.45
May 2003	166,200	6,500	3.94	15,500	9.32	24,400	14.71
August 2003	183,200	6,800	3.69	9,200	5.04	24,600	13.44
November 2003	187,200	7,100	3.78	6,000	3.23	24,700	13.22
February 2004	173,200	8,300	4.77	12,500	7.24	23,500	13.55
May 2004	175,600	6,600	3.78	16,300	9.27	27,100	15.41
August 2004	180,600	7,100	3.92	16,700	9.27	25,600	14.16
November 2004	128,900	6,700	5.21	14,200	11.01	30,100	23.36

Notes:
1. Figures are rounded to the nearest hundred. Totals may not sum due to rounding.
2. "n/a" means not available. This is because of changes to the recording system, terminations due to the Personal Capability Assessment for this quarter are unreliable and are included in an 'Other reasons' category.
3. Figures have been updated to include late notified terminations, including terminations for retirement pension.
4. Figures for the latest quarter do not include any late notifications and are subject to major changes in future quarters. For illustration purposes, total terminations for August 2003 increased by 34 per cent. in the year following their initial release.

Source:
Information Directorate, 5 per cent. samples.

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of incapacity benefit claims were made from people previously registered as unemployed in each year between 1990–91 and 2005–06; and if he will make a statement. [962]

Mrs. McGuire: The available information is in the table.

Proportion of incapacity benefit (IB) and severe disability allowance (SDA) commencements previously receiving jobseeker's allowance (JSA)

Year of commencement to IB/SDA	All IB/SDA commencements	Those who had claimed JSA within previous 90 days	Proportion of IB/SDA commencements who previously claimed JSA (percentage)
1 September 1995–31 August 1996	1,012,100	307,700	30.4
1 September 1996–31 August 1997	997,600	312,100	31.3
1 September 1997–31 August 1998	869,400	247,700	28.5
1 September 1998–31 August 1999	828,900	242,200	29.2
1 September 1999–31 August 2000	799,700	236,100	29.5
1 September 2000–31 August 2001	775,200	227,500	29.3
1 September 2001–31 August 2002	728,200	209,200	28.7
1 September 2002–31 August 2003	715,600	208,300	29.1
1 September 2003–31 August 2004	684,700	189,700	29.2

Notes:
1. Figures are rounded to the nearest hundred. Percentages are rounded to the nearest 0.1 per cent.
2. Commencement figures are not available prior to 1995.
3. Data are not yet available for final commencements post-August 2004.
4. 'Claimed JSA within previous 90 days' also includes a small number of IB/SDA claims where the computer system JSA end date was up to seven days after the IB/SDA start date. This category also includes cases who may have claimed another benefit (eg income support) between JSA and IB/SDA.

Occupational Pensions Regulatory Agency

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many staff were employed by the Occupational Pensions Regulatory Agency in each of the last five years of its existence, broken down by grade; how many of the staff employed by the agency on 5 April are now employed by the Pensions Regulator, broken down by grade; and how many new staff have been employed by the Pensions Regulator since 6 April, broken down by grade. [4346]

Mr. Timms: The information requested is contained in the following tables. The information has been supplied by the Pensions Regulator.

Staff employed by OPRA in each of the last five years of its existence (by grade) [1]

Unemployment/Incapacity

Mr. Laws: To ask the Secretary of State for Work and Pensions what his estimate is of the differential between the value of incapacity benefit and its predecessor benefits and unemployment benefit in each year between 1979–80 and 2005–06; and if he will make a statement. [970]

Mrs. McGuire: The information is in the tables.

Nominal rates of invalidity benefit (IVB) and unemployment benefit (UB)/jobseeker's allowance (JSA) for single claimants between 1979 and 1994

£ per week

	IVB (1)	UB/JSA (2)	Difference (1)-(2)
November 1979	23.30	18.50	4.80
November 1980	26.00	20.65	5.35
November 1981	28.35	22.50	5.85
November 1982	31.45	25.00	6.45
November 1983	32.60	27.05	5.55
November 1984	34.25	28.45	5.80

Annual Abstract of Statistics

DEFENCE

Afghanistan

Mr. Wallace: To ask the Secretary of State for Defence which units are designated by his Department to be deployed to Afghanistan during *(a)* 2005 and *(b)* 2006. [3698]

Mr. Ingram: The United Kingdom will deploy the 1st Battalion The Royal Gloucestershire, Berkshire and Wiltshire Regiment to Afghanistan in October 2005, to replace the 2nd Battalion The Royal Gurkha Rifles, as our principal contribution to the International Security Assistance Force (ISAF) in Kabul and Northern Afghanistan.

In May 2006, the Headquarters Group of the Allied Rapid Reaction Corps (ARRC) will deploy to Kabul as the Headquarters of the ISAF. We are currently assessing the nature and scale of our future commitment in Afghanistan.

Aircraft Carriers

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) what *(a)* discussions and *(b)* meetings officials in his Department have had with their counterparts in France about possible collaboration on the (i) acquisition and (ii) construction of aircraft carriers; and if he will make a statement; [3921]

(2) what discussions have taken place with French defence officials regarding the adoption by France of the UK's aircraft carrier design; and how much he expects France to pay for the right to use the UK design. [3920]

Mr. Ingram: Ministry of Defence officials have met their French counterparts on several occasions to discuss what the possibilities might be for co-operation between our two countries in the procurement of our respective next generation aircraft carriers. It is too soon to say what, if any, co-operation there will be as both countries believe that areas of beneficial co-operation are best determined by our respective industries. Ongoing studies by industry will determine the optimum and most cost-effective way in which any co-operative options can be implemented. It would be inappropriate to speculate on what industry's proposals may consist of, but Governments will take a view on their proposals, when available, later this year.

Defence Logistics Organisation

Mr. Hancock: To ask the Secretary of State for Defence what the expected annual savings are from the integration of the Medical Supplies Agency and the Warship Supply Agency into the Defence Logistics Organisation. [3954]

Mr. Ingram: The Medical Supplies Agency (MSA) transferred to the Defence Logistics Organisation (DLO) from the Surgeon General's Department on 1 April 2002. It changed from a Defence Agency to the

Medical Supplies Integrated Project Team on 1 April 2005. The estimated savings in the following table are derived from the overall MSA Transformation Programme and not specifically from any change of status.

	£ million
2005-06	13.9
2006-07	15.7
2007-08	15.9
2008-09	16.2

The Warship Support Agency (WSA) was disestablished in April 2005 as part of the wider Defence Logistics Organisation Restructuring Programme, to allow the full benefits from the overall restructuring process and organisational changes to be realised. Cost savings directly attributable to the change in the WSA's status alone are limited. These relate to the cost of administering the agency and are an estimated £250,000 per annum.

Falkland Islands

Mr. Hoyle: To ask the Secretary of State for Defence what average periods of service have been performed by members of the armed forces in the Falklands since 1981. [5011]

Mr. Ingram: Deployment tour lengths in the Falkland Islands vary with the service involved. For the Royal Navy and Army, tours are usually of six months duration. RAF officer tours are for either six months or four months duration. For RAF other ranks tours are usually four months.

There are a number of continuity postings on the Falkland Islands which may be accompanied and are usually of one year's duration, although this tour length can be extended for service reasons.

Iraq

Mr. Hancock: To ask the Secretary of State for Defence if he will make representations to his United States counterpart to investigate claims made by former US Marine Jimmy Massey that US coalition forces in Iraq shot dead unarmed Iraqi civilians at roadblocks in Iraq; and if he will make a statement. [2904]

Mr. Ingram: The activity of American coalition forces is a matter for the US Authorities. Our coalition partners are fully aware of their obligations under international law and have procedures in place to address any alleged contraventions.

Lynne Featherstone: To ask the Secretary of State for Defence how many United Kingdom military personnel were in Iraq on *(a)* 1 January 2004 and *(b)* 1 January 2005; and if he will make a statement. [4659]

Mr. Ingram: On 1 January 2004 there were some 7,600 UK Service personnel serving in Iraq. On 1 January 2005, the figure was approximately 8,000. Numbers fluctuated throughout the year for a variety of reasons, the primary factor being the deployment of a Divisional Armoured Reserve (initially the One Black Watch Battlegroup) in June 2004.

Nuclear Deterrent

Sir Menzies Campbell: To ask the Secretary of State for Defence when a decision will be taken on the replacement of Trident; and if he will make a statement. [4845]

John Reid: I have nothing to add to the answer that I gave on 7 June 2005, *Official Report*, column 466W to the hon. Member for New Forest, East (Dr. Lewis).

Service Personnel (Remuneration)

Mr. Ancram: To ask the Secretary of State for Defence how many members of the *(a)* Royal Navy, *(b)* British Army and *(c)* Royal Air Force have resigned citing poor financial remuneration as their principal reason for leaving since 2003. [2664]

Mr. Touhig: Exit Surveys are conducted within the Naval Services and RAF but only a relatively small proportion of those choosing to leave respond. Therefore, the results cannot be seen as representative of their Services as a whole.

Within the Naval Service only the Fleet organisation (some 67 per cent. of total Naval Service) run an Exit Survey. Of the 759 personnel who did respond between October 2003 and July 2004,15 per cent. of Royal Naval and 46 per cent. of the Royal Marines personnel quoted pay as their reason for leaving.

In the RAF in 2002-03, of the 184 Officers who responded, "pay and remuneration" issues ranked sixth in importance out of eight groups of issues for reasons for leaving, with 16 per cent. of respondents ranking them among their top three reasons for leaving. Among airmen and women for the same period, "dissatisfaction with pay" was rated as an important or very important reason for leaving by 39 per cent. of the 723 personnel who responded, placing it 57th factor in the overall list of importance. "Salary outside the RAF", however, was rated as important or very important by 62 per cent., placing it 16 overall.

In 2003-04, the Officers' survey respondents were asked to select their top five reasons for leaving the RAF. Of the 152 respondents replying to this question, two per cent. rated "basic pay" as one of their top five reasons for leaving, ranking it 80th in a list of 98 factors. In the same period, of the 543 Airmen and women who responded to this question, 9 per cent. rated "basic pay" among their top five reasons for leaving, ranking it 18th out of a list of 102 factors.

The Army do not currently run an Exit Survey, however, the possibility of doing so is being considered and it appears likely that they will implement such a survey in the future.

HEALTH

Adult Abuse

Mr. Burstow: To ask the Secretary of State for Health what progress has been made on the establishment of a national data collection system on adult abuse; and if she will make a statement. [2912]

Mr. Byrne: The Department is funding Action on Elder Abuse to carry out a two-year project which will contribute to the development of a national data collection system on adult abuse. A report of findings from the first year of the project will be placed in the Library shortly.

Alcohol Harm Reduction Strategies

Mr. Burstow: To ask the Secretary of State for Health what assessment she has made of the implementation of local alcohol harm reduction strategies. [5611]

Caroline Flint: The Department wrote to all primary care trusts in February 2005 to encourage them to adopt local alcohol harm reduction strategies, but no assessment has been made of their implementation as yet. As announced in the Choosing Health White Paper, we are developing a programme of improvements for alcohol treatment services to be launched this autumn.

Alcohol-related Problems

Tim Loughton: To ask the Secretary of State for Health how many people under the age of 18 were admitted to hospital for alcohol related problems in 2004–05. [4624]

Caroline Flint: The latest data set that is available for people under the age of 18 admitted to hospital for alcohol related problems is for 2003–04. This is shown in the table.

Counts of finished admission episodes where there was a primary diagnosis code or cause code for selected alcohol related diseases. Age at admission between 0–18 years. national health service hospitals, England 2003–04

Primary diagnosis	*Number*
F10 Mental and behavioural disorders due to use of alcohol	3,934
K70 Alcoholic liver disease	1
T51 Toxic effect of alcohol	712
Cause code	
X45 Accidental poisoning by and exposure to alcohol	396

Notes:

1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the hospital episode statistics (HES) data set and provides the main reason why the patient was in hospital.
3. The cause code is a supplementary code that indicates the nature of any external cause of injury, poisoning or other adverse effects.
4. Figures have not been adjusted for shortfalls in data (that is, the data are ungrossed).

Source:

Hospital episode statistics, Health and Social Care Information Centre.

Alliance Medical Ltd.

Mr. Kevan Jones: To ask the Secretary of State for Health what representations she has received from County Durham and Tees Valley Strategic Health Authority about the role of Alliance Medical in the NHS; and if she will make a statement. [2252]

Mr. Byrne *[holding answer 6 June 2005]:* County Durham and Tees Valley Strategic Health Authority (SHA) contacted the Department in early June following an Alliance Medical Ltd. (AML) site visit in April 2005. The Department is currently discussing the issues raised with AML and the SHA.

Alzheimer's and Dementia

Mr. Jim Cunningham: To ask the Secretary of State for Health how her Department plans to ensure that quality affordable medicines will be available to people with *(a)* Alzheimer's and *(b)* dementia. [3803]

Mr. Byrne *[holding answer 15 June 2005]:* The National Institute for Health and Clinical Excellence (NICE) is currently reviewing its 2001 appraisal of Alzheimer's drugs. Until NICE completes this review and issues new guidance, the 2001 guidance remains extant and those using the drugs in question will continue to do so.

NICE is also pursuing an appraisal of non-Alzheimer pharmaceutical treatments. This appraisal has been halted while NICE awaits further information on drug licensing and marketing. NICE will continue to monitor the progress of marketing authorisation on interventions for non-Alzheimer's dementia and will contact consultees and commentators at such time as may be appropriate to resume appraisal.

NICE is also producing a comprehensive guideline on the treatment and care of those with dementia. This will take account of the appraisals being done on drug treatments for dementia. A draft of the guideline will be consulted on in 2006.

Anaesthetic Awareness

Mr. Roger Williams: To ask the Secretary of State for Health (1) what procedures are used to encourage patients to report anaesthetic awareness; [2375]

(2) how many cases of anaesthetic awareness have been recorded in England in each year since 1997; [2376]

(3) what procedures are used in the NHS to detect anaesthetic awareness; and what routine checks are made in hospitals to prevent its incidence. [2377]

Jane Kennedy: There are currently no procedures to encourage specific reporting of anaesthetic awareness by patients and the Department does not routinely collect information about the number of cases.

However, the National Patient Safety Agency (NPSA) that we established in July 2001 to improve the safety of national health service patient care by promoting an open and fair culture has in place a national reporting and learning system for adverse events across the NHS. The NPSA is about to start a pilot to encourage patients to report all patient safety incidents, including those involving anaesthetic awareness.

The NPSA has also undertaken a review of the anaesthetic process. This involved taking a "standard patient journey" and working through the whole process, identifying and analysing the risks. The NPSA is now in the process of identifying and prioritising areas

for action and is being assisted in its work by a clinical speciality adviser (CSA) in anaesthetics and an anaesthetic reference group.

The most important contribution to patient safety in this area is the continuous presence of a highly trained and skilled anaesthetist who has the benefit of modern equipment to deliver and monitor the patient's condition. The Association of Anaesthetists of Great Britain and Ireland, which represents more than 9,000 anaesthetists, has issued "Minimum Standards for Monitoring" in recognition of the importance of monitoring the patient throughout an anaesthetic. The Association also launched its revised guidelines, "Checking Anaesthetic Equipment", in 2004. The guidelines were developed jointly with the Royal College of Anaesthetists and their application by all anaesthetic staff will help to improve patient safety.

Antibiotics

John Hemming: To ask the Secretary of State for Health on what the £12 million that has been made available for monitoring the use of antibiotics is being spent. [4593]

Jane Kennedy: As part of the clinical pharmacist initiative, we are providing £12 million over three years to support hospital clinical pharmacists in monitoring the use of antibiotics in relation to local policies. The funding is given to acute trusts via primary care trusts and the acute trusts decide how to use the money. This is frequently used to support a hospital clinical pharmacist.

Antimicrobial Strategy and Action Plan

John Hemming: To ask the Secretary of State for Health what plans the Department has to update the June 2000 Antimicrobial Strategy and Action Plan. [4592]

Jane Kennedy: We do not plan to revise the United Kingdom "Antimicrobial Strategy and Action Plan" as the aims and objectives are being taken forward by the Specialist Advisory Committee on Antimicrobial Resistance.

Arm's Length Bodies

Mr. Lansley: To ask the Secretary of State for Health what the total budget for arm's-length bodies contained within the Department's review of arm's length bodies is for 2005–06; and what this figure was in *(a)* 2004–05 and *(b)* 2003–04. [3358]

Jane Kennedy: The recurrent operating costs for the Department's arm's length bodies (ALBs) for the years in question are shown in the table.

	£ million
2003–04	1,842
2004–05	2,063
2005–06	1,780

Notes:
1. 2003–04 costs include 2004–05 costs of the Commission for Healthcare Audit and Inspection and the Commission for Social Care Inspection since these bodies were in start-up mode in 2003–04.
2. 2004–05 costs increased because of taking on of new services, new ALBs and ALBs coming fully on stream.
3. 2005–06 costs do not include £50 million of non-recurrent costs.

Arrhythmia

Mr. Drew: To ask the Secretary of State for Health how many cases of arrhythmia were treated by *(a)* the Acute Trust and *(b)* community trusts, including GP services, in Gloucestershire in the last year for which figures are available. [4342]

Mr. Byrne: Information on numbers of arrhythmia cases treated is collected centrally by trust, but not for general practitioner services. Figures for community trusts in Gloucestershire are between one and five and due to reasons of confidentiality have been suppressed. The number of cases of arrhythmia that were treated at Gloucestershire hospitals national health service trust in 2003–04 are shown in the table.

	Number
Finished consultant episodes with a primary diagnosis of arrhythmia, which indicates the patient was attending specifically for treatment of their arrhythmia	93
Finished consultant episodes with an arrhythmia diagnosis code recorded in any of the diagnosis fields—arrhythmia codes might occur in secondary fields if they are being treated as part of an overall cardiology problem	261

Notes:
1. A finished consultant episode (FCE) is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
2. All Diagnoses count of episodes—these figures represent a count of all FCE's where the diagnosis was mentioned in any of the 14 (seven prior to 2002–03) diagnosis fields in a hospital episode statistics (HES) record.
3. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the HES data set and provides the main reason why the patient was in hospital.
4. Secondary diagnoses—as well as the primary diagnosis, there are up to 13 (six prior to 2002–03) secondary diagnosis fields in HES that show other diagnoses relevant to the episode of care.
5. ICD-10 diagnosis codes for arrhythmia are:
147.0 Re-entry ventricular arrhythmia
149.0 Ventricular fibrillation and flutter
149.1 Atrial premature depolarization
149.2 Junctional premature depolarization
149.3 Ventricular premature depolarization
149.4 Other and unspecified premature depolarization
149.5 Sick sinus syndrome
149.8 Other specified cardiac arrhythmias
149.9 Cardiac arrhythmia, unspecified
P29.1 Neonatal cardiac dysrhythmia
6. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed). HES, Health and Social Care Information Centre

Autism

Mr. Davey: To ask the Secretary of State for Health what training is provided to *(a)* doctors, *(b)* nurses and *(c)* other healthcare professionals in treating and caring for those with autism; and what funding has been allocated for the treatment of autism in the 2005–06 financial year. [3162]

Mr. Byrne: The training of doctors, nurses and other healthcare professionals in treating and caring for those with autism is a matter for the relevant professional bodies. Overall, in 2004–05, the national health service spent £3.6 billion on training. Information about funding allocations is not held centrally. It is for local NHS organisations to decide how resources should be allocated between services, taking account of local circumstances and priorities.

Barnet Chase Farm Hospital

Mr. Dismore: To ask the Secretary of State for Health if she will make a statement on activity levels at Barnet Chase Farm hospital in *(a)* the last month and *(b)* each of the last three years. [3252]

Jane Kennedy: The reported activity levels over the last few years for Barnet and Chase Farm hospital are shown in the following table.

	Elective admissions	*Non-elective admissions*
2001–02	32,537	25,873
2002–03	32,720	28,054
2003–04	34,890	29,567
2004–05	34,386	34,192
April 2005	2,861	2,924

These figures are for all general and acute specialties and are sourced from the Department's monthly monitoring returns.

Mr. Dismore: To ask the Secretary of State for Health what she expects the capacity of the new surgery unit at Chase Farm hospital to be; when she expects it to be operating at, or near to, that capacity; when she expects it to open; and if she will make a statement. [3269]

Jane Kennedy: North Central London Strategic Health Authority have advised that the surgicentre will have a capacity of 3000 cases a year and anticipates it to be operational later this month.

The surgicentre will include orthopaedic in-patient services, general day cases, and endoscopies. It will provide an elective service, which will not be affected by emergency activity.

Mr. Dismore: To ask the Secretary of State for Health if she will make a statement on the financial position of Barnet Chase Farm Hospital Trust. [3271]

Jane Kennedy: Subject to the process of audit and final accounts, the trust broke even in 2004–05. It has yet to agree a financial plan for 2005–06, which would enable it to achieve a balanced position. North London Strategic Health Authority is working closely with Barnet and Chase Farm Hospitals National Health Service Trust and its primary care trusts to achieve that end.

Mr. Dismore: To ask the Secretary of State for Health if she will make a statement on standards of cleaning at Barnet hospital. [3267]

Jane Kennedy: As part of the patient environment action team's inspection programme Barnet and Chase Farm Hospitals National Health Service Trust was assessed in 2005 as acceptable—from a five-point scale which runs through excellent, good, acceptable, poor or unacceptable.

British Nutrition Foundation

David Taylor: To ask the Secretary of State for Health what role the British Nutrition Foundation has in advising her Department on food and nutrition policy. [2797]

Caroline Flint: The British Nutrition Foundation (BNF) are members of the nutrition forum which was set up in 2002 to bring key stakeholders in nutrition together. The forum aimed to allow an exchange of views, build stakeholder relationships and assist the Food Standards Agency and United Kingdom health Departments in the development and implementation of nutrition policies.

The Government obtains its scientific advice on nutrition and health from an independent expert advisory committee, the scientific advisory committee on nutrition.

Cardiac Care

Mr. Drew: To ask the Secretary of State for Health how many specialist nurses there are in Gloucestershire who deal with *(a)* coronary heart disease and *(b)* arrhythmia in young people. [4344]

Mr. Byrne: Information on numbers of specialist nurses dealing with coronary heart disease and arrhythmia for young people is not collected.

Childhood Obesity

Hugh Robertson: To ask the Secretary of State for Health how many children in England were obese *(a)* in 1997 and *(b)* in the latest period for which figures are available. [1737]

Caroline Flint *[holding answer 6 June 2005]:* The available information is shown in the following table. Although figures are requested for the United Kingdom, the Department only holds figures for England. These are taken from the results of the Health Survey for England for 1997 and 2003, the latest year for which figures are available.

Obesity prevalence and population estimates in English children aged two to 15 in 1997 and 2003

Aged two to 15 with a valid body mass index (BMI) measurement

	Year	
BMI status	*1997*	*2003*
Percentage obese	12.6	16.6
Number of children surveyed	2,854	2,833
Surveys estimates represented as a number of the total population		
Number obese (million)	1.1	1.4

Note:
UK national BMI percentile classification used to classify obesity in children. Population figures used are 2001 census based resident population estimates. As figures are derived from a random sample of less than 3,000 children in each of 1997 and 2003, they may be subject to some sampling error and should therefore be treated with caution.

Health Survey for England 2003.

Chronic Liver Disease

Keith Vaz: To ask the Secretary of State for Health what assessment her Department has made of the success rate in recent trials of using patients' own stem cells to treat chronic liver disease. [3389]

Jane Kennedy: The Department awaits the results of these research trials using patients' own stem cells to treat chronic liver disease with interest. As with all research, until the experimental analysis is completed, subjected to peer review and replicated by other researchers, it would be wrong to speculate on the potential clinical implications for patients.

Civil Servants

Mr. Paul Goodman: To ask the Secretary of State for Health how many civil servants in the Department received faith awareness training in 2004. [3808]

Jane Kennedy: The Department has produced guidance notes for managers and staff on religious add cultural awareness and a brief guide to world religions following the introduction of the Employment Equality (Religion and Belief) Regulations. These notes will be supplemented by further training later this year, when the Department's new diversity package is launched. This package will include a specific module on faith and belief.

Community Hospitals

Tony Baldry: To ask the Secretary of State for Health (1) what facilities are planned to be provided by *(a)* new and *(b)* existing community hospitals; [3403]

(2) whether newly-built community hospitals will provide inpatient facilities; [3404]

(3) whether she plans that existing community hospitals should continue to provide inpatient beds. [3405]

Mr. Byrne: We are currently considering the range of services that could be offered by the new generation of community hospitals promised in the Labour manifesto. Decisions on exactly which services will be provided by each new community hospital will be made, in full consultation with the public and health professionals locally.

Steve Webb: To ask the Secretary of State for Health (1) what her Department's plans are for the expansion of community hospitals over the next five years; [4401]

(2) what funding has been allocated centrally for the expansion of community hospitals over the next five years. [4403]

Mr. Byrne: The Department is in the early stages of planning for the expansion of community hospitals and the exact amount of central funding to be made available will be determined at a later stage.

Continuing Care (Coventry)

Mr. Jim Cunningham: To ask the Secretary of State for Health how many people in Coventry South are receiving NHS fully-funded continuing care. [3802]

Ms Rosie Winterton: This information is not held centrally.

Correspondence

Mr. Swire: To ask the Secretary of State for Health what the requirements are for NHS health trusts and hospitals to include both a telephone number and an email address on all communications. [1861]

Jane Kennedy *[holding answer 14 June 2005]:* The NHS identity guidance, is available on the nhs.uk website at www.nhsidentity.nhs.uk, published in 2000, gives examples of stationery layouts which explicitly include telephone numbers and email addresses. Reinforcing this, the toolkit for producing patient information (2003), also to be found on the identity website, includes in its checklists a reminder that contact information should be considered.

It is for national health service organisations to decide how contact information should be presented, within the bounds of the identity guidance, depending on the needs of their patients or service users and the circumstances of the particular communication.

Direct Payments (Disabled People)

Tim Loughton: To ask the Secretary of State for Health how many people with disabilities use direct payments. [4642]

Mr. Byrne: The information requested is shown in the table.

England—1 April 2003 to 31 March 2004

	Direct payments		
	All ages	*18 to 64*	*65 and over*
Physical disability, frailty and sensory impairment	14,000	8,900	5,400
Learning disability	1,900	1,800	—

Note:
These figures are estimates based on the figures from 144 of the 150 councils. Figures do not sum due to rounding.

Duchenne Muscular Dystrophy

Mr. Lansley: To ask the Secretary of State for Health what funding has been made available for research into Duchenne muscular dystrophy in each year since 1997 from *(a)* the Medical Research Council, *(b)* the Department of Health's research and development budget and *(c)* other sources; what research funding she plans to provide for research into Duchenne muscular dystrophy in the coming years; and if she will make a statement. [3449]

Mr. Byrne: Medical Research Council (MRC) spend on research relevant to Duchenne muscular dystrophy since 1997 is shown in the following table.

£ million

	Spend
1997–98	0.5
1998–99	0.53
1999–2000	0.59
2000–01	1.13
2001–02	2
2002–03	1.8
2003–04	2.4

Much of the muscular dystrophy research supported by the MRC is on-going.

The main part of the Department's expenditure on health research is allocated to and managed by national health service organisations. Details of individual projects supported in the NHS, including a number concerned with Duchenne muscular dystrophy, can be found on the national research register at www.dh.gov.uk/research.

In 2004, the Department announced £1.6 million funding, from the Genetics White Paper, for a four year project which aims to address the cause of muscular dystrophy.

Fraud

Mr. Baron: To ask the Secretary of State for Health what assessment she has made of whether the creation of the Legal Protection Unit of the Counter Fraud and Security Management Services has increased the rate of detection and prosecution of offences of assault against healthcare workers during their hours of work. [4348]

Jane Kennedy *[holding answer 14 June 2005]:* Work is currently being undertaken on the collation and validation of the number of successful prosecutions obtained in 2004–05 against those who have physically assaulted NHS staff. Once the figures have been fully checked it is planned to release these shortly.

General Practitioners (Hornsey and Wood Green)

Lynne Featherstone: To ask the Secretary of State for Health how many full-time equivalent NHS general practitioners have been employed in each of the last five years in Hornsey and Wood Green constituency; and if she will make a statement. [4614]

Jane Kennedy: Figures for all general practitioners, excluding retainers and registrars, for Haringey Teaching Primary Care Trust for 2001 to December 2004 are shown in the table.

All practitioners (excluding retainers and registrars)[1], for Haringey Teaching Primary Care Trust, 2001 to December 2004

Estimated full-time equivalents

	Q05 North Central London	*5C9 Haringey Teaching PCT*
2000	757	[2]—
2001	752	142
2002	768	141
2003	803	138
2004	800	140
December 2004	745	134

[1] General medical practitioners (excluding retainers and registrars) includes contracted GPs, general medical service (GMS) others and personal medical service (PMS) others. Prior to September 2004, this group included GMS unrestricted principals, PMS contracted GPs, PMS salaried GPs, restricted principals, assistants, salaried doctors (Para 52 SFA), PMS other, flexible career scheme GPs and GP returners.

[2] Data not applicable.

Notes:
1. Data as at 30 September 2000–2004 and 31 December 2004.
2. Full time equivalent (FTE) data has been estimated using the results from the 1992–93 GMP Workload Survey For 1994 to 2003: contracted GPs—Full time = 1.00 fte; three quarter time = 0.69 fte; job share = 0.65 fte; and half time = 0.60 fte; other GP types Full time = 1.0 fte.
For 2004: All GPs—Full time 1.0 fte; part time = 0.6 fte, and therefore may not be fully comparable with previous years.
FTE GP Retainers have been estimated using a factor of 0.12 per session for 1994–2004.

Source:
National Health Service Health and Social Care Information Centre GMS and PMS statistics.

GPs (Out of Hours)

Mr. Jenkins: To ask the Secretary of State for Health how many out-of-hours general practitioners there are per thousand of the population in *(a)* the area covered by Burntwood, Lichfield and Tamworth Primary Care Trust, *(b)* the Shropshire and Staffordshire Strategic Health Authority and *(c)* England. [3319]

Mr. Byrne: The information is not collected by the Department. However, information may be available from the primary care trust (PCT) and strategic health authority.

The Department is supporting out-of-hours services through greatly increased funding which have been allocated directly to PCTs which commission out-of-hours services. Some £316 million was allocated in 2004–05 to help fund PCT provision of out-of-hours services. In addition, PCTs also using their unified budgets—increased by £12.7 from £45 billion in 2003–04 to £53.9 billion in 2005–06—to establish integrated networks of urgent care provision.

Health Bodies

Tim Loughton: To ask the Secretary of State for Health how many members of staff of the Healthcare Commission are on zero-hour contracts. [4666]

Jane Kennedy *[holding answer 14 June 2005]:* I understand from the Chairman of the Healthcare Commission that it employs 34 locum inspectors on zero-hour contracts.

Tim Loughton: To ask the Secretary of State for Health how many people are employed by the *(a)* Healthcare Commission and *(b)* Mental Health Act Commission expressed as (i) headcount and (ii) full-time equivalent. [4667]

Jane Kennedy *[holding answer 14 June 2005]:* I understand from the Chairman of the Healthcare Commission that as at 31 May the Commission had a staff of 744 (708 whole time equivalents).

I also understand from the Chairman of the Mental Health Act Commission that as at 31 May the Commission employed 42 staff (42 whole time equivalents) at its headquarters in Nottingham. This includes two executive board appointments, the Chief Executive and the Director of Finance. The Mental Health Act Commission is also responsible for the appointment of Second Opinion Appointed Doctors to carry out functions under Section 58 of the Mental Health Act 1983: currently there are 150 such appointees. Additionally, there are 102 Commissioners

who are public appointees appointed under Office of the Commissioner for Public Appointments rules by the NHS Appointments Commission to carry out the Commission's visiting function on behalf of the Secretary of State.

Healthcare Commission/ Commission for Social Care Inspection

Mr. Lansley: To ask the Secretary of State for Health what progress has been made on merging the Healthcare Commission with the Commission for Social Care Inspection; whether this merger will require primary legislation; when she expects this merger to be completed; and if she will make a statement. [3356]

Jane Kennedy: The approach to and time scale for the merger is being determined, in the context of the wider review of regulation in social care and health, as announced in the Chancellor's Budget statement on 16 March.

Merging the two Commissions will require primary legislation.

The Chancellor announced on 16 March that plans would be developed to achieve a merger by 2008.

Hepatitis C

Mrs. Dean: To ask the Secretary of State for Health what advice her Department has given to local authorities to assist them in monitoring tattoo and piercing parlours to prevent infections, with particular reference to hepatitis C. [4396]

Caroline Flint: In February 2004 the Department published "Regulation of Cosmetic Piercing and Skin-Colouring Businesses", guidance for local authorities on section 120 of the Local Government Act 2003. The guidance explains the provisions in section 120 and Schedule 6 of the Local Government Act 2003, which amend section 15 of the Local Government (Miscellaneous Provisions Act) 1982, and came into force on 1 April 2004.

The new provisions give local authorities in England (outside London) and in Wales, specific powers relating to persons carrying on businesses of cosmetic piercing, that is, piercing of the body including the ear, and semi-permanent skin-colouring, including micropigmentation, semi-permanent make-up and temporary tattooing. Local authorities will be able to require such businesses: to register themselves and their premises; and to observe byelaws relating to the cleanliness and hygiene of premises, practitioners and equipment.

London local authorities already have such powers under private legislation (London Local Authorities Act 1991 and the Greater London Council (General Powers) Act 1981).

These measures are intended to increase health protection and reduce the risk of transmission of blood-borne virus infections such as HIV and hepatitis B and C and other infections. The publication also contains model byelaws that local authorities may wish to adopt in their area to facilitate consistency of enforcement. It also makes reference to the Health and Safety Executive/ Local Authorities Enforcement Liaison Committee, Local Authority Circular 76/2: Enforcement of skin piercing activities (October 2001). This contains comprehensive guidance on issues such as infection control, waste disposal and aftercare advice.

Before the new provisions were introduced by the Local Government Act 2003, local authorities had powers under the Local Government (Miscellaneous) Provisions Act 1982 to regulate ear piercing, tattooing, acupuncture and electrolysis by requiring registration and observance of byelaws.

Mr. O'Hara: To ask the Secretary of State for Health what the reason was for the decision not to pay the same level of compensation to the widows and dependants of those who have died from hepatitis C contracted from contaminated blood products administered under the NHS the same level of compensation paid to widows and dependants of those who have died from HIV/ AIDS contracted similarly. [3394]

Caroline Flint: I refer my hon. Friend to the reply my hon. Friend, the then Parliamentary Under Secretary for Health (Melanie Johnson) gave on 22 March 2005, *Official Report*, column 742W.

Hospital-acquired Infections

Mr. Lidington: To ask the Secretary of State for Health (1) at what intervals hospital trusts are required to provide her Department with details of cases of clostridium difficile; [5038]

(2) whether hospital trusts are required to report cases of clostridium difficile to the strategic health authority. [5039]

Jane Kennedy: As part of the mandatory surveillance scheme, hospital trusts are required to provide the Health Protection Agency with information on "Clostridium difficile" quarterly. They are not required to routinely report cases to the strategic health authority.

Alison Seabeck: To ask the Secretary of State for Health what assessment her Department has made of the effectiveness of supermarket kits designed to counter hospital-based infections. [3891]

Jane Kennedy: Healthcare workers should be trained in the use of personal protective equipment (PPE) and in the performance of clinical procedures to keep down the risk of infection. Consequently, these kits are unnecessary and patients do not need to take their own PPE into hospital.

Mr. Lansley: To ask the Secretary of State for Health when she will publish the data collected under the mandatory surveillance scheme for *(a) clostridium difficile* associated diarrhoea, *(b)* glycopoptide resistant enterocci and *(c)* orthopaedic surgical site infection; and whether this data will be published for intervals of six months. [3363]

Jane Kennedy: I refer the hon. Member to the reply I gave on 13 June 2005, *Official Report*, columns 104–05W.

Mr. Dismore: To ask the Secretary of State for Health if she will make a statement on the incidence of MRSA at Barnet and Chase Farm Hospitals. [3272]

Jane Kennedy: There were 60 meticillin resistant *Staphylococcus aureus* (MRSA) bacteraemia reports for Barnet and Chase Farm Hospitals National Health Service Trust for the period April 2004 to September 2004. The MRSA rate per 1000 bed-days were 0.35.

London Ambulance Service

Mr. Burstow: To ask the Secretary of State for Health what the arrangements will be for patient involvement in the London Ambulance Service after the existing patients forum is abolished. [3304]

Ms Rosie Winterton: The London Ambulance Service (LAS) national health service trust is fully committed to working with patients and their representatives and will continue to develop an effective relationship with them in order to improve further the quality of patient care delivered throughout London.

It is the Government's intention to focus patient forum activity at the primary care trust (PCT) level but with arrangements in place to ensure the whole "patients' journey" is covered by forum activity. In the context of the London Ambulance Service NHS trust, it is envisaged that all London PCT forums would work together to ensure that ambulance services are monitored and reviewed effectively from the patient perspective. It will be for the forums themselves to decide how best to achieve a comprehensive and robust arrangement, but one approach might be for each PCT forum to nominate one of its number to form a pan-London specialist ambulance review panel. Such an arrangement would mean that there was strong input from across the city with a membership of 29, with each London locality having a real chance to input into the LAS at both strategic and operational levels.

Multiple Sclerosis

Lynne Jones: To ask the Secretary of State for Health if her Department will commission trials into the use of low-dose naltrexone for the treatment of multiple sclerosis. [3296]

Mr. Byrne: The main agency through which the Government support medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology.

The MRC does not normally allocate funds to particular topics. Research proposals in all areas compete for the funding available. When appropriate, high quality research in particular areas of strategic importance may be given priority in competition for funds, but research excellence and importance to health continues to be the primary considerations in funding decisions. The MRC always welcomes high quality applications for support into any aspect of human health and these are judged in open competition with other demands on funding.

National Service Framework for Older People

Mr. Burstow: To ask the Secretary of State for Health (1) what assessment she has made of the implementation of the National Service Framework for Older People milestone for *(a)* annual medicine reviews for all people over 75 years and *(b)* six-monthly medicine reviews for people over 75 years taking four or more medicines; [2917]

(2) what estimate she has made of the proportion of the population aged over 75 years being treated with four or more prescribed medicines at one time in the last period for which figures are available. [2918]

Mr. Byrne: The Department does not collect centrally the data requested.

Strategic health authorities, as part of their performance management role, must ensure that primary care trusts within their areas are providing quality services to their patients. This includes delivering the milestones in national service frameworks.

The national medicines management collaborative use medication reviews as measures for assessing improvements in patient care. They have monitored medication reviews for older people undertaken through general practitioner surgeries and also within care homes. Historic data for both measures, collected from the 146 PCTs taking part in the programme, suggest that there have been significant and sustained improvements in the number and quality of medication reviews.

National Service Standards

Lynne Featherstone: To ask the Secretary of State for Health if she will make a statement on national standards for *(a)* prosthetic, *(b)* orthotic and *(c)* wheelchair services. [3070]

Jane Kennedy: These services are provided on a basis of clinical need and managed by the primary care trusts.

NHS Business Services Authority

Sir Paul Beresford: To ask the Secretary of State for Health what the *(a)* overall budget and *(b)* budget for each constituent body is for the NHS Business Services Authority; whether there will be any reduction in staff numbers from the Dental Practice Board following the merger into the NHS Business Services Authority; and what estimate her Department has made of the transfer costs of the merger. [3281]

Jane Kennedy *[holding answer 13 June 2005]:* The NHS Business Services Authority (BSA) will constitute the Dental Practice Board, the Prescription Pricing Authority and the NHS Pensions Agency. It has yet to be finalised if the Counter Fraud and Security Management Services (CFSMS) will form part of the BSA.

It is anticipated that the BSA will commence operations on 1 April 2006. The Chairman and Chief Executive have yet to be appointed and until they are in place, detailed business plans cannot be agreed.

The baseline budget for the BSA in 2006–07 is £120.7 million, which is based on the collective budgets for the BSA old component parts. In accordance with the review of Arm's Length Bodies announced in 2004, the BSA will be expected to make a saving of £25 million on this figure in its second year. Budgets will not be set for the BSA's old constituent parts.

Over time, the BSA expects to reduce the total number of posts by 25 per cent., compared to today. Where these posts will be reduced has not yet been determined as the business strategies are being formulated.

The transfer costs of the merger will depend largely on the extent to which the BSA is restructured. Options are still under evaluation and it is therefore not possible to calculate likely transfer costs.

NHS Fraud

Mr. Lansley: To ask the Secretary of State for Health how many responses to the Department's consultation on access to relevant documents, records and data to counter NHS fraud raised concerns that the pre-consultation process would impact adversely on patient confidentiality; how many responses there were in total; and if she will make a statement. [3436]

Jane Kennedy: Maintaining patient confidentiality is vitally important and the consultation sought views on the proposed safeguards that should be in place to ensure confidentiality is protected. Consequently, a number of responses commented on the importance of the proposed safeguards. These include a new criminal offence in the unlikely event that information obtained through these powers is wrongly disclosed. However, of the 47 responses only 11 responses specifically addressed the issue of patient confidentiality regardless of any proposed safeguards. The 47 responses showed overwhelming support for the proposed measures.

Obesity

Keith Vaz: To ask the Secretary of State for Health what steps the Government are taking to encourage people suffering from obesity to lose weight, with particular reference to those in disadvantaged areas. [3899]

Caroline Flint: Better services to help people, including those in disadvantaged areas, to lose weight and then maintain a more healthy weight are among the key issues covered in the Government White Paper "Choosing Health: Making healthy choices easier". Specific action includes an obesity awareness campaign, the development of a comprehensive care pathway and a weight loss guide.

Panton-Valentine Leukocidin

Keith Vaz: To ask the Secretary of State for Health what research her Department commissioned into the presence and spread of the strains of staphylococcus aureus with Panton-Valentine Leukocidin. [3387]

Jane Kennedy: No research has been commissioned into the prevalence of Panton-Valentine Leukocidin producing "Staphylococcus aureus". However, the Department is investigating the feasibility of a survey to establish the prevalence of community acquired staphylococcal infections, expected to provide evidence on the prevalence of "Staphylococcus aureus" with Panton-Valentine Leukocidin.

Keith Vaz: To ask the Secretary of State for Health what steps her Department is taking to make medical practitioners aware of the symptoms of infections with staphylococcus aureus with Panton-Valentine Leukocidin. [3388]

Jane Kennedy: The Health Protection Agency has already published a number of articles alerting healthcare professionals to these infections and the Chief Medical Officer will be issuing guidance to raise awareness and promote good practice.

Pedicabs/Rickshaws

Mrs. Dunwoody: To ask the Secretary of State for Health how many people were treated in hospital for injuries resulting from accidents which occurred while they were passengers in pedicabs and rickshaws in the last period for which figures are available. [3191]

Caroline Flint: The specific information requested is not collected centrally. There is data on people admitted as hospital in-patients but we are not able to identify accidents to passengers of pedicabs and rickshaws as a separate group.

Race Relations

Keith Vaz: To ask the Secretary of State for Health how many and what percentage of staff in her Department have received training on the general and specific duties of the Race Relations (Amendment) Act 2000, broken down by *(a)* ethnicity and *(b)* grade. [3537]

Jane Kennedy: The Department ran mandatory valuing diversity training sessions for all staff in 2002 and 2003. This training included information about the Race Relations (Amendment) Act. The Department is currently developing further training on diversity that will be launched later this year, and which all staff will be expected to complete. This training will include a specific module on race relations.

Keith Vaz: To ask the Secretary of State for Health what arrangements are in place to ensure that bodies within the responsibility of her Department comply with the requirements of the Race Relations (Amendment) Act 2000. [3538]

Jane Kennedy: The Department published its new three-year race equality scheme on 27 May 2005, which is available on the Department's website[1]. This sets out how the Department and its Executive Agencies, NHS Connecting for Health, NHS Purchasing and Supply Agency and Medicines and Healthcare Products Regulatory Agency, intend to meet their obligations under the Race Relations (Amendment) Act 2000. Monitoring reports on the implementation of this Scheme will be made to the Departmental Management Board and Corporate Management Committee on at least a six monthly basis.

Repeat Prescriptions

Mr. Burstow: To ask the Secretary of State for Health (1) what plans she has to make the Quality and Outcomes Framework indicator for medication reviews for repeat prescriptions available to *(a)* hon. Members and *(b)* the public; [2914]

(2) whether the Healthcare Commission has responsibility for measuring compliance with the quality and outcomes framework indicator for medication reviews for repeat prescriptions; and if she will make a statement. [2916]

Jane Kennedy: All of the quality and outcomes framework (QOF) indicators are publicly available in the general medical service statement of financial entitlement 2004–05; a copy of which is available in the Library. The data on achievement against the QOF indicator set for 2004–05 will be published in August 2005 by the health and social care information centre (HSCIC).

The Healthcare Commission has responsibility for the performance of primary care trusts (PCTs). The Healthcare Commission does not have responsibility for measuring the compliance with the QOF indicators. PCTs assess compliance by participating practices with the QOF indicators.

Mr. Lansley: To ask the Secretary of State for Health what guidance she has issued to NHS organisations on the length of cycles for which repeat prescriptions should operate. [3412]

Jane Kennedy: Guidance on the length of national health service prescriptions was issued by the National Prescribing Centre in issue 20 of its quarterly newsletter, *Connect*, in March 2000. Copies have been placed in the Library.

Rheumatology

Mr. Lansley: To ask the Secretary of State for Health what proportion of rheumatologists are unable to prescribe anti-TNFa therapy to rheumatoid patients they identify as being suitable for such treatment in accordance with National Institute for Clinical Excellence guidelines. [3438]

Mr. Byrne: This information is not collected centrally.

Mr. Lansley: To ask the Secretary of State for Health what proportion of rheumatologists are unable to prescribe anti-TNFa treatments for *(a)* psoriatic arthritis and *(b)* ankylosing spondylitis in accordance with guidelines set by the British Society for Rheumatology. [3439]

Mr. Byrne: This information is not collected centrally.

South Birmingham Hospital

John Hemming: To ask the Secretary of State for Health by how much the contract price for the new South Birmingham Hospital has changed since the initial budgets. [3788]

Mr. Byrne: This is a matter for the Chair of the University Hospital Birmingham National Health Service Foundation Trust. I have written to Mr. John Charlton informing him of your enquiry.

UK Doctors (Developing Countries)

John Battle: To ask the Secretary of State for Health how many doctors who trained in the UK are working in developing countries. [3657]

Mr. Byrne: The requested information is not collected centrally.

Water (Bacterial Contamination)

Norman Baker: To ask the Secretary of State for Health if she will make a statement on the frequency and level of bacterial contamination found in *(a)* bottled and *(b)* tap water; and what assessment she has made of the health implications therefrom. [4480]

Mr. Morley: I have been asked to reply.

Spring and bottled drinking water must comply with similar microbiological safety standards to those for the public water supply in the Water Supply (Water Quality) Regulations (England) 2000. These parameters are specified in the Natural Mineral Water, Spring Water and Bottled Drinking Water Regulations 1999 (as amended). The Food Standards Agency is aware of two withdrawals of bottled water on the grounds of bacterial contamination since 2000.

Water companies in England and Wales have to monitor for specific microbiological parameters at the frequencies and points set out in the Water Supply (Water Quality) Regulations 2000 in England and 2001 in Wales. These parameters are total coliform bacteria, *E.coli*, Enterococci and *Clostridium perfringens*. The presence of these organisms indicates potential bacterial contamination of the water supply and the possible presence of other pathogens. If any of these organisms is detected, water companies are required to investigate the source of the potential contamination and take appropriate action to protect public health. Monitoring results are included in the annual reports to the Secretary of State by the Chief Inspector of Drinking Water, available in the House of Commons Library. Recent reports for the years 1999–2003 are also available on the Drinking Water Inspectorate website (www.dwi.gov.uk).

FOREIGN AND COMMONWEALTH OFFICE

Airline Failure (Repatriation Arrangements)

Mr. Marshall: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans his Department have in place for repatriating UK citizens stranded abroad in the event of a major scheduled airline failure. [4591]

Dr. Howells: British embassies, consulates and high commissions overseas have up-to-date plans for helping British citizens affected by all types of consular emergency. The Foreign and Commonwealth Office strongly recommend that UK citizens travelling abroad take out comprehensive travel insurance.

My right hon. Friend the Secretary of State for Transport (Mr. Darling) is currently considering the issue of financial protection for air travellers, including the possibility of extending statutory protection to all UK-originating flights.

Azerbaijan

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations

his Department has made to the Government of Azerbaijan regarding the arrest and detention of Mrs. Almas Guliyeva. [4229]

Mr. Douglas Alexander: We have been closely involved in the case of Mrs. Guliyeva since her arrest and detention earlier this month. Staff from our embassy in Baku have been in contact with the Ministry of Foreign Affairs, the Customs Committee, the police and Mrs. Guliyeva's lawyer. In addition, on 13 June our ambassador sought clarification from the Deputy Foreign Minister on whether the Azeri authorities intend to charge Mrs. Guliyeva. We await the authorities' response.

Shortly after she was detained, Mrs. Guliyeva fell ill, and has been hospitalised. consular staff from our embassy visited her both immediately after her detention and in hospital.

Diego Garcia (Terrorist Suspects)

Mr. Ellwood: To ask the Secretary of State for Defence if he will make a statement on the status of terrorist suspects held on military bases in Diego Garcia. [4827]

Mr. Douglas Alexander: The US authorities have repeatedly given us assurances that no terrorist suspects are being held on Diego Garcia, or have at any time passed in transit through Diego Garcia or its territorial waters. The British representative on Diego Garcia has confirmed this to be the case.

European Armaments Agency

Mr. Davidson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is his policy that the creation of a European Armaments Agency, as proposed in the Treaty Establishing a Constitution for Europe, could be agreed without ratification of the Treaty. [4892]

Mr. Douglas Alexander: The European Defence Agency was established in June 2004, following unanimous agreement by EU Heads of State and Government. The Government agreed with this decision as the European Defence Agency could be established under the current Treaty provisions, and we believed that the Agency would make a real contribution to enhancing the effectiveness of EU member states' military capabilities.

Former Yugoslavia

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on progress in the search for Bosnian war-crime suspects, with particular reference to *(a)* Radovan Karadzic and *(b)* General Ratko Mladic. [4050]

Mr. Douglas Alexander: We welcome recent progress in the search for fugitive war crimes suspects. In the last six months, 17 Bosnian Serb or Serbian indictees have been transferred to The Hague by the Governments of Serbia and of the Republika Srpska in Bosnia and Herzegovina—there are now only 10 remaining fugitives. These include Radovan Karadzic and Ratko Mladic, who remain at large 10 years after the Srebrenica massacre, for which they are held most responsible.

The Chief Prosecutor, Carla del Ponte, in her most recent report to the United Nations Security Council, has commended the improvement in co-operation from the authorities in Belgrade and Banja Luka, who have re-iterated their commitment to full co-operation with the International Criminal Tribunal for the former Yugoslavia. But the policy of encouraging voluntary surrenders, which they have pursued to date, appears to have reached it limits.

The UK, together with the international community, therefore continues to press for the transfer of all outstanding fugitive indictees, notably Karadzic and Mladic, as well as Gotovina, to The Hague. If they are unwilling to surrender voluntarily, the countries of the region should locate and arrest them.

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on progress in the search for the Croation war-crimes suspect General Ante Gotovina. [4051]

Mr. Douglas Alexander: The latest report of the Chief Prosecutor of the International Criminal Tribunal for the former Yugoslavia (ICTY)—Carla del Ponte—the United Nations Security Council makes clear there are still serious deficiencies in Croatian efforts to locate and detain fugitive indictee Ante Gotovina. The report notes some positive developments, such as the adoption by the Croatian authorities of an Action Plan to improve co-operation, but reaffirms that Croatia cannot be said to be co-operating fully until Gotovina is in The Hague, or until the provision of information leading to his location and arrest.

The UK fully supports the Chief Prosecutor's assessment and continues to press for the transfer of all remaining fugitive indictees, in particular Karadzic, Mladic and Gotovina, to The Hague.

Hamas

Mrs. Ellman: To ask the Secretary of State for Foreign and Commonwealth Affairs what instructions he has given his diplomatic representatives in relation to contacts with Hamas in the West Bank and Gaza; and if he will make a statement. [3511]

Dr. Howells *[holding answer 13 June 2005]:* In February my right hon. Friend the Foreign Secretary authorised working-level contacts in the normal course of business with Hamas elected representatives not directly implicated in violence. The Government will not have any contacts with the leadership of Hamas until they have dropped their commitment to the destruction of Israel and given up violence as a legitimate tool.

There have been two such meetings. One with the Mayor of Deir al-Balah on 7 March and the other with the Mayor of Qalqilya on 2 June. In both meetings British officials made clear HMG's demand that Hamas renounce violence and recognise Israel's right to exist. They also discussed the municipality services and budget and the political, economic and humanitarian

situation with both mayors. No decisions were taken at either of these meetings, nor were there specific "outcomes". No further such meetings are planned.

Hepatitis C

Mrs. Dean: To ask the Secretary of State for Foreign and Commonwealth Affairs what advice his Department gives to those travelling overseas about the dangers of contracting *(a)* hepatitis C and *(b)* other infections from tattooing. [4397]

Dr. Howells: We do not provide specialist advice. However, as a part of its "Know Before You Go" travel safety campaign and through its Travel Advice service, the Foreign and Commonwealth Office (FCO) offers general health-related advice and tips to British travellers going overseas. For example, the FCO website (www.fco.gov.uk) carries a reference to the risks associated with tattooing in relation to HIV and AIDS.

The FCO website carries a link to the Department of Health website for more detailed information on health issues.

India

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to *(a)* the Indian Government and *(b)* the Chief Minister of Andhra Pradesh concerning the recent murders of Pastor Isaac Raju and Pastor K Daniel. [4697]

Dr. Howells: We have no plans to raise these, individual cases involving Indian citizens, with the Government of India. However we do engage with India on the wider issues raised by these cases in the course of our bilateral relationship.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to *(a)* the Indian Government and *(b)* the Chief Minister of Gujarat concerning the continuing activities of militant Hindu groups in (i) Andhra Pradesh state and (ii) India. [4698]

Dr. Howells: We have no current plans to make representations to the Indian Government or the Government of Gujarat about the continuing activities of alleged militant Hindu groups in India. But we do raise regularly, at various levels, the issues of political and religious freedom with the Government of India.

The Government had a policy of non-engagement with the Government of Gujarat, including Chief Minister Modi, since the atrocities of 2002 because of our strong concerns over what was the worst outbreak of religious related violence in India for over 10 years.

Iraq

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to conduct an inquiry into the Iraqi Oil for Food programme, with specific reference to British involvement. [5269]

Dr. Howells: I refer my hon. Friend to the reply I gave on 23 May 2005, *Official Report*, column 29W and to my right hon. Friend the Foreign Secretary's response to the Foreign Affairs Committee's 6th report on Foreign Policy Aspects of the War against Terrorism, presented to Parliament on 8 June 2005, paragraph 5, page 5. The report is also available on the Foreign and Commonwealth Office's website at http://www.fco.gov.uk/Files/kfile/Cm6590.pdf

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Volcker investigations; and if he will make a statement. [5270]

Dr. Howells: The Government support fully the work of the Independent Inquiry Committee (IIC) investigating the allegations of corruption surrounding the UN's Iraq Oil for Food Programme. There have been no ministerial representations to the Independent Inquiry Committee. However, UK Government officials are in frequent contact with IIC staff regarding their investigations.

Israel

Mark Lazarowicz: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with representatives of Israel regarding the future of the Separation Wall. [4264]

Dr. Howells: Most recently my right hon. Friend the Foreign Secretary raised his concerns about the route of the barrier with Israeli Foreign Minister Silvan Shalom during his visit to Israel on 7 June 2005. The Foreign Secretary reiterated this Government's position that, while we fully recognise Israel's right to self-defence, we believe that the barrier should be built either on or behind the Green Line.

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on *(a)* the Israeli separation wall, *(b)* Israel's plans to build houses in the E1 corridor and *(c)* Israeli plans for Al-Bustan in the Silwan Valley. [4861]

Dr. Howells: The UK fully recognises Israel's right to self-defence, and agrees that a barrier is a reasonable way to achieve this. But the barrier's route should be on or behind the Green Line, and not on occupied territory. My right hon. Friend the Foreign Secretary reiterated our position on this to Israeli Foreign Minister Shalom during his visit to Israel on 7 June.

Settlements are illegal under international law and an obstacle to peace. We oppose Israeli Government plans to build 3,500 housing units in E1—an area between Jerusalem and the settlement of Ma'aleh Adumim. The Israeli Government says there is no prospect of the plan being implemented soon. But its implementation would effectively split the West Bank in two. The Foreign Secretary also raised this Government's concerns over the impact of continued settlement activity with Israeli Prime Minster Sharon during his recent visit to Israel.

We were disturbed to hear reports of plans by Israel to demolish 88 homes in Silwan in East Jerusalem and we raised our concerns with the Israeli authorities. We are encouraged to hear that there is now no intention to issue orders to demolish these homes.

Middle East

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his counterparts from *(a)* the US, *(b)* Russia and *(c)* the EU regarding the Middle East peace process; and if he will make a statement. [4860]

Dr. Howells: We are in regular contact at all levels with EU partners and members of the Quartet, as well as the parties, to seek to move the Middle East peace process (MEPP) forward.

Quartet members met at Ministerial level in Moscow on 9 May. We believe it remains crucial that the Quartet plays a central role on the MEPP. As presidency of the EU from July, we shall represent the EU on the Quartet, and shall do whatever we can to use that opportunity to seek progress towards the goal of a negotiated, two-state solution.

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress of the Middle East peace process. [4884]

Dr. Howells: There have been positive steps on the Middle East peace process since the beginning of the year. Progress includes renewed high level contact between the parties and a dramatic fall in the level of violence and number of casualties. However, the situation remains fragile.

The UK remains energetically engaged. It is important that the momentum of progress is maintained. US Security co-ordinator General Ward and the Quartet's disengagement representative Jim Wolfensohn are leading work on security, and economic and governance issues, respectively. My right hon. Friend the Foreign Secretary visited the region on 7–8 June to offer UK support for both sides and for General Ward and Mr. Wolfensohn, and to encourage the parties to do all they can to take advantage of the opportunities for progress.

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent *(a)* discussions and *(b)* meetings (i) he and (ii) his staff have had with (A) Israeli and (B) Palestinian representatives. [4897]

Dr. Howells: We have regular meetings and discussions with both Israeli and Palestinian representatives at all levels. Most recently my right hon. Friend the Foreign Secretary visited Israel and Palestine on 7–8 June. The Foreign Secretary had a range of meetings, including with Israeli Prime Minister Ariel Sharon, Vice Prime Minister Ehud Olmert and Foreign Minister Shalom, and Palestinian Authority President Mahmoud Abbas (Abu Mazen), Prime Minister Ahmed Qurei (Abu Ala) and Foreign Minister Nasser Al Qidwa, as well as US security co-ordinator General Ward and Quartet co-ordinator for disengagement Jim Wolfensohn.

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to host another conference in London on the Middle East peace process. [4988]

Dr. Howells: We have no immediate plans to host another conference in London on the Middle East peace process. We continue to work with partners to ensure that progress on follow-up work to the London Meeting of 1 March is maintained. We also support Israeli disengagement from Gaza and part of the West Bank as an important step towards reviving the momentum of the Middle East peace process.

Palestinian Authority

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Palestinian Authority on its decision to re-introduce the death penalty. [5047]

Dr. Howells: The continued passing of the death sentence by the Palestinian Authority is a matter of concern. On 13 June 2005, four convicted murderers were executed by the Palestinian Authority in Gaza. The UK has repeatedly raised its concerns with the Palestinian Authority and will raise its concerns about these recent executions. Dutch diplomats (as local EU Presidency) have already made representations to the Palestinian Ministry of Foreign Affairs on the 13 June 2005 executions. We also plan to raise this bilaterally with the Palestinian Authority at the earliest opportunity.

Honours

Mr. Pope: To ask the Secretary of State for Foreign and Commonwealth Affairs how many officials in his Department received honours in the recent Queen's Birthday Honours List; and at what rank of honour. [4937]

Mr. Straw: The following numbers of awards were made to officials in the Foreign and Commonwealth Office in the Birthday 2005 Honours List.

Award	*Number*
KCMG	1
CMC	5
QBE	6
MBE	13 (including four locally engaged staff overseas)

In addition, four members of the British Council received honours (two OBEs and two MBEs).

Russia

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made to the Russian authorities about the auction of Yuganskneftegaz. [4654]

Mr. Douglas Alexander: Russia has made important progress along the path of economic and democratic reforms since the break-up of the Soviet Union. But it is clear that its handling of the Yukos affair raises important questions about the rule of law with implications for business and foreign investors alike. We have, through regular Ministerial as well as Embassy contacts with the Russian Government, made clear our concerns in this respect. My right hon. Friend the Prime Minister also discussed the present state of Russia and its future development when he met President Putin in Moscow on 13 June.

We welcome President Putin's words in his address to the Russian Parliament on 25 April when he said that the tax authorities had no rights to terrorise business.

We continue to make clear the importance to investors of an environment in which they can do business and where their legal and property rights are protected.

Ukraine

Tony Lloyd: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of changes in the *(a)* economy, *(b)* constitution and *(c)* media in Ukraine since Viktor Yushchenko became President. [5045]

Mr. Douglas Alexander: With only four months elapsed since the new government under President Viktor Yushchenko took office it is early days and much work is still in progress. On the economy, positive steps have been taken to tackle corruption and to simplify the tax system. Progress is also being made to meet the conditions needed to secure Market Economy Status from the EU and to accede to the World Trade Organisation. However, uncertainty remains over the review of past privatisations and there are questions over the longer-term affordability of recent increases in pensions and civil service salaries. The constitutional reforms to increase the powers of the Parliament and Prime Minister in relation to the President are likely to come into force in either September this year or January 2006. The Ukrainian Government is also making progress in entrenching the new freedoms that the media has enjoyed since the Orange Revolution and in investigating the case of the murdered journalist, Hearhiy Gongadze. We look to the Ukrainian Government to maintain the momentum in order both to deliver sustainable growth and prosperity and to take Ukraine closer to the EU.

Visa Cases

Derek Wyatt: To ask the Secretary of State for Foreign and Commonwealth Affairs when the visa of Knanittha Srihonthaen will be approved. [4793]

Dr. Howells: I regret that I cannot provide my hon. Friend with this information as it is not our practice to disclose details of individual entry clearance cases in a public forum. My hon. Friend should write to UKvisas at the Foreign and Commonwealth Office for further information on this application.

NORTHERN IRELAND

Access to Information (Cross-border)

Mr. Dodds: To ask the Secretary of State for Northern Ireland when a code of practice on access to information held by cross border implementation bodies is expected to be adopted. [4392]

Angela E. Smith: A draft Code of Practice on Freedom of Information for North South Implementation Bodies and Tourism Ireland Ltd. is expected to be available for public consultation before the end of this month. The Code will come into formal operation after the consultation process has been completed and formal approval obtained from the North South Ministerial Council.

Dogs Order

Mr. Dodds: To ask the Secretary of State for Northern Ireland when the review of the Dogs Order *(a)* began and *(b)* ended; how many meetings of the review group were held; and who the members of the review group were. [4388]

Angela E. Smith: The review of the Dogs Order commenced in February 2000 by the issue of a consultation letter to district councils and the USPCA seeking their views on amendments to the Dogs (Northern Ireland) Order 1983. No review group was established.

Work on reviewing the responses received was suspended in February 2001 following the foot and mouth disease outbreak, and subsequently it has not been possible to take this work forward. The Department of Agriculture and Rural Development does recognise that a review of the Dogs (Northern Ireland) Order 1983 is still required and it is planned to carry out this review as soon as other pressures and commitments allow.

Economic Growth

Mr. Lidington: To ask the Secretary of State for Northern Ireland what estimate he has made of the growth of the Northern Ireland economy in 2004; and what his estimate is for 2005. [4081]

Angela E. Smith: The latest available figures for Gross Value Added (GVA) relate to 2003 and these show that over the year, the Northern Ireland economy grew by an estimated 6.0 per cent. in nominal terms. This is higher than the UK average of 5 per cent. for the same period, with only the East Midlands showing a higher level of growth.

Government does not produce forecasts for regional economic growth.

Education and Library Board Services

Lady Hermon: To ask the Secretary of State for Northern Ireland what efficiency savings he expects education and library boards in Northern Ireland to make in the 2005–06 financial year. [3570]

Angela E. Smith: In the 2005–06 financial year the NI Education and Library Boards have been asked to realise resource releasing efficiency gains of at least £3.5 million on Centre costs and a further £4.8 million on ear-marked initiative funding for reinvestment in front-line services. The Board Centre gains relate to improved procurement practices, improvements in Home to School Transport arrangements and reductions in teacher absenteeism. The gains on ear-marked initiatives will be made in relation to the School Improvement Programme.

Boards will also be expected to realise non-resource releasing efficiency gains of £20.1 million principally in relation to teaching, learning and administrative services, following recent investment in information and communications technology through the Classroom 2000 project.

Electricity Prices

Mr. Lidington: To ask the Secretary of State for Northern Ireland what use has been made of the expenditure allocated in September 2003 to bring about a 10 per cent. reduction in electricity prices to business in Northern Ireland. [4080]

Angela E. Smith: The expenditure allocated in September 2003 was aimed at delivering a Government proposal to reduce electricity prices for business. It has not been possible to implement this because of EU state aid difficulties which the Department is still seeking to resolve.

As an interim measure, £8.8 million of the available funding has been allocated to assist with energy efficiency measures. This will have the effect of an average 1.5 per cent. reduction in electricity tariffs for all customers in the 2005–06 tariff year. It will also enable Northern Ireland Electricity to constrain tariff increases for 2005–06 to an average of 3.9 per cent. for all customers and to an average of 4.9 per cent. for business customers.

Employment (Public and Private Sectors)

Mr. Lidington: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of employee jobs in Northern Ireland in *(a)* the private sector, *(b)* the public sector and *(c)* in total at 31 March of each year from 1998. [4083]

Angela E. Smith: Estimates of the number of employee jobs in the private sector, the public sector and in total in Northern Ireland at the first Monday in March in each year 1998 to 2005 are detailed in the following table.

Employee jobs[1] in private sector, public sector and total employee jobs

	(a) Private sector jobs	*(b) Public sector jobs*	*(c) Total employee jobs*
March 1998	413,430	195,680	609,110
March 1999	424,520	196,350	620,870
March 2000	438,130	199,340	637,470
March 2001	446,720	202,180	648,900
March 2002	455,930	205,110	661,040
March 2003	458,080	210,850	668,930
March 2004	461,880	216,430	678,310
March 2005[2]	470,730	220,430	691,160

Quarterly Employment Survey, DETI

Governance Systems (Higher Education)

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) what plans he has to review the size and composition of boards of governors at further and higher education colleges in Northern Ireland; [3478]

(2) what plans he has to review systems of governance at further education colleges in Northern Ireland. [3480]

Angela E. Smith: The recent review of the strategy for further education recommended fewer but larger management units in colleges of further and higher education with a resultant reduction in the number of governing bodies to match the number of new colleges. As part of this process the Department will review the size and constitution of governing bodies.

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment he has made of the adequacy of systems of university governance within Northern Ireland. [3482]

Angela E. Smith: The Department for Employment and Learning obtains assurance on the adequacy of the university governance within Northern Ireland through the involvement of the Higher Education Funding Council for England's Assurance Service and the adoption of their assurance regime. Assurance arrangements for each institution are agreed through the Financial Memorandum.

Assurance of the adequacy of governance is obtained through the annual audit of the following documents from each institution: a monitoring statement, corporate planning statement, financial forecasts and the accounts which include a statement of internal control.

Universities in Northern Ireland adopt the Committee of University Chairmen (CUC) Guide for Members of Higher Education Governing Bodies in the UK—Governance Code of Practice and General Principles; 2004. On the 2 June 2005 the Leadership Foundation for Higher Education provided a one-day seminar on this code. This seminar was attended by representatives from both the executive teams and the governing bodies of both of the Province's universities.

Industrial Growth

Mr. Lidington: To ask the Secretary of State for Northern Ireland what the rate of growth of total industrial production in Northern Ireland was in 2004; and what his estimate is of such growth in 2005. [4079]

Angela E. Smith: Latest figures from the Index of Production show that total industrial production output in Northern Ireland grew by 2.8 per cent. in real terms between 2003 and 2004.

Government does not produce forecasts for industrial production.

Manufacturing Employment

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many jobs there were in the manufacturing sector in Northern Ireland at 31 March of each year from 1998. [4082]

Angela E. Smith: Estimates of the number of employee jobs in the manufacturing sector in Northern Ireland at the first Monday in March in each year 1998 to 2005 are detailed in the following table.

Table 1—Employee jobs[1] in manufacturing

	Number of jobs
March 1998	106,580
March 1999	105,310
March 2000	104,550
March 2001	102,790
March 2002	97,740

Table 1—Employee jobs[1] in manufacturing

	Number of jobs
March 2003	93,520
March 2004	90,040
March 2005[2]	87,650

[1] Figures are rounded to the nearest 10

Money Advice Strategy

Mr. Dodds: To ask the Secretary of State for Northern Ireland what progress has been made on the implementation of the Government's Money Advice strategy for Northern Ireland; how much has been allocated so far; and what criteria were used to determine the recipients. [4391]

Angela E. Smith: Following consultation with key stakeholders, a pilot money advice project is being delivered in 2004–05 and 2005–06 by Advice NI and Citizens Advice. The Department has allocated £550,000 of funding to the pilot project. Over £231,000 of the budget available has been drawn down to date. The locations of the specialist advice posts that are being funded are based on the evidence of unmet need identified by external independent consultants, and advice from Advice NI and Citizens Advice.

An ongoing evaluation of the pilot project will help provide the basis for developing a longer-term money advice strategy for Northern Ireland.

Planning Applications

Lady Hermon: To ask the Secretary of State for Northern Ireland what the average length of time taken by the Planning Appeals Commission to process planning appeals in Northern Ireland was in the last five years for which figures are available. [3501]

Angela E. Smith: The Planning Appeals Commission is a tribunal non-departmental public body, and the Chief Commissioner (John Warke) has written to the hon. Lady in the following terms. A copy of the annual report mentioned in the letter is available in the Library.

Letter from John Warke to Lady Hermon:

I have been asked to provide you with information requested in the above Parliamentary Question.

The Commission does not maintain details of the average time taken to process planning appeals and it would not be possible to obtain this information for the periods requested without disproportionate cost. The Commission does record details of the median times taken and the percentage of appeals decided within published target times.

The following table sets out the median times taken for the Commission to decide planning appeals cases (excluding enforcement).

	2000–01	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Formal hearings percentage within 30 weeks	—	63.6	26.3	53.3	42.1
Informal hearings percentage within 27 weeks	—	89.4	87.3	74.9	80.1
Written representation percentage within 24 weeks	94.4	96.1	86.4	94.2	86.3
All appeals median time (weeks)	21	21	23	21	23
Formal hearing median time (weeks)	22	28	38	30	34
Informal hearing median time (weeks)	—	22	25	24	24
Written representations with accompanied site visit median time (weeks)	18	20	22	20	22
Written representations with no accompanied site visit median time (weeks)	16	19	20	17	19

I have also set out the figures relating to the intake of planning appeals (excluding enforcement) over the same period.

	2000–01	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Appeals received	267	359	314	472	711
Percentage change in yearly intake	+6.8	+34.8	-12.5	+50.3	+50.6
Appeals withdrawn or not accepted	38	43	46	37	50
Appeals decided	215	265	264	385	493
Appeals in hand at year's end	103	154	158	208	376

I would be happy to provide any further information you require arising out of this response or to meet with you to discuss the matter if that would be more suitable. I have enclosed a copy of the Commissions' Annual Report for the year ending March 2004 which I hope you will find of interest.

Rates Reform

Mrs. Spelman: To ask the Secretary of State for Northern Ireland what the conclusions of the Equality Impact Assessment are on the impact of reforming domestic rates into a capital value system on *(a)* Protestant and *(b)* middle class areas. [4375]

Angela E. Smith: The Equality Impact Assessment concluded, on the basis of the evidence available, that Protestants are likely to face a higher property tax liability than average under a discrete capital value system. However, taking into account all relevant factors, including ability to pay, such an impact is not considered to be an inappropriate one.

The Equality Impact Assessment did not address the impact on middle class areas as socio-economic status is not a section 75 category.

TK-ECC

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps Invest Northern Ireland is taking to attract inward investment for the former TK-ECC factory site; and if he will make a statement. [4072]

Angela E. Smith: The former TK-ECC factory site is privately owned and Invest NI continues to work with the owners and their agents to market the property in line with the existing employment/industrial use for which it is currently zoned.

Despite a very competitive global marketplace, Invest NI's international sales and marketing strategy continues to aggressively promote all areas of Northern Ireland as attractive and viable locations for new inward investment opportunities. Invest NI encourages potential investors to consider areas throughout Northern Ireland, including Dundonald, capable of sustaining the project in question. Ultimately it is the promoter of the project, and not Invest NI, that makes the final decision as to where the project will be established, although Invest NI's Local Offices Network works closely with key stakeholders to ensure that detailed information on sub-regional sales propositions is available to all potential investors.

Written Answers to Questions

Monday 20 June 2005

DEFENCE

Armed Forces (Recruitment)

Mr. Jim Cunningham: To ask the Secretary of State for Defence how many people from Coventry, South were recruited into the armed forces in the last period for which figures are available. [4823]

Mr. Touhig: Information is not held in the form requested. The number of personnel recruited into the armed forces as other ranks from applications registered by Coventry armed forces careers office during financial year 2004–05 was 214. Broken down by service the numbers recruited were:

	Number
Naval Service	31
Army	150
RAF	33

Information on officer recruits is not available on a regional basis.

Army Recruitment Campaign

Lynne Featherstone: To ask the Secretary of State for Defence what the cost was of the latest promotional campaign to encourage people to join the Army, separately identifying the cost of *(a)* DVDs, *(b)* VHS tapes and *(c)* television advertising; and if he will make a statement. [4657]

Mr. Touhig: The Army Recruiting Group is responsible for marketing recruitment for the Regular Army, the Territorial Army, Welbeck Defence Sixth Form College, and the Army Cadet Force and it runs a number of campaigns throughout the year. For this financial year, the total TV advertising budget to encourage potential officers and soldiers into the Regular and Territorial Army is £14.1 million. In addition, the budgeted cost of fulfilling individual requests for information as a result of this advertising is £1.274 million, which includes £474,000 for the cost of materials such as DVDs, videos and publications.

Belgrano

Mr. Hancock: To ask the Secretary of State for Defence what circumstances have led to the proposed publication of the Government files on the sinking of the Belgrano in 1982. [2056]

John Reid: There are no current plans to release the Government files on the sinking of the Belgrano in 1982.

Civil Servants

Dr. Cable: To ask the Secretary of State for Defence what value for money procurement savings were identified and what reduction in civil service posts occurred in his Department in 2004–05. [4541]

Mr. Ingram: HM Treasury's Public Service Agreement 2002 target to deliver £3 billion of value for money gains in central civil Government through the Office of Government Commerce does not include procurement by the Ministry of Defence.

In Budget 2005 the Chancellor announced a headcount reduction of 12,500 posts by the end of 2004–05, towards the Government's target of a gross reduction of 84,000 civil service posts, including military posts in administrative and support functions. On the Office for National Statistics definition of a civil servant and on a full-time equivalent (FTE) basis, the number of civil servants employed by the Ministry of Defence fell by 790. In addition, the number of local employed civilians overseas (excluding those employed in operational areas) fell by 420 FTE, giving a total civilian contribution of 1,210 FTE towards the Government's target.

Computer Facilities

Ann Winterton: To ask the Secretary of State for Defence what computer facilities are provided within individual battalions for *(a)* officers and *(b)* non-commissioned officers to perform their duties. [3257]

Mr. Touhig: Every Army unit has access to computers and officers and non-commissioned officers have access to such facilities where their role requires it. The Defence Information Infrastructure (DII) programme is currently being introduced and will further enhance capability and accessibility of computer systems by early 2007.

Defence Training Review

Peter Viggers: To ask the Secretary of State for Defence for what reasons his Department was not permitted to make an in-house bid for the Defence Training Review. [4711]

Mr. Touhig *[holding answer 15 June 2005]:* The Ministry of Defence's contracting strategy for the Defence Training Review rationalisation programme, which has been developed with the MOD Private Finance Unit and the Treasury, has confirmed the suitability and probity of PFI/PPP as the procurement route.

This strategy includes a public sector comparator which has been developed on the basis of how the Department would proceed if the PFI/PPP was not available. While it has the associated detail of an in-house bid, the capital investment required means that it is unlikely to be practical or affordable as a delivery option, particularly as it would not provide the flexibility, performance discipline and risk transfer envisaged by the partnering option.

Disabled Access

Mr. Hancock: To ask the Secretary of State for Defence whether all buildings occupied by his

Department in the Greater London area are fully accessible by disabled people; and if he will make a statement. [2353]

Mr. Touhig: The majority of MOD occupied buildings in central London are fully accessible by disabled people. Elsewhere within the Greater London area a lesser proportion of buildings have such access.

Under the terms of the Disability Discrimination Act (DDA) 1995 there are two aspects to consider in respect of access to premises for disabled people: one as an employer and the second as a service provider. As an employer it is MOD policy, in accordance with Part II of the DDA, to make adjustments where any arrangement or physical feature of MOD occupied premises places a disabled employee at a substantial disadvantage compared to a non-disabled employee, if it is reasonable to take such steps taking into account all the circumstances of the case. MOD policy also complies with Part III of the DDA where it considered itself to be a service provider, and reasonable adjustments have been made where it was considered necessary in relation to the physical features of MOD occupied premises to overcome physical barriers to access by members of the public.

EU Defence Co-operation

Ann Winterton: To ask the Secretary of State for Defence whether the Government will be contributing to the *(a)* production of the EU Force Catalogue and *(b)* subsequent production of the Progress Catalogue. [5360]

John Reid: The Government will be contributing to both.

Ann Winterton: To ask the Secretary of State for Defence what the dates of each EU Battlegroup Generation Conference in the last two years were; who attended each conference; what dates are planned for further such conferences; and who is expected to attend. [5361]

John Reid: The first EU Battlegroup Generation Conference took place on 11 May this year. The next (re-titled 'EU Battlegroup Coordination Conference') will take place in November this year on a day as yet undetermined. We expect one such conference to take place every six months.

The first conference was attended by representatives from all 25 EU member states, Bulgaria and Romania as accession states, and Norway as a third- country participant in the Battlegroups initiative. We expect future conferences to be attended by all member states, accession states, and third-country participants. The United Kingdom was and will be represented by a small team of Ministry of Defence officials.

Ann Winterton: To ask the Secretary of State for Defence which UK representatives attended the International Military Co-operation conference on 11 and 12 October 2004 in Wassenaar; and whether the Government agreed to work through any project groups to improve European military capabilities. [5362]

John Reid: A small team of officials from the Ministry of Defence and the Foreign and Commonwealth Office attended the conference, at which the Government did not enter into any agreement.

In 2003 EU member states decided unanimously to create European Capabilities Action Plan Project Groups to address recognised shortfalls in European military capabilities in relation to the overarching Headline Goal capability improvement process.

The United Kingdom sends a representative to 11 of the 14 groups. We will review representation as changes to these groups are implemented following a May 2005 evaluation report by the European Defence Agency.

Ann Winterton: To ask the Secretary of State for Defence what commitment the Government made at the EU Military Capability Conference on 22 November 2004 in Brussels; and if he will make a statement. [5382]

John Reid: The Government committed to providing as EU Battlegroups one national Battlegroup and one joint Battlegroup with the Netherlands (based on long-standing co-operation in the UK/Netherlands Amphibious Force). The national Battlegroup would be on standby for the first six months of the Initial Operational Capability period (January-June 2005); the joint Battlegroup would become available from 2007 for the Full Operational Capability period.

Our current commitment is that one of these Battlegroups will be on standby in the second half of 2008 and the other in the first half of 2010. The UK contributions will be drawn from our Joint Rapid Reaction Force as appropriate at the time.

Together with other EU Defence Ministers, the Government also agreed a declaration on European military capabilities which has been made available in the Library of the House as part of the presidency report on European Security and Defence Policy given by the July-December 2004 presidency of the Netherlands.

Ann Winterton: To ask the Secretary of State for Defence whether the Government have given a commitment *(a)* to support and *(b)* to join the establishment of a European Gendarmerie Force. [5383]

John Reid: The European Gendarmerie Force is a multilateral initiative by France, Italy, the Netherlands, Spain and Portugal to create between them a joint paramilitary police force which could be made available to EU, NATO, UN or OSCE operations.

In September 2004 the participating countries signed a five-nation Declaration of Intent and briefed others on the initiative. My predecessor welcomed it as a cooperative attempt to improve European capabilities, not least by making gendarmerie-style forces more rapidly available for such multinational operations.

Since the United Kingdom does not have paramilitary police, the question of participating in the initiative does not apply.

Falkland Islands

Mr. Hoyle: To ask the Secretary of State for Defence what plans he has to commemorate the 25th anniversary of the Falklands conflict. [5009]

Mr. Touhig: Earlier this year my predecessor met the Chairman of the South Atlantic Medal Association 1982 to discuss plans for the 25th anniversary of the Falklands conflict in 2007. It was agreed that their organisation and the MOD should collaborate on a commemorative event in London, the details of which will be developed later this year.

Far East Prisoners of War

Mr. Burrowes: To ask the Secretary of State for Defence when the Parliamentary Ombudsman's report on the Government's ex gratia payment to former Far East prisoners of war will be made public. [4486]

Mr. Touhig: The Parliamentary Commissioner for Administration is an Officer of the House and, as such, is entirely independent of the Government. The publication of her reports is a matter for her.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence if he will allow an in-house bid for his Department's work at the base in Gibraltar. [5056]

Mr. Ingram: It is the Ministry of Defence's intention to seek both an in-house option and bids from contractors for the delivery of key support functions under Project Pegasus. Unfortunately, until the Trade Unions return to the Whitley process, we will be unable to pursue the in-house option.

However, we do not judge an in-house option feasible to deliver estate services efficiently. There is no in-house expertise in key areas including the provision of trained and experienced personnel to implement mandated safe systems of work; tendering and letting works contracts; and the management and control of directly employed labour to carry out maintenance tasks. An in-house option could neither achieve the economies of scale that could be offered by industry, nor the transfer of large elements of risk (both financial and health and safety) from the Department. It would not therefore deliver the required savings or achieve full value for money for the tax payer.

Interoperability

Ann Winterton: To ask the Secretary of State for Defence what areas of British armed forces he expects to comply by 2010 with the Headline 2010 goal of interoperability. [5380]

John Reid: The Government are committed to improving interoperability across the armed forces with both EU and NATO partners.

Ann Winterton: To ask the Secretary of State for Defence which areas of UK military equipment he expects to be pooled and shared with other EU member states by 2010. [5381]

John Reid: None.

Iraq

Mr. Robathan: To ask the Secretary of State for Defence how many *(a)* doctors and *(b)* nurses serving in Iraq are (i) regular service personnel, (ii) territorial or reserve personnel and (iii) civilian agency staff; and if he will list the respective pay scales of each. [4665]

Mr. Ingram *[holding answer 14 June 2005]:* There are currently 29 United Kingdom military doctors serving in Iraq, of which three are Reservists, and 75 UK military nurses, of which 35 are Reservists. There are no civilian doctors and four civilian agency medical nurses in Iraq working for the UK armed forces.

The pay scales for military personnel, both regular and reservist are published in the 2005 Armed Forces Pay Review Body reports. The civilian agency staff are employed through two contracts and MOD does not hold the information about what the individuals are paid.

Landing Ship Dock Programme

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether Swan Hunter has made representations regarding additional funding for the Landing Ship Dock (Auxiliary) programme above the £87 million negotiated last year; and whether there have been variations to the contract since January. [3919]

Mr. Ingram: Swan Hunter has recently confirmed to the Ministry of Defence that its costs to complete the Landing Ship Dock (Auxiliary) programme are likely to increase. The extent to which the MOD may bear any additional costs is currently being assessed. There have been minor variations to the contract since January 2005, predominately for the procurement of spares to support the vessels.

Nuclear Deterrent

Dr. Julian Lewis: To ask the Secretary of State for Defence pursuant to his answer of 7 June 2005, *Official Report*, column 446W, on Trident, whether the range of options about the future of the UK strategic nuclear deterrent includes an option of not proceeding with a new generation strategic nuclear deterrent. [4353]

John Reid: The Labour Party's manifesto for the 2005 general election made clear our commitment to retain the UK's independent nuclear deterrent.

Although decisions on any replacement for Trident are likely to be taken in the current Parliament, it is too early to rule out, or rule in, any particular option.

Dr. Julian Lewis: To ask the Secretary of State for Defence pursuant to his answer of 7 June 2005, *Official Report*, column 446W, on Trident, whether the decision on whether to replace Trident will be the subject of a substantive vote in Parliament. [4354]

John Reid: It is too early to say what formal procedures might be used to underpin future decision-making by the Government in this area.

Sir Menzies Campbell: To ask the Secretary of State for Defence what preparatory work has begun on a replacement for Trident; what the cost of that work has been; and if he will make a statement. [4846]

John Reid: I refer the right hon. Member to the answer I gave on 14 June 2005, *Official Report*, columns 333–34W, to the hon. Member for New Forest, East (Dr. Lewis).

QinetiQ

Mr. Hancock: To ask the Secretary of State for Defence what role QinetiQ plays in *(a)* testing and *(b)* evaluating the effectiveness of military training programmes. [2342]

Mr. Ingram: QinetiQ's Centre for Human Sciences (CHS) operates a training advisory group employing circa 10 people, providing support to the MOD on training needs analysis and the optimisation of training regimes.

QinetiQ's Centre for Human Sciences has been involved with testing and evaluating the effectiveness of military training programmes in a number of areas including:

Effective and Efficient Army Collective Training—CHS has been involved in work improving the cost-effectiveness of a number of training systems currently being developed by the Army.

Armoured Fighting Vehicle Training—CHS has been involved in the development of effective and efficient training for the Challenger 2 Main Battle Tank.

Mr. Hancock: To ask the Secretary of State for Defence what assessment his Department has made of the potential for conflicts of interest where QinetiQ is competing for departmental contracts; and if he will make a statement. [2558]

Mr. Ingram: During the QinetiQ vesting process, the potential for such conflicts of interest was considered. To ensure any such conflicts were properly addressed, two courses of action were taken:

The Ministry of Defence ownership interest in QinetiQ was kept completely separate from the competitive contract placement activities.

Compliance processes were implemented, which ensure advice QinetiQ provides to MOD is independent of commercial contracts that could give rise to a potential conflict of interest.

Mr. Wallace: To ask the Secretary of State for Defence when he expects to complete the privatisation of QinetiQ. [3694]

Mr. Ingram: In February 2003 the Ministry of Defence announced its intention to sell its entire stake in QinetiQ within three to five years and that this would probably be by way of a flotation on the stock market. No decisions have yet been made on the precise timing.

Malcolm Bruce: To ask the Secretary of State for Defence if he will list the *(a)* British and *(b)* overseas company acquisitions made by QinetiQ in each year since 1997. [4656]

Mr. Ingram: QinetiQ was vested in July 2001. Since that date it has made three full acquisitions, all in 2004:

(a) One British company, HVR Consulting Services Ltd.; and

(b) Two US companies, namely Foster Miller Inc. and Westar Aerospace and Defense Group Inc.

In addition, during 2004, QinetiQ purchased the remaining 55 per cent. of its joint venture, ASAP Calibration Limited, making it a wholly owned subsidiary.

Royal Navy

Mr. Hancock: To ask the Secretary of State for Defence what plans he has to fit *(a)* HMS Gloucester and *(b)* HMS Manchester with the Mark 8 Mod 1 gun. [3877]

Mr. Ingram: There are no plans to fit the 4.5 inch Mark 8 Mod 1 gun to either HMS Gloucester or HMS Manchester. However, two Batch 3 Type 42 Destroyers, HMS York and HMS Edinburgh, were recently fitted with the Mod 1 configuration as part of their scheduled upkeep work. There are no plans to retrofit the gun to any other Batch 2 or Batch 3 Type 42s.

Territorial Army

Lynne Featherstone: To ask the Secretary of State for Defence how many Territorial Army medical personnel *(a)* have been and *(b)* are deployed in Iraq; and if he will make a statement. [4660]

Mr. Touhig: Some 2,740 Territorial Army (TA) medical personnel have been called up in support of operations in Iraq. There are currently some 230 TA medical personnel serving in Iraq.

Type-23 Destroyers

Mr. Hancock: To ask the Secretary of State for Defence how many ship sets of Sonar 2087 have been ordered; to which Type-23s they will be fitted; and if he will make a statement. [3879]

Mr. Ingram: A total of eight ship sets of Sonar 2087 have now been ordered. A contract to procure sets seven and eight of Sonar 2087 was placed with Thales Underwater Systems in April 2005. The Type 23 frigates to which Sonar 2087 will be fitted have not changed since the answer I gave on 9 December 2004, *Official Report*, column 691W, to the hon. Member.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abandoned Cars

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned cars were recorded in each local authority in England and Wales in *(a)* 2003–04 and *(b)* 2004–05. [4601]

Mr. Bradshaw: Estimates for abandoned vehicles removed and destroyed in England have been compiled in the DEFRA municipal waste management survey since 2001. The figures for 2003–04 are shown in a table placed in the Library of the House. We do not have the figures for Wales. The figures for 2004–05 will be released once they have been collated and verified.

Animal Welfare

Mr. Crabb: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with her EU counterparts on limiting the use of fast-growing breeds in the broiler industry. [3771]

Mr. Bradshaw: The recently published proposal for a Council directive laying down minimum rules for the protection of chickens kept for meat production

includes a commitment from the Commission, of not later than five years from the date of adoption of the directive, to submit to the European Parliament and to the Council, a report concerning the influence of genetic parameters on identified deficiencies resulting in poor welfare of chickens. The UK will be involved in discussions on the proposal with other member states, in working groups, over the next few months.

John Hemming: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make representations to the European Commission to implement the recommendations of the Scientific Committee on Animal Health and Welfare for a maximum stocking density of 25 kg/sq m. [3790]

Mr. Bradshaw: The European Commission has recently published proposals for a Council directive laying down minimum rules, including a two tier stocking density, for the protection of chickens kept for meat production. The proposal takes account of the recommendations of the SCAHAW report and the results of recent scientific research.

Aquatic Environment

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what information she has procured to establish the levels of residues from anti-depressant drugs in the *(a)* livers, *(b)* brains and *(c)* muscle of fish. [4449]

Mr. Bradshaw: As a follow-up to studies commissioned by the Environment Agency in which trace levels of some pharmaceuticals were detected in UK sewage effluents and rivers, the CEFAS Laboratory at Burnham on Crouch has investigated the presence of selected pharmaceutical products, including the antidepressant Lofepramine, in the liver and muscles of a small number of pike in the Grand Union canal. Pike are predatory fish and due to biomagnification will exhibit the highest levels of any residues likely to enter the food chain. Lofepramine was not detected in any of the samples.

The Environment Agency have developed a position statement on pharmaceuticals—which can be found on the Agency's website, www.environment-agency.gov.uk (search-pharmaceuticals). This elaborates further on the work done and includes a recommendation to the pharmaceutical industry to do more on the development of analytical methods for environmental monitoring. I am pleased that the Environment Agency is in discussion with the industry on the development of a work programme to cover the recommendations to industry listed in the position statement.

Illegal Meat

David T.C. Davies: To ask the Secretary of State for Environment, Food and Rural Affairs if she will increase the resources available for detecting imports of illegal meat. [4816]

Mr. Bradshaw: The Government have made available an additional £25 million over the three financial years from 2003–06 to tackle illegal imports from outside the European Union of any meat, other animal products and plant products. The majority of this funding is for additional resources to be deployed by Customs to detect illegal imports at the frontier. The current level of funding has been included in Customs' allocation for future years. Funding will also continue to be available for Defra to examine the risks and help increase public awareness, and for the FSA for work on inland controls.

Overall, the money for the illegal imports programme needs to be looked at in the context of the whole control regime including the legal trade. Funding has to be proportionate to risk. Our controls compare well with other EU member states.

David T.C. Davies: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are taken by her Department to detect illegal bush meat imported through British ports and airports; and if she will make a statement. [4817]

Mr. Bradshaw: The Government have made available an additional £25 million over the three financial years from 2003–06 to tackle illegal imports from outside the European Union of meat (including bush meat), other animal products, and plant products. Customs are responsible for anti-smuggling controls at the border. In addition to their 3,500 detection staff, they also have dedicated extra resources (c 100 officers and a 10 'meat' detector dog programme) targeting higher risk import routes.

This has resulted in a considerable increase in seizures in 2003–04 to 15,838. There was a further significant increase in 2004–05—final figures will be published in DEFRA's annual review in July. However bush meat forms only a very small part (approx 3 per cent.) of Customs seizures of POAO.

The National Audit Office recently published (23 March 2005) a report recognising the good work of Customs in detecting illegal imports, and that our controls compare well to those of other EU member states. I am also pleased that there have been eight successful prosecutions, the most recent in June resulting in a custodial sentence.

Customs will continue to be vigorous in tackling illegal imports, including the use of new technology such as over-the-belt X-ray scanners at selected major airports to assist in its operations.

We recognise that the risk of disease can never be reduced to zero, but a number of measures that the Government have taken to improve prevention, detection, and domestic biosecurity, has we believe, reduced the risk.

Landfill Allowance Trading Scheme

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the cost to local authorities of implementing the Landfill Allowance Trading Scheme. [4296]

Mr. Bradshaw: The cost to local authorities of meeting the Landfill Directive targets for the reduction of biodegradable municipal waste to landfill through the Landfill Allowance Trading Scheme was considered in the Regulatory Impact Assessment for the Landfill Allowance and Trading Scheme (England) Regulations 2004. The aim of the Landfill Allowance Trading Scheme is to enable local authorities to meet these targets in the most cost-effective way.

In terms of administrative costs, there will be no significant additional burden on waste disposal authorities as a result of implementing the Landfill Allowance Trading Scheme. Authorities are now required to submit monitoring information quarterly rather than annually but Waste Dataflow enables them to do this electronically. They will also need to register any transfer of allowances on an electronic register. Neither are considered onerous tasks.

Municipal Recycling

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs which Government targets for recycling provision local authorities must meet over the next five years; and if she will make a statement. [4297]

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will review the use of weight-based targets for local authorities in respect of their recycling activities. [4478]

Mr. Bradshaw: In response to recommendation 9 of the strategy unit report "Waste not, Want not", the Government are currently undertaking a review of recycling and composting targets in the light of performance against 2003–04 targets. The review is considering the efficacy of the existing suite of targets, and the value in setting future targets. It will take into account the fact that there are already a number of policy levers designed to drive the management of waste up the hierarchy. The targets review will inform decisions by Ministers—as soon as possible—on any adjustment to existing targets and on any new sustainable waste targets to be set at national or local level aimed at driving up performance. Both reviews will take full account of stakeholders' and the public's views.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the collection practices of local authorities for recycling purposes arising from the use of weight-based targets, with particular reference to the relationship between material collected and available in UK markets for that material. [4479]

Mr. Bradshaw: We have not conducted an assessment of collection practices rising from the use of weight based targets. However, given the large increases in the amounts of recyclates targeted for collection, we have tasked the Waste and Resources Action Programme to develop markets for recycled materials and products. Six core materials streams have been identified as priorities for market development purposes, four of which (glass, organics, paper and plastics) arise both in the household and the commercial waste streams. WRAP is targeting the creation of an additional 4,225,000 tonnes of market capacity per year for these six materials in the course of their 2004–06 business plan.

Non-motor Vehicle Batteries

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of non-motor vehicle batteries were recycled in the latest year for which figures are available. [4438]

Mr. Bradshaw: Less than 2 per cent. of spent portable batteries were collected in the UK for recycling. We believe the level of collection of industrial batteries for recycling is higher, but we do not have precise figures. The Government plan to undertake work to establish the collection and recycling levels being achieved for industrial batteries.

Primates

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will estimate how many primates *(a)* are being kept as pets and *(b)* were imported in each of the last five years in order to satisfy the demand for pets. [4074]

Jim Knight: In answer to point *(a)* , we do not keep definitive figures of the total number of primates kept as pets in the UK but a study in 2000, commissioned by my Department, indicated that 655 primates were kept in England and Wales under Dangerous Wild Animals Act licences (this Act regulates many, but not all, primate species).

In answer to point *(b)* , an import permit issued in accordance with EU Regulations implementing the Convention on International Trade in Endangered Species (CITES) is required for the import of all primates into EU and may only be issued when certain conditions have been met. It is our view that primates are not suitable for the general pet trade and permits are therefore limited to zoos, scientific institutions, or specialised private keepers. It is not possible to provide information on how many primates are imported each year to satisfy the demand for pets because the internationally agreed import purpose codes do not break the figures down in this way.

Last week I announced the Government's intention to go out to public consultation regarding the use of the powers under Article 8.2 of Council Regulation (EC) No. 338/97 by the end of July. The Regulation is essentially a conservation measure but we shall certainly consider whether it would be appropriate to use these powers to restrict the keeping of primates as pets.

Recycling

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* mobile phones and *(b)* printer cartridges were (i) recycled, (ii) reused overseas and (iii) disposed of within the UK waste stream in each of the last five years. [4437]

Mr. Bradshaw: The Government do not currently collect data on the numbers of mobile phones and printer cartridges that have been recycled, reused or disposed of in the UK waste stream.

The Government will be collecting data on the amounts of waste electrical and electronic equipment (WEEE), including IT and telecoms equipment, reused and recycled to report to the European Commission when the producer responsibility obligations of the WEEE Directive come into force from January 2006.

Rights of Way

Mr. Lidington: To ask the Secretary of State for Environment, Food and Rural Affairs when she intends to set a commencement date for the provisions in the Countryside and Rights of Way Act concerning the introduction of restricted byways; and if she will make a statement. [4181]

Jim Knight: The Government are proposing to use the new category of right of way, restricted byway, to put into effect its proposals to curtail claims for mechanically propelled vehicle rights, as set out in Part 6 of the Natural Environment and Rural Communities Bill. This will be achieved by enabling rights acquired by non mechanically propelled vehicles to be recorded as restricted byways rather than byways open to all traffic.

The regulations necessary to implement the restricted byway provisions have already been drafted. However, before laying the regulations and commencing the relevant provisions we will need to ensure that the final terms of Part 6 of the Bill are compatible with these regulations.

Waste Resources, Treatment and Action Programme

Lynne Featherstone: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the EU investigations into whether the UK is failing to fulfil its obligations under Article 3(1) and Annex IA and Articles 5(2), 5(3), 10 and Annex I.B of Council Directive 91/271/EEC concerning urban waste water treatment. [4941]

Mr. Morley *[holding answer 16 June 2005]:* I can confirm the European Commission is conducting an investigation into UK compliance with the provisions of the Directive cited in the question. The detail and outcome of the investigation are a matter for the European Commission to comment on.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs when her Department will reply to the Environment, Food and Rural Affairs Select Committee Report on Waste Policy and the Landfill Directive. [3462]

Mr. Bradshaw: The Government will reply to the Environment, Food and Rural Affairs Select Committee Report on Waste Policy and the Landfill Directive as soon as possible.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what the total expenditure by the Waste Resources and Action Programme was in 2003–04; and how many tonnes of waste were recycled in that year. [3469]

Mr. Bradshaw: The total expenditure by the Waste Resources and Action Programme in 2003–04 was £31,552,752.

The total amount of municipal waste collected in the UK for recycling in that year was 6.4m tonnes, of which 5.2m tonnes was household waste. The equivalent England-only figures are 5.5m tonnes and 4.5m tonnes.

Data for total tonnage recycled are not available.

TRANSPORT

A21

Gregory Barker: To ask the Secretary of State for Transport what assessment he has made of *(a)* the current level and *(b)* the future level of noise pollution emanating from the A21 between Flimwell and Robertsbridge. [5198]

Dr. Ladyman: The Highways Agency do not have specific details of: *(a)* the current level and *(b)* the future level of noise pollution emanating from the proposed A21 Flimwell to Robertsbridge Improvement as it has not yet entered the Government's Targeted Programme of Improvements. However, initial work done to support the Preferred Route Announcement would indicate that a moderate improvement for those people living close to the existing road could be expected. A detailed noise assessment will be carried out at the next design stage.

Gregory Barker: To ask the Secretary of State for Transport what assessment he has made of the effect of speed limits on the A21 between Flimwell and Robertsbridge on managing traffic flow. [5199]

Dr. Ladyman: The Highways Agency has carried out localised assessments of traffic speed on the A21 between Flimwell and Robertsbridge and noted that speed was a contributory factor to the accident record on this section. It has responded to these safety concerns in several ways, one of which is to reduce the speed limit through the Flimwell crossroads, along the Flimwell dual carriageway and at the Northbridge Street pedestrian crossing.

Gregory Barker: To ask the Secretary of State for Transport when he plans to announce funding for upgrading of the A21 between Flimwell and Robertsbridge. [5200]

Dr. Ladyman: We announced in December 2004 that our decisions on schemes on trunk roads categorised as predominantly of regional importance, and which would not be starting works until after 2007–08, will be taken after advice from the regions. Each region will consider such schemes alongside other proposed transport investment in their region. We are currently considering the arrangements, including timescales, for obtaining regional advice in the light of the responses to our consultation on these proposals.

Gregory Barker: To ask the Secretary of State for Transport what plans his Department has to carry out further consultation into the proposed improvement of the A21 between Flimwell and Robertsbridge. [5201]

Dr. Ladyman: We have no plans to undertake further formal consultation into the proposed improvement of the A21 between Flimwell and Robertsbridge. The Highways Agency published the preferred route for the scheme in February 2005. This followed consultation with the public, local authorities and other interested organisations who were invited to express their views on the proposed route.

Gregory Barker: To ask the Secretary of State for Transport what assessment he has made of traffic flows on the single carriageway section of the A21 between Flimwell and Robertsbridge. [5202]

Dr. Ladyman: The Highways Agency measures traffic flow on the trunk road network on a continuous basis.

Average annual daily traffic levels for the A21 between Flimwell and Robertsbridge for the year 2003, the last year for which figures are published, were 17,900 vehicles per day. The average annual weekday traffic was 18,100 vehicles per day, 6 per cent. of which were HGVs.

Traffic flows for 2004 are expected to be published at the end of June 2005.

Gregory Barker: To ask the Secretary of State for Transport how much public money has been expended in the planning of the A21 improvement schemes. [5236]

Dr. Ladyman: Since 2002, £3.66 million of public money (excluding VAT) has been spent in the planning of the A21 improvement schemes.

Gregory Barker: To ask the Secretary of State for Transport what discussions he has had with ministerial colleagues and others about effects on *(a)* the economy and *(b)* regeneration of the local area of upgrading the A21. [5237]

Dr. Ladyman: Ministerial colleagues have liaised with DEFRA ministers on the impact of the proposed A21 schemes including the impact they would have on the rural economy.

The impact of improvements to the A21 on the Hastings's economy were considered as part of the Access to Hastings Multi Modal Study and the Highways Agency were asked to examine the viability of such improvements.

In addition following the Multi Modal Study the Secretary of State asked SEEDA (South East England Regional Development Agency) to prepare a regeneration package for the Bexhill Hastings area. The resulting taskforce produced a five point regeneration plan which includes a transport theme. Improvements to the A21 are an identified priority in this plan.

The Department's Appraisal Methodology for new road schemes takes into account, among other things, the impact a scheme would have on the regeneration of the immediate areas. Since the inception of the five point plan, the A21 Lamberhurst bypass has been opened and the A21 Tonbridge to Pembury, and A21 Kippings Cross to Lamberhurst have both been added to the Highways Agency's Targeted Programme of Improvements.

Gregory Barker: To ask the Secretary of State for Transport what assessment he has made of road safety on the single carriageway section of the A21 between Flimwell and Robertsbridge during *(a)* peak and *(b)* off-peak times. [5239]

Dr. Ladyman: The Highways Agency carried out two assessments of road safety on this section of the A21 in the period of 2003–04 but these assessments make no distinction between peak and off-peak accident records.

The safety reports have identified accident clusters and at one specific site, where speed has been a factor, the Highways Agency has already introduced a new pedestrian crossing at Northbridge street. The Agency is looking at further safety improvements that could be carried out in the future.

Gregory Barker: To ask the Secretary of State for Transport what assessment he has made of traffic speeds on the single carriageway section of the A21 between Flimwell and Robertsbridge during *(a)* peak and *(b)* off-peak times. [5240]

Dr. Ladyman: Localised assessments of traffic speed have been undertaken but not specifically for either the peak or off-peak times. The Highways Agency's assessment is that the existing speed limit was a contributory factor to the accident record on this section of the A21 between Flimwell and Robertsbridge.

The Highways Agency has responded to the safety record on this route and the concern of the local community by introducing a new pedestrian crossing at Northbridge street and a reduced speed limit of 40 mph on the approach to the crossing.

A27

Norman Baker: To ask the Secretary of State for Transport when he expects to make an announcement on his plans for the A27 between Beddingham and Polegate, with particular reference to the Folkington link. [5139]

Dr. Ladyman: We have asked the Highways Agency to carry out further work on less environmentally damaging options for this section of the A27. That work should be available soon and we expect to make an announcement on the way forward in the autumn.

Air Travel Organisers Licensing Scheme

Graham Stringer: To ask the Secretary of State for Transport what plans he has to extend the air travel organisers licensing scheme to non-charter airlines. [5726]

Ms Buck: The Department is currently considering the Civil Aviation Authority's economic analysis and assessment of the likely regulatory impact of a range of options for the future financial protection of air travellers.

Aircraft Emissions

Mr. Amess: To ask the Secretary of State for Transport what plans the Government have to tackle aircraft emissions. [4379]

Ms Buck: I refer the hon. Member to my answer of 24 May 2005, *Official Report*, column 60W, to the hon. Member for South Holland and The Deepings (Mr. Hayes). The Government's plans to tackle aircraft emissions are set out in "The Future of Air Transport" white paper, which sets out the Government's belief that the best way of ensuring aviation contributes towards the goal of climate stabilisation would be through a well-designed emissions trading regime, for which the Government will press at international and European level.

Airport Expansion

Mr. Amess: To ask the Secretary of State for Transport if he will make a statement on Government policy for airport expansion in the UK. [4380]

Ms Buck: I refer the hon. Member to my answer of 13 June 2005, *Official Report*, column 20W.

Buses

Mr. Evans: To ask the Secretary of State for Transport how much money the Government provided for rural bus services in *(a)* 2003 and *(b)* 2004; and what the projected figure is for 2005. [4358]

Ms Buck: Allocations to local authorities of Rural Bus Subsidy Grant were £48.5 million in 2003–04, £51 million in 2004–05 and £53 million in 2005–06.

In 2003, new awards totalling £20.3 million were announced in the final annual round of the Rural Bus Challenge (RBC) competition. Typically RBC awards provide project funding lasting for two to three years.

In addition, support for rural bus services was included in awards made under the Countryside Agency's Rural Transport Partnership and Parish Transport schemes. A total of over 250 awards were made by the Agency under these schemes in 2003–04, the last year new awards were made.

Mr. Evans: To ask the Secretary of State for Transport how much money was spent on rural bus services by the Government in *(a)* 2003 and *(b)* 2004; and how much is projected to be spent in 2005. [4505]

Ms Buck: The actual or projected spend by this Department on rural bus services under the Rural Bus Subsidy Grant and Rural Bus Challenge schemes is as follows:

	£ million
2003–04	61
2004–05	69
2005–06 (estimated)	72

Awards under the Countryside Agency's Rural Transport Partnership and Parish Transport schemes have also included funding for the provision of rural bus services. Total spend under those schemes was £14 million in 2003–04 and £13.5 million in 2004–05 and the projected figure for 2005–06 is £8.4 million.

Sarah Teather: To ask the Secretary of State for Transport how many road accidents involving buses there were in each year since 1997. [5279]

Dr. Ladyman: The information requested is not available. The numbers shown in the following table are for bus/coach, this category is determined by the construction of the vehicle rather than its use and includes vehicles equipped to carry 17 or more seated passengers, regardless of whether or not the vehicle is being used in stage operation.

These figures are published each year in table 23 of "Road Casualties Great Britain: Annual Report".

Accidents involving a bus/coach[1]: GB 1997–2003

	Number
1997	11,034
1998	11,585
1999	11,735
2000	11,524
2001	11,334
2002	10,586
2003	10,765

[1] Accidents involving at least one bus/coach.

Mrs. Spelman: To ask the Secretary of State for Transport (1) what assessment the Government have made of the cost to local authorities of the Government's plans to introduce free bus travel for pensioners and the disabled; and if he will publish a regulatory impact assessment; [5567]

(2) what the estimated cost is of the Government's plans to introduce free bus travel for pensioners and the disabled in each year for which such an estimate has been made. [5568]

Ms Buck: The Government will provide an extra £350 million in 2006–07 and an extra £367.5 million in 2007–08 which will be sufficient to fund the cost to local authorities.

A regulatory impact assessment will be published later this year.

Concessionary Travel

Miss McIntosh: To ask the Secretary of State for Transport (1) if he will calculate the grant settlement to cover the costs of the concessionary fare scheme announced in the Budget according to public transport usage figures or figures for the take-up of concessionary travel; [4213]

(2) what estimate he has made of the costs to local councils from April 2006 of the introduction of a free fare scheme for people aged 60 plus and the disabled for local journeys by bus; how he expects councils to meet the increased costs of concessionary fares; and what proportion of the increase will be met by the Treasury. [4214]

Ms Buck: The Government will provide an extra £350 million in 2006–07 which will be sufficient to fund the cost to local authorities. A final decision on the distribution of the extra funding has not yet been made.

Container Ports

Vera Baird: To ask the Secretary of State for Transport when he will announce the results of the outstanding applications for major container port developments. [4685]

Dr. Ladyman: Decisions will be announced on individual applications for major container port developments when Ministers have completed their consideration on each case.

Crossrail

Mrs. May: To ask the Secretary of State for Transport what guidance his Department has given to the preferred bidders for the Greater Western franchise on the impact of Crossrail on the bid. [4566]

Derek Twigg *[holding answer 14 June 2005]:* Crossrail is currently the subject of a hybrid Bill before Parliament and the timing of its construction and operation is therefore dependent on the outcome of that process. The tender documentation notes that, in the event that Crossrail is authorised by Parliament and proceeds, the impact of its construction will be dealt with under the Network Change provisions of the Track Access Agreement. Furthermore, bidders have been advised to assume that Crossrail services will not operate during the term of the Greater Western franchise.

Elderly Drivers

Mr. Drew: To ask the Secretary of State for Transport what research his Department has carried out into accidents caused by elderly drivers suffering from medical conditions which rendered them unfit to drive. [5192]

Dr. Ladyman: Research on elderly drivers and medical conditions has been included where relevant in the Department's programme of research on Medical Aspects of Fitness to Drive, but specific projects on elderly drivers have not been commissioned. Research has been completed on medical aspects of fitness to drive relating to visual field defects and excessive daytime sleepiness. Research is in progress on risks of further acute vascular events, insulin treated diabetes and driving, further study of visual field defects relating to central scotoma, and attitudes of health professionals to giving advice on fitness to drive.

Heavy Goods Vehicles

Dr. Kumar: To ask the Secretary of State for Transport if he will estimate what percentage of road accidents in the area corresponding as closely as available to the Middlesbrough, South and East Cleveland constituency involved heavy goods vehicles in 2004. [5860]

Dr. Ladyman: The information requested is not yet available for 2004. There were five accidents involving at least one heavy goods vehicle in the Middlesbrough, South and East Cleveland parliamentary constituency in 2003, which is 3 per cent. of the 181 reported road accidents in Middlesbrough, South and East Cleveland.

Dr. Kumar: To ask the Secretary of State for Transport what assessment he has made of the damage to roads caused by heavy goods vehicles. [5902]

Dr. Ladyman: UK design and assessment loading standards for highway structures were last made to cover the effects of 40-tonne EU vehicles prior to them being permitted on UK roads from 1 January 1999. Extensive research has shown that road pavement damage is strongly influenced by axle loadings, which have not increased since that time; for an individual axle mass of 10.5 tonne, there is approximately 40 per cent. less road wear than for an axle mass of 11.5 tonnes. Thus 44 tonnes gross weight vehicles as are now permitted to operate on UK roads and mainly fitted with six axles, each with a limit of 10.5 tonnes, cause less road wear than 40 tonne vehicles operating with five axles each with an 11.5 tonne limit.

Motorway Repairs

Mr. Greg Knight: To ask the Secretary of State for Transport what guidance is given to contractors on motorways about the length of carriageway that should be coned off in order to achieve the optimum balance between completing road works efficiently and not increasing congestion unduly. [4989]

Dr. Ladyman: Guidance on the effects of road works and the steps that can be taken to minimise these are provided in Chapter 8 of the Department for Transport's traffic signs manual published by the Stationery Office. Specific advice is given on the maximum lengths of roadworks and the minimum distance between adjacent roadworks on trunk and principal roads. This advice is intended to provide the balance between enabling the work to be done efficiently and safely and minimising inconvenience to the public.

The Highways Agency also uses a computer based system to enable contractors to determine the potential delays caused by different layouts, so that they can be minimised.

Mr. Greg Knight: To ask the Secretary of State for Transport for what reason the five miles of one of the carriageways of the M1 motorway in both directions was coned off and closed to traffic on 3 June, when work was only being carried out over a distance of 100 yards; and if he will make a statement. [4990]

Dr. Ladyman: The Highways Agency commenced major maintenance work on the M1 between junctions 29 to 30 northbound and southbound on 4 May 2005. The work is to replace worn out sections of the carriageways. The Agency is also taking the opportunity to renew central reservation safety fencing and the joints of five separate bridges that are located along the length of the traffic cones. All of this work is undertaken at night.

On 3 June, the night operations included work at all five bridge locations and safety fence works. The cones remain in place during the day because it would not be safe or practical to remove and reset the traffic cones daily, as this would be an added danger to the workforce and incur considerable costs to the project.

The traffic management layouts and works programme have been carefully designed to maximise lane availability for road users. Three lanes are maintained during peak hours in the day and two at night in both directions, while maintaining safety for the workforce and travelling public.

The work is progressing well and is on course for completion by the end of August 2005.

Off-Road Vehicle Licensing

Mr. Crabb: To ask the Secretary of State for Transport how much surplus revenue was raised from the Statutory Off-Road Notification vehicle licensing scheme over and above the costs of administering the scheme in 2004–05. [5276]

Dr. Ladyman: The surplus revenue from the Statutory Off-Road Notification vehicle licensing scheme in 2004–05 was £13,000.

Pedicabs

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) whether the Disability Discrimination (Transport Vehicles) Regulations 2006 will apply to pedicabs; and what assessment his Department has made of whether pedicab vehicles comply with the requirements of the Disability Discrimination Act 1995; [6041]

(2) if he will meet the operators of pedicabs to discuss ways in which their vehicles can be redesigned to conform with the requirements of the Disability Discrimination Act 1995. [6042]

Ms Buck: To the extent that pedicabs fall within the definition of "taxi" as defined in the regulations, which we published in draft in November 2004, then it is proposed that they will be covered.

Accessibility regulations have not yet been made under Part 5 of the Disability Discrimination Act 1995. When those regulations are made they will require that taxis, as defined in the Act, are subject to the accessibility requirements. We have no immediate plans to meet with pedicab operators to discuss accessibility issues.

Public Transport (Fatal Accidents)

Andrew Rosindell: To ask the Secretary of State for Transport how many fatal accidents there were on public transport in England in each year since 1997. [1386]

Ms Buck: The table gives number of fatalities in road accidents on buses or coaches, minibuses and taxis. These include passengers, drivers and other staff on the vehicle. They do not include casualties in accidents which occurred off the public highway, such as in bus depots. Road vehicles are recorded by construction rather than use. Bus, coach and minibus casualties in the table are not necessarily those from vehicles used for public service.

Rail fatalities are given for train accidents and accidents through movement of railway vehicles such as boarding and alighting from trains.

Public transport: road

	Taxi	*Minibus*[1]	*Bus or coach*
1997	12	—	14
1998	5	—	18
1999	10	15	11
2000	12	14	15
2001	4	24	14
2002	6	7	19
2003	11	16	11

[1] Prior to 1999, data for minibuses were included with motor caravans.

Public transport: rail[2]

	Number
1996–97	21
1997–98	42
1998–99	32
1999–2000	60
2000–01	34
2001–02	26
2002–03	42

[2] Rail accidents are train accidents and accidents through movement of railway vehicles.

Race Relations

Keith Vaz: To ask the Secretary of State for Transport what arrangements are in place to ensure that bodies within the responsibility of his Department comply with the requirements of the Race Relations (Amendment) Act 2000. [3536]

Ms Buck: The Department for Transport is strongly committed to promoting race equality as an employer, in the services that the Department and its agencies deliver and in the policies that it develops. The Department published its Race Equality Scheme 2005–08 on 31 May 2005.

The Race Equality Scheme and the associated Action Plans for 2005–08 set out how the Department, its six Executive agencies and other organisations for which the Department is responsible, will comply with the requirements of the Race Relations (Amendment) Act 2000.

The Department monitors, analyses and publishes the outcomes of the following on an annual basis: recruitment activity including promotions; training and development; performance appraisals; discipline cases; grievance cases; and ceased employment. All the Department's functions and policies have been assessed and will continue to be assessed for their race relevance to meet the specific duty of the Race Relations (Amendment) Act 2000.

Road Accidents

Daniel Kawczynski: To ask the Secretary of State for Transport how many accidents occurred on the A49 between Ludlow and Shrewsbury in the last 12 months. [3654]

Dr. Ladyman: The information requested is shown in the following table:

Accidents

Severity	*2003*
Fatal	1
Serious	2
Slight	45
Total	48

Road Fund Licences

Andrew Stunell: To ask the Secretary of State for Transport what proportion of motorists were issued by the Driver and Vehicle Licensing Agency with a renewal

notice for their *(a)* road fund licence and *(b)* statutory off-road notification declaration in the most recent year for which information is available. [5737]

Dr. Ladyman: A total of 39,800,854 licences or SORN renewal reminder notices were issued by DVLA in 2004–05. At the end of 2004–05 there were 32,258,857 licensed vehicles and 2,201,933 vehicles for which a SORN declaration had been made.

The number of reminder notices issued exceeds the total stock of vehicles mainly because motorists have the option of purchasing six months licences. In these cases two reminder notices were issued over the licensing year.

Andrew Stunell: To ask the Secretary of State for Transport how many *(a)* road fund and *(b)* statutory off-road notification declarations were issued by the Driver and Vehicle Licensing Agency for each construction and use class of motor vehicles in each of the last five years for which records are available; and how many renewal reminder notices were issued in each category. [5742]

Dr. Ladyman: DVLA does not hold these details broken down by category of vehicle. The tables detail the numbers of tax renewal reminders notices issued by DVLA and the total number of VED applications and SORN declarations processed together with the licensed vehicle stock, broken down by category at the end of each year.

Tax renewal reminder notices issued (no separate figures are held for SORN reminders)

	Number
2000–01	36,587,988
2001–02	36,775,597
2002–03	37,613,560
2003–04	37,835,189
2004–05	39,800,854

Applications processed

Road Pricing

Mrs. Spelman: To ask the Secretary of State for Transport whether he expects that the *(a)* London congestion charging scheme and *(b)* Durham congestion charging scheme would continue if universal road pricing were introduced; and if he will make a statement. [5566]

Dr. Ladyman: I refer the hon. Member to my answer of 16 June 2005 to the hon. Members for Dundee, East (Stewart Hosie) and for Romford (Andrew Rosindell).

Safety Cameras

Tom Brake: To ask the Secretary of State for Transport how many speed cameras have operated since 6 December 2004, broken down by *(a)* partnership, *(b)* class of road and *(c)* between (i) fixed and (ii) mobile cameras. [5184]

Dr. Ladyman: Information, as held by the Department, was provided in my answer of 9 June 2005, *Official Report*, columns 617–19W. Further detailed information is available from partnerships.

Mr. Drew: To ask the Secretary of State for Transport pursuant to his answer of 9 June 2005, *Official Report*, column 617W, on speed cameras, for

what reasons some safety camera partnerships were not included in the answer; and if he will provide the relevant information. [5191]

Dr. Ladyman: The previous question and my answer related to the number of speed cameras as at December 2004, and it covered all 35 partnerships in the safety camera programme at that time. With effect from 1 April 2005, the number of partnerships has increased to 38, including a separate Gloucestershire partnership (previously included as part of the combined Avon, Somerset and Gloucestershire Partnership), Surrey and Merseyside partnerships, which joined the programme from 1 April 2005.

The number of speed camera sites in these three partnership areas, as at 1 April is:

Number

	Gloucestershire	*Surrey*	*Merseyside*
Fixed	29	16	27
Mobile	50	0	0
Total	79	16	27

Taxis

Mr. Geoffrey Robinson: To ask the Secretary of State for Transport how many green and yellow badge licensed taxi drivers there have been in London in each year since 1975. [5378]

Ms Buck: The following table shows the number of green (all London) and yellow badge (suburban) licensed taxi drivers there have been in London in each year since 1975. This information has been provided by the Public Carriage Office (figures for the split between yellow and green badge are not available for 1975 and 1976).

Number of licensed taxi drivers at end of year

	All London	*Suburban*	*Total*
1975	—	—	16,037
1976	—	—	16,152
1977	14,981	1,493	16,474
1978	15,222	1,518	16,740
1979	15,515	1,561	17,076
1980	15,731	1,646	17,377
1981	16,058	1,766	17,824
1982	16,233	1,853	18,086
1983	16,311	1,894	18,205
1984	16,483	1,834	18,317
1985	16,867	1,782	18,649
1986	17,434	1,752	19,186
1987	17,953	1,732	19,685
1988	18,364	1,699	20,063
1989	18,854	1,671	20,525
1990	19,112	1,814	20,926
1991	18,546	1,674	20,220
1992	18,728	1,765	20,493
1993	19,017	1,760	20,777

2002–03	21,809	2,937	24,746
2003–04	21,745	3,105	24,850
2004–05	21,561	3,114	24,675
Today	21,569	3,123	24,692

Traffic Survey (M1)

Mr. Greg Knight: To ask the Secretary of State for Transport for what reason a traffic survey was carried out on the M1 near to its intersection with the M25 on 8 June. [4991]

Dr. Ladyman: While I am not aware of a specific traffic survey at this location on 8 June, traffic counts are being carried out throughout June on the M25 and the approaches to its junctions on the northern section. The traffic flow data is being used to support the design of the M25 Rapid Widening Scheme from junctions 16 to 30.

Transport Services

Mr. Hoyle: To ask the Secretary of State for Transport how far pensioners who are resident in Chorley will be able to travel free in the North West under the free travel scheme. [6026]

Ms Buck: From April 2006, pensioners and disabled residents in Chorley will be guaranteed free off-peak travel on bus services within the borough council boundary. However, local authorities will retain their discretion to work together to provide a county-wide concessionary travel scheme as currently exists in Lancashire.

Gregory Barker: To ask the Secretary of State for Transport what recent discussions he has had with *(a)* ministerial colleagues and *(b)* others about transport provision in Kent. [5238]

Ms Buck: The Secretary of State, and his ministerial colleagues have regular and routine discussions with a variety of people about transport provision. Transport provision in the growth areas is a key issue for the Department, and Kent is often discussed in this context.

Under-age Drivers

Andrew Rosindell: To ask the Secretary of State for Transport in what circumstances those who are not old enough to possess a driving licence may have imposed on them penalty points for driving offences. [5337]

Dr. Ladyman: Subject to the discretion of the court any person, of whatever age, who commits an endorseable offence may be subject to the imposition of penalty points.

An underage driver commits the offence of driving otherwise than in accordance with a driving licence contrary to Section 87(1) of the Road Traffic Act 1988 as amended.

When a person is convicted of a driving offence by a court in Great Britain the court sends the Driver and Vehicle Licensing Agency (DVLA) notification of the endorsement. If the driver does not already hold a driving licence a record will be set up for them at the

DVLA. If the driver is eligible to apply for a licence, and does so while the endorsement is still valid, then the endorsement would appear on the driving licence.

Uninsured Vehicles

David Taylor: To ask the Secretary of State for Transport what estimate he has made of the number of motorists aged over 70 years who drove uninsured vehicles in each of the last five years. [6346]

Dr. Ladyman: Estimates from the insurance industry are that about 5 per cent. (approximately 1.25 million) motorists drive while uninsured. There are no separate figures for the number of uninsured drivers aged over 70.

INTERNATIONAL DEVELOPMENT

Access to Water

Mr. Don Foster: To ask the Secretary of State for International Development if he will publish the progress report on the action taken by his Department *(a)* to progress access to water in seven key partner countries in Africa and *(b)* to boost capacity for the water sector in four other countries; and if he will make a statement. [4504]

Hilary Benn: A progress report against the DFID Water Action Plan is expected to be published by the end of July 2005. This will include a full report of progress with commitments made on World Water Day, including those relating to improving access to water in seven key partner countries in Africa and boosting capacity for the water sector in four other countries.

Acts of Parliament (Internet Access)

Mr. Gordon Prentice: To ask the Secretary of State for International Development if he will take steps to make all Acts of Parliament published before 1988 for which his Department is responsible available online. [3721]

Mr. Thomas: The Controller of Her Majesty's Stationery Office (HMSO) within the Cabinet Office is the Queen's Printer of Acts of Parliament, and responsible for the publication of Acts of Parliament. HMSO has considered the publication of Acts prior to 1988, which is the earliest date when these were available electronically, but has decided not to do so as many have been heavily amended and to publish them in their original form would be misleading for many users. The Government are, however, taking forward development of a Statute Law Database which will contain the fully revised and updated text of all legislation from 1275. It is expected that this will be made available to the general public during 2006.

Afghanistan/Iraq

Andrew George: To ask the Secretary of State for International Development how much has been spent by *(a)* the UK and *(b)* all other countries in support of humanitarian aid to (i) Afghanistan and (ii) Iraq since 2001–02. [3638]

Hilary Benn: The latest OECD Development Assistance Committee (DAC) statistics for total humanitarian and reconstruction assistance to Afghanistan and Iraq are as follows (figures for emergency humanitarian assistance are in brackets):

£ million

	2001		*2002*		*2003*	
All donors						
Afghanistan	283.4	(217.9)	854.6	(400.6)	938.8	(231.5)
Iraq	80.6	(70.4)	77.3	(58.8)	1,387.1	(561.7)
UK						
Afghanistan	24.6	(24.4)	87.2	(62.6)	60.4	(18.8)

Source:
DAC
Online Database, 9 June 2005

Non-members of the DAC have also provided support to both countries but do not report it in a comparable way. The Iraqi Government are in the process of setting up a database to track donor assistance but figures are not yet available.

DAC statistics for 2004 will be available in September. The estimated outturn for DFID spending for 2004–05 is £72.8 million for Afghanistan and £61 million for Iraq, as reported in the DFID 2005 Departmental Report.

Africa

Andrew Rosindell: To ask the Secretary of State for International Development what steps the Government are taking to reduce trade barriers in Africa. [2940]

Hilary Benn: The Government continues to seek a successful World Trade Organisation ministerial in Hong Kong in December 2005. Multilateral liberalisation that reduces tariff barriers among all countries will lead to the greatest gains for poor developing countries, including within Africa.

Reducing trade barriers in Africa requires national governments to place a strong emphasis on trade as a source of growth. DFID supports the inter-agency Integrated Framework (IF). This helps countries to develop trade policies and the capacity to implement them as a part of wider poverty reduction plans. Countries where DFID will continue to play a leading role in the IF include Lesotho, Zambia, Rwanda, and Malawi.

DFID supports several trade policy capacity building projects, including in Kenya, Malawi, Zambia, Ghana, and Nigeria. These assist Governments to develop trade policy, link this to poverty reduction and identify and negotiate their strategic interests in international trade negotiations. Any reduction in trade barriers within Africa must build on African countries' own regional integration efforts and development objectives and promote the development of supply side capacity to take advantage of market access opportunities. DFID also provides £11 million for a regional trade facilitation programme in Southern Africa, which supports enhanced trade within the Southern Africa Development Community (SADC)[1] and the Common Market for Eastern and Southern Africa (COMESA)[2].

DFID is also working with the European Commission to ensure that its trade policies reduce barriers to trade in Africa, for example through influencing the current review of the EU's rules of origin to ensure they make it easier for African countries to use competitively priced inputs in their exports to the EU.

[1] SADC members: Democratic Republic of Congo, Malawi, Zambia, Zimbabwe, Tanzania, Angola, Mozambique, Namibia, Swaziland, Botswana, South Africa, Lesotho, Mauritius.

[2] COMESA members: Egypt, Burundi, Rwanda, Djibouti, Eritrea, Ethiopia, Sudan, Malawi, Democratic Republic of Congo, Zambia, Zimbabwe, Angola, Swaziland, Uganda, Kenya, Mauritius, Comoros, Madagascar, Namibia, and Seychelles.

Angola

Jeremy Corbyn: To ask the Secretary of State for International Development when he expects a donor conference to be held for Angola; and if he will make a statement. [5756]

Hilary Benn: Timing on a donors' conference has not as yet been confirmed. In order to ensure that the Government of Angola take the necessary steps towards a successful conference, Donors have made clear to the Government of Angola, their view that the Government should have in place both an agreed programme with the International Monetary Fund (IMF) and an effective poverty reduction strategy. There have been a number of discussions between the Government of Angola and the IMF on the framework for a staff monitored programme, focusing largely on issues of financial transparency and public accountability. I understand that an Angolan mission will be visiting Washington soon for further discussions on this, which we hope will achieve agreement. On the issue of the poverty reduction strategy, DFID has offered support to the Government to improve the present draft, working with civil society and other donors.

Civil Service

Dr. Cable: To ask the Secretary of State for International Development what value for money procurement savings were identified and what reduction in civil service posts occurred in his Department in 2004–05. [4549]

Mr. Thomas: Value for money gains in central civil Government procurement for 2004–05 will be published in the 2005 Treasury Autumn Performance Report. The procurement saving for DFID is being calculated and will be incorporated within that report.

In the period to April 2005 DFID staff numbers increased in response to development priorities including the setting up of the Post Conflict Reconstruction Unit and events in the Sudan, the work of the Commission for Africa and preparation to ensure positive development outcomes from Britain's G8 and EU presidencies. In line with the Government's target of a reduction of civil service and administrative posts by 2008, DFID is firmly committed to reducing its home civil service staff numbers by 10 per cent., from 1,780 in April 2004 to 1,610 by 2008. Plans have been prepared detailing how these reductions will be effected across the organisation.

IT Contracts

Mr. Godsiff: To ask the Secretary of State for International Development what the *(a)* projected cost at the time of tender and *(b)* actual cost at the time of completion was for each IT contract commissioned by the Department in the last five years. [2575]

Mr. Thomas: DFID has let two major IT contracts in the past five years. Neither contract is complete and so the actual cost at the time of completion is not available. The Human Resource system being supplied by Northgate had a projected cost at tender of £1.18 million. The QUEST Electronic Document and Record Management system being supplied by LogicaCMG had a projected base cost at tender of £9.70 million with a number of additional cost options available under the same contract.

DFID has also let a number of small IT related contracts. However our central records do not distinguish IT contracts, so provision of details for these contracts would incur disproportionate costs.

Union Representation

Mr. Jenkins: To ask the Secretary of State for International Development how many trade union learning representatives there are in his Department. [3309]

Mr. Thomas: DFID currently has two accredited trade union learning representatives—one each in our London and East Kilbride offices—while two other staff in East Kilbride hope to gain accreditation shortly.

Faith Awareness Training

Mr. Paul Goodman: To ask the Secretary of State for International Development how many civil servants in the Department received faith awareness training in 2004. [3812]

Mr. Thomas: During 2004–05, some 400 members of staff received training which included faith awareness. There is also guidance available to staff on our intranet covering the 'policy on religious observance' including time off for religious festivals, provision of prayer and meditation rooms, special dietary requirements and dress.

Faith Communities (Consultations)

Mr. Paul Goodman: To ask the Secretary of State for International Development what recent consultations have been carried out by his Department with representatives of faith communities; and if he will make a statement. [3225]

Mr. Thomas: DFID has consulted widely with representatives of faith communities as part of an ongoing process. This has included:

a study on how DFID engages with faith groups including consultation with individual faith communities and a one day workshop;

a joint DFID/FCO audit of opinion of members the UK Muslim community and their thoughts on British foreign policy;

a number of DFID country offices have consulted faith communities in agreeing the Country Assistance Plan process, for example, Nigeria, India and Bangladesh;

ministerial meetings with faith leaders and faith based organisations such as CAFOD, Christian Aid and Islamic Relief; and

a workshop for Islamic NGOs about DFID funding options, jointly hosted with the Muslim Council of Britain.

Forests

Norman Baker: To ask the Secretary of State for International Development what action he is taking to prevent further loss of forest cover in Africa. [4457]

Hilary Benn: DFID is currently helping to develop forest policy, implement reforms, and strengthen forest governance in Ghana, Cameroon, Malawi and Kenya.

DFID recently designed a new £12 million programme of work on forest governance and trade in west and central Africa. This will focus on reforms in Ghana and Cameroon, where EU Forest Law Enforcement, Governance and Trade (FLEGT) partnership agreements offer the opportunity to bring EU consumer market forces into play. DFID is also supporting civil society strengthening and dialogue between Governments, the private sector and NGOs in the Congo Basin region. DFID recently began a programme that supports links between the private sector in the four African countries of Ghana, Cameroon, Gabon, Congo Brazzaville and European trade federations. Our aim is to increase the awareness of African companies to new market requirements and opportunities.

DFID's work in Malawi and Kenya is helping to establish a better basis for the management of forest plantations that can supply wood for household fuel and to industry. Clearance of natural forests for small-scale agriculture is the main cause of deforestation in Africa but harvesting of forests to meet household and industrial demands are contributing factors.

Iraq

Dr. Cable: To ask the Secretary of State for International Development how much the UK has spent on Iraqi reconstruction to date; and how much is planned for the remainder of the 2005–06 financial year. [4062]

Hilary Benn: DFID has disbursed £270 million for humanitarian and reconstruction assistance in Iraq since March 2003. We plan to spend £65 million in 2005–06, of which £4 million has already been disbursed. DFID also provides 19 per cent. of European Community development funding: EC assistance to Iraq totalled €318.5 million for 2003 and 2004, and €200 million has been approved for 2005.

The Global Conflict Prevention Pool (GCPP), funded jointly by DFID, the Foreign and Commonwealth Office and the Ministry of Defence, disbursed £23 million on Iraq in 2003–04 and 2004–05. GCPP has so far allocated £15 million for 2005–06.

In addition, the FCO has spent £38 million on reconstruction activities in Iraq, and the MOD have so far committed £30 million to Quick Impact Projects, most of which have been disbursed.

Race Relations (Amendment) Act

Keith Vaz: To ask the Secretary of State for International Development what arrangements are in place to ensure that bodies within the responsibility of his Department comply with the requirements of the Race Relations (Amendment) Act 2000. [3556]

Hilary Benn: DFID has not identified any organisations or bodies within its area of responsibility that have an obligation to comply with the requirements of the Race Relations (Amendment) Act 2000.

Sri Lanka

Dr. Tony Wright: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of tsunami aid distribution in Sri Lanka; and what steps the Government are taking to ensure efficient distribution. [4699]

Mr. Thomas: As in all the tsunami-affected countries, in Sri Lanka, the unprecedented scale of the disaster put considerable pressure on logistics and co-ordination mechanisms. DFID gave direct support to overcome these challenges, including the secondment of an air operations co-ordinator, two shelter advisers, an adviser to the United Nations Humanitarian Information Centre and a member of the United Nations Disaster Assessment and Co-ordination team.

During the relief and recovery phase, DFID has supported the humanitarian work of Help Age, World Vision, Save the Children Fund, the International Committee of the Red Cross, the Sri Lankan Red Cross, the United Nations Children's Fund, the World Health Organisation, the United Nations Office for the Co-ordination of Humanitarian Affairs, the World Food Programme and the United Nations Security Co-ordinator in the areas under LTTE control in the North and East of the island. The United Nations has commented that the relief effort in Tamil areas has been impressive. Our humanitarian advisers in-country are monitoring the international response and are confident that aid is getting to those in need.

On my recent visit to the east and south of Sri Lanka, I met with many families affected by the tsunami disaster and numerous national and international non-governmental organisations, United Nations and government officials working to support them.

The Sri Lankan Government's response to the relief needs have been effective and spread evenly throughout the country. However due to the geography of many affected areas government officials have struggled to identify and acquire sufficient and appropriate land to relocate houses, schools, hospitals from the Government imposed exclusion zone. To tackle this issue the Sri Lankan Government are reconsidering the decision to exclude reconstruction in a 100 to 200 m buffer zone and attempting to fast track the acquisition of land. However more needs to be done to allow the numerous donors to start reconstruction. The sheer amount of work required to obtain land has delayed the implementation of reconstruction.

Despite this, much work has been done with the construction of over 32,000 transitional shelters; 5,000 permanent houses under construction and a further

15,000 families receiving cash grants for self help reconstruction. I have impressed upon senior government officials that the affected people are often ill informed of the processes in place to support them and feel they have not been consulted on those processes.

There is a need for the Sri Lankan Government to lead on improving the capacity and delegated authority of the district and local level government structures to cope with the massively increased work load. This is required across all affected areas.

DFID stands ready to assist with technical support to the administrative/operational structures needed to be established or strengthened following the establishment of a Post Tsunami Operational Management Structure and a Post Tsunami Recovery and Reconstruction Plan.

Sudan

Mr. Drew: To ask the Secretary of State for International Development if he will make a statement on progress in the Comprehensive Peace Agreement in the Sudan; whether the timetable is being adhered to; what pressure he is bringing to bear on parties to ensure that deadlines are adhered to; and how the UK has monitored progress since the departure of the UK special envoy. [5003]

Hilary Benn: Implementation of the Comprehensive Peace Agreement (CPA) is moving forward, but is behind schedule. The crucial National Constitutional Review Commission, to which the UK provided technical expertise, will complete its work on the Interim National Constitution shortly. The presidency is due to be inaugurated, on time, on 9 July, but the formation of the Government of National Unity will be delayed by up to one month, to allow the presidency to conclude discussions on the new Government.

During my recent visit to Sudan, I pressed the parties urgently to implement the agreement, and will continue to do so. Implementation is a huge task, and our assessment is that delays are due in large part to a lack of capacity of the parties to implement the agreement. This underlines the need for international support, which DFID is are already providing, and have made clear our willingness to do more. Through the embassy in Khartoum and the (expanded) joint DFID/FCO Sudan unit in London, we will continue to monitor implementation of the CPA and work to support the parties in achieving this. We are also urging others to do more.

On 13 June, the Foreign Secretary and I announced that Alan Goulty would be appointed as the UK special representative for Darfur. He will focus on working with the African Union mediation and the parties to achieve a political solution for Darfur, within the framework of the CPA. Mr. Goulty brings a wealth of experience to this role.

John Bercow: To ask the Secretary of State for International Development when he expects to complete the arrangements for the UK mortality survey in Darfur; and what his most recent estimate is of the number of people who have died each day on average in Darfur. [4928]

Hilary Benn: The UK is funding a second World Health Organisation (WHO) mortality survey that is currently being conducted in Darfur. We expect the results will be published by the end of this month.

Very little data are available on mortality rates in Darfur. Estimates from the previous WHO study conducted in August 2004 showed that there had been between 1.5 and 3.3 deaths per 10,000 people per day. This study only surveyed people in accessible internally displaced people (IDPs) camps, and had very little coverage of South Darfur. The new survey is sampling IDPs in camps and settlements, and affected resident populations, and will allow the UN to make more up to date estimates.

John Bercow: To ask the Secretary of State for International Development what assessment he has made of the level of *(a)* malnutrition and *(b)* risks to personal health of the displaced people of Darfur. [4929]

Hilary Benn: Malnutrition rates vary across Darfur. The latest UN 'Nutrition in Crisis Situations' report published in May 2005, showed average to precarious malnutrition levels in a number of locations: in South Darfur, 15.6 per cent. of the assessed population of the Gereida Internally Displaced People camp were found to be suffering from global acute malnutrition (GAM) with 4 per cent. suffering severe acute malnutrition (SAM); in Kalma IDP camp, South Darfur, the GAM rate was 9.9 per cent. and the SAM rate was 2.6 per cent.; in West Darfur across three camps in the Jebel Mara area, the GAM rate was 16.2 per cent. and the SAM rate 1.5 per cent. GAM rates of 20 per cent. or above or SAM rates of 5 per cent. or above would denote a very serious situation.

In its latest update on the health situation in Darfur, the World Health Organisation said that between 28 May and 3 June there were 66,617 reported cases of illness among the 1.56 million people under its surveillance in Darfur. The biggest causes of illness were acute respiratory tract infection (17 per cent.), malaria (6 per cent.) and bloody diarrhoea (4 per cent.).

John Bercow: To ask the Secretary of State for International Development what his latest estimate is of the number of people dependent on food aid in Darfur; what the figure was in June 2004; and what his latest assessment is of whether sufficient food is in place to enable those who are dependent on food aid to survive the rainy season. [4930]

Hilary Benn: The World Food Programme's (WFP) latest report shows that in May this year it reached 1.8 million of its 2.3 million target beneficiaries in Darfur. In June 2004 it reached 650,000 of its 1.2 million target.

The WFP have pre-positioned 30,000 metric tonnes, sufficient to cover three months, in West Darfur in advance of the rainy season. For South and North Darfur—where the impact of the rains on access is generally less severe than in West Darfur—the WFP will continue its delivery of food throughout the rainy season. Supplies are mainly brought in via Port Sudan, though the WFP have also recently begun flying food in from Libya.

John Bercow: To ask the Secretary of State for International Development what representations he has made to the Government of Sudan concerning Mr. Kofi Annan's complaint that the mainly Sudanese humanitarian aid workers in Darfur face constant harassment and interference. [4999]

Hilary Benn: I raised the issue of harassment of humanitarian aid workers with both the Government in Khartoum and with officials in Darfur during my visit to Sudan last week. In particular I raised the arrest of the head of mission and Darfur coordinator of Medecins sans Frontieres (Holland) following the publication of its report on rape and gender based violence in Darfur. I was given an assurance that the matter would be resolved.

Harassment of humanitarian workers and organisations in Darfur is totally unacceptable. It represents a real threat to agencies ability to deliver life-saving assistance to the people who need it. I will continue to press the Government on this both directly and through the British embassy in Khartoum.

Tanzania

Andrew Rosindell: To ask the Secretary of State for International Development what steps the Government are taking to promote economic growth in Tanzania. [2938]

Hilary Benn: The main focus of our programme in Tanzania is to support the Government of Tanzania's own National Strategy for Growth and Reduction of Poverty. This places great importance on economic growth, which has averaged 5.4 per cent. (2.7 per cent. per capita) since 2000, as a means of reducing poverty. Last year DFID allocated £65 million directly to Government budgets to support the National Strategy and also to directly support a Tax Modernisation Programme (TMP) and Business Environment Strengthening Programme (BEST), both of which aim to improve the environment for stronger private sector-led growth. In addition, DFID is funding The Financial Sector Deepening programme which improves the access of small and micro-businesses to financial services.

UN Human Poverty Index

Mr. Clappison: To ask the Secretary of State for International Development what assessment he has made of the merits of the United Nations Development Programme human poverty index as a measure of poverty; and what account is taken of the human poverty index in the allocation of UK aid to Africa. [4973]

Hilary Benn: The United Nations Development Programme (UNDP) human poverty index (HPI) is an internationally recognised measure of poverty. As such, the Department for International Development has not itself assessed its value but has taken account of the comparisons with other indexes, such as the UNDP human development index (HDI), which have been carried out by others. The HPI is considered a useful measure of deprivation.

The HPI is not directly taken into account in the allocation of UK aid to Africa. The allocation model used takes account of gross national income per capita, progress towards the Millennium Development Goals and vulnerability to economic shock. However, as the HPI measures deprivation, there are of course indirect links between it and these factors. Factors that will affect the impact of aid, such as governance, are also taken into account when making country allocations.

TREASURY

Breast Cancer

Mr. Iain Wright: To ask the Chancellor of the Exchequer what the incidence of breast cancer per 1,000 women has been in *(a)* England and *(b)* Hartlepool in each year since 1990. [4331]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Iain Wright, dated 20 June 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what the incidence of breast cancer per 1,000 women has been in *(a)* England and *(b)* Hartlepool in each year since 1990. I am replying in his absence. (4331)

The most recent available incidence figures are for the year 2002. Age-standardised incidence rates (directly standardised to the European standard population) per 100,000 females for female breast cancer in England and Hartlepool in each year since 1990 are given in the table below.

Directly age-standardised incidence rates[1] (per 100,000 females) of female breast[2] cancer in England and Hartlepool Unitary Authority, 1990 to 2002

	England	*Hartlepool*
1990	98.9	102.7
1991	105.3	90.4
1992	106.6	86.8
1993	101.5	115.0
1994	103.7	108.6
1995	103.9	115.6
1996	105.1	83.7
1997	108.1	127.6
1998	112.7	72.8
1999	116.5	92.6
2000	113.8	103.2
2001	114.5	112.9
2002	114.0	112.3

[1] Age-standardised rates per 100,000 population are directly standardised to the European standard population. In detailed analyses of trends in incidence and mortality over time for a particular cancer, ONS use age-standardised rates. These control for differences in the size and age structure of the population and allow unbiased comparison of rates over time.

[2] From 1990 to 1994, International Classification of Diseases, Ninth Revision (ICD-9) code 174; from 1995 to 2002, International Classification of Diseases, Tenth Revision (ICD-10) code C50.

Office for National Statistics

Carbon Capture

Mr. Blizzard: To ask the Chancellor of the Exchequer what the terms of reference are of his study of the economic viability of carbon capture and storage; and if he will make a statement. [4701]

John Healey: As the Chancellor announced in the Budget, the Government are examining how they might support the development of carbon capture and storage in the Climate Change Programme Review, including the potential for new economic incentives. This assessment will consider the reliability and potential of CCS technology as a means of reducing carbon emissions, the barriers to its commercial deployment and the case for Government support through economic incentives. Carbon capture and storage will also be eligible for funding through the £25 million Carbon Abatement Technology Strategy that was launched by the Minister for Energy on 14 June.

Child Trust Funds

Lynne Featherstone: To ask the Chancellor of the Exchequer (1) how many parents and carers in *(a)* the London borough of Haringey and *(b)* Hornsey and Wood Green constituency have been issued with Child Trust Fund vouchers; what the total value is of the vouchers issued up to 30 April; and if he will make a statement; [4801]

(2) how many of the parents and carers in *(a)* the London borough of Haringey and *(b)* Hornsey and Wood Green constituency who received Child Trust Fund vouchers by 30 April he estimates have set up relevant savings accounts with them; and if he will make a statement. [4802]

Mr. Ivan Lewis: Information based on individual local authority or parliamentary constituency is only available at disproportionate cost.

For available information on the number of vouchers issued and accounts opened I refer the hon. Member to the answer given to the hon. Member for Yeovil (Mr. Laws) on 6 June 2005, *Official Report*, columns 286–87. On the value of the vouchers which have been issued I refer the hon. Member to the answer given to the hon. Member for Mid-Dorset and North Poole (Annette Brooke) on 9 June 2005, *Official Report*, column 680W.

Mrs. Iris Robinson: To ask the Chancellor of the Exchequer what the level of uptake by parents and carers in Strangford constituency of the Child Trust Fund has been since its introduction; and if he will make a statement. [5328]

Mr. Ivan Lewis: Information on Child Trust Fund voucher usage by parliamentary constituency is only available at disproportionate cost. UK-wide information is available and I refer the hon. Member to the answer given to the hon. Member for Yeovil (Mr. Laws) on 6 June 2005, *Official Report*, columns 286–87W.

Civil Servants

Mr. Rob Wilson: To ask the Chancellor of the Exchequer what progress has been made with the implementation of the recommendations contained in the Gershon Report since his last statement to the House. [5414]

Mr. Des Browne: The OGC Efficiency Team is currently working with departments to assess progress on the Efficiency Programme, and an announcement will be made later in the year.

Mr. Rob Wilson: To ask the Chancellor of the Exchequer how many of the civil servants he pledged to move from London to other parts of the United Kingdom in his last Budget have been relocated; and what the timetable is for further such relocations. [5417]

Mr. Des Browne: The Budget announced that over 4,300 posts overall would be moved out of London and the south-east by the end of 2004–05 and that Departments had agreed relocation plans for a further 3,500 posts, meaning that over 7,800 relocations had already been confirmed. Just over 4,600 posts have now been relocated from London and the south-east to other parts of the United Kingdom. The remainder of the original target of 20,000 is on course to be achieved by 2010.

EU Budget Contributions

Dr. Gibson: To ask the Chancellor of the Exchequer what the contribution per capita of each member state of the European Union is to the total EU budget in the last year for which figures are available; and what the per capita receipts from disbursement of EU funds were in each country. [4858]

Mr. Ivan Lewis: The estimated contribution and receipts per capita of each member state for the last year for which figures are available, 2003, is as follows:

€ per capita, 2003

	Gross contribution before abatement	*Gross contribution after abatement*	*Receipts*	*Net contribution after abatement*
Belgium	308	336	408	-72
Denmark	294	330	277	53
Germany	227	233	129	104
Greece	128	143	453	-310
Spain	163	182	389	-207
France	226	254	225	29
Ireland	250	282	674	-391
Italy	180	202	184	19
Luxembourg	402	454	2,355	-1,902
Netherlands	298	303	123	180
Austria	231	237	193	44
Portugal	110	124	457	-333
Finland	227	257	258	-2
Sweden	274	279	162	117
United Kingdom	255	168	105	63

Mr. Jenkins: To ask the Chancellor of the Exchequer what the value has been of the *(a)* gross contribution to the European Union budget and *(b)* net contribution after receiving subsidies and structural funds of (i) the United Kingdom, (ii) France and (iii) Germany expressed as (A) a percentage of the gross national product and (B) per head of population in each year since 1995. [4964]

Mr. Ivan Lewis: The estimated gross and net contribution for the United Kingdom, France and Germany as a percentage of gross national income and per capita in each year since 1995 are as follows. It should be noted that in line with ESA 95, gross national income has replaced gross national product.

Percentage GNI

	1995	1996	1997	1998	1999	2000	2001	2002	2003

G8 Summit

Colin Challen: To ask the Chancellor of the Exchequer what the total cost, including security costs, will be of staging the G8 Summit. [5368]

Mr. Des Browne: At this stage it is not known what the total cost of staging the G8 Summit will be.

Heavily Indebted Poor Countries

Jeremy Corbyn: To ask the Chancellor of the Exchequer what conditions are attached to his debt write-off proposals for the most heavily indebted poor countries; and if he will make a statement. [5749]

Mr. Ivan Lewis: I am pleased to announce that the G8 have agreed to complete the process of debt relief for the heavily indebted poor countries by providing additional development resources which will provide significant support for countries' efforts to reach the goals of the Millennium Declaration (MDGs), while ensuring that the financing capacity of the International Financial Institutions is not reduced.

For International Development Association (IDA) and African Development Fund (AfDF) debt, 100 per cent. stock cancellation will be delivered by relieving post-Completion Point HIPCs that are on track with their programmes of repayment obligations.

Jeremy Corbyn: To ask the Chancellor of the Exchequer what assessment he has made of the impact of conditional debt write-off on heavily indebted poor countries over the past three years. [5757]

Mr. Ivan Lewis: The experience of the last five years of the HIPC Initiative has shown that debt relief can be an extremely effective tool in support of poverty-alleviation. The debt burden of the world's poorest countries is being reduced by some US$70 billion dollars overtime, allowing the savings from debt relief to fund country-owned strategies aimed at reducing poverty. Poverty reducing expenditures in HIPCs have on average increased from 6.4 per cent. of GDP in 1999 to 7.9 per cent. of GDP in 2003, a level about three times that spent on debt service. These increases in expenditure are increasingly being reflected in improved outcomes in HIPCs themselves.

Inflation (Council Tax)

John Hemming: To ask the Chancellor of the Exchequer what the inflation rate has been in each year since the creation of the council tax. [4953]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. John Hemming, dated 20 June 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what the inflation rate has been in each year since the creation of the council tax. I am replying in his absence. (4953)

The attached table shows the annual average index and the corresponding percentage changes in the annual average index for the all items retail prices index (RPI) for the years 1993–2004 (council tax was introduced on 1st April 1993). The consumer prices index (CPI) which is the main domestic measure of inflation for macroeconomic purposes does not include council tax.

This data is available on the National Statistics website www.statistics.gov.uk and through the House of Commons library.

Retail prices index annual average indices and percentage changes (January 1987 = 100)

	All items index	*Annual percentage change*
1993	140.7	1.6
1994	144.1	2.4
1995	149.1	3.5
1996	152.7	2.4
1997	157.5	3.1
1998	162.9	3.4
1999	165.4	1.5
2000	170.3	3.0
2001	173.3	1.8
2002	176.2	1.7
2003	181.3	2.9
2004	186.7	3.0

Knauf UK GmbH

Derek Wyatt: To ask the Chancellor of the Exchequer when Knauf UK GmbH in Sittingbourne and Sheppey constituency will receive a certificate from the Inland Revenue Stamp Duty Land Tax Centre that its stamp duty has been paid. [5791]

Mr. Ivan Lewis: The rules of taxpayer confidentiality do not permit HM Revenue and Customs to disclose this information in published form, but I will write to the hon. Member.

Non-taxpayers

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer what estimate he has made of the number of people in the United Kingdom who are non-taxpayers; and how many people he estimates use form R85 which allows the payment of interest on accounts with banks and building societies to be paid free of income tax to non-taxpayers. [5731]

Dawn Primarolo: On the number of non-taxpayers, I refer the hon. Member to the answer I gave to the hon. Member for Torbay (Mr. Sanders) on 16 June. HM Revenue and Customs estimate that around 15 million people, including children under 16, use form R85.

Public Sector Debt

Stewart Hosie: To ask the Chancellor of the Exchequer what plans he has to change fiscal rules relating to the cap on public sector debt. [5134]

Mr. Ivan Lewis: The sustainable investment rule states that public sector net debt as a proportion of GDP will be held over the economic cycle at a stable and prudent level. Other things being equal, net debt will be maintained below 40 per cent. of GDP over the economic cycle.

There are currently no plans to change the fiscal rules, however as noted in the Government's response to the TSC report on the 2004 pre-Budget report, the Government, of course, keep the fiscal framework under review to ensure it remains at the forefront of international best practice.

Race Relations

Keith Vaz: To ask the Chancellor of the Exchequer how many and what percentage of staff in his Department have received training on the general and specific duties of the Race Relations (Amendment) Act 2000, broken down by *(a)* ethnicity and *(b)* grade. [3529]

John Healey: Race awareness is integral to Treasury's diversity training, which is mainstreamed into the management and employment learning and development for senior managers and all staff. The Treasury has held events on race to address learning needs and to role model the need to promote equality across all diversity strands. In 2003 presentations were given to all Treasury directorates on the duty to promote race equality. In 2004 a seminar 'Raising our Sights on Race' was conducted with the Treasury's Ethnic Minority Advisory Group to raise awareness with representatives across all directorates of duties under the Act and the experience of ethnic minority staff in the Department.

In 2005 a Department-wide seminar involved all directorates in designing approaches to fulfil our obligations under the Act and meet our wider aspirations on diversity. The Treasury has also identified a need to provide a short summary of duties under the Act for new entrants.

Ethnicity and grade data for staff attending training on the general and specific duties of the RRA are not currently available. The Treasury has, however, recently introduced a computerised learning management system which will automatically capture data on the ethnicity and grade profiles of staff who receive training in the future. These data will be made available annually on the race equality section of the Treasury's website from spring 2006.

Keith Vaz: To ask the Chancellor of the Exchequer what arrangements are in place to ensure that bodies within the responsibility of his Department comply with the requirements of the Race Relations (Amendment) Act 2000. [3530]

John Healey: The Treasury is the sole shareholder of the Bank of England and the Royal Mint, and the majority shareholder of Partnerships UK. The Bank is itself a listed public authority under the Act and has its own responsibilities under the General duty to promote race equality in all that it does. It is also bound by the

employment duties under the Act in relation to its own staff but does not have a specific duty to publish a race equality scheme. The Royal Mint and Partnerships UK are not listed under the Act. In exercising its ownership duties the Treasury will ensure that race equality issues are considered where relevant.

The Treasury has two agencies. The Office of Government Commerce has fully delegated accounting officer arrangements and will publish its own arrangements for meeting the duties under the Act. The Debt Management Office is covered by the Treasury's arrangements and the Treasury will ensure that when exercising its sponsorship duties race equality issues are considered where relevant.

Second World War

Mr. Willis: To ask the Chancellor of the Exchequer if he will list the outstanding loan repayments due to the US Administration that arose as a result of the Second World War; and if he will make a statement. [5317]

Mr. Ivan Lewis: I refer the hon. Member to the answer the Financial Secretary gave the hon. Member for Castle Point (Bob Spink) on 14 October 2003, *Official Report*, column 150W.

Tax Deductibility (Overseas Companies)

Malcolm Bruce: To ask the Chancellor of the Exchequer whether *(a)* commission payments and *(b)* consultancy fees paid by companies operating overseas are tax deductible under Inland Revenue rules. [4885]

Dawn Primarolo: Commission payments and consultancy fees made by UK companies operating overseas are deductible in computing taxable profits if *(a)* they are incurred wholly and exclusively for the purposes of their businesses and *(b)* no other provision of the Corporation Tax Acts denies a deduction for the payments and fees concerned.

Testicular Cancer

Mr. Iain Wright: To ask the Chancellor of the Exchequer what the incidence of testicular cancer per 1,000 men has been in *(a)* England and *(b)* Hartlepool in each year since 1990. [4330]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Iain Wright, dated 20 June 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what the incidence of testicular cancer per 1,000 men has been in *(a)* England and *(b)* Hartlepool in each year since 1990. I am replying in his absence. (4330)

The most recent available incidence figures are for the year 2002. Age-standardised incidence rates (directly standardised to the European standard population) per 100,000 males for testicular cancer in England in each year since 1990 are given in the attached table.

The numbers of cases of testicular cancer in Hartlepool Unitary Authority in individual years are very small: over the whole period 1990–2002 there was a total of 30 such cases. The corresponding age-standardised incidence rate for this period is 5.3 per 100,000 males.

Directly age-standardised incidence rates[1] (per 100,000 males) of testicular[2] cancer in England, 1990 to 2002

	England
1990	4.9
1991	5.2
1992	5.4
1993	5.5
1994	5.3
1995	5.9
1996	5.8
1997	5.7
1998	6.2
1999	6.8
2000	6.7
2001	6.6
2002	6.2

[1] Age-standardised rates per 100,000 population are directly standardised to the European standard population. In detailed analyses of trends in incidence and mortality over time for a particular cancer, ONS use age-standardised rates. These control for differences in the size and age structure of the population and allow unbiased comparison of rates over time.

[2] From 1990 to 1994, international classification of diseases, ninth revision (ICD-9) code 186; from 1995 to 2002, international classification of diseases, tenth revision (ICD-10) code C62.

Office for National Statistics

VAT (Religious Buildings)

Mr. Rob Wilson: To ask the Chancellor of the Exchequer if he will extend the 100 per cent. VAT refund on repairs to religious buildings beyond the three years pledged in his last Budget. [5390]

Mr. Ivan Lewis: The Chancellor has pledged funding for the listed places of worship VAT refund scheme until 2007–08 unless EU agreement on a reduced rate of VAT is achieved earlier.

Decisions on spending allocations beyond 2008 will be made as part of next year's Spending Review.

WORK AND PENSIONS

Council Tax

20. **Ian Lucas:** To ask the Secretary of State for Work and Pensions if he will make a statement on the take-up of council tax benefit in Wales. [5092]

Mrs. McGuire: There are 272 thousand active council tax benefit claims in Wales, with over 11 thousand in Wrexham. Data on the rate of council tax benefit take-up in Wales are not available as it is only produced for Great Britain as a whole.

We are working with local authorities to make sure they have procedures in place locally to encourage people to apply for council tax benefit. I refer my hon. Friend to the answer my colleague gave earlier.

David T.C. Davies: To ask the Secretary of State for Work and Pensions what meetings he has had with the Deputy Prime Minister in the past two weeks to discuss a revision of the regulations relating to pensioners paying council tax; and if he will make a statement. [5088]

Mr. Timms: The Secretary of State has not had any meetings with the Deputy Prime Minister in the last two weeks to discuss pensioners and council tax.

Child Tax Credit

23. **Greg Mulholland:** To ask the Secretary of State for Work and Pensions if he will make a statement on the transfer to child tax credit of the remaining families with children in receipt of income support and income-based jobseeker's allowance. [5096]

Mr. Plaskitt: I refer the hon. Member to my earlier reply.

Pensions Commission

24. **Daniel Kawczynski:** To ask the Secretary of State for Work and Pensions for how long he expects the consultation on the findings of the Pension Commission to last. [5097]

Mr. Timms: I refer the hon. Member to the answer I gave earlier to his hon. Friend the Member for New Forest, East (Dr. Lewis).

Child Support Agency

Mr. Gauke: To ask the Secretary of State for Work and Pensions what the timetable is for transferring old cases at the Child Support Agency to the new scheme. [5091]

Mr. Plaskitt: I refer the hon. Member to my earlier reply. We have asked Stephen Geraghty, the new Chief Executive to report to us in the summer when we will consider his findings and proposals for action.

Dr. Iddon: To ask the Secretary of State for Work and Pensions when Child Support Agency cases that pre-date the new system will be transferred onto the new system. [749]

Mr. Plaskitt: A new chief executive of the agency has recently taken up post. He will be reporting to Ministers over the summer on proposals to improve the agency's performance.

We will make a decision on the transfer of old scheme cases only once we are confident that the system and business processes are robust.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many staff were employed at the Child Support Agency in each year since 1997–98; what the projected numbers are for each year to 2006–07; and if he will make a statement. [955]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty to Mr. David Laws, dated 20 June 2005:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many staff were employed at the Child Support Agency in each year since 1997–98; what the projected numbers are for each year to 2006–07; and if he will make a statement.

The table below shows actual staff numbers for the Child Support Agency for the period 1997–98 to 2004–05.

The table reflects whole time equivalent employees and is consistent with that shown in the Annual Report and Accounts.

	Actual staff
1997–98	8,445
1998–99	8,156
1999–2000	8,545
2000–01	9,187
2001–02	9,471
2002–03	10,287
2003–04	10,215
2004–05	9,750

The Agency is planning to employ 9,561 staff in March 2006 and March 2007. This is equivalent to 9,388 staff excluding those on unpaid absences, and is in line with the staffing levels agreed with Ministers.

Youth Unemployment

Mr. Scott: To ask the Secretary of State for Work and Pensions how many young people are economically inactive. [5093]

Margaret Hodge: There are currently 2.1 million under 25s who are classified as economically inactive, two thirds of whom are in full-time education. Of the remaining 695,000, many will be participating in part-time study or receiving support from either the Connexions Service or Jobcentre Plus.

Incapacity Benefit Claimants

David Taylor: To ask the Secretary of State for Work and Pensions what assessment he has made of whether people with mental health problems will be affected by the planned reform of the incapacity benefit system. [5095]

Mrs. McGuire: In developing our proposals for the reform of incapacity benefit we will continue our extensive consultation to ensure that people with mental health problems receive the right support.

The Pathways to Work pilots have drawn on the commitment and expertise from across the public, private and voluntary sectors to give people the help they need.

Benefits/Pensions (Payment Methods)

Malcolm Bruce: To ask the Secretary of State for Work and Pensions how many complaints have been received regarding the introduction of Direct Payment for the payment of pensions and benefits. [3152]

Mr. Plaskitt: The information requested is not available in the format requested. However independent research has shown that there are very high levels of

satisfaction among customers who have transferred to Direct Payment with 93 per cent. of customers stating they were happy to receive their benefits in this way.

Modernising a system, which came in with ration books, caused understandable concerns, but this research has shown that the new system is proving popular. More customers now have accounts and over 12 million payments each week are now paid into customer's nominated accounts.

Malcolm Bruce: To ask the Secretary of State for Work and Pensions what *(a)* information and *(b)* training has been given to Post Office staff about the exceptions scheme for people who are unable to use Post Office Card Accounts or basic bank accounts to receive their pensions or benefits. [3154]

Mr. Plaskitt: The small minority of people who are unable to use Post Office Card Accounts or basic bank accounts to receive their pensions or benefits are paid by cheque.

The cheque (formerly girocheque) is a well established method of payment and Post Office staff were already very familiar with the general processes and procedures surrounding encashment at a Post Office.

Training for Post Office staff is an operational matter for Post Office Ltd. However, Post Office Ltd. were given information about changes to the cheque design and crossing limit introduced in October 2004 which they communicated to their network of branches throughout GB and Northern Ireland by means of an internal 'Operational Focus' publication.

Customers who ask Post Office staff about benefit payments are advised to contact the DWP office dealing with their claim where they will be given all the advice, information and support they need.

Malcolm Bruce: To ask the Secretary of State for Work and Pensions (1) what steps the *(a)* Benefits Agency and *(b)* Pensions Agency have taken to publicise the availability of the exceptions scheme for people who are unable to use Post Office card accounts or basic bank accounts to receive their pensions or benefits; [3155]

(2) through what mechanisms benefit and pension recipients may inform his Department that the Direct Payment option of the payment of benefits and pensions is not suitable for their needs. [3159]

Mr. Plaskitt: I refer the hon. Member to the written answer I gave the hon. Member for Yeovil (Mr. Laws) on 25 May 2005, *Official Report*, column 117W.

Malcolm Bruce: To ask the Secretary of State for Work and Pensions what estimates were made prior to the introduction of Direct Payment of the proportion of people for whom this method of paying pensions and benefits would be unsuitable; and if he will make a statement. [3161]

Mr. Plaskitt: During the Spending Review 2000, a public service agreement target was set at paying 85 per cent. of benefit and pension customers into an account by the end of 2005. We met that target by January 2005 and are now paying over 96 per cent. of customer accounts by Direct Payment.

We always recognised however that there would be a small number of customers who we could not pay into an account and the cheque service was designed to pay these customers.

As at April 2005 we were paying some 712,000 customers by cheque.

Child Poverty

Mr. Laws: To ask the Secretary of State for Work and Pensions how many children were classified as living in poverty in each year from 1979–80 to 2005–06; what targets have been set for each year to 2020; and if he will make a statement. [807]

Margaret Hodge: In the mid to late 1990s, the UK suffered higher child poverty than nearly all other industrialised nations. Over the previous 20 years, the proportion of children in relative low-income households had more than doubled. As our first step towards eradicating this problem, we set an aim to reduce the number of children living in relative low-income households by a quarter by 2004–05. The data for this period will be released in 2006.

The PSA target set in the 2004 Spending Review is to halve the number of children in relative low-income households between 1998–99 and 2010–11, on the way to eradicating child poverty in 2020. As part of this, the Government will set an additional target in the 2006 Spending Review to halve by 2010 the numbers of children suffering a combination of material deprivation and relative low income.

The following table sets out both the percentage and the number of children living in households with an income of below 60 per cent. of the contemporary median, since 1997, which is most commonly used in reporting trends.

Percentage and number of children living in households with income less than 60 per cent. of median

	Before housing costs		*After housing costs*	
	Number (million)	*Percentage*	*Number (million)*	*Percentage*
1979	1.7	12	1.9	14
1981	2.4	18	2.7	20
1987	2.6	21	3.1	25
1988–89	2.9	23	3.3	26
1990–91	3.2	26	3.9	31
1991–92	3.4	27	4.1	32
1992–93	3.5	27	4.3	33
1993–94	3.3	25	4.2	32
1994–95	3.2	24	4.2	32
1995–96	3.5	26	4.6	35

Percentage and number of children living in households with income less than 60 per cent. of median

	Before housing costs		*After housing costs*	
	Number (million)	*Percentage*	*Number (million)*	*Percentage*
1994–95	2.9	23	4.0	31
1995–96	2.8	22	4.0	31
1996–97	3.2	25	4.2	33
1997–98	3.1	25	4.1	32
1998–99	3.1	24	4.1	33
1999–2000	3.0	23	4.1	32
2000–01	2.7	21	3.8	30

Percentage and number of children living in households with income less than 60 per cent. of median

	Before housing costs		*After housing costs*	
	Number (million)	*Percentage*	*Number (million)*	*Percentage*
2001–02	2.6	21	3.7	30
2002–03	2.6	21	3.6	28
2003–04	2.6	21	3.5	28

Notes:
1. Family Expenditure Survey (FES) figures are for the United Kingdom, Family Resources Survey (FRS) figures are for Great Britain.
2. The reference period for FRS figures is single financial years.
3. FES figures are single calendar years from 1979–87, two combined calendar years from 1988–89—1992–93 and two financial years combined from 1993–94—1995–96.
4. Figures are based on the new grossing regime to give more accurate results, particularly at a regional level, and to scale to updated population estimates.
5. All publications listed are available in the Library.

Family Resources Survey (GB)

Disability Allowance

Mr. Swire: To ask the Secretary of State for Work and Pensions how many young people have been registered for disability allowance in East Devon in each of the last five years. [5094]

Mrs. McGuire: The information is in the table.

East Devon parliamentary constituency

As at February:	*Number in receipt of disability living allowance*
2001	2,100
2002	2,200
2003	2,400
2004	2,600
2005	2,800

Notes:
1. Figures taken from a 5 per cent. sample as at the end of February for each year.
2. Figures are rounded to the nearest 100.
3. From November 2002, the methodology for producing these figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported caseload. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.
4. Only cases in payment have been included.
Source:
Information Centre

Health and Safety Executive

Mr. Robathan: To ask the Secretary of State for Work and Pensions what representations he has received about the Complaints Panel that investigates complaints about the Health and Safety Executive; how many investigations the panel has looked at in the last two years; and if he will make a statement. [2099]

Mrs. McGuire: We have received no representations about the Health and Safety Executive's (HSE) Complaints Panel.

HSE's Open Government Complaints Panel has investigated two appeals within the last two years. Further representations have been made to HSE about the panel's decision in one of these cases.

Housing Benefit

Mr. Laws: To ask the Secretary of State for Work and Pensions how many private tenants are in receipt of housing benefit; and what estimate he has made of the cost of housing benefit for private tenants in 2005–06, broken down by local authority. [3568]

Mr. Plaskitt: Information about the number of private tenants in receipt of housing benefit, broken down by local authority, has been placed in the Library.

No estimate is available for the cost of housing benefit broken down by local authority for 2005–06.

In-work Credit

John Battle: To ask the Secretary of State for Work and Pensions what assessment he has made of the pilot of in-work credit to lone parents seeking work in Leeds; and if he will make a statement. [1729]

Margaret Hodge: We are currently testing the effectiveness of the £40 per week In-Work Credit in a range of areas across the country and, from October 2005, in a further six areas across the south-east.

The aim of the pilot is to gather evidence about the proportion of lone parents taking up the Credit and the Work Search Premium, and the impact in terms of supporting more lone parents to move off benefit and into work. There is strong evidence, from the evaluation of New Deal for Lone Parents, that nearly all lone parents would be more positive about considering work if the gains were over £40 per week.

The Leeds pilot began in October 2004 and preliminary analysis of administrative data shows that in the four months to January 2005, 280 payments to lone parents had been recorded.

It is too early in the life of the pilot to make an assessment. DWP has commissioned a wide ranging programme of evaluation, using independent experts to carefully assess the pilots overall. The evaluation programme includes both an impact assessment and qualitative research. The findings from the qualitative research are due to be published in autumn 2007. The first impact assessment report that will assess the pilots that started in October 2004 is due to be published in spring 2007.

Pathways to Work

Mr. Laws: To ask the Secretary of State for Work and Pensions what has been the cost of the return to work credit within the Pathways to Work pilots in each month since its introduction; and what proportion of people who have found work through Pathways to Work have received the credit. [2079]

Margaret Hodge: To the end of January 2005, 62.3 per cent. of those who found work through the Pathways to Work pilots received the Return To Work Credit.

Information on the actual cost each month is not available. Information on the estimated cost committed in each month is in the following table.

Estimated monthly commitment of the return to work credit within the pathways to work pilots

Period	Cost (£)
27 October 2003 to January 2004	1,090,320
February 2004	381,360
March 2004	601,440
April 2004	687,120
May 2004	801,360
June 2004	969,360
July 2004	1,019,760
August 2004	1,270,080
September 2004	1,349,040
October 2004	1,411,200
November 2004	1,464,960
December 2004	438,480
January 2005	866,880

DWP Pathways evaluation data

Poverty

Mr. Laws: To ask the Secretary of State for Work and Pensions how many people in the UK were living in absolute poverty during the latest period for which figures are available, broken down by *(a)* pensioners, *(b)* unemployed, *(c)* disabled and *(d)* others; and if he will make a statement. [918]

Margaret Hodge: Poverty is about more than low income, it is also about health, housing and the quality of environment.

Specific information regarding low income for the United Kingdom is available in 'Households Below Average Income 1994–95—2003–04'. The threshold of below 60 per cent. contemporary median income is the most commonly used in reporting trends in low income.

The information is in the following table.

The number of individuals living in households with income less than the 60 per cent. of 1996–97 (GB) median income held constant in real terms, in 1996–97 and 2003–04

	Great Britain 1996–97	Great Britain 2003–04	United Kingdom 2003–04
Before housing costs			
Pensioners	2,200,000	1,100,000	1,200,000
In an unemployed family	1,800,000	700,000	700,000
In a family with at least one disabled adult	2,900,000	1,800,000	1,800,000
Others	4,600,000	2,800,000	2,800,000
After housing costs			
Pensioners	2,800,000	900,000	900,000
In an unemployed family	2,200,000	1,000,000	1,000,000
In a family with at least one disabled adult	3,900,000	2,200,000	2,200,000
Others	6,500,000	4,100,000	4,200,000

Notes:

1. Rows presented in the table are not mutually exclusive, for example an individual could be a pensioner and disabled.

2. 'Unemployed' describes a workless family where either the head, or spouse, is looking for work.

3. Disability is defined in line with the Disability Discrimination Act.

4. Figures are rounded to the nearest 100,000.

5. Figures in the first two columns are for Great Britain and figures in the third column are for the United Kingdom.

6. 1996–97 figures are provided for comparison on a GB level along with consistent estimates for 2003–04. UK data for 1996–97 are not available as the Family Resources Survey was only extended to cover Northern Ireland in April 2002.

Source:

Family Resources Survey (FRS), 2003–04

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of children in the UK were living in poverty in *(a)* 1997 and *(b)* 2004; what research he has collated on rates in other developed countries; and if he will make a statement. [958]

Margaret Hodge: Specific information regarding low income for the United Kingdom is available in the latest publication of the 'Households Below Average Income 1994–95 to 2003–04'. The threshold of below 60 per cent. contemporary median income is the most commonly used in reporting trends in low income.

The information is in the table.

Children living in households with income less than 60 per cent. of median income

	Before housing costs		After housing costs	
	Million	Percentage	Million	Percentage
Great Britain				
1996–97	3.2	25	4.2	33
2003–04	2.6	21	3.5	28
United Kingdom				
2003–04	2.7	20	3.6	28

Notes:

1. Figures are presented for Great Britain and the United Kingdom as figures for the UK are only available from 2002–03 onwards.

2. International comparisons are important because the Government aspire to be among the very best performers in Europe on child poverty—competing with the record of countries such as Sweden and Denmark. A focus on income before housing costs, as adopted in our spending review 2004 target, supports this as these are used across other European Union countries.

3. "Measuring child poverty", published in December 2003, compares findings with our European Union counterparts. It showed that the UK had the highest child poverty rate in Europe in 1999 (29 per cent.), but according to latest data for 2003, we are now closer to the EU average of (23 per cent.). European comparisons are made using data from the European Household Panel Study, and are not comparable with figures using the Family Resources Survey.

4. By 2020, we want to be comparable to the very best countries in the world. Where the UK had a child poverty rate on the UNICEF measure of 15.4 per cent. in 2004, Scandinavian countries (Denmark, Finland, Norway and Sweden) had rates of less than 5 per cent.

5. All publications listed are available in the Library.

Source:

Family Resources Survey

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of children living in poverty in the UK are living in a single parent household; and if he will make a statement. [959]

Margaret Hodge: Specific information regarding low income for the United Kingdom is available in 'Households Below Average Income 1994–95 to 2003–04', which is available in the Library.

The threshold most commonly used in reporting trends in low income is 60 per cent. of contemporary median income. According to the latest data, in 2003–04, of those children living in households below this threshold, 38 per cent. were in a lone parent family when using a before housing costs measure and 42 per cent. when using an after housing costs measure.

Social Fund Pilot (Wales)

John Battle: To ask the Secretary of State for Work and Pensions what conclusions he has drawn from the recent pilot in Wales of a new operating model for the Social Fund. [2142]

Mr. Plaskitt: The pilot of the Social Fund Standard Operating Model began in December 2004 in Newport and Caerphilly and is currently being evaluated.

Sure Start

John Hemming: To ask the Secretary of State for Work and Pensions under what conditions the Sure Start maternity grant is paid; how many grants were paid out in each Government office region in each year since the start of the scheme; how much was paid out in total; and for what proportion of births it was paid. [3730]

Mr. Plaskitt: Sure Start maternity grant is payable to people, or partners of people, awarded income support, pension credit, income-based jobseeker's allowance, working tax credit (where the disability or severe disability element is included in the award) or child tax credit (where it is payable at a rate higher than the family element).

A claim may be made from the 29th week of pregnancy and up to three months after the baby is born. Claimants must have received advice from a health professional on the health and welfare needs of the child and, where a claim is made during pregnancy, maternal health.

The Sure Start maternity grant is also payable following adoption as long as the baby is not more than 12 months old and following the granting of a parental order in respect of a surrogate birth.

The available information is in the tables.

Sure Start maternity grants by region for 2004–05

Government office region	*Number of awards*
East of England	15,900
East Midlands	16,900
London	35,300
North East	12,800
North West	34,200
Scotland	19,100
South East	20,300
South West	16,300
Wales	13,400
West Midlands	26,600
Yorkshire and Humber	25,300

Sure Start maternity grants for Great Britain

	Number of awards	*Expenditure (£ million)*	*Approximate percentage of births for which a grant was paid*
2000–01	170,300	42.4	26
2001–02	201,400	61.2	32
2002–03	232,400	110.5	36
2003–04	237,800	120.4	[1]
2004–05	235,900	119.4	[1]

[1] Not yet available

Notes:

1. Sure Start Maternity Grants were introduced on 27 March 2000. The change from Maternity Payments was phased in gradually, with Sure Start Maternity Grants being available to claimants whose babies were expected, born, adopted or the subject of a parental order on or after 11 June 2000.
2. Data by Government office region (GOR) are not available for 2002–03 or 2003–04. Prior to 2002–03 a different district structure was in use.
3. Sure Start Maternity Grant awards are recorded in the GOR where they are administered. In 2004–05, a small area of the East Midlands GOR was administered for social fund purposes from a district within the North West GOR.
4. For a multiple birth, only one Sure Start Maternity Grant is awarded (with a payment being made for each baby). In the general population, the number of maternities resulting in twins is about 15 per 1,000 maternities (and triplets and higher order multiple births can be ignored). The number of babies for whom a Sure Start Maternity Grant was paid was estimated using this figure.
5. A claim for a Sure Start Maternity Grant can be made from the 29th week of pregnancy and up to three months after the baby is born. A grant paid in one year can therefore be for a birth in a different year.
6. The approximate percentage of births in a year for which a grant was paid is calculated as 100 x (the number of babies for whom a grant was paid in that year)/(the number of births in that year).
7. Numbers of awards are rounded to the nearest 100, expenditure to the nearest £0.1 million and the approximate percentage of births for which a grant was paid to the nearest whole number.
8. For 2004–05, the sum of the number of awards by GOR differs slightly from that for Great Britain due to rounding.

Sources:

Data on Sure Start Maternity Grants/Maternity Payments: DWP Social Fund Policy, Budget and Management Information System.

Data on births: Office for National Statistics.

CULTURE, MEDIA AND SPORT

Concessionary TV Licences

Lynne Featherstone: To ask the Secretary of State for Culture, Media and Sport how many households in Hornsey and Wood Green constituency are in receipt of the free television licence for over-75s. [5725]

James Purnell: TV Licensing, who administer free television licences for people aged 75 or over as agents for the BBC, are not able to provide geographical breakdowns of the number of free licences issued. However, the number of households with at least one person aged 75 or over receiving the winter fuel payment in the Hornsey and Wood Green constituency in 2004–05 was approximately 4,025, according to Department for Work and Pensions records.

Historic Rail Bridges

Mr. Hayes: To ask the Secretary of State for Culture, Media and Sport what the Department's policy is on seeking UNESCO status for historic rail bridges. [5653]

Mr. Lammy: For a site to be considered for inscription under the UNESCO World Heritage Convention, it must first be included on a national tentative list of sites likely to be put forward by a State Party in future years. Railway structures were considered when the UK tentative list was revised in 1999 and the Forth Rail Bridge and the Great Western Railway were selected for inclusion.

Libraries (London)

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many staff were employed on average in each library in London in each of the last five years. [5448]

Mr. Lammy: This information is not held centrally. However, the following table shows the number of library staff in post across London as a whole for the past 5 years[1]. This information is drawn from the Chartered Institute of Public Finance and Accountancy (CIPFA) Public Library Statistics Actuals. The CIPFA statistics show totals for individual library authorities. Copies are held in the House Library.

[1] Rounded to the nearest whole number.

	Professional posts	*All other posts*	*Total*
1999–2000	1,189	2,691	3,880
2000–01	1,156	2,681	3,837
2001–02	1,143	2,691	3,834
2002–03	1,111	2,824	3,935
2003–04	1,089	2,705	3,794

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many hours on average public libraries in each local authority in London were open in each of the last five years. [5449]

Mr. Lammy: The table shows for all authorities across inner and outer London the aggregated average number of opening hours per week for the last five years available. This information is drawn from the Chartered Institute of Public Finance and Accountancy (CIPFA) Public Library Statistics Actuals. The CIPFA statistics show figures for individual library authorities. Copies are held in the House Library.

	Hours				
	60 and over	*45–59*	*30–44*	*10–29*	*Less than 10*
1999–2000	4	110	166	89	0
2000–01	10	108	163	83	0
2001–02	12	121	160	72	0
2002–03	17	139	149	56	1
2003–04	12	169	131	53	0

Licensing (London)

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many applications were made for licences to sell alcohol in each London borough in each month since June 2004. [5267]

James Purnell: This information is not available to my Department.

Statistical data on applications for licences to sell alcohol have traditionally been collected at three yearly intervals (for the last year of each period) using statistics collated by court or petty session division rather than by borough or other local authority area.

The last exercise conducted was for the period 1 July 2003 to 30 June 2004. As figures are not broken down by month it would not be possible to provide information on liquor licences from each petty sessional area in London for June 2004 without incurring disproportionate costs and no statistics are available from July 2004 onwards.

After the Licensing Act 2003 is fully implemented on 24 November, my Department will consider the adequacy of the present arrangements for collecting and collating central licensing statistics.

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport what percentage of licences to sell alcohol has been transferred to local authority licences in *(a)* each London borough and *(b)* London. [5268]

James Purnell: My Department does not hold this information, which is not collected centrally.

Licensing authorities, which are in the main local authorities, are responsible for dealing with applications for converting existing justices' licences for the sale of alcohol into premises licences and club premises certificates. Licensing authorities are also fully responsible for administering and enforcing the new regime, and for collating information on applications received and dealt with.

TRADE AND INDUSTRY

3G Mobile Phone Masts

Mrs. Spelman: To ask the Secretary of State for Trade and Industry how much money was raised by the Exchequer in auctioning 3G mobile phone mast licences. [5569]

Alun Michael: In April 2000 the Radiocommunications Agency raised £22.478 billion from an auction of five licences for radio spectrum to support the third generation of mobile telephones.

Further details can be found in the National Audit Office report 'The Auction of Radio Spectrum for the Third Generation of Mobile Telephones', published October 2001.

Carbon Capture Technology

Mr. David Hamilton: To ask the Secretary of State for Trade and Industry what estimate he has made of the cost of installing carbon capture technology in the UK's coal-fired power stations. [5126]

Malcolm Wicks: The cost of fitting carbon capture technology to coal-fired plant is estimated to be between £600 and £700 per kWt of installed capacity.

Mr. David Hamilton: To ask the Secretary of State for Trade and Industry what plans he has to assess carbon capture technology for the UK's coal-fired power stations. [5127]

Malcolm Wicks: The Government plans are set out in the Carbon Abatement Technology Strategy for Fossil Fuel Use announced on 14 June 2005 and which is available in the Libraries of the House.

Mr. David Hamilton: To ask the Secretary of State for Trade and Industry what assessment he has made of the recommendations of the Scottish Affairs Select Committee on the underwriting of the cost of carbon capture technology being fitted to coal-fired power stations in the UK. [5178]

Malcolm Wicks: The Government will be responding to the committee's report shortly. The Carbon Abatement Technology Strategy for Fossil Fuel Use, announced on 14 June 2005, will examine possible measures to encourage the initial commercial deployment of carbon capture and storage technologies in the UK.

Coal Health Claims

John Mann: To ask the Secretary of State for Trade and Industry what safeguards have been put in place to protect the interests of his Department when a senior Irisc employee leaves to take up employment with a solicitor or claims handler. [2734]

Malcolm Wicks: No such safeguards have been put in place.

John Mann: To ask the Secretary of State for Trade and Industry which Minister signed the *(a)* vibration white finger and *(b)* chronic obstructive pulmonary disease agreements on mining compensation with the claimants' solicitors group; and on what date. [5747]

Malcolm Wicks: Both agreements were signed by Nabarro Nathanson solicitors on behalf of the Department. The vibration white finger agreement was signed on 24 January 1999 and the respiratory disease agreement was signed on 22 September 1999.

John Mann: To ask the Secretary of State for Trade and Industry pursuant to the Answer of 13 June 2005, *Official Report*, column 70W, on Coal Health Claims, on what date in 1999 the Minister for Energy and Industry approved in writing the chronic obstructive pulmonary disease agreement with the Union of Democratic Mineworkers. [6057]

Malcolm Wicks: Ministerial approval for agreeing separate negotiations for the claims handling arrangements for respiratory disease with the Union of Democratic Mineworkers (UDM) was given in December 1998. The terms of compensation are the same as for the Claims Handling Agreement with the claimants' solicitors group. Ministerial approval for signing the UDM agreement was given in November 1999.

Departmental Name

Mr. Prisk: To ask the Secretary of State for Trade and Industry how much the proposal to change the name of his Department cost in terms of *(a)* signage, *(b)* stationery and *(c)* literature. [1085]

Alan Johnson: Preliminary work was undertaken to meet the name change of the Department at an overall cost of £14,500. This was broken down into:

(a) Signage £7,500

(b) Design changes to stationery templates £4,000

(c) Literature including web site changes £3,000

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what the total cost was of *(a)* changing the title of the Department of Trade and Industry to the Department for Productivity, Energy and Industry and *(b)* reverting to the original title. [2689]

Alan Johnson *[holding answer 9 June 2005]:* I refer the hon. Member to the answer I gave on 6 June 2005, *Official Report*, column 304W.

Electricity Generation

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what proportion of dispatchable electricity generation constituting the United Kingdom's electrical power portfolio he estimates will be obsolete by the year 2020; and what steps he is taking to encourage its replacement. [4960]

Malcolm Wicks: The DTI's latest energy projections (http://www.dti.gov.uk/energy/sepn/uep_addendum.pdf for information to 2020 and http://www.dti.gov.uk/energy/sepn/uep2004.pdf for more detailed information for 2010) indicate that around 40 per cent. of current generating capacity may close by 2020. There are significant uncertainties attached to this estimate. Generating plants do not have fixed lifetimes and worldwide experience shows that significant increases in plant lifetime can be achieved through various means.

It is a matter for market participants to decide when and to what extent new generating capacity is constructed or existing capacity is refurbished with a view to prolonging lifetimes.

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what estimate he has made of the proportion of the projected electrical generation fleet in 2020 that will be *(a)* gas-fired, *(b)* coal-fired, *(c)* nuclear powered, *(d)* oil fired and *(e)* powered by other sources. [4962]

Malcolm Wicks: Consistent with the most recent published projections http://www.dti.gov.uk/energy/sepn/uep_addendum.pdf) estimated shares of generating capacity in 2020 are: gas 61 per cent. coal 13 per cent. nuclear 5 per cent. oil 2 per cent. and other 19 per cent.

Further information on energy projections is also available at the following website: http://www.dti.gov.uk/energy/sepn/uep2004.pdf

Mail Trains

Mr. Hoyle: To ask the Secretary of State for Trade and Industry if he will make a statement on the reintroduction of mail trains; and on which routes they have been reintroduced. [5155]

Barry Gardiner: Decisions about Royal Mail's transport network are an operational matter for the company's board. The Government welcome Royal Mail's decision to reintroduce some rail use as part of its transport infrastructure.

I understand that Royal Mail has entered into a contract with GB Railfreight to provide services between London and Scotland. The chief executive has been asked to reply direct to the hon. Member with more details.

MG Rover

Mr. Clappison: To ask the Secretary of State for Trade and Industry what assistance is available to companies supplying MG Rover who are not located in the West Midlands; what assessment has been made of claims of retention of title made by Rover suppliers in respect of stock supplied to Rover; and what assistance is planned to be given to companies with such claims. [2742]

Ian Pearson: The support package for MG Rover suppliers was announced on 8 April 2005 and is available nationally, not just to those companies located within West Midlands. The assistance available includes short-term support for the wage costs of affected employees, loan finance for working capital and help with business planning. These services can be accessed via the Rover taskforce's supplier help line on 0121 607 0121. Details are also available at http://www.rover-response.info.

It is for individual companies to pursue retention of title claims with the administrators of MG Rover and Powertrain. Several suppliers have done this successfully. The Government have made no assessment of retention of title claims and there are no plans to do so.

In order for suppliers with valid claims to recover their property, it is necessary for the MG Rover distribution centre to be staffed and kept open. The cost is significant and the activity is of no benefit to MG Rover's creditors. The administrators are therefore unwilling to fund it and the Department, through the Rover taskforce, have agreed to meet the cost for a limited period so as to assist suppliers to reclaim their stock of components. This facility will be made available up to 23 June 2005.

Charles Hendry: To ask the Secretary of State for Trade and Industry at what time on Thursday 7 April the former Secretary of State were informed that MG Rover would be entering administration; in what way he was given that information; and by whom. [5862]

Ian Pearson: My right hon. Friend the then Secretary of State received a telephone call from John Towers at 8.30 pm London time on April 7 informing her that MGR Directors had met and agreed to call in administrators and would be making a statement.

Nuclear Power

Paul Flynn: To ask the Secretary of State for Trade and Industry what estimate he has made of the additional costs, in p/kWh, which would be added to the price of electricity generated by nuclear power were full liability insurance to be required in respect of such generation. [5195]

Malcolm Wicks: It is most unlikely that unlimited liability insurance would be commercially available for such damage. No estimate of the cost has therefore been made.

Paul Flynn: To ask the Secretary of State for Trade and Industry what estimate he has made of the cost of electricity generated by nuclear power, in p/kWh, attributable to the costs of decommissioning liabilities. [5293]

Malcolm Wicks: The Department does not make estimates of the share of generation costs attributable to decommissioning liabilities.

British Energy makes payments into the Nuclear Liabilities Fund, which is underwritten by HMG, for the eventual decommissioning of its nuclear plant. Magnox decommissioning is part of the NDA's remit and incorporated in its planning process. Such proposals are set out in its annual plan for 2005–06. The plan for 2005–06 is available at the NDA website at www.nda.gov.uk.

Mr. Carmichael: To ask the Secretary of State for Trade and Industry if he will make a statement on the operation of section 36 of the Electricity Act 1989 in relation to the building and extension of nuclear generation power stations in Scotland. [5108]

Malcolm Wicks: Significant development of any power station in Scotland, including all new plant above 50MW, requires consent from Scottish Executive Ministers under section 36 of the Electricity Act 1989.

Radioactive Leak (Thorp)

Harry Cohen: To ask the Secretary of State for Trade and Industry for what reason the leak of radioactive material from the Thorp Plant in August 2004 was not noticed until April 2005; how much radioactive material escaped during this period; and if he will make a statement. [4877]

Malcolm Wicks: The operator of THORP, British Nuclear Group Sellafield Ltd., identified the leakage of liquid on 19 April 2005 when a CCTV camera was introduced into the heavily shielded feed clarification cell in the THORP Head End Plant. Around 83 cubic metres of radioactive liquid had escaped from the cell into a fully enclosed stainless steel cell designed to safely contain such leakages. There has been no release of radioactivity from THORP and BNGSL is working to recover the liquid in a safe and controlled manner.

The results of British Nuclear Group's investigation suggests that the pipe may have started to fail in August 2004 and that complete failure of the pipe may have occurred in mid-January 2005. Opportunities such as cell sampling and level measurements were missed which would have shown that the material was escaping to secondary containment. BNG's investigation has made

recommendations to improve the maintenance, testing and reliability of cell instrumentation and other systems that give indications of plant abnormality. BNG has acknowledged that the indications that the pipe was leaking were not acted upon quickly enough.

A separate independent investigation by the Health and Safety Executive's Nuclear Installations Inspectorate is considering both technical issues and broader safety culture and management of nuclear safety issues, and this will provide the basis for any subsequent enforcement actions.

Renewables Target

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what estimate he has made of the cost of meeting the renewables obligation per tonne of carbon dioxide saved under the 2010 renewables target. [4954]

Malcolm Wicks: The National Audit Report on Renewable Energy published in February this year estimated the figure for the cost of carbon dioxide saved by reaching the renewables obligation target would equate to £70 per tonne.

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what estimate he has made of the quantity of carbon dioxide emissions that would be saved by successful attainment of the 2010 renewables target; and what proportion of total *(a)* UK and *(b)* world carbon dioxide emissions the quantity saved would constitute. [4955]

Malcolm Wicks: Providing 10 per cent. of electricity consumption from renewable energy would save about 2.5 million tonnes of carbon per year in 2010 if the equivalent were generated from gas. This equates to a saving of 1.5 per cent. on 1990 emission levels. The reduction is expected to be about 0.02 per cent. of projected world emissions in 2010.

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what his Department's latest estimate is of the reduction in global temperature increase that would be achieved from successful attainment of the Government's 2010 renewables target. [4957]

Malcolm Wicks: The reduction in global temperatures achieved by successful attainment of the Government's renewables target is not directly calculable. The target forms part of an overall package of policies and measures to reduce greenhouse gas and carbon dioxide emissions which, along with the actions taken by other countries, is intended to avoid dangerous climate change.

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what quantity of carbon dioxide he estimates will be saved per mega watt hour of electricity generated from *(a)* wind and *(b)* landfill gas for each year until 2010. [4958]

Malcolm Wicks: The level of carbon emissions saved from generation through wind or landfill gas depends on the assumption made about the alternative generation displaced. The emissions factors associated with coal and gas-fired generation are shown in the following table.

Generating station displaced	*Emissions saving per megawatt hour (grammes of carbon)*
Existing coal	0.247
Existing gas	0.111
New gas	0.1

Note:
To convert from carbon to carbon dioxide multiply by 44/12

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what the Government's 2010 target for renewable electricity is; which sources of generation are eligible to constitute that target; and whether the target refers to *(a)* total electricity generated and *(b)* amount supplied to final consumers. [4959]

Malcolm Wicks: We have set a target of 10 per cent. of the UK's electricity supply to be generated from renewable sources eligible under the Renewables Obligation by 2010 with the aspiration to increase that contribution to 20 per cent. by 2020.

All sources of renewables are eligible under the Renewables Obligation with the exception of large-scale Hydro (over 20 MW DNC) and energy from waste incineration (that does not use advanced Conversion Techniques).

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what level of capacity credit is assigned by his Department to non-dispatchable renewables in 2020. [4961]

Malcolm Wicks: Decisions as to the fuel choice for new capacity are a matter which we believe is best left to the market, where investors are well placed to assess the available information about the level and accessibility of remaining global reserves.

We would expect the market to continue to anticipate, and respond to, the need to replace that capacity.

Royal Mail (Recorded Deliveries)

David Taylor: To ask the Secretary of State for Trade and Industry for how long Royal Mail is obliged to keep records of recorded deliveries despatched to residential customers. [5179]

Barry Gardiner: This is an operational matter for Royal Mail. The Chief Executive has been asked to reply direct to my hon. Friend.

CABINET OFFICE

London Olympic Bid

Kate Hoey: To ask the Chancellor of the Duchy of Lancaster on what dates the Cabinet Committee on the London Olympic Bid has met in the last two years and who attended each meeting. [3578]

Mr. Hutton: Although the Government publish the title, membership and terms of reference of cabinet committees, it has been the practice of successive governments not to disclose details of their proceedings, including the dates they meet.

EDUCATION AND SKILLS

Building Repair

Mr. Rob Wilson: To ask the Secretary of State for Education and Skills what proportion of the sum allocated for the renovation of further education colleges in the last Budget has been spent. [5398]

Bill Rammell: The £1.5 billion budget covers the years 2005–06 to 2009–10. The Learning and Skills Council is responsible for providing capital grant support towards the costs of colleges' capital investment programmes. In the year ending 31 April 2006 it should incur expenditure of £183 million on further education and 16–19 capital projects of which £37 million had been paid to the end of May. The LSC estimates that its capital expenditure in the full year should trigger over £600 million of investment by colleges.

Carers

Tim Loughton: To ask the Secretary of State for Education and Skills what measures have been taken to improve facilities for schools to respond to the needs of young carers in the last five years. [4625]

Maria Eagle: The Government's National Strategy for Carers "Caring for Carers" set specific commitments to improve support for young carers. The strategy recognises schools as playing a key role in identifying young carers.

The Department promotes awareness of young carers' needs through specific references in personal, social and health education (PSHE) and citizenship curriculum frameworks; the standards for qualified teacher status; and departmental bullying guidance.

The DfES Standards Fund Vulnerable Children Grant was introduced in the 2003–04 financial year to help local education authorities to ensure that vulnerable children have access to high quality education. Young carers are one of the eight key groups that the grant is designed to help. The grant was worth a total of £84 million, on a matched funding basis, in the financial years 2003–04 and 2004–05. £84 million is also available in the current financial year 2005–06. It is for local authorities to decide how to use the grant.

Tim Loughton: To ask the Secretary of State for Education and Skills how many children are benefiting from the carers special grant. [4626]

Maria Eagle: The carers grant was introduced in 1999 and since then has provided an extra £450 million over the past five years, to increase the number of breaks for carers. The grant is worth £185 million in the current financial year, and will continue at this level until the financial year 2007–08 at least. Of this amount, 20 per cent. has been earmarked at a national level each year for children's services, including young carers. Information is not collected centrally about the numbers of children benefiting from the grant.

Tim Loughton: To ask the Secretary of State for Education and Skills (1) what estimate she has made of the number of child carers who care for a relative with a mental illness; [4650]

(2) how many assessments of carer needs have been carried out, broken down by carer age groups, since the introduction of the Carers and Disabled Children Act 2000; [4462]

(3) what estimate she has made of the number of young carers; [4464]

(4) what percentage of young carers have been assessed for their ability to provide for the person they care for. [4465]

Maria Eagle: Section 17 of the Children Act 1989 places a duty on local authorities with responsibilities for children's social services to safeguard and promote the welfare of children in need in their area, through the provision of services appropriate to the needs of such children, and as far as is consistent with this, to promote the upbringing of children within their families.

The Department for Education and Skills does not collect information on assessments made by local authorities under the 1989 Children Act, in specific relation to the numbers of children in need who are young carers, or about those who are young carers because their parents have mental health problems. Neither does the Department collect information about young carers' ability to provide for the person they care for. The 2001 census recorded a total of 149,942 young carers aged 17 and under.

The following table shows the estimated number of carer assessments and reviews, from 2000–01 to 2003–04 inclusive, made principally under the Carers and Disabled Children Act 2000.

It is not possible to disaggregate the figures for the under 18 category.

Number of carers assessed or reviewed: England

	All ages	*Under 18*	*18–64*	*65–74*	*75 and over*	*Age not known*
2000–01	194,900	1,500	41,800	16,800	25,200	109,400
2001–02	242,800	2,900	75,600	30,200	55,200	79,000
2002–03	286,900	6,400	99,100	39,600	72,700	69,100
2003–04[1]	350,400	7,900	135,200	53,300	100,200	53,800

[1] The carers return was defined in 2003–04 to include carers assessed or reviewed.

Note:
Data for previous years refer to assessments only.

Tim Loughton: To ask the Secretary of State for Education and Skills when Ministers from her Department last met representatives from young carers' organisations. [4651]

Maria Eagle: Lord Filkin, the then Parliamentary Under-Secretary of State, met with young people from the Children's Society Young Carers Initiative in January.

Connexions Service

David Taylor: To ask the Secretary of State for Education and Skills if she will make a statement on the Connexions Service. [5935]

Maria Eagle: Proposals for Connexions and the future delivery of services for 13 to 19-year-olds will be set out in a Youth Green Paper which we intend to publish in due course.

EU Students

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills (1) under what circumstances higher education institutions in England would be obliged to award financial support for maintenance purposes to EU students if the support is fee-related from 2006; [3113]

(2) whether there are circumstances in which the terms used to describe bursary or financial support would make higher education institutions in England liable to make support available to EU students from 2006. [3098]

Bill Rammell: My Department does not give advice on the legal obligations of higher education institutions in running their affairs. Institutions take their own decisions on what bursaries or financial support they offer to their students, and are responsible for remaining within the law.

Every Child Matters

Mr. Hoban: To ask the Secretary of State for Education and Skills which of the agencies her Department funds have the responsibility under Every Child Matters to break the link between social exclusion and behavioural problems of children in early years education. [5420]

Beverley Hughes: The Sure Start, Extended Schools and Families Group in the Department has the responsibility for delivering the Every Child Matters Change for Children Programme in relation to children in their early years. The aim is to create a joined-up system of health, family support, child care and education services so that every child gets the best start in life. The planned development of 3,500 Sure Start children's centres by 2010 will be a key part of this, enabling early identification of potential problems for the child and providing families with appropriate support they need.

Research evidence, such as the Department's Effective Provision of Pre-school Education (EPPE) study, shows a link between social deprivation and the risk of poor social and behavioural development in the early years. It is also known from research that quality pre-school education and child care, and the importance of the home environment have a positive effect on children's social and emotional development in the early years and into primary school.

To respond to this research we are funding a number of programmes to raise the quality of early years education. All providers of Government funded early education for children aged three to five are required to provide the Foundation Stage part of the National Curriculum. Personal, social and emotional development is a key area of learning and children are supported to understand what is right, what is wrong and why; and to consider the consequences of their words and actions for themselves and others. The Foundation Stage guidance indicates that practitioners should involve children in agreeing codes of behaviour and taking responsibility for their implementation.

The Department has appointed the Institute of Psychology, King's College London to develop a training programme to support practitioners on young children's personal social and emotional development to support the Birth to Three Matters and Curriculum Guidance for the Foundation Stage documents. The materials will help providers support children develop respect for others, social competence and a positive disposition to learn.

The Department's Parental Community Support Project aims to support parents in supporting their children's early learning and development—improving educational, health, social and emotional outcomes for children in 500 communities. The project will identify and disseminate existing effective practice in engaging with parents, creating effective intervention models to increase parents' engagement with their children's early learning, and creating effective links between local settings and parents. A key part of the project will be to train front line staff working with children and parents.

In recognition of the importance of young children starting to develop good social skills in their earliest years of life the Department has a PSA target to improve children's communication, social and emotional development and to reduce inequalities between the level of development achieved by children in the 20 per cent. most disadvantaged areas and the rest of England.

Mr. Hoban: To ask the Secretary of State for Education and Skills what assessment her Department has made of *(a)* the effectiveness of On Track and *(b)* its incorporation into the Children's Fund within the Every Child Matters strategy. [5053]

Beverley Hughes: The formal evaluation of On Track is still in progress with the final report due in December 2006. This report will look at the effectiveness of On Track and provide evidence about how it has contributed to delivering the Every Child Matters outcomes. It will also explore how On Track is positioned as part of the Children's Fund and within the broader preventative agenda.

Evidence from Phase 1 of the evaluation suggests that On Track has been effective in tackling a range of known individual, family and school based risk factors for children and young people linked to later involvement in crime. The programme has had a positive impact on both children and adults especially in improving their confidence and self-esteem. Children are more resilient, and more likely to be in positive peer groups; families exhibit greater stability and more affectionate relationships. This has led to reductions in school absences, temporary exclusions and nuisance behaviour among the children and young people involved in the On Track programme.

Extended School Services

Lynne Jones: To ask the Secretary of State for Education and Skills what restrictions apply to the bodies from which local education authorities can commission extended school services; and if she will make a statement. [5922]

Beverley Hughes: It will be for individual local authorities and schools to decide what partners they need to commission to support the development of extended services in schools. We have not put in place any restrictions. We envisage a strong role for the voluntary and private sectors in delivering extended services in partnership with schools, particularly for services such as child care. The services developed in schools will complement and join up with other services and providers where they are already in place. Written agreements will underpin any commissions awarded to providers to ensure that issues such as health and safety are addressed.

GCSEs (London)

Mr. Denham: To ask the Secretary of State for Education and Skills what assessment she has made of the reasons for the change in performance in GCSE examinations in inner London local education authorities over the last five years; and if she will make a statement. [5142]

Jacqui Smith: For the first time in history, the 2004 GCSE results for state schools in London overtook the national average. We know that the single most important factor in the control of the education service in changing how well children do is the quality of the teaching that they experience. The quality of school leadership is the most important factor in determining how well a school is able to promote effective teaching. And the quality of local support for school improvement is the biggest external influence on the effective leadership and management of schools.

A range of factors are therefore significant. First, the focused attention of teachers, heads and LEAs on improving the quality of teaching and learning has been critical. Second, Ofsted identifies this generation of teachers as the best ever and strong improvements in teacher supply have been disproportionately beneficial in London, since times of shortage affect London most. There are now 63,000 full-time equivalent (FTE) teachers in London, compared to 58,300 in 2001. Third, the quality of leadership in London's schools is now identified by Ofsted as being better than the national average. Fourth, local education authorities play a crucial role in supporting school improvement, and we have seen their capacity to do so improve over the past five years. In 2004 20 London authorities were rated 'excellent' or 'good' in the comprehensive performance assessment (compared to 13 in 2002) and no authorities were rated 'poor' (compared to 4 in 2002).

National programmes have contributed to supporting this improvement. Excellence in Cities has provided focused support and very significant resources in London, as in other urban areas across the country. Intervention in those local education authorities which were failing has contributed to bringing in to those authorities the people and resources which have enabled them to be effective.

The London Challenge, which began in 2002, has sought to focus national programmes and get behind the efforts of all those who seek to raise standards in London. Through both targeted and pan-London work, it has sought to support teachers, leaders and local authorities in their work for raising the achievement of young people and creating a world-class education system.

Laptop Computers

Lynne Featherstone: To ask the Secretary of State for Education and Skills how many laptop computers have been used by *(a)* Ministers, *(b)* special advisers and *(c)* officials in her Department in each year since 1995; how many have been (i) lost and (ii) stolen in that period; what the cost was of the use of laptops in that period; and if she will make a statement. [4128]

Maria Eagle: The breakdown of information regarding users is not available. Laptops are used by 1,629 members of the Department for Education and Skills. No laptops were lost and the following table shows the number of laptops reported as stolen since 1 January 1996.

	Number of laptops	*Approximate value per item (£)*	*Total approximate value (£)*
1996	6	1,000	6,000
1997	5	1,000	5,000
1998	7	1,000	7,000
1999	5	1,000	5,000
2000	2	1,000	2,000
2001	3	1,000	3,000
2002	0	0	0
2003	8	1,326.58	10,612.64
2004	4	1,326.58	5,306

Literacy

Graham Stringer: To ask the Secretary of State for Education and Skills what estimate she has made of literacy levels among 11-year-olds in *(a)* Manchester, Blackley, *(b)* Manchester, *(c)* Greater Manchester and *(d)* England. [5732]

Jacqui Smith: The 2004 results show that standards in primary schools are improving again. In English the percentage of 11-year-olds achieving the target level 4 of the national curriculum increased by (percentage) points to 78 per cent.

Standards in primary schools in the *(a)* Manchester, Blackley, constituency, *(b)* Manchester and *(c)* Greater Manchester have also improved. A summary of the 2004 outcomes compared to 2003 is set out in the table.

Information on education and skills by constituency is made available by the Department through the 'In Your Area' website, available at http://www.dfes.gov.uk/inyourarea

2004 Key Stage 2 English (achievement at Level 4 and above) compared to 2003

Percentage

	2003 results	*2004 results*	*Percentage point increase*
Manchester, Blackley	70	71	+1
Manchester	68	71	+3
Greater Manchester	73	77	+4
England	75	78	+3

Parenting Programmes

Mr. Hoban: To ask the Secretary of State for Education and Skills what financial support her Department has provided for parenting programmes in 2005–06; and what parenting programmes her Department has funded in each local education authority area. [5054]

Maria Eagle: The Department has made available £4.97 million through the Strengthening Families Grant to voluntary and community sector providing family and relationship support for the financial year 2005–06. We expect to announce successful applicants shortly. We also have made £16.4 million available to the sector from 2004–06 through the Parenting Fund (administered by the National Family and Parenting Institute).

Proposals for family and relationship support funding are sought from across England and grants are awarded on the basis of merit and adherence to published grant criteria. Information on the distribution of parenting programmes by local education authority is not requested or held.

Pre/after-school Clubs

Mr. Dodds: To ask the Secretary of State for Education and Skills how much of the funds allocated for breakfast and after-school clubs will be allocated to Northern Ireland. [5957]

Beverley Hughes: The funding announced on Monday 13 June to support extended services, including breakfast and after school clubs, has been allocated to all local authorities in England. Funding arrangements in Northern Ireland are dealt with separately by the Northern Ireland Assembly.

Keith Vaz: To ask the Secretary of State for Education and Skills (1) what activities the proposed after-school clubs will offer; [6044]

(2) how the after school club scheme will be funded; what mechanisms will be put in place to audit the spending of the relevant funds; and what additional services will be provided from the funding provided direct to schools; [6045]

(3) what steps she will take to ensure that teaching staff do not experience increased workload from the proposed after-school club scheme. [6046]

Beverley Hughes: Though the development of extended schools, we want children and young people to be able to access a wide range of interesting activities such as homework clubs, sport, music tuition, dance and drama, arts and crafts, special interest clubs such as chess and first aid courses, visits to museums and galleries, foreign language tuition, volunteering, or business and enterprise activities. It will be up to schools in consultation with parents to develop activities that will best meet the needs of their children. The Department for Education and Skills' Extended Schools Prospectus' sets out the Government's expectation of a core set of extended services, including after school activities, that we want to see in or accessible through all schools by 2010.

The funding for local authorities announced on 13 June is to help 'kick-start' extended services, such as after school clubs. Funding was also announced to be directly distributed to schools. Overtime, in order to ensure that schools can make a sustainable all year round offer of extended services to families they will need to establish realistic costing and charging arrangements.

Local authorities will allocate funding to schools to develop extended services taking into account factors such as existing services in the community and levels of deprivation. Funding released to schools on that basis should be spent in accordance with that agreement. Local authorities already audit public funds spent by schools. Any additional funding provided for extended schools will fall within this existing audit regime.

It will be for individual schools to determine, in consultation with parents and young people, the focus of the funding provided directly to schools but it has been provided to help schools develop and sustain extended services.

There is no expectation that teachers will deliver extended services, nor is it necessary for head teachers to be responsible for their management. The funding made available can be used flexibly to support whatever barriers schools might face in developing extended services. This can include, for example, appointing a manager who works across a cluster of schools to develop extended services and hence ease any burden on existing school staff. The National Remodelling Team will take a lead role in supporting schools on the development of extended services and will provide schools with the support they need to ensure that services develop in way that is consistent with the tenets of school workforce reform.

Pupil Suspensions

Mr. Malins: To ask the Secretary of State for Education and Skills what powers head teachers have *(a)* to search and *(b)* to suspend pupils at (i) state secondary schools and (ii) private schools if they suspect a pupil of carrying any form of weapon on school premises. [5826]

Jacqui Smith: State and independent school head teachers can search a desk or locker without the pupil's consent, search a bag or jacket with consent, or ask the police to do a personal search. Proposals in the Violent Crime Reduction Bill would give all schools additional powers to search outer clothing and belongings without consent, where they reasonably suspect an offensive weapon is being carried. State school head teachers can permanently exclude a child for carrying an offensive weapon, even on a first offence, and appeal panels

should not normally reinstate such pupils. Private school proprietors draw up their own discipline policies and decide what sanctions the head teacher can impose.

Special Needs Assistance

Mr. Drew: To ask the Secretary of State for Education and Skills what account local authorities take of social class in assessing applications for special needs educational assistance. [5129]

Maria Eagle: Local authorities do not take account of social class as an indicator of the need for special educational needs (SEN) support. On request from parents or schools, local authorities are under a duty, where necessary, to assess children's SEN and draw up statements which set out the provision to meet those needs. The Education (Special Educational Needs) (England) (Consolidation) Regulations 2001 require local authorities when making assessments of a child's SEN to seek advice from the social services authority as to the educational, medical, psychological or other features of the case which appear to be relevant to the child's educational needs and how those features could affect the child's educational needs. The local authority would have to take account of any relevant advice from the social services authority concerning a child's family and social situation, rather than the child's social class, when making an assessment.

Special Schools

Mr. Cameron: To ask the Secretary of State for Education and Skills (1) when the Government's audit of special schools began; and when it is expected to conclude; [4760]

(2) what account will be taken of the views of parents in the Government's audit of special schools; [4761]

(3) who will conduct the Government's audit of special schools; what the terms of reference are; and if she will make a statement. [4764]

Maria Eagle: The National Audit of Low Incidence Special Educational Needs (SEN) support, services and provision commenced on 1 February 2005. The audit is due to report back to the Department early January 2006.

The Special Needs Consultancy is undertaking the audit on behalf of the Department. The audit will take into account the views of education, social care, health and the voluntary and private sectors. The aims of the audit are

- Establish how local authorities meet the needs of the children in their authority with low incidence SEN.
- Explore gaps in services, support and provision, and how these gaps can be/are being addressed.
- Use the above to support and inform policy and practice development for regional and local planning and provision so that more pupils have their needs met locally.
- Help develop thinking around Regional Centres of Expertise.
- Identify local, regional and national centres of good practice and expertise, especially those with the potential for enhancing their role to provide advice and/or support to schools.

It is not the intention to survey schools or parents at this stage, the audit will predominantly seek the views in each local authority area of those sectors and groups involved in the delivery of SEN support services and provision.

Mr. Cameron: To ask the Secretary of State for Education and Skills if she will impose a moratorium on the closure of special schools until the Government's audit have been completed. [4762]

Maria Eagle: The National Audit of Low Incidence Special Educational Needs (SEN) support, services and provision commenced on 1 February 2005. The audit is due to report back to the Department early January 2006.

The Special Needs Consultancy is undertaking the audit on behalf of the Department. The audit will take into account the views of education, social care, health and the voluntary and private sectors. The aims of the audit are:

- Establish how local authorities meet the needs of the children in their authority with low incidence SEN.
- Explore gaps in services, support and provision, and how these gaps can be/are being addressed.
- Use the above to support and inform policy and practice development for regional and local planning and provision so that more pupils have their needs met locally.
- Help develop thinking around Regional Centres of Expertise.
- Identify local, regional and national centres of good practice and expertise, especially those with the potential for enhancing their role to provide advice and/or support to schools.

Special schools provision of reorganisations or closures is a matter for local decision.

Mr. Cameron: To ask the Secretary of State for Education and Skills whether the review of provision of special schools will take evidence from *(a)* Baroness Warnock and *(b)* other experts. [4763]

Maria Eagle: We published the "Report of the Special Schools Working Group" in 2003 which contained a number of specific proposals and recommendations which would allow special schools to develop their role within the wider schools framework. The Group's recommendations are contained in our SEN strategy "Removing Barriers to Achievement". One of the recommendations of the Group was for the Department to carry out a National Audit of low Incidence SEN Specialist support services and provision in order to promote effective regional and sub-regional planning to meet the needs of children with low incidence needs.

The National Audit of Low Incidence Special Educational Needs (SEN) support, services and provision commenced on 1 February 2005. The audit is due to report back to the Department early January 2006. The audit will predominantly seeking the views in leach local authority area of those sectors and groups involved in the delivery of SEN support services and provision.

FOREIGN AND COMMONWEALTH AFFAIRS

Arms Sales (Sudan)

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is towards the application made by Belarus to the UN Sanctions Committee seeking permission to sell arms to Sudan. [4924]

Dr. Howells: There have been no applications to the relevant UN Sanctions Committee seeking permission to sell arms to Sudan. The Government of Belarus have sought clarification on the scope of the UN arms embargo against Sudan, which has been provided by the Chairman of the UN Sudan Sanctions Committee.

Asylum Seekers

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the forced deportations of Uzbek asylum seekers by the Kyrgyz Government; and if he will make a statement. [4986]

Mr. Douglas Alexander: Our ambassador, accredited to Kyrgyzstan, visited the country from the 6–8 June. He was assured by the Kyrgyz Foreign Minister and the Chairman of the National Security Council that Kyrgyzstan would honour its commitments to the refugees under international law. He also spoke to the United Nations High Commission for Refugees (UNHCR) and United Nations Development Programme (UNDP) representatives in Kyrgyzstan about the refugee situation. The Acting President of Kyrgyzstan reassured the Organisation for Security and Co-operation in Europe on 30 May that Kyrgyzstan would make all efforts necessary to ensure the safety and welfare of refugees and to comply with relevant international commitments. The handing over of four refugees to the Andizhan prosecutor on 9 June appears to be a clear, and deeply regrettable, breach of those commitments.

During his visit our ambassador publicly emphasised the importance of involving the UNHCR in the process of determining the future of the refugees. The involvement of UNHCR is essential to ensure that Kyrgyzstan meets its international obligations. On 13 June the conclusions of the General Affairs and External Relations Council of the EU called on the Kyrgyz to respect these international commitments. This message was reinforced again by an EU statement at the OSCE on 16 June. Our EU partners and we will continue to monitor the situation closely.

Baltic Ferry

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reason the UK signed the 1995 Estonia Agreement preventing exploration of the wreck of the Baltic Ferry, Estonia; and if he will make a statement. [4878]

Ian Pearson: The purpose of the 1995 Estonia Agreement was to protect the final place of rest of the 852 people who died when the MS Estonia sank. The UK acceded to the agreement in 1999, consistent with our role as a leading maritime power and our friendly relations with Sweden, Finland and Estonia, who were the original contracting parties to the agreement. Latvia, Lithuania, Poland and Russia have also acceded to the agreement.

Bio-contamination

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures are being taken by UK embassies and consulates to protect employees against bio-contamination through the post. [5827]

Mr. Straw: The Foreign and Commonwealth Office (FCO) has issued guidance to all its missions overseas on the handling of potentially dangerous contaminants received through the post and advises them to practice drills on dealing with such incidents in conjunction with the local authorities. All suspicious parcels and letters should be scanned prior to opening and staff are advised to use medical standard face masks and latex gloves when handling such mail.

FCO overseas security advisers advise on the positioning of mail rooms and sorting facilities to ensure that they are located outside general working areas. Any suspicious mail is then isolated to avoid wider contamination. Missions are also advised to hold, or have ready access to, stocks of prescribed antibiotics so they can be administered quickly to staff.

The FCO is aware of the limitations of scanning equipment to detect possible contaminants and, in conjunction with Government research groups, is seeking more effective methods of detecting such threats.

Caribbean Terrorism

Colin Burgon: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the *(a)* Venezuelan and *(b)* US Government concerning the activities of terrorists in the Caribbean region. [5683]

Dr. Howells: We hold regular discussions with a number of Governments on global counter terrorism issues, including with the United States and Venezuela.

Civil Service

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs what value for money procurement savings were identified and what reduction in civil service posts occurred in his Department in 2004–05. [4546]

Mr. Straw: In the pre-Budget report 2004, my right hon. Friend the Chancellor of the Exchequer reported Office of Government Commerce (OGC) value for money gains in central civil government procurement for 2003–04 of £2 billion. OGC value for money procurement gains for 2004–05 are being calculated and will be published in the 2005 Treasury Autumn Performance report. Final figures for value for money procurement savings for the Foreign and Commonwealth Office are still being drawn together for submission to the OGC, but indications are that these will be in excess of £2.9 million.

In the 2005 Budget, the Chancellor of the Exchequer announced a headcount reduction of 12,500 posts by the end of 2004–05, towards the Government's target of a

gross reduction of 84,000 civil service and administrative posts by 2008. Under its efficiency plans, the Foreign and Commonwealth Office is committed to reduce staffing levels by 313 by 1 April 2008. The roll-out of a new database over the period in question makes exact comparisons difficult, but excluding staff paid for by fee income, we estimate staff numbers have declined by about 50 between April 2004 and April 2005.

Colombia

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the population displacement caused by violence in south-western Colombia. [4983]

Mr. Douglas Alexander: Our embassy in Bogota reports regularly on internally displaced people (IDPs) in Colombia, and discusses the situation with the Colombian authorities, the UN and NGOs. Given the nature of the issue, it is very difficult to put a completely accurate figure on the number of IDPs. Statistics provided by the Government of Columbia and unofficial statistics differ slightly, but the figures are in the region of 3 million people internally displaced. This humanitarian crisis has arisen as a direct result of the internal armed conflict in Colombia. Recent years have shown a marked decline in numbers of newly displaced people, although the overall figure of internally displaced people as a whole continues to rise, as the security forces made some headway against the illegally armed groups. Government of Colombia figures for 2003 and 2004 for new displacements are 219,469 and 137,315 respectively. But the situation is still critical and more needs to be done to address the issue. South-West Colombia, where the security forces are making a concerted push against the illegal armed groups, is particularly affected.

Correspondence

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter dated 1 February from the hon. Member for Banff and Buchan regarding the Diplomatic Bag Service. [1183]

Mr. Douglas Alexander: I replied to the hon. Member's letter on 6 June 2005.

Cote d'Ivoire

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the killing of civilians in the western Côte d'Ivoire town of Duékoué. [4985]

Ian Pearson: We are extremely concerned by events around Duékoué, including the deaths of over 50 people and the displacement of up to 8,000 civilians, and the continuing unrest in the west of Côte d'Ivoire. Together with our European Union partners we have called on all parties to the Ivorian conflict to promote calm, ensure there is no recurrence of these tragic events and keep to the timetable set for disarmament and demobilisation.

Cyprus

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the UN Security Council's recommendation to extend the mandate of peacekeeping forces in Cyprus. [4979]

Mr. Douglas Alexander: We welcome the UN Secretary-General's recommendation to extend the mandate of peacekeeping forces in Cyprus. We also commend the UN Force in Cyprus (UNFICYP) for its swift and successful implementation of many of the changes to its force strength and structure which were authorised in UN Security Council Resolution 1568 (2004) to take account of changes in the political context and physical changes on the ground. We are encouraged that the situation along the Green Line remains calm and that crossings have taken place frequently. In this regard, we welcome the Secretary-General's commitment to keep the operations of UNFICYP under close review and to revert to the Security Council in the event that major changes are warranted.

Sudan

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what his estimate is of the number of African Union troops required to secure Darfur; and how many there are at present. [4926]

Ian Pearson: The African Union (AU) led an assessment mission to Darfur in March this year to look at the AU force's performance. Military experts from the EU, UN, UK, US and Canada participated in this mission. On the recommendations of the assessment team, the AU decided to expand its mission in Darfur to over 7,700 personnel in order to fulfil its current mandate and to provide a secure environment throughout the region. The UK welcomed this decision, and has allocated £19 million to support the expansion. This brings our total support to the AU mission to almost £32 million.

At present, the AU has deployed almost 2,700 of the planned 3,320 staff for its mission. The shortfall is mainly due to delays in identifying and deploying suitable police officers. Our understanding is that approximately 460 police are deployed (out of a mandated 815). Efforts to close the gap continue.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to implement the UN Security Council resolution of 29 March to freeze the assets and restrict the travel movements of the architects of the genocide in Darfur. [4927]

Dr. Howells: The Government have fully implemented the obligations in Security Council Resolution 1591 (2005) in the United Kingdom, the overseas territories and Crown dependencies. It has made the necessary provisions for the assets freeze and travel ban to be applied to individuals who will be designated by the committee, including individuals that have committed violations of international humanitarian or human rights law or other atrocities.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects the first indictments to be handed down to the alleged perpetrators identified by the International Criminal Court on war crimes in Darfur. [4970]

Ian Pearson: Following a preliminary examination, the prosecutor of the international criminal court announced, on 6 June, his intention to open a formal investigation into the situation in Darfur.

The court will carry out its investigations in Darfur, as elsewhere, in an entirely independent capacity. The timing of the indictments, like the names and numbers of those to be investigated or prosecuted, is solely within the prosecutor's discretion.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the estimate made by the UN's Under Secretary for Humanitarian Affairs of the numbers of people that would die every month in Darfur if insecurity led to humanitarian organisations suspending their operations there. [4992]

Ian Pearson: Jan Egeland estimated in March that 10,000 Sudanese civilians were dying each month in Darfur. Estimates of deaths in Darfur vary from 70,000 to 300,000 and above. Accurate figures are not available and, even though the World Health Organisation is undertaking a second crude mortality survey, it will only give a snapshot of the situation. We are unlikely ever to get a full and wholly accurate picture of deaths from this conflict.

There are 2.7 million people in need of humanitarian assistance in Darfur and many of these would be put at great risk if humanitarian operations were suspended by any organisation for reasons of insecurity. This is why the Government fully supported the African Union's (AU) decision to increase their troop numbers from 3,000 to 7,700 and why the Government recently announced a further £19 million in funding to the AU mission in Darfur. This brings the UK's total funding to the AU to almost £32 million.

My right hon. Friend, the Secretary of State for International Development (Hilary Benn), reaffirmed to the Government of Sudan during his recent visit that NGOs must be allowed to operate freely and without harassment.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what criteria he used to decide whether the situation in Darfur constituted genocide. [5029]

Dr. Howells: There is no doubt that violations of international humanitarian and human rights law have been committed in Darfur. We have consistently made clear that the perpetrators of these terrible crimes must be brought to justice.

The UK applies the definition of genocide given in the International Criminal Court Act 2001. Under the Act, "genocide" is defined by reference to Article 6 of the Rome Statute, as certain acts committed with intent to destroy, in whole or in part, a national, ethnical, racial or religious group.

With regard to Sudan, the UK did not have sufficient evidence to judge whether the acts were undertaken with the intent necessary to constitute genocide.

For this reason, we pressed strongly for the establishment of an expert International Commission of Inquiry (ICI) by the Secretary-General of the United Nations to investigate the reports of violations of international humanitarian and human rights law in Darfur in 2004, and to determine whether genocide had occurred. The ICI's report, issued to the Security Council on 31 January 2005, concluded that the Government of Sudan did not appear to have pursued a policy of genocide in Darfur and that, while individuals may have done so, this was a determination which only a competent court could make. The conclusion that no genocidal policy had been pursued by the Government in no way detracted from the gravity of the crimes committed including crimes against humanity and/or war crimes. Following this, the UK played a leading role in sponsoring UN Security Council Resolution 1593 (2005) of 31 March, in which the Security Council referred the situation in Darfur to the International Criminal Court (ICC)—as recommended by the ICI. The prosecutor of the ICC announced a formal investigation on 6 June.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the two sides involved in the Darfur crisis to clarify which countries should be involved in the mediation process. [5048]

Ian Pearson: We fully support the African Union (AU) mediation in the Darfur peace talks in Abuja, and welcome the appointment of Dr. Salim Ahmed Salim as AU Special Envoy to the talks. We are pressing the Government of Sudan, the Sudan Liberation Movement/Army and the Justice and Equality Movement to co-operate fully with the AU mediation, and to work in good faith to achieve a political resolution of the conflict.

A number of international observers are also present at the talks, at the invitation of the AU, including a UK representative who is ready to provide support and advice, as required, to the mediation team and the parties.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects a new Senior Special Envoy to Sudan to be appointed to support the Comprehensive Peace Agreement and Darfur Peace Process. [1638]

Ian Pearson: Mr. Alan Goulty was appointed as the UK special representative for Darfur on 13 June. He will support the efforts to achieve a durable political settlement of the Darfur conflict.

Mr. Goulty has an unparalleled knowledge of Sudan, deriving from his previous appointments as British ambassador to Khartoum, Director for the Middle East and North Africa in the Foreign and Commonwealth Office, and, from 2002 to 2004, as the United Kingdom's special representative for Sudan. He played a key role in the successful negotiations of the Comprehensive Peace Agreement, which ended the 21 year civil war in Sudan. He will perform his new role in addition to his current responsibilities as British ambassador to Tunis.

This appointment underlines the UK's continuing commitment to achieving lasting peace throughout Sudan, including in Darfur.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the need for a peace-enforcement mandate for the African Union mission in Darfur. [1688]

Ian Pearson: The African Union (AU) led an assessment mission to Darfur in March to look at the AU force's performance. Military experts from the EU, UN, UK, US and Canada participated in this mission. It found that the AU's mandate was sufficient to promote peace and security in the region, but that more troops were needed to deliver it effectively.

On the recommendations of the assessment mission, the AU has decided to expand its mission in Darfur to over 7,700 personnel. It has also said that, within its existing mandate, the expanded mission will focus more on the provision of security. The increased number of troops will allow it to do this, and we are therefore working to support the AU in getting them deployed and fully operational as quickly as possible.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment he has made of the benefit to *(a)* the Government of Sudan and *(b)* the people of Darfur that will result from the oil contract between Cliveden Petroleum Sudan Ltd. and the Government of Sudan; [4514]

(2) what assessment he has made of the implications of the oil contract between Cliveden Petroleum Sudan Ltd. and the Government of Sudan for the *(a)* credibility and *(b)* effectiveness of UK foreign policy towards Sudan. [4560]

Ian Pearson: We are aware of reports that Cliveden Petroleum Sudan Ltd., as part of a wider oil exploration group, have been granted a concession to explore for oil in Darfur. We have no further details.

Following signature of the Comprehensive Peace Agreement (CPA) on 9 January 2005, all future oil contracts will be decided by the National Petroleum Commission (NPC), which will include representatives from oil producing regions. Under the terms of the CPA, the local, as well as national, interests of the population will guide the utilisation of oil. Local communities will have the right to participate in the development of oil from their areas, through their respective states/regions, and shall share in the benefits of that development. But for the full benefits of a peace dividend to be realised, the parties must achieve a political resolution for Darfur. To this end, we are pressing the Government of Sudan and the rebels to reach agreement in Abuja, consistent with the principles of power and wealth sharing as set down in the CPA. A UK observer is present at the talks.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will urge the Government of Sudan to end its suspension of the Khartoum Monitor. [5049]

Ian Pearson: On 21 May 2005 the Sudanese authorities suspended the publication of the English language daily newspaper, Khartoum Monitor, allegedly because of its coverage of the clashes in the Soba Aradi camp on 18 May. Our ambassador in Khartoum made strong representations on this matter to the Government of Sudan on 21 May.

On 12 June the Khartoum Monitor had its license revoked by the Press Council General Secretary. An appeal against the decision has been launched. We have since made further representations to the Government of Sudan. We regularly press the Sudanese authorities on the need to provide full press freedom and freedom of expression, which is enshrined in the Comprehensive Peace Agreement.

Democratic Republic of the Congo

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent assessment is of the outbreaks of violence in eastern villages of the Democratic Republic of the Congo. [4984]

Ian Pearson: We remain concerned by the level of violence in the east of the Democratic Republic of Congo (DRC). Many Congolese and foreign armed groups continue to prey on the local population. Poorly-paid and indisciplined Congolese army soldiers are part of the problem.

Despite the UN peacekeeping mission (MONUC) disarming around 13,000 militiamen since April, armed groups in Ituri remain a threat to civilians and attack MONUC patrols.

Rwandan Hutu rebels continue to perpetrate serious human rights abuses in the Kivu provinces. We continue to press the Congolese and Rwandan Governments to work together with MONUC towards disarming these groups.

Diplomats

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs how many ambassadors he has appointed since 1 March. [381]

Mr. Straw: Since 1 March five ambassadors, six high commissioners and three governors of Overseas Territories have been appointed. Some of these appointments are public, others not yet.

Ethiopia

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Ethiopian Government on recent events in Addis Ababa; and if he will make a statement. [5013]

Ian Pearson: On 8 June 2005 my noble Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs, the Lord Triesman of Tottenham made a statement stressing the Government's alarm at the reported loss of life and calling on all parties to take responsibility, reach consensus on the investigation of complaints about the electoral process and respect constitutionally established law. We welcome the fact that the Government and Opposition have since then signed an agreement on the investigation of complaints. A copy of the statement is available on the Foreign and Commonwealth Office website: www.fco.gov.uk/policy/news/press-releases.

Ministers have spoken to Prime Minister Meles to express concern about the events. My right hon. Friend the Secretary of State for International Development

(Hilary Benn) also discussed this further with Prime Minister Meles and Opposition Leaders in Addis on 15 June. He urged all parties to show a firm commitment to the National Election Board and to the constitutional process so that the election process can be concluded. He called on Prime Minister Meles to follow due legal process for those who have been detained, to allow immediate access for their families and the Red Cross and to hold a full investigation into the shootings.

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of recent events in Addis Ababa; and if he will make a statement. [5014]

Ian Pearson: We are alarmed at the recent incidents in Ethiopia and have expressed our concern to the Government and Opposition leaders. We are urging all parties to show calm and restraint.

It is vital that all parties now stand by and implement the declaration relating to the review and investigation of election complaints, which they have signed and committed to. The Prime Minister and the leaders of the Opposition Parties in Ethiopia owe it to the people of Ethiopia to ensure that the democratic process is completed peacefully and successfully.

Hamas

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 June 2005, *Official Report*, column 136W, on Hamas, what discussions his Department held with *(a)* the Conflicts Forum and *(b)* members of the Conflicts Forum between the death of Yasser Arafat and 1 March. [5660]

Dr. Howells: The Foreign and Commonwealth Office has had no discussions with the Conflicts Forum or with members of the Conflict Forum about Hamas between the death of Yasser Arafat and 1 March 2005. However, on 14 June, FCO Research Analysts met Beverley Milton-Edwards (Queens University Belfast and Conflicts Forum) to hear about the Forum's past activity.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 June 2005, *Official Report*, column 136W, on Hamas, on what date in February he authorised contacts with Hamas; and if he will make a statement. [5661]

Dr. Howells: My right hon. Friend the Foreign Secretary authorised working-level contacts with Hamas elected representatives not directly implicated in violence on 21 February 2005.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 June 2005, *Official Report*, column 136W, on Hamas, which senior Hamas official the deputy consul-general in Jerusalem was seated next to at President Abbas's inauguration in January. [5658]

Dr. Howells: The deputy consul-general, acting as chargé d'affaires, sat next to Hassan Youssef, a senior Hamas leader, at President Abbas's inauguration. They did not engage in substantive conversation.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 June 2005, *Official Report*, column 136W, on Hamas, on what dates his officials had discussions with *(a)* the Palestinian Authority and *(b)* Israel concerning the seating arrangements of British officials at President Abbas's inauguration in January; and if he will make a statement. [5659]

Dr. Howells: There were no discussions with either the Palestinians or Israelis about seating arrangements for President Abbas' inauguration. Seating arrangements were not prepared—they were carried out as people arrived on the day under chaotic conditions.

Iraq

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the *(a)* financial, *(b)* technical and *(c)* manpower support offered by the Government to the Iraqi archaeological services in the Multi-National Division South East area of operations since Operation TELIC I; and what further measures are planned. [5359]

Dr. Howells: The Government take very seriously the need to respect Iraq's cultural heritage. As United Nations Security Council resolution 1546 (June 2004) stressed, all parties need to respect and protect Iraq's archaeological, historical, cultural, and religious heritage.

The Government's support has been for the Iraqi Ministry of Culture who have national responsibility for cultural heritage in Iraq. Foreign and Commonwealth Office officials are in regular contact with the Iraqi Ministry of Culture. My right hon. Friend the Secretary of State for Culture, Media and Sport spoke with the former Iraqi Minister of Culture on 26 January and is kept closely informed of key cultural issues in Iraq.

In early 2005 the Government funded a capacity-building visit to the UK by three Iraqi interns from the Ministry of Culture. They received training on site management techniques and museology and were based at the British Museum. The Secretary of State for Culture, Media and Sport will give careful consideration to any further proposals designed to help the cultural reconstruction of Iraq.

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have received in relation to the killing of Iraqis in the Kasra-wa-Atah district of north Baghdad on 5 May. [5542]

Dr. Howells: The Government have not received any representations relating to the bodies found in Kasra-wa-Atah district of north Baghdad on 5 May.

Israel

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Government of Israel on attacks by the Israeli Defence Force which have impacted on Palestinian police officers. [3061]

Dr. Howells: The UK is actively working to build the capacity of the Palestinian civil police, through the EU Co-ordinating Office for Palestinian Police Support (EUCOPPS).

We have raised with the Israeli Government the importance of facilitating Palestinian efforts to deliver effective policing, and we have made representations where Israel Defence Force (IDF) actions have affected Palestinian authority operations. In extreme cases IDF actions have led to the deaths of policemen. We call for both sides to maintain the period of calm and increased co-operation between the Israeli Government and Palestinian authority.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs if the UK will press the EU to take measures under Article 79 of the EU/Israel Association Agreement to enforce the human rights conditions of the Agreement. [5445]

Mr. Douglas Alexander: We do not plan to call on the EU to take measures under Article 79 of the EU-Israel Association Agreement. The Government believe that, as a friend of Israel and the Palestinians, we can best exert influence and encourage both sides to take the steps needed for progress through close engagement. We, and our EU partners, regularly call on both sides to meet their roadmap commitments; for the Palestinians this includes taking effective action against terrorism and for the Israelis a freeze on all settlement activity and the easing of restrictions on the movement of persons and goods. We do not believe, however, that punitive measures would bring the parties any nearer to a peaceful resolution.

Malaysia

David Taylor: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects UK veterans of the campaign in Malaysia between 1957 and 1966 to be able to receive the Pingat Jasa Malaysia medal awarded by the present Malaysian administration to all Commonwealth veterans of that campaign. [5000]

Mr. Straw: In the light of the Malaysian Government's request to present the Pingat Jasa Malaysia medal to British citizens, I have asked for certain principles of the Government's rules governing the accepting and wearing of foreign awards to be reviewed. The timing of an announcement on whether the Pingat Jasa Malaysia medal may be presented will depend on the review, which I hope will be conducted quickly.

Murder Trial (Spain)

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Spanish authorities on the date for commencement of the trial of the two Venezuelan nationals accused of the murder of the constituents of the hon. Member for Clwyd, South, Tony and Linda O'Malley, in March 2003; and if he will make a statement. [4981]

Mr. Douglas Alexander: We continue to take a close and active interest in the case of Mr. and Mrs. O'Malley's murder. This has included high-level representations at an early stage in the investigation. My right hon. Friend the Foreign Secretary asked the Spanish Foreign Minister, Ana Palcio, on 9 April 2003 to ensure that DNA samples relating to the murder could be tested as soon as possible. My hon. Friend the former Minister of State for Foreign and Commonwealth Office Affairs (Mr. MacShane) also raised the issues of the speeding up of forensic testing and repatriation of the deceased with the Spanish Minister for Europe, Ramón de Miguel on 6 June 2003.

Spanish legal proceedings against the two Venezuelans accused of the murder are now under way. These differ significantly from a trial in the UK system. Since the proceedings began, we have not made representations to the Spanish authorities on any aspect of the case, as, under international law, we are unable to interfere in the judicial process of other countries. Our own judicial proceedings are similarly protected.

Non-proliferation Treaty

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs who the UK representatives at the Non-Proliferation Treaty Review Conference were; and what assessment he has made of the conference outcome. [5754]

Dr. Howells: Full details of the UK Delegation can be found on the non-proliferation treaty (NPT) website at: www.un.org/events/npt2005.

The Review Conference was not able to agree a substantive final document as the UK would have preferred. But it was able to discuss ways to address threats to the non-proliferation regime. The UK will be pursuing these ideas in appropriate fora over the coming months.

North Korea

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the nuclear weapons capability of North Korea; and if he will make a statement. [4980]

Ian Pearson: The Government have, for some time, had serious concerns about the nuclear programme and nuclear weapons ambitions of the Government of the Democratic People's Republic of Korea (DPRK). We take every opportunity to raise these concerns in our dealings with the DPRK Government.

The Government assess that the DPRK extracted sufficient plutonium in the early 1990s for up to two nuclear warheads and that it has the technical capability to weaponise this material. Since then, the DPRK claims to have extracted enough plutonium from its stock of fuel rods to manufacture several additional nuclear warheads. We also believe the DPRK is pursuing efforts towards production of highly enriched uranium.

We call on the Government of North Korea to reconfirm its commitment to the denuclearisation of the Korean peninsula, and to re-engage in discussions with the other participants of the 6 Party Talks process to achieve their objective peacefully through negotiation. We also continue to be gravely concerned about the

human rights situation in North Korea and raise this regularly with the DPRK authorities at ministerial and official level.

Operation Bracknell

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to ensure that all costs incurred by Sussex police in respect of Operation Bracknell in relation to the South East Asian tsunami are reimbursed. [5882]

Ian Pearson: The Sussex police have submitted a bill for Operation Bracknell costs incurred up to 31 March 2005. This bill, together with bills from police forces submitted in recent days, is being checked to see that it has been prepared in accordance with agreed guidelines. Appropriate costs will be reimbursed in July. A working group has been set up to consider what costs will be reimbursed for the period from 1 April.

Second World War

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs which heads of Government have accepted invitations to attend UK commemorative events for the anniversary of the end of the Second World War. [5357]

Mr. Straw: There will be a series of public events in the UK to commemorate the 60th anniversary of the ending of the Second World War, which will culminate in a Day of National Commemoration on Sunday 10 July. This event is conceived principally as a national event for UK veterans, and not as an inter-governmental occasion. A decision was therefore taken not to invite Heads of Government but to invite all Heads of Diplomatic Missions accredited to the UK, as well as the UK representatives of the Overseas Territories. The only Head of Government who is attending the events on this day is my right hon. Friend the Prime Minister.

Torture

Mr. Maples: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 June 2005, *Official Report*, column 133W, on British detainees (torture allegations), (1) how many times in each of the last five years cases in which his Department has requested an impartial investigation by the relevant national authorities into allegations of the torture or ill-treatment of British citizens detained abroad have been drawn to the attention of Ministers; [5232]

(2) how many times in each of the last five years cases in which the Department has raised concerns about the torture or ill-treatment of British citizens detained abroad with the relevant national authorities have been drawn to the attention of the Minister. [5233]

Dr. Howells: Foreign and Commonwealth Office Ministers are updated on a fortnightly basis on significant consular cases within their areas of responsibility. These updates would normally include information about any action taken on behalf of British nationals in detention overseas who have made allegations of mistreatment and Ministers take a close interest in these cases. Specific details on such cases are kept on individual case files only and it would therefore incur disproportionate cost to undertake the research necessary to provide exact figures.

UKvisas

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs which organisations he has identified as competitors to UKvisas; and whether they are required to meet public service agreement targets. [4767]

Dr. Howells: UKvisas is a joint Foreign and Commonwealth Office and Home Office Government Department responsible for administrating the UK immigration control overseas through the issue of entry clearance.

Under the FCO public service agreement (PSA) UKvisas aims to provide an effective and efficient entry clearance service as measured by specific underlying targets. The UKvisas annual report for 2004 available on the UKvisas website, www.ukvisas.gov.uk, gives details of performance against targets.

The UKvisas business plan available on the same website, details the specific underlying PSA targets for 2005–06. We review and compare our performance with that of other visa operations such as those of the USA, Australia and Schengen countries. Each may be subject to various performance-monitoring regimes by their governments.

Iraq

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his reply of 13 June 2005, *Official Report*, column 137W, on Iraq, if he will write to the hon. Member for Carmarthen, East and Dinefwr once his inquiries with the United States Government are completed. [5657]

Dr. Howells: I confirm that a letter will be sent once a reply from the relevant US Government officials has been received.

Zimbabwe

Mr. Robathan: To ask the Secretary of State for Foreign and Commonwealth Affairs what information his Department has received regarding the country of origin of the Alouette helicopter spare parts sold to Zimbabwe. [4488]

Ian Pearson: We understand that the Alouette helicopter spare parts were supplied as part of a procurement package signed between South Africa and France and delivered from 1966 to 1971; and that they were subsequently offered for sale by the South African Air Force when the helicopters for which they were supplied were decommissioned.

HOME DEPARTMENT

Advisory Council for the Misuse of Drugs

Mrs. Gillan: To ask the Secretary of State for the Home Department what assessment he has made of the merits of barring those members of the Advisory Council for the Misuse of Drugs who were part of the group recommending the reclassification of cannabis to Class C from the current assessment of the stronger varieties of cannabis. [4044]

Paul Goggins: A number of members of the Advisory Council on the Misuse of Drugs (ACMD), including the Chairman, were members of the ACMD when it considered the classification of cannabis preparations and provided its advice to the Home Secretary in March 2002.

As an independent advisory body it is important that the ACMD should be free and unfettered to conduct its business, without the interference of Parliament or Ministers. Members are appointed on the basis of their individual qualities and expertise, and on appointment are charged with providing independent and impartial advice to the best of their ability. Considerable effort is made to ensure that the membership of the ACMD reflects all necessary and appropriate disciplines and areas of knowledge and expertise, and it is fundamental that its advice is based on the contributions of its full membership so that it is as full and strong as possible.

I remain confident in the integrity and professionalism of the ACMD and its membership, and look forward to receiving its advice.

Airwave

Sarah Teather: To ask the Secretary of State for the Home Department by what date he expects the extension of the Airwave system to the London Underground to be complete. [2543]

Hazel Blears: Airwave already covers most of the London Underground network. We expect the whole network, including the very deepest tunnels, to be covered by 2008. The British Transport police, who are responsible for policing the London Underground, already have radios that work in that environment.

Antisocial Behaviour

Mr. Jenkins: To ask the Secretary of State for the Home Department how many vehicles have been confiscated as a result of antisocial behaviour in Tamworth since police were given powers to do so. [3325]

Hazel Blears: Powers under Section 59 of the Police Reform Act 2002 allow a constable in uniform, after giving a warning, to stop and seize a motor vehicle, if he/she has grounds for believing that it is being used (or is likely to be used) in an antisocial manner causing harassment, alarm or distress.

Following the commencement of this power on 1 January 2003 the police in Tamworth introduced 'Operation Trench' in response to the problems caused by antisocial use of vehicles. To date the police have issued 119 Section 59 Warning Notices to the users of motor vehicles (both cars and bikes) and recovered 15 vehicles in total. The operation has also recovered seven stolen motor vehicles, resulting in the arrest of eight individuals.

Mr. Crabb: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in Preseli Pembrokeshire in each year since 1997. [3712]

Hazel Blears: Antisocial behaviour orders, introduced in the Crime and Disorder Act 1998, have been available to the courts since 1 April 1999. From commencement up to 31 May 2000 data were collected, on aggregate numbers only, by police force area. Since 1 June 2000, from copies of the orders received, we are able to determine the local government authority areas in which prohibitions have been imposed. The constituency of Preseli Pembrokeshire is located within the local government authority area of Pembrokeshire county council. The available information is given in the table.

ASBOs issued at all courts, as reported to the Home Office, where restrictions are imposed in the Pembrokeshire county council area, by period, up to 30 September 2004 (latest available)

	Number
1 April 1999 to 31 May 2000[1]	—
1 June 2000 to 31 December 2000	—
2001	—
2002	—
2003	—
1 January to 30 September 2004	6
Total	7

[1] Between 1 April 1999–31 May 2000 data were collected on aggregate numbers only by police force area (pfa).

Automatic Number Plate Recognition

Tom Brake: To ask the Secretary of State for the Home Department if he will make a statement on the outcome of the pilot Automatic Number Plate Recognition system project. [3952]

Paul Goggins: The Automatic Number Plate Recognition (ANPR) pilot evaluation report, 'Driving Crime Down—Denying Criminals the Use of the Roads' tracked the first year of ANPR Project Laser Two and tested the roll out and operation of ANPR-enabled police intercept teams. The report concluded that ANPR is one of the most effective technologies currently available to the Police Service.

ANPR has had an impact on crime at all levels and has also proved effective in intelligence gathering and post-incident investigation. Dedicated police intercept officers in 23 forces using ANPR technology during Laser Two, achieved a nine fold increase in their average arrest rate to that of the nationally accepted average. In addition, the same officers produced three times the Offences Brought to Justice compared to conventional policing.

The national rollout of ANPR is now well under way and it is the Association of Chief Police Officer's (ACPO) vision, supported by the Home Office Police Standards Unit, for each police force to have at least one dedicated ANPR intercept team in place by October 2005 and for this facility to be extended to the equivalent of one per Police Basic Command Unit by April 2008.

The Government remain committed to ANPR so that it may both build and improve upon the level of success it has achieved so far.

Tom Brake: To ask the Secretary of State for the Home Department how the Automatic Number Plate Recognition system is expected to help reduce the number of uninsured drivers. [3953]

Paul Goggins: Automatic Number Plate Recognition (ANPR) intercept officers can currently issue an endorsable fixed penalty notice for the offence of driving while uninsured. Approximately 12 per cent. of the 54,035 fixed penalty notices issued during the Laser Two pilot were for this offence.

Provisions in the Serious Organised Crime and Police Act 2005 give police both improved access to the Motor Insurers Database (this is an automated system of identifying to police officers those vehicles that are on the road that are uninsured) and a statutory power to seize a vehicle if there is no valid certificate of insurance for that vehicle.

The Government hope that by utilising these additional powers, police ANPR-enabled intercept teams will significantly help to reduce the number of vehicles that are using the roads without valid insurance cover.

Bicycle Bells

Mr. Evans: To ask the Secretary of State for the Home Department what guidance his Department issues to the police on ascertaining whether a bicycle without a bell was sold before the change in the law requiring a bell came into force. [4224]

Paul Goggins: None: The requirement for the mandatory fitting of bells on pedal cycles is enforced at the point of sale by local authority trading standard officers. It is not a matter for the police.

Mr. Evans: To ask the Secretary of State for the Home Department how many prosecutions there have been for not having a bicycle bell of *(a)* cycle dealers and *(b)* cyclists. [4223]

Paul Goggins: It is not possible to identify offences related specifically to bicycle bells from the data held on the Home Office Court Proceedings database as this information is not centrally collected.

British Airport Users

Dr. Pugh: To ask the Secretary of State for the Home Department what recent research has been *(a)* undertaken and *(b)* commissioned by his Department into the profiles of users of British airports. [3968]

Mr. McNulty: United Kingdom border controls are operated by the immigration service on an intelligence led basis. The monitoring of arriving traffic at all ports of entry and the risk assessment of any new or proposed traffic is undertaken on a regular basis within the context of research underpinned by intelligence which is gathered through the National Intelligence Model.

The immigration service monitors emerging trends identified by frontline staff and regional intelligence units. This information is analysed and a national intelligence report produced which enables targeted action to counter abuse. Increasing functionality within the e-Borders programme will enhance and augment existing profiling processes.

In addition the Multi Agency and Risk Assessment Group (MATRA) ensures that at the 36 airports participating in the process, the airport authorities and the three border agencies work closely together to effectively identify and assess risks to general security and put in place action plans in order to counter any potential threats.

Charities Commission

John Hemming: To ask the Secretary of State for the Home Department what audits the Charities Commission uses to determine whether charities are acting in accordance with their constitutions. [3727]

Paul Goggins: This is a matter for the Charity Commission as the Government Department responsible for the regulation of charities in England and Wales. The chief executive at the Charity Commission will write to the hon. Member and a copy of his reply will be placed in the Library.

Community Support Officers

Ben Chapman: To ask the Secretary of State for the Home Department how many community support officers are located in Wirral, South constituency. [4815]

Hazel Blears: The Merseyside police had 173 community support officers at the end of March. The chief constable (Bernard Hogan-Howe) is responsible for the operational management of the force including the deployment of community support officers (CSOs) to the Wirral area basic command unit. Within the Wirral the deployment of CSOs is a matter for the area commander. You may therefore wish to redirect your query to either the chief constable or the area commander (chief supt. Alan Jones).

Funding is being made available over the next three years to assist in the recruitment of a total of 24,000 CSOs by 2008. The investment will help deliver our commitment that by 2008 every area in England and Wales will benefit from dedicated, visible, accessible and responsive neighbourhood policing teams.

Mr. Jenkins: To ask the Secretary of State for the Home Department how many of the community support officers the Government plan to recruit by 2008 he expects to be posted in Tamworth. [3324]

Hazel Blears: Community support officers (CSOs) are employed by police authorities, and their deployment is an operational matter for the chief constable. We are making funding available to help increase the number of CSOs to 24,000 by 2008. This investment will help deliver our commitment that by 2008 every area in England and Wales will have access to a dedicated, visible, accessible and responsive neighbourhood policing team.

Mr. Jenkins: To ask the Secretary of State for the Home Department what the value of assets seized from criminals by the Asset Recovery Agency under the Proceeds of Crime Act 2002 broken down by region has been in each year since 2002. [3339]

Hazel Blears: The information is not available in the format requested . The Assets Recovery Agency came into operation on 24 February 2003. The total value of assets recovered by the agency through civil recovery and taxation is £4.6 million. The agency has also obtained orders to freeze assets with a total value of £37.8 million.

Correspondence

Sir Michael Spicer: To ask the Secretary of State for the Home Department when the Minister of State will reply to the letter from the hon. Member for West Worcestershire of 26 May. [4792]

Mr. McNulty *[holding answer 15 June 2005]:* I replied to the hon. Member on 16 June.

Crime and Disorder Statistics

Anne Milton: To ask the Secretary of State for the Home Department how many alcohol-related crimes there have been in *(a)* Guildford, *(b)* Waverley and *(c)* Surrey in each year since 1998. [3378]

Hazel Blears: It is not possible to identify offences that are alcohol-related from the recorded crime data collected centrally.

Anne Milton: To ask the Secretary of State for the Home Department what the crime detection rates for *(a)* violence against the person, *(b)* sexual offences, *(c)* robberies, *(d)* burglaries, *(e)* theft of a vehicle and *(f)* theft from a vehicle have been in (i) Guildford and (ii) Waverley crime and disorder reduction partnership areas in each year since 1998. [3379]

Hazel Blears: The information requested is not available. Detection rates are only available centrally for crime and disorder reduction partnerships (CDRPs) which are co-terminous with basic command units. This is not the case with the Guildford and Waverley CDRPs which fall within the West Surrey basic command unit.

Anne Milton: To ask the Secretary of State for the Home Department how many recorded offences of *(a)* violence against the person, *(b)* sexual offences, *(c)* robberies, *(d)* burglaries, *(e)* theft of a vehicle and *(f)* theft from a vehicle there have been in (i) Guildford and (ii) Waverley crime and disorder partnership areas in each year since 1998. [3382]

Hazel Blears: The available information relating to the Guildford and Waverley crime and disorder reduction partnership (CDRP) areas is given in the tables. Data at CDRP level are only available from 1999–2000.

Table 1: Recorded crime in the Guildford crime and disorder reduction partnership area, 1999–2000 to 2001–02

Number of offences

	1999–2000	*2000–01*	*2001–02*
Violence against the person	1,027	1,175	948
Sexual offences	83	114	103
Robbery	51	70	78
Burglary in a dwelling	518	609	419
Theft of a vehicle	555	556	455
Theft from a vehicle	1,078	850	736

Note:
The data in this table are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 2: Recorded crime in the Guildford Crime and Disorder Reduction Partnership area, 2002–03 and 2003–04

Number of offences

	2002–03	*2003–04*
Violence against the person	1,196	1,555
Sexual offences	95	93
Robbery	69	93
Burglary in a dwelling	529	495
Theft of a vehicle	515	414
Theft from a vehicle	865	786

Note:
The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Table 3: Recorded crime in the Waverley Crime and Disorder Reduction Partnership area, 1999–2000 to 2001–02

Number of offences

	1999–2000	*2000–01*	*2001–02*
Violence against the person	491	612	474
Sexual offences	73	62	58
Robbery	18	21	27
Burglary in a dwelling	363	311	314
Theft of a vehicle	219	198	299
Theft from a vehicle	504	439	470

Note:
The data in this table are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 4: Recorded crime in the Waverley Crime and Disorder Reduction Partnership area, 2002–03 and 2003–04

Number of offences

	2002–03	*2003–04*
Violence against the person	628	825
Sexual offences	60	54
Robbery	22	30
Burglary in a dwelling	359	289
Theft of a vehicle	249	192
Theft from a vehicle	524	519

Note:
The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Mr. Hands: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of section 30 of the Anti-social Behaviour Act 2003 in the areas where it has been used in the London borough of Hammersmith and Fulham. [3423]

Hazel Blears: The Commissioner of Police of the Metropolis tells me that there has been positive feedback from the community and a reduction in the

number of calls to the police in the areas of Hammersmith and Fulham which have been authorised under section 30 of the Anti-social Behaviour Act 2003.

Mr. Hands: To ask the Secretary of State for the Home Department what guidelines his Department has issued to the Metropolitan Police Service regarding the implementation of section 30 of the Anti-social Behaviour Act 2003. [3424]

Hazel Blears: A Home Office circular was issued to all police forces when this section came into force in January 2004 . In addition the Association of Chief Police Officers has circulated practice advice to all forces.

Mr. Hands: To ask the Secretary of State for the Home Department how many crimes where the victim was aged 18 or under were reported in Hammersmith and Fulham constituency in *(a)* 1997, *(b)* 2001 and *(c)* 2004, broken down by type of crime. [3416]

Hazel Blears: This level of information is not collected centrally.

Mr. Hands: To ask the Secretary of State for the Home Department how many crimes involving mobile telephones were reported in Hammersmith and Fulham constituency in *(a)* 1997, *(b)* 2001 and *(c)* 2004. [3417]

Hazel Blears: The information requested is not collected centrally.

Mr. Hands: To ask the Secretary of State for the Home Department what discussions he has had with the Metropolitan Police Service regarding the areas within the London borough of Hammersmith and Fulham that have been designated under section 30 of the Anti-social Behaviour Act 2003. [3422]

Hazel Blears: None.

Mr. Hands: To ask the Secretary of State for the Home Department how many bicycle thefts were reported in Hammersmith and Fulham constituency in *(a)* 1997, *(b)* 2001 and *(c)* 2004. [3418]

Paul Goggins: There were 1,006 recorded offences of theft or unauthorised taking of a pedal cycle in 2001–02 and 1,271 offences recorded in 2003–04. Because of the introduction of the National Crime Recording Standard in April 2002, the two figures are not directly comparable. Statistics for 1997 are not available centrally.

Criminal Records Bureau Checks

Lynne Featherstone: To ask the Secretary of State for the Home Department (1) how many care home staff are awaiting clearance from the Criminal Records Bureau; how many care home staff were awaiting clearance in each of the last 18 months; and if he will make a statement; [3976]

(2) what the average waiting time is for a check to be carried out by the Criminal Records Bureau; and if he will make a statement. [4031]

Andy Burnham: The information requested regarding care home staff is not available. The Criminal Records Bureau (CRB) is unable to provide information on Disclosure applications based on specific employment sectors. The CRB is planning enhancements to the Disclosure application form which will enable greater analysis in the future.
